Granby Co. Leads Way

Will Spend Large Sum on Construction Work

Copper Production for 1922

The Granby Consolidated Mining Smelting & Power Co,, who are the largest mining operatiors in the north, and who own the largest copper smelter in the British Empire, are consolidating their position for the future. By the time the present construction programme is completed, which will be early in 1924 the company will have spent a total of $1,200,000. The fact that such a conservative concern as the Granby Co. can see their way clear to spend such an enormous amount of money, speaks volumes for the future of the mining industry of the north, and is a sure sign that they contemplate operating for a number of years to come, not only the Hidden Creek mine but also other properties that can be developed into mines, in the rich, undeveloped mining district surrounding Anyox.

The new storage dam which is partially completed, will cost $500,000; the addition to the hydro-electric plant, at the No. 1. power house will cost $200,000, and the new concentrating plant will cost $500,000.

In an interview with the Herald, Mr. H. S. Munroe, general manager of the company stated that construction of the new concentrator will commence early in the spring. It will be capable of handling from 1200 to 1500 tons of ore per day. The ore to be treated by the mill contains too much silicas to be profitably smelted direct. Several million tons of this ore have been blocked out at the mine, and if other bodies are discovered in the future, additions will be built to the mill.

About 100 men will be employed upon the erection of the mill, which is hoped to be in operation by the beginning of next year. The operation of the mill will mean the closing of one furnace at the smelter.

Mr. Munroe stated that he hoped the Outsider property which is situated up the Portland Canal, and on which the company are doing development work, would be shipping ore to Anyox next fall.

Regarding production of copper last year, the Granby Co. produced 29,500,000 million pounds. The number of tons of ore smelted was 878,000 tons and 27,000 tons of ore from the Premier mine was also treated at Anyox.

In regard to the price of copper, Mr. Munroe did not anticipate any immediate increase in price, this being due to the fact that production is now greater than consumption. At the commencement of 1922 production was at the rate of 32,000,000 pounds per month, and at the present time, the production had increased to 120,000,000 pounds per month. He, however, felt sure that the Granby Company, having successfully survived the most critical stage, would without doubt continue to operate.

Hockey Games at Alice Arm

Hockey is the premier sport of the people of Alice Arm these days. Everyone is joining in the fun, and some good games have been put up by the local puck chasers during the week.

The ladies are taking a prominent part in the sport, and the game played last Saturday by the two ladies teams, Mermaids and Nymphs, was a thrilling encounter from start to finish. Throughout the game the Nymphs were the aggressive team. They played a dashing game, and deserved to win, and win they did, with a score of 6-2.

On Thursday, the ladies teams again clashed, and the ending thereof was somewhat different from the previous game. The Mermaids held the Nymphs from scoring a goal, while they placed the little black disc no less than three times into the net. The game was a hard, fast one throughout, and the lady stick handlers are rapidly improving,

Three League games were played during the week by the mere men. The first was on Sunday, when the Bears and Wildcats waded into each other for three full periods, at the end of which the score stood 3-3. Fifteen minutes overtime was played, but neither side could score, so evenly were the teams matched, and a thrilling game was finished with neither side claiming the victory. The Wildcats, however, were satisfied, as they obtained their first point of the season.

On Wednesday, the Cougars and Wildcats mixed things. It proved a disastrous day for the Wildcats, who were hoping to capture a couple of more points. The game was fairly even for two periods, when the score was 4-3 in favor of the Congars. but in the final period the Cats hopes and ambitions faded far, far away. The Cougars got their goat, and scored three goals, against the Wildcats 0, and the final score stood at 7-3.

On Friday, the Cougars and Wildcats again tangled up, and if the Cougars again expected to clean up their opponents, they were doomed to disappointment. For this was the day the Cats were out to win, which they did, and at the close of a hard fought game, they came out winners, with a score of 5-3. The Wildcats team showed a great improvement. They played better combination and their shooting was excellent.

Following is the standing of the teams:

	Won	Lost	Tied	Pts.
Cougars	3	2	0	6
Bears	2	1	1	5
Wildcats	1	3	1	3

History of the Dolly Varden Mine

Giving Discovery of Dolly Varden and Wolf, Development Work, Value of Ore Shipped, Transportation, Engineers Reports, Etc.

