## Large Number Attend I. O. D. E. Monthly Meeting

The local chapter of the I.O.D.E. held its regular monthly meeting on Monday, June 1st, at the home of the Regent, Mrs. C. O. Fricker. The meeting was largely attended and Mrs. J. W. Lang gave a very interesting talk on the history of the Order from its inception in 1904, its aims and objects, especially its activities in child welfare work and educational bursaries open to relatives of returned men. One of these bursaries enabling winners to attend University and another one granting attendance at Oxford University for one year.

The Collison of Kincolith Chapter undertook at this meeting to take as its main object for the future "The Preventorium" in Vancouver, which institution takes the child predisposed to tuberculosis and expert care and advice is given. Public school education is carried on there under most healthful surroundings.

Plans were made at this meeting for the Rose Day to be held on July 1st, the proceeds will be given to the crippled children of London and child welfare work throughout Canada.

Mrs. Fricker was the hostess. Misses Ormrod and Eve, Mesdames Learoyd and Macdonald assisted in serving.

## Repairing Dolly Varden Railway

The Department of Public Works is now engaged in clearing and repairing the Dolly Varden railway track so that it can be used for light traffic during the summer months.

A small crew of men is engaged in the work. Owing to the number of unemployed men this year it has been deemed advisable to change crews so that everyone will be given as much work as possible. Married men will be given a month's work at one time and single men two weeks.

## Anyox Golfer Gets a "Birdie"

Mr. H. R. Taylor (Assistant Mill Supt. at Anyox) in driving from the first tee on the local Golf Course killed a seagull that happened to be flying across the course.

## Large Number Enjoy Sunday Excursion

Approximately 500 people took advantage of the trip to Larcom Island on Sunday, May 31st, arranged by the Community League. The Granby Company generously placed the "Granby" at the disposal of the League for the day. The number of people desiring to make the trip far exceeded the expectations of the League, and the Granby had to make several trips each way in order to accommodate the crowd.

The weather was bright and warm, and the day's outing at the attractive island, with its rich green foliage, was greatly enjoyed. Provision was made to attend to the needs of the inner man, the League providing tea, milk and sugar, and also coffee right on the premises for those who desired it. It is the intention of the League to run these trips every Sunday providing the weather is suitable, as long as it is possible to do so, and for the next outing a schedule of the different times when the boat will leave the float will be published, so that long delays will be avoided.

## Anyox Tennis Courts Proving Very Popular

All the Anyox tennis courts have been well occupied during the spell of fine weather lately.

Some fine ladder matches have been played, the scores in most of them being fairly even. Ross Oatman got away to a good start by accounting for Rex Towgood, Archie McDougall and Jerry Macintyre, in the game with the last named the score was 10-9 in favor of Oatman. On Sunday Gordon James won his first ladder game making a fine recovery after being several games behind, he eventually won the set by 10 games to 9.

## Census Enumerators Busy

The Census takers of Anyox made a start this week with their tour of interrogation, with tremendous books under their arms and a supply of necessary writing materials and an abundance of patience.

The Catholic ladies will hold a sale of Homecooking at the Catholic Hall on Monday next, June 8th. Afternoon tea will be served.

## Change In Schedule Of C. N. Steamships

The summer schedule of the sailings of the Canadian National steamships will become effective next week. Today, Saturday, June 6th, the steamer Prince George will arrive at Anyox at 11 p.m. and leave at 12 midnight for Prince Rupert and Vancouver via Stewart. This Saturday sailing is for this week only.

After this special sailing of the Prince George, the steamer Prince Charles will inaugurate the summer schedule arriving at Anyox, Tuesday June 9th, about 6 p.m. and leaving about an hour later for Prince Rupert and Vancouver, via the North end of Queen Charlotte Islands. The steamship Prince Rupert or Prince George, effective Friday, June 12th, will arrive at Anyox at 10 p.m. and leave for Prince Rupert and Vancouver via Stewart at 11 p.m. This service will continue in effect for the summer months.

## Evening Service Conducted By Rev. Jennings

Owing to the late arrival of the Northern Cross on Sunday, the only service held by Rev. W. B. Jennings was the evening service at 7.30. A large congregation attended and the service was greatly appreciated. Mrs. Jennings accompanied Rev. Jennings on the northern trip last week-end.

## Smelter Win From Mine By Narrow Margin

In a hard fought game on Tuesday, which was witnessed by a large number of fans, the Smelter eleven beat the Mine team by a score of three goals to two. The Smelter team was nicely balanced and deserved their win. Ellison scored two goals for the Smelter and S. Peel one. For the Mine Morrison and Ivor Davis scored one each.

