ALICE ARM, B. C., SATURDAY, FEBRUARY 4, 1928

5 cents each.

Mining Syndicate Are Expanding

The Alice Arm Power & Mining Syndicate will proceed with their project of supplying Alice Arm with water as soon as the snow is off the ground states Mr. B. C. Marsh, who was in Alice Arm during the week.

The syndicate will also proceed with their programme of developing their mineral holdings as soon as possible in the spring, and their advent into Alice Arm promises to give the mining industry considerable impetus.

In addition to the Success Group which is situated near the town of Alice Arm, and which they acquired some time ago, they have taken over the Riverside Group, consisting of 8 claims. This property is situated at Granite Creek and joins the Dolly Varden Railway. They have also purchased a half interest in the Stormer Group, owned by J. Calvin, and have taken an option on the remaining half from A. D. Yorke.

Negotiations are proceeding for the purchase of the Zorka Group, owned by A. Serbich and located at 13-mile on the Dolly Varden Railway. Negotiations are also proceeding for the purchase of other mining properties.

The first work undertaken this year by the syndicate will be the

installation of a water main from Falls Creek, through the centre of the town. The main will be large enough to supply the needs of a much larger town, and ample water will be available at all times.

A Hydro-electric plant will be installed on Granite Creek, and will be used for the development of the Riverside Group. Power will also be supplied to nearby mines. It will be situated in the centre of a rich mineral district, and among adjacent properties is the LaRose, Speculator and Bunker Hill, all of which are considered future mines of great potentialities.

In the acquisition of the Stormer the syndicate have a property of great merit. It consists of four claims and joins the LaRose on the west. Three big ore ledges are known to exist, one of which has been traced on the surface for a distance of 500 feet. Samples of ore taken last year from the property gave assay returns of 5 per cent. copper, while other samples taken at a lower elevation gave, in addition to the copper values, returns of 30 ozs. silver and \$2.00 gold per ton. The Stormer is situated in the centre of a rich mineral belt, and development work will undoubtedly prove the existence of large bodies of rich ore.

Leave Copy for Herald At Elks' Hall

As no action has been taken to date by the postal authorities in regard to a better mail service between Alice Arm and Anyox, we again ask those who have news items for the Herald or copy for printing to leave them at the Elks' Hall. They will be picked up on Thursday evening and delivered straight to the Herald Office. Wire your copy for printing if in a hurry. We will bear the expense. All orders given our usual prompt attention.

Teachers' Association Will Meet

Members of the South Atlin Teachers' Association will gather in the Anyox Public School on February 6th at 4 p.m.

P. T. A. Masquerade Dance Committee Busy

At a meeting of the P. T. A. Dance Committee on Thursday it was decided to give prizes to the two school children who sell the most tickets for the masquerade on Monday February 13th. Mr. Campbell reported that tickets had been distributed to a large corps of workers. It will be possible for everyone in town to buy a ticket without difficulty. The Association has numerous excellent uses for the money.

Big Night at Mine Rink

On Monday night at the Mine Rink there will be a masquerade on the ice. All the snappy features usual to such an evening will be included.

BIRTH AT ANYOX

Born to Mr. and Mrs. L. J. McQuarrie at the Anyox Hospital, on Thursday, January 26th. a son.

Large Audience Enjoy United Church Concert

The United Church Concert held on Friday, January 27th. in the Recreation Hall was deservedly well attended. Steele's Concert Orchestra was worth while entertainment of itself, and there were also many other good numbers.

The soloists in general offered selections appropriate to a Church concert programme, and the rendition was uniformly good.

In tribute to the proximity of Burns' birthday, there was a flavor at least, Celtic, involving Erin, Devon, and Harry Lauder, and little Miss Nan Dunn was well received in a Scottish Dance.

There was some amusing rough-housing in a Dentist's office and a lot of horse-play and monologue, which revealed considerable histrionic ability and satiric genius.

It was a programme which seemed to carry an appeal to all sections of the audience, and the result was a matter of congratulation to all involved in the presentation.

The programme was as follows:

1. "Fair Maid of Perth," Anyox Amateur Orchestra.
2. Solo, Mrs. T. W. Pinckney.
3. Scotch Dance, by Nan Dunn
4. Harry Lauder Songs, Mr. McRitchie.
5. Solo, Mr. J. L. Anderson
6. Recitation, Mrs. H. S. Trefry
7. Solo, Mr. W. F. Eve
8. Sketch, "The Dentist's Office" Messrs. E. Clay, T. Asimus, J. Barclay.
9. "Dramatic." Anyox Amateur Community Orchestra.

