Ore Body At Tiger Crosscut 14 Feet In No. 2 Tunnel

Ore Also Being Crosscut No. 3 Tunnel

The ore body in the No. 2 tunnel at the Tiger has been crosscut, and is shown to have a width of 14 feet of silver ore. The ore was crosscut at a depth of 300 feet from the surface. The ore is of good grade and samples have been sent out for assaying.

Development work is now being concentrated on No. 3 tunnel. This tunnel is in over 270 feet. A body of ore 7 feet wide, of which there were no surface indications was cut through at a distance of 200 feet from the portal. At 270 feet another blind ore ledge was encountered, and latest reports from the mine state that it has not yet been crosscut by the tunnel. Both of the above mentioned strikes were unlooked for.

It is expected that an additional 100 feet will have to be driven before the ore body of No. 2 tunnel is encountered. When this has been done, a depth of 450 feet on the ore will have been obtained.

As soon as the ore in No. 3 tunnel is intersected, work will be pushed on No. 4 tunnel, and its successful completion will give a depth on the ore of 800 feet.

Judging from the successful operations to date with the comparative ease in locating ore bodies on each level, the Tiger has every indication of being rapidly developed into a valuable mine.

Britannia Co. Are Busy Investigating Toric

The Britannia Mining and Smelting Co. who recently acquired an option on the Toric mine are thoroughly sampling it, three crews being engaged on the work.

C. V. Brennan of the Britannia Company staff, who arrived last week, has made a geological examination of the mine. He left on Thursday for the south and expects to return during the latter part of January.

Regarding future plans the management at the mine were somewhat reticent when approached on Thursday. Plans, however, may be made public in the near future, H. T. Airey is in charge of operations.

One dollar invested in a year's subscription to the improved Family Herald and Weekly Star of Montreal will bring the farmer better dividends than one hundred dollars in the bank. The farmer's wives, daughters and sons, get free, the best magazine extant.

ALICE ARM NOTES

A. Knox, superintendent at the Tiger mine left on Thursday for Vancouver, where he will spend the holidays with Mrs. Knox and family.

C. V. Brennan, who has made an examination of the Toric mine for the Britannia Mining and Smelting Co. left on Thursday.

W. B. Bower left on Monday for Vancouver, and will spend the next two or three months with Mrs. Bower and family.

J. Wells left on Monday for Vancouver where he will spend a vacation.

S. Briggs left on Thursday for Vancouver where he will spend the Christmas holidays with relatives.

Mrs. N. Fraser who was recently called to the bedside of her sister in Washington returned home on Monday. Her sister expired shortly before she reached her.

Chas. Hutchinson, former liquor vendor at Alice Arm, left on Monday for Burns Lake where he will relieve at the Liquor Store. The local store closed last week for a short period.

J. Wilson left on Monday for Smithers, where he will spend holidays with his sister Verna.

Mrs. Craig of Camp 8 spent a few days in town this week, the guest of Mrs. J. Wier.

Mrs. Hebden of Camp 8 left on Thursday for Vancouver, where she will spend the holidays.

Miss Alice Kergin and Master Ted arrived home yesterday from Anyox, where they are attending High School, and will spend the holidays with their parents.

T. J. Kirkwood of Anyox has been appointed a Justice of the Peace.

Engineer mine, Atlin district, employed in the neighborhood of 35 men during the past few winter months, and the mill has been treating ore since August. The mill may not be operated after freeze-up. In 1927 season, stopping and underground exploration were carried on with fairly encouraging results.

Local Mining Co. Gives District Publicity

During the week we received a very descriptive folder published by the Kitsault-Eagle Silver Mines Ltd. It provides a mass of information concerning the various properties held by the company, and should go far in giving publicity to Alice Arm in general.

Illustrations show a general view of Alice Arm with mountains in the background. Views of ore outcroppings on the properties are also shown together with camps. A map of the company's holdings is also given.

