## New Council Elected By Anyox Community League

The members of the Anyox Community League went to the polls on Wednesday to elect a Council for the coming year to carry on the affairs of the organization. There were thirteen candidates to choose from to fill the posts of eight councillors.

Following is the names of the successful candidates and the number of votes polled by each one:

T. W. Cavers .....167  
D. Macdougall.....142  
R. Gale.....126  
F. Dresser.....111  
Ed. Johnson.....108  
A. H. Kirby.....105  
R. J. A. Manning .....105  
Don Cleal .....104

T. W. Cavers, D. Macdougall, F. Dresser, Ed. Johnson and R. J. A. Manning were all members of the previous Council, while R. Gale, A. H. Kirby and Don Cleal will serve their first term as councillors this year.

The members of the Community League are to be congratulated on the wise choice made in selecting their members for the Council. They are all well known as highly respected and alert citizens, and there is no doubt that the Anyox Community League under their guidance will continue to prosper.

Rev. J. S. Brayfield, F. Dodsforth and George Sellars were the returning officers at the election.

## Officers Elected Alice Arm Athletic

The Annual General Meeting of the Alice Arm Athletic Association was held at the Alice Arm Hotel on Saturday evening. Officers for the coming year, which are as follows: President, J. Trinder; Vice-President, Al. Falconer; Secretary-treasurer, Mrs. H. F. Kergin. Executive Committee, Mrs. O. Eviindsen, T. W. Falconer, A. D. Yorke.

The question of fees for the members of the Tennis Club for the coming year will be decided at a future meeting.

It was suggested that the association sponsor the Empire Day celebration on May 24th. as was done last year. As funds are needed this will probably be carried out.

## Presentation Made To H. B. Porteous By Comrades

On Friday, February 27th, the members of the Anyox Branch of the Canadian Legion, B. E. S. L., foregathered at the Elks' "Dugout" ostensibly for the purpose of a housewarming for their new quarters, recently opened, but in reality to do honor to their departing comrade, H. B. Porteous who is leaving the district.

A pleasing program of songs and music had been arranged, vocal items being given by W. F. Eve, R. Lavery, Tom Pinckney and J. Varnes, while the musical turns were attended to by the Legion Orchestra.

At a suitable interval in the proceedings the president, Wm. F. Eve, on behalf of the members, presented Comrade Porteous with a silver cigarette case. He referred to Bert's long membership in the Legion in Anyox, his popularity, and his valuable work as Treasurer of the Anyox Branch. In replying, Bert assured his comrades that no souvenir was necessary to remind him of the very pleasant associations he would cherish of the Legion in Anyox, and expressed his regret that his connection with the Branch was about to be severed. The meeting closed with the singing of: "For He's a Jolly Good Fellow," "Auld Lang Syne," and "The King."

## Officers Elected For Mine Branch Community League

The first election of Councillors for the newly formed Mine Branch of the Anyox Community League was held on Saturday. Seven candidates had been nominated to fill the positions of five councillors.

Those elected to serve on the Council of the Mine branch, were: D. Babich, Ed. Blundell, J. D. Ferguson, K. Montgomery, S. McIntosh.

All of the above are active social workers at the Mine and there is no doubt but that they will place the Mine Branch on a firm footing during their term of office.

Following an enjoyable evening at cards a party of Anyox friends of Mr. H. B. Porteous presented him with a fine leather club bag this week. Mr. Ed. Blundell made the presentation.

## Government Men Issue Golf Challenge

Four members of the Provincial Government staff at Anyox have issued a challenge to a similar number of employees of the Granby Company for a golf match. There is no doubt but that the challenge will be accepted. While the Granby Company have a larger number to choose from than the Government, the latter team will be strengthened by the inclusion of the local champion, and the others are no mean golf players. It is now up to the Granby Company to pick their best team and try conclusions with their sporting opponents.

## United Church Activities

A United Church Service will be held at the Mine School, tomorrow, Sunday March 8th at 2.15 p.m. Sunday school will be held at 3.15 p.m.

Remember the date of the Beach Ladies' Aid E. U. B. March 24, at 2.30 p.m. in the United Church Hall. Come and supply your home needs. Afternoon tea served.

## Presentation Made to Mrs. V. S. McRae

As an expression of esteem and appreciation of her untiring work during the training and preparations for the recent "Sunrise" Cabaret, the ladies of the "New York Follies" who took so successful a part, have presented Mrs. V. S. McRae with a silver sandwich plate.

## McColl's Team Head of Golf Tournament

The Elks' Miniature Golf League is going strong. McColl's team is at present in the lead, but McConachie's and Machine Shop both have a good chance of coming out on top.

Mack Tornquist and Arvid Lundstrom were each fined \$25 and costs or thirty days, on February 23 on a charge of vagrancy, breaking doors.

