ALICE ARM, B. C., FRIDAY, JUNE 21, 1929

5 cents each.

Date of Visit Lieutenant Governor Has Been Announced

Definite news has been received that His Honor R. Randolph Bruce, Lieutenant-Governor of British Columbia will visit Anyox and Alice Arm next week.

The visit will be purely unofficial. The Lieutenant-Governor will be accompanied by his private secretary, A. M. D. Fairbairn, Olaf Hanson of Prince Rupert, and other citizens of that town may also accompany the party north.

At the present time the party is visiting Atlin and Telegraph Creek, accompanied by H. F. Kergin, M. L. A.

They will arrive at Alice Arm from Prince Rupert on board the launch, Granby during the forenoon of the 27th. A trip to the Toric mine over the Dolly Varden railway will be made during the day.

A reception will be given at the Alice Arm Hotel during the evening by the Alice Arm branch of the B. C. Chamber of Mines, who invited His Honor to visit the camp during his northern trip.

Everyone is invited to the reception. Refreshments will be served by the Chamber of Mines, and a dance may probably be held following the reception.

On the following morning at 9 a.m. the party will leave for Anyox where they will be the guests of the Granby Co. until Saturday evening.

The Lieutenant-Governor will have an opportunity of inspecting the most up-to date copper production plant in Canada, and doubtless will feel very much at home.

The party will leave Anyox at 10 p.m. on Saturday evening for Stewart, and on Tuesday noon will leave there for Queen Charlotte Islands on the return trip to Vancouver.

P. E. Peterson Inspects The Tiger Mine

P. E. Peterson, consulting engineer for the Utility Mines No. 1 Ltd., who are developing the Tiger property, arrived on Monday from Vancouver. He was accompanied by P. Price, who, in company with Mr. Peterson, will examine the mine. They left shortly after their arrival for the mine.

Mr. Price is examining the mine on behalf of Eastern capitalists. He also examined the Climax which is also controlled by the Utility Co.

You will not have properly celebrated the first of July unless you conclude the celebration by attending the Rose Dance at the Gymnasium. It is being given by the Anyox Branch I. O. D. E. It will be a splendid evening's entertainment.

Homeguard Developed By Radiore Prospecting

F. F. Clark and J. Reid, who are in charge of the electrical ore finding device for the Radiore Prospecting Co. arrived in Alice Arm from Vancouver on Monday and left immediately for the Homeguard property. They will thoroughly prospect the ground for ore, and the big ore bodies that are confidently expected to exist will be mapped out. Development work of driving tunnels can then be proceeded with. Results of the outcome of future tunnels thus being eliminated.

The Dalhousie Co. are the first in the district to take advantage of locating ore bodies by radiore prospecting and their policy will doubtless be followed by others.

A. C. L. Lending Library Will Open Evenings

By resolution of the Council the lending library will hereafter be open in the evenings five days a week from six thirty to eight thirty. On Wednesdays it will be open only in the mornings from ten to twelve. Members of the League are invited to suggest titles of books to be purchased and in this case the member suggesting a book will have first call on a book when it arrives. During the first month after a book arrives, the loan period is restricted to one week. The use of the lending library and the reading rooms is restricted to members only.

Rain and Repairs Halt Anyox Baseball Games

Rain and repairs to the baseball ground have occasioned a postponement of a few games, but it is hoped to proceed from now on without a hitch.

There is, unfortunately, no football league this year. An outdoor diversion is promised soon by the ladies who have arranged some baseball games among themselves.

Dr. Hanson, Geologist, Arrives At Alice Arm

Dr. George Hanson, of the Dominion Geological survey department, arrived on Monday from Ottawa. Dr. Hanson has spent several summers in the district, and this year he hopes to complete his geological survey of the district. A complete map of the active part of the camp will then be published, as stated in our last issue.

