5 cents each.

Beautiful Work Display At Arts and Crafts Exhibition

Anyox might well be proud of its second annual Arts and Crafts Exhibition, which was held on October 1st and 2nd in the Gymnasium. Last year's effort was excellent; this year's far outstripped it in variety and in the number of exhibits. It was a display which would have done credit to any city. The Community League are to be congratulated on the success of this venture, which is now an assured yearly event.

On all sides there was open admiration for the rare skill and painstaking work which was so evident. Even the school-children were not to be outdone. Grades 4 and 5 had prepared an Arab Home, complete with neat striped tent sewed by some industrious little girl. Grades 5 and 6 exhibited a Japanese Garden, and there were several dainty little vases decorated by school children.

Older folk had gone in for everything, from woodwork to woollen rugs. There were model ships and boats, and a coach which carried one back to Old England. A group of desirable little tables caught the eye, as did also a beautifully made cedar chest. A small box which was made by a boy of fifteen from Anyox cedar disclosed skill and care. Needlework abounded. Embroidered and crocheted bedspreads, cushion covers, table covers and runners were lovely to behold. Colorful Afghan quilts, beautiful tapestries, Chenille work, cross-stitch work, cut work, and other varieties of needlework vied with each other for attention. There were hook rugs and rag rugs which had been executed with wonderful patience; hammered brass work, painted china, basket work and fretwork the preparation of which almost amounted to genius. Displayed on the wall were photographs, paintings, etchings and sketches which were a joy and delight, and which reflects great credit upon their exhibitors.

The telephone rate between Alice Arm and Anyox over the Dominion Telegraph Lines is now 25 cents. The former rate was 50 cents. The new scale will be of great advantage to residents of both towns.

Expansion of Alice Arm Goes Steadily On

The mining industry is at a low ebb. The prices of all metals are at historically low levels, but the residents of Alice Arm are full of optimism for the future. When prices again reach normal levels this district will be active, and the permanent residents of the town are showing their faith in the district by erecting new buildings and enlarging existing ones.

W. B. Bower is constructing a new residence on his farm adjacent to the Kitsault bridge. Three rooms comprise the ground floor and there is ample space for a similar number upstairs. The building is being neatly finished both inside and out.

A. McGuire and family who operate a farm near the Illiance river recently moved in their large new residence. The walls of this building are composed of logs and is an imposing structure.

T. Calfa is busily engaged in adding 2 rooms to his residence adjoining the Herald Block on Victoria Street. This addition gives a much larger frontage to the building.

P. Morley also constructed a new residence during the past summer. It has an ideal location facing Victoria Street at the north end near the bridge.

Gus Anderson, proprietor of the Kitsault Cafe recently completed the construction of a building at the rear of the cafe. It will be used for storage purposes.

B. Turbitt has also recently completed the construction of a new barn on the north end of the Kitsault road. A blacksmith shop has also been installed for repairs on his cars, etc.

Several other people have also made minor improvements to their buildings.

Archie MacDougall Will Play For B. C. University

The B. C. University Football team, playing in First League Football in Vancouver and District, will include this year Archie MacDougall, Anyox full-back. From his consistent showing here during the past two seasons Archie well deserves a place on Varsity, and his fellow-players and all football fans in Anyox offer their congratulations and good wishes.

Dr. James and Sid Peters Will Play Golf Final

Local golf "dope" was completely upset on Sunday last, when the semi-finals for the Men's Open Championship were played. Contrary to general expectations, Gordon James beat C. O. Fricker, turning the trick at the twentieth hole. Jack MacConnachie defeated Fred Brown. In the game on Tuesday between James and MacConnachie the former won four up and two to go, and is now qualified to meet Sid Peters, the present holder of the championship.

For the possession of the Lovested Cup for the month of September, Captain Johnstone and Gordon James are tied. The play-off will be held shortly.

Directors of Esperanza Mines Visit Property

Norman Fraser, Angus MacDonald and Capt. Robert Fenton directors of the Esperanza Mines Ltd. arrived at Alice Arm on Monday and spent a few days here during the week examining the Esperanza mine, leaving on Wednesday. Capt. Fenton is an alderman for the City of New Westminster and it was his first visit to Alice Arm.

In regard to the re-commencement of operations at the mine, the directors stated that no immediate plans had yet been made, but it was hoped that definite plans for future operations would shortly be decided upon.

Prince Rupert Court Throws Out Case

The case against Anton Kostelet, who was charged with entering a dwelling-house by night with intent to commit an indictable offence, as reported in last week's Herald, was tried in Prince Rupert County Court on Wednesday before Judge F. M. Young, and was dismissed.

