Meeting of Community League Council Held

At its regular meeting on Wednesday the Community League Council granted to the Girl Guides the use of the lounge room of the Gymnasium on Tuesday evenings. The girls will also be allowed the use of the electric stove in the kitchen for cooking lessons. The use of the lounge room was granted also to the Anglican Church for a Christmas party on Friday, December 27th. Letters were received from the Hospital Auxiliary voicing the thanks of the organization for courtesies recently extended by the League. A letter from Mr. D. J. Hartley, Principal of the Elementary School, cancelling the request for Recreation Hall for a School Concert, was read and ordered filed.

An offer from Mr. Willam Gibb to furnish several books on dogs was received and thanks extended. Councillors MacDougall, Dunwoodie and Clark were appointed a committee to examine a set of pictures by John Innes depicting British Columbia History. Mr. Dunwoodie also accepted a request to look into the matter of providing wall maps for the Library. Mr. MacDougall reported prices in connection with the provision of easy chairs for the Library. The Council is unanimous in the decision to make this department superlatively attractive and useful to the members.

In connection with the motion pictures the Secretary was commended for the provision of oversize reels and use of phonographic records of the theme songs with the latest pictures.

High Water In Kitsault River

High water prevailed in the Kitsault River and Falls Creek during the middle of the week, but the town of Alice Arm was in no serious danger of being flooded, thanks to the wing dam above the town. The high water was due to incessant warm rains, which melted the recent snowfalls in the hills. A portion of the bridge above Mud Creek canyon on the Dolly Varden railway was washed out. Its collapse is hindering supplies going through to the Toric mine, but it is hoped that repairs will be effected in a few days.

We are in a position to fill your orders for private Christmas greeting cards up until Christmas. Call at the Herald office and view our samples or write us and we will mail samples. We guarantee delivery within twenty-four hours. Any verse you wish printed with your name on any card.

Oddfellows and Mine Are Victorious Basketball

Basketball fans were provided with two interesting exhibitions last Friday night. In the first event the Oddfellows ran up a 12-2 score against the High School in the first half. With greatly improved shooting High School drew level at 12 all, and was momentarily in the lead several times until the whistle interrupted with the Oddfellows on the long end of 21-19,

For the second game the Mine sent in a team which checked rather better than it shot. Elks did much the same. The players generally are not yet in form to maintain strenuous play for a full period and no team had more than one man in reserve. The great need is for more players putting in more time at practice. In the Mine-Elks game the latter led at half time by 6-4 only to lose out finally by 12-11, Lazoreck contributing 10 toward the Miners' total. Norton Youngs refereed both games. The teams were:

First Game, High School: I. Davies 8; C. Hill 3; S. Armstrong 7; F. Dodsworth: T. Calderoni 1. Total 19.

Oddfellows: J. Cloke; C. Dresser 4; T. Cloke; S. Steele 17; D. Wilson: E. Barclay. Total 21.

Second Game. Elks: Dodd 2: Steele 2; Lindgren 7; McColl; Somerville; Davidson. Total 11.

Mine: F. Anderson; J. Lazoreck 10; G. Allan 2; J. Chenoski; Mitchell; Legg. Total 12.

Large Number Attend Card Party

Twenty-eight tables were necessary to accomodate the players who patronized the whist drive arranged by the ladies of the Catholic Church on Monday evening. A large number came in later for the dancing which followed refreshments. Music by the Novelty Six Orchestra kept a large crowd on the floor to a late hour.

Those who won prizes were: Ladies first prize, Mrs. Lavery; Consolation prize, Mrs. Patrick.

Gents first prize, Mr Dunwoodie; Consolation prize, Mr. C. Comini.

Mr. Woods was tied with Mr. Dunwoodie and Mrs. Roberts with Mrs. Patrick. The winners were, accordingly, decided by lot.

M. Chenoski Wins Billiard Tournament

The Anyox Community League Billiard tournament concluded on Monday night when Mike Chenoski outplayed Don Cavalier 250 to 199. Chenoski conceded Cavalier fifty points. Entries for the Christmas Handicap may now be made.

Esperanza Will Operate The Coming Winter

Recent advices from the Esperanza mine state that a small crew will be engaged throughout the winter. In the spring it is planned to install a compressor plant and also a concentrating mill. The working force will then be considerably increased.