The Anyox Community League Badminton Club will hold a mixed doubles tournament in the Gymnasium on Wednesday, March 11th, starting at 7 p.m.

Advertise in the Herald

## Work on Kitsault River Wing Dam Closes Down

The work of lengthening and strengthening the wing dam above the town of Alice Arm, which was undertaken by the Department of Public Works to relieve unemployment in this district, was concluded last week-end.

The work occupied three months and an average of 11 men were employed. The dam has been extended a distance of 500 feet, and the weak spots have been strengthened at all points. It is considered that the dam is now perfectly safe at all points to resist any pressure of water when the Kitsault River is in flood.

A small crew of men are now engaged in straightening out the course of the river above the big suspension bridge. During the high water periods last fall, a gravel bar of considerable proportions formed in the centre of the stream. A drag line is now engaged in lowering the bed of the river on the east side, and unless unforeseen circumstances happen the river will cut a wide and deeper channel here during high water and convert the bed of the stream into a straight line. At the present time the main stream strikes the dam head-on, but the present operations will divert a lot of water to the centre of the channel.

## Building of Alice Arm Church Commenced

Building of the new Anglican Church at Alice Arm commenced this week. It will be 18 feet wide and 30 feet in length. While not of very great size, it will no doubt be large enough to accommodate the congregation for a few years. It stands in the residential section of the town on the corner of Victoria Street and Second Avenue, and is an ideal location.

Mrs. J. Thomas with her son John and niece Katherine left Alice Arm on Monday for Anyox where they joined Mr. Thomas, who has spent the past few months at the Mine. Mr. Thomas was proprietor of the Sunset Hotel which was destroyed in the big fire at Alice Arm last summer.

Bar silver was quoted at 27 cents an ounce on the New York market on Monday.

## Celts and High School Win on Monday Basketball

The first of the play-off games for the coming trip to Premier was played between the Celts and Sheiks, resulting in a win by nine points for the Celts. The game was played on Thursday, February 26th. Scores: Celts 28. Calderoni-14. Steele-4, McDonald-8, Hill 2. Sheiks 19—Dresser-2, L. Gillies-4, J. Gillies-6, Lindgren 6, Kent-1.

The Senior Girls league game ended in a narrow win for the High School over the Pats. Scores: High School 6. L. Dresser 4, G. Peters-2. Pats 5—K. Eve-2, H. Calderoni 3.

## Exciting Basketball On Monday

A very exciting game was played in the Gym on Monday between the Sheiks and Micos in the second of the playoff series.

Right from the start it was a ding-dong battle, both sides having a tally of fourteen points at the interval. In the first half Dwyer made use of his height to score 13 of the Micos points, while Dresser and J. Gillies bagged most for the Sheiks. In the second half the Sheiks made several changes and the game continued to be very hotly contested. In spite of the Micos losing two of their men on account of excess fouls, their substitutes carried on to help the Micos win by four points. Scores: Sheiks, Dresser 8. J. Gillies-12, L. Gillies-5, Watson 1. Total 26. Micos—Dwyer-19, Lazorek-4, Deeth-4, Anderson-2, Flye-1. Total 30.

## Price of Copper Raises Slightly

The price of copper advanced one quarter of a cent a pound in the export market at New York on Monday to 10.90 cents c. i. f. European base ports. The rise by Copper Exporters Inc., brought the foreign price to a level of 10½ cents a pound in the domestic market.

The possibility of higher prices for silver is slowly improving. The world is now commencing to realize that sooner or later silver must be called upon to assist gold in carrying the financial burdens of the world. The shortage of gold is becoming more acute each year, and as the wealth and population of the world increases, the demand for gold will become greater. It has been shown by several economists that a world shortage of gold inevitably leads to falling prices, such as we are witnessing today. There are no known large deposits of gold existing that can supply the present deficiency. That being the case, the financiers of the world will be forced to adopt bi-metallism. There seems to be no alternative. The adoption of bi-metallism would not probably solve all of the world's troubles, but it would greatly assist as a stabilizing influence and the great trade depressions, one of which we are now experiencing would be considerably minimized. Bi-metallism would of course, mean a standard market price for silver, and this would automatically eliminate China's present financial difficulties, and allow her 400,000,000 population to trade with the rest of the world.

Did you ever visualize the fact that more fortunes have been made in modern times by advertising than any other means? Perhaps you have never realized it, but it is nevertheless true. Constant advertising alone has been the result of the tremendous sales of nationally known goods. The manufacturers of these goods have learned by experience that as soon as advertising is curtailed the demand for their goods decreases in proportion. To those who have anything to sell even in small towns such as Anyox and Alice Arm, advertising is just as essential to them as the big manufacturer. Whether you have merchandise to sell, fire or life insurance, a meal, a ticket to a picture show, dance or concert, a game of pool, or whatever it is, then don't be afraid to advertise it in your local paper.