The Kitsault-Eagle Co. control five properties. They are the Sunrise Group, 24 claims; Silver Cord Group, 6 claims; Eagle Group, 6 claims; Le Roy Group, 14 claims, making a total of 50.

At the present time development work is being concentrated on the Sunrise, where a tunnel 800 feet in length is being driven, which will encounter the ore at a depth of 500 feet

BIRTHS AT ANYOX

Born to Mr. and Mrs. M. O. Boyce at the Anyox Hospital, on Thursday, December 13th. a son.

Born to Mr. and Mrs. A. S. Nickerson at the Anyox Hospital, on Monday, December 17th. a daughter.

Born to Mr. and Mrs. Marshall Smith of Alice Arm, at the Anyox Hospital, on Monday, December 17th. a daughter.

Christmas Tree and Entertainment Tonight

The annual Christmas Tree and Entertainment of the Alice Arm children will be held this evening at the school, commencing at 7.30 p.m. sharp. Don't miss it or you will regret it. Everyone welcome.

Mild Winter Experienced In Interior

Smithers district is experiencing an unusually mild winter and there is practically no snow as yet. The open weather is a great help to farmers as far as transportation is concerned.

ANYOX NOTES

Miss Hoadley of the school staff left on Thursday for Christmas holidays in the south.

Mrs. R. Smith arrived in town on Monday from the south.

Miss M. Pamplin was an arrival on Monday's boat.

Among the arrivals on Monday, were: Kenneth Evans, C. H. Cannon, V. Moore, R. D. Douglas, M. Smith.

Miss Cobbin of the general office staff left town on Monday for the south.

Have you purchased your box of El Doro cigars for the festive season?

T. McRostie was a southbound passenger on Monday.

Among the departures on Monday, were; W. Robertson, A. E. Trinkler, R. L. Williams, H. Evans.

Mr. H. M. Selve left on Thursday for the south on a combined business and pleasure trip which will consume a month.

Frank B. McLellan left Anyox on Thursday after several year's residence here. He was identified with numerous activities and his many friends are sorry to see him depart.

Mr. Fordyce Clark, assistant High School principal left on Thursday for holidays in Vancouver. He accompanied the High School basketball team to Prince Rupert.

Miss Elaine Griffith left on Thursday having severed her connections with the Granby Bay schools.

D. J. Hartley principal of the Public School left on Thursday for Victoria, where he will spend Christmas holidays with Mrs. Hartley and family.

Owing to non-arrival of copy from Anyox yesterday we regret that we could not carry our full amount of Anyox news this week. We hope, however, to publish it in our next issue.

A little slush on the streets of the twin mining camps of Anyox and Alice Arm is the only reminder of winter. Autos and wagons are still the means of locomotion. Verily our climate is improving.

Beach Ladies Defeat Mine Basketballers In Wild Game

Customers at the games on Monday night certainly got their money's worth. With the teams battling fiercely with no advantage violations were frequent and the uproar general. The strain on the spectators was terrific. The holiday season should allow all concerned to calm down a little.

The Mine Ladies took the first half of their game easily at 7-2. Pat O'Neill made the first basket of the game but all other Beach efforts were wild, including a flock of free throws. At half time Miss Greenwood appeared on the scene. Beatrice Watson went on in place of May Rowland who had been banished and made a one-handed shot that counted for 9-2.

Pat O'Neill was back in the game and she and Miss Greenwood, aided by stout work on the Beach defence worked up to 9-8. Time out was taken for debate. At the resumption Julia Calderoni tossed in a free throw to lead 10-8. But Miss Greenwood dribbled up the side to even the score.

With the Beach fans crying for a point, Miss O'Neill let a good chance go and the Miners threw on more steam in an effort to break the tie. It cost them the game. Julia acquired the fourth personal and left the game which was deferred to allow the officials to hear the disputants.

