Anyox Dominion Day Celebration

Rain Curtailed Day's Sport

What was scheduled to be one grand day of sport in Anyox, on Dominion Day was somewhat curtailed on account of the inclement weather.

All the plans for the day had been worked out in detail by the hard-working secretary of the Community League and his energetic band of supporters comprising the different committees. Everyone was out and anxious to go, and a good start was made.

The marathon race for men, from Hotel to Mine Apartments and return, was won by Ingraham, Dodds being second. The boys' marathon race, Hotel to Beach Mess and return, was won by Asimus, McDonald being second.

At 10.30 the Ball Park was crowded with spectators to watch the baseball game between Anyox and Ketchikan All Star teams, a report of which will be found in our sporting columns.

The afternoon sports and the evening baseball game were forced to be abandoned owing to the heavy downpour of rain. It has been decided, however, to hold the sports this afternoon.

A party of about thirty came over from Ketchikan on the launch Prince of Wales, and although the rain was heavy enough to dampen the brightest spirits they refused to be denied a good time and enjoyed themselves to the limit. Their enjoyment was largely due to the officers of the Community League and the B. P. O. Elks. The latter provided a banquet at the Elks' Hall to the Ketchikan visitors, and a dance was given in their honor at the Gymnasium, by the League.

Although the dance was advertised to close at midnight, so great was the crowd and enthusiasm that it was carried on until 2 a.m. and even then, there were some who were willing to fox trot some more.

The Orchestra, composed of J. Austin, piano; G. Steele, trombone; Sid Armstrong and Bert White, violins; Chas. Hutchinson, clarinet; A. Nother, saxophone, and E. J. Waterman, drums and traps, were kept exceptionally busy and their music was perfect. Ice cream, etc. was served as refreshments throughout the evening.

Your Postmaster may spare you a copy of the 1924 Prince Rupert Exhibition Prize List. Try to have Entry Sheet reach an exhibitor. Use address Box 707 Prince Rupert.

BIRTH AT ANYOX

Born at the Anyox hospital on Tuesday, July 1, to Mr. and Mrs. Bardesono, a son.

FOR SALE

An upright mahogany finish Nordheimer piano. It is in first-class condition and practically new. For particulars apply Herald Office.

Government Road Work Progressing

The government are making great progress with their summer's programme of road work in the vicinity of Alice Arm.

Good progress is being made with the repairing of the Dolly Varden railway tracks, and it is expected that it will be possible to operate hand cars and gasoline speeders to Camp 8 before the end of the month.

There was some anxiety as to whether the railway would be repaired this summer, and great satisfaction is felt now that the utilization of the railway is guaranteed. It is the only means of transportation up the Kitsault valley, and its upkeep is of vital importance to the mining industry of that district.

Work has been going on for the past few weeks constructing a road from the new Kitsault bridge to connect up with the wharf road near the school. All that remains to be done to complete it, is surfacing, and when this has been done, a first class road will be available from the wharf to the bridge.

Progress is also being made on the road which will start at the east end of the Kitsault bridge, traverse the flats, and eventually connect up with the Illiance river pack trail across the bay. A considerable portion of this road has been cleared and graded, and as soon as logging operations are finished near the bridge the work can be speeded up.

When this work is completed the Illiance trail will be connected with the wharf by a good road, available for wagons or autos.

Alice Arm has for a long time been handicapped by lack of roads and now that a start has been made, let us hope the good work will be carried on.

Alice Arm Baseball Game

On Sunday afternoon the Giants baseball team went down to defeat at the hands of the White Sox team to the tune of 20 runs to 7 runs. Jimmie McAleenan rallied his team time and again, but his mates could not secure the lead. Lee Intermelia, their star second base man, not only hit a home run, but played his position wonderfully, but for all of that the White Sox, starring Sherman, Bruggy, Falconer, Warner and Mann, could not hold themselves, and made a clean get-a-way, playing there positions in great form.

The teams lined up as follows:
Giants: Hill, Burmeister, Al Falconer, Intermelia, McAleenan, Flint, Wilson, Gus Anderson.

White Sox: Sherman, Bruggy, T. W. Falconer, Mann, Warner, Jack Anderson, R. McGinnis, Skoglund, Morley.

Umpire Geo. Graham.

Visit Prince Rupert Fair week, Sept. 9 to 13.

