Tennis Cups Presented To Champions At Dance

The Anyox Community League Tennis Club held their annual dance in the Gymnasium on Friday, October 24th, and it was a splended success in every way.

A large number were present and the Merrymakers Orchestra rendered their usual high class music, and everyone enjoyed the affair from start to finish.

During the supper the presentation of championship cups to this year's winners were made. Miss M. Leighton received the cup for the Ladies' Singles Championship of Anyox. Mrs. J. Smith was the winner of the Ladies' Ladder cup, and Mr. George Lee in a short address offered the apologies of the Tennis Club for not being able to present her with this cup. Mr. Lee pointing out that through a regretable error the order for the cup had not been sent out in time for it to arrive to be able to be presented at the dance.

Mr. Ross Oatman received both the Men's Cups, having won both the Men's Singles Championship as well as the Men's Ladder series. The cup for the latter was presented by the Sun Life Assurance Co. of Canada.

Miss Pat O'Neill was presented with the cup representing the Ladies' Championship of the Beach Tennis Club.

Mr. Blondy Dodd received the cup for the Men's Singles Championship of the Beach Tennis Club.

Mr. Frank Dresser, President of the Beach Tennis Club, gave a brief address in which he thanked the officials of the Anyox Tennis Club for the privilege extended to them in being permitted to make the presentation of their cups at the Dance of the Anyox Tennis Club. He also pointed out that the Beach Club is getting stronger each year, and it will not be long until the Anyox Club will have to look seriously to their laurels if they wish to retain the Championships of Anyox in their club.

After all the presentations were made, the drawing of the lucky numbers took place with Mrs. R. J. A. Manning and Miss T. Gordon winning the prizes.

There was also a number of novelty prizes donated during the evening.

Mr. Wm. Rudland won the prize in the Tag dance.

In the elimination dance Miss Brownlee Flye and Mr. Freddie Gordon were the winners.

In the Lucky Tennis ball dance, Miss Kathleen Eve was the winner.

The Committee who were in charge of the arrangements are to be complimented on the fine way in which they put the dance over.

Everything went along like clock-work without a hitch anywhere.

Dolly Varden Mines Co. Will Hold Meeting

A general meeting of the Dolly Varden Properties Ltd., owning the Dolly Varden and Wolf mines, is called for November 5th. in Vancouver to receive a report from the directors and deal with the affairs of the company.

The meeting is being called for the purpose of discussing the advisability of disposing of equipment and machinery, owing to lack of funds.

ALICE ARM NOTES

L. O'Connor arrived from Anyox on Tuesday and spent several days with Mrs. O'Connor and family during the week.

J. McCallum and Norman Mc Leod arrived from Anyox on Tuesday and returned the following day.

Mr. and Mrs. W. Craig left on Monday for Prince Rupert.

H. F. Kergin, M. L. A., left on Wednesday, on a visit to southern cities.

Jens Larson returned on Monday from Stillwater, where he has spent the summer contracting in connection with the driving of the big tunnel for the hydro-electric plant that is in the course of construction there. Stillwater is in the vicinity of Powell River.

Rev. W. B. Jennings arrived at Alice Arm on Saturday on board the Anglican Church launch, Northern Cross. He held a Divine Service on Sunday evening, and Sunday School in the morning. Mrs. Jennings accompanied him.

In order that Church Service and Sunday School can be held throughout the winter, Mr. and Mrs. Jennings will reside at Alice Arm during the winter months. They will reside in Mr. J. Peacock's residence on Victoria Street.

Alice Arm Receives Donation For Relief Work

In order to take care of the unemployment problem during the coming winter, so that no one will suffer severe hardship the sum of $15,000 has been appropriated by the Provincial Government for the Atlin riding, states J. A. Anderson, district road superintendent, who was a visitor to Alice Arm last week-end.

Of this sum between $4,000 and $5,000 will be spent in the Alice Arm district, and the balance at Stewart and Telegraph Creek.

The work to be undertaken in connection with the appropriation is the strengthening and extending of the wing dam above the town, and work has already commenced with a small crew.

From nine to ten men will be employed. Married men with families, will be employed continuously, while others will work every two weeks.

The wing dam, which protects the town of Alice Arm from the flood waters of the Kitsault River is in urgent need of repairs, and it is very satisfying to learn that this work will be accomplished. Each year the main stream swings more towards the west part of the dam, and at present the main current strikes the dam with full force.

