Esperanza Mining Rich Presentation Made to Shoot of High Grade Ore

One of the best shoots of high grade ore ever located at the Esperanza, is now being mined. The ore vein lies rather flat. It is between two dykes, which are 200 feet apart, and the ore extends from dyke to dyke and is nearly 3 feet thick. After a close study of the ground, it is estimated that the ore extends up the hill for a distance of 500 feet, and also a considerable distance down the hill.

The vein is composed of 10 inches of exceptionally high grade ore, in fact as good a grade of ore as has been found in the mine, and this property, as everyone knows has, in the past shipped some really high is full of native, ruby and brittle profit.

Other veins of ore were recently encountered, but at present are not being mined, work being concentrated on the larger one.

Since the Esperanza was first worked in 1912 by Capt. John Irving and associates, a lot of high grade ore has been shipped, and instead of the supply diminishing, it seems to increase. The biggest handicap the property has had to contend with, is the lack of a compressor plant. All work has been by hand, which is a slow process. When a compressor plant is operating and long tunnels, giving a greater depth on the ore can he driven, the Esperanza will considerable increase its shipments, and probably rank as one of our leading properties in the days to come.

Card Party and Dance by Ladies' Auxiliary

J. G. Ellis at Social Gathering An enjoyable party was given

on Saturday, at the home of Mr. W. F. Eve in honor of Mr. J. G. Ellis, who is severing his connections with the Granby Co.

Among those present were Messers Geo. Lee, C. Gray, Geo. E. Warwick, W. Kyle, J. McCallum, J. Pottinger, L. McQuarrie, H. Kirk, H. Armstrong, B. Buck, A. M. Davie, A. Morton. J. G. Ellis and W. F. Eve.

Mr. Ellis has been with the Granby Co. for the last thirteen years, serving the company at Ketchikan at the It and Mami Mines as accountant for five years, and working at Anyox for eight years. A musical programme was grade ore. There is also two feet arranged with great success, and of ore not quite so good, but which many of those present were discovered to have unlimited talent as far silver, and should pay a handsome as singing and recitations were concerned.

> A presentation was made to Mr. Ellis on behalf of those present by Mr. Eve. Mr. Ellis replied with suitable remarks and thanks for the honor of the occasion.

> A very tasty supper was served and Mr. Eve more than excelled himself as a host.

Surprise Party Given Miss Janet Smith

A host of her High School friends surprised Miss Janet Morley at her home on Thursday Eve April 8th, They arrived quite unannounced about 8.30 and proceeded to give Miss Morley a party. A very enjoyable evening was spent in dancing and games, dainty refreshments were served at twelve o'clock and after dancing for another hour the party gave three rousing cheers for Janet and Mrs. Morley, departing about 1.30 a.m.

Those present were: Miss Rose A very successful card party and O'Neill, Miss M. O'Neill, Miss Thelma Deith, Miss Annie Scott,

Second Performance

A very pleasant musical evening was held at the Mine Hall, on Monday evening, under the auspices of the Ladies' Aid of the United Church.

The evenings' entertainment was considerably enlivened by the Mine Club Melodians.

The first part of the programme was musical and of an exceptional fine quality. Mrs. J. Murdoch, Mrs. H. Armstrong, Mrs. Tamkin Mr. E. Blundell, and Mr. J. Mitchell, rendered vocal solos. Messrs. Evans and Owens of the Mine greatly pleased the audience with two vocal duets. Miss Leitch and Bonny Chapman played an instrumental duet. Mr. Wylie Grant ably rendered a violin solo. Mr. Dresser, Dr. Davies, Mrs. Kent and Miss Leitch acted as accompanists.

Recitations by Jean Robertson and Kenneth Lawn were heartily encored.

The main feature of the evening was a humorous sketch "Sewing 120. This was for the Heathen." splendidly produced.

The cast was as follows: Mrs. Judd, the hostess.-Mrs. Patrick.

Meely, the maid-Mrs. A. Roberts.

The Rich Mrs. Powers-Mrs. Neil McLeod.

Mrs. Chesty, the President-Mrs. H. Kirk.

Grandma Gibbs-Mrs. J. Dunn. Mrs. Strong-Mrs. A. Crone. Mrs. Meeker-Mrs. J. Cloke. Mrs, Day-Mrs. Clay.

