Toric Mine Ships 120 Tons of Concentrates From New Mill

Three Tons Concentrates Per Day Produced

Last week about 120 tons of concentrates were shipped south by the Toric Mines Co. Ltd. This is the first shipment of concentrates made from Alice Arm, and it marks another important step in the camp's progress, from which there will be no let-up.

The concentrating mill at the Toric is functioning satisfactorily, about three tons of concentrates being produced each day, which are being shipped to the government wharf.

Owing to additional demands made on the power plant this summer, the mill is unable to be operated to capacity. Next year, however, additional power will be installed and the full 50 tons of ore per day will be concentrated.

The Toric has an abundance of ore in sight, of a good milling grade and development work is proceeding. Recoveries of values are said to be from 86 to 88 per cent.

A new bunkhouse has been constructed and some of the older buildings renovated.

It is expected that the mine and mill will be operated throughout the coming winter.

Managing Director A. C. H. Gerhardi is at present in Vancouver. He is expected to arrive, however in the near future.

Meeting Held Organize Night Classes

At a meeting of the School Board on Friday D. J. Hartley, Principal of the elementary school was again appointed director of night schools. Classes will be organized for any subject in which an attendance of ten can be assured. Cards are being circulated to prospective students in the hope of getting things started as soon as possible after October 1st. The new member of the board is Mr. A. W. Gigot. The board made its first visit to the schools on Tuesday afternoon.

Tennis Play Resumed Anyox Courts

Fine weather over the week-end permitted the resumption of tennis after a fortnight's lay-off. The finalists in the ladies' singles, Mrs. Cutler and Miss Leighton, resumed play at 6-3, three-all, Miss Leighton finally drawing even by taking the set at 8-6. In the third set Mrs. Cutler began playing for the base-line and seemed to be losing out but she came out from behind to win the deciding set at 7-5, the last game going to deuce several times.

Elks' Carnival Proves Great Attraction on Monday

The big Elks' Carnival held on Monday evening, at the Elks' Hall, went over with a bang. Wheels of chance were spinning; bally-ho men were inviting everyone to take a chance on winning a big prize, and with drums beating the excitement lasted far into the night.

No one present could resist the temptation to take a chance with such high pressure persuasion, and the various games were well patronized. The lucky gamblers obtained some excellent prizes, that were worth taking a two-bit or fifty cent shot.

The profits derived will be used for benevolent purposes, among them being the Elks' Children's Christmas Tree.

The prize winning ace of the evening was J. J. H. Varnes, who with ticket 437 won the feature prize a Langmuir-Hartman wardrobe trunk, valued at $80.

The committee in charge of the Carnival is to be congratulated on the amount of energy expended, both muscular and vocal in making the affair such a success.

B. P. O. Elks Entertain Baseball Teams

On Monday the 17th. the Elks' Lodge were hosts at a banquet and smoker in honor of the Elks' baseball team and members of the Store and Office team. Contributing to the vocal and musical program were Bros. Dresser, Owen Kirkwood, Roberts, and Bennett. Messrs. Ritchie and Roberts played a banjo-mandolin duet.

Mr. Heywood was heard in a couple of comic selections, and Mr. Ashmore and Mr. Hegarty also sang. Bro. B. M. Buck, as toastmaster, proposed "the King". Bro. Ashton and Mr. Ashmore spoke to the toast to the Store team Bro. Smith and Mr. Healy to the Office team; and Bro. Harmon and Mr. D. Wilson to the Elks' team, Anyox champions. Bro. Macintyre addressed the gathering on behalf of the Community League, and Bud Sheen gave an outline of work done. An enjoyable evening closed with the singing of "Auld Lang Syne".

High School Will Give Entertainment

The high school club has decided upon an evening's entertainment on Friday, Oct. 26, when new students will undergo initiation.

Send your next films direct to Wrathalls Photo Finishing, Prince Rupert, B. C. Our high class photo work and quick returns will please you. We also do picture framing. Try us.

Big Night Promised at Opening of New Gymnasium

At the meeting of the A. C. L. Council on Wednesday, it was reported that by the end of the week the doors will be in place and the gymnasium will be locked up until the night of the opening dance, October 8th. Certain fittings for the heating system may not arrive by that time as they had to be ordered from a point more distant than at first supposed.

Meanwhile the Council is arranging for the delivery to the gym of the Mason & Risch piano purchased from Dr. Learoyd, at a price of $200. Mrs. Pynne recommended this one from the several which were offered. In regard to the dance, already over two hundred tickets have been sold and Mr. V. S. McRae who is directing the campaign expects to cross the three hundred mark.