Choral Society Will Donate To Hospital

At a recent meeting of the Anyox Choral Society it was decided that as the money derived from the two concerts recently given was insufficient to make a suitable donation to the hospital, that a concert should be given about February the 10th., the total proceeds of which should go to that organization.

ALICE ARM NOTES

W. McLeod left on Monday for Prince Rupert where he will spend a few weeks.

J. Calvin returned on Monday from a visit to Prince Rupert.

Mrs. H. F. Kergin left on Wednesday for Prince Rupert where she will spend a short time visiting her step-mother, Mrs. McCroskie.

Mr. and Mrs. B. B. Brock arrived on Thursday from Vancouver. They were recently married at the bride's home at Kelowna and will make their home at Camp 8. They were the recipients of many hearty congratulations upon their arrival. They left for Camp 8 yesterday.

A Card Party will be held at T. W. Falconer's hall this evening under the auspices of the Alice Arm Athletic Club. Arrangements will also be made for dancing. Admission 50 cents. Refreshments provided.

Divine Service was held at T. W. Falconer's hall on Sunday evening by Rev. W. B. Jennings. A large congregation attended and the service was much appreciated. Services will be held in T. W. Falconer's hall until the erection of a new church. This was Mr. Jennings' last visit until the spring.

Rod Campbell, an old resident of Alice Arm, died at Kamloops Sanitarium on Sunday. The cause of death was tuberculosis. Deceased was a native of Scotland and well known both in Anyox and Alice Arm. He was employed at Anyox mine for a number of years. He followed prospecting at Alice Arm where he owned several mineral claims. As far as is known he had no immediate relatives in Canada.

The El Doro cigar is unequalled in quality and price.

Circulating System At Library Discussed

The question of book reservations at the Anyox Community League Library was again discussed atthe last meeting of the Council. It was stated that some members of the League feel that better service would be obtained if there were no "reserved" books and if the books were loaned on a policy of "first come, first served." Members report that they often see a book being returned but upon requesting it they find that it has already been reserved for another reader. The use of the telephone in making reservations or in notifying would-be borrowers is denounced by some as a concession to a "privileged" class.

On the other hand it was argued that the reservation system guarantee that a member will eventually receive every book for which he enters his name, while, if the reservation system is abolished and the books are handed out to those who come first, members living at a distance will be handicapped. The wide-open policy favours those who live close at hand.

The Chairman of the Library Committee suggested taking a vote of the patrons of the circulation department to determine the wish of the majority. He said that the results of the poll would be available for the decision of the Council at the next regular meeting. The Council accordingly agreed to postpone action until December 11th.

The Community League Will Support Athletic Club

The Commnity League will support the formation of an athletic club and will supply the necessary equipment. A recommendation was made at the last Council meeting to spend up to $300 for gymnastic apparatus. Mr. J. Chenoski reported over thirty members of the league interested in work of this sort. There will be an organization meeting of all those who wish to take part in boxing, wrestling and physical exercises in Recreation Hall on Monday, December 2 at 7 p.m. This organization is open to all who have joined or will join the League.

Diamond Drill Finished On Wolf

The diamond drill that has been operated at the Wolf mine by the Britannia Mining & Smelting Co. Ltd., closed down the latter part of last week. Heavy snowfalls was the cause of suspension of operations. The drill was moved to the Toric mine, where several holes will be drilled in conjunction with other development work that is being carried on.

Christmas Festivities Provided League Members

The Council is making plans for the entertainment of members of the League during the Christmas season. Owing to the fact that the Pioneer Mess Committee has decided to hold its Christmas dinner on Monday, December 30th instead of on Friday, December 27th as previously announced, the Council has changed the date of the children's Christmas Treat to Saturday, December 28th. The children will be guests of the League at the Gymnasium in the afternoon from 4 to 7 and the Granby Company has donated all the necessaries for an attractive supper. When the games are over and justice done to the refreshments the children will be given free admission to the first show for which a specially attractive bill has been provided. The grown-ups will be entertained at a dance on the 23rd. For this event the Entertainment Committee of the Council is making most elaborate preparations. Non-members of the League will be charged an admission of one dollar, but those who can show a paid-up membership card will go in untaxed.

First Match Played Billiard Tournament

The first match in the newly organized billiard league was held on Wednesday night, bringing together the high lights of the Mine and the best talent from the Boiler Shop. It was an interesting exhibition and promises to afford good entertainment during the winter evenings. The fourth game of the match has still to be played. Scores were:

Mine

1.	Armstrong	85
2.	Card	150
3.	Hartt	150

Boiler Shop

1.	Wright	150
2.	Bell	147
3.	S. Peel	140

The members of the team which obtains the highest number of points during the season's play will receive prizes provided by the Community League.

