## Important Strike of High Grade on Silver Cord

The Kitsault-Eagle Silver Mines' development work on the Silver Cord group on the Northeast Fork, under the direction of A. McGuire, is showing most encouraging results. A new strike of high grade silver-lead-zinc ore was made this week on the big quartz vein which has been traced for 2000 feet on its strike. Samples displayed in Bruggy's Store window show massive zinc blend well mixed with galena. The assay value of this ore has not yet been determined but similar appearing ore encountered in No. 1 level assays 258.8 ozs. silver to the ton. The new find is a continuation of this high grade ore and has been exposed on the surface in many places for a length of 2000 feet. The exposure from which the samples in Bruggy's Store were taken shows ten feet of ore, two feet on the footwall side being almost solid galena-zinc while the balance is good milling ore.

Development will be continued on these surface showings as well as driving a No. 2 level. This level has as its objective a big surface showing 60 feet wide and will be driven 500 feet, having already advanced 50 feet.

Work on the company's LeRoy group, also situated on the Northeast Fork, during the past month has opened up a vein 200 feet below the showings developed last season. Open cuts and stripping has exposed this vein for 200 feet on its strike and proves it to be three feet wide of almost solid ore giving values in gold, silver, lead and zinc up to \$60.00 a ton. This vein is shown to be intersected by a cross vein six feet wide which has been traced for over 700 feet and samples of this have been sent south for assay purposes.

The Provincial Mines Department have constructed an excellent trail up the Northeast Fork, and this is greatly facilitating the development work on the Silver Cord and LeRoy as well as many other properties.

At the Eagle group on the main Kitsault river, the Kitsault Eagle Silver Mines No. 1 crosscut tunnel has advanced 125 feet and it is expected to encounter the big vein in another 60 feet.

G. W. McMorris President of the company, with Mr. McGuire, has spent the last two weeks making an inspection of the company's properties, and informs The Herald that it is probable that three shifts will be maintained on both the Eagle and Silver Cord groups this winter, as a result of the splendid showings discovered the past month.

## BIRTH AT ANYOX

Born to Mr. and Mrs. M. O'Brien at the Anyox Hospital on Tuesday, September 6th, a daughter.

## Anyox I. O. D. E. Hold Regular Meeting

The Kincolith Chapter of the I. O. D. E. held their regular meeting on Tuesday afternoon at the Recreation Hall, there being a fairly good membership present.

Mrs. C. O. Fricker was elected secretary in place of Mrs. R. H. Manzer who has taken up her residence in Vancouver. Among other officers of the Chapter present, were: Mrs. Lang, Regent; Mrs. H. S. Trefry, Vice-Regent; Mrs. J. Murdoch, Standard-Bearer; Mrs. L. McQuarrie, Treasurer.

Since the organization of this Chapter some excellent work has been done; to say the least something beneficial has been accomplished by this splendid order, as evidenced by the donation of a set of Dent's History books to the Alice Arm School and to the Kincolith School and the Illustrated London News to the Anyox Schools. During the coming season it is the intention of this Chapter to assist with educational matters in Anyox. Also it may be mentioned that these good ladies have done some excellent work in regard to ex-service men's affairs, not only by their kindly thoughts of those in hospital who were the recipients from time to time of flowers but also of their splendid co-operation and unwearying help at functions where "the boys" are "putting on a stunt". The I. O. D. E. is an organization of which all patriotic ladies should be proud of being a member; so those of the ladies who have not yet joined, now is the time. The secretary is always ready and willing to give any information regarding this organization that may be required.

## Anyox Shipping Notes

The S. S. Griffco left on Friday at 5 p.m. with 1500 tons of Premier ore and concentrates, in addition to 364 tons of copper loaded at Anyox. She towed the barge Riversdale south loaded with 3052 tons of Granby concentrates.

The S. S. Anyox arrived from the south at 9 a.m. on Tuesday with a cargo of explosives and general freight. She towed the barge Baroda light which will load with Granby concentrates.

## Quoit Champion Wins Suit of Clothes

Nels H. Bloom, of Hoberlin clothes fame, proved what a good sport he is by donating a suit from his Hoberlin line as a prize in a quoit competition which was held on Labor Day at the Mine.

The contest proved real exciting, and some close games were played which kept the spectators on edge throughout. In the final game Mark Sjurovitch won from Jack Carr by a 21-18 score and in doing so captured a nifty suit of clothes.