The policy of the Provincial Government when making appropriations in connection with relief work was that necessary work would be accomplished, and this policy is being carried out.

Veterans Will Hold Armistice Day Dance

On Monday, November 10th the Anyox Branch of the Canadian Legion, B.E.S.L. will hold their annual Armistice Day dance. This is one of the outstanding dances of the season, and you are assured that the veterans will spare no effort in making it possible to celebrate this memorable occasion as happily as possible.

Further Reduction in Granby Co's Profits

New York—Granby Consolidated Mining Co., recently reported September quarter profit of $172,017 before depreciation, depletion and federal taxes, against $418,099 in the preceding quarter, and $1,071,808 in the third quarter last year.

Mrs. L. H. Wenerstrom and S. Peters Golf Champions

The golf course was the point of interest to all golf enthusiasts on Sunday, when the finals for both the Ladies' and Men's tournaments were played.

Sid Peters and C. O. Fricker were the finalists in the men's tournament. Both are extremely expert players, and great interest was evidenced in the outcome. Sid Peters, however, emerged victorious with the score of 8 up and 7 to go over 36 holes. Sid deserved his win. His consistent high scores throughout the season and his fine performances on Sunday places him as the unquestionable local champion.

In the ladies' final, Mrs. L. H. Wenerstrom and Mrs. J. L. Stewart were the rivals for championship honors. It was a closely contested game, Mrs. Wenerstrom emerging victorious by the margin of 2 up and 1 to go.

Toric Mines Co. Will Hold Annual Meeting

Toric Mines Co Ltd. will hold its annual general meeting of shareholders at Room 225 Pacific Building 774 Hastings Street West, Vancouver, November 4, at 2.30 p.m.

ANYOX NOTES

W. F. Eve and Chris Cane, returned on Wednesday from a visit to northern interior points.

J. A. Anderson arrived home on Wednesday last week from a business trip to Queen Charlotte Islands.

Among the southbound passengers on Wednesday's boat were H. Thompson, and W. Horne, and Wm. Hindemarsh.

Frank Hill returned to Anyox on Wednesday evening after spending a short holiday in Vancouver.

W Scannell of the Burrough's Adding Machine Co, arrived on Wednesday's boat and left again on Monday.

Mrs. W. B. Maxwell and son returned to Anyox on Wednesday evening after summer holidays spent in the south.

Mrs. Allen of Prince Rupert arrived in Anyox on Monday, and left again on Wednesday morning.

W. Taaffe arrived in Anyox on Monday morning.

Mrs. J. Wynne and son returned home on Monday after a three month's visit to England and Scotland.

Celts, Smelter and Blossoms Win in Monday's Game

On Monday evening, the Anyox basbetball teams played the second games in their respective leagues. Three good games were played.

The Celts were the only team to repeat their win of the first night, although they played a more ragged game than in their first encounter. However, in spite of their many mistakes they finally nosed out the Micos by a score of 18 to 15. It was a ding-dong battle from the start. The lead swinging from one team to the other and was an exciting game throughout.

For the winners, McDonald with 6 and Hill with 7 points were the heavy scorers. For the Micos Dodd and Dwyer begged 6 points each.

Micos: Dodd-6, Cloke, F. Anderson-3, Dwyer-6, O'Neill, Deeth, G. Anderson. Total 15.

Celts: J. Davis, T. Calderoni-5, Hill-7, McDonald-6, Dodsworth, Patrick, McRostie. Total 18.

In the Senior B game the Smelter took sweet revenge from the Orphans, who looked just that in this game. The Smelter improved greatly over their first appearance, and were in good trim for their win, but the score of 21 to 4 does not indicate the hard battle put up by the Orphans who had some very hard luck in their shooting. The chief trouble with the Orphans was their lack of effective combination.

In Ellison, Pinckney, and Ion, the Smelter have a forward line that will show some real skill before the season is far advanced.

Smelter: Ellison-9, Ion-4, Pinckney-8, Kirby, Taylor, Archer. Total 21.

Orphans: Horner-2, Ridley, Elliott, Field-2, Karen.

In the Intermediate league the Blossoms trimmed the Buds in fine style to even up the score at one game each. For the Buds, H. Dresser, Freddie Gordon, and Bud Gillies were the outstanding players. For the Blossoms, Calderoni and A. Dodsworth were the pick of the team. The final score was 16-3 for the Blossoms.