Continued from last week

As soon as the Taylor Engineering Company were awarded the mine by the government, they formed the Taylor Mining Company. Capital for this company was raised in Vancouver and Victoria, and on June 10th, 1919, the Taylor Company took possession of the property. On taking over the mine, they secured a property on which a large amount of development work had been done. The Dolly Varden Mines Company had driven 2086 feet of drifts and crosscuts, 280 feet of open cuts, and 898 feet of diamond drilling. Large bodies of high grade had been proven up ready for mining and shipping, and this the Taylor Co. proceeded to do with all possible speed.

The remaining 1½ miles of railway was finished. A tramway, 1900 feet in length was built from the mine to the railway. New buildings were erected, mining equipment and rolling stock for the railway was purchased—lots of which was useless and never used—and on August 28th. the first load of ore was shipped over the railway from mine to beach. During 1920, ore bunkers with a capacity of 800 tons, was built at the wharf, and a hydro-electric plant capable of generating 500 H.-P. was built on the Wolf property, and mining was carried on throughout the year.

From September 1st, 1919, to September 1st, 1920, the Taylor Company shipped ore which gave returns of 1,170,000 ozs. silver. The ore ran over 30 ozs. per ton. From September 1st, 1920, to the end of the year, 6,709 tons or ore was shipped, containing 423,952 ozs. silver, or an average of about 63 ozs. per ton. During the summer of 1921, 1874 tons of ore was shipped, yielding 45,648 ozs. silver, making a total of 1,639,600 ozs. and this at a time when silver was ranging over a dollar an ounce.

During the two years mentioned, when the high grade was pouring out in a steady stream, the Taylor Company were spending money recklessly, buying equipment for mine and railway and undertaking costly construction work, but the day of reckoning came, and in December, 1920, the mine was closed down, and the bright light of the Taylor Mining Company which flared up in June, 1919, was extinguished, and a property which

Continued on page 2.

Bobby Burns' Night Held at Anyox

The annual commemoration of the birth of Scotland's immortal bard, under the auspices of the Union Church, on Wednesday January 24th. at the Recreation Hall. Rev. J. Herdman occupied the chair.

An audience of about three hundred people had the pleasure of listening to some exceptionally good singing. The ladies desire special mention in this respect.

The Anyox Brass Band played better than ever before, and received a great ovation being called upon repeatedly for encores. Mrs. Lawrence reading was exceptionally good. Owing to sickness Mr. W. F. Eve was unable to appear, but the male end of the programme was well attended to. One in particular creating a sensation, wearing kilts showing white knees, and a black face. Piper McLennan in McKenzie Tartan Kilt, and Miss Edna Herrin, (Pupil of Mrs. F. M. Kelley,) gave the occasion a real highland flavor. The accompanists were: Miss Leitch, Miss Zeigler, and Mr. H. J. Southam.

Following is the programme.

1. Band Selection, Anyox Brass Band.
2. Solo, My Ain Folk, Mrs. Tamkin.
3. My Love is Like a Red, Red Rose, D. McKenzie.
4. Duet, Bonnie Doon, Mrs. Herrin and Rev. J. Herdman.
5. Reading, Spartacus to The Gladiators at Capau, Mrs. Lawrence.
6. Monologue, The Black Watch, Mr. Autterson.
7. Solo, Angus McDonald, Mrs. J. Conway.
8. Bag Pipes, Piper J. McLinnen.
9. Solo, Selected, Miss V. McKay.
10. Highland Fling, Miss Edna Herrin, (Pupil of Mrs. F. M. Kelley)
11. Solo, Loch Lomond, Mrs. S. Herrin.
12. Band Selection, Anyox Brass Band.
13. Solo, Bonnie Bessie, Mrs. Tamkin.
14. Bag Pipes, Piper J. McLinnen.
15. The March of the Cameron Men, Dr. McKenzie.
16. Band Selection, Anyox Brass Band.

GOD SAVE THE KING.

Death of Mrs. Geo. Rattray, of Anyox

On Monday, January 22nd, at the Anyox Hospital, after a lingering illness, Mrs. George Rattray passed away.

The deceased lady has resided in Anyox for the past four years, during which time she made many friends, who now mourn her loss, and extend sympathy to Mr. Rattray,

Mrs. Rattray was visiting her mother, Mrs. W. Bulloch, at Larkhall Lanarkshire, Scotland, when she was taken sick, and returned to Anyox last October. Since then she has been confined to her home and her health gradually failing, she was removed to the Hospital, where everything possible was done in hopes of recovery.

Deceased was 46 years of age, and was born at Larkhall Scotland. She leaves to mourn her loss, a husband, Mr. Geo. Rattray, of Anyox, her mother, and brothers and sisters in Scotland.

The body was taken south on the Prince George, on Thursday, for interment in Vancouver. Mr. Rattray accompanied the body to Vancouver.

