## New Alice Arm Town- Site Comprises 196 Lots

### Also Some Acreage

Mr. F. Butterfield, who has been in charge of subdividing the Indian Reserve at Alice Arm, completed his work this week, and with his assistants, is leaving for the south on Monday.

The land on the west side of the Kitsault river, and on which a considerable number of houses are built, contains 130 town and residential lots. Town lots are those located on the flats and residential those on the hillside, north of the road that crosses the Kitsault river near the skating rink. These latter lots are of varying size, and number about seven. The majority of town lots on the flats measure 60 feet by 100 feet, but whether they will be sold as full or half lots is not at present known.

The land on the east side of the river, which has been logged off, comprises 66 town lots, and approximately 100 acres that has been subdivided into 23 blocks. These vary in size from one to ten acres.

The whole subdivision has been laid out as uniformly as possible. Corner posts of lots, however, appear in unexpected places, much to the disgust of residents. Some are located inside buildings, some on porches, etc. while others show only too plainly that several buildings are located in the centre of a street or lane. Very few buildings are lucky enough to be occupying only one lot, the majority straddle a line, either of a lot, road or lane, and some of both.

The date of sale of the townsite is not at present known, but it is presumed will be early next summer. Next year promises to be a busy one, for the majority of Alice Arm residents moving their buildings to conform with newly laid out streets.

## Children Will Be Rewarded For Ticket Selling

As a reward to the children for the support given to the Anyox Community League in the recent ticket-selling campaigns. The children are to be the guests of the League at a Halloween Party on Wednesday next. Capt. Cameron, Mr. Geo. Lace, with some of the teachers and other altruistic adults are planning an excellent program. There will be prizes for costumes and a good orchestra in attendance.

## Skating Will Be Available at Anyox This Winter

In anticipation of cold weather, the Community League is preparing the ground at the elementary school for flooding as a skating rink at the first advent of frost.

## ALICE ARM NOTES

Mrs. Stephens arrived in town on Monday from Prince Rupert, on a visit to her son, Mr. Wm. Stephens.

H. Butler was a week-end visitor, and left on Monday for Aiyansh, where he will assume the duties of government telegraph operator, a position he formerly held here.

J. A. Anderson, district superintendent of Public Works Department left on Monday for the Naas River, on a business trip.

E. Aubusson, who during the past summer held a position in T. W. Falconer's store, left on Monday for Vancouver, where he will spend the winter.

Mr. and Mrs. J. McDonald arrived on Monday from Atlin, and are spending a week's vacation here before proceeding south for the winter. Mr. McDonald is well known here, being engineer on the launch Awake for several seasons. They were married during the summer at Atlin.

A. Bontell, of the Esperanza mine arrived from Prince Rupert on Monday where he has spent a few months.

Canon Rushbrook will accompany Rev. Jennings on his visit this week-end. Harvest Thanksgiving Service tomorrow evening.

Mr. and Mrs. F. D. Rice and family left on Monday for the south, after spending the summer here. Mrs. Rice and family plan to spend the winter in Prince Rupert, while Mr. Rice may spend the winter in Victoria or Vancouver.

Mr. and Mrs. M. Smith and family arrived on Tuesday from Anyox, where they spent the past few months.

Don't forget the big whist and bridge card party at the School this evening. An enjoyable time is assured.

## All Sport Players Must Be Members of League

In view of the expense of providing equipment for League play in the various sports, the A. C. L. is going to insist that all who take part in the games must be members of League in good standing. At their last meeting the councillors were unanimous for the strict enforcement of this policy. They feel, quite rightly, that all who enjoy a privilege should share equally in its cost.

Don't forget the Girl Guide-Boy Scout Concert on November 23.

The Loyal Order of Moose will give a Masquerade Dance on December 10.

## Harvest Festival Held At Anyox United Church

On Sunday Oct. 21st. a Harvest Thanksgiving service was held in the United Church, the Church being very tastefully decorated with fruits, vegetables and autumn leaves. The soloist was Mrs. J. Dunn. Rev. J. Dewar spoke from the words I. Chron. 16 chap. 34 verse (Oh give thanks unto the Lord for he is good.), placing the emphasis on the lessons taught us by God's lesson book the Land, "Life comes from death" "Fruit comes from labour." "That as we sow we reap."

The attendance was not so large as had been hoped owing to the inclemency of the weather.

On the Monday evening following, the Fruits and Vegetables which had been sent in by friends in the Fraser Valley were disposed of by auction. The sale was preceded by a short programme by some members of the Sunday School assisted by Mrs. McRae, Mrs. Anderson and Mr. Dresser. The produce was all disposed of under the able auctioneering of Mr. S. Colclough.

