## Development of Saddle Property on Hastings Arm

Within a couple of months the Silver Crest Mines, Limited, will know what's what on its newly acquired Saddle property, which is situated on Hastings Arm, and owned by Chas Clay. It is proposed to sink two 50 foot winzes on the vein, a couple of hundred feet apart. This work will be started immediately, and should be completed in about a month. If the ore shows up as well at that depth as it does on the surface, a tram will be installed and shipping started.

Saddle ore is high grade, so there will be no lengthy wait for results. When "Duke" Harris was in Vancouver last month he negotiated this deal with the Silver Crest, and knowing the property he looks for something once work gets under way. Since his return north, he has sent down a fine sample of ore which has proved of great interest to mining men. The vein has been opened up on the surface for 300 feet.

P. E. Peterson, well known because of his connection with coast mines, is in charge of work on both the Saddle and the Portland Canal property, and will let contracts for the winzes. Powder has already been shipped. The government has made a grant of \$2,000 towards a trail between the mine and tide-water, a distance of about a mile and a half.

"Duke" Harris has been enthusiastic about the Saddle ever since he first visited it over a year ago, and he is sure he has an eye-opener for those interested in the Alice Arm district.

## Card Party Held in Aid of Christ Church Fund

A very successful and enjoyable card party was held at the home of Mr. and Mrs. A. R. Kent on Wednesday evening. The proceeds were given as a foundation of Christ Church Parish Hall Fund. The need of such a Hall being sadly felt.

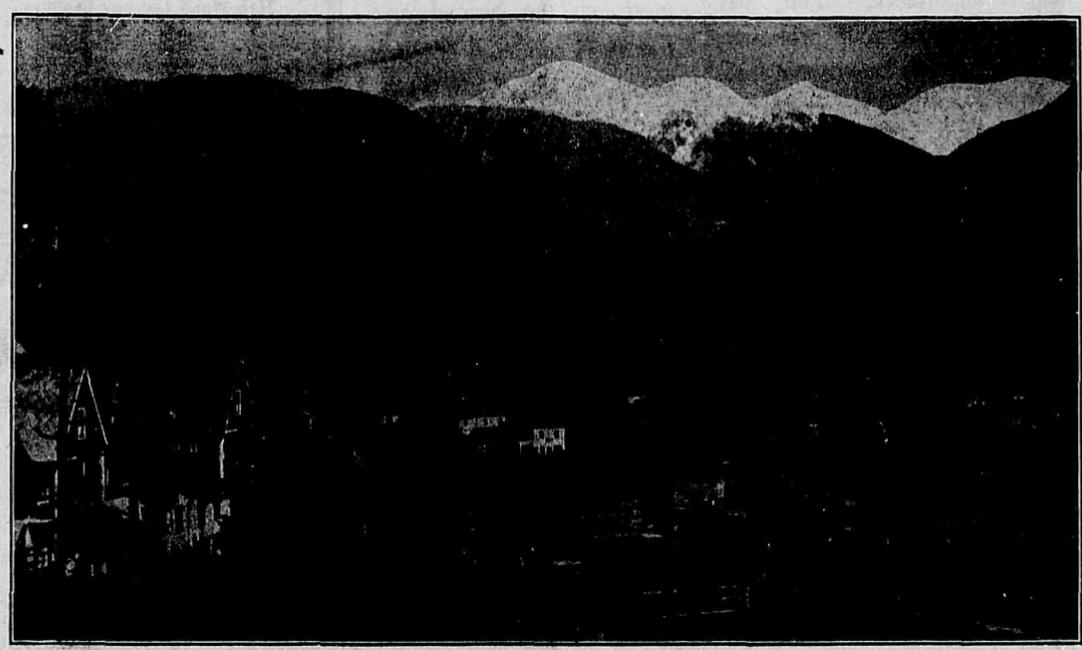

The prize winners were, Mrs. Cameron 1st. and Mrs. Cripps consolation. Mr. Upjohn 1st. and Mr. J. Dunn consolation. Refreshments were provided by the Christ Church Woman's Auxiliary, and were very much enjoyed.

Vocal selections were also a feature of the evening. Solos by Mrs. J. Dunn and Mr. Anderson being very much enjoyed. Great credit is due Mrs. Kent for her able management of the party.

## Christ Church Women Will Hold Sale of Work

The Christ Church Woman's Auxiliary and Guild will hold a Sale of Work in the Elks' Dugout on Saturday May 7th. at 2 p.m. Many good things will be offered for sale such as, Home cooking, plants, balloons and afternoon tea will also be on sale.