Rules for the waltzing competition will be published in the Granby News next Saturday. There will be prizes valued at $5 for old and new styles of waltzing, and Councillor Harmon is busy with a scheme for the judging which he expects to minimise the adverse criticism of the awarding of prizes. A voice from the press gallery was heard questioning the council's faith in the buoyancy of oxygen-filled balloons. In this connection it was considered by the council that members of the league who attend meetings must wait until the conclusion of business before joining in the proceedings.

ANYOX NOTES

Harry Gourlay returned on Monday from a vacation spent in the south.

Don't forget the big night at the Gymnasium on Monday, October 8th. Buy a ticket.

George Lace returned on Monday from a trip to the south.

P. E. Peterson, consulting engineer for the Silver Crest and Utility Mining Companies left on Saturday on a business trip to Vancouver.

T. J. Shenton, mining inspector, left on Saturday for Prince Rupert.

W. P. Manuel was a south-bound passenger on Saturday.

S. Colclough left on Saturday for the south.

J. McLean and G. Walker were among the departures on Saturday.

D. F. Davidson arrived from the south on Saturday's boat.

Sid Peters returned from Alice Arm on Monday where he has been relieving at the Liquor Store.

Continued on page 4

Badminton Enthusiasts Meet and Elect Officers

A meeting of those interested in badminton was held last Friday, about 20 attending. The members of last year left the club over $40 which will be applied to the purchase of trophies and equipment. In view of the shortened season last year it was decided to request all officers to serve again elections being made to fill vacancies. Fees will again be $4 and it is requested that those who intend to play will sign up immediately so as to allow the order of shuttles to be made up as soon as possible. Racquets may also be purchased at a reduction through the club. Play on the two new courts will be restricted to members only, out-of-town visitors being charged 50 cents a session.

Officers are: President Mr. J. A. D. Stewart, Vice-Pres., Mrs. R. O. Cutler, Sec'y Treas., Mrs. C. O. Fricker, Committee, Mrs. Buck, Mrs. Roy, Mr. Brett, Mr. Fordyce Clark.

The club voted to furnish a committee of ladies to look after the lunch counter at the Gymnasium Carnival.

Disposition of The "Red Parrot" in Doubt

The Council of the A. C. L. are concerned for the "Red Parrot." Since opening on May 25 there has been a profit of $350, but at present the League is committed to a salary and expense account of nearly $200 a month. The Finance Committee advises caution in attempting to carry on at this rate during the winter, when profits are likely to be lower.

Accordingly the Council has recommended to the Finance Committee that the establishment be sub-let. In this way it is expected that the service be maintained, at the same time some independent and active lessee will make a fair living off the premises.

Oddfellows Hold Successful Card Party and Dance

A very successful card party and dance was held by the local lodge of the I. O. O. F. on Friday, September 21st.

The success of the evening was largely due to the excellent music supplied by the orchestra which was composed of, Frank Dresser, Duncan Campbell, Steve Peel, Steve Jones, and Thos. Evans.

The Ladies' First Prize was won by Mrs. Hanson, Consolation by Mrs. J. Shields. Men's First Prize won by Mr. J. Shields, Consolation by Mr. Smith.

Prospects of Large Ore Tonnage at Tiger Is Good

Much Ore Exposed Surface and Underground

The ore bodies of the Tiger, which is being developed by the Utility Mining & Financing Co. are expected to go to a great depth and also carry value with their depth.

At the present time the face of the 400 ft. crosscut tunnel has been advanced to 125 ft. and the starting of the 800 ft. level tunnel is now under consideration.

Good ore is well exposed on the Tiger in ten open cuts for a distance of 300 ft. as well as underground for the same distance, in drifts and crosscuts to a depth of 250 feet.

The ledge is a true fissure vein in the usual porphyrite of the upper Kitsault River silver zone. The ledge strikes north and south and dips vertically.

The ore body of the Toric mine, which joins the Tiger, strikes east and west, and dips strongly to the north towards the Tiger claims. It is significant that the Toric ore body has been developed at an elevation 800 feet lower in the same hill than the outcrop of the Tiger ore shoot. The Tiger and Toric claims sideline each other, with but 1000 feet separating the two ore bodies.

Will Address Meeting on Boy Scout Movement

On Wednesday, Oct. 3rd. at 8 p.m. in United Church under the auspices of the P. T. A., Mr. Norman Saunders, provincial secretary of Boy Scouts, will address a public meeting on behalf of the scout movement. During the week of his stay Mr. Saunders will address meetings of the Girl Guides and Boy Scouts.