## Paystreak Carnival Big Success

With the gross receipts nearly fifteen hundred dollars, once again the Community League's appeal for financial aid for the gym brought out enthusiastic support. The Paystreak fete of Tuesday was well arranged and well carried out. The prizes for the wheel of fortune were good value and the chances in the lucky drawings equitably distributed. Great credit is due to the committee headed by Chas. Harmon and the corps of seventy-five workers who sold tickets, hot dogs or what-have-you. The Council of the League has invited all these public-spirited citizens to be the guests of the League at the theatre on Tuesday next.

## Enjoyable Dance Held At Alice Arm

One of the snappiest and most enjoyable dances of the year was held at T. W. Falconer's hall on Saturday evening. Everyone that could possibly attend was there, and the large floor provided ample accommodation for everyone. Several residents of Camp 8 came down to swell the numbers, and their presence was very much appreciated.

The Alice Arm orchestra, composed of Wm. Stephens, piano; Chas. Hutchinson, saxophone; F. Butterfield violin; E. Aubusson, traps and drums, were in tip-top form, and their superb rendering of the latest dance music, added greatly to the evening's enjoyment.

## Principal Recent Anyox Stabbing Affray Draws 1 Year

Nick Priza, Serbian, who knifed Louis Rawka, Ukrainian, in the course of a drunken brawl at Anyox on the night of August 24 last and who was convicted by the jury of assault occasioning actual bodily harm was sentenced to twelve months' imprisonment at Okalla with hard labor, dating from the time of his arrest, at the Supreme Court Assizes, at Prince Rupert, on Friday, October 19, by Mr. Justice D. A. McDonald who stated that he had thought the case over carefully and had come to the conclusion that the prisoner had already learned a good lesson and that the case did not call for the highest penalty provided.

When His Lordship inquired if the prisoner had anything to say why sentence should not be passed upon him, W. O. Fulton, Priza's counsel, expressed the opinion that the ends of justice did not require a severe penalty. He concluded that accused had been scared and aggravated and, actually frightened of the gang of Polanders, had become so excited that he did not know what he was doing. He asked the judge to take these circumstances into consideration in passing sentence.

## Everything Being Lined Up For Basketball

Basketball will likely be going strong by the middle of November. While the lines have been painted the fixtures are not in place owing to some debate as to what the exact nature of the backboard attachments should be. The screening of the spectators' gallery likewise has to await the order for wire which was telegraphed on Thursday. Prospects for a Ladies' League are brighter this year. The Mine intend to field a team. One is being organised at the Beach and the High School have a host of recruits. The last-named team is considering the substitution of gym shorts for the bloomers of the old style.

## Indoor Baseball May be Winter Sport

J. L. Stewart, A. C. L. Councillor in charge of sports, reports great enthusiasm for the creation of an indoor baseball league this winter. The Council has approved the purchase of equipment and the painting of lines on the gym floor. The Concentrator boys, the Elks' Club, and the Miners have their plans almost matured while at the Beach R. J. Manning and others are promoting the organization of teams. This is a game well adapted to play by the ladies and is likely to attract several women's teams. The children of school age have, of course, always been enthusiasts.

## Large Cargoes Arrive From South

The Steamship Griffco, Capt. McKinnon, of the Coastwise fleet left for Stewart on Monday. While in Anyox she discharged 10,000 barrels of fuel oil, 1,100 tons of coking coal, 120 tons of household coal, 200 tons of limerock, 80 tons hydrated lime, and 150 tons of general freight.

The Steamship Amur, Capt. J. A. Hunter, commenced to discharge cargo from the south on Monday. She had on board for Anyox 1300 tons of coking coal, 125 tons lump coal, 200 tons of limerock, 13,000 feet of lumber, and 150 tons of general freight.

## Harry Smith Passes 70th. Birthday

Mr. Harry Smith, a resident of Alice Arm and formerly a pioneer business man of Prince Rupert and Stewart, celebrated his 70th. birthday on Thursday.

Mr. Smith has been a resident of British Columbia for the past 35 years. He pioneered on Vancouver Island and when the north was opened for settlement by the G. T. P. Railway he was one of the first of the northern pioneers. Harry stated on Thursday that he had never felt better and that he expects to see another 20 or more winters.

E. Udell, Aylmer Wilson F. Royston were among the departures on Saturday for Vancouver.

## EDITORIAL

During the past few months mining in the Anyox-Alice Arm district has taken greater strides than it has for the last decade.

