## Alice Arm Celebrates Armistice Day With Banquet & Dance

The sixth anniversary of Armistice Day was celebrated in Alice Arm by both the veterans of the late war and the townspeople.

The veterans held a banquet at the Alice Arm Hotel, which commenced at 6.30 p.m. It concluded at 9.30, and from then until the hour of 2, the celebration was general. A dance being held directly after the banquet.

A large number of veterans attended the banquet, which was held in the spacious dining room of the Hotel. A one minute silence was held by those present, in memory of their departed comrades, who fought the good fight, and died not in vain.

Armistice Day just means to the average citizen that the war closed on that date, but to the boys in khaki, who were on the bloodstained fields of France, fighting and floundering in mud, and suffering a thousand horrors, it is the one red letter day of their lives. The Armistice meant an end to all their sufferings, and return to home and friends whom they had not seen for years.

The boys at the banquet were in a reminiscent mood and many were the tales of life in the trenches, that went the rounds. The tales of horror and of humour were told, of training camps and trench warfare, and especially the "big push" that finished the war.

It was with an air of regret that the party broke up, in order to make arrangements for the dance to follow.

The dance commenced shortly before 10 o'clock, it was given by the veterans, and everyone was invited. A large number of townfolk were present and an enjoyable time was spent until 2 o'clock.

Community singing of camp songs were given by the veterans at intervals during the dance, and were greatly appreciated. Mr. J. Trinder presided at the piano. Mr. Lough also sang a solo.

The orchestra was composed of Mrs. Laidlaw, saxophone; Messrs. R. F. McGinnis, piano; C. Hutchinson, clarinet; Lorne Falconer, violin. They were greatly applauded throughout the evening.

Mr. G. W. Bruggy filled the bill as Master of Ceremonies, in his usual able manner, and kept the floor busy throughout the evening.

Mr. J. Lough, of the Club Cafe, was the chef in charge of the banquet, and also the refreshments for the dance. He has a reputation of being a past master at the business, and he certainly won new laurels on Tuesday.

The Armistice Day Memorial Services were held in the Elks' Hall on Sunday, when a large congregation was present. The Service was very impressive, and excellent addresses were given by Rev. J. B. Gibson and Rev. J. Herdman.

Mrs. R. Lamborn very beautifully rendered several solos, and Mr. F. Brown recited "In Flanders' Fields" in a very impressive manner.

The offertory taken at the Service, which amounted to \$36.00, was sent to St. Dunstan's Home for the blind, where 2000 men who have lost their sight, because of war services are being cared for.

A large amount of Anyox news failed to reach the Herald office this week.

## Fine Armistice Day Programme Carried Out By Anyox Service Association

Record Attendance At Banquet. Brilliant Dance Draws Large Crowd. Ladies Sell Poppies On Street

Armistice Day in Anyox is always the occasion for a celebration in honour of the close of the greatest war the world has ever seen. This year the celebration was along lines similar to last year, except that a more elaborate programme was carried out.

All arrangements were in the hands of the Anyox Service Association, who handled the various items in a very able manner.

A big dance was held on Monday evening in the Recreation Hall. This was followed by a banquet in the Mine Hall on Tuesday evening. On Tuesday, poppies were sold throughout the day by the ladies.

The dance was one of the biggest affairs seen in Anyox for some time. A large number of people were present, and enjoyed themselves every minute of the evening.

The hall was beautifully decorated with red, white and blue streamers, and banners, while shields were hung around the walls bearing the names of the battles in which Canada took part.

There were two dugouts, which were an exact duplicate of those used during the war. The "Canteen" was well attended throughout the evening. Ice cream, lemonade and hot dogs being in great demand. A change from the ordinary refreshments was the serving of these hot dogs, and they were piping hot.

Another novel feature introduced, was that instead of a moon-

light waltz, a searchlight dance was held, which was much enjoyed.

Piper Archie Dewar gave selections on the pipes, while a large number indulged in the Highland Schottische and Quadrille.

The music supplied by the Elks' five-piece orchestra left nothing to be desired.

Fancy hats were distributed among the ladies, and poppies were sold during intervals between dances.

The committee in charge of the dance, were: Mr. Sinclair, Mr. J. Wilson, and Mr. Harris.

Mr. J. Thompson acted as Sergt. cook and bugler.

The Refreshment Committee was composed of the following ladies:

Mrs. W. F. Eve, Mrs. Stevens, Mrs. Tate, Mrs. T. Evans, Mrs. A. LaFortune, Miss V. Eaton.