Anyox P. T. A. Hold Last Meeting of Term

The Anyox P. T. A. held the last meeting of the school year on Monday, in the basement of the United Church. Plans were made for the presentation of awards to pupils at the High School Social, towards the expenses of which the meeting voted ten dollars. For the rest of the evening the members enjoyed musical numbers. Those contributing, being Mrs. Dunn, Mr. and Mrs. Anderson and Mr. Ridley.

To the numerous guests refreshments of more than usual excellence were served. The President, Mrs. Gigot elicited from the Treasurer, Mrs. Patrick, that the association would begin the year with a substantial bank account.

High School Exams. Today

Matriculation examinations at the high school began this morning and will continue all next week. On Tuesday, Wednesday, and Thursday the pupils of Grade VIII will use the other room of the high school, with Miss Heaney supervising.

Next Friday most of the teaching staff will be passengers aboard the C. N. boat. The departure of Miss Hoadley will mean the loss of a company leader to the Guides.

Students Will Be Hosts

On Saturday night, the staff and students of Granby Bay High School will be hosts to patrons and friends. The party will be given in the Gymnasium, beginning at nine o'clock. During supper, prizes awarded by the P. T. A. will be presented.

ALICE ARM NOTES

Miles Donald returned on Monday from an extended visit to Vancouver and other southern points.

H. T. Airey, who was in charge at the Toric mine, left on Friday for the south, having been transferred to other fields of activity by the Britannia Co. B. B. Brock is now in charge of all operations.

A. Knox, superintendent at the Saddle mine, Hastings Arm, arrived in town during the week.

E. Olson of the Tiger mine arrived in town during the week and will proceed to Hastings Arm where he will develop his mineral claims.

W. McNeish, auditor of the Workmen's Compensation Board was a visitor in town over the week-end.

Fred Brown left on Friday for Prince Rupert. He is a director of the La Rose Mining Co. and on Monday attended the annual meeting held in Prince Rupert. It is expected that plans were formulated at the meeting for the further development of the mine or its transfer to a strong financial company.

Standing Of The Pupils Alice Arm School

The Alice Arm school closes on Monday for the summer holidays, and the children's big wish of the year for two months of freedom from school books will be realized. Today the children will be presented with honor rolls, and parents are invited.

Following is the standing of the pupils at the recent examination which closes the present term.

Grade VII. Lillian Moss, 71.3; John McGuire, 47.1

Grade VI. Barney McGuire, 65.5; Alma Evindson, 52.5.

Grade IV. Jerry O'Connor, 71; Leah Kergin, 66; Marguerite Moss 65; John Studdy, 60; Jean Sunberg, 54.

Grade III. Joan Trinder, 55.

Grade II. Hilda Moss, 73.

Grade I. Peggy O'Connor, 71; Anna McGuire, 69; John Sunberg, 69; John Thomas, 65; Bobby Beaudin, 52.

Tryout Baseball Match On Sunday

In connection with the choice of an all-star baseball team to go to Ketchikan on July 4th, a game will be played on Sunday. Dick Manning and Jack Cody will be the rival managers, and their line-ups are: Manning's: Deane, Ressler, Lazoreck, Whitehouse, Hardy, Baviani, J. Chenoski, Mattix, Cook, Knight, Peel, F. Anderson, Bartmann, Evans.

Cody's: Somerville, Hopkinson, Orr, Musser, McDougall, Allen, Chenoski, McColl, Swanson, Ballyntyne.

Mrs. Lang Entertains Members of I. O. D. E.

Members of Collision of Kincolith Chapter I. O. D. E. were guests of the Regent, Mrs. Lang, on Monday afternoon, to hear the report of the National Convention which Mrs. Lang attended last month.

Mrs. J. Wynne was welcomed as a new member. The Chapter is co-operating with the local post of the Canadian Legion in arranging plans for the welcome of His Honor Lieutenant-Governor R. Randolph Bruce.

BIRTHS AT ANYOX

Born to Mr. and Mrs. John McIvor, at the Anyox Hospital, on Tuesday, May 28th. a son.

Born to Mr. and Mrs. R. H. Adcock, at the Anyox Hospital, on Wednesday, May 29th. a daughter.

