5 cents each.

Development at Toric Is Giving Great Satisfaction

Reports that have been coming through from the Toric mine during the past two weeks, unanimously agree that the ore body now being crosscut 230 feet below the main level is much larger than was anticipated. It is said to be over 170 feet wide, with values high enough to make the whole body of commercial value. Drifts are now being driven on both walls.

One thing is sure, the Britannia Co. are satisfied with the results of development work, to the extent that they are planning to carry on development throughout the summer. Last week fifty cases of powder arrived from Anyox, and one hundred cases arrived from Vancouver on Tuesday. Twenty drums of fuel oil also arrived from Vancouver during the week.

Development work done to date on the Toric, indicates that it is destined to become a big mine. It is fortunate that operations are being conducted by a strong mining company, who can equip the mine to handle any tonnage of ore.

The Britannia Co. have created a fund of \$500,000 for exploratory purposes. The bulk of this will be used in developing their Alice Arm properties.

There is at present a shortage of fuel oil at the mine power house. Every effort is being made to keep the sleigh road open from Alice Arm so that a stoppage of operations will not have to be made.

Annual Meeting of Alice Arm Tennis Club

The annual meeting of the Alice Arm Tennis Club was held at the School on Thursday evening, and quite a number of tennis players were present.

Officers elected for the coming year were as follows: President, J. Trinder; Vice-President, H. Fowler; Secretary-Treasurer, Mrs. H. F. Kergin.

The dues for the present season will be \$10.00 for adults and \$2.50 for children under 16 years of age.

A committee, comprising the officers will solicit members at an early date.

Owing to the lots being sold last fall on which the court stood, the construction of a new court is necessary. The lumber has already been ordered by Al. Falconer and construction will commence as soon as possible.

It will be a board court, and if necessary can be converted into a skating rink during the winter months.

The snow is slowly disappearing this year, but it is hoped to operate cars on the Wharf Road next week.

Anyox I. O. D. E. Hold Monthly Meeting

The regular meeting of the Colli-son of Kincolith Chapter, I. O. D. E. was held in the basement of the United Church, at 7.45 p.m. on Monday. Regent Mrs. J. Lang conducted the meeting.

Miss Richards was unanimously chosen to represent the Chapter at the Provincial Convention, to be held in the Empress Hotel, Victoria, April 24th. and 25th.

It was decided to present to the I. O. D. E. Girl Guides the Union Jack. A donation of \$5.00 was also given to the United Church.

During an intermission, a delightful programme was enjoyed. Recitations were given by Mr. Ed. Ashton and Miss Richards; also violin selections by Mr. Dennis, accompanied by Mrs. Redman.

Mrs. S. Peters, Mrs. O'Brien, and Miss Vera Eve were sworn in as members of the Order.

Refreshments were served by Mesdames Youngs, G. H. Stewart, and A. L. Stewart.

The next meeting will be held on Tuesday, May 6th. at 2.30 p.m. in the basement of the United Church.

Anyox Tennis Clubs Elect Officers and Form Plans

The Anyox Tennis Club held its annual meeting on Friday, April 4 to elect officers. These will be Hon. Pres. Mr. Charles Bocking; Hon. Vice-Pres. Mr. W. R. Lindsay, President Mr. George Lee, Vice-Pres. Mr. R. O. Cutler, Secretary-Treasurer, Mr. R. W. Twogood. Also on the executive of the club are Mesdames Fricker and Cundill and Messrs. McIntyre and Cavers.

Councillor Norton Youngs presented on behalf of the A. C. L. Council certain resolutions respecting the tennis clubs. Much discussion was evoked, with the executive finally being directed to hold a conference with the Council.

Interest in the club was well indicated by the good attendance.

The Hidden Creek Tennis Club was duly given its start for this year at a rather poorly attended meeting on Thursday, April 3. It was not for the lack of advertising that the executive found so few members at the meeting. Last year they had to stop play on the courts to get the members into the meeting hall.