A Funeral Service was held at the Union Church, on Thursday, at 3 p.m. Rev. J. Herdman and Rev. J. B. Gibson officiating. A large number of friends attended the Service. The pallbearers were: J. S. McDonald, J. Blaney, J. J. Miller, J. Munro, J. Buchanan, S. Jack.

A dollar never works harder than the man who made it.

The man that never made a mistake never did anything. The man that made too many, lost his job.

Learn to say No, and it will be of more use to you than to be be able to read Latin.

Sir Henry Thornton's Visit.

Sir Henry Thornton has paid Western Canada a visit, as far west as the coast. He visited Vancouver and like a good many more distinguished visitors he believed that as soon as he arrived at that town that his object was achieved, and that Vancouver was the only worth while town on the Pacific coast. He declined the invitation of Prince Rupert to visit that town, although it is the terminus of the Grand Trunk Pacific Railway system. He spent considerable time in Vancouver, listening to the pleas of the Board of Trade, but the plea of Prince Rupert was ignored, and Sir Henry goes east with his visit only half completed, If he intends to familiarize himself with the whole of the Canadian National Railway system, he should at least, visit the stratagetic points of the system. and Prince Rupert is one of them.

History of the Dolly Varden

Continued from page 1.

should have been a steady shipper was closed. Mr. Taylor tried frantically to obtain money to carry on operations, but failed, and except for the shipping of 1874 tons of ore, which contained 45,648 ozs. silver, in the summer of 1921, and a small amount of development work, no other work has been done on the property. The Taylor Company failed to extend the railway to the Wolf and that property is in the same condition as when taken over by them.

That the operations of the Taylor Company have been detrimental to the mining industry of Alice Arm, is well known by all who are acquainted with the facts, and the failure of that company to successfully operate the richest known property in the district, is a blow from which Alice Arm will take time to recover. The failure, however, was not the fault of the mine but was due purely to mismanagement, over optimism, and lack of knowledge regarding mining.

With the passing of the property under control of Mr. Geo. Wingfield, who is a successful mining operator of Nevada and Colorada, better times can be looked for. It is understood that a new company has been formed, and although at the time of writing, no definite programme has been issued by the company regarding what work will be done on the Dolly Varden and Wolf properties this year, there is no doubt that development work will be carried on. It is claimed by those acquainted with the Dolly Varden, that considerable quantities of high grade ore are in existence in the present workings of the mine, and also large bodies of secondary ore, which can be profitably mined, whenever a concentrating mill is in operation in operation in the upper Kitsault country. The Wolf also contains large bodies of ore that can be profitably treated by a concentrating mill.

That sane mining methods will be employed by the new company is a foregone conclusion, and with these methods being carried out, Alice Arm has no need to fear for the future of the mining industry.

Vancouver, B. C.

Copper

Boston wires—New Cornelia Mining Co. December output was 3,256,547 pounds of copper. Calumet and Arizona Mining Co. output during December totalled 3,582,000 pounds of copper. The Old Dominion Smelter output for December was 2,180,000 pounds of copper.

The deal under which control of the Chile Copper Co. will pass to the Anaconda Copper Co. virtually has been consummated and a tentative plan worked out for financing this and other requirements of the latter Company. The transaction is understood to involve the purchase by Anaconda from the Guggenheim interest of 2,000,000 shares of Chile copper at $35 a share, a total of $70,000,000.

Anaconda will acquire between 2,000,000 and 2,200,000 shares Chile Copper from the Guggenheims, paying them $35 a share in cash for their holdings. How much more than 2,000,000 shares Anaconda will acquire from the Guggenheims will depend on amount of shares Anaconda will have acquired in open market at the time that it exercises its option.

Oil

Houston, Texas—Houston Oil Co. has made a three year contract with St. Louis South Western Railway for 3,000,000 barrels of oil at 73 1-2 cents per barrel. Most of the oil comes from Smockover, Arkansas field.

Royal Dutch making good progress in Venezulan fields, With its far flung fields of production it looks as if the Shell Group of London is the largest oil concern in the world, even surpassing the Standard Oil group.

New York—Standard Oil Company of California and Associated Oil Company are preparing drill for oil at Portage Bay, Alaskan Peninsula. The scene of operation is at Pearl Creek Dome, 17 1-2 miles North-East of Kanatak, where drilling is expected to start before the Spring of 1923. Only oil produced in Alaska in 1922 was from eleven small wells in Katalla field which supplies the local market witn gasoline.

