Basketball League Hold Their Annual Meeting

The Annual General meeting of the Anyox Community League Basketball Club was held in the Recreation Hall on Monday. Quite a number attended the meeting and plans were made for a successful season. The following officers were elected: President, Walter Jones; Vice-President, Frank Dodsworth, senr.; secretary, Jimmy Elliott. Their election was very popular and it is expected that under their guidance, basketball will play a prominent part among the indoor sports during the fall and winter seasons.

T. N. Youngs, chairman of the Sports' Committee of the Community League called the meeting to order. In his opening remarks he expressed the hope that even a greater interest would be taken in basketball this season than in the past. The Community League he said, have secured the services of a Y.M.C.A. gym. instructor and basketball referee, who comes highly recommended from Vancouver, and judging by his manner of handling the practice games already held this season, will fully live up to "advance notices." Mr. Laughlan (Lecky) Gillies, the gym. instructor, while not coaching any teams in the Basketball League, will be always willing to show the boys a number of the fine points of the game, such as pivoting, dribbling, shooting, etc., and it is expected that a number of the newer players will soon be making the more experienced ones step out to hold their own.

W. Jones, the newly elected president, who occupied the chair following his election, thanked those present for the honor conferred upon him and expressed the belief that basketball would experience a very successful season.

Mr. Elliott also thanked the meeting for the honor bestowed upon him and signified his willingness to do everything possible to further the interests of the greatest of indoor games during the coming season.

It is hoped to have four leagues in operation, consisting of Senior "A," which has two teams already entered—the Celts and Sheiks—and with the Mine and Concentrator to hear from, at least three and probably four well matched teams will contest the honors in this division. Senior "B" will include the

Moose Lodges Celebrate Seventh Anniversary

On Wednesday evening, September 24th, the Moose Lodge and Sister Legionaires held a joint meeting to celebrate the seventh anniversary of their Lodges.

After the meeting they held a dance and supper for friends of the Lodge members. Good music was provided by J. Peel's orchestra, and a very pleasant evening was enjoyed by all.

Mrs. T. P. O'Brien and Mr. J. Deeming, heads of their respective Lodges, and their Committee are to be complimented on the very fine arrangements which made the evening a real enjoyable and complete success.

Basketballers Hold First Tournament

Basketball in Anyox this season seems destined for a very successful season. The first tournament was held on Friday and Saturday last, and good results were obtained considering they were the first games of the season. Following are the scores:

Beach Girls.....	13
High School Girls.....	3
Celts.....	28
Sheiks.....	19
Celts.....	41
Mine.....	12

Wm. Hanna returned on Wednesday from a trip to Prince Rupert.

slightly less experienced teams, and with entries from the Smelter Football Club and the Celts Football Club, and also a probable entry from the Mine Football Club. Judging from the speed and sportmanship shown on the football field, these teams will doubtless do well in this new endeavor.

A girls' league, with entries from the High School and one other team is already in existence and the entry of another team in this league would help considerably. Many of the regular players are out practicing and with the peppy bunch of new players who are showing their stuff at the gym. the girls' games promise to be as popular as ever.

Last but not least, the Intermediate League. This is where all of our future players must come from, great interest should therefore be taken in the teams competing in this league. Two Scout teams are already in line and a third team in this division will provide some real sporty encounters.

John Swanson and P. E. Peterson Settled In Russia

In an article dealing with well known western mining men who have gone to Russia or are going, the Mining and Industrial Record says:

J. A. McLaughlin, former mine superintendent at Copper Mountain, is manager of the mines department at Uralinstrom on the Asiatic side of the mountains and in the same latitude as Sitka, Alaska, where there are two copper mines under development for which a 2000 ton concentrator is now under construction and should be in operation this fall. John Swanson, formerly mine superintendent at Anyox, is now superintendent of one of these mines. All the mining equipment is of German manufacture and everything is of the very latest and most modern design.

P. E. Peterson, mining engineer of Vancouver, is located at Kafan, in Russian Armenia, way down south between the Black Sea and the Caspian, where he is now supervising the construction of a 1,000 ton mill. Pete is in a warm climate and had a little trouble in becoming acclimatized and accustomed to the food of the country. He was in hospital for a few days at Evorn and says the hospital was the last word in hospitals. It seems that becoming acclimatized affects all the western boys in similar fashion. Young John Swanson, nephew of the above-mentioned John, of Anyox, is also at Kafan and was sick for a longer period than Pete. After losing 28 lbs. weight, Pete now feels better than ever.