Anyox Baseball and Football Games

The Elks put over their third straight win on Friday evening, when they took the Miners into camp to the tune of nine runs to six. The Mine chased four markers across in the first frame and held the Elks scoreless for the first two innings. In the third the Antlered Herd succeeded in finding Ferguson for a series of base hits and when the smoke had cleared away three runs had been chalked up. The Mine added two more to their total in the fourth only to have the Elks come back in their half of the same inning and gather in four. Two more in the sixth inning for the Brother Bills ended the scoring. After the first inning Cody settled down and pitched air tight ball and was given wonderful support by his team mates. McIntyre pulled off two spectacular catches in the sixth inning, of what looked like sure base hits. F. Brown played a good game at short stop for the muckers, accepting several difficult chances without a miscue.

The teams were: Mine, Kirk, Ferguson, Anderson, O. Kirk, Brown, Allen, Clark, Valpy, Dooley Dean.

Elks: Down, Campbell, Greenwell, Cody, Hall, Sheen, McIntyre, Smith, Thorley.

Umpires W. Olsen and A. Sinclair.

Not dampened by the down pour of rain the Anyox All Star Baseball Team took the strong American Aggregation into camp to the tune of 7-5.

The first two innings were very disastrous for the visitors, the Anyox boys scoring no less than seven runs; five in the first through three walks and countless errors. The second inning the home boys again tallied twice on a couple of nice hits and an error. From there on the visitors were undoubtedly the best team, showing more class in fielding and sticking. O'Connell started for Ketchikan, but was yanked in the third having hurt his knee, which necessitated medical attention. Ellensburg carried the burden for the remainder of the game, and Anyox was not able to solve his mystery ball, one lone hit was the extent of their endeavours. In the last frame the visitors nearly cinched the game, and had it not been for a spectacular catch by Harry Down of Harris' line drive the score would have been tied, as two men were on bases at the time.

The evening game was called off on account of rain, and the executive did all in their power to give the visitors a good time.

The Married men gave the Single gentry a lesson in football at the Park on Dominion day, they only played a half an hour but in that short time the benedicts managed to run in three goals. A heavy downpour of rain put an end to further hostilities.

ALICE ARM NOTES

Dr. Keeley, dentist, has decided to stay here another week, and will leave for Anyox on Sunday, June 13, according to his present arrangements.

Mrs. F. M. Kelley, Mrs. H. Selfe, Mrs. S. Herrin, and Mrs. Barclay of Anyox, are spending holidays at Silver City, with their families.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Dr. and Mrs. P. Whelan and family arrived last Saturday from Anyox. Mrs. Whelan and family will spend the summer here.

While repairing a donkey engine at the No. 2 logging camp of the Granby Co. last Saturday, Mr. Al. Miller had the misfortune to crush his hand, losing one finger. He is receiving treatment at the Anyox Hospital.

Miss Rosenstein, of San Francisco is spending holidays with Mrs. P. Whelan.

See Al. Falconer for Wood, Coal and Lumber.

Quite a number of people availed themselves of the opportunity to spend Dominion Day in Anyox, and although the weather was a trifle damp during the day, the dance more than recompensed them for their trip.

Mr. A. Davidson, who is doing development work on the Wildcat property spent a few days in town during the week. He reports that ore is showing in the tunnel in small stringers and that further development work will undoubtedly encounter the ledge for which it is being driven.

Mr. A. H. Milne, of Victoria, arrived on Monday, and is spending a vacation with his daughter, Mrs. J. A. Morrison.

Mr. F. E. Gigot arrived from Anyox on Thursday, and is busy writing up Insurance Policies.

Shower baths for ladies and gentlemen. First-class service. J. Laidlaw, Alice Arm Electric Laundry.

Rev. Father J. R. Buck, arrived yesterday from Salem, Oregon, and is spending holidays with Mr. and Mrs. C. P. Riel.

Mr. H. F. Kergin, M.L.A. left on Thursday, for Victoria, where he will attend a gathering of the Liberal party who will discuss their future plans and leadership.

Miss Pearl Wilson left on Monday to join her mother in Vancouver.

Mr. Geo. Young, government road superintendent, left on Monday, for Stewart.

Mr. Sid Miller, an old resident of the camp, arrived from Anyox on Tuesday, and will spend the next two months developing his mining properties.