On Friday, October 23rd, the Catholic Ladies will try out the idea of holding a straight Card Party, instead of the usual Card party and Dance.

As an added attraction they will hold a Tombola, a prize being given for a lucky number appearing on some ticket amongst those given at the door. After the cards refreshments will be served. An active committee assures a good time for everyone.

Extensive Work Done On Govt. Telegraph Lines Locally

The government telegraph line between Anyox and Alice Arm and between Alice Arm and Aiyansh is in a better state now than at any previous time states Mr. J. C. Studdy, telegraph operator at Alice Arm.

This is due to the decision of the Government Telegraphs Department to give their patrons the best possible service, and at the same time relieve as much as possible local unemployment.

On the section between Anyox and Alice Arm, six men have been employed under the supervision of J. C. Studdy, for about six weeks. Over six miles of new line have been constructed, on which was used three quarters of a ton of copper wire. New poles have been provided and a new right-of-way cut. A new submarine cable has also been installed on the Granby shore. This cable eliminates a big overhead span which was an interference to navigation.

Between Alice Arm and Aiyansh seven men in charge of Wm. McLean have been employed for the past two months, and will complete their work next week. On this section 22 miles of new line have been rebuilt, necessitating new poles and right-of-way. Four miles of new galvanized iron wire have also been strung.

In addition to this work, H. B. Butler, operator at Aiyansh has also had a crew of men at work on the line between Aiyansh and Alice Arm. The extensive work done this year will eliminate many breakages from heavy snows during the winter months, and help to popularize the government telegraphs as a means of communication. The Telegraphs Department is to be congratulated also on their efforts to do as much work as possible this year. Those employed being in a better position to face the winter than otherwise would have been the case.

Basketball Games Commence

Basketball has started: Monday night saw several players at practice. Teams are being up and training has begun. A good season is promised.

Recent Happenings Around the Town Of Stewart

Dr. George Hanson, of the Dominion Government Geological Survey, having completed his work for the season in this district left to return to Ottawa. While in the district Dr. Hanson was engaged in special work on the gold formations in the Salmon River basin and did as well considerable geological work on the head of American Creek.

Asked concerning the sale of Dunwell machinery to the Bralorne Mines, L. S. Davidson, accountant of Dunwell stated that his company has sold Bralorne something in the neighborhood of 80 to 100 tons of machinery, from the Dunwell Mill, consisting of grinding, filtering and conveying equipment. Transported to the dock by the Crawford Transfer Co., this machinery will be shipped to Vancouver by the Coastwise Steamships.

The first shipment of concentrates was made from Big Missouri last week. This shipment which went south on the Catala Monday night, destined for Trail amounted to 112 tons of high grade gold concentrates, the exact value of which is not known. It is safe to assume however, that they ran high, for it is known that high gold values have been encountered in Big Missouri from time to time, during the development work, and that a considerable tonnage of lower grade concentrates have not been shipped.

Hector MacDonald, for 12 years superintendent of the Premier gold mine, has retired to reside in Vancouver. His successor has not yet been named.

Mr. MacDonald was one of the most popular mining men in the north and during his 12 years at the Premier became known to hundreds of British Columbia business men and others who visited the

Now Is The Time To Buy

There is no permanency to hard times. Depressions do not continue indefinitely. Anyone, who today has a few dollars to spare can pick up some wonderful bargains in many different lines. The Tendency, just now, is to keep a strangle hold on cash. But, anyone who can afford to, and does not make a few judicious investments is short-sighted. Now, and not when business is more active, is the time to buy. When trade languishes and people are prone to despair, spells opportunity. The foundation of many a fortune can be traced back to a period similar to what is prevailing in the world today.—Prince Rupert Empire.

Large Number Registered At Stewart

A total of 229 men have registered in the Stewart district for government relief work. Road construction camps are being rushed to completion, so that they can be taken care of.

mine. His departure from Premier, made necessary through ill health, was deeply regretted by the staff at the mine and by his friends throughout the district.

With a total vote of 115 the water bylaw plebiscite recently was defeated on a vote of 75 against and 37 in favor, with three spoiled ballots.

Inquiry made by the News, of the Stewart Public Utilities Co., after the vote would indicate that its defeat will not effect the position of the Company in so far as maintaining the present service is concerned, but that it has prevented further consideration being given to extending the domestic and fire supply. It seems that tentative arrangements had been made to extend these services, the result of which would have been better fire protection, with a possibility of reduced fireinsurance rates.

