## Foundry and Aces Win Games on Monday

Rovers fell sadly by the wayside in their game with the Foundry on Monday last. They could only accumulate 14 points against 34 by the moulders. Foundry were out in full strength, while the Rovers were minus the services of Thompson and though they tried their best, it was soon evident that they were outclassed. The showers awaited Yelland early in the second half and later they claimed Hamilton and Patrick. The teams: Rovers, Flye 6, Summers, Kirby 5, Cadillac, Kergin 3. Foundry: Scott 9, Patrick 6, D. O'Neill 8, Hamilton 5, Yelland 1, Parsons 5.

Aces gained another victory in their race for league honors by defeating Mine Girls 29-9 on Monday last. Although the Aces were in a scoring mood and could not go wrong, the Mine Girls were very unlucky in not making a much higher score, as on several occasions the hoop eluded them by fractions. E. Morris, formerly of the Spooks, has now donned an orange jersey and is playing a creditable game for the Mine Girls. L. Dresser was easily top scorer in the game with 14 points. The teams: Mine Girls, H. Caldeoni, J. Roberts 3, P. Arcott, E. Morris 4, Y. Cannon 1, B. Cannon 1. Aces: M. Dresser 6, P. Loudon 2, L. Dresser 14, J. Pinckney 2, A. Carrick, D. Rogers 4, H. Simpson 1.

## Anyox Notes

James Dixon, of the clerical staff left on Friday last for Vancouver.

A. Fors and B. Fueich left on Friday last for Vancouver.

C. Brewster and H. Jorgenson returned on Friday, from a holiday in the south.

J. Frances arrived on Friday from Vancouver.

Mrs. L. Gillies and children returned on Friday from a visit to Vancouver.

W. Feyer left on Monday for Stewart.

Jim. Wylie, K. Hamnla and L. McKeilich left on Monday for Vancouver.

Claude Reid left on Wednesday for Ocean Falls, where he will reside.

J. Cullingsford left on Wednesday for Victoria.

Miss Johanna Biglow left on Wednesday for Vancouver.

J. Campbell, T. Paton, M. Sommerville, and R. Sanderson, left on Wednesday for Vancouver.

H. Gentleman returned on Wednesday from a holiday visit to the south.

## Education Now Has A Special Week

Throughout the British Empire the value of education, is now being further emphasised by means of an "Education Week," the present week—February 6th. to 12th.—having been set aside for this purpose. In every country over which the British flag waves, the value and importance of education has been proclaimed from pulpits, platforms and the press.

The attention of parents has been specially directed to the need for making education attractive rather than uninteresting for the coming generation, and to this end Friday, February 8th. was visitors' day at the schools. At all schools, visitors—and especially parents—were cordially welcomed from 2 to 3.30 p.m. Parents especially should appreciate the fact that nowadays children have wonderful opportunities for acquiring an education along the best possible lines, and encourage them accordingly.

## Mr. Hector McColl Passes Away

News reached Alice Arm this week that Mr. Hector McColl passed away near Barkerville a short time ago. The late Mr. McColl was a former resident of Alice Arm, where he was well known and highly respected. The cause of death was not given, but it is learned that he suffered a paralytic stroke last year, from which, he had apparently recovered but it is possible that he was again afflicted.

## Tennis Players Hoping For Early Start

January was no sooner gone, than some youthful tennis enthusiasts were busy clearing the A. C. L. tennis court of snow. The quantity on the courts this year is somewhat light and given fine weather an early opening of the tennis season will be possible.

## Will Act As Ski Judge

Rolf Syvertsen of the Hidden Creek Mine Anyox, left on Wednesday for Smithers, where he will officiate as judge during the Western Canada Championships ski tournament there on February 13th. to 15th.

Stewart Steele arrived at Alice Arm on Thursday and is spending a holiday with Mr. and Mrs. J. Larsen.