## ANYOX NOTES

D. Evans arrived home on Monday from Vancouver, where he attended the burial of his mother.

Among the arrivals on Monday were: E. Kitchen, A. Carmichael, L. Pearson, A. H. Hogg, F. Clarke Geo Wadell, J. Parker.

Miss Audry McMillan arrived on Monday from Vancouver.

D. McCaskell arrived on Monday from Prince Rupert.

P. McKinnon was an arrival from Prince Rupert on Monday.

For a quiet rest try the Alice Arm Hotel. Pleasant surroundings. O. Evinson, proprietor.

Chas. Harmon arrived on Monday from Prince Rupert, where he has spent a vacation.

P. E. Peters was an arrival from Prince Rupert on Monday.

M. L. Elo, H. W. Brown, B. Serbdya were arrivals on Monday from Prince Rupert.

Winter recreation such as dances, parties, etc. demand a man to be well dressed. Consult A. Galy for your winter suit.

Miss M. J. Stewart of the hospital nursing staff returned on Monday from a vacation spent in the south.

J. Sinclair was a passenger to Prince Rupert on Monday.

C. Johnson, J. McLeod and F. Erickson were passengers to Prince Rupert on Monday.

Mr. and Mrs. Thorteinson arrived in town on Monday from Vancouver. Mr. Thorteinson who holds a position on the teaching staff of the Granby School was married in the south during the summer holidays. On his arrival he was the recipient of many congratulations.

We can fill your requirements regarding your winter suit or overcoat Stan Ballard, Anyox Tailor Shop.

D. J. Hartley, principal of the Public Schools arrived on Monday from Victoria, where he has spent the vacation with his family. He was accompanied north by his son.

Mrs. J. A. D. Stewart who has paid an extended visit to her parents on Vancouver Island arrived in town on Monday.

Miss E. Griffith arrived in town on Monday from Vancouver.

Mrs. Olsen was an arrival from the south on Monday.

Miss Dora Peterson arrived on Monday from Vancouver.

Constable W. Smith arrived on Monday from a trip to Vancouver and Victoria.

Miss Mary O'Neill was a passenger to Prince Rupert on Monday's boat.

A Cigar that pleases on account of its quality. The El Doro. Try one and be convinced.

## Alice Arm Wins Tennis Tournament

A very successful tennis Tournament was held at the Alice Arm court on Sunday between Anyox and Alice Arm, the latter emerging victorious.

The weather was ideal and the refreshments served throughout the day were greatly appreciated.

Each team won ten sets each, but Alice Arm won by six games.

Following are the names of the players as partnered:

Anyox: Mrs. D. C. Roy and Mr. Fred Brown; Mrs. W. F. Eve and Mr. Rudland; Mrs. F. Larson and Mr. Geo. Lee; Mrs. C. O. Fricker and Mr. S. Armstrong; Miss Vera Eve and Mr. Richie.

Alice Arm: Mrs. Al. Falconer and Mr. Al. Falconer; Mrs. E. Trethewey and Mr. Flint; Miss. Zora Sutlovich and Mr. T. W. Falconer, Miss Alice Hogberg and Mr. T. Taverner.

## Saddle Property Will Be Surveyed

The Silver Crest Mines Ltd. will shortly have the Saddle property claims at Hastings Arm surveyed, and a survey will also be made for an aerial tramway. The work will be done by F. D. Rice, B. C. L. S. Development work at the mine will be continued until snow puts a stop to operations.

## Toric Mill Expected To Commence

It is expected that the concentrating mill at the Toric mine will be turned over today. Some minor difficulties have been encountered during its installation which slightly delayed its completion, but these have been met and no further difficulty is anticipated. The next two weeks will be spent in making adjustments and it is expected that the mill will be in continuous operation throughout the winter.

## New Members Welcome

The Christ Church W. A. and Guild commences the fall and winter session on Thursday, September 15th, at 3 p.m. in the Rector's study. Any non-member but interested lady will be welcomed.

Dan McDonald left on the Catala for Vancouver on Monday.

Mrs. M. J. Davies was a south-bound passenger on Mondays boat.

A. McDonald was a passenger to Prince Rupert on the Catala.

Mrs. McPherson who has been the guest for a short time of Mr. and Mrs. J. Jeffrey returned to Prince Rupert on Monday's boat.

Among other passengers on Monday for Prince Rupert were noticed Miss M. Pilling, Robert Gurvich, W. Montgomery and Mrs. MacDonald.