With four players the visitors resumed the fray but five good players are needed to turn back the Beach Ladies these days. A basket and a free throw by Miss Pat O'Neill were the next items and Miss Greenwood added another point before the whistle blew to end it at 14-10

Beach: P. O'Neill 9; M. O'Neill; M. McRostie; A. Scott; T. Gordon; T. O'Neill; T. Greenwood 5. Total 14.

Mine: H. Calderoni 3; J. Calderoni 3; May Rowland 2; M. Marriot; A. McLachlan; B. Watson 2. Total 10. Referee G. M. Lee.

Premier To Again Pay A 6-Cent Dividend

That 24 per cent. per annum is being continued as the dividend rate of the Premier Gold Mining Co. is indicated by the fact that the company has declared another dividend this week of 6 cents a share, payable January 6 to shareholders of record December 14.

The past three declarations have been at the rate of 6 cents a share quarterly while the previously maintained rate was 8 cents or 32 cents quarterly.

Issued capital of the company is 5,000,000 shares of \$1 par.

Christmas, the great christian festival of the year is here again, and what a wealth of memory is summed up in the word Christmas. To many of us and certainly to all children there is no happier or more comforting word in our language. The word Christmas radiates happiness, good cheer, merrymaking and laughter. It is a time honored day yet the joys are ever new. The message of old rings out as clear as ever—"Peace on earth goodwill towards men." On Christmas Day we celebrate the birth of our religion. A religion founded on brotherly love one to another. On that day we will wish everyone a Merry Christmas. Old wrongs will, or should be forgotten. Not only on Christmas Day should we be pleasant to everyone we meet, but as good christians we should carry the message of goodwill throughout the coming year.

British Consumption Of Copper Increases

British consumption of copper, tin, and zinc during the first six months of 1928 showed an increase over that for the corresponding period of 1927, though the total increase for the three metals was almost balanced by a decline in the consumption of lead, according to the U. S. Department of Commerce. Copper ore imports during the first half of 1928 came to 109,730 tons compared with 96,057 tons and 87,471 tons for the corresponding periods of 1927 and 1926, respectively.

The whole Dominion is talking of the great improvement in the Family Herald and Weekly Star, Montreal. At \$1 a year or three years for \$2 it is the farmer's highest dividend paying investment, and the family circle gets with it the best of all magazines free.

Tram To Porter-Idaho Will Be Completed Next Spring

Stewart News

With ten men shoveling snow to keep the trail passable, Jack Rennie is moving the last of 300 tons of supplies from Green Point cabin to the Porter Idaho and Prosperity. This has been a long, hard season for his pack train, and they are about ready for a winter's rest.

In the desperate battle waged between the Premier Gold Mining Co. and the weather in regard to constructing a tram to the Porter Idaho mine this year, the weather won by two weeks, despite the limit of human endurance and ingenuity being employed. This struggle was necessitated by a large shipment of steel of the wrong size being sent in which delayed the construction for six weeks. However, when conditions are favorable in the spring for the resumption of work, two weeks should see the tram ready for operation.

Meanwhile at the mine the crew consists of 25 men who are drifting and upraising under the direction of Foremen McManning. The work is being done to block out ore and provide ventilation. The crew at the lower terminal has been reduced to about five men, who are working on the power plant that has been connected up with the Silverado as an extra precaution in case the International Electric power supply proves inadequate at any time.

On the Prosperity, lying just above the Porter Idaho, twenty men are employed. These crews represent the maximum that will probably be kept on all winter. Results of the work cannot be definitely learned, as it is the policy of the management to report to headquarters and not to the public.

Over 200,000 Radios In Canada

The total number of licenced radio stations in operation in the Dominion and on ships registered therein was 216,700 on March 31, 1927.

The epidemic of colds prevailing at present is said to be responsible for a heavy demand of rum and honey, a popular remedy. Many thrifty sufferers dispense with the honey.

