Nearly 38,000,000 lbs. Copper Produced In Anyox Last Year

What the mining industry is capable of in this section of the province can be judged from the production of copper made last year by the Granby Consolidated Mining, Smelting and Power Co. Ltd. at its Anyox plant.

For the year 1927 the production reached the stupendous total of 37,717,590 pounds of copper; 301,410 ozs. silver; and 5,751 ozs. of gold.

The tonnage of ore mined at Anyox was 1,368,396 tons. Of this amount 1,054,986 tons were treated by the concentrating mill and the balance smelted. The amount of concentrates derived was 84,068 tons.

The total tonnage of ore mined at the company's Allenby plant during 1927, was 756,644 tons. The mill treated 757,625 tons of ore, producing 30,194 tons of concentrates. From these concentrates were derived 17,694,121 pounds of copper, 134,030 ozs. silver, and 4,024 ozs. gold.

Build New Gymnasium On Old Site

The public meeting held on Friday, June 1st, endorsed erection of the new gymnasium according to plans drawn by Mr. R. O. Cutler. A few suggestions regarding details were offered which will be incorporated if feasible and necessary. Notwithstanding former expressions of opinion regarding the necessity of a new site, the league president offered as the only alternative a location between the Bank and the Catholic Hall; a site which, it was stated, would entail some expense for digging and blasting before construction could begin. Accordingly, the meeting was asked to approve the old site again. The debris of the old building was being burned while the meeting was in session. The plans and the site having been thus disposed of, it remains to get action on the tenders.

Mr. and Mrs. McIvor arrived on Thursday from the south.

ANYOX NOTES

Chas. J. Harmon left on Thursday for Fernie, where he will attend a convention of the B. P. O. Elks.

Gordon Lawn left on Thursday for the south.

J. C. Precious arrived from Vancouver on Thursday to join the Granby Office staff in succession to Miss Beryl McKay who is shortly leaving for the south, where she will be married.

Those parents who have young children who will begin school in September are requested to communicate with Mr. D. J. Hartley, Principal of the Anyox Elementary School.

Why take a chance on your suit of clothes being a perfect fit? For further information read the guarantee offered by the Granby Stores on page 4.

E. McMillan, who for some time has been in charge of the barber shop on the flats left on Thursday for the south.

C. P. Johnson arrived in town on Thursday from the south.

Among the arrivals from the south on Thursday, were: W. A. Moul, H. A. Smith, W. S. Day, Mrs. F. Chalk and Mrs. Butter.

Mrs. W. R. Lindsay and family left on Thursday for the south where she will spend a vacation.

D. M. Sinclair, manager of the Bank of Commerce, left on his vacation on Monday. He is being relieved by G. A. Hamilton of Victoria. Mr. Hamilton is a brother of Mr. D. M. Hamilton, superintendent of the Bank of Commerce Pacific Division.

Mrs. J. M. Bryden, formerly proprietress of the Bluebird Cafe departed for the south on Thursday after a residence of several years. She will be greatly missed by her many friends.

Chas. Ruckhaber, has purchased the barbering business of Mrs. J. M. Bryden, which comprises two shops on the Beach.

J. M. McDonald returned on Thursday after several months' absence from camp.

A. H. Qwist, purchasing agent for the Granby Co. left on Thursday after spending a few days here.

Several old residents of the camp left on Thursday for the south, where they plan to make their homes. In addition to Mr. and

Premier MacLean Will Address Meetings

The Hon. J. D. McLean, premier of British Columbia, will arrive at Alice Arm on board the Steamship Catala on Monday morning June 11th. He will address a public meeting at the Coliseum at 10 a.m. the same morning. He will then leave for Anyox, where he will be shown over the plant, and in the evening will address a meeting at the Recreation Hall at 8 p.m.

Previous to the meeting he will attend the Liberal convention, which will be held at 7 p.m. The convention will elect the Liberal candidate for the forthcoming election. All delegates will attend in person, voting by proxy not being permissible.