P. E. Peterson is well known both in Anyox and Alice Arm. Previous to his departure for Russia he was consulting engineer at the Saddle property at Hastings Arm and the Tiger property at Alice Arm. The many friends of J. A. Swanson and P. E. Peterson will be pleased to learn that they are settled in their new surroundings.

J. A. Anderson, superintendent of the Public Works Department arrived home last week from a business trip to the Dease Lake and Telegraph Creek Country. He accompanied J. E. Stark south whom he found ill at Telegraph Creek.

Badminton Club Will Open Season on Tuesday

The Anyox Badminton Club will hold an Opening Night in the Gymnasium on Tuesday evening October 7th, at 7.30 p.m.

All those interested in Badminton are invited to attend, when a series of games and a social evening will be held.

Everyone welcome. Bring your racquets, and enjoy a good evening.

Mr. Brealy, logging superintendent for the Lamateo Veneer Co. of New Westminster arrived in Alice Arm on Monday and left again on Wednesday. While here, he inspected the stand of cottonwood timber on the flats at the mouth of the Illiance River, and it is possible that it may be logged off this winter.

Mr. and Mrs. L. H. Wenerstrom left Anyox on Monday for Vancouver in company with the remains of their little daughter Kathleen, who recently passed away. The funeral will take place in the south.

ANYOX NOTES

Amongst the arrivals on Wednesday's boat were Jack Evans, D. Davis, L. Gillies, A. Kistman, J. A. Graham.

Mrs. S. H. Bartman returned from holidays in the south on Wednesday evening.

Mrs. Lundgenson and two children returned to Anyox on Wednesday.

Miss M. Ellen was an arrival from the south on Wednesday.

Miss Ruth Dunwoodie left for Vancouver on Wednesday evening for two month's vacation.

Dr. Gordon James left on Wednesday evening for a month's holiday, which he will spend in Vancouver and Toronto.

Mr. and Mrs. G. Negrin and family left for the south on Wednesday's boat.

F. Buckle was an outgoing passenger Wednesday evening.

Amongst the departures on Wednesday's boat were Mr. T. J. Shenton, W. Harrison, R. Gregg, A. Wright, and J. Shields.

Johnnie Chenoski left on Wednesday evening for Vancouver where he intends to make his home in the future.

Mrs. W. F. Eve and her daughter, Miss Vera Eve returned on Monday from a vacation spent in the south.

Continued on page 4

John E. Stark, Pioneer Prospector Passes Away

John E. Stark, the veteran prospector of Alice Arm passed away at Anyox Hospital on Sunday evening, following a brief illness. The cause of his death was ureamic prostate disease of seven day's duration.

Mr. Stark left Alice Arm at the end of June in order to prospect the Stikine river district in the vicinity of Telegraph Creek. He was taken ill on September 14th at a point forty miles south of Telegraph creek. He was alone, and started for Telegraph Creek for aid. For four days he struggled along, arriving there on September 17th. Here he met J. A. Anderson district road superintendent, who was leaving for the south on September 21st. and he brought him out. He received medical treatment at points on the way, but was anxious to get to Anyox. He arrived there on September 24. His condition became worse and he passed peacefully away on Sunday the 28th.

Deceased was 71 years of age, and unmarried. He was the oldest resident of Alice Arm, coming here in the year 1900 in company with Frank Roundy. He was the owner of several mining properties, and spent a lot of his time in the hills prospecting. For several years previous to his death he was caretaker at the Dolly Varden mine. He was highly respected and his passing is deeply regretted.

The late Mr. Stark was a native son of British Columbia, being born at Esquimalt in 1859. He is survived by his mother, who is nearly 100 years of age, and a brother, W. O. Stark, both of Ganges Harbor.

The body was shipped south on Wednesday evening for burial at Ganges Harbor. Thus passes one of the district's old time prospectors and pioneers, to whom the lure of the trail and wide open spaces was as strong in the end as when, a husky lad he shouldered his first pack.

Rev. W. B. Jennings, accompanied by Mrs. Jennings arrived at Alice Arm on Saturday, on the Anglican Mission launch, Northern Cross. Harvest Thanksgiving Service was held by Rev. Jennings at 7.30 p.m., and Sunday School was also held in the morning.