British Company Gathers Much Data

In two years previous to June 30, 1927, Porcupine Goldfields Development and Finance Company, of London, investigated 644 mining propositions in Canada. Previous to that, 392 propositions had been submitted, a total of 1,036 properties, particulars of which had been looked into.

When the colored couple were being married by the clergyman and the words, "Love honor and obey" were spoken, the bridegroom interrupted:

"Read that again, suh! Read it once moh, so's de lady kin ketch de full solemnity ob de meanin'. I's been married befoh."

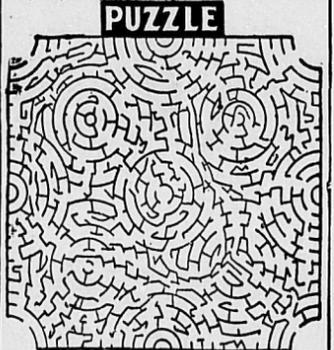

The longest fence in the world is one of wire-netting in Australia, 1,236 miles long. Its object is to keep rabbits from cultivated fields.

LOOK \$200.00 GIVEN AWAY IN CASH

FIRST PRIZE\$50.00
SECOND PRIZE\$40.00
THIRD PRIZE\$30.00
FOURTH PRIZE\$20.00
FIFTH PRIZE\$10.00
TEN PRIZES OF\$5.00 each

Below will be found a Puzzle that may appear to be simple, but is not so simple as it looks. Try it, and if you solve it correctly, and will sell for us 8 boxes of HOME SALVE at 25 cents per box you have an excellent opportunity to win a CASH PRIZE, ranging in value from \$5.00 to \$50.00.

HOME SALVE is a Household Emergency Remedy that is easily sold. Housekeepers need it, and use it. It is becoming more popular every day.

There is an entrance to the above maze at each corner. One of these entrances leads you into and around the maze, (but not through the centre) then out again at the corner at which you started. Find this path and trace it with a soft pencil and you will have the outline of a popular fruit.

Cut out the Puzzle and write your name and address plainly on a sheet of paper, together with the words "I have solved the Puzzle and find the fruit to be a" (state the fruit that you find it to be). We will then notify you immediately if you are correct, and if so, will send you, at our risk and expense 8 boxes of HOME SALVE to be sold at 25 cents per box.

The First Prize is \$50.00 in Cash, the Second Prize \$40.00 in Cash and so on down the list until all the Prizes are exhausted.

WE HAVE GIVEN AWAY THOUSANDS OF DOLLARS IN CASH PRIZES TO PERSONS WHO CORRECTLY SOLVED OUR PUZZLES AND SOLD HOME SALVE.

We see no reason whatever why you should not be a Cash Prize Winner. Is it not worth your while to try? Send your answer to-day. Don't fail to write the words we mention neatly, and state what the fruit you found is, as in the event of ties, writing and neatness will be considered factors.

Annual Review and Estimate This Month

The Annual Preliminary Review and Estimate for the year 1928 now is in the printer's hands. It will be available for distribution before the end of the present month. Containing an estimate of the mineral production for the past year, a general summary by the Provincial Mineralogist of outstanding events and of conditions which have affected the industry during the year, and accounts by each of six government mining engineers of recent important occurrences in each mineral district, it will be of interest and value to all who follow mining development in the Province.

Premier Tolmie Speaks In Favor of Coast Smelter

British Columbia has need of another Trail smelter—one on tide-water—Premier S. F. Tolmie declared, addressing the banquet which concluded the annual meeting of the western branch, Canadian Institute of Mining and Metallurgy, held at the Hotel Vancouver last week.

"We have heard much of the Trail smelter," continued the Premier in a speech which was interspersed with rollicking anecdote and bluff humor. "The time has come when we need a similar institution on the coast, where it can take advantage of the cheap water rate.

"Miners," he added, "can expect wholesale co-operation from this government. We will be glad to consult operators on any legislation emanating from the ministry of mines."