The friends of Mrs. Wm. O'Neill of Anyox will be sorry to learn that she recently lost her mother, Mrs. Mary McKinnon, who passed away in Vancouver at the advanced age of 94 years. Mrs. McKinnon was born in Nova Scotia and has resided in Vancouver for the past 25 years.

## Will Hold Another Big Excursion Tomorrow

Another picnic is being arranged by the Anyox Community League to Larcom Island tomorrow (Sunday). In order to prevent mishaps, definite instructions have been given for everybody to meet on the Dock by the League Office instead of crowding on to the float. Parties will be organized as they arrive at the Dock and sufficient number lined up for each trip. Extra boats will be run on this occasion to cope with the anticipated crowds. Ed. Ashton will be looking after the refreshments over at Larcom Island where tea, coffee, sugar and milk will be provided by the League. Ice cream, cigarettes, soft drinks and candies can be obtained at the Camp.

A fire warden has been appointed for the day. Smokers are requested to co-operate in every way to prevent fire breaking out at these picnic grounds.

These trips are very popular and the A.C.L. is certainly doing its share to make the picnics enjoyable in every possible way.

## Choral Society Will Hold General Meeting

The General Meeting of the A.C.L. Choral Society will be held on Wednesday, June 17th in the United Church Hall, at 8 p.m.

The Choral Society will hold a rehearsal next Tuesday, June 9 in the United Church Hall at 7.30 p.m. in preparation for a proposed concert at Alice Arm.

The death occurred recently at the Royal Jubilee Hospital, Victoria, of Mrs. Victoria Anna Pynn, mother of Mr. A. Pynn of Anyox, who passed away at the age of 69 years.

The Mine Ladies Aid will hold a sale of candy at the Mine pictures next Friday, June 12th, when it is hoped that a large crowd will purchase the home made candy.

J. A. Anderson, superintendent of Public Works, arrived at Alice Arm from Anyox on Tuesday and left again on Wednesday.

O. Landry superintendent of Dominion Government Telegraphs, returned on Monday to Prince Rupert after visiting the offices of Alice Arm and Anyox.

## New "Northern Cross" Visits Alice Arm

The new launch of the Anglican Church Coast Mission in charge of Rev. W. B. Jennings, paid its first visit to Alice Arm on Sunday last.

It is a very smart, trim craft and during the day was greatly admired by a large number of visitors.

The new "Northern Cross," which was also the name of the former launch, has a length of 47 feet and a beam of 12 feet. She is fitted with a 47 h.p. high speed full deisel Gardiner engine working on a 2 to 1 reduction, and which develops a speed of 8½ knots per hour.

The "Northern Cross" was built at Prince Rupert during the past winter expressly for North Coast mission work. She contains several comfortable cabins which are very neatly painted and furnished. She is of the raised deck cruiser type and should be able to withstand the rough weather often encountered on the coast without seriously inconveniencing the occupants.

## Not Much Hope For Silver Conference

The proposed conference, at which the leading nations of the world were to be represented for the purpose of raising and stabilizing the price of silver has been abandoned.

President Hoover of the United States has made a statement that the European nations are not in sympathy with a conference being called at the present time.

## Many Trips To Larcom Island By Granby Tomorrow

The launch "Granby" will leave the Anyox float for the Larcom Island picnic grounds tomorrow at the following hours:

9.30 a.m., 10.30 a.m., 12.30 noon, 1.30 p.m., 2.30 p.m. and later if necessary. Return trips will be made as soon as the first load is ready for home, which will be about 4 p.m.

## Winners of Hidden Creek Tennis Club Tournament

The handicap tennis tournament at the Hidden Creek Club, played on Sunday last, and completed on Monday was won by S. Crompton, partnered with W. Cavalier.

Insurance against unemployment in Canada may become law during this year or next. Premier R. B. Bennett has stated that the government will give it serious consideration. It is being realized throughout the country that the voting of large sums of money for relief work during times of depression only temporarily relieves the situation, and is a costly undertaking. Premier Bennett has stated that should unemployment insurance become law that it will be contributory. This means that wage earners will be called upon to pay part of their wages into the fund. Employers of labor will also pay a share and the balance will be paid into the fund by the government. It is generally admitted that unemployment will exist throughout the world for some considerable time, and that Canada will suffer with the rest. Owing to seasonal occupations more men are always out of work in Canada during the winter than in countries situated in warmer climates. Insurance against unemployment will no doubt result in the shutting out of immigrants. It would be extremely foolish to allow the country to be flooded with people of other nationalities and then be forced to support them. There are many delicate problems to be worked out before the government commits itself to any insurance scheme, but it is generally understood that people can not be allowed to starve to death because they can not obtain work, and some plan must necessarily be found to meet the situation.

