5 cents each.

Article on Toric Printed By New York Mining Journal

A well written article relative to development work at the Toric Mine appears in the issue of the New York Engineering and Mining Journal-Press of April 18th. It is profusely illustrated, and gives excellent views of the camp, portal of the tunnel, gasoline speeder on railway track, and the compressor plant.

Following are extracts from the article:

"A vein of gold-silver ore 65 feet long, containing $\frac{1}{2}$ oz. of gold and 12 oz. silver per ton, is being developed by the Consolidated Homestake Mining and Development Co. at the Toric mine, in British Columbia, according to A. C. H. Gerhardt, who has just sailed from New York to London. Mr. Gerhardt, who is managing director of the company, makes his headquarters in British Columbia, but is now going to London for the purpose of financing the construction of a mill. He estimates the reasonably assured ore reserve to be not less than 256,000 tons containing \$12 per ton in gold and silver.

Flotation tests made in Seattle have demonstrated the fact that the ore cannot be treated effectively by flotation, because most of the silver occurs in metallic form, and the heavy flakes are not readily floated. However, it is possible, according to Mr. Gerhardt, to recover at least 90 per cent. of the precious metal content by straight amalgamation, and his plan is to erect a plant of this character with 50 tons daily capacity during the coming summer."

New Ore Discovery Made on Homeguard

Property Has Wonderful Possibilities

An entirely new ore discovery was recently made on the Homeguard property, by Wm. McFarlane, who brought samples of the ore to town. The vein width of the ore is about five feet, and it is located only about 300 feet from the Kitsault River. Samples of the ore brought down are similar to float found previously on the property and which gave assay returns of \$18.00 gold per ton. The samples have been sent out for assaying for zinc, gold and silver.

Wm. McFarlane has taken in supplies, and is driving a tunnel on the ore vein, which is already in eight feet.

The Homeguard is one of the properties of the Alice Arm district from which big things are expected. Previous development work has proved up a big tonnage of copper ore, chiefly in the form of gigantic boulders. Ore was discovered in place last fall, and this new strike of ore in place is considered of considerable importance.

Alice Arm Government Work Well Under Way

The new wing dam which is being built on the east bank of the Kitsault to protect the pier of the big bridge is almost completed, states J. Wells, who has charge of all government public work in the district.

The new dam is 160 feet in length and 10 feet wide. Three hundred feet of rock were required to fill the cribbing, and ten men are employed. Owing to the absence of any rock on the east bank, it was necessary to transport rock from the opposite side.

Four new bridges are under construction on the Shore road across the flats. The old Illiance River trail bridge is being replaced and the new bridge is nearing completion. Five men are being employed on this work.

The work of repairing the Shore road is also nearing completion. The road is being repaired from the Government wharf to the logging camp of Eric Carlson, and when finished will be in excellent shape for vehicular traffic. Seven men are now engaged on this work.

A crew of three men are engaged in clearing and repairing the trail to the Esperanza mine, and some parts are being widened. The Public Works Department had twenty-five men on the payroll during the week.

Although the appropriations necessary for the repairing of the Dolly Varden railway and extension of the Shore road to connect with the Illiance trail have not yet arrived, it is expected that it will not be much longer delayed. In addition to the above work, repair work will be undertaken in the upper Kitsault country and the Illiance river trail. A bridge across the Kitsault near the Homestake, and a trail to the Climax property is also on this year's programme.

Anyox Moose Install Their New Officers

At the regular Lodge Meeting of the Loyal Order of Moose, Anyox Lodge No. 1412, on Tuesday evening, April 24th, the new officers for the ensuing year were installed. The meeting was very enthusiastic and the Brothers agree that the new officers will very capably fill their various offices.

Following are the new officers:
Dictator—F. W. Cross
Vice-Dictator—H. Ward
Prelate—J. Maguire
Past Dictator—A. Roberts
Secretary—J. G. Ellis
Orator—J. Varnes
Serjeant-at-Arms—L. Dodd
Inner Guard—W. Rowlandson
Outer Guard—S. McKeown

After the meeting a social evening was spent, the members wives and friends arriving after the Lodge session.