The Company states that during the past year the revenue has fallen off considerably owing to many consumers being unable to pay owing to conditions. The company however, has continued to supply water, rather than inconvenience users who are now adversely affected.

CANADIAN NATIONAL

Duthie Mining Company Shareholders Are Assessed 2c.

Unless shareholders on record as at September 19 come through to the extent of two cents for each share held, they stand to lose all their vested interest, according to a circular recently issued by the Duthie Mines Company. While the circular is dated September 10, it did not reach some shareholders until September 22, and this gave them very little time in which to make up their minds or make an appeal against the ruling of the directors at a meeting held in Vancouver on September 10.

It has been stated that while J. F. Duthie took up the mortgage of \$13,454.56 expiring on September 10th, there were some strong

strings attached, and from the notice arriving in Smithers it would appear that this consists of an ultimatum to shareholders to pay two cents per share before the annual meeting on September 30 to reimburse Mr. Duthie for his outlay made in the name "protecting the ordinary shareholders."

In addition to the sum mentioned above, there are other liabilities not stated in the list turned over to the Credit Men's Association, and which brings the total up to \$22,464.34. Included in the list are items of salaries due J. L. McEwen of \$750 and \$993.50 to A. G. Hattie.

"What is your lodger?"
"A great inventor."
"Really. What has he invented?"
"A new excuse every month for not paying his rent."

I. O. D. E. Hold Monthly Meeting

At a meeting of the I. O. D. E. Kincolith Chapter, on October 5th, it was decided to take in hand, on behalf of the Canadian Legion, the selling of poppies on Poppy Day.

Donations of clothing for women and children, Canadian Magazines and small gift items for needy people in the Peace River District are again requested. Such parcels marked "I. O. D. E." may be left at the Elks' Club up to October 15th.

Mr. Ed. Yard gave two enjoyable readings. Hostesses at the meeting were Mesdames Lang, McKay, Roy, and Bushfield.

Former Government Agent Will Marry

Word has been received that Mr. R. M. McGusty, formerly Government Agent at Anyox and now at Vernon, B. C., is to be married this week in Vancouver. His successor at Anyox, Mr. Hubert Campbell, who is now stationed at Smithers, accompanied Mr. McGusty to Vancouver to officiate at the wedding as best man. The many friends of Mr. McGusty offer their congratulations and best wishes to their former townsman, who was a popular and genial official.

Miscellaneous Shower For Bride Elect

On Monday evening, at the Catholic Hall, a miscellaneous shower was held for Miss Mary McGuire, whose wedding to Mr. James Donaldson, of Anyox, takes place on Saturday the 10th. The numerous gifts were presented to the bride-elect, on behalf of her many friends, by Miss Tobin. Court-whist was afterwards indulged in, Mrs. James Murdoch securing the first prize and Mrs. George Bailey the second. Mrs. C. Krusick won the Consolation prize. Appetizing refreshments were served.

ALICE ARM NOTES

C. W. Homer, provincial assessor, arrived in town on Thursday and is spending a few days here on business.

Mr. W. Bower arrived from Prince Rupert on Monday and is spending holidays here with his parents Mr. and Mrs. W. B. Bower.

A. Davidson, who has been doing considerable development work on the Summit property spent a few days in town during the week. He is now engaged in developing some of his other properties in the Upper Kitsault Country.

J. Strombeck, who has been developing a new silver-lead ore vein

on the Moose during the summer was a visitor to town last week-end. He left again on Monday and will continue development work as long as possible this year.

The Alice Arm Athletic Association will hold a card party at the Club House this evening, commencing at 8.30 p.m.

ANYOX NOTES

Mrs. D. P. Williams and children arrived from Vancouver on Monday.

Mrs. C. P. Ashmore and son arrived home on Monday from a visit to southern cities.

Mrs. J. Mikeli arrived on Monday from Prince Rupert.

Leaving on Monday for Prince Rupert, and returning on Wednesday were Mrs. Duncan Boyd, B. O'Neill, G. D. Svetih and Joe Lovesin.

Mrs. J. Plumb arrived home on Wednesday from Vancouver.

B. Sylvester arrived on Wednesday from Prince Rupert.

C. W. Homer, Provincial Assessor, arrived on Wednesday from Prince Rupert, and left on Thursday for Alice Arm.

Mr. and Mrs. Chillack returned on Wednesday from a visit to Prince Rupert.

Mr. and Mrs. W. B. Maxwell and son left on Wednesday for the south. Mrs. Maxwell will visit her home at Los Vegas, Nevada, and Mr. Maxwell will spend a short holiday in Vancouver.

J. Cesich left on Wednesday for a trip to his native land in Europe.