Following the public meeting the premier will leave for Stewart. He will address a meeting at the Premier mine on Tuesday afternoon, and a meeting in Stewart the same evening.

M. R. Bernischke Returns North

M. R. Bernischke returned on Monday from a business trip to Vancouver. He held power of attorney for the owners of the mineral claims on McGrath mountain, which were recently optioned by the Kitsault-Eagle Silver Mines Ltd. On his return he stated that everything had been concluded satisfactorily, everyone being satisfied.

Summer Schedule of C. N. Steamships

The sailing of the Steamship Prince George from Anyox on Thursday last terminated the spring schedule. Next week, no boat of the Canadian National Steamships will arrive from the south. After next week the summer schedule will be followed. The Steamship Prince George or Prince Rupert will arrive at Anyox on Friday at 10 p.m. leaving on Saturday morning at 1 a.m. arriving at Stewart at 7 a.m. Saturday morning.

The Steamship Prince Charles will arrive at Anyox from the south on Monday at 11 p.m. leaving an hour later. She will arrive at Stewart at 8 a.m. on Tuesday.

Seven Men Developing Tiger

Development work at the Tiger is now well under way. Seven men are at present employed. A new tunnel is being commenced at the 240 ft. level. Work is in charge of Ed. Pickett, and P. E. Petersen is general manager.

ALICE ARM NOTES

L. Beardsley arrived on Monday from Los Angeles, California.

Frank D. Rice, who was a witness on the Sankey murder trial, recently held in New Westminster, returned north on Monday and has renewed the survey work at the Saddle property on Hasting's Arm.

Mrs. Hayes arrived on Monday from Vancouver. She will join Mr. Hayes at the Toric mine, and they will reside at Camp 8.

S. Darnbrough arrived on Monday from Vancouver. He will overhaul the electrical machinery at the Toric Mine.

The Steamship Chilliwack arrived in port on Monday with a consignment of explosives for G. W. Bruggy and T. W. Falconer.

Steve Briggs had the misfortune to be thrown from a gasoline speeder trailer during the week, sustaining a fractured skull. He was at once rushed to the Anyox Hospital, and late reports state that he is progressing favorably.

Ministry Well Represented On Monday's Boat

The "Catala" on Monday carried representatives of the ministry of various churches. Father Moriarty of the Roman Church left after completing a series of addresses. Rev. J. S. Brayfield accompanied by his wife was en route for Prince Rupert where he will attend the diocesan synod of the Anglican Church. Rev. C. D. Clarke, until recently pastor of the United Church here left with Mrs. Clarke and the children for Britannia Beach which will be Mr. Clarke's next pastorate. Capt. R. Boyes of the Salvation Army proceeded to Stewart where he will continue to solicit subscriptions for mission work in the north.

Dr. Hanson Will Conduct Alice Arm Survey

Dr. G. Hanson will examine the numerous mineral occurrences in the above quadrangle at Alice Arm during the present summer, on behalf of the Canadian Department of Mines. Geological mapping will be deferred until another season, when the topographical map for which Mr. Bartlett is making surveys is available.

Arrivals at the Anyox Hotel from Vancouver on Thursday, were: E. J. Allaire, J. M. Turner, Walter Winkleman.

Road and Trail Work Around Alice Arm

The repairing of the Dolly Varden railway is practically completed. This work has been undertaken by the Department of Public Works. The track has been repaired; new ties put in at numerous points and bridges and trestles strengthened.

It has been decided to construct a new wagon road from the Upper Kitsault suspension bridge to the Toric Mine. The road will be built on a six or seven per cent grade and will greatly facilitate transportation to the mine.

The wing dam, which protects the town of Alice Arm from the Kitsault River will be lengthened for a distance of about 300 feet, and it is believed that this work will ensure the town from any possible danger of being flooded during high water periods.

Up to the present no word has been received from the south regarding the building of the new road up the north-east fork of the Kitsault river.