Big Output of Logs at Alice Arm

This year is the biggest year for the logging industry in Alice Arm; both Eric Carlson and the Granby Co's. No. 2 camp are working full blast.

Eric Carlson, contractor for the Abbotsford Logging Co. is logging around 70,000 feet per day over the railroad. He finished logging on the east branch of the Illiance river last week, except for some piling, which remains to be taken out. The logs were pulled to a spar tree and later will be hauled to the water. There is now over 3,000,000 feet boomed in the water awaiting arrival of a tug to tow them to Ocean Falls.

During high water periods in the Kitsault river, the water overflowed, and made logging operations somewhat difficult and unpleasant. There are from 55 to 60 men employed at the camp, and logging will continue until the snow flies, and will again be continued next summer, when it is expected the ground held by the company will be logged off.

The No. 2 camp of the Granby Co. are bringing down from 70,000 to 100,000 feet per day over the Dolly Varden railway. The logs are made up into small booms and towed to the company's sawmill at Larcom Island. The mill is cutting 75,000 feet per day and is in steady operation.

The railway trestle at No. 2 camp of the Granby Co. is now completed, and the laying of steel is almost finished. A locomotive has yet to be brought in, and it is expected that in a short time the camp will be running to capacity dumping the giant spruce trees of the Kitsault flats into the water.

Contributions of labelled ore samples for the Fair and finally for the Monster Mineral Exhibit on the Prince Rupert Waterfront should be shipped in not later than August 31st.

See Al. Falconer for Freight and Pack horses.

Mr. R. Gordon, of Prince Rupert has accepted the position of school teacher at the local school. Mr. Gordon holds a first class certificate and has been recommended by the school inspector.

Don't forget the ball game tomorrow afternoon.

Norman McLeod and Hans Peterson left yesterday with 500 pounds of supplies for the Standard property, on McGrath mountain, where they will do considerable development work.

Mr. John Stromstad was struck in the face by a steel rail yesterday at the No. 2 camp of the Granby Co. He received a broken nose and other injuries, and was at once taken to Anyox Hospital.

Mr. J. A. Watson was conveyed to Anyox Hospital this morning suffering from a stroke of paralysis.

There are very few mining camps throughout the country, but what have had their good and bad times, but history proves that if the ore is there in sufficient quantities, and rich enough to be profitably worked, that eventually the camp will be developed. Alice Arm has had its good times and it has had its quiet times. We have here a hard quartz mining camp; also transportation problems, and it costs considerable money to properly develop a property. Everyone who has examined the mineral deposits of the district, admit they are second to none on the continent, and well worthy of considerable expenditure of money for development purposes. They are also sure that some day these properties will be developed. What is causing some concern, however, is when any big development work will be undertaken. Thirty or forty years hence will be no benefit to most of us. What we need is immediate action, and the sooner we can encourage capital to invest in mining in this district the better.

Anyox Community League are to be congratulated on the excellent programme of sports outlined for Dominion Day. If the weather had been favorable, it is safe to say that this year's celebration would have far excelled all others. The baseball team and fans from Ketchikan were well cared for by the Community League and P. B. O. Elks, and others also made their visit as pleasant as possible under the circumstances. "Give the visitors a good time," was the slogan of the day, and although a trifle damp we are sure the Ketchikan visitors enjoyed themselves to the full.

The Herald has now entered upon its fourth year. During the past three years, it has not been all plain sailing, we have weathered some storms, but have managed to steer clear of the rocks, and while we are not yet in smooth water we can look to the future with courage undismayed. During our existence, we have, to the best of our ability, played the game straight, criticizing few, but lauding many. We have given every worthy cause our hearty support,

H. J. DALY

"President of the defunct Home Bank, who recently died at his home in Toronto. His health had been failing fast since the collapse of the bank.

Money Available for Mining Development

That Canada could readily secure in London, England, all the capital required for the development of her mineral resources, provided those interested in mining properties could show the investor mineral deposits worthy of development, was the statement made by Sir William Maxwell, K. B. E., in an address at The Pas, Man., a few days ago. Sir William, prominent English mine owner and writer, was on his first visit to the Herb Lake gold camp, during his tour of Canada over Canadian National lines.