Vaccination Against Smallpox

A Few Reasons Why It Is Necessary

By Dr. D. R. Learoyd

At this time when smallpox is epidemic in Vancouver, and when cases are also reported farther up the coast, the necessity for vaccination in Anyox and the district becomes apparent, for it is not unlikely that a case of smallpox may, at any time, walk off the boat and be discovered in our midst.

Quite apart from the fact that epidemic smallpox paralyzes trade and industry, and is extremely costly to any town or city or municipality (it costs more than \$150.00 to care for every case of smallpox!) Physicians and health officers everywhere, realize that the disease is not becoming lighter in form, but on the contrary, that severe epidemics are, every year or so, in unvaccinated areas, taking their toll of lives.

Statistics are usually dull to read, but a few illuminating records of epidemics no later than the year 1924 reveal the following facts: In our own country, in Windsor, Ontario, there was an outbreak of malignant smallpox between December 12, 1923 and March 17, 1924, and there resulted 67 cases with 22 deaths i.e. a fatality rate of 33 %! In Detroit, Michigan, in 1924, in the period from March 16 to June 1, there were 795 cases with 105 deaths, and another period of this epidemic from April 13 to August 31, 1924 resulted in 784 cases with 139 deaths! Of these deaths 123 resulted from the terrible haemorrhagic or so-called "black" smallpox. Illinois, Minnesota and other states also suffered in 1923-24.

We are therefore forced to the conclusion that the disease is not becoming less virulent or less common, and it behooves us to take what precaution we may to not only stamp it out when it appears, but to anticipate it. Children unfortunately, are the greatest sufferers, as a rule from smallpox, and we owe it to them, to assist the health authorities in controlling the disease.

Figures and facts are at hand to show the efficacy of vaccination. Let it suffice to say that the introduction under the skin (smallpox is essentially a skin malady) of a minute quantity of serum or vaccine (which is prepared under the most aseptic precautions from a carefully-fed, disease free calf,) will effectually prevent smallpox from occurring in the vaccinated individual.

If that individual has a successful "take," he will, in approximately a week's time, develop a raised

Support Your Local Sport

Baseball players attention! Jimmie Mitchell has taken the Smelter team in hand. All those wishing to try for a place please report to Mr. Mitchell at once.

Mooseheart Legion Hold Sale of Work

The women of the Mooseheart Legion held a sale of Home Cooking and Fancy Work, last Monday afternoon. The affair was very successful in every way, due to the combined efforts of all members. The ladies in charge of the stalls were: Dry Goods and Fancy Work, Mrs. Russell, Mrs. Persin and Mrs. Wilson. Home Cooking: Mrs. Peterson and Mrs. MacMillan. Flower stall: Mrs. Cameron and Mrs. Foxley. Candy stall: Mrs. Varnes.

Mrs. W. Dodd, Mrs. L. Dodd, and Mrs. F. Cross served tea. A very nice centre piece which was donated by Mrs. J. Zitko was raffled, and won by Mr. W. R. Murdoch.

Alice Arm Logging

Mr. J. O. Trethewey, will log about 2,000,000 feet timber on Lots 60 and 62 during the coming summer. Lot 62 is situated at Roundy Creek, and it is possible that stands of government timber will be secured in this locality by Mr. Trethewey in addition to the timber on Lot 62. This would bring the total up to around 4,000,000 feet to be logged.

Mr. Trethewey states that a market can be found for No. 1 and 2 spruce, but not for hemlock. The timber, however, must be logged this year, as the sap part of the log is deteriorating, and the sawmills are commencing to cut down their scale on the sap.

Eric Carlson will shortly be in a position to commence logging. Three million feet b.m. has already been towed south, No. 1 and 2 spruce going to Prince Rupert and the balance to Ocean Falls. He has seven million feet still in the booms. Mr. J. Taylor, arrived last week from Ocean Falls to supervise the sorting of the logs, and has let a contract for this work to Joe Keith and Jean Limuix. Mr. Taylor expects to be here about six weeks.