Tampico, Mexico—Mexican Seaboard Oil has brought in Well No. 25 in the Toteco pool of Mexico with initial production of 4000 barrels per day.

Detroit, Mich.—Henry Ford produced a total of 1,352,000 cars in 1922 against 928,750 in 1921. Tractor production at Detroit and Cork, slightly in excess of 60,000, against 36,878 for 1921.

It looks like a race between the oil companies and Henry Ford, with the odds in favor of Henry.

London Cables—The £850,000 stock of Anglo-Persian Oil Company is being issued at £3 15s. per share. The shares being underwritten at 2 per cent. commission on the issue price.

American Syndicate is preparing to spend £500,000 to build new hotel in Manchester which would occupy whole of Victoria block in centre of town.

Mining

Howe Sounds's new 2500 ton concentrator will shortly get into action. This is the largest mill under the flag. Capacity of the property is estimated at 40,000,000 pounds of copper per annum. Howe Sound (Britannia

Beach) has entered into a ten year contract with the B. C. Electric for 6000 H. P.

Greater interest being manifested in Granby. New York specialist is of the opinion that Granby's future is as a custom smelter to handle ore from the great properties now developing in Northern British Columbia.

Indications are that the Premier will easily outstrip the Hollinger in 1923 in gold production, and that when the mine is in full swing, the record of the great City Deep and Modderfontein properties in Johannesburg will go by the board.

Reports are that the Premier is not the only good property in the North to re-establish B. C's mining reputation.

You may give until you are rich and keep until you are poor.

Silverado Mine at Stewart, Bonded

The Silverado mining property at Stewart, has been bonded to the Silver Bell Mining Company, of Seattle. Tenders are now being called for a 100 foot extension of the present tunnel. The Silverado is owned by John Haahti, and a bond was taken on the property by J. J. Couglan and associates in the fall of 1921. They did considerable work on the property, closing down last spring, and the bond expired on December 31st.

The property is situated above the mouth of the Bear River, near the town of Stewart, at an elevation of some 4000 feet.

Fifteen mining properties are at present operating in the Stewart district, against four last winter, an increase of practically 400 per cent. in twelve months.

In the eyes of some Vancouver citizens, British Columbia is composed of Granville and Hastings streets.

If the real estate boosters of Vancouver succeed in persuading Sir Henny Thornton to move the Prince Rupert drydock to Vancouver, there is always a possibility of them persuading John Oliver to pass a special Act, so that the Hidden Creek mine at Anyox, the Premier at Stewart, and a few more good payroll mines in the north be moved to Vancouver.

The most troublesome load to carry is a bundle of bad habits.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Union Church Services, Sunday, January 28. Sunday School 11 a.m. Evening Worship, 7.45 p.m. We extend a welcome to you.

Ralph Cook and T. Singleton returned from Vancouver last week.

Billie Legg, Chairman of the Mine Club dances, has resigned his position as such, and wishes to thank all those who gave their assistance to make the various dances a success.

J. Pinder-Moss, Director of the Northern Polytechnic Institute, arrived from Prince Rupert on Monday, on business in connection with technical classes at Anyox.

D. M. Stewart, of the Great West Life Assurance Co. went south on Thursday, after a very successful business visit.

The Polytechnic Institute announce that a dressmaking class will be started February 5th. Mrs. Walter Simpson will be the instructor. The class will meet in the A. C. L. Rest Room. Intending students may enroll with Mrs. Simpson or J. W. Esplin.

Owing to lack of space a few items are held over until next week

A big birthday party was held at the home of Mr. and Mrs. J. T. Wilson, of the Mine, on January 11th. The occasion being the 21st. birthday of their eldest son Ted. Thirty guests sat down to a first-class supper, after which cards and dancing were indulged in until the early hours.

Anyox Basketball

The basket-ball season started on Wednesday January 24th. when teams representing the Mine and Smelter met in the Mine Gym. in a friendly game.

The gallery was well filled with fans, many of them of the fair sex, who witnessed a game which was at times fast and exciting.

The teams were well matched and when a few on either side get trained down a little, a very good class of ball is looked for. Both sides had their share of the game, as is signified by the close score of 34 to 30. The hill dwellers who were on the home ground coming out on the long end. The line up of the teams and points scored by the individual players is as follows:

Mine		Smelter	
Corckle	3	Berry	6
Ferguson	4	Hunter	2
Stewart	10	Wooster	0

Simmons replaced Berry at half time. Referee: Art Hutchison.

The League games will start at the Beach Gymnasium on Monday night. Four teams are entered: Mine, Elks, Catholic Club, Smelter.