CARD OF THANKS

To my many friends who rendered such valuable assistance during the sickness and death of my beloved mother, I wish to express my sincere thanks. Their helpfulness and kind expressions of sympathy are much appreciated.

W. A. Gibb.

Meeting Next Week I.O.D.E.

The regular monthly meeting of the Collison of Kincolith Chapter, I. O. D. E. will be held in the Union Church basement on Tuesday next, December 3rd. at 2.30 p.m.

E. MOSS, Editor and Publisher.

Tomorrow is the first day of December and only 25 days are left for everyone to complete their Christmas shopping. Early Christmas shopping benefits everyone, especially the buyer. When making your Christmas purchases early you have a larger stock to choose from, and you can make them without the usual rush and bustle that pervades every store a week or two previous to Christmas. Like letter writing, however, it is generally put off until the last minute, and of necessity it is done improperly. Shop early and watch the others struggle during the last days before Christmas.

Another thing that is of equal importance as early Christmas shopping is mailing your letters and parcels early to distant friends. A few weeks before Christmas the Post Office department is called upon to deal with abnormal conditions. The busy Christmas season for the Post Offices has already commenced and will intensify until Christmas Day. Although everything possible is done by the postal authorities to meet these abnormal conditions, congestions are possible. If you do not allow a little extra time for your Christmas card, letter or gift to reach your friends, it is possible that they will not receive them until after Christmas. Fifty per cent of the value of the gift and the happiness experienced by the recipient is then lost.

Don't fool yourself that when you send to the big city for your Christmas gifts that you are receiving a superior article. The local stores carry the same class of goods, and can satisfy your requirement. Spend your money in the town in which you are making your living.

A prospector on the Gold Coast, Africa, seeking gold dug a hole and uncovered manganese ore. Thinking it was iron ore, he passed it by. A geologist found the hole and realized the value of the ore. The spot has proved to be one of the largest and richest of manganese ore in the world.

Copper Market Remains Very Quiet

All producers adhere to the 18c. delivered quotation for all deliveries, with no indication that any change will be made for 1930 business. Sales were the smallest of any week since records have been kept. Some resale lots have been offered, and have been sold, at from 17¾ to 17⅞c., but the tonnage is insignificant. Consumers are curtailing operations to some extent and are buying copper only for immediate requirements. Most of them are finding that copper shipped to them in the last six weeks is going to last longer than they expected, and probably not a great deal more will have to be bought for delivery this side of January, though at recent rates of consumption a substantial additional tonnage would have been required. Producers are appreciating the true situation and are taking steps to curtail production to accord with the expected reduction in consumption, hoping thereby to prevent the accumulation of large unsold stocks of copper which might result in price-cutting. In October, copper production showed little change, if account be taken of the temporary curtailment at the Chrome refinery in September. Shipments were beyond expectations at 105,729 tons for domestic and 53,461 tons for export. American stocks of refined at 88,401 tons, dropped 6,350 tons, while blister stocks, at 254,948 on Oct. 31, gained 1,429 tons.

The foreign market is inactive at 18.30c., c.i.f. usual European ports, though sellers other than those associated with Copper Exporters, Inc., are shading prices to some extent.—Mining and Engineering Journal.

Premier pays a higher return than any gold mine in Canada. Its return is 13½ per cent on the present price: Hollinger, 11 per cent; Teck Hughes, 10 per cent, and Dome 10 per cent.

LAND ACT

Notice of Intention to Apply to Purchase Land

In the Alice Arm Division of the Land Recording district of Prince Rupert and situate about two miles up the North-east Fork road from Alice Arm, adjoining the North-east Fork of the Kitsault River.

Take notice that I, Cornelius Marshall Smith of Alice Arm, B. C., occupation, miner, intend to apply for permission to purchase the following described lands:—

Commencing at a post planted at the North-west corner of Lot 57, Kitsault Flats, thence 20 chains westerly; thence 20 chains southerly; thence 20 chains easterly; thence 20 chains northerly and containing 40 acres more or less.