ALICE ARM NOTES

Dr. H. T. James, resident mining engineer, left on Monday after spending a week here inspecting mining properties on behalf of the Department of Mines.

G. Strombeck, who has spent the summer months here, left on Thursday for Anyox. He will proceed to Vancouver on Saturday and will return next Spring.

T. W. Falconer, who left here four weeks ago with Mrs. Falconer and family, returned from Vancouver on Monday. Mrs. Falconer and family will spend the winter in the south.

J. A. Anderson returned on Monday from a brief visit to Prince Rupert.

The Anyox night school classes will commence to function as soon after October 1st. as possible. The success of the coming winter term depends upon the number of pupils enrolled in each class. In previous years the night school classes have met with great success, and many former residents of Anyox, who have left the camp for other fields of endeavor, are now grateful that they grasped their opportunity in Anyox for increasing their learning by attending night school classes. This is an age of learning. The man who knows most, whether it is the particular line of work he follows, or general knowledge, is the man who gets the best job, highest pay, and greatest opportunities for advancement. A golden opportunity is offered to the men of Anyox especially to the younger generation, who are commencing their careers, to increase their knowledge. Two hours a night, two nights a week, is the total time demanded of your leisure hours. The opportunity is here. Grasp it while you have the chance, for next year you may be somewhere else where the same opportunity does not present itself.

The mining industry of Alice Arm is expanding, and moreover the expansion is being built upon a solid foundation and is not the result of an hysterical boom, where properties are over rated, and which inevitably results in a slump. The outlook for the mining industry of Alice Arm was never brighter than at the present time. Six properties are being operated and plans have been made to conduct operations on all six properties throughout the coming winter. One concentrating mill is now in operation and another will be added to the list next year, with another likely to follow in the near future. During the past few months, and also at the present time, mining engineers, representing big companies have made examinations of the district and when everything is favorable they are ready to step in and develop the mineral wealth of the district on a larger scale than heretofore. The next few years will undoubtedly witness a tremendous expansion in the mining industry of Alice Arm. The district possesses enormous bodies of ore, and development carried out to date shows that it is no hard matter to encounter these surface showings underground, and often values and tonnage found underground even exceed the surface showings.

Alice Arm has everything in its favor for profitable mining. Its ore bodies are invariably large. Transportation facilities are good, and its proximity to tide water means low freight rates on ores and concentrates. Mining engineers, who have travelled extensively, openly state that the possibilities of Alice Arm as a producer is among the best in the province.

Prize Winning Mucker Makes Record

By shovelling 1,000 lb. of rock into a mine car in 1 min. 44 sec., William Vitti, of the West Colusa mine of Anaconda Copper, won the mucking championship of the Butte district at the annual Miners' Field Day contests held at Butte, Mont., on August 20. Vitti's time was 1⅞ sec. less than that of his nearest competitor among the 27 others entered in the event, and 13 sec. better than the record of last year.

The competition attracts considerable interest among the miners of the Butte district, and has been closely contested since it was first included among the field day sports in 1919. Vitti, who is 36 years old is one of the youngest winners of the mucking contest. In the past the championship has frequently gone to men more than 40 years of age. Skill, based on long practise as well as strengh, is necessary to win. The shovel must carry a full load each time, and every shovelful must fall into the car.

For that run down feeling, sue the car driver.

Here and There

(130)

The latest recruits to the ranks of the internationally known Trail Riders of the Canadian Rockies are the three daughters of Ramsay MacDonald, former premier of Great Britain. They rode from the Chateau Lake Louise to Lake Agnes to qualify for membership.

One of the sheep ranchers of the Coaldale district is at present in the Crow's Nest Pass where he is running a large flock of sheep on summer range. This is the first year that an independent rancher has moved sheep to the mountains for the summer and the experiment is being watched with a good deal of interest.

The first of a new series of engines, has left the Angus shops of the Canadian Pacific Railway and will shortly enter passenger service between Montreal and Toronto. It is the largest passenger locomotive in the British Empire, 97 feet in length, weighing 424,000 pounds, and has eight great driving wheels 6 feet three inches in diameter. It is an entirely Canadian product, designed by Canadian Pacific engineers.

Fifteen flying clubs have been formed in Canada since May when the Government's plan to encourage civil aviation was put into effect, while application for two more clubs are at present being considered by the Air Board. Over one hundred Moth planes are in use throughout Canada, Air Board officials stated. Half of these are privately owned. More than one hundred members of the clubs are solo fliers.