## A General View of Alice Arm

The big building on the left standing above the town is the Alice Arm Hotel. The Skating Rink is seen in the distance on the left, and the suspension bridge across the Kitsault River can also be plainly seen through the trees on the right

## Alice Arm Possesses Everything Necessary for the Making of a Large Town

Alice Arm as a mining camp of importance is rapidly coming to the front, and is receiving merited attention from influential mining companies throughout the world.

More development work will be carried on this year than ever before and this year will see the Toric concentrating mill in operation.

Properties that will be operated this year are the Red Point, Vanguard, Homestake, Copper Cliff, Toric, Esperanza, La Rose, Eagle, Silver Cord, LeRoy, Keystone, Devlin Zinc, and a tunnel 500 feet in length is also planned for the Bunker Hill.

The increased interest in the district's mineral wealth, of the past few years has been due chiefly to the singularly easy manner in which ore was encountered at the Toric and LaRose mines and the recent strike of ore at the Red Point has been conducive of increased interest.

The easy manner in which the big ore body of the Toric was located is one of the outstanding successes of mining not only of this district, but of the continent. A development tunnel was driven 215 feet in length when the foot wall of the ore body was encountered. A crosscut tunnel to the hanging wall showed the ore body to be 65 feet wide. The ore has been crosscut in several places and both the hanging and footwalls followed, and the result has been the development of an immense tonnage of ore. Values across the ore body are persistent, and of uniform grade. Silver is the principal metal and a concentrating mill will be operating this year. The largest portion of the mill is already on the ground and the balance will be placed in position as soon as weather conditions permit.

The successful development of the Toric is an example of the possibilities of the district. The management of the company are to be complimented on the successful development and operation of a property which may ultimately become one of the big mines of the province.

The successful development of the

big ore body on the Toric marked a new epoch in the history of Alice Arm, and following its success a development tunnel was driven on the LaRose, and ore was encountered almost as easily as on the Toric. Although development work to date has not located such a big body of ore an exceptionally rich vein was encountered. Development of this vein showed it to be persistent. A portion of it was mined and last fall 40 tons were shipped to the smelter, which gave returns of 177 ozs, silver and \$4.35 gold per ton. A large tonnage of milling ore lying alongside the high grade is known to exist, and further development will undoubtedly prove the La Rose to be a valuable mine. An option was taken on it a few weeks ago by an influential English mining company.

The recent strike of an ore vein ten feet wide during development work on the Red Point, again vividly brought to mind the richness of the Alice Arm district. This strike was unexpected, as an additional 100 feet at least is necessary before the main ore body can be tapped by the tunnel.

The Esperanza mine, is a "grass root" silver property one mile from the town of Alice Arm. No development work was necessary for the extraction of its ore. It has to date shipped over \$100,000 worth of ore, and will be one of the operating properties of the district this year. All work has been done so far by hand, and the ores extracted have been at a shallow depth. It has been learned from official sources that the company has been re-organized, and that a development programme on a much larger scale than heretofore has been outlined. The driving of deep tunnels will doubtless be instrumental in developing a large tonnage of both high grade and milling ore.

The Silver Cord, LeRoy and Eagle will be developed on a much larger scale this year, and each property has unlimited possibilities.

The tunnel on the Keystone will

be driven to the ore body this year, and crosscuts driven.

It is planned to continue the tunnel on the Devlin Zinc, and it is also understood that the Bunker Hill, which is situated near the La Rose, will see the commencement of development work this year.

All of the above mentioned properties are being developed by mining companies of Canada, United States or Great Britain, and the increase of properties operating shows that a much greater interest is being taken in the district.

Unlimited water power possibilities are found in the district.

Alice Arm has one of the finest deep-sea harbors on the coast.

There were 377 mineral claims on which assessment work was done in 1925.

Ore can be shipped by water to Anyox or Tacoma smelters, and later to Ladysmith.

The district possesses 17 miles of railway, 2 miles of automobile road, 53 miles of pack-trail and 12 miles of foot trail.

Alice Arm can truthfully state that no mining company has spent a large sum of money in developing a property that did not come up to their expectations.

Apart from its rich ore bodies, Alice Arm possesses other assets of considerable importance. On the extensive flats at the head of the inlet are hundreds of acres of rich agricultural land, and already a portion of this acreage is being brought under the plough.

The town and surrounding country is also considered one of the beauty spots of the northern coast. The magnificent scenery of the Kitsault and Illiance valleys is unequalled on the continent. Hundreds of Anyox visitors yearly visit the camp to explore its wealth of scenery, and gather the wild flowers that grow so luxuriantly on the hillsides and flats.