## The Bulk of Canadian Copper Mined As By-Product

Almost every major ore body in Canada contains two or more minerals, so that base metal mining operations have resulted in the production of more than one metal. From the standpoint of the individual mine, there is a possibility of better balanced activity as a result of these combinations. When the price of one metal falls to unprofitable levels, or that of another shows marked gains, mining operations can be correspondingly adjusted. Thus, the Britannia mine at Howe Sound, found copper prices too low to permit continuance of former operations, but was able to begin working on an ore body with a low copper content and a relatively high zinc content combined with small percentages of gold. During the years of low copper prices, copper has been produced in Canada principally as a by-product in the recovery of other metals. The expansion of Canadian copper output has been the indirect consequence of increased production of nickel and gold. Thus the president of the International Nickel Company, in a recent statement to shareholders, said: "In extracting nickel . . . approximately two pounds of copper are recovered for every pound of nickel. This means that copper is now being mined at the rate of more than 200,000,000 pounds per year, as the direct result of providing the nickel now required in diversified industrial markets throughout the world."

The Rouyn area of Quebec is another famous example. Developed and originally organized for the production of copper, low copper prices and the increasing value of gold caused the main emphasis to be placed on gold production and copper was relegated to its present position as a by-product. Many of the Canadian mines produce small quantities of the precious metals—gold, silver, platinum and others of the platinum group—in their ordinary mining operations and the sale of these precious metals has permitted the maintenance of base metal operations during the depression.

The piledriver to be used in connection with the building of the float and approach at Silver City by Currie & Son of Prince Rupert, arrived at Alice Arm last week-end. Construction work is now in full swing.

## New Power Machinery Arrives for Premier

The Stewart News

Two tractors, with three sleighs each, left the dock at 9 o'clock this morning with some 35 tons of machinery for the new Premier power plant. In this load was included a 630 h.p. Fairbanks-Morse Diesel in two parcels, one weighing approximately 11 tons and the other 10, which had been unloaded from the SS. Griffco, that docked last evening and commenced discharging some 110 tons of power and electrical machinery for Premier, as well as some 20,000 feet of lumber and general cargo, at 1 o'clock this morning.

With her hoisting gear heavy in ice, these heavy lifts required expert handling.

With this shipment arrived the first unit and all the electrical equipment for the new Premier power plant, installation of which will commence immediately on its arrival at the mine, as many men being employed thereon as is found economically practical.

A second unit, of equal capacity, is expected to arrive here in two weeks time, with two weeks thereafter a third and similar unit.

## Great Basketball Exhibition On Friday

Anyone who was at the Gymnasium on Friday evening, February 1st. will tell you that they would not have missed those hoop games for anything. All three were an exhibition of great basketball, and nothing quite so good has been seen here this season. The Senior B game between the Foundry and Vandals B was closely contested every inch of the way and provided some surprises. The ladies' fixture was fast and resourceful, and the Senior A clash between the Vandals and Trojans was a great thrill for the fans.

Vandals B, out to avenge their recent defeat by the Foundry, put every ounce they had into the fray, but could not wear down the inspired leaders of the B League, Continued on Page 4

Rev. and Mrs. A. Abraham arrived at Alice Arm on Thursday from Anyox, and expect to leave again today. They were the guests of Mr. and Mrs. T. W. Falconer. Rev. Abraham held divine service at St. Michael's Church yesterday evening, which was greatly appreciated.

## Elks Defeat Vandals In Erratic Game

Lack of a full team was the undoing of Vandals A, in their game against the Elks on Monday last, when the antlered herd impaled them on the short end of a 32-26 score. The miners found it necessary to use some of their B men, players from other teams and even a couple of spectators from the sidelines. Even the Elks had to borrow another player, in order to finish the game with a quintette.

The game was full of excitement and several unusual situations arose which caused much merriment among the good-natured fans. One spectator who volunteered for service lasted about five minutes, after which the showers awaited him. Two or three others played in civies and looked more like referees than players, with consequent confusion among their team mates and opponents. Elks soon established a nice lead and kept ahead all the way. With Fred Calderoni absent and Tony Calderoni sent to the showers quite early, the scoring machine of the Mine was entirely out of gear. Kulai came through with ten points and McMillan added six. Gourlay also sank three nice baskets toward the close of the game. For the winners, Davies and McBryde divided honors with eleven points each. The former gave the Vandals a lot of trouble, while McBryde, a newcomer, has an eye for the hoop and uses nice judgement. Currie set a fine example to his team mates, turning in his best card for the season. Referee Gillies handled this ticklish and unusual game in a most efficient manner. The teams: Vandals, Kulai 10, White 2, McMillan 6, Saaman Gourlay 7, Hamilton 1, Cadillac, McClosky. Elks: Phillips 3, Scott 2, McBryde 11, Davies 11, Currie 8, Dan McDonald.

## Hoop Team Managers Should Field Full Teams

It has been suggested that in order to avoid possible misunderstanding and confusion, all basketball team managers should make an effort to have on the floor, before the start of the games, an eight-man team. This will do away with the need for calling in outsiders, and be much better for all concerned. It should always be kept in mind, that the public, upon whose support the whole interest of the game depends, should be considered first.

**The Alaska-Yukon Highway**

Senators and Congressmen of the western states of Washington, Oregon and California, and also Alaska are pressing their claims at Washington for appropriations to survey and build the Alaska-Yukon Highway. If they are successful, nothing can be done until a conference has been held with the Dominion Government, for the biggest portion must be constructed through British Columbia. The Canadian Government are no doubt watching events, and will wait and see just how much money the United States is willing to pay towards construction. Americans seem more anxious at present to build the highway than Canadians, and no doubt will be agreeable to pay the larger portion of money on it. It will connect two parts of the United States by road, which will be a big advantage to both Alaska and the U. S. A. Especially will it be important if the United States becomes embroiled in a war with Japan. The highway would also be a great asset to Canada. It would open for development a huge tract of territory rich in minerals, timber, water powers and scenery. Millions of tourists would travel over its surface, leaving money at every place they stopped. Its construction would absorb thousands of our unemployed and place millions of dollars in circulation. In case of a war, as mentioned above, it would help Canada just as much or more than the United States, for if the Japs ever obtained a foothold in Alaska it would not be long before the brown hordes would pour into British Columbia. In view of all the advantages to be gained, Canada should join with the United States in building the highway as soon as the latter is ready. It would not be for lack of money that Canada rejected the project for at present we are spending millions of dollars on our unemployed and getting very little in return.

**Alice Arm Branch Chamber of Mines**

Ever since the first wild tribes that roamed the woods and plains of the world organized and elected a chief, mankind has organized itself into tribes, states and nations for protection and expansion. Inside of these nations organization work continued, until, at the present time, every trade and business has an organization for the protection and welfare of its members,

**Decline In Earnings Of Howe Sound Co.**

An official statement to shareholders of Howe Sound Company, explains that the decline in earnings for the last quarter of 1934 in comparison with the preceding quarter was due to less units of zinc sold and decreased prices for all metals except gold and silver. Zinc sales dropped from 21,179,650 lbs. in the third quarter to only 4,016,047.

Copper sales, of chief interest in connection with the company's B.C. subsidiary, Britannia Mining & Smelting Co. Ltd., showed an increase from 2,591,846 lbs. to 3,644,661 lbs. Gold and silver sales were also higher. Gold sold, amounted to 3,450 ounces compared with 2,427 and silver amounted to 1,158,032 against 1,019,402.

Net surplus for the quarter amounted to \$318,813 compared with \$361,772 in the third quarter, or approximately 67c. per share against 76c. In the last quarter of 1933 earnings amounted 95c. per share.

Earnings for 1934 were reported at approximately \$3.57 per share compared with \$1.74 per share in 1933.

**Over 11,000 Voters In The Skeena Riding**

Voters registered in British Columbia last fall, for the forthcoming federal election totalled 375,844. The list for Skeena totals 11,362.

from the manufacturers' and bankers' associations down to the unskilled labor unions. Among the associations in British Columbia are the Fishery, Lumber, Agricultural and Mining. Among the latter's organizations is the British Columbia Chamber of Mines, which was founded for the purpose of expanding the mining industry in British Columbia. Now we are getting at the milk in the cocoanut. Alice Arm has a branch of the Chamber of Mines, but it is a very sickly one considering that this is purely a mining district. It has been kept alive by a few energetic members, but it must have more support to be of real value to the district. W. J. Asselstine M. L. A. addressed members of the organization a short time ago, and gave good and sufficient reasons why a strong branch was desired here. It is up to the people of Alice Arm whether we have a strong organization or not. Your support is needed. Are you going to give it or stand off and find fault with those who are trying to help better local conditions? Those who withhold their support are hurting the district and themselves. No one outside of Alice Arm suffers in the least.

There is no substitute for sincerity.

Peter (saying his prayers)—And please make Cyril give up throwing stones at me. By the way, I've mentioned this before.

Captain—Did you enjoy your leave, lieutenant?

Paymaster—Yes, but there's nothing like the feeling of a good desk under your feet again.

Man—He is not so big a fool as he used to be.

Friend—Is he getting wise?

Man—No, thinner.

**The Minerals of British Columbia**

This Province offers excellent opportunities for useful and profitable investment. British Columbia has produced OVER \$1,352,000,000 WORTH OF MINERALS.

The gross value of mineral production for the six months ended June 30th, 1934, exclusive of gold premium, is estimated at \$18,667,691.00, an increase of 50.5 per cent. over the estimated value of the production in the corresponding six-month period of 1933.

**GOLD PRODUCTION:** Gold production showed a decided increase; a total return in Canadian funds to the gold producers of British Columbia during the first six months for 1934 being approximately \$5,028,124.00, an increase of 81.3 per cent. over the return in Canadian funds received during the first half of 1933.

## The Lure of the Maritimes

makers from all parts of eastern Canada and United States. Their many sea-side resorts; quaint and beautiful little villages and snug towns dotted along the Bay of Fundy have a special attraction for those who wish to combine comfort with scenic beauty; golf and a wide variety of other sports with fishing and sailing; and the whole with modern and direct transportation.

St. Andrews-by-the-sea with its well known and excellent Algonquin Hotel. There, as at its more famous namesake in Scotland, is to be found one of the outstanding 18-hole golf courses in Eastern Canada where many a hard-fought championship has been decided.

Again, take Digby on the Bay of Fundy. Set in some of the most beautiful, old-world scenery

in Canada, the Pines, recently opened hostelry, offers a wide range of entertainment including tennis, golf, sailing, fishing, hiking, horseback riding, motoring, swimming either in the sea or in the salt water pool with plate glass windscreens and promenade for spectators nestling under the veranda of the hotel. Good motoring roads give access to scores of quaint little villages, some of them, in the Evangeline country, scenes of historic incident and tragedy. Here too, the modern autoist will often meet the old-world ox wain taking its leisurely way down the country road. Lay-out shows hand-spring dive into the Pines Hotel pool; Evangeline country showing church and statue at Grand Pre; and scenic views of course at St. Andrews.

The Maritimes hold a proud and well-merited place in tourist popularity as well as being a favorite territory for holiday-

## Youngsters Travel Alone

Loaded with a large paper bag, full of sandwiches and fruit, five young Canadian "voyageurs" are seen at Windsor Station, Montreal, where they more than enjoyed themselves while waiting for the train to take them to the Canadian Pacific liner Duchess of York and England. They are

Billy Anderson, 14, and his four sisters, left to right above, Ena, Blanche, Greta and Gwen. Greta, the youngest, is only six. Few youngsters of his age are ever called upon to chaperone four young sisters on a 5,000 mile journey, but Billy shouldered his responsibilities like a man. He was shepherd, guide and constant

census-taker of his little flock. The children are going to live with their grand-parents at Purley, near London. Canadian Pacific representatives and the Traveller's Aid Society cared for them en route. On board the Duchess of York the little girls were looked after by a motherly head-stewardess.

## Great Basketball Exhibition On Friday

Continued from page 1 who checked the billmen in a most thorough manner.

At half time the Foundry were nine points ahead, but the Vandals got going strong in the second stanza and were making fast time when the whistle showed the final score to be 21-15. Patrick Cloke and Yelland did great work for the monders.

The teams: Vandals, White, Heinekey 4, Powell, Southey, McMillan 11, Whitaker, Graham, W. Horne. Foundry: Scott 4, Patrick 10, Parsons 2, Cloke 4, Yelland 1, Hamilton, Deeth, D. O'Neill.

What's wrong with the Spooks? Where is the dash, speed and combination of last year's winners of the ladies' league? The O. K. is in their name but not in their play! And there's plenty of latent ability in that black-and-white lineup. In the game on Friday the 1st, the Aces were 12-2 at half time, and finally won by 15-5. The score does not indicate the play exactly, as the girls in black and white had tough luck at the basket.

Spooks: Gordon 2, Campbell, McDonald, Salmon 3, Eve, Glass.

Aces: M. Dresser 3, L. Dresser 4, P. Loudon 5, J. Pinckney, A. Carrick 1, H. Simpson 2.

A resolution of William Irvine, C. C. F. member for Wetaskiwin, to socialize Canada's banks, was defeated by the House of Commons this week by a vote of 89 to 12. Liberals and Conservatives combining against the C. C. F. members.

In the mining industry \$17,460,000 was added to the value of Canada's gold production in 1934 due to the average price for this precious metal increasing from \$28.60 a fine ounce in 1933 to \$34.49 in 1934.

It costs no more to be pleasant about it.

## Trojans Defeat Vandals In Hard Battle

Not for many a long day, has such a thrilling hoop tussle been seen at the Gym, as that between the Trojans and Vandals on Friday the 1st. At times it was a real breath-taker for the many fans.

Hearts stood still as the ball missed by fractions, or rolled round the rim and fell outside. Partisans were brought to their feet by the strategy and brilliance of their favorites. There was combined play by both sides. The speedy and almost uncanny passing of the Mine trio, was equalled by the ever watchful checking of the Trojans.

Bud Gillies, star shooter of the game, opened the scoring and established a lead for the Trojans, but the Vandals were soon close behind through the efforts of Fred Calderoni and Watson, both of whom played a brilliant game.

Vandals were unlucky to lose Tony Calderoni early in the second half, and Gourlay a little on, both via the shower route. The game was well controlled by referee Lazorek. The teams: Vandals A, T. Calderoni 2, F. Calderoni 8, W. Watson 11, Sanderson 1, Gourlay, McMillan 2. Trojans: B. Gillies 17, J. Gillies 2, Shields 3, McDonald 8, F. Dodsworth. Total, Trojans 30, Vandals 24.

## Premier May Take Over Another Mine

The Financial News. Toburn Gold Mines Ltd., subsidiary of Premier Gold Mining Company which in turn is controlled by American Smelting & Refining Co. of New York, has offered to undertake development of Bidgood-Kirkland Consolidated Mines Ltd., a neighbouring property in the east Kirkland Lake camp.

Basis of negotiations include an increase in the capital of Bidgood-Kirkland from 2,000,000 to 4,000,000 shares. Supplementary letters

## Canada In Race As 2nd. Gold Producer

Three years ago, Canada, for the first time, passed the United States in gold output, after running neck and neck for some time. This gave the Dominion a position next to South Africa in the gold columns.

For Canada the year 1934 represented a record in gold mining. United States production of the yellow metal also created a record, so far as value is concerned the total of \$107,631,700, comparing with \$101,035,700, paid for gold in 1915, the previous record year.

Canada and the United States are said to be battling for second place in world gold output, due to the absence of official reports on Russia's production for 1934. Last month the chief of the Soviet Gold Trust reported production to be 149 per cent. ahead of 1933, but official figures for that year have not been published. However, in 1932, Russia produced 1,990,085 fine ounces of gold.

On the basis of preliminary figures for 1934 it appeared that Canada's rank as second world gold producer is subject to serious challenge from the United States.

patent were secured to permit the increase, which was, in turn, ratified by the shareholders. Under the terms of the agreement Toburn Mines, Limited, will take down sufficient stock to give them a 60 per cent. stock interest in the company for a total of \$312,000 for the treasury. Toburn will also undertake to provide any further sums necessary to continue with the development of the property, if results justify, this to be repaid with interest at 6 per cent., out of the first profits from the operation.

The new general manager was inspecting the branch office. "How long have you been working here?" he asked the office boy.

"Ever since the day the boss threatened to fire me," replied the young man.

Claude—if you refuse me I shall never love another.

Maude—That's all very well, but does the promise hold good if I accept you?

Man—Do you allow your wife to have the last word?

Neighbor—She hasn't come to it yet.

Sunday School Teacher—Why in your prayers do you only ask for your daily bread instead of asking enough for a week?

Boy—So we can get it fresh every day.

Lieutenant (to midshipman who has entered the wardroom wearing a dirty collar:) "I say, young man, that's rather a dirty collar you have on, isn't it?"

Midshipman: "Dirty, sir? That collar was washed ashore."

Lieutenant: "Yes, I can quite believe it. Out of which wreck?"

A wife, like an automobile, is never appreciated until you've had one—and then try and get along without it.