Mr. F. Dresser was again elected Honorary President. The Executive includes: President: Mr. M. Thomson; Vice-Pres. Mr. Claude Reade; Secretary-Treasurer, Mrs. F. Kidd. Executive members are Mrs. D. Campbell, Miss Marjorie Cloke, Mr. Ed. Johnson and Mr. H. Cathro. The financial statement read by the retiring secretary, Duncan Campbell, was highly satisfactory, and in resigning the chair, the former president Mr. Joe Anderson prophesied a good year for the club.

Tennis Problems Are Discussed By Council

Wednesday night's council meeting was well attended, the combined executives of the tennis clubs being present. Mr. G. M. Lee, speaking for the tennis clubs, convinced the council that the matter of inter-club membership and play would be better left to the joint action of the executives. He indicated that an addition fee of \$1.50 would be exacted from those desiring to be members of both clubs.

The question of responsibility for the upkeep of the courts was fully discussed, every argument bearing on the case being brought forward. The discussion will result in the drawing up of a new agreement between the League and the Clubs with a view to a clearer understanding of the obligations of all concerned.

It was agreed that no one should be given membership in a tennis club without producing evidence of good standing in the Community League. As the League levies an all-year fee, production of the membership card once a year was deemed likely to be sufficient.

Machine Will Be Displayed At Concert

The display of the high-frequency machine intended for the night school's closing social will be made later in the month by T. Mitchell and his night-school class in Recreation Hall on the occasion of a concert to be arranged by the Anyox Amateur Orchestra, Stuart Steele, conductor. There will be a charge of 50 cents, proceeds in aid of the Hospital.

If Writing Exams. Notify School Principal

All persons who intend to write on any of the Education Department's Examinations in Grades Nine to Twelve inclusive at Granby Bay centre in June are requested to notify the Principal of the high school at Anyox not later than the 16th. inst.

Steamship Brings in Powder

On Tuesday, the steamship Northholm arrived at Alice Arm from Vancouver with a consignment of blasting powder for G. W. Bruggy, Wm. Steven and the Britannia Mining Co.

The general "lay-off" at the Anyox plant on Wednesday afforded many a chance to enjoy the brilliant spring sunshine that has been so welcome lately. Many smaller craft were afloat for the first time this season, and many more boat-owners got in a good day's work on their galleons.

L. O. Lycette, arrived in town on Wednesday.

League Council Discuss Much Business

Satisfactory progress financially during March was reported at the A. C. L. Council meeting on Wednesday. The Smoker had increased the League's assets by the sum of cost of the ring and the wrestling mat, and further smokers should show a handsome cash profit. The Council directed that appropriate expressions of thanks be conveyed to Mr. Fred Brown and others associated with the enterprise.

Aspects of the situation regarding the installation of Talking pictures were pointed out and will form the agenda of special meetings later.

Turning to Library affairs, the Council decided that measures to discipline troublesome children might have to be adopted. On the question of books, the Council went on record as being the final judges in regard to what books were to be allowed to remain on the shelves.

In the House Department cues for billiards and pool were ordered, and it was decided to present cues to the Mine team as their individual prizes in the Billiard League.

Recreation Hall was rented to the Choral Society for a concert on May 9th.

John A. Swanson Going To Russia

John A. Swanson, formerly superintendent for the Granby Co. at the Hidden Creek mine at Anyox has accepted a position as mine superintendent in Russia for the Russian government. He will superintend the developing of a large copper property, and expects to leave as soon as the necessary passport regulations are complied with. He is at present living near Vancouver. Mrs. Swanson will probably join him later.

Two C.N. Steamships a Week

From now until further notice, two Canadian National Steamships will call at Anyox each week. One will call on Wednesday night as usual, leaving at midnight, and the other will call on Saturday, also leaving at midnight.