Tight Money Hampering Rambler-Cariboo Plans

Plans for any re-financing of Rambler-Cariboo Mines, Ltd., owning property in McGuigan basin, Slooan district, have been dropped for the present, on account of tight money conditions, particularly in the surrounding agricultural sections, where much Rambler-Cariboo stock is held. The mine and mill have been leased to Wilfred A. Cameron, former manager, the present lease running until November 1, 1924.

and have broadcasted the possibilities of this district, whenever possible. Our chief aim is the development of this district, and with this object in view we hope to carry on for a long time to come. To all our supporters in the past we say: "Thank you."

Guggenheims Close Down Mining Properties

Development work on mining properties at Owen Lake near Houston, which the Federal Mining and Smelting Co. has been conducting for some months, was closed down at the end of the week and the staff sent out. It is said that the company was not satisfied with the showings.

As a result of unfavorable reports made by Mr. Burbidge, a consulting engineer, who recently visited the properties, it is understood that the Federal Co. is also closing down operations at Usk and Dome Mountain.

Agricultural Produce Shows Large Increase

Agricultural production in British Columbia during 1923 had a total value of \$59,159,798, an increase of nearly \$4,000,000 over the previous year, according to a statement issued by the provincial department of agriculture. Dairy products accounted for \$9,234,576 of the total. Fruit production was valued at \$6,034,976, while vegetables were worth \$5,853,626. Fodder and grain crops accounted for the balance.

BY MOTOR AND PACK HORSE THROUGH CLOUD WONDERLAND

FOR the man or woman in search of healthful recreation, rest for jaded nerves, and a thoroughly enjoyable holiday, the world offers nothing more entrancing than a holiday in Jasper National Park, Canada's wonderland of scenery, where mountain, crag and torrent vie with one another in claiming the attention and where scenic nature is at her best. Towering peaks rise to the north, south, east and west; mirrored in the beauty of placid lakes whose shores provide shelter for the myriad wild life for which the largest of all Canada's national parks is famous.

Whether the tourist goes sight-seeing by motor car or by the more romantic pack pony, Jasper National Park offers him the best that can be found anywhere. Motor roads and pack trails radiate in every direction from Jasper

Park Lodge, the magnificent log cabin hotel of the Canadian National Railways, and the tourist may engage either ponies and guides or an automobile and thus see the mountains at his pleasure.

Mount Edith Cavell, named to honor the memory of Britain's heroic nurse, rises by the side of Mount Sorrow, within a short drive of the Lodge and is one of the favorite drives of visitors to the Lodge. The Cavell highway, smooth-surfaced, winds up toward the very foot of the Ghost Glacier, presenting to the visitor a new vista of scenic wonders at every turn. As one rides toward the foot of the glacier, the Athabasca Valley far beneath presents an attractive picture of calm loveliness, while here and there a lake, reflecting blue sky and sunshine, adds its touch to the beauty of the landscape. There are other drives which may be taken in comfort—

one may go in an hour, for instance, to the wonderful Maligne Canyon, one of the natural wonders of the entire Rocky Mountain region, where rushing waters go tumbling and boiling through a narrow aperture worn in the rock, two hundred feet below the feet of the tourist as he or she stands on one of the footbridges which span its narrow width. At any turn of the road the visitor may find himself face to face with a bear or a deer, walking calmly across the highway, while on the sides of the mountains he may see mountain sheep or goats grazing.

The tourist to whom riding appeals will find plenty to hold his attention. Pack trails may be followed for miles, when in the company of an efficient guide, one may set forth to explore regions which are beyond the reach of the motor tourist. The wondrous Maligne Lake and Medicine Lake, with their

quota of mountains reaching down almost to the water's edge, draw more and more tourists every year.

For years the wonders of Canada's national parks have been better known outside of Canada than they have been to Canadians, but year by year Canadians themselves are realizing that they have, in their own country, scenic attractions which are not surpassed anywhere in the world, and consequently the number of Canadians registering at Jasper Park Lodge is showing remarkable increases. Comfortable, steam-heated cabins are provided for their accommodation, an excellent cuisine is maintained at the main Lodge, where surroundings and service are of the world famous Canadian National Railways standard and every care is taken to see that visitors to Canada's largest and finest national park enjoy their outing to the full.

**SYNOPSIS OF
 LAND ACT AMENDMENTS**

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering any land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Here and There

British Columbia's agricultural production last year increased in value \$4,000,000 over the 1922 period, figures compiled by the provincial Department of Agriculture show.