Following the Premier in response, Hon. W. A. McKenzie told the mining men that no amendments to the act would be submitted without reference to the mining men of the province. He also assured them there would be no really drastic amendments to the act at the coming session. The government would act with the utmost caution. The minister added that the government had no intention of forsaking the policy of the late minister, Hon. Wm. Sloan, in dividing the province into six mining districts. He was sure they had an excellent staff of officials. Any changes to be made would be for the betterment of the industry.

British Are Paying Off Their Debt

A payment of \$94,000,000 was made last week by the British government to the United States on account of the war debt. Payment included \$27,000,000 principal, the balance being interest.

This payment brought the total turned over to the United States treasury since the funding of the debt to \$964,000,000, reducing the amount outstanding to about four and a half billion.

IN THE LEGISLATURE

NOTICE IS HEREBY GIVEN that an application will be made at the next Session of the Legislature of the Province of British Columbia for an Act to incorporate a company under the name of Provincial Telephone Company with an authorized capital of five million dollars with its head office in the City of Vancouver and with the following powers:

To operate telephone, wireless telephone, radio-telephone and similar services, including services for the transmission of sound, pictures, writing or signals; to hold and dispose of lands, tenements and hereditaments of any description; to provide and maintain all such buildings, works, plant, apparatus, materials, offices and exchanges as may be necessary for its business; for the purposes of its business to provide and operate steamships and other vessels; to acquire and use any privilege granted by any Federal, Provincial or municipal authority; to acquire and use patent rights; to advance money to any corporation, company or person for providing building or operating any telephone system; to do anything as contractor for others which it might do for its own purposes; to invest and deal with its surplus funds; to enter upon and break up highways, streets, and public bridges and to construct telephone lines along, across or under the same, or in, under or over water-courses, rivers and lakes, subject to the approval of the city or municipal council where the proposed works are to be situated within a city or municipality, and in other cases subject to the approval of the Minister of Lands; to construct works on its own property; subject to obtaining consent under the Navigable Waters Protection Act of the Dominion of Canada, to construct, lay and operate submarine telephone cable or cables in any lake, river or water to which that Act applies, also between any islands in British Columbia and between such islands and the mainland; to cut a passage for its lines where such lines pass through woods subject to compensating the owners thereof for damage, and to trim trees on or extending over highways in order to prevent interference with good telephone service; to purchase the whole or any part of the undertaking of any other company having objects in whole or in part similar to those of the company, or to amalgamate with such other company, and to transfer to the company or to the amalgamated company, as the case may be, all or any of such franchises or statutory powers as may be possessed by such other company; to enter into and carry out any agreement with any company whose undertaking is purchased as aforesaid in the nature of assuming the payment of or guaranteeing the payment of principal and interest, or either, on bonds, debenture stock or debentures, or assuming or guaranteeing the carrying out of its obligations or any part thereof; to enter into agreements for connecting its system or lines with those of other telephone operators; to expropriate lands under the powers of the Lands Clauses Act; to make regulations for its internal management; to fix from time to time a tariff of charges for its services, and to collect, sue for and recover the same; to borrow money; to issue preference shares, debentures or debenture stock either redeemable or irredeemable; to issue shares with or without nominal or par value; to change its name pursuant to the Companies Act, and other incidental powers.

DATED the 1st. day of November 1928.

Canada Leads In Production Of Many Minerals

In a review of the mining and water power industries of Canada, issued by the Hon. Chas. Stewart, minister of the interior, the country's position in the mining world is reviewed. Canada stands first in nickel, first in asbestos, first in cobalt, third in gold, third in silver, fourth in copper and sixth in zinc.

In two years, three at the outside, Canada will occupy the second place among the gold producing countries of the world, passing the United States.

When a man's business runs down the sheriff comes along and winds it up.

"Have you anything to say, prisoner before sentence is passed upon you?"

"No, your honor, except that it takes very little to please me."