Certificate Winners Of Anyox Night Schools Announced

One of the most inspiring community gatherings of recent times was held on Wednesday evening of last week in the Gymnasium on the occasion of the first annual closing exercises of the Anyox Night Schools. A crowd of over three hundred, including students, teachers and friends gathered to make merry.

This year, the fifteen classes which were organized, covered nine subjects. These were English, vocal music, band music, orchestral music, mechanical drawing, mining and milling, electrical engineering and dressmaking. Approximately eighty Certificates of Merit were awarded to various worthy students.

The chairman, Mr. A. Gigot, with a few fitting remarks, opened the meeting, and complimented the organizer of the Night Schools, Mr. D. J. Hartley, on the very successful termination of the year's activities. From comparative figures he showed the increasing attendance and interest in the night school classes during the last three years.

The programme was entirely put on by the various classes. Among the contributing classes were those of Messrs. Stuart Steel, J. Varnes, N. Redman and T. Mitchell.

The orchestral and band selections were extremely well rendered. A vocal trio, consisting of Misses Mildred Dresser, Marjorie Cloke and Florence Dodsworth was heard to advantage.

Mr. T. J. Kirkwood made a few pointed remarks on the value to be gained from the night classes. Personally he expressed the hope to see the field of study broadened to include many additional subjects.

Mr. Redman gave a few interesting remarks, stressing the value of developing the fine arts of orchestral music, band music and vocal.

In a few remarks, Mr. W. R. Lindsay, general superintendent of the Granby Co. stressed the value of night school training to the employees of the Granby Co. In the case of the foreign population this was particularly true in the case of language study, which was very valuable as a safety factor. Also, any training for employees along their respective technical lines, is very valuable to the employees and the company.

An unexpected but a most welcome guest was Mr. Stephen E. Raymer, consul for the kingdom of Jugo-Slavia. In a few remarks interspersed with wit and originality, he declared the present gathering was an inspiration unique in his many visits to various communities in British Columbia during the past nineteen years.

The evening closed with refreshments and dancing.

Following is the names of those who were granted certificates:

See American Consul Before Going Taku

The Herald has received a communication from Mr. G. C. Woodward, American Consul at Prince Rupert, in which he states that: "Under the present United States Immigration Regulations transit certificates issued by American consular officers are required by aliens, other than Canadian citizens, and British subjects domiciled in Canada, when entering or passing through the United States destined to another country.

"In order to facilitate travel conditions, a recent ruling exempts Juneau, Alaska from this provision, which as well applies to Hyder and Skagway, Alaska. This will facilitate travel to and from the Taku country. Those, however, who intend remaining in Alaska for any period, should consult the American consulate at Prince Rupert, before going north for the purpose of ascertaining whether a consular visa is necessary."

Who Will Dispute It?

Granby Co. Developing New Copper Property

In addition to its various other properties in British Columbia, it is now reported that the Granby Consolidated has completed a deal for taking over the claims of the Okanagan Copper Mining Company, located on the west side of Okanagan Lake, says the Vancouver Financial News. During the past two years, the company has spent considerable money in surface trenching and shallow tunneling. It is the intention of the Granby Co. to open up the property on a large scale during the coming year.

Here and There

(503)

Canadian Pacific Railway Friday night broadcasts are now being sent out across the Dominion from coast to coast. Letters are being received from all parts of Canada in appreciation of the programmes and of the radio receptions in all centres. Arrangements have been made with the National Broadcasting Company of the United States to place special C. P. R. programmes on the air, early in April, over WJZ to thickly populated sections of the Eastern United States.

Veteran of 65 years railway service and one of Canada's earliest telegraph operators, William Phillip Martin, formerly assistant superintendent of the Canadian Pacific Railway, died in Vancouver recently. He learned telegraphy from his father when a boy and became a chief despatcher at the age of 18.