Continued on Page 4

## G. W. Morley Passes Peacefully Away

The death occurred on Wednesday night or Thursday morning of Gideon W. Morley of Silver City. He was found in bed on Thursday morning having passed peacefully away during the night.

Deceased was 76 years of age, and had been a resident of Silver City for the past 14 years. He followed the occupation of prospector, and was heavily interested in mineral claims on McGrath mountain.

He was a native of the United States and has followed mining in every western state, including the big booms of Colorado and Nevada. He leaves to mourn his loss three married daughters, two of whom reside in Seattle, and one in Kansas City; also a sister of Portland, Oregon.

The body was taken to Anyox on Friday, and will be held there until his daughters have been communicated with regarding its disposition.

The late Mr. Morley was of the old type of prospectors that is rapidly passing away. He was held in great esteem by the whole community. Despite his advanced age he was actively engaged in developing his claims almost up to the time of his death. He was one of the camp's optimists and had great faith in the possibilities of the district, and it is to be deplored that he did not live to see his hopes realized.

If no word is received regarding the disposition of the body, the funeral will be held in Anyox on Tuesday.

## Labor Day Dance Was Big Success

A very successful dance was held at the Gymnasium on Monday evening sponsored by Anyox Lodge Loyal Order of Moose. A large number were present, there being just enough so that overcrowding was avoided. The celebrated Moose orchestra provided the music which was up to the usual high standard of this galaxy of artists.

Everyone was presented with a paper hat emblazoned with the emblem of the fraternity, a Moose Head.

Excellent refreshments were provided, and a very enjoyable evening was spent.

## May Log at Indian River

F. L. Housley left on Thursday for Anyox. He proceeded on Friday to Indian River where he will examine the timber in that locality with a view of logging it.

The construction of a warehouse by the Department of Public Works will be undertaken this fall. It will measure 20 feet by 40 feet with 10 foot walls, and will be used for the storing of tools etc. necessary for construction work.

 E. MOSS, Editor and Publisher.

The first advertisement ever to appear in a periodical is said to have been published in London in 1695. If advertising did not pay and had not been of value that first ad. might have been the last. It was in the nature of a want ad., or classified ad., asking for a reliable ship's clerk.

No doubt the ad. was answered and that the shipmaster got whom he wanted. Since then the growth of advertising has been marvellous. It has made possible the enormous sales due to make production. In fact it has been a contributing force in making mass production possible and consequent low prices a reality.

Since 1695---a mere matter of 232 years---commerce on land and sea has flourished more than in any three centuries previous. Advertising can not and does not claim all of the credit for this, but it has been a mighty factor in opening the door to world-wide opportunity. It has stimulated local business which has made up the vital units in national growth and stability. It has made possible from a financial standpoint the great press of the world, thus extending knowledge and strengthening human relationship as no other institution of communication ever has done or ever can do.

A writer in a current magazine observes "If the newspaper is just a little better than its town the latter is the gainer thereby."

Towns and their newspapers usually lag or lead together. Progressive journalism is the unflinching tonic of the lethargic community, but it is equally true that a lifeless newspaper can seriously retard the development of its community.

There is no better community asset than a home newspaper equal to the needs of the community. While a poor newspaper is better than none to the individual reader, that does not hold true for the town.

What can a good newspaper do for its community? It can serve as the town's messenger to the outside world. It must take the leadership in all community projects if they are to be successful. It is the

**First Quartz Mining Was At Queen Charlotte**

The first lode discovery was made by Indians and the location was at Gold or Mitchell Harbor, Queen Charlotte Islands. The vein was small but exceedingly rich. For a width of 7 in. and a length of 80 ft. it was 25% gold. The Hudson's Bay Company despatched miners to the scene to work the deposit on a co-operative basis, but had the misfortune to wreck the ship. With characteristic British enterprise they bought the U. S. Brigantine Orbit, then on the rocks at Esquimalt, floated and repaired it, named it the Recovery, hoisted the British flag and loaded it with gold-quartz, which was shipped to England. The shipment realized \$5,400, their share of which gave the miners \$30 a month.

News of the strike reaching San-Francisco, a "rush" set in and the British Admiralty despatched the warship, "Thetis" from Valparaiso to maintain law and order. The Haida Indians became hostile and seized an American ship, Capt. Rooney's "Susan Sturgess," and held the crew prisoners till rescued by the Hudson's Bay Company steamer, the "Beaver."