Ore Samples Wanted For Exhibition

An appeal has been made by the officers of the Alice Arm branch of the British Columbia Chamber of Mines, to owners of mineral claims requesting them to bring in ore samples for display purposes at the Vancouver and New Westminster exhibitions which will be held in August.

If impossible to bring samples to town, leave them on railway or pack trail, and they will be taken care of.

It is hoped that Alice Arm will this year send the best display in its history.

Our mineral riches are becoming more widely known, and it is our business to keep the name of the camp before the public by advertising our wares.

 E. MOSS, Editor and Publisher.

The summer season, now at hand, brings with it an economic ill that annually takes a toll of thousands of ill gained dollars. It is the itinerant peddler, the house to house door bell ringer and those of his kind who travel from place to place plying their trade and imposing on the credulity of the unthinking, offering bargains in this and that which most always turn out to be inferior merchandise sold at higher prices or in short measure. It is well to beware of these fellows and the plausible stories that they tell to engage the interest and confidence of their prospects.

They are of many varieties and with as many kinds of merchandise to sell.

Inferior articles of many kinds are peddled about hither and yon during the summer. The automobile has been great aid to this kind of chicanery for after he has landed a few gullible prospects a day's journey will take him far away and beyond the reach of the buyer who discovers that he has been victimized.

Blacksmith Nominated By Comox Liberals

J. W. McKenzie Jr., blacksmith and mayor of Courtenay, has been nominated by Comox Liberals to contest this riding at the forthcoming provincial election. The sitting member is Paul P. Harrison of Cumberland, Dr. George K. McNaughton, Cumberland physician, is the Conservative candidate.

The carpenters' union embracing membership in Vancouver of nearly 1200 men decided to withdraw from the Canadian Labor party because of the Party's attitude in favor of the franchise and naturalization for Orientals.

Form No. 13, (Section 39.) LAND ACT.
NOTICE OF INTENTION TO APPLY TO PURCHASE LAND

In Cassiar District, Land Recording District of Prince Rupert and situate near Alice Arm, on the Kitsault River. TAKE NOTICE that I, William B. Bower of Alice Arm, occupation gardener, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted at the North-west corner of Lot 54 thence northerly 20 chains; thence westerly 40 chains; thence southerly 20 chains; thence easterly 40 chains to point of commencement, and containing 80 acres, more or less.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,135; Structural Materials and Miscellaneous Minerals, \$50,175,407, making its mineral production to the end of 1926, show an

Aggregate Value of \$988,108,470

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for five years, 1921-1925, \$214,726,650; for 1926, \$67,188,842.

Production Last Ten Years, \$429,547,755

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia

Outlook Is Bright For British Columbia Silver And Copper

British Columbia, producing copper, lead, zinc, gold and silver, has been experiencing in recent years an unprecedented and steadily growing activity in her metalliferous mining industry. A briskly moving stock market accompanying this development. On which is cause and which effect we shall not attempt to give judgement.

But a development worthy of note since it has a direct bearing on the industry and on the mining stock market, is the firmer tendency to be noted in copper and silver.

During the past month silver has come up from about 57½ cents to its old level, 60 cents, a price long accepted by assayers as normal. There is a likelihood that the quotation on silver will stabilize at a level somewhat above 60, say observers in New York.