Discovery of a new species of whitefish in Clear Lake, Manitoba, is announced by A. Bajkov of Manitoba University. The new species has been named Coregonus Odonoghue, in honor of Dr. C. H. O'Donoghue, formerly of the faculty of Manitoba University. The newly-discovered fish is common in Clear Lake. It lives at a great depth during the summer, coming to the surface only in the spawning season.

Sixty head of pedigreed cattle and sheep from the Royal estates in England is the object of Professor W. L. Carlyle's trip to the Old Country aboard S.S. Minnedosa recently. They are destined for the Prince of Wales ranch at High River, Alberta, and are a further proof of His Royal Highness' interest in improving Canadian live stock.

"As far as the army is concerned, the horse will be a museum piece within the next 20 years," said Brig-General W. B. M. King, recent arrival on S.S. Duchess of York, after a trip during which he inspected regiments of the British Army. General King added that the mechanization of the army was taking rapid strides and, though a costly operation, would pay for itself by decreased maintenance charges within a period of five years.

New Brunswick has an estimated population of 419,000, according to the twelfth annual report of the chief medical officer of the provincial department of health tabled in the Legislature recently. An interesting detail of the report was the statement that during the past year more than 25,000 persons had been permanently immunized against diphtheria.

Surest sign of spring in Eastern Canada is the running of the sap in the maple trees. This annual harvest is now on and last year the total value of maple sugar and maple syrup produced in Canada was \$6,118,656. This money accrues mostly to farmers and the province of Quebec is the leader of the industry in Canada.

Ten years ago capital investment in electric power in Canada was about \$400,000,000. To-day it is over a billion dollars and total power available from present installation is nearly 6,000,000 h.p. This is about one-fifth of possible development.

Brady Voices Opinion On Unemployment

Speaking on the Heap's unemployment amendment last week, J. C. Brady, M. P. for Skeena, contended that unemployment was a national responsibility. There would be no problem he declared, if 60 per cent of the \$100,000,000 which Canada paid yearly to the United States for manufactured goods could be kept in Canada. If the Conservatives should come into power, Mr. Brady predicted that all unemployed would be at work within five months, and within five years, there would be work for a million more people in Canada.

Says Price of Copper Will Shortly Drop

New York—Pointing out that exports of copper are well below the 1929 rate and that the automobile industry is taking much less metal than it did a year ago, The Brookmire Economic Service, Inc., says that a growing inventory burden cannot be borne much longer if the demand does not improve faster than now appears to be likely. Though producers are curtailing, it is doubtful that this action can be carried to sufficient length to permit maintenance of the 18c. level. A price cut cannot be deferred much longer.

Government Trying to Revive Coal Industry

Plans for a conference as soon as possible between the Provincial Government, coal operators and transcontinental railways to consider means of rehabilitating the British Columbia Coal industry were announced last week by Premier Tolmie. The railway heads have agreed to send representatives.

"Sir, would you give five dollars to bury a saxophone player?"
"Here's thirty dollars, bury six of 'em."

One of the largest real estate transactions of modern times will be put through at the present session of the Canadian Federal Parliament, when legislation will be submitted to enable the Government to hand over millions of acres of land, a substantial amount of water power, vast forest wealth and other natural resources to the provinces of Manitoba, Alberta and British Columbia.

The music, songs and dances of Latin, Celt, Scandinavian, Slav, Teuton and British will all be represented for Canadians this month when on March 19-22, the third Great West Canadian Folk Dance, Folk Song and Handicrafts Festival will be held under the auspices of the Canadian Pacific Railway at the Palliser Hotel in Calgary.

Unusually heavy pre-Lenten weddings were indicated this month from the Windsor street station, Montreal, when 25 blushing honeymooners left that city for Ottawa, Quebec and New York on one morning. Station officials say that this is very heavy for the time of year and comes close to the number leaving the station on mornings of Cupid's special month of June.