Buds: J. Dodsworth-1, D. O'Neill, H. Dresser-2, B. Gillies, F. Gordon, D. McDonald. Total 3.

Blossoms: T. Scott, W. Dunn, A. Dodsworth-6, F. Calderoni-7, A. Deeth-3. Total 16.

Enthusiasm Prevails At Basketball Opening Night

The officials of the Basketball League were highly satisfied with the result of their opening games on the night of Friday, October

The B. C. Products Bureau of the Vancouver Board of Trade, are conducting an advertising campaign throughout the province, showing the advantages attained by buying, whenever possible, goods produced in British Columbia. The Federal Government is also contemplating a similar campaign advising everyone to purchase Canadian made goods in preference to foreign. When making purchases of any kind we should endeavor to remember that when we buy a foreign made article that the money we spend leaves the country. It goes to some foreign land, giving employment to foreign labor, thus creating unemployment at home. To many of us bewail the hard times with its resultant armies of unemployed, but fail to demand Canadian made goods in preference to foreign. Let us keep our money in the province if possible by buying B. C. products, and failing that buy Canadian made goods.

For the first time in history, relief work for the unemployed is being distributed throughout the entire province. Every small town where an unemployment problem exists has been given assistance by the Provincial Government. In former times relief work was only obtainable in the big cities and those in small towns were forced to practically starve or incur debts that swallowed up the next summer's earnings. The Provincial Government is making an earnest effort to alleviate any suffering this winter by providing employment. It is fully alive to its responsibilities, as is also the Federal Government, and their quick action to meet any emergency will be appreciated by many before the coming winter is passed out.

Canada Increasing Gold Output

Ottawa, October 25; (Special to the Herald) North America is, next to Africa, the chief gold-producing continent, usually contributing about one-quarter of the world's annual gold output. Within the past decade North American production has rather more than held its own, but this showing has been due entirely to the fact that Canada's rising output has been sufficient to offset the decline in the United States and Mexico. Ten years ago the gold output of the United States was three times as great as that of the Dominion.

Do You Know That:

That advertising has the power of suggestion, which creates a desire to possess.

Continuous advertising is the most effective kind.

Continuous advertising causes readers to form a friendly feeling towards the concerns advertising and makes customers and prospective customers realize that only the best in quality is continuously advertised.

Persistency in advertising is unquestionably the greatest force in the building of business. It increases turnover and breaks down sales resistance.

Truthful advertising of quality means satisfied customers. It is building better business everywhere for those who use its aid.

Advertising is the magnet that attracts the attention of all. It reminds the people of everything they need.

Business concerns who handle well advertised lines and back them up with local advertising are the ones who profit most.

Only the concerns who are continuous advertisers can successfully survive competition.

Business men who do not believe in advertising are just sleeping, while local competitors, neighboring cities, door to door peddlers and mail order houses are getting the business they should get.

Canadian Mining Institute to Hold Meeting

Problems and future possibilities of the base metal industries of of British Columbia and the Dominion will be discussed at the joint meeting of the B.C. Division of the Canadian Institute of Mining and Metallurgy and the Mining Association of British Columbia in Vancouver, November 19 to 21. R. C. Rowe, editor of the Canadian Mining Journal will introduce the discussion on the base metal industries; and George C. Bateman, secretary of the Ontario Mining Association is expected to speak on the same subject.

Special attention will be given at the meeting of mining men to the silver situation. This subject will be introduced by Professor W. A. Caruthers of the University of British Columbia. Other economic problems which will be aired include stocks and prices of metals; marketing conditions and production in relation to consumption. The meeting will be open to the public.

Premiers Bennett of Canada, Forbes of New Zealand and Sir Ritchard Squires of Newfoundland have been appointed to the Privy Council and will henceforth bear the title of "Right Honorable" which goes with the appointment.

Hon. C. A. Dunning, Will Manage Hotel

Hon. C. A Dunning, former federal minister of finance, has accepted the position of vice-president and general manager of "Lucerne in Quebec," a new all-year pleasure resort hotel on the Ottawa River, according to announcement made by E. W. Beatty, K.C., president of the organization.

The death took place at Renton, Wash., of Frank P. "Pap" Stewart, who founded the town of Stewart, Portland Canal district, B. C.