Alice Arm possesses everything necessary to make a town of several thousand inhabitants, and this ideal promises to be realized within a few years.

## Will Build Davis Raft to Carry Local Logs To Mills

Five men arrived at Alice Arm on Monday for the purpose of building a Davis raft of logs for F. L. Housley. The building of the raft was made necessary on account of the log carrying barges being unable to cope with the present heavy movement of logs on the coast. A large number of logs lying in the water at Queen Charlotte Islands are deteriorating through attacks by teredos, and the movement of these logs will keep the barges busy for some time. A number of local men will be employed on building the local raft.

## ALICE ARM NOTES

H. F. S. Woolverton, well known mining man of Vancouver arrived in town on Thursday.

Hand Laundry Work done at reasonable prices.—Miss B. Crawford, near Meat Market.

S. Briggs, who has been on the staff of the Toric Mines Co. Ltd. for the past year, left on Monday for Vancouver, where he will spend a vacation with relatives.

Miss Alice Hogberg arrived home on Monday from Prince Rupert, where she spent two week's vacation.

T. W. Falconer returned home on Monday from a visit to Mrs. Falconer and family at Vancouver.

M. Day, H. Day, J. Loftus and J. Johnson arrived on Monday from Vancouver for F. L. Housley's logging camp.

W. A. Wilson left on Monday on a business trip to Prince Rupert, which may be extended to Vancouver.

A. C. H. Gerhardi, managing director of the Toric Mines, Ltd. left on Monday for Vancouver.

J. Calvin left on Monday for Prince Rupert.

The old Post Office Building, one of the early buildings of the town was demolished this week, and the office building of the Alice Arm Freighting Co. will stand on part of the ground formerly occupied by it.

A portion of the lumber for the new general store building of T. W. Falconer arrived on Monday, and construction of the building was commenced this week.

Rev. Father Champagne of Anyox arrived in town on Tuesday and held morning mass at the residence of Mr. S. Dumas on Wednesday and Thursday morning at which there was a large attendance. He left for Anyox on Thursday.

The Herald is doing its utmost to give all possible publicity to the mining industry of the district, and we believe that we are getting results. If anything happens in connection with mining it is immediately published in the Herald. In this way the news is distributed throughout the continent. We believe that it is due to the efforts of the Herald that the name of Alice Arm has been kept alive during the past six years, and we further believe that our efforts are appreciated by our readers. It must be borne in mind, however, that it costs considerable money to publish a weekly newspaper even the size of the Herald. We have received liberal assistance in the past, and in order to carry on, patronage of the paper, both by advertisers and subscribers must be forthcoming. When new money is brought into the camp for the development of mining properties everyone benefits, directly or indirectly, and in all fairness everyone should help support the weekly newspaper. We have always endeavored to give our readers the actual facts, when publishing mining articles, and any reports received by us that do not ring true, are refused publication. In supporting your weekly newspaper you are doing your part in helping to advertise our vast mineral wealth, whose successful development will mean increased prosperity for everyone.

The weekly newspaper, unlike the metropolitan daily, has a peculiar place in the home. It becomes a part of the family, because its news stories concern the activities of the home town folks, and what deeper interest could be developed than among those with whom we live and move. The community is the ante-chamber of the home, and the weekly newspaper the avenue that leads from one to the other. Our message is this: Give to your newspaper co-operation. Results will come back to you in a community asset—a wide-awake, forceful influential newspaper, and a power in influence for good in your community.

The common or garden variety of householder is now coming into his own. Others may shine in the various other seasons, but when April comes, with its promise of May and June, then the man who knows how to do things around the yard becomes a citizen of paramount importance. You may know a lot about your profession, but what do you know about seeds and bulbs? If you can make two potatoes grow where none grew before, or can induce a green onion to bob itself above the ground where before was only grass, you are a worthy citizen.

If you can't boost the town you live in, then move to a town you can boost. The man who is living in a town he can't help along, and do something for, is out of harmony with things. He is losing time and ought to move.

Co-operation put the unity in community.

Ores and chemical raw materials containing \$150,000,000 in gold, silver, lead, zinc, copper, nickel, asbestos and other metals or chemicals are sent out of Canada yearly to be manufactured in the United States. Twenty-five millions are spent in the Dominion producing these ores and chemicals, while American labor, business, transport and manufacture are benefited to the extent of \$125,000,000 or \$130,000,000.

Sir Wilfrid Laurier's government gave something like two millions in the shape of bonuses to build a big metallurgical works on the banks of the Columbia. These metallurgical works are now contributing in taxes yearly, directly and indirectly, to the Dominion government more than all the subsidies received and three-fold more in income tax than all the farmers of Canada pay.—Mining Truth, Spokane.