Metals are not the only commodity that is affected by world trade depression. There is, at the present time an over production in almost every line of industry, including agricultural products. Over production means falling prices, and that is what is happening throughout the world today. Modern machinery is to a large extent due to the world's surplus of goods, whether it is on the farms, in the factories or in the mines, mills, and smelters. It will take some time for the world to adjust itself to these new conditions. History shows that it has been done before, but the transmission period has been hard on the masses. What has been done can be done again. The big mining companies are certainly showing no great anxiety over the future. They are still acquiring new properties and making plans for their development. They are planning for the future when business adjusts itself to the new conditions.

The whole west is impatiently waiting for a statement from either the C. P. R. or the Government as to when and where the railway from the Peace River Country to the coast will be built. President Beatty, of the C. P. R. who spent five days in the Peace River district this fall promises an early announcement. Thousands of settlers are flocking into the country, and the building of a railway cannot be long delayed. The building of this railway next year would solve the unemployment problem in the west.

Premier Co. Has Paid Dividends of \$15,000,000

Regular quarterly dividend of Premier Gold Mining Company was paid on October 1, 1930, the third this year. The disbursement will be on the basis of 6 cents per share, or \$300,000. This brings the aggregate dividends paid by Premier to over \$15,000,000, the first being paid December, 1921.

In addition to its original property, the Premier operates Porter Idaho and Prosperity, both of which are shipping, and is developing also the Silverado, all in the Portland Canal district.

That the Kennecott copper mines, Alaska, will continue to produce indefinitely is the report of Dr. Bateman, professor of geology at Harvard.

No Decision Regarding Peace River Railway

President Beatty of the Canadian Pacific Railway, who made a tour through the Peace River country recently, in the course of an address is reported to have said as follows:

"The matter of a westward outlet to the Pacific Coast is one that requires a vast amount of careful examination before it can be proceeded with. Our engineers are now completing an exhaustive survey of the territory and when their reports are finally tabulated and present we will take the matter up for decision with the Canadian National Railways and the federal authorities."

The Canadian National Railways have begun work on their huge Montreal terminals, which are estimated to cost before completion, \$50,000,000

Few British and Irish Going To United States

Washington, September 27th; (Special to the Herald.) The Immigration Department here states that Great Britain and Ireland are the only two European countries failing to exhaust their quota of immigrants to the States.

The British quota lacked 509 from being full. This included Northern Ireland.

Father—"Isn't that young man rather fast?"

Daughter—"Yes, but I don't think he'll get away."

Here and There

(613)

The first electrically-driven tug to be built in Canada was launched at Lauzon, Quebec, recently, when the "Prescott", Diesel-electric tug for the Canadian Pacific Car and Passenger Transfer Company's service between Prescott and Ogdensburg, slipped into the waters of the St. Lawrence after the traditional bottle of champagne had been broken against her bows by Mrs. M. McD. Duff, wife of the manager of the Canadian Pacific Great Lakes Steamship service. It is the first electric tug to be built in Canada, and is designed to tow a three-track railway car-float with accommodation for 16 hundred-ton cars.

Canada is taking advantage of all opportunities to fight tuberculosis and I think is far ahead of England in the matter of sending students to sanatoria to make an intensive study of the subject, said Dr. J. A. Coutts, of London, member of the group of British Tubercular experts, interviewed aboard S. S. Montcalm, on his return to England after some weeks' stay in the Dominion.

Stating that the Canadian Chamber of Commerce official tour of Japan and China leaving Vancouver and Victoria October 16 aboard S.S. Empress of Russia, offers a splendid chance to emphasize Canada's position as a trading nation, Col. J. H. Woods, Calgary publisher and president of the Canadian Chamber of Commerce, speaking to 300 members of the Vancouver Board of Trade in an address at the Hotel Vancouver recently, urged Canadians to take full opportunity of the chance afforded by the tour