**United Verde Copper Co. Decrease Production**

United Verde Copper Company last week suspended all operations at its smelter at Clarkdale, Ariz., and lower output from the mines at Jerome for an indefinite period. The condition of the copper metal market is the reason for stopping production. No copper will be produced.

Subscribe to the Herald

**Record Outputs of Lead Silver and Zinc Last Year**

**Copper and Coal Both Show Declines**

Honorable W. A. McKenzie, Minister of Mines, has released for distribution his Annual Report for 1930. This voluminous report covers exhaustively the year's activities in the widespread mining industry of the Province and shows clearly its importance to British Columbia. In commenting on the record for the past year, Honorable Mr. McKenzie points out that new high record outputs of silver, lead, and zinc, in part compensated for a decline of 18.8% in the gross value of the mineral production—the latter caused mainly by low metal prices and decreased coal output.

The final figures show a gross value of \$55,391,993 as compared with the 1929 record of \$68,245,443. Notwithstanding an unusually depressed year for the world in general, mining in British Columbia in 1930 held up remarkably well, as in the aggregate the quantity of metals and minerals produced was the greatest in the history of mining in the Province.

Of decided interest at this time is the proof with statistics furnished of the growing interest in the development of the gold resources of the Province. The production of this precious metal (lode and placer) shows an increase of \$352,681 in 1930 as compared with 1929. This in itself, Mr. McKenzie explains, is not of outstanding importance but it shows a movement in the right direction. He declares that the interest in gold, now noted wherever there is a mining industry, is becoming more and more marked in British Columbia. Inquires as to the gold potentialities of the Province are now being received from far and wide. More activity is evidenced in placer-mining, following last year the issuance by the Department of Mines of a bulletin dealing with the placer fields of the Province.

Mr. McKenzie refers also to recent developments in connection with the property of the Pioneer Gold Mines, Ltd., in the Bridge River District. Everyone, he points out, who keeps in touch believes that the prospects of this property will become one of the

substantial gold producers of the Canadian West.

The Minister points out that the major mining activities of the Province were well sustained although curtailment and cessation of operation were forced on certain mines by economic conditions. Some new producers, however, were brought in and the important construction and expansion plans of the Consolidated Mining and Smelting Company were carried on at a greater rate than ever. Considering the circumstances other large operators have maintained their staffs in a commendable manner.

The dividends declared during the year totalled \$12,527,652 only a slight decrease from the record figure of \$13,743,308 in 1929. While the dividend record is very satisfactory, the outlook owing to low metal prices is for lower dividends in the next few years than in recent years.

Other striking points brought out as follows:

That increases were shown in 1930 as compared with 1929 in the production of gold, silver, lead and zinc, there being decreases only in the outputs of copper and coal.

That the value of structural materials produced indicates an advance over the previous year.

That the production of lead in 1930 was 319,199,752 lb. valued at \$12,535,931,—the largest quantity of lead ever produced in any year in the Province.

That lead is now the most important in point of value of the metal production of the Province, representing for the past seven years over \$15,000,000 a year as compared with copper's \$12,000,000 and coal at a little more than \$11,000,000.

That the production of coal has declined 19.3%.

That there was in 1930 a remarkable increase in the zinc output, viz. 250,287,306 lb. as compared with 172,096,841 lb. in 1929.

That a new high record was established in silver output, viz. 11,289,171 oz. as compared to 9,918,800 oz. last year.

The Annual Report of the Minister of Mines is prepared under the supervision of John D. Galloway, Provincial Mineralogist, and contains complete statistics of the industry, detailed reports by the Resident Engineers on their respective districts, full reports by the Inspection Branch and much incidental data relating to the mineral industry of the Province.

The 1930 production figures are shown in the following table with comparative figures for 1929.

Description	1929		1930	
	Quantity	Value	Quantity	Value
Gold, placer.....oz.	6,983	\$118,711	8,955	\$152,235

### Thirty-seven Million Caught Last Year

The commercial fishermen of British Columbia landed approximately 37,000,000 salmon last year. The aggregate weight was 216,000,000 pounds or an average of between five and six pounds each. The exact number caught was 36,945,948 or about 9,500,000 more than were landed in 1926 the previous record year, and 10,400,000 more than in 1928 another big year. The varieties taken in 1930 as shown by count were: Pinks, 23,872,907; sockeyes, 5,348,078; chums, 5,111,137; cohoes, 1,207,765; springs, 539,381. There were also 727,170 bluebacks and 141,511 steelheads. A tally is kept of all fish received by the canneries and cold storage warehouses, but no track can be kept of those landed by sportsmen so that the number taken in the province was probably well in excess of 37,000,000. The commercial figures are reported to the Dominion Department of Fisheries.

### Rocky Mountains Are Ideal Holiday Land

**B**eauty unrivalled, health-giving altitudes, all the comforts that modern ingenuity can devise and "something to do" all the time await the army of travellers from all over the world, which annually invades the glorious Canadian Rockies through the Banff Springs Hotel and the Chateau Lake Louise. These stately up-to-date hosteries, which open on May 15 and June 1, respectively, are not only key-points to the most beautiful mountain territories in the world, but are, themselves, located in settings of a beauty which has to be seen to be truly appreciated. On the main line of the Canadian Pacific Railway, which owns and operates them, they are equipped not only to be "homes from home" to the travelling public and holiday-seekers in the generally accepted sense, but to furnish entertainment for their guests in many and varied ways. Auto drives, trail-rides, boating, fishing, swimming, golf, tennis, hiking and mountaineering, to say nothing of the famous Indian Days and the Highland Gathering, are all part of programs which years of experience have brought to perfection. Experts in all lines are in attendance to be of service to the hotels' guests and real cowboys, red-coated "Mounties" and true Stoney Indians lend color to a hundred variations of uniquely picturesque scenes. There is never a dull moment at Banff or Lake Louise. There is something for every taste and the rounding off of full days by dancing in cool and spacious ball-rooms, to smart orchestras, is not the least of the attractions offered.

The pictures show: (1) the Banff Springs Hotel; (2) a typical Stoney Indian; (3) the Chateau Lake Louise.

### SUMMER SAILINGS

- From Stewart for Anyox, Massett Inlet, Prince Rupert and Vancouver, Tuesdays, a.m.
- For Prince Rupert, Ocean Falls, Powell River and Vancouver, Saturdays 9.00 a.m.
- From Anyox for Stewart and ports South Fridays 11.00 p.m.
- Weekly service to Massett Inlet and fortnightly service to South Queen Charlotte Islands. Particulars on request.

### TRI-CITY SERVICE

Daily from Vancouver at 2.00 p.m. for Victoria and Seattle.

### TRAIN SERVICE

Passenger trains leave Prince Rupert daily (Sunday excepted) at 12.30 p.m. for Edmonton, Winnipeg and points East.

For information call or write local agent or R. F. McNaughton, D.P.A. Prince Rupert, B.C.

CANADIAN NATIONAL

**Here and There**

Annual value of forests products in Canada is placed around \$500,000,000 by the Canadian Government Forestry Service, and over 200,000 persons are employed in this work.

Total value of crude bullion gold in Ontario for the first two months of 1931 is placed at \$6,517,254 as compared with \$5,352,395 for the same period of 1930, an increase of nearly 22%. If this continues, all previous records of gold output are likely to be exceeded this year.

Position of president of the Boy Scouts Association of Canada has been offered to and accepted by E. W. Beatty, chairman and president of the Canadian Pacific Railway, whose interest in boy welfare has long been recognized all over the Dominion.

John Minard, section hand with the Canadian Pacific Railway for many years and pensioned at the age of 73, celebrated his 105th birthday April 2. He does not use glasses, eats well, sleeps well and enjoys life. He has no prescriptions for exceeding the century mark.

Sponsored by the Alberta Motorcycle Association, the Western Canada Motorcycle hill-climbing championships will be decided at Banff in the Canadian Rockies on May 24 and will be followed the same day by the Banff annual regatta.

A shipment of 800,000 salmon eggs has recently been forwarded to the Dominion Fish Hatchery at Flat Lands, Restigouche County to receive treatment prior to being deposited in the Nipisiguit River as a part of the 1931 programme for restocking New Brunswick fishing waters.

Canadians, from coast to coast, heard the voices of His Excellency the Governor-General and Rt. Hon. R. B. Bennett, prime Minister of the Dominion, May 11, in endorsement of the work of the Canadian Red Cross through stations linked by the radio broadcast transmission system of the Canadian Pacific Railway Company's Telegraphs.

In the last analysis the railroad safety movement's success is traceable largely to teamwork. Each railroad worker is constantly reminded that safety is paramount. Safety practices have become habitual, therefore they do not lessen efficiency. Railroad passenger service is now more efficient as well as safer than ever before, says a prominent United States newspaper.

The new 6¼ hour service between Montreal and Toronto, both ways, which came into operation on Canadian Pacific lines end of April, has proved highly popular with travellers, and heavy traffic on these trains is reported. Ottawa has also been brought half an hour closer to Montreal and passengers for Quebec have had 15 minutes clipped from the time of the journey.

Popularity of the reduced weekend fares which went into effect May 1 on all Canadian Pacific lines was assured from the start, according to reports from traffic officials of the railway. They represent a saving of approximately 33% to the travelling public with reduced fares available from noon Friday to noon Sunday and return portions up to midnight of the Monday following. (740)