ALICE ARM NOTES

See Al. Falconer for Freight and Pack Horses.

Mr. M. M. Stephens and daughter Eileen, accompanied by Miss Graham, arrived on Sunday on their own launch and left on Wednesday. Mr. Stephens was here on business in connection with fire insurance, and Miss Graham was travelling in the interests of the Rupert Daily News.

Mr. and Mrs. J. O. Trethewey arrived on Monday from the south. Mrs. Trethewey came direct from England, where she has spent the past few months visiting her daughter.

Hand Laundry Work. Moderate prices—Miss B. Crawford, Alice Arm.

Dr. D. R. Learoyd, who recently paid us a brief visit, vaccinated 33 persons while here, the large majority being children.

J. M. Morrison left on Monday on a short business trip to Stewart.

J. C. Lough was a passenger south on Monday, for Vancouver Island.

Anyox Elks Hold Their Third Annual At Home

Last Wednesday evening was the occasion of the Elks fifth anniversary and third Annual At Home. A very pleasant evening was spent at cards and dancing. Cards were started at 8.15, only whist being played, and continued until 10 o'clock. Mrs. Chas. Gray won the first Ladies' prize, and Mr. Greig Thompson won the first gents. Miss Annie Scott won the Ladies' consolation and Mr. James Ritchie, gents.

After cards, refreshments were served in the Dugout, during which a very pleasing musical programme was supplied. Brother Bud Sheen rendered a very pleasing vocal solo, accompanied by Mrs. H. B. Chapman on the piano. The second number also made a big hit and was rendered by Brother Buntain on the steel guitar. Brother Mitchell finished the programme with a vocal solo, which proved quite as popular as the preceding numbers.

When refreshments were over, dancing was indulged in to music rendered by the Elks' orchestra. Messrs. Austin, piano; Waterman, drums, and Armstrong, violin, supplied snappy music for the occasion.

The guests of the Brother Bills unanimously feel that a very pleasant social evening was enjoyed by all present. The committee in charge of the evening's programme were: Brothers Parmiter, Robertson, Gibb, Hutchison and Nickerson.

Three Anyox Baseball Teams Organize

The baseball players got together for their annual meeting at the Beach Gymnasium on Wednesday evening. Officers were elected for the season of 1925. Doug. Roi was elected President. Walter Olson vice-President and H. I. Thorley retained his office as secretary. Three teams were entered for the coming pennant race. A. L. Poyart entered the Mine team, J. Cody the Elks and J. Mitchell the Smelter. An arbitration board was also chosen, consisting of: H. Kirk, T. Gilmour, J. Swanson, J. Wilson and Jack Pottinger.

The executive, consisting of the President, vice-president, secretary and a delegate from each club will meet in the near future and draw up a schedule.

Outlook for Anyox Football Is Good

The Football League have drawn up their schedule for the coming season, and expect to get under way on Tuesday evening. Football will be good this summer, and a large turnout of fans is expected. Don't forget the football dance Monday 25 of May.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Post Office System Has Huge Turnover

At the close of our last fiscal year there were in operation throughout Canada 12,370 Post offices. During these twelve months 205 new offices were established, and 213 were closed, due to the extension of rural mail delivery routes, so that there was a net increase of 82 offices.

The extension of the rural mail delivery system was considerably curtailed, due to the necessity for strict economy. However, at the close of the year 210,392 boxes were being served.

The gross revenue of the Post Office Department for the year was \$35,051,907, of which \$30,618,795 were received from the sale of postage stamps, post cards, etc. From newspaper publishers, who paid in cash the postage on their newspapers, were received \$1,352,800.

The Modern Village Blacksmith

Under an ad for gasoline

The village smithy stands;
He's agent for the Jinx machine
And several other brands;
He hasn't shod a horse for years,
For fear he'd soil his hands.

He wears a gold watch on his wrist,
A pearl pin in his tie;
His links are made of amethyst,
The finest he could buy.
There's not a thing the smithy wears
That doesn't please the eye.

Week in, week out, from morn till
night,
He sees the autos come,
With brakes that are not working
right
And axles on the bum,
With gas, repairs and grease and oil,
He makes a tidy sum.