Luella Huggins-Mrs. C. Mc-Millan.

This entertainment was first given at the United Church, on March 26th. and so great was its popularity that it was decided to give another performance at the

Another Vein Encountered on Wolf

A visit to the Wolf mine on Thursday revealed the interesting 109. fact that another vein of ore has Mrs. W. F. Eve 115, Mrs. Roy

Anyox Artists Give a Badminton Club Winds Up Season with Tournament

5 cents each.

Last Sunday was a busy day for the Anyox Badminton Club, who played off a tournament to wind up their seasons' play. Twenty-four took part in the first half of the series, forty-eight mixed double games being played.

Everything went off in fine style, play commencing at 10.30 a.m. and finishing at 6.30 p.m.

The Ladies had thoughtfully provided a variety of good fare which was served in the balcony, and Mr. Ashton saw that the teapot was always full to quench the thirsty players.

The balcony presented a very pleasing sight, the spectators using it to the greatest advantage to watch the various games.

It is to be regretted that space will not permit to record the result of each game, the Tournament was decided on points the total number of points making a possible was

Mrs. Kirby made the highest number of points among the Ladies, 117 being her score, Mrs. Eve was second with 115.

Mr. F. Brown and Mr. Moffat tied, making 120 each. A final game had to be played to decide the winner, Mr. Brown winning by 18 points.

Although Badminton in Anyox was only started this season it proved a very successful means of passing the long winter evenings, and thanks are due to their able secretary Mrs. E. J. Conway, who devoted a great deal of her time in making the Club a success. Mr. E. Ashton is also to be complimented for his many kindnesses.

It is hoped that next season to organize the Club earlier and that the membership will be largely increased.

Following are ths scores of the players:

Mrs. B. M. Buck 94, Mrs. A. Crone 84.

Mrs. Kirby 117, Mrs. D. Deane

The big log carrying barge, Drumrock, arrived at Alice Arm on Monday, to load approximately Mine. one million feet, from the booms of J. O. Trethewey. She was towed by the powerful tug Cape Scott, commanded by Capt. Mooney. The

week-end, arriving on Saturday and leaving on Monday. J. Morrison was a southbound passenger to Prince Rupert and Vancouver on Monday.

T. W. Falconer arrived home on Monday after an extended visit in the south. Mr. and Mrs. Falconer accompanied by Mr. and Mrs. G. Clothier, made an auto trip from Vancouver to Mexico and return. The trip was greatly enjoyed, beautiful weather prevailing throughout.

Spring is here, and clean-up time has arrived. Clean up the back yard and clean up the front yard. A clean town is a beautiful thing to behold. It is a proof that its inhabitants are proud of the town in which they live. One of the first things noted by a visitor is the condition of the ground around the houses. If they are clean it shouts progressiveness, and if they are covered with refuse it spells lack of energy and slothfulness on behalf of its residents. Owing to the barren nature of the ground it is extremely hard for Anyox to pearance, but all rubbish could be gathered up in the immediate vicinity of the residences, showing that as much as possible had been done to present an attractive appearance. Alice Arm is situated differently, vegetation being prolific. There is no excuse for an untidy front or back yard. A little cultivation and a few flower L. W. Patmore, is on his way home or vegetable seeds will transform an eyesore to a thing of beauty. Alice Arm will have a number of visitors this year. Show them you are progressive by cleaning up and planting seeds wherever possible.

The illuminating and instructive address given in Anyox last week ada has been the training ground

New Mexico Property

David Goodrich, of the Goodrich Rubber Co., "who developed the Pecos Mines of New Mexico, 14 miles from Santa Fe, N. M., has sold the property to the American Metal Co., Ltd., of New York. It is said that assays average 18 per cent zinc, 4 to 5 per cent lead, \$2 in silver, and \$1.50 in gold. The mines will be modernized, and a 600-ton selective flotation plant, and aerial tramways installed Heath Steele is president, and will conduct operations under the name of the American Metals Co. of New Mexico.

Mr. J. B. Haffner, who was assistant general manager at Anyox is in charge of operations.