Consumption of gasoline in Canada increased 543 per cent. from 1920 to 1929 and in the same period the use of fuel and gas oils advanced 138 per cent. The wider use of motor cars, farm tractors and other agricultural machinery is given as the reason for the great increase in the use of gasoline and the growing popularity in the use of oil for heating purposes accounts for the advance in the consumption of fuel and gas oils.

An impressive march past of over 9,000 sockeye salmon was seen this summer at Stamp River Falls, B.C. The fish took from June 11 to July 20 to pass the falls by aid of the fishway constructed by the Canadian Government Department of Fisheries. A count of the fish was made at the falls during ten hours of each day in the six week period. As compared with the previous year there was a large increase, 9,061 against 3,512.

Five per cent seems a pitifully small return on your money until you've tried to get ten per cent and lost your principal.

NOTICE

Bert Shelton, Deceased

NOTICE IS HEREBY GIVEN that all persons having claims against the Estate of Bert Shelton, late of Anyox, in the Province of British Columbia, deceased, who died on or about the 26th. day of August, 1930, are required on or before the first day of December, 1930, to deliver or send by prepaid letter, full particulars of their claims, duly verified, to The Toronto General Trusts Corporation, the executor of the Estate of the said late Bert Shelton, at its office, corner of Pender and Seymour Streets, Vancouver, British Columbia, AND TAKE NOTICE that after the last mentioned date the executor will proceed to distribute the assets of the estate among the persons entitled thereto, having regard only to the claims of which they then have had notice.

Here and There

(627)

"The reason why interference by the government in business, or worse, the active engagement by the government in business, is harmful, is because it is not accompanied by efficiency, and inevitably, means waste and increased taxation," was one of the outstanding statements made by E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address at the annual dinner of the Canadian Chambers of Commerce held at Toronto recently. It was, he thought, a dangerous tendency and one that should be combatted by Canadian and American business men.

There are at present in the Province of Quebec 33,040 miles of rural roads, of which 5,316 miles are first-class roads, 8,878 miles second-class and 18,846 third-class. Over 13,500 miles of roads in the province or about 41 per cent. are permanently improved and surfaced with either concrete, macadam or gravel.

Thoroughly representative of Canadian business across the breadth of the Dominion from Montreal to Vancouver, members of the Canadian Chamber of Commerce left the latter city October 16 on the Empress of Russia for the Chamber's official tour of Japan and China. The party includes financiers, editors, manufacturers, professional and business men of national reputation. It is the most important delegation ever to leave Canada for the Far East

Sir Benjamin Robertson, member of the Council for India, who has just completed a seven-week tour of Canada from Atlantic to Pacific, said he had been greatly impressed both by the people and the possibilities for economic development of the Dominion. He was much gratified to find throughout Canada a feeling of loyalty to the Empire which "one recognizes almost instinctively." Sir Benjamin, who came to Montreal on the Metagama, August 23, left Saint John for New York to return to England October 9.

Since the new steamer Princess Helene was put into service on the Bay of Fundy route August 27 last, there has been an increase of slightly more than 25 per cent. in the general traffic on the route between Saint John and Digby, reports issued recently by the Canadian Pacific Railway reveal.

"Lack-a-day Liz," enigmatical young person whose character is chockfull of surprises, made her first radio appearance on a recent Monday evening in the programme from "Melody Mike's Music Shop," new Canadian Pacific Railway radio feature. This programme is broadcast over the C.P.R.'s transcontinental network of Canadian stations linked together by the broadcast transmission system of the railway, including ten stations in western Canada. Many tuneful songs and choruses, including old-time favorites and popular song hits, are incorporated in the programme from Melody Mike's music emporium.