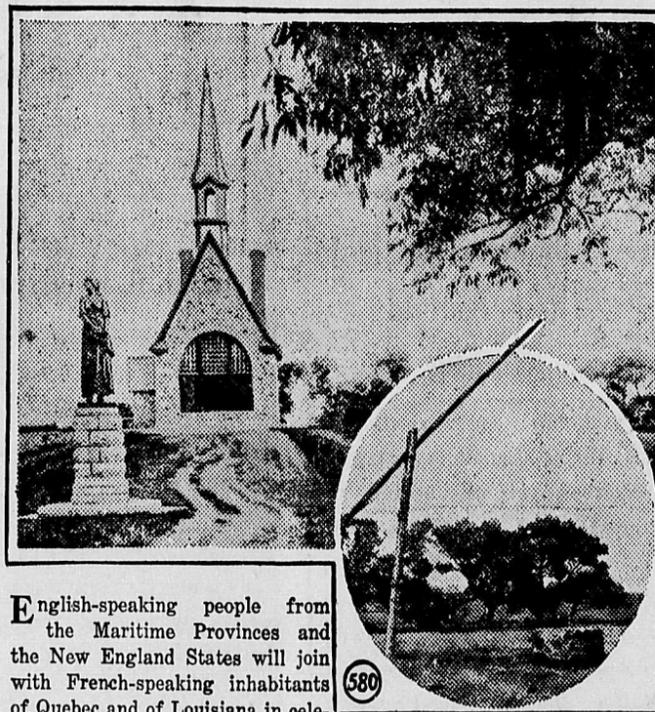

Canada's wild life has a capital valuation of one billion dollars and represents a yearly business turnover to the Dominion of about \$45,000,000, Dr. H. F. Lewis, of the Department of the Interior, told the delegates to the Provincial-Dominion game conference at Ottawa the other day. The valuation includes the fur harvest, game fish and their attendant effect upon the manufacturers of firearms and fishing tackle not to mention railways, tourist camps, magazine publishers and others who derive a certain revenue from this source.

Badges will be worn by all big game hunters in New Brunswick during the season opening September 15 for deer and October 1 for moose. During the recent year all non-resident anglers in New Brunswick have worn badges and the system has proved so satisfactory as to render extension of the plan to shooting advisable.

This year's crop of grapes in the Niagara fruit belt, between Hamilton and Niagara Falls, Ont., is expected to reach about 58,000,000 lbs., an increase of 15 per cent. over the 1929 crop. The crop is now being harvested.

A shipment of 128 live cattle from farms in Ontario went forward recently to England, the first in 18 months. It was consigned to buyers in Manchester. The shipment, though comparatively small, is regarded by the live stock trade as marking resumption of Canada's export trade in cattle to the British market

175th ACADIAN ANNIVERSARY

English-speaking people from the Maritime Provinces and the New England States will join with French-speaking inhabitants of Quebec and of Louisiana in celebrating the 175th anniversary of the dispersion of the Acadians to be held at Grand Pre, Nova Scotia, August 20 next. Invitations have been sent to the governments of Great Britain, France, the United States and Canada and also to the governors of Louisiana and Massachusetts to attend, while it is expected that the Lieutenant-Governor and Prime Minister of Nova Scotia will be present and will address the gathering.

Inauguration of the Acadian Historic Museum established in connection with the Grand Pre Memorial will be a feature of the celebrations. Acadians from all parts of the continent will be represented. Lay-out shows Church at Grand Pre and statue of Evangeline "weeping for her lost country." Inset is Evangeline's Well still supplying cold water as in the days of the dispersed colony.

Price of Copper May Slowly Improve

Toronto—A slow improvement in the statistical position of copper is expected in the report for September and October, if the anticipations of a number of producers, who feel that the industry has touched the bottom, are realized. A turn for the better is looked for, despite the increase of more than 25,000 tons in stocks of refined copper in North and South America in August.

At the end of August stocks of refined copper were 347,688 tons, the largest total since July, 1921, when the industry was gradually working off the post-war surplus of the metal. The total now on hand is within 20,000 tons of the peak of the post-war glut of copper and is more than three times the stocks reported on September 1, 1929, which totalled 104,372 tons.

New Tariff Is Flexible To Meet Emergencies

Ottawa, September 27; (Special to the Herald.) The first session of Parliament with Mr. Bennett as Prime Minister is over and while there will not be unanimity of opinion as to the effectiveness of legislation passed in meeting the unemployment situation there is an agreement that Mr. Bennett carried out one of the pre-election promises in assembling Parliament in record time and of disposing of the business of the session in like manner.

Details of the expenditure of the \$20,000,000 voted for unemployment relief will only develop as appropriations are made during the next six months, though the general outline of the Government's intentions were made clear to the House. This measure, of course, was of an emergency character.