An Increase of \$5,869,000		
Total Liabilities	-	495,320,000
(Including Paid up Capital)		
Assets, at December 31st, 1929	-	568,197,000
An Increase of \$79,259,000		

NEW HEAD OFFICE BUILDING

Rate of Interest earned on mean invested assets 7.02%

The high rate of dividends allotted to participating policyholders is continued and the special dividend on maturing policies extended and increased.

EXTRACTS FROM DIRECTORS' REPORT

New policies paid for numbered 161,391 for a net amount of \$654,451,143.27, an advance of \$213,206,752.36, or more than forty-eight per cent., over the previous year. This marked increase and the fact that the average policy, for the first time, exceeded \$4,000, afford impressive evidence of the ever-growing popularity of the Company.

After deducting amounts reassured, the total assurances in force amount to \$2,401,237,036.94, an increase of \$504,321,102.37. This advance is notable not merely for its magnitude, but because when allowance is made for terminations by death and maturity, it represents a remarkably high rate of continuance, and evidences great satisfaction on the part of our policyholders.

The amount paid to policyholders since organization, together with the amount at present held for their security or benefit, exceeds the total amount received from them in premiums by \$139,290,474.03.

The rate of interest earned on the mean invested assets has risen to 7.02 per cent. This figure includes a certain amount from bonuses and stock privileges accruing on many of the Company's holdings; but if these were entirely eliminated the rate would still be 6.60 per cent.

A net profit of \$13,077,284.62 was realized from the redemption or sale of securities.

The surplus earned during the year, based on the values entered in the accounts, amounted to \$42,863,578.59, but from this sum substantial appropriations have as usual been made to further strengthen the position of the Company.

An additional \$10,000,000.00 has been deducted from the market values of our securities as a provision against possible market fluctuations, raising the amount thus set aside for this purpose in the accounts to \$30,000,000.00.

A further \$1,000,000.00 has been written off the Company's buildings.

\$931,000.00 has been appropriated to raise the annuity reserves to the Rutherford table of valuation, with interest at 3½ per cent. This exacting standard requires reserves \$2,656,000.00 in excess of those of the Dominion Government standard.

\$1,200,000.00 has been set aside as additional provision for claims arising from total disability, death claims as yet unreported, and possible claims under cancelled policies on which a surrender value or reinstatement might be applied for.

\$22,606,265.67 has been paid or allotted as profits for the year to policyholders.

The special amount entered as a liability to provide for unforeseen contingencies has been maintained at \$12,500,000.00.

After making all these deductions and allocations, \$5,868,599.96 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts and capital stock, to \$60,307,762.44.

In accordance with our usual conservative practice the securities owned by the Company have again been valued at figures much below the market quotations current at the close of the year. This undervaluation represents an important element of strength to the Company additional to the specific provisions in the statements.

Your Directors are pleased to announce that the high scale of profits at present allotted to participating policyholders will be continued during the ensuing year, while the Special Dividend on maturing policies, introduced last year, has been extended to include policies maturing after having been in force five years or longer and the scale of benefit has been increased.

The business of the Company has always been conducted under the exacting provisions of the Canadian Insurance law and the rigid supervision of the Insurance Department of the Government of Canada. Ever since we entered the United States in 1895, the Company has been under similar supervision there and is now subject to the regulations of thirty-eight States of the Union which require periodical examination of the affairs of all companies licensed in their territory. In the discharge of their regular duties a committee of twenty-two examiners, representing the States of Michigan, Massachusetts, Minnesota, Ohio, Tennessee, Washington, Virginia, West Virginia, Florida and the District of Columbia recently completed an exhaustive examination into every department of the Company's affairs. The report of this committee makes gratifying reference to the liberal treatment accorded to our policyholders, and provides authoritative testimony to the Company's strength. Even adopting the low valuations placed by us on our securities, the committee still reported a surplus at the close of last year \$1,333,921.71 in excess of the figure claimed by the Company.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that the Granby Consolidated Mining, Smelting & Power Co. Ltd., whose address is Anyox, B. C. will apply for a licence to take and use 100 c. f. s. of water out of Anyox Creek, also known as Falls Creek, which flows South-Easterly and drains into Granby Bay, about Lot 308 Cassiar.