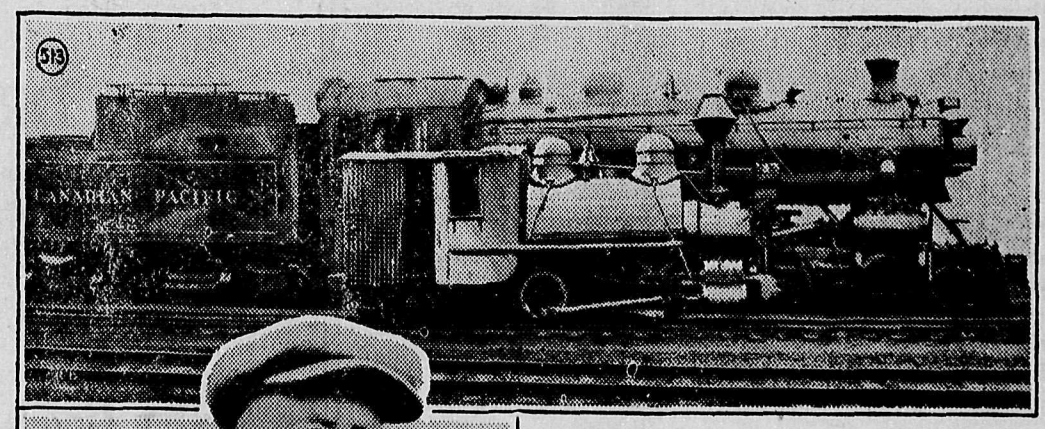
Championship Fish from Ontario Waters

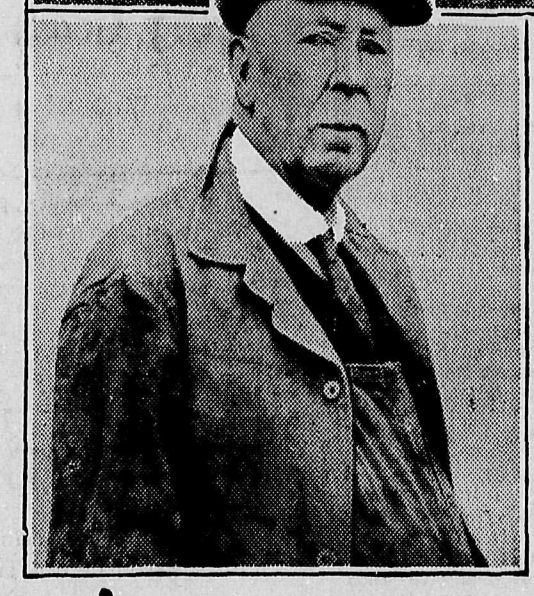
Results are out for the three major fishing competitions held in Ontario each year at French River, Nipigon River and Devil's Gap Bungalow Camps, all three contests being sponsored and trophies awarded by the Canadian Pacific Railway Company.

They were: a 49½ inch muskalunge taken from the French River by F. R. Spotts, of Houston, Texas, weight, 35 pounds, seven ounces, girth, 25 inches. It took nearly three-quarters of an hour to land this beauty. A six pound speckled brook trout from the Nipigon River caught by Edward Pohlman, of East St. Louis, Ill., 22½ inches long and 14 inches in girth. A black bass from the Devil's Gap Bungalow Camp, Lake of the Woods, four pounds, 1½ ounces in weight, just over 21 inches long and 13⅝ inches in girth. It fell to the rod of J. C. Jones, of St. Louis, Mo. Each winner was awarded a framed certificate signed by the judges of the contest and were also given gold lapel buttons. Fishing was exceptionally good this year in these sections and the winners were up against the stiffest kind of competition.

Lay-out shows, centre top, J. C. Jones, winner of Devil's gap contest; left, top, Lake of the Woods Black Bass specimen; right top, Nipigon River speckled trout specimen; lower centre, record head of muskalunge taken at Devil's Gap.

THE GIANT AND THE DWARF





Overshadowed by the tons of steel making up the monster that has succeeded it, "Curly," as the engine is still affectionately known among veteran railwaymen, stands alongside a modern Canadian Pacific locomotive and measures only as long as the latter's cab and tender. Nevertheless, "Curly", tiny, lofty-funnelled wood-burner of pioneer days, can claim a record seldom approached anywhere in the world for long life, usefulness and endurance.

"Curly" was brought to British Columbia in 1871 and W. H. (Bill) Evans (inset), engineer of the first Canadian Pacific passenger train to reach Port Moody in 1885, says it was built in a San Francisco machine shop and later aided Count de Lesseps in the Panama Canal region, not to mention construction work in Peru. Sixty years of arduous work left their mark on "Curly", but now the engine after a thorough refitting at the Canadian Pacific Vancouver shops, is to be exhibited at the Vancouver Exhibition in August, as a museum piece of the early days.

Bill Evans was called out of retirement for purposes of this picture and gladly donned the old overalls again to show himself once more in harness alongside "Curley".

Our Job Printing Department Can Handle Any Class of Work

Enthusiasm Prevails At Basketball Opening Night

Continued from page 1

24th.