Born to Mr. and Mrs. Dan Sorrenti, at the Anyox Hospital, on Sunday, June 2nd. a son.

Born to Mr. and Mrs. Simon Peterson, at the Anyox Hospital, on Saturday, June 8th. a daughter.

Plans Ready For Anyox Dominion Day Celebration

Everything is practically in readiness for the big celebration of July 1st. at Anyox. As in former years the celebration will be in charge of the Anyox Community League and no pains will be spared to make it one of the best patriotic celebrations ever held.

Outdoor sports will feature the day's events. These will commence at 9 a.m. with a men's marathon race and finish in the evening at the conclusion of the field sports.

A baseball team from Ketchikan will play two games with the pick of Anyox teams. The first game will commence at 10.30 a.m. and the latter at 6 p.m. A fifty cent ticket gives admission to both games. Otherwise the cash admission is 50 cents for each game.

The day's celebration will conclude with a dance at the Gymnasium. It is sponsored by the Collision of Kincolith Chapter I. O. D. E. and promises to be among one of the best dances of the season.

It is hoped that everyone possible will join wholeheartedly in the celebration and endeavour to make it an outstanding event in the town's history.

Following is the programme of the Day's sports:

Marathon race for men, 9 a.m. Recreation Hall to Mine Apartments and return.

Marathon race for boys, under 16, 9 a.m., Recreation Hall to Beach mess and return.

Bicycle race final, 9.30 a.m., Flats bridge to general office.

In the afternoon sports begin at the ball park at two o'clock.

 E. MOSS, Editor and Publisher.

Next week His Honor R. Randolph Bruce, Lieutenant-Governor of British Columbia, will visit this district. This will be his first visit to the north coast, and we trust that he will find it both instructive and enjoyable. We believe that it is the first northern visit of any Lieutenant-Governor, and Mr. Bruce is to be complimented upon the initiative he has shown. The Lieutenant-Governor is one of the pioneer mining men of the province. He was operating the Paradise mine in the Kootenay before many of us hardly knew where B. C. was located, and also before many of our readers saw the light of day. In coming north he will be amongst mining men. He can talk mining from morn to night if he desires. We extend a hearty welcome to our Lieutenant-Governor, and hope that he will enjoy himself during his short stay and that he will have nothing but pleasant memories of his northern trip.

Rumors emanating from Victoria state that the Canadian Pacific Railway Co. intend at some time in the future to take over the Stewart Short Line railway. Similar rumors were rife over a year ago. It is very probable that the C. P. R. will sooner or later become interested in the railway. They will then build through to the Peace River country when the time is ripe. Until they have a northern outlet on the coast, they can not compete successfully with other railroads in the vast northern territory of British Columbia and Alberta. They are building a big railroad mileage in northern Alberta. These roads will eventually be linked up with the coast, and the C. P. R. will take a share of the vast tonnage offered for transportation.

Subscribe to the Herald

It has been pointed out to us that Alice Arm has many advantages over Stewart as a railway terminus. We undoubtedly have. Alice Arm has a better harbor; a better townsite, and the pass over to the Naas Valley is claimed to be far superior to the Bear River Glacier pass. We published these facts a few years ago, but no one seemed interested. If we wish the Engineering Department of the C. P. R. to investigate our advantages as a railroad terminus, we must point out these advantages and request an investigation of them. One man can not be expected to voluntarily shoulder the burden, and let others reap, where he has sowed, or endure the ridicule of failure. If we wish Alice Arm to become a railroad terminus, the citizens as a whole should support any efforts made in that direction.

Europe Buying Very Little Copper

Since the beginning of April metal markets in Germany as well in the rest of Europe have been very quiet. Prolonged sittings of the reparation experts at Paris, appreciable enhancements of money rates in New York, and the current difficulties in floating European loans across the Atlantic, distrust of the "managed" trend of metal markets on account of alleged arbitrary price fixing, the revival of metal bourses in Europe and even in New York, with some increase of bear operations, and many other factors, combine to make business men unusually cautious in making commitments. There is no doubt that the big blunders in driving the copper price to unforeseen heights which were a feature in the memorable month of March ought never be repeated if the very sensitive European markets are not to be shattered. Engineering & Mining Record.