**Brief Items Provincial Activities**

A promising discovery of lead-zinc-silver has been made north of Port Hardy, Vancouver Island.

Grain shipments through Vancouver to a recent date totalled 36,545,443 bushels as against 18,679,810 bushels for the same period a year ago.

Some figures taken to January 1st of this year seem rather at variance with a period of depression. The number of motor cars registered in the province to January 31, 1931 was 62,119 as against 58,522 for the same period a year ago, an increase of 3,597. The number of telephones this year is 126,251 as against 122,359 for the previous year, an increase of 3,892. In the number of telephones to population British Columbia has an easy lead over all the other provinces.

During 1930, in Greater Vancouver 27 new manufacturing establishments began operations with an estimated payroll of over \$300,000, and 36 established factories invested over \$1,500,000 in new buildings and plant expansion. There are about 1600 manufacturing plants in Vancouver. Last year the volume of business on the whole was below that of 1929, with an average about equalling that of 1928.

Following the success of fur-farming, an attempt is now being made to promote "fish farming" in British Columbia. An undertaking is under way to obtain from the Provincial Government the lease of a small lake for the purpose of stocking it with whitefish, lake trout or other commercial species, which in three or four years could be taken out to supply the market with fresh water fish.

Advertising shows that you are alert, and anxious for business, and there is just as much advantage for you in advertising your small business in a small paper as the big business who spends millions of dollars on advertising. There is no surer way of your message reaching the public than by advertising. If you have anything to sell, try an advertisement in the Herald, and you will probably be surprised at the results obtained from the small investment.

**Montreal Symphony Orchestra On Air**

This is the Montreal Symphony Orchestra which will broadcast a Fireside Symphony Hour every Saturday between 5.30 and 6.30 p.m. E.S.T., starting Saturday, Feb. 21, over the network of the Canadian Pacific Railway Company's Telegraphs from Winnipeg to Halifax. It will play symphony concerts of a very high order and the conductor, Mr. Douglas Clarke, Dean of the Faculty of Music, McGill University, (inset) has drawn up a series of programmes which will be representative of three centuries of music. The programmes will be chronological in character and each will be representative of music written between the 17th, century and the present. They will begin with works or part of works by Bach, Handel, Haydn or Mozart, continue with Beethoven or Brahms, then go on to Wagner or Tchaikowsky, and conclude with the moderns. English composers will be prominent

in the concerts, including such moderns as Elgar, Holst and Vaughan Williams, while an early English Tudor composer will also be heard. In this way the concerts will be representative of the best in music for the last three centuries, in which the art of composing reached its height, and every listener following the ten programmes already projected will acquire a knowledge of music which it would take the ordinary concert goer years to get, apart from the enjoyment of listening. The Montreal Symphony orchestra has earned high praise from critics, and its range of subject matter as well as its perfection in technique is remarkably well developed. The concerts will be broadcast from Tudor Hall, in Montreal, and are made possible by the Canadian Pacific Railway.

### Commission Will Investigate Oriental Problem

A recommendation that a select committee of the Legislature be appointed to consider the whole Oriental problem as it affects British Columbia with authority to take evidence and bring findings before the Legislature will be made by the committee on agriculture.

The Accused—I was not going thirty miles an hour—not twenty, not even ten; in fact when the officer came up, I was almost at a standstill.

The Magistrate—I must stop this or you'll be backing into something. Twenty dollars.

### Here and There

(704)  
K. G. MacKay, senior dairy produce grader for Western Canada, states that Manitoba's creamery butter production in 1930 showed an increase of 84.6 per cent. over 1921.

About 10,000,000 pounds of fish are caught annually in the large and small lakes of the province of Saskatchewan and approximately 1,400 men are employed in the industry.

Aggregate value of field crops grown in Canada in 1930 is officially estimated at \$631,592,000 and total area sown to crops was 62,214,670 acres, an increase over 1929 of about 1,000,000 acres.

In a final estimate of the wheat production of Canada in 1930, the Canadian Government Bureau of Statistics places the total yield at 397,872,000 bushels, an increase of over 2,000,000 bushels compared with the previous estimate.

From end of September 1930 to January 15, 1931, over 26,000,000 pounds of sugar was produced at the beet sugar factory at Raymond, Alberta. The industry has grown to substantial proportions in that province of late years.

From Winnipeg a radio fan writes:—"Melody Mike" is talked around the offices and warehouses in Winnipeg as though he were a real Canadian Pacific official." The reference is to the Canadian Pacific radio offering on Monday nights across the Dominion.

Vancouver will have a team of fine golfing calibre on the fairways of the Oak Bay course where the third annual mid-winter Empress golf tournament for the E. W. Beatty trophy will be staged February 23-28. Entries are in from Victoria, Seattle, Portland, Tacoma and cities of the prairie provinces.