The substantial legislation looking to definite economic improvement was that effecting tariff schedules on key industries and the alteration in regulations upon which dutiable values may be fixed. The latter places within the hands of the Government very radical powers. In effect the Ministry now possesses all the authority required to lower or raise duties by Order-in-Council. The tariff becomes a flexible instrument, instantly available to meet any conditions. Once before similar power was taken by a Government in respect to natural products. This is now extended to cover manufactures and will be applied, Mr. Bennett said, to "give Canadians an equal opportunity in their own country."

MINERAL ACT (Form F) CERTIFICATE OF IMPROVEMENTS

NOTICE
"Sub-Collector" Mineral Claim, situate in the Naas River Mining Division of Cassiar District.

Where located: On the North-east Fork of the Kitsault River.

The Red Man Tries the Pipes

Sandy has a broad grin on his face as he watches brother Redman take a fling at the bagpipes which he has loaned him for a moment to try his luck. The Indian is all intent on his unaccus-

tomed task and since it is only a photograph and not a sound picture you can contemplate the scene without misgivings. Photograph was taken during the recent Highland Gathering and Scottish Music Festival held at Banff, Alberta.

The Lure of the Maritimes

makers from all parts of eastern Canada and United States. Their many sea-side resorts; quaint and beautiful little villages and snug towns dotted along the Bay of Fundy have a special attraction for those who wish to combine comfort with scenic beauty; golf and a wide variety of other sports with fishing and sailing; and the whole with modern and direct transportation.

St. Andrews-by-the-sea with its well known and excellent Algonquin Hotel. There, as at its more famous namesake in Scotland, is to be found one of the outstanding 18-hole golf courses in Eastern Canada where many a hard-fought championship has been decided.

Again, take Digby on the Bay of Fundy. Set in some of the most beautiful, old-world scenery

in Canada, the Pines, recently opened hostelry, offers a wide range of entertainment including tennis, golf, sailing, fishing, hiking, horseback riding, motoring, swimming either in the sea or in the salt water pool with plate glass windscreens and promenade for spectators nesting under the veranda of the hotel. Good motoring roads give access to scores of quaint little villages, some of them, in the Evangeline country, scenes of historic incident and tragedy. Here too, the modern autoist will often meet the old-world ox wain taking its leisurely way down the country road. Layout shows hand-spring dive into the Pines Hotel pool; Evangeline country showing church and statue at Grand Pre; and section of course at St. Andrews.

The Maritimes hold a proud and well-merited place in tourist popularity as well as being a favorite territory for holiday-

Young Globe Girdlers At Telegraph Creek

While J. A. Anderson was at Dease Lake recently, he met Mr. and Mrs. Wm. H. Albee who are on a world walking tour. These two globe trotters had considerable difficulty with the police in June, at Prince George, who were loth to allow them to travel north, fearing that they were too inexperienced. Mr. Anderson states to the Herald that no fears need be entertained as to their capability of taking care of themselves. When he met them at Dease Lake they were hale and hearty. After procuring footwear at Telegraph Creek they continued their journey to Dawson via Atlin.

Their rations ran low before their arrival at Dease Lake and they lived on Moose meat for some time.

Their hike will occupy them ten years. Next year they will cross the Bering straits into Asia and continue their journey.

Both Mr. and Mrs. Albee are in their twenties. Their home is in Ohio, and Mr. Albee is studying the geology of the country as they pass through.

ALICE ARM NOTES

J. A. Anderson, district superintendent of Public Works arrived in town on Thursday from Anyox.

Harry Owen, who has spent the past few months in the Hazelton district arrived home on Thursday.

Fred Mattson, who has spent the summer at Anyox arrived in town on Thursday.

Fred Brown, who was here recuperating from an injury received at the Bonanza mine, took a turn for the worse yesterday and was removed to Anyox Hospital.

Power Co. to Commence Operations At Stewart

The Portland Canal Power Co. will start work this fall on their big project, states the Stewart News in their last issue.

The programme this year calls for a power tunnel 800 feet in length and a diameter of 12 feet. The dam at Davis Lake will be 250 feet high and so constructed that it can be raised an additional 150 feet. The dam will create a storage reservoir two miles long and a half a mile wide, and will have a storage capacity of 30,000 acre feet.

The sum of \$50,000 will be spent on engineering work alone before the first of next year. Work of clearing the right-of-way for the transmission line may also be commenced this fall.

It is expected that the full capacity of the plant will be 26,000 h. p.

The Power Corporation of Canada are also interested in the development of hydro-electric power at Stewart. Their application for the erection of a dam and power plant on the Meziadin river is, however meeting with objections from the fishing interests of the Naas river.