The Poor Man Pays Tax

Whatever justification the government had in making some attempt to curtail speculation, it at least might have applied the incidence of the tax in such a manner that it would have affected all classes of shares equally. It did not do this, but left the poor man to bear the burden and the rich man to get off lightly.

For every ten men who think of an idea, only one exists who can carry out an idea.

Here and There

(319) The biggest shipment of live muskrats ever to be shipped from Canada, a thousand in number, were carried by Canadian Pacific Express Company from Oak Lake, Manitoba to Hamburg, Germany, recently. They were trapped in the breeding grounds on the Manitoba rat farm and shipped in boxes, each box holding twelve pairs. They were shipped on C. P. Freighter Beaverford from Montreal and the muskrats were in good condition with a minimum of casualties when they reached destination.

The Royal York Hotel, Toronto, largest hostelry and highest building in the British Empire, will be opened by His Excellency the Governor-General, June 11. The following day will be reception day for guests and the hotel is booked to capacity. The whole water front of Toronto is rapidly resembling that of New York with the building of immense structures of which this is the outstanding.

On the authority of an official report recently issued it appears that the bicycle is gaining in popularity in Canada. In 1928 production of bicycles in Canada reached a new record with the selling value of products 52 per cent higher than in 1927. Last year 27,999 wheels were sold valued at \$899,480.

Within the next few weeks the largest re-forestation venture so far made by the Ontario Government will be under way in the planting of 1,200,000 trees in the Thessalon district near the Soo. This is to be largely experimental and as a guide to schemes under contemplation for the future in different parts of Ontario.

W. E. Wilford will assume the title of purchasing agent, Canadian Pacific Railway, Toronto, according to an announcement recently given out by B. W. Roberts, general purchasing agent of the railway. Mr. Wilford will have most of the work in connection with the Royal York Hotel purchases. He joined the company as a clerk in the purchasing department in 1908.

Fourteen cases of orchids were carried from England to Japan recently under the auspices of the Canadian Pacific Express Company to the order of the Emperor of Japan, the Empress and members of the Imperial Court. They are sent out from England about three times a year and are highly prized by the Japanese Royal Family and Court.

A new wheat, known as R-49, may be the long awaited rust-resistant wheat. Canadian Government plant breeders have long been experimenting in an effort to develop a variety of wheat that will resist rust and at the same time be of high grade milling quality. Emmer, which is a rough, large, rather poor-yielding grain of the wheat family, which has seemed to be rust-resistant, has been crossed with Marquis wheat and the progeny again crossed with Marquis, resulting in a grain which is three-quarters Marquis stock. The plant breeders have carried on their experiments at the Manitoba Agricultural College and from as many as 86 strains developed R-49 seems so far to be the most promising.

Britannia Co. Developing Kootenay King

Development work is reported to be going ahead steadily on the Kootenay King 18 miles north of Cranbrook and six miles from Fort Steele on Wild Horse Creek.

Between 15 and 20 men are employed and the five claims of the group will be thoroughly explored this summer by means of diamond drilling, it has been announced. Already this property is well opened up by over 300 feet of tunneling.

Ore taken from the Kootenay King is similar in character, it is stated, to that of the Sullivan mine, which is the property of the Consolidated Co., at Kimberley, and from present indications the Britannia Co. has the makings of equally valuable property in this mine.

Will Diamond Drill Atlas Gold

Diamond drilling is to be done this season on the property of Atlas Gold and Copper Company, which adjoins George Copper, in the Bear River section of Portland Canal district. Atlas Gold may come into prominence, as the ore found on George Copper by Consolidated is close to the boundary of Atlas. Stewart, Batten and Associates will be in charge of the work.