**Great Britain May Appoint High Commissioner**

Great Britain may appoint a representative to Canada to act in almost the same capacity as the minister who was appointed from the United States, Premier King stated in the House of Commons. The Premier said that the British representative would probably be a "high commissioner to Canada."

The use of aerial photographs in the mapping of the mineralized areas of Canada, has been one of the most important applications made of aerial photography in the Dominion. During the season of 1926 over 36,000 square miles of such area were photographed.

One sign of ignorance in a man is a constant itch to argue.

**The Mineral Province of Western Canada**

Has produced Minerals as follows: Placer Gold, \$77,663,045; Lode Gold, \$122,808,459; Silver, \$74,111,397; Lead, \$89,218,907; Copper, \$197,642,647; Zinc, \$39,925,947; Miscellaneous Minerals, \$1,594,387; Coal and Coke, \$273,048,953; Building Stone, Brick, Cement, etc., \$44,905,886; making its mineral production to the end of 1925, show an

**Aggregate Value of \$920,919,628**

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; 1921, \$28,066,641; for the year 1922, \$35,158,843; for 1923, \$41,304,320; for 1924, \$48,704,604, and for 1925, \$61,492,242.

**Production Last Ten Years, \$404,649,375**

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing  
**THE HON. THE MINISTER OF MINES,**  
 VICTORIA, British Columbia

**SYNOPSIS OF LAND ACT AMENDMENTS**

**PRE-EMPTIONS**

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stampage.

**HOMESITE LEASES**

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

### Over Five Million Bushels of Grain Shipped Prince Rupert

The Alberta Wheat Pool has loaded twenty-two ships with wheat from the 1926 crop at Prince Rupert and expects to bring the total up to twenty-four before the crop movement is ended this spring.

The Alberta Pool terminal at Rupert has already handled 5,188,000 bushels within a few weeks. This is a larger total than was anticipated last fall.

The Prince Rupert house was built and owned by the Canadian Government, has a capacity of 1,250,000 bushels and is probably the fastest handling terminal on the coast. It is under lease to the Alberta Pool for a term of two years.

Through the Pool's extensive operation, the ocean freight differential has disappeared and grain is shipped to Europe from Prince Rupert at the same rate as from Vancouver.

Of the twenty-four ships already loaded or committed, six carried grain to the Orient and eighteen to Europe.

### New Regulations Regarding Fires in Woods

A recent amendment to the "Forest Act" provides that no person shall while camping, picnicing or engaging in any similar outing in any forest or woodland, whether for purposes of business, recreation or otherwise during the close season set out start or kindle any fire for cooking or obtaining warmth with out first obtaining from the Forest Branch or from some person authorized by the minister to issue permits a written permit authorizing the setting out starting or kindling of such fire: and every person setting out starting or kindling any fire pursuant to a permit so obtained shall totally extinguish the fire before leaving the vicinity of the fire.

### B. C. Chamber of Mines Acquires Additional Space

With the moving out of the Vancouver publicity bureau from the building now occupied by the B. C. Chamber of Mines, much additional room will be afforded for the display of ores, office accommodation and reading room for mining men. The B. C. Chamber of Mines has long labored under insufficient accommodation, and this increased office space will give it greater opportunity for its useful work.

### Names of Delinquent Tax Payers Will be Published

It is announced at Victoria that in the future two years after the taxes became delinquent, notices of unpaid personal property and income taxes will be published, including a complete list of the names and addresses of the persons liable to pay the taxes. This will be done unless a satisfactory undertaking has been entered into with the provincial collector for the liquidation of such arrears.

Sometimes a floating indebtedness gets heavy enough to sink.

### Dunwell Producing 20 Tons Concentrates Daily

Operations at Dunwell are progressing very smoothly taking all things into consideration, such as breaking in a new mill and considerable new equipment, according to the manager, M. Little, who was in town during the week. Upwards of 20 tons of wet concentrates are being produced daily in three grades; lead, zinc and table. Two hundred tons of the lead and zinc concentrates went south last week and another hundred tons are now in transit to the wharf. The table concentrates, which carry a good gold value, are being retained at the mill for the time being.—Portland Canal News.

### B. C. Silver Develops New Ore Body

Major C. B. North, manager of the B. C. Silver, was in town last Wednesday and when asked by the News as to development progress, said that the property never looked so well, better ore than ever being encountered on the No. 4 level. A crosscut was driven from the bottom of the shaft 170 feet in a northwesterly direction to what has been considered the big low-grade ore body. Drifting on this for over 400 feet a splendid shoot has been opened at an additional depth of 175 feet, with high grade milling ore throughout its entire length, having a width of about 15 feet.—Portland Canal News.