Almost every week it has been our pleasure to publish reports of expansion of operations of local companies, or the formation of new companies who will enter the field next spring. The Granby Consolidated Mining, Smelting and Power Company have announced a quarterly dividend of \$449,998 payable on November 1st. They are also developing the Bonanza Mine, and this property will commence pouring a steady stream of ore into the Anyox concentrating mill next spring. The Granby Co. have also optioned 14 claims adjoining the big Hidden Creek mine, and are again re-opening the Granby Point property.

On Hastings Arm, which lies between Anyox and Alice Arm the Silver Crest Mining Co. are developing the Saddle property, whose rich galena ores have won the admiration of all who have seen it. At Alice Arm several companies have been operating

throughout the summer. The Toric is now firmly established as a shipping mine, and is a steady producer of rich concentrates. The Utility Mining and Financing Co. are developing the Tiger, which joins the Toric, with unusual success, and the erection of a mill next year is already planned.

The Kitsault-Eagle Silver Mines Ltd. have, during the past summer located ore on the Eagle. They have also considerably increased their ore tonnage on the Silver Cord, and are now engaged in driving a 1000 ft. tunnel on the Sunrise, that will strike the ore at a depth of 500 feet. The Esperanza Mining Co. have increased their working force, and will operate throughout the coming winter. Recent advices state that this property never looked better than it does at present. Plans are being formulated to organise a strong company to operate the Home-guard Group next summer. This property is known to carry a large tonnage of shipping ore. The Mohawk will also be operated next year, and the formation of a company for this purpose is already being energetically proceeded with. It is also understood that La Rose mine will be operated next year. Negotiations are also proceeding for the taking over of several groups of claims in the Alice Arm district by mining companies. This district is one of the three biggest mineral producers of the province. The Granby Co. assuming the lion's share, but within a short time several of the newer companies of the district, will make their presence felt by increased production. Mining in the Anyox Alice Arm district is forging ahead and the expansion promises to increase each year, as the vast mineral wealth becomes more widely known.

**Chamber of Mines Will Hold Lectures**

Following the practice of former years, the British Columbia Chamber of Mines will institute a lecture course in mining early in December at the Board of Trade offices. Hon. W. A. McKenzie, minister of mines, will give an introductory address at the first lecture.

The minister has consented to permit resident engineers from all parts of the province to participate in the lectures.

Early in November the chamber will also commence its usual winter course in prospecting. The classes will meet Tuesday and Thursday nights at the King Edward High School.

Dr. S. J. Schofield and Dr. Victor Dolmage will handle the classes in geology and Prof. J. M. Turnbull the classes in mining. All three are members of the faculty of the University of British Columbia. Mr. G. S. Eldridge will give the lectures on metallurgy.

**Rand Mines Employ 200,000 Men**

Johannesburg was founded in 1886 and has since become the center of the most productive gold field of the world.

The mines on the Rand have produced gold to the value of almost £1,000,000,000 in that time, and Johannesburg has kept pace by increasing its population to 237,100. The mines on the Rand alone employ almost 200,000 men.

**ANYOX COMMUNITY LEAGUE****Beach Recreation Hall:****Pictures: Tuesdays, Thursdays, and Saturdays****Mine Recreation Hall:****Pictures: Wednesdays and Fridays****POOL, BILLIARDS, SMOKES, Etc****Help the Organization that Serves You****Here and There**

(149)

Brandon's first broadcasting station has gone into daily use, and a studio located there will give grain and stock reports each day, and once a week, in the evening, will broadcast local concert programmes.

A training school for the encouragement of home industries is being talked of in Winnipeg, following the Folksong Festival held in that city recently under the auspices of the Canadian Pacific Railway. Montreal, it may be noted, has had for some years classes to teach their native handicrafts to children of foreign-born settlers, who would otherwise be likely not to acquire the skill they would have developed in their own country.

W. N. Beach, a hunter and photographer of wild life who had the unique distinction of finding two different pairs of locked antlers during his career, was a recent visitor to the General Tourist Department of the C. P. R. at Montreal. Locked antlers are very rarely found and one of the two pairs discovered by him are so firmly interlocked that they cannot be pulled apart by two strong men, and to be separated would have to be cut.

"In all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens" was the statement made by E. W. Beatty, president of the Canadian Pacific Railway, who has just returned to Montreal from an eight thousand mile tour over the company's western lines, accompanied by a party of directors and Montreal financiers.