A large crowd was on hand for an event of this kind, and four games were played, one in each of the four leagues in operation this season.

The teams naturally were not quite up to scratch in form, but it will be only a matter of time and practice before some real hot basketball will be dished up to the fans, and it is hoped that they will continue to turn out the same good numbers throughout the season as they did on the opening night.

The first game brought together the Buds and the Blossoms of the intermediate league. The Buds finally emerged victorious with the score of 8 to 2 in their favor. However, although the Buds deserved to win the score does not indicate the closeness of the play, as the Blossoms had some very tough luck with their shooting at times. One of the features of this game was the good all-round display of basketball by the midgets of their respective teams, these were Dresser for the Buds, and Scott for the Blossoms. These boys should be real stars before many moons pass over their heads.

Bud Gillies and Freddy Gordon were the big noises for their team, each collecting half of their team's score. Calderoni got the only bas ket for the Blossoms.

Blossoms: Scott, Deeth, A. Dodsworth, Garvey, Calderoni 2, Dunn. Total 2.

Buds: J. Dodsworth, A. Dresser, Gillies 4, Gordon 4, McDonald.—Total 8.

The Orphans and the Smelter teams put on a very spirited battle, although it was quite a revelation to some of the fans as to what could be done under the name of basketball. However, for all their lack of experience, these teams appear to be very evenly matched, and with a little proper coaching and practice they should put on some real games before the season is over.

Orphans: Field-2, Elliott-4, Horner-2, McColl-2, Ridley, Karen. Total 10.

Smelter: Walters, Pinckney, Ion-1, Dixon-2, Ellison-4, Archer. Total 7.

The Ladies' Senior A game was somewhat disappointing, as it was seen that the Pats had it over the High School girls like a circus tent, right from the start. The big trouble with the High School team being that they apparently have too many players, and it was not until the game was lost that they managed to work out their strongest combination.

Pats: H. Calderoni-5, Mrs. Carrick, M. McRostie-7, J. McDonald-7, K. Eve-2, T. Gordon. Total 21.

High School: P. Loudon, L. Dresser-2, M. Dresser-2, M. Cloke-2, A. McDonald, G. Peters-5, N. Dunn, M. Barclay. Total 11.

In the Men's Senior A game, the Celts showed the benefit of their year's playing together, to completely outclass their less experienced opponents, the Sheiks. The Celts put on the only real exhibition of basketball during the evening, showing fine combination and a good understanding of basketball tactics. When these boys put on a little more weight, and gain some experience with outside teams they should be able to make a good showing in any company.

The Sheiks showed lack of practice and coaching, and were continually being checked up for steps and other technical fouls.

Celts: Davis, Calderoni-10, McDonald-8, Hill-7, Dodsworth, Steel-8, Patrick. Total 33.

Sheiks: Gillies-10, Barclay-2, Lindgren-6, Dresser-7, Kent. Total 25.

Yukon Shipping Much Silver Ore

Ottawa—Despite heavy trans portation costs, silver ore and concentrates to the extent of approximately 10,000 tons has been shipped out of the Yukon during the present summer according to George I. McLean, gold commissioner to the Yukon, who has returned to Ottawa after a two and a half year sojourn in the north country. So great is the shipping cost that silver ore of less value than $100 per ton cannot be sent out and it is this lower value ore from which concentrates are made. The silver production in the Yukon, Mr. MacLean declared, was practically five times as great as the gold production, which amounted to less than one million dollars per year. Silver production reaches about $4,000,000 yer year.

Reputation is a reward for what was done yesterday. It must be earned anew each day.

"Slip on the first thing you see and hurry downstairs," says an hotel fire warning. If the first thing is the top stair, the rest will follow automatically.

WHEN BUYING COAL
- REMEMBER -

Every ton of British Columbia coal used means employment for local miners and mine workers.

It means the maintenance of more homes in the Province.

It means the continued local circulation of funds which otherwise would leave the Province.

It means, if every B. C. user of coal will use local coal, that the Vancouver Island, Nicola-Princeton, and Crow's Nest Pass coal fields, whose coal workers have been struggling on half time or less for months, again will be favored with prosperous conditions.

For these reasons British Columbians should consider carefully the source of the coal which fills their bins this winter.

Annual Reports, Bulletins, etc. may be obtained free of charge, on application to