10 Monologue "The Negro Parson," Dr. Trefry.

11. Solo, Mrs. V. S. McRae
12. (a) "Broken Up" (b) "A Welcome to Anyox," Sam, Pat, and Sandy.

13. Solo, Mr. W. R. Murdoch

14 Overture, Selected, Anyox Amateur Community Orchestra.

"God Save the King"

Large Number Enjoy Card Party and Dance

The Catholic Ladies were hosts to a largely attended card party on Wednesday, Mrs. Waterman and Mr. Curak winning the first prizes, and Mrs. Shields and Mr. Grimason carrying off the consolation. The host of card-players were reinforced by those who came in to dance to excellent music provided by the Moose Orchestra and to partake of the refreshments offered.

Concentrator Team Are Victorious

While almost a record crowd was gathering to witness the feature game on Wednesday, the Rinky Dinks and the Concentrator Intermediates amused the early birds. The Concentrator was actually in the lead at an early stage in the game, the Rinky Dinks atoned for this affront by more than doubling the final score. For the winners Ernie Barclay deserves honorable mention, earning ten of his team's twenty-three points, while Stewart supplied six points of the Concentrator's ten.

The ladies' team gave an interesting exhibition. The color schemes were especially attractive and even the shooting was more than usually effective. But it was obvious that the absence of extra players required the limiting of the pace. Five-a-side basketball is a strain on those who can be persuaded to take part. For the winning Mariners, Teresa Gordon was always on the ball, and for the defeated Pirates, Mrs. Thorsteinson was usually seen in the thick of the fight. The line-ups were:

Mariners: Mrs. Smith; Mrs. J. L. Stewart 6; Misses., T. Gordon 16; A. Scott 4; Faith Cameron. Pirates: Mrs. Thorsteinson 8; Mrs. Cody 2; Mrs. J. D. Stewart 2; Miss Eve; Miss McKay.

The Senior game was one of the most sternly contested struggles of the season. It was a cup-tie game between Concentrator and Coke Plant. For the first ten minutes

there were no field goals but Coke Plant crept up to 3-0 on free throws by Asimus. At the same time Concentrator had heart-breaking luck in their shooting. Taking time out Coke Plant put on Jack Hill who was late arriving. Resuming they forced the score to seven-two, McColl having at last netted one for Concentrator. Then McConnachie inspired his teammates with a beautiful long shot and McDonald followed with another making the score at half-time seven to six. Right after the interval Asimus missed a wonderful opportunity and forthwith Concentrator leaped into the lead on a thrilling overhead shot by McDonald. McConnachie took a free throw and McColl made a basket to put Concentrator four points up. Coke Plant took time out to think it over. Coming back, Dodds and Hill both scored to tie at eleven all, and Concentrator forthwith stopped the clock. Resuming Dodds scored again but McDonald again evened it amid thunderous applause that had not died down when Dodds again scored, and still again. Asimus evoked applause with a single-handed play, the struggle continuing fiercely until the last whistle left Coke Plant victorious 20-13.

Coke Plant: Dodds 10; S. Stewart; F. Anderson; L. Jamieson 1; T. Asimus 5; Hill 4.

Concentrator: McLeod; McDonald 6; Hooper 2; McColl 4; McConnachie 3; McKay; Musser.

No Word Regarding Thursday Mail

Up to the time of going to press no word had been received at the Alice Arm Post Office regarding the carrying of mail to make connections with the C. N. R. Steamship at Anyox. Nor had any word been received regarding a direct mail service to and from Anyox except that the Steamship Camosun would carry mail from Alice Arm to Anyox every Monday. It is hoped that the postal authorities will shortly make arrangements for a better mail service than at present exists, and so relieve the intolerable position in which the residents of Alice Arm are placed.

Premier Mine Visited by Serious Fire

A fire, that at one time threatened to destroy all the buildings, occurred at the Premier Mine yesterday afternoon (Friday.) It originated in the Cookhouse and destroyed the Mess House, Bunkhouse, Commissariat and the Community League Building.

When the conflagration was at its height it was feared that the entire camp would be wiped out, including the concentrating mill, but the fire was eventually brought under control.