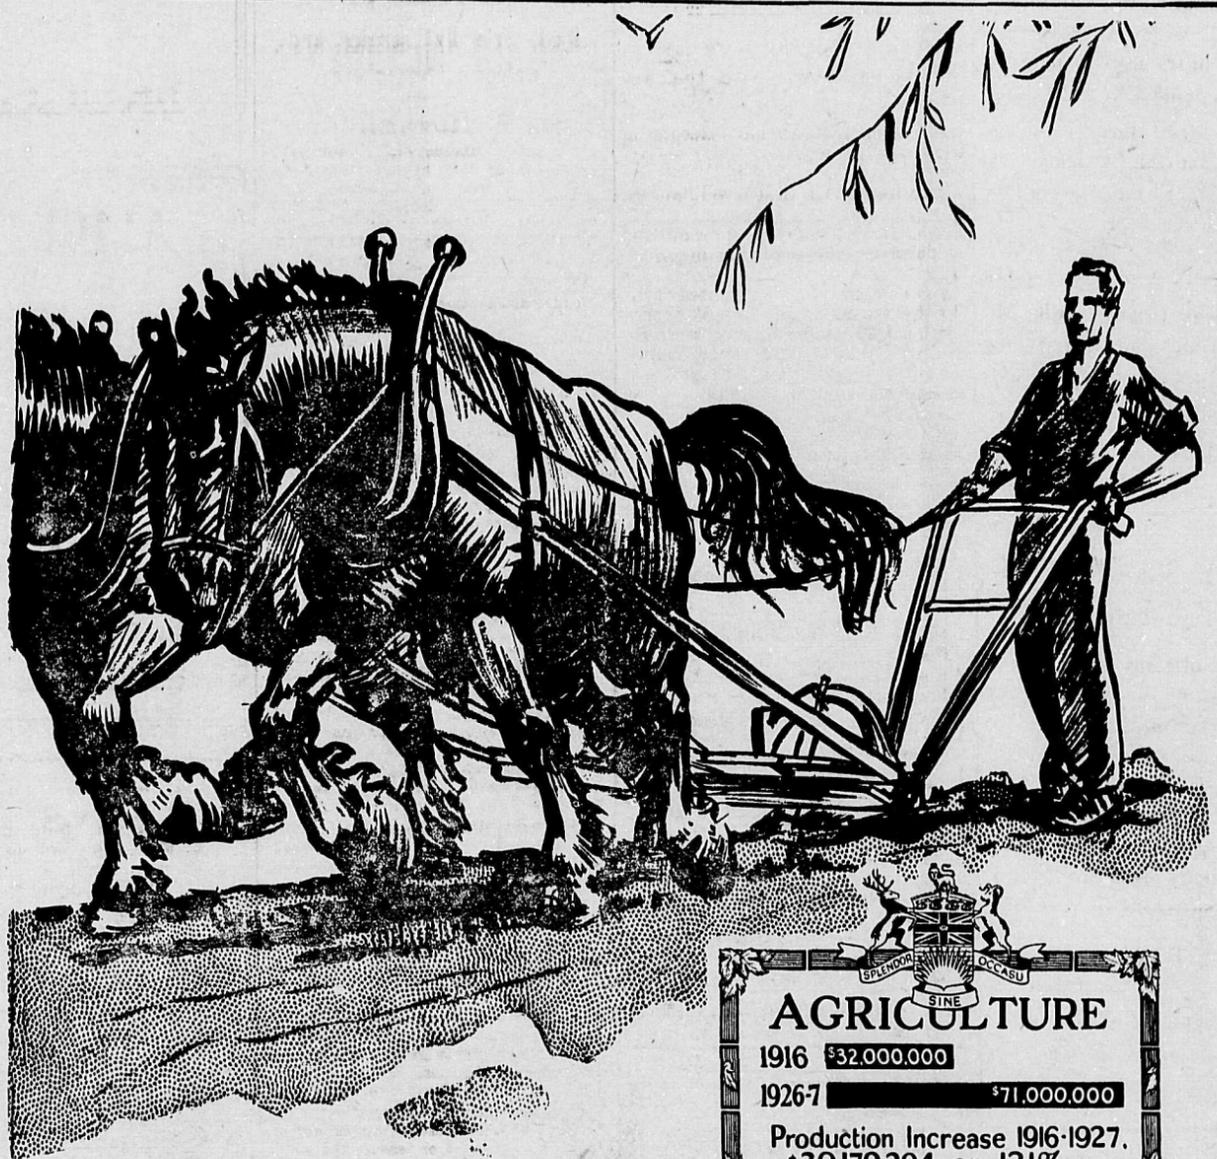

Copper, which seemed for some time unable to lift itself above 14 and 14½ cents, despite the assistance of the producers' machinery regulating output and export, has suddenly displayed marked strength and lately has been selling around 14½ with higher prices indicated. An actual shortage of copper is said to exist. European demand is unexpectedly great.