He has a staff of skillful men
That number twenty-four,
Who toil from 6 a.m. until ten
And sometimes even more.
The smithy never does a stroke—
He thinks that work's a bore.

The children coming home from
school
Look in at the open door,
And laugh to see some city fool set up
an awful roar
When called to pay some whopping
bill
The smithy has soaked him for.

He goes on Sunday to the kirk,
His mind quite clear from cares,
Because his men are hard at work
With punctures and repairs.
And if the weather's fine and warm
The smithy says grateful prayers.

Oiling—refilling—repairing,
Onward through life he goes,
And never once despairing
So long as his income grows.
Each night the thought of someone
done
Augments his sweet repose.

Vancouver publicity bureau calculates that tourists spent \$51,000,000 in B. C.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, \$76,962,203; Lode Gold, \$113,352,655; Silver, \$63,532,655; Lead, \$58,132,661; Copper, \$179,046,508; Zinc, \$27,904,756; Coal and Coke, \$250,968,113; Building Stone, Brick, Cement, \$39,415,234; Miscellaneous Minerals, \$1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of \$810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1923, \$41,304,320.

Production During last ten years, \$350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

E. MOSS, Editor and Publisher.

The people of Alice Arm are apparently not yet alive to the advantage gained by publicity. The B. C. Chamber of Mines cannot obtain ore samples for display, nor can they obtain any information regarding development in the camp. There is an old adage, which says, "Opportunity knocks but once." If we do not take advantage of the present Dominion wide boom in mining we deserve to be exiled in a backwater, while others are marching to progress and prosperity.

Advertisements may not be read, as the non-advertisers say, but every time we make a mistake in an advertisement, the ink doesn't get dry on the paper before we hear about it. Yes, the advertisements are read. You read them and the other fellow reads them too.

Following are extracts from Walker's weekly copper letter appearing in the Boston Commercial dated March 7:

"Granby Consolidated is planning to start operations at the Allenby mine and mill within a few months. Allenby is a porphyry deposit with ore averaging about 1.8% copper. This property shows 6,000,000 tons of developed ore, besides which there are 2,000,000 tons of probable ore according to conservative estimate. The property is equipped with a concentrator having capacity of 2,000 tons of ore daily, thus giving Allenby a yearly production of about 20,000,000 pounds of copper. Resources of Allenby have hardly been scratched as yet, there having been withdrawn for experimental treatment only a few thousand tons of ore. In reality it is stated there are good possibilities that the Allenby property contains ore tonnage far greater in extent than the figures given above."

Vaccination Against Smallpox

A Few Reasons Why It Is Necessary

By Dr. D. R. Learoyd

Continued from Page 1

papule on the skin. This papule is usually surrounded by a red area of one inch to one and a half inches in diameter, and it eventually becomes a small pustule, not as uncomfortable as a boil of the same size. There may be with the above, slight soreness in the arm and slight headache. No fatalities occur from vaccination as can be realized when one learns that since 1917 the medical officers of the U. S. Navy have vaccinated about $\frac{1}{3}$ of a million persons without a death; and those of the U. S. Army have in that same period vaccinated $5\frac{1}{2}$ million persons with only one death, and this man died of pneumonia, an inter-current disease.

It would appear that much of the objection to vaccination on the part of a few people arises from the mistaken idea they have, of the vaccine used, its method of preparation, and possibly more than all, from the practice employed years ago, from arm to arm, when undoubtedly, blood diseases were communicated. Carelessness in the care of the arm after vaccination, also resulted often in serious infections, but these are things of the past, and vaccination has become a safe, sane and logical method of dealing with the menace of smallpox. Your physicians believe absolutely in the efficacy of vaccination. They employ it in their own families, and they look to the parents and teachers to assist them in the work of protecting the children, as well as all adults who have not recently been vaccinated.