Supplies were rushed from Stewart in order to feed the 400 men at the mine. The production of the mine and mill will not be effected by the fire.

**Consolidated Accounts
For 50 Per Cent. of
Mineral Output**

Final figures of the production of Consolidated Mining & Smelting Co. for the past year show the company's revenue to have fallen \$8,000,000 below 1926. There was a drop of 20,000 ounces in gold, and of nearly 3,000,000 pounds copper. Silver production was about the same for both years, but there was an increase of 30,000,000 pounds in lead and of 12,000,000 pounds in zinc.

The drop in value was mainly due to the lower prices ruling for lead and zinc. Had the same prices prevailed in 1927 as in 1926, the company's production would have reached the astounding figure of \$44,156,078. As it is, the company accounts for 50 per cent. of the total mineral production of the province, including coal, structural and miscellaneous minerals; and for nearly three fourths of the entire metal mineral output. If the production of Granby, Britannia and Premier are taken into consideration, we have the astonishing fact that these four companies account for almost the entire metal output, leaving only \$3,500,000 for the whole of the other operating mines.

The copper turned out at Trail Smelter comes almost entirely from the Granby's Company Allenby plant, but with its own activities in Coast Copper, Sunloch and some of the copper prospects recently bonded and under development on the Coast, the company should again become an important producer of copper, just as it was when operating its Rossland and boundary mines.

The past year saw the greatest increase in the number of producers experienced in the history of the industry, the custom shippers to Trail Smelter numbering 118, and accounting for 539,082 tons. Of these shippers the production of all except seventeen was under 1000 tons.

Premier McLean Asks For Quick Transfer

Speculation is rife as to what will eventually happen to that tract of land at Alice Arm known as the Indian Reserve. It was surveyed last year by the Provincial Government, and it is understood now owned by the province. Will it be sold to a private company or individual, or will it be placed upon the market by the government. The latter procedure would be more satisfactory to those living on the Reserve and would also be better business for the government.

In a telegram to Hon. J. H. King, the Premier urged the introduction into parliament of legislation approving the return of the lands. Also he expressed thanks of his government and the people of British Columbia to the Federal Government for its consideration of the request of the province.

**SYNOPSIS OF
LAND ACT AMENDMENTS****PRE-EMPTIONS**

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

**STEAMSHIP AND TRAIN SERVICE**

S. S. Prince Rupert leaves Anyox for Prince Rupert, Vancouver, Victoria, Seattle, and intermediate points, each Thursday, at 11.00 p.m.

S. S. Prince John leaves Prince Rupert, for North and South Queen Charlotte Islands, fortnightly.

PASSENGER TRAIN SERVICE FROM PRINCE RUPERT

Trains leave Prince Rupert each Monday Wednesday, and Saturday at 11.30 a.m., for Jasper, Edmonton, Winnipeg, direct connections for all points East and South.

Use Canadian National Express for Money Orders, Foreign Cheques, etc., also for your next shipment.

For Atlantic Steamship Sailings or further information, apply to any Canadian National Agent, or to R. F. McNAUGHTON, District Passenger Agent Prince Rupert, B.C.

BRITISH COLUMBIA**The Mineral Province of Western Canada**

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,133; Structural Materials and Miscellaneous Minerals, \$50,175,407, making its mineral production to the end of 1926, show an

Aggregate Value of \$988,108,470

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for five years, 1921-1925, \$214,726,650; for 1926, \$67,188,842.

Production Last Ten Years, \$429,547,755

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information. Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

**THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia**

Silver Production Increases

Silver production for the world shows no definite signs of declining, according to the latest figures of the A. B. of M. S. for August, the most recent month for which complete figures are available, the total was 20,178,000 oz., compared with 19,140,000 for July and 16,697,000 for August in 1926. All of these figures include the production of countries that in 1926 produced 88 per cent of the world's total. Based on averages for ten months, rates of production in both the United States and Canada are somewhat lower than in 1926.

C. P. R. President Predicts Railway Boom

"Canada is on the high road to great and economically sound prosperity and I think I may say with reasonable assurance that during the next ten years, if Canada progresses as we anticipate, there will be more money expended in railway expansion than in any other single industry," President Beatty of the Canadian Pacific said at a convention of western retail lumbermen.