**Granby Co. Blew in First Smelter in 1901**

The Granby Co. blew in its first smelter at Grand Forks in 1901. This plant, started with a capacity of 300 tons a day, was subsequently increased to 4000 tons a day. In the same year the B. C. Copper Co. built a smelter at Greenwood of a capacity of 500 tons a day. This smelter was subsequently enlarged to treat 2,500 tons a day. In 1902 the Montreal and Boston Copper Co. built a smelter at Boundary Falls. The initial capacity was 300 tons per day and it was subsequently enlarged to 900 tons.

It is estimated that there are 76,000 persons engaged in teaching in Canada.

infallible line of communication between local government and citizen. It is to the newspaper that all organizations turn for assistance in public welfare movements and without that assistance they face failure.

The newspaper reaps the reward of its initiative by sharing in the general improvement of business and community affairs it has been instrumental in bringing about. The good newspaper deems it a pleasure to serve its community and is fully aware that it is only through giving a full measure of service that it can progress and prosper.

**SYNOPSIS OF LAND ACT AMENDMENTS**

**PRE-EMPTIONS**  
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.  
 Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

**PURE FOOD PRODUCTS**

We have just received a large new consignment of Dr. Middleton's pure food products, including the famous Macaroons, Ironized Whole Wheat, Oatmeal Fruit, Sugar, Ginger, and other Whole Wheat Health Cookies.

Full line of Fresh Fruits and Vegetables Weekly.

**BRITISH COLUMBIA**

**The Mineral Province of Western Canada**

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,133; Structural Materials and Miscellaneous Minerals, \$50,175,407, making its mineral production to the end of 1926, show an

**Aggregate Value of \$988,108,470**

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for five years, 1921-1925, \$214,726,650; for 1926, \$67,188,842.

**Production Last Ten Years, \$429,547,755**

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

### Customs Mill Likely Be Built in North

A customs concentrator to be located at Hazelton or Smithers, or perhaps at the mouth of the Skeena River will be erected once it is shown that ores are produced in sufficient quantity to warrant the venture.

"We are prepared to finance such a concentrator at any time," was the statement to Western Canada Mining News by I. W. Solloway, Mills & Co., Toronto who was in Vancouver on his way East after visiting mines in the vicinity of Hazelton in company with other Eastern men.

Mr. Solloway is of the opinion that this concentrator might be built almost at once, since there are several small operations around Hazelton and at Smithers, while if the mill is located on the coast, it would still be within easy reach of these mines, and would also be convenient for Alice Arm miners and others.

A year or two ago, Canadian National officials were busy along this line, and although announcement was made that the project was shaping up alright, nothing has been heard of it lately.

### Large Tonnage Copper Produced in B. C.

Copper represents the greatest value in the metal mining industry of British Columbia. For many years this province has been the largest producer of copper in Canada. From an initial output of \$16,234, in 1894, the industry has grown to an output of 89,339,768 lbs., valued at \$12,324,421 for 1926 and has made a total production of 1,280,951,781 lbs., valued at \$209,967,068.

Practically all the copper is at present coming from the operation of two companies, Granby Consolidated Mining, Smelting and Power Co., Ltd., and Britannia Mining and Smelting Co. The Granby Company operates two large mines Hidden Creek at Anyox and Copper Mountain at Allenby; also a small mine known as the Outsider on Portland Canal.

### Pioneer of Cassiar Passes Away

Walter Scott Simpson Canadian agent for the Cassiar Indians since 1910, died recently at McDames creek, Cassiar district, of heart trouble, aged 73 years. For many years before entering the government service he had been prospecting, mining and operating trading posts in the Cassiar district in association with Capt. J. F. Callbreath. He went to McDames creek more than a third of a century ago as factor for the Hudson's Bay company, with which company he had been associated from early manhood. His father was Governor Simpson of the Hudson's Bay company, and his uncle, Sir George Simpson, a high official and explorer for the Hudson's Bay company.

### Canada Leads in Newsprint

Canada leads the world in the production of newsprint with an output last year of 1,882,000 tons or an increase of 24 per cent. over preceding year. The United States is second in importance, her mills having turned 1,687,000 tons in 1926.

### Just a Comparison.

The First Locomotive in America and the Latest.

THIS picture might almost be entitled "Ancient and Modern." It shows the "Sampson," first locomotive in America which was first used at Alton mines in 1839, and one of the new Pacific type locomotives which have been placed in commission by the Canadian Pacific Railway on all main lines, and which are chiefly responsible for this company's "on time" feature of service. The Canadian Pacific Railway have now definitely adopted this design for their heavy main line service, as representing the most desirable and efficient locomotive for economy and reliability of service, as this particular design reduces to a minimum, consistent with capacity, the number of moving parts which is essential for reliability of service under the most exacting and severe conditions.