Billing and cooling and showing no signs of having their affectionate dispositions dampened by the strain of travel, two cages of Japanese Love Birds passed through the Windsor Station at Montreal recently on their way from Japan to Scotland. Travelling from Kobe on the Empress of Russia and across the Atlantic on the Duchess of Atholl, the shipment of twenty eight Cobalt Budgerigars, as they are also called, are under the protective wing of the Canadian Pacific Express throughout. They were of a brilliant blue plumage, long tailed and beaked much like a parraquet.

Not only is Canada sufficiently interested in the League of Nations to have the Prime Minister go over to Geneva in person to participate in this year's assembly, but many thousands of active supporters of the movement are now organized throughout the country. According to information given out by the General Secretary of the League of Nations Society in Canada at Ottawa the membership of that organization has grown in three years from less than a thousand to almost fifteen thousand in number. Although strongly supported by women's organizations of all sorts and descriptions, its character is by no means feminine as over half the members are business men, and in British Columbia 85 per cent. are men.

Influence, says the cynic, is what you think you have until you try to make use of it.

## Mining & Metallurgy Institute Will Hold Meeting Next Month

The Annual General Western Meeting of the Canadian Institute of Mining and Metallurgy will be held this year in Vancouver on November 21st.—23rd. In recent years the Institute Meetings, both of the parent body and of the division in British Columbia have been notably successful.

Not only have they attracted a large attendance, comparable to the attendance at similar functions in the great centres of Eastern Canada, but the papers presented and the discussions thereon have been of a high order. The Meeting this year promises to be no less successful in every respect judging from the programme that has now been announced. The Sessions will be held in the Hotel Vancouver, and will open on Wednesday morning with an address by the President of the Institute, Mr. R. H. Stewart.

This will be followed by the presentation of a review on conditions and mining developments during the year in British Columbia by the Provincial Mineralogist, Mr. J. D. Galloway, and the Resident Engineers of the respective Mineral Survey Districts.

## Sherritt-Gordon May Exceed Flin Flon

Engineers who have recently visited Sherritt-Gordon are reported to be unanimous in their opinion that this mine when developed, will be larger than Flin Flon. Diamond drilling is said to be revealing some of the best ore yet encountered and it is now believed that the ore will run approximately \$14 to the ton, allowing for concentrating losses.

The average width of all the ore opened up is stated to be approximately 18 feet, although one trench east of the shaft showed a good grade across 76 feet. It has been proven that the westerly extension of the ore zone remains in the newly acquired Sherritt claims. This is an important improvement, as for a time it was thought the extension would go on to other properties.

## Two Men Killed At Premier Mine

James Ganter, a miner, and David Davies, a mucker, were killed in Premier Mine on the night of October 16. It is believed they stayed in a drift too long after the placing of explosives.

Ganter is survived by a widow and three children at New Westminster.

## Hon. J. D. MacLean May Contest Victoria Seat

A despatch from Victoria says Hon. J. D. MacLean will probably be the Liberal candidate in the federal by-election while Lindley Crease, K. C., and F. C. Elliott are being considered by the Conservative to fill the vacancy caused by the resignation from the federal parliament of Hon. S. F. Tolmie.

Both parties are preparing for nominating conventions for the election which takes place there soon.

## Henry Browning Retires From B. C. Chamber of Mines

Mr. Henry Browning, retiring secretary of the British Columbia Chamber of Mines, was the guest of honor at luncheon on Thursday at Bancroft's Cafe of a group of sixteen men who occupy offices on the ground floor of the B. C. Mining Building, where the Chamber of Mines is located. Ald. F. E. Woodside occupied the chair, and a number of speeches were made in which Mr. Browning's work on behalf of the mining industry was highly praised.

Mr. H. N. Freeman, acting-secretary of the chamber, on behalf of the gathering, presented Mr. Browning with a handsome despatch case.

## North Coast Whalers Have Successful Season

The whaling fleet operating out of Rose and Naden harbors in Queen Charlotte Islands caught 306 whales as compared with 261 last year.

Four vessels at Rose Harbor brought in 238 and two at Naden 78

## RUPTURE EXPERT HERE

F. H. Seeley, of Chicago and Philadelphia, nationally famous expert, will himself personally be at the Vancouver Hotel, and will remain in Vancouver this Tuesday, Wednesday, Thursday, Friday, Saturday and Sunday, Oct. 30 to Nov. 4 inclusive from 9 a.m. to 5 p.m. daily. Mr. Seeley says:

"The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and without standing any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatments or prescriptions, with distinguished personal patrons of all nations." "His method has always been most satisfactory."—Late Dr. Edward Shippen, former Medical Director, U. S. Navy. This instrument is the same as supplied to Surg. Genls. Bureau, U. S. Naval Hospital.—Pen. R. R., Etc. Etc. He will be glad to demonstrate without charge or fit them if desired. Business demands prevents stopping at any other place in this section.