Mr. A. B. Morkle and Mr. A. Barrie were the floor managers.

### THE BANQUET

The banquet, which was held on Tuesday evening, was the biggest ever held in Anyox, and two sittings were necessary to accommodate all the veterans present.

Dr. Brised was the chairman, which position he filled in a very capable manner.

Songs, speeches and toasts were the order of the evening, and wartime tales went the rounds. The Anyox Brass Band was in attendance and their services were much appreciated.

The annual banquet is the occasion when the boys who "went over

the top" can all join together, and talk of those stirring days of 1914-15-16-17-18. Everyone seated at the table was a veteran, and each one knew the horrors and hardships his comrades had to endure, whether it was on the fields of France or Italy, or the sun-baked deserts of Gallipoli or Mesopotamia.

The Chairman proposed the first toast, "The King," which was received with great enthusiasm. Other toasts were: "Canada," by Mr. R. H. Manzer. "Our Fallen Comrades," Dr. Kinsman. "The Ladies," Mr. A. L. Poyart. To the latter toast, Miss Stewart of the Hospital staff replied.

French songs, that the soldiers used to sing on the battle line were thrown on the screen, and in which everyone heartily joined.

Mr. Ed. Blundell, Mr. Harris and Mr. Pierce had charge of the arrangements, and to them great credit is due, for the splendid success of the evening.

### SALE OF POPPIES

On Tuesday morning the ladies were out bright and early, with the Armistice Day poppies. The town was covered completely, and everyone was soon wearing that bright red flower, immortalized by McRae in the poem, "In Flanders' Fields."

The ladies who gave their services to this worthy cause, were: Mrs. Stevens, Mrs. G. Booth, Mrs. Jago, Miss V. Riel, Miss M. O'Neil, Mrs. R. M. Dorrall, Miss T. Gordon, Miss V. Eve and Miss K. Eve.

### New Stand Of Timber Being Cut

In spite of the cold weather which caused some inconvenience through freezing of water pipes, logging has been carried on uninterruptedly at the logging camp of Eric Carlson, and will continue until the heavy snow makes it impossible to operate.

The stand of timber near the camp of the Granby Co. is now being fallen. The railroad has been extended to it, and the whole stand, comprising about one and a quarter million feet will be put into the water this fall. From 80,000 to 90,000 feet per day is now being put into the water.

Owing to the cold weather freezing the lake caused by the dam, the operations on the Illiance river which were being carried on by Mr. J. O. Trethewey have been suspended. Now that the weather has turned warmer, this work will be resumed.

### Alice Arm Skating Rink Opened on Wednesday

#### Popular Playground Is Crowded

All records were broken, regarding early skating at Alice Arm, when the Skating Rink was thrown open to the public on Wednesday afternoon.

Flooding the Rink commenced on the previous Friday evening, and thanks are due to the efforts of a gallant band of workers, who labored night and day in order to get a coating of ice on the rink while the cold weather lasted. This was accomplished just as a break occurred in the cold snap, and people of Alice Arm may now enjoy the pleasures of skimming over a sheet of ice to their heart's content.

All skating and hockey enthusiasts are now busy hauling out their skates, and putting them in shape. The youngsters are having the time of their young lives on the rink, and adults are taking

advantage of the ice in increasing numbers.

Knights of the hockey stick and puck are already planning a hockey match for Sunday. Some new blood is in the camp, and it is possible that new faces will be seen on the lineup of the hockey team this season.

We have the only covered skating rink north of Vancouver. In providing winter sports for its citizens, Alice Arm takes the lead of all the small towns. The price of a season ticket is a very small amount, and the rink is open at all hours for those who care to indulge in good healthy sport or exercise.

### ALICE ARM NOTES

See Al. Falconer for Wood, Coal and Lumber.

Mrs. F. D. Rice left on Monday for an extended visit to her relatives in Toronto whom she has not seen for several years.

Mr. J. Trinder returned home on Monday, after spending a couple of weeks at Stewart.

At 11 o'clock on Armistice Day, Mr. Dick Roberts sounded the "Last Post" which was the signal for a two minutes cessation of work in memory of the soldiers who died in the late war.

A big hockey game is scheduled for tomorrow afternoon. See the northern champions in action. No charge.

See Al. Falconer for Freight and Pack Horses.

A meeting of the ladies will be held on Monday afternoon, November 17th, at the School house, at 3.30 p.m. for the purpose of making arrangements for the annual Children's Christmas Tree. All ladies are invited to attend.

Mr. A. Davidson, who has taken the position of caretaker at the Dolly Varden, arrived in town on Thursday, on a short visit.

If you require any private greeting cards for Christmas, call and look over our stock, at the Herald Office. We advise you to act promptly as our stock is limited.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Mr. Johnny Wilson arrived home on Thursday, and expects to spend the winter here. He left here four months ago, and has visited Edmonton, Calgary, and Vancouver. He says the crops around Edmonton were excellent this fall, but early snow put a sudden stop to threshing operations, and a lot of grain will not be threshed until next spring.

Baths for ladies and gentlemen. First-class Service. J. Laidlaw, Alice Arm Electric Laundry.

### Silver Leaf Has Well Defined Ore Vein

Mr. Nick, who owns the Silver Leaf property on Copper Creek, is busy developing the property, and will continue development work until the heavy snow falls.

The tunnel which he is driving on the ore ledge is now a distance of thirty-six feet from the portal. This ledge is four and a half feet wide, and is a true fissure vein, cutting the formation. The ore is composed of argentite silver, and prospects of the property are very promising.

### Guaranteed to Cure

If you are sick and feeling blue  
I'll tell you just the thing to do.

**Publicity For Mining**

Publicity, and lots of it is what wields the magic wand of success. This fact is well known by every successful business man. Political parties are well aware of the influence persistent publicity has on the masses, and prominent figures in political life would sink rapidly to oblivion if publicity of their doings was withdrawn. Publicity for a town or district is good. It is good for the province and also the Dominion. The government of the province is a firm believer in publicity and of the Department of Mines is this especially true. There is hardly a mineral exhibition now held in the world but what British Columbia is well represented. Mining investors throughout the world are becoming educated in the mineral wealth of the province, and the advertising campaign now being carried on by ore displays is bearing fruit. Persistency, not spasmodic advertising is what gets results, and this policy is being followed by the department of mines.

**Cut The Taxes**

While the mineral wealth of the province is high, it has, especially of late, been said by several prominent mining men, that the taxes are also high, in fact too high for any company to undertake a really large programme of development work, unless values are exceptionally high. As this does not very often occur, the result is that mining companies are not developing on a large scale, or building large reduction plants. It is well known that the least taxed country is the most prosperous. Light taxes mean that anyone who possesses some spare cash is going to invest, whether it is in a humble little home, a factory or mine. New mines means more work. More work spells more people, and as these new people must live, it means prosperity for the farmer, the builder, and everyone else. Mining is one of the basic industries of the province, and the taxes on it should be cut down to the lowest possible point.

The Herald job printing department is always anxious to cater to your wishes. Our prices are right and our work is right.

**SOME MINING DEFINITIONS**

The following definitions of mining terms were published in the Valdez Prospector 20 years ago, having been handed to the editor of that paper by an old prospector. The definitions are as good today as when published and apply fully as well—or better:

A prospector—A man who has a hole in the ground and is the biggest liar in town.

A proposition man—One who wears lace boots and corduroy clothes and never pays a board bill.

A mining expert—A man who can talk about formations, ramifications, statifications, dykes, zones, dips, spurs, angles telegites, ozites, sedimites and all the ites tid tites; can see a mile into mother earth and invariably condemns the country.

An expert miner—A fellow who loafes around town looking for a job as superintendent of a property, but would be foreman if he can't be superintendent; one who has worked in the Treadwell in '90 and has been idle ever since.

A "98er"—A man who came to Alaska in the fall of '97 or spring of '98 and knows where there are diggings that will pay \$50 to the pan and is going back there just as soon as spring comes.

A mining promoter—A man who has unlimited capital behind him, but none in front of him; his watch is in soak.

An amalgamator—A man who wears long finger nails, draws \$5 a shift and deposits \$10 in the bank every day; if the ore is low grade, the more in proportion.

An assayer—A man who charges you \$1.50 for throwing your sample out of the back door, and writing a certificate.

A mining engineer—One who makes funny figures on blazed stumps and charges a big price.

A knocker—One who runs down the country so as to keep others out until he can get what properties he wants.—Strollers Weekly.

**BRITISH COLUMBIA**  
**The Mineral Province of Western Canada**

Has produced minerals valued as follows: Placer Gold, \$76,962,203; Lode Gold, \$113,352,655; Silver, \$63,532,655; Lead, \$58,132,661; Copper, \$179,046,508; Zinc, \$27,904,756; Coal and Coke, \$250,968,113; Building Stone, Brick, Cement, \$39,415,234; Miscellaneous Minerals, \$1,408,257; making its mineral production to the end of 1923 show

**An Aggregate Value of \$810,722,782**

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1923, \$41,304,320.

**Production During last ten years, \$350,288,892**

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

### Canada Second In Wheat Exporting Countries

In a cable received at Ottawa from Rome recently, the international institute of agriculture forecasts the exportable surplus of wheat of the exporting countries for the grain year 1924-1925 as follows: Canada, 204,000,000 bushels; United States, 244,000,000 bushels; India, 38,600,000 bushels; Argentina and Australia, 310,000 bushels.

### High Grade Ore Found in Rosland Mine

A small stringer of high grade gold quartz has been struck in the O. K. mine, just on the western border of Rosland by the O. K. Mining Syndicate, having the old mine under lease. Every shot is reported as opening up a much larger vein. The O. K. has been working for the past year. The mine adjoins the famous I. X. L. on the west.

Judge: "Can this case be settled out of court?"

Prisoner: "That's what we were trying to do, your honor, when the police interfered."

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

## Bert Kergin Banqueted By Stewart Board of Trade

Portland Canal News

A nice social function was organized by the Stewart Board of Trade when they tendered a complimentary luncheon this noon in the Silver Grill to H. F. Kergin, M. L. A. for this riding, and J. A. Stephen, engineer for the Board of public Works. John Mellor, president of the Board, presided, and introduced the guests in a few chosen words, particularly emphasizing the necessity for all residents of the district to back up the Member with whole-hearted support.

In an easy and fluent extemporaneous address, Mr. Kergin dealt with "the business of government" and the pleasures and unpleasantness of being a member. He made a good impression with the review of the assistance he has been able to give toward securing necessary public improvements for this section. He concluded with an outline of his hopes for a highway from Stewart to Telegraph Creek to open a second outlet for trade with the Interior.

J. A. Stephen, in an inimitable manner, told about the troubles of an engineer and cleverly rebuked certain criticisms that have been made about the new road to the wharf.

P. S. Jack expressed appreciation of the trend evinced recently in the community to pull together for the good of the district. He pointed out that Bert Kergin gets results in Victoria and emphasized the necessity for co operating with him.

It is unfortunate that space limitations prevent publication of all the illuminating remarks made at this feast of reason and flow of soul.

### Through Sleeping Cars To Ship's Side

The Canadian National Railways have made arrangements to operate tourist and standard sleeping cars through from the Pacific Coast to the ship's side at Montreal and Halifax in connection with Old Country sailings, during November and December. Full information regarding rates, reservations, passports, etc. can be secured from R. F. McNaughton, District Passenger Agent, Canadian National Railways, Prince Rupert, B. C.

## Prince of Wales' "Little Grey Home in the West"

WHERE THE ROYAL RANCHER LIVES

THE PRINCE AND HIS 10-GALLON HAT

THE PRINCE'S THOROUGHBRED SHEEP

After having enjoyed about as much privacy as the proverbial goldfish during the international polo games near New York, the Prince of Wales retired to the quiet and seclusion of his Canadian "Little Grey Home in the West," 25 miles from High River, Alberta, a station on the Canadian Pacific, to rest for a few days, recreate and work far from curious crowds, reporters, still photographers and "movie" men. It is very pleasant, no doubt, to be the most popular young man in the world, but about once a year the rolling hills and rich prairie land of his "E. P. Ranch" call the Prince of Wales, Baron Renfrew or "Davy Windsor," as they refer to H.R.H. in Alberta, back to the land.

The prince is a real farmer and rancher, and is honestly endeavoring to improve the breed of horses, sheep and cattle in Western Canada. His pure-bred, imported animals and their offspring have won many prizes in competition at live stock shows in Western Canada, not because they were from the royal ranch, but because they were the very best exhibited. Since he bought his 4,100 acre ranch in Alberta in 1919,

the prince has been sending to it the best stock he could secure in Great Britain, and every year he sells at auction the surplus animals for the benefit of live stock breeders in the western provinces. The Earl of Minto, who has a big ranch near-by, does the same thing. Also, King George loans the prince some of his best animals for the stud.

"He's a neighborly kid," said one of the members of the Alberta Shorthorn Breeders' Association. "When he comes out here we don't chase him as they do in other places. We just let him ride, and next thing you know he has all of us neighbors in as his guests, and meets us just as a neighbor. He wants to meet all the ranchers who are his neighbors, and there isn't a thing about ranching he doesn't want to know. His ranch is no fad. He is running it for the benefit of Canada first, and second for the purpose of making the "E. P. Ranch" a business venture, just as any level-headed man would do. When he is on the ranch he wears a 'ten gallon hat,' the same as all of the cowboys, and he does his work daily like any other ranch hand. 'Regular feller,' that's what we call him, 'regular feller.'"

## Mining Throughout The Dominion

### Fully Half Billion Dollars Invested Says Deputy Minister

That about \$500,000,000 is invested in mining in Canada was stated by Dr. Charles Camsell, deputy minister of the federal department of mines in addressing the Vancouver branch of the Canadian Institute of Mining and Metallurgy, recently.

Of that capital about 50 per cent was Canadian, 35 per cent American, 13 per cent British, and 3 per cent foreign. On a recent trip to the British Isles he had found a considerable lack of knowledge of Canada's mineral resources, but he expected that, with increased knowledge of these resources a greater amount of British capital would be invested.

The speaker expressed the opinion that the the mining industry in Canada was in a very healthy condition. The production of coal in Nova Scotia and Alberta this year was considerably below that of last year, but there has been an increase in the production of metals. The recent installation of a central heating plant in Winnipeg would, he believed, have an important bearing on the coal min-

ing situation on the prairies.

It was expected that the export of British coal to eastern Canada this year would total about 400,000 tons. In shipping coal to eastern Canada the British operators had a distinct advantage over those in the United States in the matter of freight rates. The rate per ton from British points to Montreal was 7s 6d, as compared with about \$4.50 from Scranton to Montreal. The British operators were not competing with those in the maritime provinces because the former shipped domestic coal while the latter supplied steam coal.

### Canada Ships Most Wheat To Great Britain

The United States is no longer the chief exporter of wheat to the United Kingdom. The largest supplies of this grain to the British Isles this month were from Canada, with the United States second and Argentina a close third. It is only in barley and oats that the United States has retained its hold on British imports.

Mr. Henpeck—Now look here: I refuse to do as you say in this matter. I'll have you know that no woman ever made a fool of me.

His wife—Who did then.

## Chateau Frontenac Team Leader's Long Journey

Mountie, veteran husky, leading the team, outside Chateau Frontenac. Inset, Mountie.

A breath from the freezing winds of the Canadian Arctic, with something of its loneliness, its savagery, its call upon the elemental qualities of courage and endurance and a dash of the romance of the long trails are embodied in Mountie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

Mountie is a husky, in other words, part wolf and his wolf strain shows itself in his handsome head, with its sharp ears and nose, its steel-hard, flaming eyes, its gleaming fangs and its great ruff of fur. He is a dark grey giant, almost one hundred weight of muscle, bone and sinew, ferocity, grim determination and unwavering fidelity. He was born way up within the Arctic Circle, at Lac-du-Brochet, bought in 1919, when very young, by

Sergeant Grennan of the Royal Canadian Mounted Police, and trained by him. He put in nearly five years as a member of that famous force, running patrols on His Majesty's Service with the red-coated heroes of the waste.

The journey from Le Pas, in Northern Manitoba, where he was purchased, to Quebec, a distance of well over two thousand miles, was an exciting and extraordinary experience for Mountie. He spent Christmas Day at Winnipeg, where the kind-hearted officials of the Canadian Pacific offered him seasonal fare, which he did not like much, except as a dessert following a meal of his accustomed fish and biscuits. He made friends with the baggage men who were more than sorry to part with him. At Montreal, he had a day's

rest and there adjusted himself comparatively easily to the strange turmoil of the great city. His driver, Arthur Beauvais, an Indian from Caughnawaga, took him for a short stroll through the streets, where he created a tremendous sensation. And no wonder, for Beauvais says he is without exception the finest husky he has ever seen, while the Mounted Police report that he has always been greatly admired wherever he has been, both for his appearance and his capacities.

Now he is at the Chateau Frontenac, working comparatively easily at giving visitors a ride and is one of the big attractions of winter-time Quebec and will no doubt shine brilliantly at the forthcoming carnival there.

## Seeking Danish Settlers

Hon. John S. Martin, Minister of Agriculture for Ontario, is in Copenhagen, negotiating with the Danish authorities to obtain desirable Danes for Canada.

British Columbia is now the third manufacturing province of Canada, with 2,673 manufacturing establishments, over 41,000 employees, invested capital amounting to nearly \$225,000,000 and a value of products of approximately \$260,000,000, according to Government statistics.

New Brunswick in 1923 produced more coal than at any other time in her history. The output for the year exceeded that of 1922 by more than 12,000 tons and amounted to 251,091 long tons. It is estimated that this industry creates a value of over \$1,100,000 annually, most of which goes out in supplies and wages for the benefit of the province.

### Last Steamer of Season Leaves Nome

#### Brings Out Tin, Gold and Reindeer Meat

The steamer Victoria, of the Alaska Steamship Company, completed its last trip of the season to the Northwestern Alaska gold camp, bringing three hundred and thirty-eight passengers. Of this list, three hundred and fifteen took passage from Nome; four joined the ship at St. Michael and nineteen at Akutan. The Victoria brought out much gold in the form of bullion; valuable furs and seven tons of stream tin. The tin will be shipped to Singapore, Malay peninsula, for treatment. The steamer, Alameda, has brought out a big cargo of reindeer meat, which was shipped by the Lomen Reindeer company.

#### NUTTY

A man was being questioned by an employer on his suitability for a fairly important job, as a mechanic. "Oh, yes," the man assured him, "for six years I had experience at the Ford works.,," "And what did you do there all that time?" "Well," said the man, "I screwed on nut 467."

### Manager of Indian Resigns

G. L. Thompson, who has had charge of the Indian, has resigned his position with that company and will take the management of a quartz property near Fairbanks, Alaska, for the H. B. Price and Minor C. Kieth interests of New York, who are also heavily interested in the Premier. W. S. Orr, who has been on the Indian staff for the past two years, has been appointed superintendent.—Portland Canal News.

In a west of England village a few women were sympathizing with one of their number who had recently lost her husband.

"I suppose," said the neighbor, "that you will erect a monument to your dear husband's memory."

"To his memory," replied the old lady. "Why, poor John hadn't any, I was sorting out his clothes today and found the pockets full of letters I had given him to post."

One citizen of Plunk Centre stepped up to another and asked: "will you sign this petition?"

"What's it for?"

"Hain't read it myself. But if you're particular I kin find out."

"Nunno. Glad to sign any petition of yours."

## Canada at British Empire Exhibition

(1) The Canadian Pavilion with the towers of the Indian building in the background. (2) Entrance to the Canadian Pacific building. (3) Showing the progress made in the building of bridges and lakes with the Malaya Pavilion in the background.

Showing the Canadian Pavilion, at Wembley, under course of construction. As portions of the Canadian space allotment have been given over to the two great railway systems, the building which will house the Government exhibits will be somewhat smaller than those of other Dominions, but a great deal of time and money has been spent on its design and decoration, with the result that it promises to be the gem of the British Empire Exhibition. The photograph shows the progress made up to the end of December.

Inset is shown the entrance to the Canadian Pacific pavilion. This building is grouped with the Canadian Government pavilion with which it has been designed to harmonize. A massive simple entrance, two stories high,

deeply recessed with painted and coffered ceiling, richly colored doors and grilles of Canadian wood, approached by a broad flight of steps flanked on either side by a bronze moose and buffalo, is the centre of a facade enriched with decorated panels and columns. The strong color scheme of this entrance is emphasized at night by a unique lighting effect.

A visitor to the Canadian buildings will find displayed to good advantage examples of all Canadian natural and manufactured products, and agricultural exhibits which cannot but impress him with the magnitude of the resources of this Dominion and the vast opportunities which await the immigrant and settler.

### THE PRINCE OF WALES AT JASPER

H. R. H. THE PRINCE OF WALES spent a delightful day in the Canadian Rockies when he visited Jasper National Park, where he was a guest at Jasper Park Lodge. Here he is shown being greeted by Col. S. Maynard Rogers, Park Superintendent, on the arrival of his special train at Jasper Station on the Canadian National Railways.

According to a statement recently made by the Hon. Charles McCrea, Minister of Mines for the Province of Ontario, 85 per cent of the world's nickel supply is being taken out in the vicinity of Sudbury, where there is an inexhaustible supply of this metal.