A steady increase in the volume of wheat exports from Canada is noted in the monthly statement just issued by the Dominion Bureau of Statistics. In April, 1924, 6,085,465 bushels in all were exported, as against 5,143,304 in April, 1923.

It is anticipated that hundreds and thousands of visitors to the beautiful Annapolis Valley, Nova Scotia, will help to celebrate the famous fruit-district's "Apple Blossom Sunday," which falls on June 8th this year. The entire orchard belt, extending from Annapolis Royal to Windsor, a distance of about 80 miles, is always white and pink with blossom in the first part of June.

Hon. Honore Mercier, Minister of Lands and Forests, speaking of arrangements made in the province for forest protection this year, stated: "I really believe that the way the service is organized and with the good-will manifested by all classes of the community, who realize the importance of protecting your national domain, the year will be a good one and the losses reduced to a minimum."

The report of the statistician to the board of grain commissioners for April, recently issued, records the heaviest spring great lakes shipping season on record. The report says that there are indications that all the surplus of the western crops will be moved as fast as transportation facilities permit, as export purchases are to be heavier than usual and all ocean tonnage out of Montreal for May and June has already been engaged, as well as part for the July loading.

Something new in the way of railway equipment is the new storage battery car now operating over Canadian Pacific lines between Galt and Hamilton. The car attains a speed of 35 miles per hour and makes two trips a day in each direction. It has three compartments, general, passenger, smoking and baggage, is of all-steel construction and will accommodate 50 passengers. The service is reported to be giving every satisfaction to the people of the district.

Interviewed in Vancouver as to the success of the round-the-world cruise completed on May 24th by the "Empress of Canada," E. W. Beatty, said:

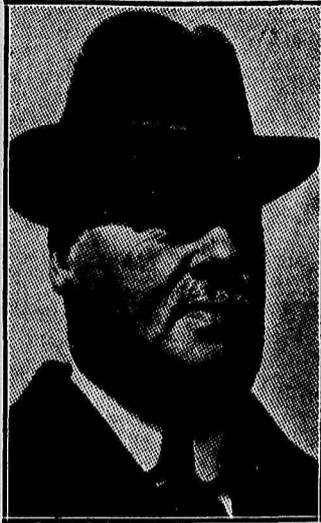

"To gauge the success of the 'Empress of Canada's' round-the-world cruise one has only to ask the passengers their opinion of the entire trip. I spoke to several while crossing from Victoria and without exception they all expressed their complete satisfaction with the ship, its officers and the arrangements made and carried out since the day she left Vancouver, almost five months ago.

"That is good enough for me. It is simple demonstration that the Canadian Pacific can successfully conduct cruises in competition with any organization in the world and maintain that company's standing as a credit to Canada. The 'Empress of Canada' has carried the Canadian flag over the seven seas and into most of the world's great ports, and the missionary work she has done for Canada in the various countries touched should not be lost sight of. As one result of the undoubted success of this cruise, we look forward with renewed interest to the Canadian Pacific cruises of next season. They include the West Indies, the Mediterranean and another round-the-world cruise which will be made by the 'Empress of France,' already overhauled and fitted with a view to providing the greatest possible comfort for her passengers. The experience gained this year will greatly help in enabling us to make these cruises even more successful than those recently completed."

Although it is only eighteen years ago that Alberta became a province, its population has increased four-fold, while the grain yield has increased twenty-fold.

FOR SALE—Edison Ambrola Gramophone and records in first class condition. A Bargain. For particulars, apply Herald office.

LORD ROTHERMERE

British newspaper magnate, who is in the United States appraising American journalism. He is a brother of the late Lord Northcliffe, whose great newspaper enterprises he now controls. Unlike his late brothers he is not an "office man," and many men occupying big positions on some of his largest papers have never seen him and probably wouldn't recognize him if they did.

Accepts Nomination

"I accept the nomination by the Republican Party for the Vice-Presidency. I deeply appreciate the honor conferred," said General Charles G. Dawes, author of the Dawes Reparations Report, when informed of his nomination for the Vice-Presidency of the United States

Big Provincial Payroll

A report issued by the labor department shows the total payroll last year of the province as \$145,000,000, a substantial gain. It includes only firms making returns. The number of smelter employees in the province is given as 1893.