N. B.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. SEELEY.

CAUTION—All cases should be cautioned against the use of any elastic or web trusses with understraps, as same rest where the lump is and not where the opening is, often resulting in strangulation. Home Office, 117 N. Dearborn St., Chicago, Ill.

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

## Over Production of Wheat May Reduce Prices

A review of the world wheat situation issued by the Royal Bank of Canada states that the present outlook is uncertain, due principally to this year's large crops which seem to threaten overproduction in the immediate future, but concludes with the belief that the world's growing population is bound to require a steadily increasing wheat supply.

## ANYOX NOTES

James Wilson left on Saturday for an extended visit to England on a visit to his parents.

J. Glasgow left on Saturday for Vancouver.

A. A. Todd was a southbound passenger on Saturday on a trip to Vancouver.

Miss V. Caski was a passenger to Vancouver on Saturday.

G. Lawn left on Saturday for Prince Rupert.

J. M. Smith and J. Alared were passengers to Prince Rupert on Saturday.

An ElDoro cigar is unquestionably the most pleasant smoke possible. That's why they are so popular.

Among the arrivals from the south on Monday, were: P. Labory, C. Prevost, J. E. Jenkins, W. Bramby, S. C. Thomson, O. Bolsater, F. W. Peake, D. Gavernan, G. Millnerchuck.

Those departing for the south on Monday, were: A. Keekil, G. Nelson, W. McGree.

Mrs. Macintyre and child arrived on Saturday from the south.

Mr. and Mrs. Stone arrived in town on Saturday.

Among the arrivals on Saturday from the south were, G. Elliott, R. Y. Ingraham, A. McDonald, A. MacPherson, H. G. Wilcox, M. Forbes, W. Hart.

A. D. Ritchie was an arrival from Prince Rupert on Saturday.

Dr. W. J. Lang, who was witness in the recent trial of Nick Priza at Prince Rupert, returned on Saturday.

Mrs. Stephens, graduate American College of Permanent Waving, will be at the Anyox Hotel, Monday October 29th. and will be pleased to meet ladies and give any information desired. The latest method given and work guaranteed. Will be in Anyox for a few days only.

Miss Nan Cobbin of Seattle arrived last Saturday to join the clerical staff of the company.

Mrs. Healy, wife of the assistant superintendent, leaves on Saturday with the children to join her husband in Vancouver where Mr. Healy is now attached in the services of the Granby Company.

Under the chairmanship of Mr. Kirkwood the Anyox Debating Society on Friday last discussed merits of prohibition as opposed to government control of the sale of intoxicants. Messrs. Harmon and Ashton read lengthy compositions in support of the respective sides and the members present participated in the open discussion.

## Sales of Copper Falling But Price Maintained

Sales of copper during the week ending today were little more than 50 per cent of normal. The total for the week was almost a duplication of that reported for the preceding week. Sales of small lots, in a number of instances for reasonably early delivery have predominated. Demand for automobile production has been a feature of sales of this type. On most of the larger orders November and early December delivery has been designated. Considerable inquiry for January metal was reported by various sellers, but in only one instance was delivery that far in advance agreed upon. Export business has been in normal volume, though some factors in the trade are inclined to believe that October and November requirements of Continental consumers are in large part unprovided for. With operations in the various districts in the West speeded up to permit increased production, employment at a high rate and with the recent wage advances in effect, conditions at the Copper mines are beginning to reflect the improved situation of the copper market in recent months. Copper Exporters Inc., maintain their price at 15½c. per pound c.i.f. usual European destinations.—Engineering and Mining Journal.

## Working Force at Esperanza Increased

The working force at the Esperanza mine was increased during the week, and the season's winter programme of development work and mining ore has been commenced in earnest.

## Community Settlements For B. C. Lands

Speaking before the Saanich Conservative Association recently Premier Tolmie referred to the proposed provincial government colonization scheme. He said he did not believe in bringing the British people to British Columbia and putting them on bad land. He explained that the plan he proposed would be along community settlement lines and intimated that instructors in farming and household arrangements should be provided.

Persons conversant with the brewery situation in Western Canada report that a general program of amalgamation and consolidation is underway which will eventually result in a huge brewing organization in Western Canada.

During the past year or 18 months this trend has been noted in British Columbia. Recently a \$5,000,000, consolidation of Alberta breweries was affected by Emil Sick of Calgary.

Doctor: "I don't say that all lawyers are villains, but you'll admit that your profession doesn't make angels of men".

"Lawyer: "No, you doctors certainly do have the advantage there."