### Canadian National European Tours

A maximum of travel through particularly interesting countries at a minimum of expense is provided in the Canadian National Educational Tours this summer through Scotland, England, France, Belgium, Switzerland and Italy.

Two tours have been arranged and sailing will be made from Montreal, July 8th, on the S. S. "Andania", direct to Glasgow. Very careful attention has been given to itineraries involved.

Tour No. 1 is a 37-day trip on sea and land, visiting important cities in Scotland, England, France, Belgium, Switzerland. All expenses, \$372.50, Montreal to Great Britain and the Continent and return to Montreal.

Tour No. 2 is a 51-day trip on sea and land, visiting in Scotland, England, France, Belgium, Switzerland and Italy. All expenses, \$501.00, Montreal to Great Britain and the Continent and return to Montreal.

There will be low excursion fares to the seaboard from points in British Columbia.

These tours will be personally conducted from Western Canada, and while overseas will be under the direct care and supervision of thoroughly responsible and reliable organization, fully qualified in every particular to successfully look after the interests of our patrons.

The sight-seeing programme is very complete and generous. Motor coaches and automobiles are freely used. All sight-seeing is well planned to save unnecessary fatigue and to see the worth while places within the time at our disposal. Competent lectures will reveal to our patrons the outstanding features, literary, historic, artistic, or scenic of the Old World centres visited.

Some men who stand on their dignity give evidence of not having much else to stand on.

Many a man falls into debt, but the process of getting out is usually one of crawling.

### NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Prince Rupert Land District, Recording District, District of Cassiar and situate and being part of the foreshore in front of Kshwan Indian Reserve No. 27 on the West Bank of Kshwan River, Hastings Arm.

Take notice that William P. Armour, of Prince Rupert, B. C., occupation, contractor, intends to apply for permission to lease the following described lands:—

Commencing at a post planted about 20 chains easterly from the S.W. corner of Kshwan Indian Reserve No. 27 and being on High Water Mark; thence South to Low Water Mark; thence easterly along Low Water Mark to the West Bank of the main Branch of Kshwan River; thence Northerly along the West Bank of Kshwan River to High Water Mark; thence Westerly along High Water Mark to point of commencement; and containing 160 acres more or less.

WILLIAM P. ARMOUR, Applicant.

Dated March 6th. 1927.

### PROVINCIAL ELECTIONS ACT

### ATLIN ELECTORAL DISTRICT

NOTICE is hereby given that I shall, on Monday, the 16th. day of May, 1927, at the hour of 10 o'clock in the forenoon, at the Court House, Anyox, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the said electoral district, and of hearing and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for other purposes set forth in the "Provincial Elections Act."

AND further take notice that on Tuesday, the 17th. day of May, 1927, at the hour of ten o'clock in the forenoon, at the Court House, Atlin, an adjourned sitting of the said Court of Revision for the like purpose will be held.

Dated at Anyox, B. C. this 7th. day of April, 1927.

R. M. MCGUSTY, Registrar of Voters, Atlin Electoral District.

ANYOX

**British Columbia May Have Big Floods**

British Columbia faces another great flood this year as a result of heavy snows all over the interior during the winter and spring according to reports received by the government. If weather conditions continue to prove unfavorable, something like the conditions of 1924, the year of highest water, may be expected.

**New Launch for Granby Co. Arrives in Anyox**

A craft that is an acquisition to Anyox waterfront, and which is attracting a great deal of attention is the new launch "Granby" which arrived from Prince Rupert on Sunday afternoon. She was built in Prince Rupert, and is 75 feet in length. She is equipped with a 4-cycle big Washington-Estep diesel engine, developing 120 h.p. She is fitted with all the latest appliances, such as electric water pump, and an electric winch for anchors. Capt Johnson brought her up from Prince Rupert.

**What about your Wife and Children if you get Sick or Injured Tomorrow?**

See Fred McLellan at the Beach, or Geo. Fowler on the Flats, or W. T. Tamkin at the Mine

Secure at once the best possible protection for your dependents

**Alice Arm Lots**

Now is the Time to Buy

Alice Arm will very soon become a mining town of considerable importance. The mining industry is undoubtedly on the eve of big developments, which means a big payroll and a much larger town. Increased activity will result in placing good residential and business lots at a premium. At the present lots can be secured at attractive prices and on easy terms

BUSINESS LOTS FROM \$200 TO \$500

RESIDENTIAL LOTS FROM \$200 TO \$300

Terms made to suit buyers. See Stephen Dumas, our agent, and build where you don't have to move.