Reports show fewer Asiatics employed and a falling off in activity of local mining on Vancouver island, offset by mining activity in the interior.

Has produced minerals valued as follows: Placer Gold, \$76,962,203; Lode Gold, \$113,352,655; Silver, \$63,532,655; Lead, \$58,132,661; Copper, \$179,046,508; Zinc, \$27,904,756; Coal and Coke, \$250,968,113; Building Stone, Brick, Cement, \$39,415,234; Miscellaneous Minerals, \$1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of \$810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1923, \$41,304,320.

Production During last ten years, \$350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

Prevent FOREST FIRES IT PAYS

Dr. T. J. GLOVER

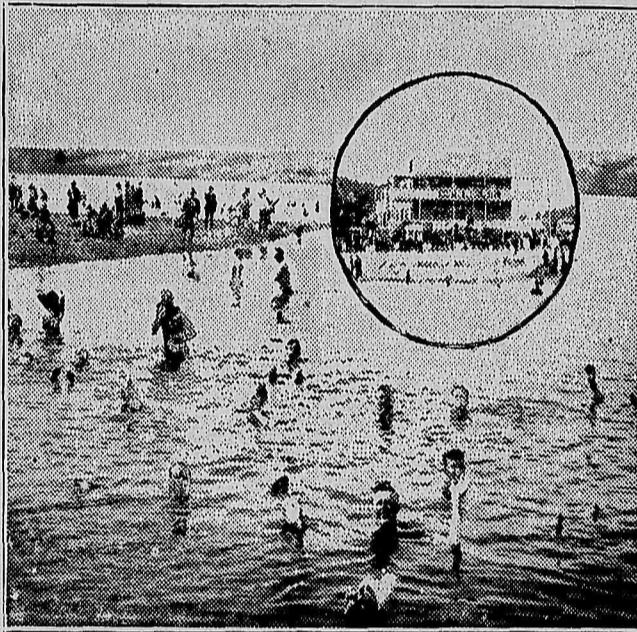

of Toronto, who is to put the results of his search for a cure for cancer before the medical bodies of the United States. He believes that the disease is caused by micro-organism, but this theory is severely criticized by some of the medical profession.

The Real Paymaster

Forests are jobs. Trees mean trade. Logs are the raw material not of lumber or paper, but of pay cheques. It is an incidental matter that the forest gives us telegraph poles. It is a very important matter that the forest gives us 120,000 workmen, supporting a half million of Canadian dependents, and distributing 500 million dollars to maintain Canadian prosperity. Conservation would never bother itself with trees if trees were not the substance of human employment. The Forest Protectionist would not sweat a drop for a square mile of Spruce if he did not know that some vast industry, a thriving town and a thousand contented homes are tied to Spruce trees by an inseparable bond.

We Canadians set 6,000 forest fires a year and nine-tenths of them through human recklessness, but those beacon lights of prodigality mean nothing if they do not tell us that we have put the torch to the livelihood of thousands of men; we have signed an unrenewable note for our children and our grand-children to pay. Let it be laid down as an ugly and undisturbable fact that in the present situation with forest demand jammed hard against dwindling forest supply, every forest fire must be paid for. Every mile of Spruce or Pine or Fir given to the annual bonfire will have to be bought back by the next generation in higher costs of lumber and paper, in forfeited industries, in dwindling public revenues, and a sacrifice of population.

ON THE BEACH AT MANITOU

LONG before the paleface came to the broad and rolling prairies, the Red man knew and appreciated the curative properties of Little Lake Manitou, which is located near Watrous, Saskatchewan, on the main line of the Canadian National Railways. And the first white settlers who came, in advance of the railways, to settle on their homesteads in and around Watrous, soon learned of this lake with its highly mineralized waters, so that Little Lake Manitou had its reputation made when the first settlers reached the country.

Today thousands of residents of prairie cities find Little Lake Manitou an ideal watering place, and

excursions are run from time to time over the Canadian National Railways from Saskatoon and other cities to provide citizens with a means of reaching this delightful spot.

The waters of Little Lake Manitou are so highly mineralized that the swimmer finds no difficulty in floating on their surface and at the same time their mineral qualities are health-giving in their action. With a good sandy beach for the kiddies to play on, and water chutes and other enjoyment features erected for their entertainment, Little Lake Manitou has become the ideal picnic spot for the dwellers in the central region of Saskatchewan.