A word about the care of the arm. The day of large, unsightly scars is gone, but a reasonable care of the vaccination wound is necessary. Avoid tight coverings, shields, or other dressing, because they kind to macerate the tissues during the "take." Proceed with the daily bathing and washing, but try to avoid breaking the crust over the wound. If the vesicle pustule or crust breaks and the wound becomes open, daily moist dressings of some antiseptic may be necessary, but no such dressing should be left on more than 24 hours, and no such dressing need be applied if Nature's natural protection is intact. If you are not near a doctor moist boracic compresses are the best to use.

In conclusion it may be said that a child should be vaccinated by the time it has reached the age of 6 months, and the operation should be repeated at about 6 years of age and whenever an epidemic of smallpox is present. Little has been mentioned in this article about the success of vaccination against the plague of smallpox, but vaccination would not be compulsory as it is in many countries, in many states of the United States, and in many provinces of Canada, were it not a sure and safe protection. It is one of the most useful discoveries that medical research and medical science have produced.

Alice Arm Notes

Continued from page 1

Rev. Rushbrook paid us his monthly visit last week end, and conducted Divine Service at the Anglican Church on Sunday evening, when a large congregation was present.

Leo Paulcer, who operates the Viking Lunch Counter, is one of the busiest men in town, attending to the wants of his hungry patrons. He even hasn't found time this year to cultivate his artistic flower garden.

The new gasoline speeder which arrived recently for the Department of Public Works, was given her trial run over the Dolly Varden railway tracks during the week, with Wm. Wells in charge. The speeder will be used for transporting supplies and men to the upper Kitsault country.

See Al. Falconer for Wood, Coal and Lumber.

Mrs. H. Smith left on Thursday for Prince Rupert, where she will spend a vacation with her daughter.

A. W. Wright, B.C.L.S. arrived yesterday from Prince Rupert, in order to give the camp the once-over. He was amazed at the growth of the town since his last visit two years ago.

Mr. and Mrs. W. Stephens arrived in town on Thursday from Vancouver.

E. Kyle, representing the Britannia Wire Rope Co. of Vancouver, arrived on Thursday

G. A. Durie, representing the Canadian General Electric Co. Ltd. of Vancouver, arrived on Thursday.

ANYOX NOTES

Mr. and Mrs. Sid. Jack and family sailed for Duncan, Vancouver Island, on the Prince George last Thursday, where they will reside.

Mr. Jimmie Duck sailed on the Prince George last Thursday, Jimmie says that California is his destination.

Last Sunday evening at 8.45 the L. O. O. M. held their Annual Memorial Service. This service is held annually in memory of the Brothers who have passed during the retired year. Rev. J. Herdman addressed the Brothers and spoke at some length on what the Memorial Service means, and what it should mean to all Brothers.

R. A. Beavan, who has held the position of provincial constable for the past year, left on Monday for Sacramento, California. Constable R. P. Ponder arrived from Prince Rupert on Monday to take his place temporary. Constable J. Smith of Enderby will shortly arrive to take over the post.

Mr. Barney Fitzpatrick sailed for the south on the Cardena, last Monday. Barney has been with us a good number of years, and we shall miss his smiling face. We are sure the supporters of the great handicap all join with us in wishing Barney luck in any handicap he enters.

Mr. J. J. Bayne, of Vancouver, left for Prince Rupert on the Cardena, last Monday.

Mr. E. Cameron, of the Coke Plant staff, was a south-bound passenger, on Thursday.

Bill Lazoreck and Bert Scott arrived home last Monday, from Vancouver, where they have been attending the University.

Mr. A. R. Hunter arrived from Prince Rupert last Monday, to relieve Mr. J. Wynne of the local customs office.

Mr. J. Wynne and family sailed for Prince Rupert last Thursday. Mr. Wynne has been temporarily filling the duties of customs officer here.

Mr. Don. Cleal, of the general store staff, arrived back from his vacation last Thursday. Don. made a flying stop at his ranch in Alberta and says that he found everything going along fine, even though the host has been away for sometime.

DENTISTRY!

Dr. KEELEY returned to Anyox April 6th., and wishes to see his old patrons and any new ones that require Dental work. All work done promptly and carefully, and all work guaranteed. Vancouver prices charged.