Canada's richest soil

THE backbone of the world is its farm population... the strength of a nation is judged not so much by its natural resources as by its ability to produce FOOD... mankind's great essential.

Canada has long been called "the Granary of the World"... but few people seriously think of British Columbia as an agricultural province. Actually, more than three million acres are now under cultivation... 19 million acres are still available... an area equal to Wales, Denmark and Belgium combined!

Agriculture has made greater progress in British Columbia during the last ten years than any of our industries. The actual increase in volume was 121%... from 32 million dollars to 71 million. Think of it! Twenty-three thousand farmers on three million acres of land producing food stuffs valued at 71 million dollars... and our actual total agricultural wealth estimated at 300 millions!

British Columbia's average return per farm during the last two years has been \$3,087 per annum... an average of \$23.67 per acre under cultivation, as against \$12.13 for all Canada. A record!

The strongest argument for our highly fertile soil and our productive climate is found in the ten years' average yield based on Federal Field Crop Reports. These reports prove that our soil and climate yield more liberally than any other province.

TEN YEARS AVERAGE ANNUAL YIELD PER ACRE OF FIELD CROPS

Field Crops	Man.	Sask.	Alta.	B.C.
Spring Wheat, bu.....	15.4	14.9	15.8	23.2
Oats, bu.....	32.3	30.9	32.5	48.6
Barley, bu.....	24.0	23.1	24.6	33.1
Rye, bu.....	15.9	16.1	13.7	22.5
Peas, bu.....		20.0	18.8	25.3
Mixed Grains, bu.....	25.6	29.6	28.4	35.0
Potatoes, cwt.....	75.2	75.0	85.8	108.2
Turnips, etc., cwt.....	95.8	109.3	107.3	187.4
Hay, Corn, Clover, tons.....	1.5	1.4	1.2	2.1
Fodder Corn, tons.....	6.0	4.8	4.1	10.6
Alfalfa, tons.....	2.3	2.0	2.2	3.1

Livestock, dairying and fruit farming are all prospering. Poultry revenue increased 100% in 18 months and the eyes of the world look to our fair province for even greater achievements. Hen No. 6... the most prolific egg producer ever hatched... has been our "World Poultry Ambassador," and has forced the world to recognize our poultry supremacy!

A most encouraging feature of British Columbia's agricultural situation is the keen interest our government has and is taking in this vital question. A stabilized prosperity for all can only be assured by enabling the farmer to gain a fair profit. With all shoulders to the wheel, great things will be accomplished and the tangible progress that has been so outstanding over this ten years record will seem small when another decade has passed.

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

The baseball game of the season will be held on Wednesday, June 13th. when the benedicts and single men will battle for supremacy. The game is being sponsored by the Christ Church W. A. and Guild, and promises to be full of thrills. A game no one should miss.

On Board Catala
June 5th. 1928.

To The Herald
Alice Arm.

Dear Editor,

Through the medium of your columns I would like to express my very hearty appreciation to my many friends in Anyox for the sympathetic support given me during my pastorate with the United Church.

I am very grateful to the members and friends of the Church who presented me with such a well filled purse. I would also take this opportunity to thank the "Herald" and the "Granby News"

for their many kindnesses.

We leave Anyox with feelings of good will to all and with many happy memories which we will always cherish.

Yours truly,
C. D. CLARKE.

Since Confederation, we have in Canada cut down with the axe 100,000 square miles of timber. But this is insignificant compared with the 800,000 square miles which have been destroyed by fire.