Champion Stallions of Four Countries

1. "Lord Willingdon," \$10,000-Clydesdale, one of the finest Stallions ever bred in the Old Country. - 2. W. J. McCallum, at left, about to board plane for Paris on horse-buying tour. - 3. C. P. R. Freighter "Bolingbroke." - 4. "Commander of Morston," an English champion included in the shipment.

What is considered to be the finest and most valuable shipment of horses ever to reach Canada arrived in Montreal recently from England and Europe on board the Canadian Pacific freighters, Bosworth and Bolingbroke. The animals are owned by W. J. McCallum of Brampton, Ont., and Regina, Sask., and represent the pick of the champion heavy horses of England, Scotland, France and Belgium, having been purchased by Mr. McCallum during a 20,000-mile motor tour of the rural areas of the British Isles and the two countries of Europe. The horses were shipped to Brampton prior to being exhibited at the Winter Fairs to be held within the next few weeks at Toronto, Chicago, Guelph and Ottawa. Some idea of the value of the large shipment, can be obtained by the fact that one of the horses included in the shipment, "Lord Willingdon" was purchased by Mr. McCallum for a price exceeding \$10,000. Over a quarter of a million dollars

has been invested by Mr. McCallum, in Percherons, Clydesdales, Suffolks and Belgians. His first shipment to Canada this year included 14 animals which reached Montreal in August. The owner who crossed from England this trip aboard the Metagama, personally looks after the important details in connection with the handling of his horses.

Questioned as to the damage done to the horse industry through the introduction of tractors and other mechanical farm implements to take the place of horses, Mr. McCallum stated that gasoline had done all the damage to the horse industry possible. There was a scarcity of good horses in Canada and Great Britain, he said, due to the fact that the number of good horses bred had greatly decreased. He believes that the introduction of high-class animals into the country will go a long way towards stimulating the raising of better quality horses.

The history of a great number of

his horses carry the record of championships won at practically all the fairs and exhibitions in Great Britain, France and Belgium. "Lord Willingdon," the stallion for which he paid over \$10,000, is the most valuable horse with the present lot and one of the finest horses ever bred overseas. He was the only two-year-old winning double championships in Scotland this year, being champion at the Royal Show, Newport, Scotland, and champion at the Kilmarnock Show. This stallion will go back to Scotland for breeding purposes.

Mr. McCallum's up-to-date method of engaging in the horse-buying industry is borne out by the fact that he does considerable travelling by air, and he recounts many exciting incidents when forced landings were made on account of fog and stormy weather. His systematic tours of rural districts in England, Scotland and Europe are done, however, by motor during the summer months.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that William Andrew Wilson whose address is Alice Arm, B. C. will apply for a licence to take and use fifteen cubic feet of water per second out of Granite Creek, which flows easterly and drains into Kitsault River, about six miles above Alice Arm, B. C. A 150 foot head damsite and pipe line will be located on Riverside Mineral claim, near the Dolly Varden Railway. The water will be used for mining and milling purposes upon the mineral claims described as the Riverside Group. This notice was posted on the ground on the 30th day of January, 1928. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

WILLIAM ANDREW WILSON,
Applicant.

By J. A. Wilson, Agent.
The date of the first publication of this notice is February 4th, 1928.

Masquerade Dance Committee Offers Prizes

Miss Hestyr Richards announces that her Committee is indebted to Mr. Ashmore and to Mr. Ed. Johnson for prizes for costumes at the P. T. A. masquerade. Miss Belinda Hamilton has been added to the Prize Committee and will join the campaign to secure further appropriate gifts. Mrs. Eve, who has a record of success as convenor of these dances in the past, has assisted the Committee with advice suggested by her experience.

The discovery of a New York angler may be of interest to local fisherman. He relates that he soaked an angleworm in whisky, put it on the hook and made a perfect cast. There was a great commotion and he caught a trout. The whisky-soaked angleworm had seized the fish by the throat with a stranglehold.

The average man puts a greater value upon a favor he bestows than upon one he receives.

**SEEKING LAND IN CANADA**

This photograph, taken outside the Union Station, Winnipeg, is of a group of prominent United States farmers, who have been looking over settlement prospects in Saskatchewan and some of whom have purchased land. They were brought to Canada in September by Capt. L. B. Boyd, superintendent of the land, colonization and development department of the Canadian National Railways at St. Paul, Minnesota, and were interested in the Tyner Valley district and have been urged by them to come to Canada. Others, not moving themselves, are taking land for their sons.