A KICK

Anyox, B. C.,
January 25th.

To the Editor
of the Herald.

Dear Sir:

Can you spare a small space to allow me to correct an erronous impression, which your readers are very apt to gather from a statement published in your paper under date of January 20th, in respect to my actions which I took by putting two slides on the screen, in the Anyox Recreation Hall. It was the only medium by which I could inform the General Public of the actions of the "Calamity League Council" to the methods the said Council resort to. As a matter of fact, the whole question of the Licence proposition was previously cut and dried before coming up at the meeting and it was absolutely railroaded through, without even putting before the meeting. As I interrupted the Chairman in so doing on two occasions, and the discussion continued until the Chairman went on with other business, without putting it to the meeting of the "faithful five." What's happened to the other 6 or 7 Councillors that merely dropped out disgusted, and did not even go to the trouble to resign.

Yours respectfully,
Joseph H. Parker

Northern Polytechnic Institute of B. C.

Engineering, Commercial, Household and General Education.

Thoroughly up-to-date and practical courses given by qualified instructors.

Students prepared for recognized standard Educational, Engineering and Commercial examinations.

Evening classes conducted at Anyox and Prince Rupert.

For further particulars, apply to J. W. Esplin, Local Agent, Anyox, B. C., or The Director, Wallace Block, Prince Rupert.

ALICE ARM NOTES

See Al Falconer for Wood or Coal

J. B. Robertson returned on Thursday, to Prince Rupert, after spending ten days here.

The regular monthly meeting of the Alice Arm Citizens' Association will be held in the Anglican Church this evening, at 8 p.m.

Rev. J. B. Gibson will hold Divine Service, at the Anglican Church, on Friday evening, February 2nd, at 7.30 p.m. Everyone welcome.

Art. Baudin left on Tuesday, on a visit to Anyox and Prince Rupert

J. M. Morrison returned on Monday from a visit to Prince Rupert.

C. P. Riel has received a letter from Joe Garon, who has spent the past year at the Mayo silver camp, Yukon Territory. Joe says Mayo may become a good camp, but is not yet proven. About 7000 tons of silver-lead ore will be hauled out on sleighs this winter, a distance of about 45 miles. He says Paul Jacob will return here in the spring. Mr. Riel also received a letter from Walter McDonald who is at the Premier, and is drawing $5.50 per day. He says Chris. Christensen is a foreman on the tram line and doing well.

See Al. Falconer for Freight and Pack Horses.

MINERAL ACT.
FORM F.

CERTIFICATE OF IMPROVEMENTS

NOTICE

"*Bonanza Fraction*" Mineral Claim, situate in the Naas River Mining Division of Cassiar District. Where located: East side, Kitsault River, Alice Arm.

TAKE NOTICE, that I, W. E. Williams, Free Miner's Certificate No. 56728-C acting as agent for J. D. Meenach, F. M. C. No. 47380-C, R. D. Brown, F. M. C. No. 47381-C, John Holmgren F. M. C. No. 47382-C, and Chas. Z. Frey Free Miner's Certificate No. 47383-C intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 19th. day of December A.D. 1922.

W. E. WILLIAMS

MINERAL ACT

NOTICE

Whereas I, Walter Jones, co-owner and agent, with power of attorney for the co-owners of the Alice group of mineral claims, situated in the Portland Canal District of Alice Arm, B. C.

And whereas the said J. McIsaac has failed to contribute his proportion of expenditure required by Sections 48 and 51 of the Mineral Act, and his co-owners have made the expenditure:

NOW THIS IS TO GIVE NOTICE to said J. McIsaac, that if, at the expiration of ninety days from the first publication of this notice in the "Herald" a newspaper published and circulating in the Mining Division in which said claim is situated, the said J. McIsaac shall fail or refuse to contribute the sum of $80.00, his proportion of the expenditure required by said sections 48 and 51, together with all costs of advertising, his interest in the claim shall become vested in his said co-owners pro-rata, on complying with and in accordance with the provisions of Section 28 of the Mineral Act.

Dated this 2nd. day of December, 1922.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,177,403; Lode Gold, $105,557,977; Silver, $55,259,485; Lead, $48,330,575; Copper, $166,393,488; Zinc, $21,884,531; Coal and Coke, $225,409,505; Building Stone, Brick, Cement, $34,072,016; Miscellaneous Minerals, $1,210,639; making its mineral production to the end of 1921 show

An Aggregate Value of $734,259,619

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641.

Production During last ten years, $336,562,897

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia
