United States Planning To Use More Silver

Instead of going to a fixed ratio with gold or bimetallism, many advocates of the increased use of silver as a monetary base are of the opinion that the United States currency should be supported by both silver and gold in order to give an adequate amount of sound money in case of necessity. For instance, it is pointed out that in 1929 during the height of the boom period \$5,000,000,000 in currency was ample to carry on all necessary business in the United States because of the complete confidence of the public. However, in 1932 with a decidedly smaller volume of business, it is estimated that more than \$15,000,000,000 in currency was needed because of the lack of confidence. For such emergencies it is argued that the monetary metal base should be such that a great expansion in currency could be made without any difficulty.

One of the plans suggested to Washington calls for a dollar containing a certain amount of gold at a fixed price. The balance back of the dollar would be silver at its market price. For instance, if the dollar should contain 60 cents of gold, the remaining 40 cents would be made up in silver at the market price. In the event of its redemption, the holder of the currency would receive 60 cents in gold and the balance in silver at the world market. In this way, the chief objection to bimetallism would be removed, it is argued, and at the same time there would always be a dollar with the proper metal backing.

Another plan under consideration involves a currency backed by both gold and silver at a fixed ratio. For instance, instead of an indefinite amount of silver back of the dollar, there would be a certain quantity of silver and also a certain amount of gold. The objection to such a dollar, it is stated is, that it would fluctuate with the value of silver, especially in the foreign exchange markets. A dollar based on a certain amount of gold and the remainder in silver at the world market, it is believed, would be virtually stable in the foreign exchange markets and always be worth par.

BIRTH AT ANYOX

Born to Mr. and Mrs. J. McCornachie, at the Anyox General Hospital, on Thursday, November 30th, a daughter.

Anyox Branch Canadian Legion Elects Officers

The annual meeting of the Anyox Branch of the Canadian Legion, B. E. S. L., was held in the Legion Rooms on Friday the 1st, a good number of members being present. The annual reports showed that much work had been done during the year and that the branch is in a satisfactory position financially.

The following officers were elected: President, J. A. D. Stewart; Vice-President, W. F. Eve; 2nd Vice-President, W. O. Boyce; Honorary Chaplain, Evan Baker, Treasurer, F. Pearson; Executive, Comrades Lang, Varnes, Fricker, Wardrope, Gibb, Lavery; auditors, T. J. Kirkwood, J. L. Stewart; Sergeant-at-Arms, D. Lamont.

A review of the activities at Armistice time showed that everything had been very satisfactory, and the Branch was especially pleased with the results of Poppy Day, when over two hundred dollars was collected.

Carnival Dance at Mine December 18th.

For years past, there has been a Christmas Dance at the Mine, and this year is not going to be an exception. The affair planned for Monday the 18th, is a Carnival Dance—a real gala event. There will be balloons, confetti, paper hats noise makers and everything else that makes a carnival. Costumes, fancy dress, or just plain clothes—the choice is left open.

Many novelty dances and features have been arranged, with appropriate prizes. Special Christmas refreshments will be served and the music will be the best in Anyox.

The dance is being arranged by the Mine Branch of the A. C. L. whose thoroughness in such affairs is a byword and a big crowd is expected at this special Christmas event.

Miss Alice Dodsworth Breaks Ankle On Sidewalk

Miss Alice Dodsworth, of the staff of the Granby Stores, had the misfortune to slip and break her ankle on Friday evening the 1st, while on her way to the Oddfellows' Card Party and Dance. Miss Dodsworth had proceeded a short distance along the covered walk when the accident occurred. Mr. J. A. Anderson and his brother James rendered first aid, and the patient was quickly conveyed to the hospital. The break proved to be a compound fracture, consequently Miss Dodsworth will be incapacitated for some time.

Elks Have Arranged For New Year Dance

December 31st, falls on a Sunday this year. How about the New Year Dance? This event—the biggest function of the kind held in Anyox—is sponsored yearly by the Elks, and the difficulty will be overcome quite easily.

At 10.45 p.m. on Sunday night a supper will be held in the Gymnasium, and promptly at 12 o'clock the dancing will commence and continue until a late—or rather early—hour.

For the supper, which is expected will be extremely popular under the circumstances, it will be possible for anyone to reserve seats. This will suit the convenience of all and especially of parties or groups.

There have been many enquiries as to the holding of this annual dance this year, and the simple procedure outlined will solve the problem for everyone concerned. Tickets for the supper will be limited to 250 persons, so it will be wise to make reservations early.

Pictures At Theatre Are Better Than Ever

"Better than ever" applies not only to the pictures at Anyox, but to the general service at that show house as well. Larger crowds now attend. The usher service is excellent. There are no disturbances during the shows, and the audience remains seated until the final lights are flashed on. All this makes it a real pleasure to attend the pictures, and those in charge deserve credit accordingly, for the improvements brought about.

John Heywood Has Three Fingers Amputated

John Heywood, who is employed at the Crushing Plant, received a painful injury on Thursday afternoon when his left hand was badly crushed. He was taken to the Hospital where it was found necessary to amputate three fingers.

J. A. Anderson, superintendent of Public Works, arrived at Alice Arm from Anyox on Saturday and left again on Tuesday. J. C. Brady resident engineer, with headquarters at Prince Rupert arrived on Monday and with Mr. Anderson examined damage recently done by the high water of the Kitsault River.

Mr. Vaughan left on Wednesday for the south.

Elks' Memorial Service Well Attended

In honor of their brother Elks who had passed into the Beyond, the members of Anyox Lodge, B. P. O. E., held a Memorial Service in the Lodge Hall on Sunday, December 3rd. A large number of visitors were present. After the Memorial ritual, a programme of music and singing was presented.

Solos were sung by Mrs. V. S. McRae, Mr. W. F. Eve, Mr. N. R. Redman, and a violin solo by S. M. Armstrong. The choir of the United Church gave the anthem: "The Radiant Morn hath passed away."

The Memorial address was given by the Rev. A. Abraham, who spoke on the parable of "The Talents," pointing out that, the true way to honor departed brothers was by pursuing the ideals of their Order, for which the departed themselves had stood. The service closed with the singing of the National Anthem, and the Benediction by Rev. E. Baker.

The A. C. L. Children's Parties Will Be Best Ever Held

What a time the children will have at the Community League Christmas Parties this year! They are going to be quite different from previous ones. At the Mine Hall and the Gymnasium, on the afternoon and evening of Thursday the 21st, there will be held a masquerade party. At both places the children will attend in fancy costumes.

At the Mine Hall a grand Christmas Tree will be in evidence, and the children will receive presents from Santa Claus himself. There will be novelties and surprises at both the Mine and the Beach.

Those in charge are going to outdo themselves this year, in order that the parties may be the best ever held in Anyox. Parents are planning the costumes and the parties will be well worth attending. Watch for further details.

Bishop Rix Will Visit Anyox On Monday

Arriving on Monday morning by the Catala, Bishop Rix will visit Anyox until Wednesday, when he will leave by the C. N. boat for Prince Rupert. The Bishop will hold Communion service at Christ Church at 10 a. m. on Tuesday and evening service at 7:45, when he will preach. Bishop Rix is looking forward to meeting a number of friends, and will visit the sick during his stay.

Wild and Woolly Evening of Basketball On Friday

Three suspensions and a large number of personals featured the game between the Vandals A and Trojans on Friday evening last at the Gymnasium. Feeling ran high between the two teams, the game ending with but seven players on the floor. Two other good bouts made the programme an exciting one for the many fans present.

The first battle staged was that between the Mechanics and Vandals B teams, the former winning by an odd basket thrown in from an awkward position by O'Neill in the last minute of play. The teams were well matched and went neck and neck the whole distance, the play being a veritable whirlwind at the finish. The final score was 20 to 18.

Splendid checking kept the score down, seven being the most points notched by any player. The miners missed many nice chances, while the Mechanics made the most of every chance to score.

The teams: Vandals B, White 5, McMillan 2, Heinekey 4, Windle 5, T, Graham, B. Horne 2. Mechanics B, Church 7, Patrick 4, Johnstone 2, Chenoski 3, O'Neill 2, Hamilton 2.

Aces suffered defeat at the hands of the Spooks in the ladies' fixture, 22-12. This does not reflect on the play of the former team, who put up a splendid exhibition and are improving steadily. More confidence and quicker handling of the ball were evident in the game.

For the Spooks, the Dresser sisters had a gala night, doing practically all the scoring between them. For the losers J. Pinckney, who has been doing good work at the basket, was closely checked, but netted two nice ones. M. Barclay and P. Loudon each played a sterling game.

The teams; Aces, J. Pinckney 4, I. Gillies 1, P. Loudon 2, M. Barclay 3, N. Salmon 2.

Wild and woolly was the tussle between the Vandals A and the Trojans, both sides being out to put over a victory. From the start it was evident that the heavier weight of the miners would prove a big obstacle to their lighter opponents, who put up a great fight and came up strong towards the close. Fast, short passes from all angles featured the work of the miners, and it proved to be effective.

The Trojans also adopted nice

**Production of Copper
 In Canada Shows
 Increase**

Copper production in Canada during September last advanced 8.7 per cent. to 30,554,881 pounds from the August total of 28,099,702 pounds, the Dominion Bureau of Statistics reports. The September, 1932, output was 18,861,161 pounds.

Exports of copper during September, 1933, totalled 1,125,300 pounds, valued at \$1,797,995, compared with the August export of 1,368,000 pounds, valued at \$1,683,405.

The Canadian output of nickel during September last, the Bureau reports, reached a total of 10,625,853 pounds, the highest monthly production on record since May, 1931. In the previous month 10,197,430 pounds were produced, and in September, 1932, the total was 676,890 pounds.

Exports from Canada of nickel in ore, matte, or specie, during September totalled 4,884,800 pounds; the August total was 4,300,100. Nickel fine exportations advanced to 4,611,500 pounds, as against 3,515,300 in August. Nickel oxide shipments from Canada in September were recorded at 1,049,900 pounds, or 67.1 per cent. above the preceding month's total.

**Governing Bodies Advised
 To Live Within Income**

Like a drundard wastrel taking stock of his depleted fortunes, provincial and municipal government in Western Canada is reckoning up its sorry position.

In few places have the corporate bodies lived within their income. Rather they have been drawing on their capital, exceeding their budgets and covering their deficits with new borrowings. Year after year for 20 years or so this has been going on with the result that public debt has run so far in advance of either population or income.

Even in good times the crisis would eventually have come. Now it is the more severe because a major cyclical swing with various additional complications has set prices and purchasing power very materially lower.

For politicians to suggest now that the cure for this condition is to exaggerate it by further great public expenditures is puzzling to the more elementary economists who cling to the thought that economy is still a virtue:—Vancouver Financial News.

**Smithers Prospectors Mines
 And Ships Ore**

Success has attended the efforts of Stuart F. Campbell, Grover E. Loveless and Wesley Banta, three local prospectors who own the Glacier Gulch gold-bismuth property on Hudson Bay Mountain near Smithers, to get out a car load of ore from their property. Twenty nine tons were mined, sacked, taken down to the motor-road on a tram constructed by themselves, and now shipped to Trail Smelter for treatment. All of the work was done by these owners themselves without the aid of capital. Unable to interest outside capital after years of negotiations and with no funds themselves, they have now made a start which they hope will enable them to work the mine themselves.

There are approximately 150 different species and varieties of plants that reach tree size in Canada, according to the Natural Resources Department of the Canadian National Railways. Of these only 31 are coniferous but the wood of these forms 95 per cent of the forest products of the Dominion.

**Rushing Gold From Alaska
 By Airplane**

The increased price being paid by the United States Treasury Department for newly-mined gold has given a filip to gold shipments from Alaska and airplanes have been pressed into commission to carry the precious metal from the interior to the coast. During the past few days \$40,000 of gold has been flown out to Seward to be placed on board steamers for shipment to Seattle.

**Total of British Columbia's
 Salmon Pack**

British Columbia's canned salmon pack for the present season totals 1,235,486 cases, or 189,320 more than during the corresponding period of last season, according to figures given out by Col. W. R. Motherwell, chief supervisor of fisheries at Vancouver.

Included in this season's total were 524,323 pinks, 278,916 chums, 255,717 sockeyes, 133,732 cohoes, 21,786 bluebacks, 19,651 springs and 1,356 steelheads.

**Many Thousands Own C.P.R.
 Railway**

Approximately 78,000 people own the Canadian Pacific Railway through their ownership of the company's common stock. Of these, 35,600 live in Canada. Of the balance, 21,000 shareholders live in other parts of the British Empire, mostly in England, while 16,000 are in the United States and 5,400 in other countries, mostly continental Europe.

The actor was boring his listener badly "Ah, my boy," he said, "when I played Hamlet, the audience took 20 minutes to leave the theatre."
 "Really!" said the other. Was he lame or something?"—Tatler.

Winter Sports in Canada

Skiing—Bob-Sledding—Hockey—Curling—Tobogganing—Dog Derbies
Outstanding Attractions

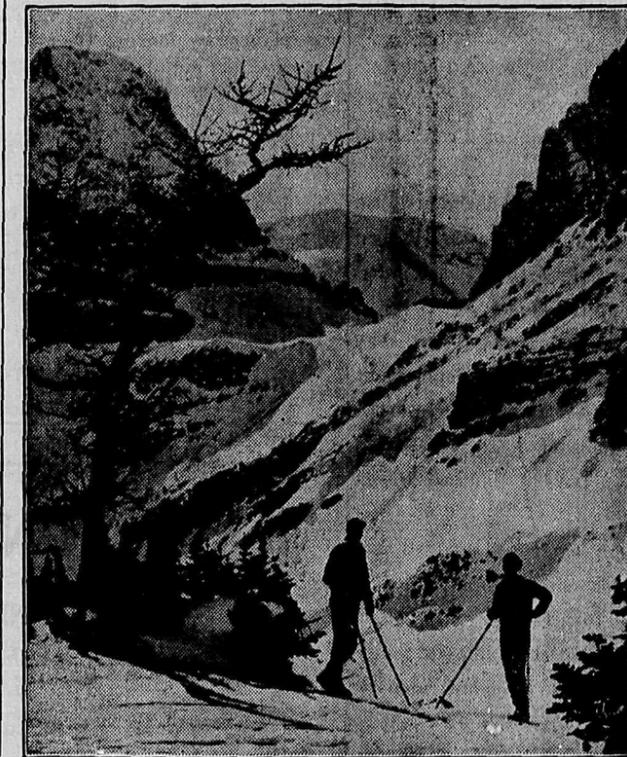

HE invigorating climate of a typical Canadian winter, now regarded as an advantage rather than a hardship, owing to the unusual variety of healthful and appealing sports, is attracting increasing numbers of visitors to the Dominion.

Across Canada there are many beautiful and attractive snow-clad mountains, hills and valleys, which offer exceptional opportunities for enjoying a wide variety of outdoor winter sports. The principal activities throughout the country are skiing, snowshoeing, skating, tobogganing, curling, hockey, bob-sledding and dog derbies, all of which may be thoroughly enjoyed, under ideal conditions. With the exception of an occasional day during mid-winter, the temperature is not too cold for participating in outdoor sports.

While motor travel is not general during the winter season, there are many long stretches of highway which are kept conditioned throughout the winter months. The traveller will always find train service a modern and luxurious means of transportation. Hotels in many of the leading summer resort districts remain open the year round, providing good accommodation for those wishing to participate in local winter events.

Wide Range of Sports in Every Province

Each province possesses winter attractions more or less peculiar to its own particular surroundings. Practically all forms of winter sport are available in the Maritime Provinces, but a preference is shown for hockey and curling. In the province of Quebec the major sport events centre in and around Montreal, Quebec City, Murray Bay and the Laurentian mountains. Lovers of winter sports will find vast territories in Ontario which are ideal in location and in scenic beauty. Ottawa, the federal capital, is adjacent to some of the finest skiing country on the continent, while the

best of ice-yachting may be enjoyed in Toronto bay and along the waterfront of lake Ontario. In the Muskoka and Algonquin Park districts, hotels and cabins are open for the accommodation of winter visitors. In Manitoba the Winnipeg bonspiel also the winter carnival held at The Pas, are annual events of international interest, while Banff, situated in the scenic Canadian Rockies in Alberta, is one of the most important centres for winter sports. Record performances in ski-jumping have been witnessed at Revelstoke. The islands and mainland of the

southwestern part of British Columbia offer golf, tennis and other summer sports, for the winter visitor.

Government Bureau Information Service

Information concerning winter sports in Canada may be obtained from the National Development Bureau, Department of the Interior at Ottawa. Those who desire such information should state, if possible, the particular district or districts in which they are interested, in order that the most complete data may be supplied.

CANADA OFFERS PARADISE TO HUNTERS

With the fall of the leaf and the tang of autumn in the air the fishing rod is laid aside and the Nimrods look to their rifles and shotguns, as the hunting season is ushered in. True to her reputation as one of the world's greatest playgrounds, Canada offers a wide range of sport, furred, feathered and horned, to all who care to penetrate its far-flung hinterlands. From coast to coast, all along the vast system of the Canadian Pacific Railway, there are countless es-

tablished points of entry into the woods and mountains, readily accessible to those in search of game. The shores of countless lakes, rivers, and creeks, abound with all varieties of duck and goose and are not infrequently the scene of the termination of successful expeditions after moose, elk and deer of all kinds. New Brunswick rivals Ontario and Quebec as moose territory, while further west, the towering Rockies offer their tribute

of bear, mountain sheep and mountain goat. Bear are also plentiful in the Ontario northland and in certain parts of Quebec. With a view to preservation, various changes have been made this year in the game laws of all Canadian provinces, but even with the new restrictions a broad period of hunting is offered and the invading army from Canadian centres, as well as from the United States, is already starting on its expeditions.

Minister of Mines Gives Views of Aims

"British Columbia's industrial laws must be enforced to the letter," Hon. G. S. Pearson, minister of mines and labor, declared last Saturday in Vancouver, at a banquet of the Association of Professional Engineers in Hotel Georgia.

The minister said he did not wish to appear militant, but he wished to take the opportunity of issuing a warning to industry.

"If there are wrongs that may be righted, the labor department desires to hear about them immediately," he said. "It is essential that these laws be enforced to help the people."

The government is satisfied that more men can be employed and it proposes to investigate the possibilities of British Columbia industries, he added. The labor department already is seeking a scientific approach to the problem and to this end an economic council has been projected.

"The government", said Hon. Mr. Pearson, "needs your assistance. Employment at decent wages is a vital need which concerns everybody. Briefly, the problem is 'how are more of our people to be put to work and how are they to be made happy?' And I want to say right now that if men do not get back to work we are sunk."

Regarding the mining industry, the minister declared that the purpose should be in the interests of the people. Many operators are inclined to make mining a service to themselves and exaggerate the importance of profit. While there ought to be reasonable profits to the operators, he said, the really important factor is the worker.

Wild and Woolly Evening Of Basketball On Friday

Continued from page 1
passing tactics, but a stonewall defence made scoring difficult. The strain of battle told towards the finish, when three Mine players were despatched to the showers two of them under suspension, and later a Trojan player was also suspended.

The teams: Trojans, W. Shield, B. Gillies 10, McDonald 9, H. Dresser 2, F. Gordon. F. Dodsworth 2, T. Cloke 7. Vandals A: Walmsley 7, McInnes 1, Calderoni 17, L. Falconer, Swanson 8, Woodwin 2, Vaughan 4.

Oddfellows Hold Another Popular Card Party

Another of those card parties and dances for which the Oddfellows and Rebekahs are famous, was held in the Oddfellows' Hall on Friday the 1st. The popular round of whist, supper, and dancing was the

order of the evening, prize winners at cards being: Ladies' First, Mrs. Ungerer, Consolation, Mrs. O. G. Macintyre. First for the gentlemen L. Levoir, with Mr. Gogain in the beginners class. A gay supper was followed by dancing, the music supplied by Buntain's Orchestra being greatly appreciated.

The coziness of the Oddfellows' Hall and the merry spirit which prevailed made this a most enjoyable affair.