The capacity and weight of these locomotives rank them among the biggest of their type in the world, and the largest of this design in operation in Canada. The haulage capacity of the 2300 series is 42,600 lbs., which

is obtained with 200 pounds boiler pressure, cylinders 25 inches in diameter, 30 inch stroke and with driving wheels 75 inches in diameter. The weight on the three pairs of drivers of engine is 180,000 pounds and the total weight of the engine and tender in working condition is 495,000 pounds, the tender having a capacity of 8,000 gallons of water and 14 tons of coal.

The design of these locomotives was given very careful study, a trial order of engines constructed in 1919 having been made, with tests under all Canadian conditions, which fully justified all expectations for reliability and economy of operation. The boiler has been carefully proportioned and the inter-relation of grate area, fire box volume, heat absorption capacity of different lengths of tube and gas areas more carefully thought out than is usual in most designs, which, coupled together with an extremely accurate distribution of steam by an improved type of Walschaert valve gear, has given exceptional economy for a locomotive of this size.

**ALICE ARM NOTES**

Mr. and Mrs. A. C. H. Gerhardt and daughter left on Monday for Vancouver, where Mrs. Gerhardt will spend the winter.

Mrs. T. W. Falconer and family left on Monday for New Westminster where they will make an extended visit.

Mrs. G. W. Bruggy and family left on Monday for Vancouver where they will spend the coming winter.

Hand Laundry Work done at reasonable prices.—Miss B. Crawford, near Meat Market.

E. Ness, who has been developing his mining properties in the district for the past two months left on Monday for the interior.

Mrs. J. Graham and son were passengers on Monday to Prince Rupert where they will spend a vacation.

N. McLeod left on Monday on a visit to Prince Rupert.

A. Napier, representing the electrical contractors at the Toric arrived on Thursday from Vancouver.

J. Wells arrived on Thursday from Stewart. He is in charge of the construction of a big wing dam on the Bear River and expects to leave again on Monday for Stewart.

Mr. Thompson arrived on Thursday and will make an examination of mineral claims on McGrath mountain.

T. Woodcock, who has spent the past two months with his uncle, F. L. Housley, returned to Vancouver on Friday.

Mrs. H. F. Kergin and family left on Wednesday for Victoria, and plan to stay there during the present school term.

A. D. Yorke arrived home on Thursday from Prince Rupert.

Gordon Anderson left on Friday for Prince Rupert, where he will attend High School.

Mr. Greenway arrived on Monday from Vancouver and will be in charge of the School during the

**Anyox Notes**

Continued from Page 1

Miss Bernice Clay R. N. arrived home on Monday from Prince Rupert for a month's vacation. Miss Clay is on the nursing staff of the Prince Rupert General Hospital and recently obtained her R. M. (registered nurse) passing the examination with high honors.

W. Grieves having severed his connection with the Granby Company left on Monday's boat for Prince Rupert.

Mrs. O. J. Hutchings and family left for Stewart on the Catala where she will join her husband who is now Government Vendor at that town.

Frank Gigot, who has been spending some time in the vicinity recently, left on Monday's boat for Stewart.

Robert Henwood, who has been employed with the Granby Co. for some considerable time, left on Monday. "Bob" has a position to go to at Trail and we wish him luck in his new venture.

W. Montgomery left on Monday for Prince Rupert, and will return at an early date accompanied by Mrs. Montgomery and family.

Mr. and Mrs. M. J. Sheen left on Friday for a month's vacation which they will spend in southern cities and the Cariboo country.

**WATER NOTICE**

(DIVERSION AND USE)

TAKE NOTICE, that Toric Mines Ltd., whose address is 706 Credit Foncier Building, Vancouver, B. C. will apply for a licence to take and use one cubic foot per second of water out of Tumble Creek, which flows westerly and drains into Kitsault River about 300 feet north of Kitsault Suspension Bridge. The water will be diverted from the stream at a point about 550 feet North 59° East of South-West corner of Ruby M. C. Lot 4210 Cassiar District, and will be used for wash water for concentrator purpose upon the mine described as Toric Mineral Claim Lot 935, Cassiar District. This notice was posted on the ground on the 11th. day of June, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

TORIC MINES Ltd., Applicant  
By Frank D. Rice, Agent  
The date of the first publication of this notice is June 18th. 1927.