Premier Stock Boosted As Good Buy

Considerable strength has been shown in Premier of late. It has always been a matter of surprise to brokers how the public have sheered off from this stock. It is without any doubt the most spectacular and profitable of all B. C. mines, with a record of \$13,000,000 in dividends, with a regular disbursement now of 6 cents a share per quarter, or 24 per cent. annually on its par value of \$1.00. True there have been fears that the mine is nearly exhausted, but the general belief prevails that it has still many years of life ahead, and that, before its ore has all been used up, additional adjoining properties will have been secured or developed to keep the entire organization and equipment operating. There is still a prospect that B. C. Silver may enter the Premier family and that some of the other neighboring mines may be consolidated under the same management.

Bayview, situated south of Stewart, is to resume development work again this summer. The company has decided to abandon the Arlington property in the Slocan, which it had optioned. Meantime funds amounting to approximately \$25,000 have been invested in diversified holdings of mining properties pending a final decision as to what will eventually be done with the parent Bayview claims.

Canadians Profit From United States Visitors

Tourist traffic brought \$250,501,000 into Canada in 1928, according to estimates of the Dominion Bureau of Statistics, an advance of nearly \$35,000,000 over the estimated amount spent in the country the previous year.

The increase was largely due to the heavy influx of motors from the United States.

Stewart Water Powers Will Be Developed

The water board last week handed down a decision by which the Northern British Columbia Power Company Ltd. will develop American Creek near Stewart to increase the Power supply of that town, and also to furnish electricity to the neighboring mines. Up to a thousand horsepower will be developed but in two or three years it is believed the mine will require a larger source of supply.

Mrs. F. Mattix and children left on Saturday for the south.

Mrs. M. Orchard left for the south on Monday.

P. Warren, who has been assisting at the Print Shop left on Monday for Vancouver.

Mrs. M. Todd was a southbound passenger on Monday.

Alex Rogers and F. Buckhill arrived on Saturday from the south.

Among those departing for the south on Saturday, were: G. A. Woodland, J. McLaughlin, J. Bodin.

R. Cathro arrived on Monday from the south.

Ed. Johnson, who has been spending holidays in Vancouver and other points arrived home on Monday.

Return Summer Excursion Tickets On Sale

The Canadian National Railways have now on sale very low Summer Excursion Tickets from Prince Rupert to Eastern Canada, United States, also to Edmonton, Calgary and Jasper National Park. Tickets can be purchased going and returning direct or via Vancouver. Full information from F. F. Brown, Agent, Anyox, or R. F. McNaughton, District Passenger Agent, Canadian National Railways, Prince Rupert.

Annual Report Minister of Mines For 1928 Issued

The Annual Report of the Minister of Mines for the year 1928 has been received. It contains a large amount of valuable information relative to the mining industry of the province, and will undoubtedly be in greater demand than previous years on account of the big expansion of the industry, and the eagerness of the big mining companies to acquire new properties for future use.

Developments of the North-western district, of which the Alice Arm and Anyox district form a most prominent part, on account of the big tonnage of copper produced has been described by Dr. H. T. James resident engineer for this district.

Dr. James in his introductory remarks deals extensively with the geological formation of the coast and the coast range batholith. In this coast batholith are located all the big mines of the coast from the Britannia at Howe Sound to the Engineer mine at Atlin.

In speaking of the Alice Arm district, after describing the Stewart district, he says:

"At Alice Arm is the Dolly Varden, now inactive but a property well worth investigation. Across from it is the Toric, one of the best low grade silver prospects in Northern British Columbia; adjoining the Toric is the Tiger, recently acquired by the Utility Mines (Number One), Limited; and within a mile of tide-water is the Esperanza group, a small high-grade silver property. Many other good prospects could be mentioned, but these are fairly well known and are sufficient to show what has been found in two short sections of the eastern contact zone".

Reports on various properties in the district are also given.

Through the agency of B. C. Chamber of Mines, a number of mining syndicates have been formed recently to develop promising properties. No stock is sold in these enterprises, each member of the syndicate bearing a pro rata share of the cost.