A resolution petitioning the Canadian Daily Newspaper Association to hold its 1929 convention in the Maritime Provinces was passed at the Mid-summer meeting of the Ontario Provincial Daily Newspaper Association held on board the Canadian Pacific ship "Keewatin" en route from Port McNichol to Sault Ste. Marie. F. H. Leslie, president of the association, referred in his speech to the ardent wish of the members for a matter acquaintance with the Maritimes.

The world wide service proclaimed by the Canadian Pacific Railway will be further improved with the establishment of a new hotel by the Company in London, England. So great a traffic of Canadian and American travellers between this continent and England has been built up by Canadian Pacific Steamships, that the construction of a new hotel in the heart of the Empire has been considered for some time. And now that the 1200 room Royal York is well under way the project has been taken into hand. Operations should start next year.

Recently it was decided that fish are sensitive. Now it is discovered that they are patriotic. Some salmon in New Brunswick who were caught and carefully transported alive overland to the foot of a fish ladder leading into a river draining American territory refused utterly to leave their native waters. As soon as they were released into the water, according to a report received by the General Tourist Department of the Canadian Pacific Railway, they beat a hasty retreat down the St. John river to the point where they were caught and ascended another tributary rising in New Brunswick.

Premier Coy. Will Pay Quarterly Dividend $300,000

Reports from New York that the Premier Gold had cut its quarterly dividend from six to five cents appear to have been an error.

H. A. Guess, vice-president of the company, in New York, has announced that a quarterly dividend of $300,000 will be paid. This is at the rate of 6 cents a share on the issue of 5,000,000 shares. Payment will be made on October 4 to stockholders of record on September 14.

This declaration is the second at 6 cents a share, the other having been for the last previous quarter. All of the others, for several years have been at the rate of 8 cents a share.

The reduction of two cents followed the announcement that expenditures were to be made for the exploration of the Prosperity, Porter Idaho and Silverado groups in the Portland Canal region. This work has been proceeding since spring. In addition, an aerial tramway is being erected by the Riblet Tramway Company of Spokane, to connect the three properties with a concentrating mill near the canal level.

The forthcoming disbursements will increase the grand total of dividends to $12,850,000.

Sheep Advocated For P. G. E. Country

Suggestion that a great step towards the solution of the P. G. E. problem will be the turning of the whole railway country into a great sheep raising area with millions of sheep grazing upon it are expected to receive serious consideration from Premier Tolmie and his cabinet, in view of recent remarks on the subject by the Premier.

Dr. Tolmie has in several of his talks strongly advocated development of the sheep industry in B. C. and the utilization of the great grazing areas in the province not now being used.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Tunnel on Big Missouri Hits High Grade

Portland Canal News

Much has been affirmed and denied in regard to results in the long tunnel at the Big Missouri, but this much may be said with certainty at this time, that the tunnel cut five feet of ore at between 1675 and 1700 feet from the portal, one foot of which carries phenomenal gold values, the gold being in the free state and plainly visible, some patches being as much as an inch in length and half that width. No statement has been issued here by the management, but so many visitors have seen the samples and so much has been said by those doing the work that there can no longer be doubt as to the authenticity of the strike.

Mining men are particularly interested in this, because it is the first instance in the camp of free gold being found at this depth. The strike was made at a vertical depth below the surface of 800 ft. and 1200 ft. on the dip of the vein, and the gold is undoubtedly of primary origin, such as may be found in the Rand district of South Africa, the "Motherlode" of California, and some mines in Australia.

Well Known Victoria Solicitor Receives Govt. Appointment

Oscar Bass, veteran Victoria lawyer and former journalist, has been named departmental solicitor and his duties will be to act as general advisor to all departments. He will come under the deputy attorney general, a position left vacant with the resignation a year ago of John W. Dixie, who became registrar of the supreme court at New Westminster.

The position carries a salary of $3,720.

BILLY ARMSTRONG

The youngest piper in Canada, who blew himself to the Highland gathering at Banff. See him smiling—and the rows of medals and a'. Billy may be good, but he has a long way to go, for, 'tis said, bagpipes and the violin are unique in this respect, that a performer on either instrument has never finished learning. Harold Eustace Keys, musical director for the Canadian Pacific Railway, who contributed largely to the success of the Banff festival, and who is the authority for this statement, added that another point is that the bagpipes are a certain index of a player's physical and emotional condition.