Denies Report of Sale of Indian Mines

"It's only a rumor and there's nothing to it," stated J. Arthur Smith, director of the Indian present a neat and attractive ap- Mines Ltd. when asked regarding a report that the Indian mine at Stewart had been sold to the Premier Gold Mining Co. Ltd. Mr Smith stated that Premier engineers had made a thorough examina tion of the property but that nothing in the way of a sale had yet been brought before the Indian directors.

J. Fred Ritchie, the president of the company, is at present on a trip to Seattle and the secretary, after a trip east.

Joe Rogers Passes Out

Portland Canal News Sebakwe Co. Starts Work

The Sebakwe management are losing no time in getting development underway on the Bush prop-The Prince George on erty. Thursday brought in a 60 h.p. engine, capable of developing 340 cubic feet of air, with the necessary accessories, including a starter engine, air receiver and air pipe, the shipment weighing 13 tons. The Crawford Transfer Co., who have the hauling contract, at once started to move this equipment up the hill, in addition to lumber and other material for the construction of the camp which will be erected adjacent to the new tunnel south of the Bush slide.

Ten men, including a cook, went to the property Wednesday to get things under way. While no details are available, it is understood that the new camp will have accommodations for about 15 men.

Big Missouri Has Large Ore Body

Captain Duncan McVichie, a well known mine operator from the States, and Harry Townsend, consulting engineer for the Big Missouri Mining Co., after spending some days at the mine, left for the south Monday night, apparently satisfied with what they had seen. Mr. Townsend expects to return in about two weeks, while Capt. Mc-Vichie said that he anticipates being back again when the snow has gone.

Work on the property has been progressing very satisfactorily throughout the winter. An important feature is a new discovery made on the Union Fraction, which adjoing the Unicorn on the west. The size, strike and dip of this ore body have not yet been determined owing to the fact that although deifts have been run on it 22 feet west, 20 feet north and 7 feet south no wall has so far been encountered and more work is required to obtain real information.

Lumber and supplies are being ushed in by the Crawford Transfer Co., before the snow leaves and nakes it necessary to use packorses.

3. C. Silver Enlarging Plant

Consolidated Co's. Operations Show Huge Profit

Profits of the Consolidated Mining & Smelting Company of Canada, Ltd., in 1925, reached the record total of \$11,215,316, according to the financial statement published last week in Montreal. This is the company that operates the Trail smelter and the great Sullivan mine at Kimberly, with other smaller properties in the Kootenays.

The profit represents 88 per cent of the company's capitalization and is nearly a quarter-million over the most optimistic estimates of the mining men who were familiar with its recent operations.

The earnings per share for the past three years are:

1923 \$3.98 1924 7.83 1925..... 22.12 The par value is \$25.

No Money For Highway

The contract for the construction of a highway from Golden to Lake Louise, the largest road project contemplated this year, has been awarded to Dawson and Wade of Vancouver for \$78,859.

Premier Dividends Have Huge Total

Premier Gold Mining Company has declared its first quarterly dividend for 1926, payable April 3rd. to stockholders of record on March 19th. The dividend is at a rate of 8 cents a share, or \$400,000. This makes a total dividend record of \$8,588,000, all paid since 1921.

Highest hydraulic lift-lock of its type is at Peterboro.

presser: two air receivers have been set up and the air line laid; in fact every detail is now complete and the new machinery will be turned over for the first time next Sunday. Lumber is being hauled by the Crawford Transfer Co. for the construction of a three-story bunkhouse capable of accomodation to 62 men, which will increase the accomodation to approximately 100 men. It is expected to have this work completed in the near future.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, condi-tional upon residence, occupation, and improvement for agricultural purpose purpose

purposes. Full information concerning regu-ations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of by addressing the Department of Lands, Victoria, B.C., or to any Gov-ernment Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timber-land, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range. Range.

Applications for pre-emptions are to be addressed to the Land Com-missioner of the Land Recording Di-vision, in which the land applied for is situated, and are made on printed forms, copies of which can be ob-tained from the Land Commissioner. **Fre-emptions must be occupied for five years and improvements made** to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be acres, be received.

For more detailed information see ne Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for pur-chase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further infor-mation regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands." Mill, factory, or industrial sites on

Mill, factory, or industrial sites on timher land, not exceeding 40 acres, may be purchased or leased, the con-ditions including payment of stumpage

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and im-provement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial pur-poses areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Aot the Prov-ince is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