Alberta's butter production last year was 18,500,000 pounds, or 2,000,000 pounds more than in 1922, according to reports presented at the annual meeting of the Alberta Dairymen's Association. It was not so long ago that Alberta was using butter imported from New Zealand.

The year 1923 was a favorable one in the building and construction activities of Canada, and returns show an advance of about 10 per cent. In 1922 the total expenditures in this regard were \$315,000,000, and in 1923 \$344,000,000, an increase of \$30,000,000.

Exports of pulpwood from Canada for the year 1923 amounted to 1,384,230 cords, compared with 1,011,332 for 1922, an increase of 372,898 cords or 35 per cent. The 1923 figures are equivalent to about 900,000 tons of newsprint, the amount which can be manufactured from that amount of wood.

C. E. E. Usher, General Passenger Traffic Manager, and E. J. Hebert, First Assistant General Passenger Agent of the Canadian Pacific Railway, have been presented with medals by the French Government, in recognition of their services to the French Exhibition train in Canada in 1921. The medals take the form of tablets on small stands.

Attention has been drawn once more by airship experts in London, England, to the fact that the only known supply of helium gas in the British Empire exists in the Province of Alberta, that 10,000,000 feet of this gas is going to waste annually in this province and that the possibility of establishing an airship base at some future date in Alberta is being discussed.

FRANK D. RICE, B.C.L.S.

**ANYOX NOTES**

Mr. and Mrs. F. E. Gigot arrived in town on Monday's boat, enroute to Stewart, where they will make their future home.

Mr. A. Beaton, who underwent an operation at the local hospital on Friday, is progressing favorably.

Due to the recent cold snap, local skaters have taken advantage of the good sheet of ice on the lake back of the mine.

**Anyox Hunters Pursue The Nimble Deer**

A party of local sportsmen left on Sunday evening on the Azurite for a week's hunting at Douglas Channel, near Swanson Bay. Included in the party are: Dr. D. R. Learoyd, T. Almas, E. J. Conway, L. F. Champion, W. F. Eve and Captain Murray Gerard.

**First Snow of Season**

On Wednesday and Thursday this district received its first mantle of snow. About five inches fell, and was followed by rain. The first sleighs of the season made their appearance on Thursday, in Alice Arm. The autos, however, are still speeding around town in both Alice Arm and Anyox.

**Will Spend The Winter In South**

Mrs. J. Cody and son left on the Prince John, on Saturday for Vancouver, where they will spend the winter.

Mrs. McNichol left on the Cardena on Monday, to spend the winter in Vancouver.

FOR Rent. One-roomed comfortable cabin. Size 14ft. by 16ft. Ideal location.—Apply Herald Office.

Counsel: "What happened after the prisoner gave you a blow?..

Witness: "He gave me a third one."

Counsel: "You mean a second one?"

Witness: "I gave the second one."

Whatever trouble Adam had, No man in days of yore Could say when he had told a joke: "I've heard that one before."

The Sahara Desert, is in some sections one hundred feet below sea level.

The number of big industrial undertakings projected for immediate construction on the coast of British Columbia provides a striking indication of how that province is going ahead. A \$400,000 logging railway up the Shehalis River Valley, a \$1,000,000 mill plant at Chemainus, a \$200,000 amusement centre at Victoria and a \$200,000 sawmill at Port Coquitlam, with about \$10,000,000 in power plants in the Seave Lake District are some of the more important and a host of smaller projects are also under way.

Practically all Canada's production of newsprint for export in March was absorbed by the United States. Of March shipments amounting to 127,583 tons valued at \$9,756,530, the United States received 125,848 tons, valued at 9,617,823. The only other Canadian exports of newsprint of importance were 599 tons to South Africa and 1,037 tons to New Zealand. It is expected that April shipments will show an even greater proportion of consignments to the United States.

**MINERAL ACT**

**CERTIFICATE OF IMPROVEMENTS**

**NOTICE**

"Anglo," "Toric," "Moose" and "Lamb," Mineral Claims, situate in the Naas River Mining Division of Cassiar District. Where located:—on Kitsault River, about 18 miles from Alice Arm.

TAKE NOTICE that I, Frank D. Rice, Free Miner's Certificate No. 70988C, agent for J. W. Strombeck, Free Miner's Certificate No. 67935C, G. G. Strombeck, Free Miner's Certificate No. 67972C and A. F. Miner, Free Miner's Certificate No. 67936C, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 28th. day of October, A.D., 1924.