The water will be diverted from the stream at a point about one and a quarter miles from mouth and will be used for power purpose upon the land described as Lots 308, 479, and 898, Group I, Cassiar District. This notice was posted on the ground on the 27th. day of March, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

THE GRANBY CONS. M. S. & P. Co., Ltd. Applicant.

By W. R. Lindsay, Agent.

The date of the first publication of this notice is April 5th, 1930.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that the Britannia Mining & Smelting Company Ltd., whose address is Alice Arm, B. C. will apply for a licence to take and use fifty cubic feet per second and to store 200 Acre Feet of water out of Trout Creek, which flows South-West and drains into the Kitsault River, about three miles north of the Toric Mine.

The storage dam will be located at one half mile from Kitsault River. The capacity of the reservoir to be created is about 200 Acre Feet, and will flood about eight acres of land. The water will be diverted from the stream at a point about half mile North East from junction of the Kitsault River, and will be used for Power purposes upon the Toric Mine, described as Toric Lot 935, Cassiar District.

This notice was posted on the ground on the 24th. day of March, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. within thirty days after the first appearance of this notice in a local newspaper.

Dated the 24th. day of March, A. D. 1930.

League of Nations' Day On Wednesday

Wednesday, April 16th. has been thus far designated as "League of Nations Day". On that day the hundreds of local branches of the League of Nations Society arrange public meetings to remind all who will listen of the dangers latent in the present world organization. How real the possibilities of war are can be understood by examining the rivalries that the Disarmament Conference has exposed. Millions of unemployed throughout the world have demonstrated a willingness to resort to violence to improve their lot.

They need only to be exploited by self-seeking politicians to precipitate a clash that may involve the world in disaster. Some nations are suffering from over-production of armaments, and some are lamenting an over-supply of metals, wheat, and other materials which overnight can become the sinews of war. The first group stands ready to plunder the others who, in their turn, would be glad to compel their rivals to open their markets to the products that are unsold.

The adjustment of these economic and social problems is the ambition of the League of Nations. To conduct the League's business requires monetary aid from its members. Already the complaint is being made that Canada's participation costs too much. It is to combat propaganda of that sort that the local branch of the League of Nations Society exists. The local secretary, Mr. Fred Graham, will be glad to enrol you as a member. Your share of the "peace insurance" premium and of the cost of world co-operation is one dollar.

ALICE ARM NOTES

Geo. W. Bruggy arrived back on Monday from Vancouver, where he spent the winter with Mrs. Bruggy and family.

Charlie Lee was a visitor from Prince Rupert on Monday. He plans to again go into the Taku country as soon as navigation on the river is open.

A new Chevrolet dump car arrived from Vancouver on Monday for Barney Turbit.

J. Strombeck has been busily engaged during the week taking in supplies to the Moose property, which he will again close prospect and develop during the early summer.

A. Davidson, who is developing the Wildcat property was a visitor in town during the week.

J. A. Anderson, superintendent of public works, was in town this week examining progress of work on the Falls Creek dam.

N. Sutlovitch left on Monday on a visit to Prince Rupert.

A card party and dance under the auspices of the Alice Arm Athletic Club will be held this evening at T. W. Falconer's hall. Gentlemen \$1.00. Ladies will supply refreshments.

Tenders Accepted For Cabin

Tenders for the purchase of the cabin, formerly owned by Mr. Alex. Abrahamson, will be accepted up until April 21st. The cabin is situated at Alice Arm between the residences of W. M. Cummings and N. Sutlovitch. It is furnished with stove, beds, chairs, etc. It must be moved from the lot on which it is now standing not later than May 31st.

T. W. FALCONER.