Prosperity and Porter Idaho Ships

Stewart News

Another local property went into permanent production this week when the S.S. Griffco sailed for the south on Wednesday evening with something over 600 tons of high grade ore from the Prosperity and Porter Idaho properties. Owing to the big storms this week taking down all wires and hindering communication in the district, the exact details of this shipment have not been procured up to the time of going to press, but it is known that at least 600 tons were shipped from the tram terminal and bunkers at the Marmot river. Common report about town has it that the value of this shipment was in the neighborhood of $300,000, values being chiefly in silver and lead.

This is the first regular shipment to go from these two properties since the completion of the tram.

Mining Will Be Our Leading Industry

Barclay's Bank, which recently opened an office in Montreal, discussing "Canadian Development," said editorially in a recent issue of its Monthly Review:

"As development proceeded, mining operations followed, and as a result of the growth of the population and the great mineral resources which have been discovered, a substantial number of manufactured articles is included in her exports. Great as are the potentialities of agriculture and forestry, it is to mining and the industries arising as a result of great mineral wealth that Canada is looking for even greater future development."

The Stora Kopparbergs, a mining company of Sweden. has been producing gold, silver, copper and pyrites for 720 years without interruption.

Manufacture of Autos Greatly Increase

The increasing importance of the manufacture of motor cars and trucks in Canada is not generally recognized to the extent that probably this industry deserves. In an interesting statement on the subject, S. H. Logan, general manager of the Canadian Bank of Commerce, points out that the output of motors the 12 months ending August 31 was 16 per cent higher than for the calendar year 1928 and over 57 per cent higher than during 1927. The output was also 4 1-3 times that of 1921 and 16 times that of 1913. The average annual increase for recent years has been about 15 per cent. Export trade plays an important part in increasing production, as last year 33 per cent of the cars manufactured in Canada were sold abroad, the value exceeding $36,000,000; two-thirds of the output went to the British Empire.

Silver Market Still Weak

The silver market has again weakened as a result of a further decline in Chinese exchanges. Reports from abroad stated that although the Continent and India were buyers, the volume was not heavy enough to support the market. The London quotation of Nov. 11 of 22⅛d. is the lowest quoted since March 26, 1903, and the New York quotation of 49⅜c. is the lowest since Nov. 1, 1915.—Engineering and Mining Journal.

ADVERTISE IN THE HERALD

I. O. D. E. In Campaign Against Plague

Once again the I. O. D. E. is boosting the sale of Christmas stamps in aid of the campaign against the "great white plague," tuberculosis. These stamps are retailed at one cent each and add an attractive dash of color to Christmas parcels or letters. The individual cost is negligible but the co-operation of thousands makes possible the collection of a worth while sum to combat the ravages of this communicable scourge. The League Council has extended permission to the Kincolith Chapter I. O. D. E. to sell stamps to the patrons of the theatres as they leave the shows. In each of the theatres one of the medical staff will give, during the intermission, a short talk on this branch of humanitarian work. The Community League Council expressed hearty endorsement of the project.

Granby Co. In Strong Position

Nathan L. Ampster, Chairman of the Executive Committee of the Granby Consolidated Mining Smelting & Power Company, stated recently when announcing the increase in the company's dividend rate, that the company had four to five million dollars in cash as well as a working capital of more than six million. The company's earnings are at the rate of between $9 and $10 per share per annum. The income applicable to dividends for the first eight months of this year was $6.50 per share. The production of copper during the first eight months was at the rate of 61,000,000 pounds per annum.

Apprentice System To Come Before Legislature

To provide British Columbia with an assured supply of skilled labor, the Provincial Government is planning to ask the Legislature to pass legislation setting up an entirely new system of apprenticeship which would enable boys to apprentice themselves to employers for a number of years, depending upon the trade entered. The wages would be definitely fixed and the boy would be required to remain on the job until the period of training was finished.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that Britannia Mining and Smelting Co. Ltd., whose address is Alice Arm, British Columbia, will apply for a licence to take and use 50 cubic feet per second and to store 200 acre feet of water out of Trout Creek, which flows South West and drains into Kitsault River, about three miles North of Toric Mine.

The storage dam will be located at about 500 feet in elevation above the Kitsault River. The capacity of the reservoir to be created is about nine million cubic feet, and it will flood about eight acres of land. The water will be diverted from the stream at a point about one half a mile above the Kitsault River, and will be used for mining and power purposes upon the Toric Mine, described as Lot 935, Cassiar District.

This notice was posted on the ground on the 29th. day of October, 1929

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

BRITANNIA MINING & SMELTING CO. LTD., Applicant.