Here and There

(194)

More than 11,000,000 tourists visited Ontario during 1928 and spent about \$100,000,000, according to figures issued at the Provincial Parliament Building in Toronto the other day. This is an increase of over 20 per cent. over the record made last year.

Production of tobacco in 1928 totalled 40,976,375 pounds from 43,138 acres. Of the total output the Province of Ontario accounted for 32,265,850 pounds from 32,654 acres; Quebec 8,546,325 pounds from 10,368 acres, and British Columbia 164,200 pounds from 116 acres.

Ethel Catherwood, who distinguished herself as an athlete representing Canada at the Olympic games in Amsterdam in August, has been honoured by the Canadian Pacific Railway. A station on the recently constructed Rosetown-Perdue branch has been named "Catherwood," after her.

Twenty-five years ago Thomas Hubert, now employed as a baggageman on the C. P. R. between Ottawa and North Bay, lost a valuable silver watch while working in a field near Pembroke. The other day a glittering object was turned by a plough. It was Hubert's watch, the glass broken and the hands gone, but still retaining a brilliant lustre. The field had been ploughed many times since it was lost.

Toronto is preparing to receive the largest number of prominent baseball figures ever to be in Canada at one time. The National Association of Professional Baseball Leagues will meet there shortly and every baseball club in America will be represented. Judge Landis will be on hand, and the total attendance is expected to amount to over five hundred, delegates coming from points as far as Pueblo.

The trainload of artificial snow that was brought from Hollywood to Lake Louise recently was not required by John Barrymore, in producing an Alpine movie story to be released shortly, as plenty of the real stuff was available at the glaciers. This popular actor, with Camilla Horn and a cast of about twenty-five persons, spent some three weeks at the Chateau Lake Louise, rising each morning at four o'clock in order to reach their "locations" on Victoria and Saddleback Glaciers in time to get the best light effects in the morning for their various "shots".

When a young couple from Calgary drifted back to the station at Winnipeg 10 minutes after the "Imperial" had left for the east, Canadian Pacific officials were given the choice the other day of feeding and otherwise caring for a nine-months-old baby for two days or holding the train for thirty-five minutes at North Transcona. They chose the latter, much to the relief of the porter and conductor, who are not family men. The reunited family sailed on the "Montrose" to spend Christmas in the old country.

Mechanics Basketballers Snatch Game From Concentrator

Mechanics snatched a wonderfully balanced game from Concentrator in an overtime period getting by on 32-29 count. Concentrator even in the overtime drew to 28-27 but this time Meagher was on the bench of banishment. But so was Evans who had shone on the Hill side. The Reds were slow in starting and trailed at 10-5 before blazing up to lead 16-15 shortly after the opening of the second half. From then on neither side had more than a three point advantage which favoured one then the other to the accompaniment of cheers and frenzied appeals from the investors. There were some amazing shots and some easy chances that left the spectators nerve-wracked when it was over.

Mechanics: Dodd 5; Evans 8; Lazarek 11; Deane; Lindgren 8; Cloke; E. Barclay. Total 32.

Concentrator: McConnachie 1; Musser 5; McDougall 6; Meagher 7; McLeod 7; McColl 1; McKay 2. Total 29. Referee—Lee.

It was the evening after the night before.

"How did you find yourself this morning?" asked one wan participant of another.

"Easily," was the reply. "I just looked under the table and there I was."

Employment officials at Regina state that out of the 6,000 British harvesters brought to Saskatchewan, at least 75 per cent. will remain in the West to become permanent Canadian citizens.

GOOD WISHES

For Christmas, 1928

We hope that a retrospect of the year just closing will bring you happiness and that you will enjoy A REAL OLD-FASHIONED CHRISTMAS

For The New Year, 1929

We wish you HEALTH--to accomplish the work you plan; HAPPINESS--in the realization of something attempted, something done: PROSPERITY--the reward of good work well done, and, above all, we wish you CONTENTMENT--the joy and satisfaction that mainly comes from your service for others