Grain marketed along the western lines of the Canadian Pacific Railway from August 1 to January 31 amounted to 165,793,000 bushels of which 140,928,000 bushels were wheat. The total marketings of grain along Canadian Pacific lines represent 54 per cent. of the total grain marketed in western Canada to that date.

Canada now has more than forty bird sanctuaries specially reserved for bird protection purposes. These are scattered across the country from Nova Scotia to British Columbia. Some of the provincial governments also maintain similar reserved areas for the benefit of native bird life. A census of ten such sanctuaries, not including young birds hatched in 1930, was 100,836 of 16 different species.

Over 97 per cent of the assets of the Canadian Pacific Railway are in Canada, and in drawing attention to this fact some months ago, Mr. E. W. Beatty, Chairman and President of the Company, went on to say that he would be glad to see an increase in the Company's shareholders in this country. Since that time the increase has been most marked, as is shown by the following statement of Canadian Pacific common shares held in Canada now and at the end of the two previous years:—

Dec. 31, 1928.....	69,719
Dec. 31, 1929.....	77,848
Dec. 31, 1930.....	91,399
Increase in two years....	36,281

### Newsy Items Concerning Canadian Progress

Interesting items culled from Canadian sources by the Canadian National Railways Agricultural Department:

Canada has about one-sixteenth of the known coal resources of the world.

Canada's average yield in potatoes last year was 142 bushels per acre, the total yield being nearly 82,000,000 bushels.

Fruit and vegetable canning factories in Canada now total about 300, with an annual production valued at about \$40,000,000.

Canada has some three billions of dollars invested in her transportation systems, including railway and steamship lines, another two billions in motor highways, and a billion in hotels.

One of the large honey producers of Western Canada is Duncan Chalmers, who lives near Edmonton, Alberta. Last year he produced 8000 lbs., of honey from 56 colonies of bees, which had a value of \$1500. Mr. Chalmers also had a net revenue of \$600 from his poultry. He carried 300 white leg-horns, which means a net revenue of \$2 per hen.

Vancouver, B.C., Feb. 28. The completion of the steelwork on the new Canadian National Railways hotel here makes the topmost point

### Prairie Farmers Will Enter Politics

Saskatchewan is assured of a new farm party.

By virtually a unanimous decision, the United Farmers of Canada, Saskatchewan section resolved to enter politics. They will seek the backing of all citizens in electing candidates on a policy aimed at ultimate social ownership and non profit production.

A backwoods mountaineer one day found a mirror which a tourist had lost.

"Well, if it ain't my old dad," he said, as he looked into the mirror. "I never knowed he had his pitcher took."

He took the mirror home and stole into the attic to hide it. But his actions didn't escape his suspicious wife. That night while he slept she slipped up to the attic and found the mirror.

"Hum-um," she said, looking into it. "so that's the old hag he's been chasin'."

of the cupola the third highest structure in Canada. It is exceeded by but two buildings in Toronto and is the largest piece of construction work ever attempted in Western Canada. The topmost point of the cupola will reach approximately 370 feet and over 10,000 tons of steel were used in the construction of this massive frame.

Workmen are now busy with the stonework and pouring concrete for the various floors. It is expected that the hotel will be ready for occupancy in 1932.

Office: Opposite Liquor Store

"The world is casting about for ways to economize in the use of gold," says Assistant Secretary of Commerce Klein of the United States. "Economists warn that unless new gold mines are discovered, gold will become an even scarcer and more precious metal. That would mean sagging prices and there would be a damper upon business enterprise. The use of gold in settling international accounts may sometime be reduced greatly by settlements in securities."

While a surgeon was performing an operation, a fire started in a building directly opposite the hospital, and soon the operating theatre was lit up by the reflection of the flames. Turning to one of the nurses, he said: "I say, nurse, I think we had better have the blinds drawn. I shouldn't like the patient to think, when he comes to, that the operation hasn't been a success."

Barber: "How would you like your hair cut, Sir?"

Colonel: "Line up and number off from the right, odd numbers each way half an inch, dress smartly and dismiss."

"Can you give me a room and bath?"

Clerk: "I can give you a room, Madam, but you will have to take your own bath?"

The prison visitor was going round the cells, and was asking rather fatuous questions. "Was it your love of drink that brought you here?" she asked a prisoner. "Lor', no, miss," replied the man, "you can't get nothin' here!"

*For Results, Advertise in the Herald*

**33,117,314 Pieces is Long Laundry List**

Can you imagine a bewildered Chinaman trying to total a laundry list of 33,117,314 pieces? But there is one like that. It is the total of washing done by and for the Canadian Pacific Railway Company in 1930, in Canada, including hotels and bungalow-camps; sleeping and dining car service, (which also operates station restaurants), and the British Columbia Coast boat service. If one stopped to sit down and figure out the gallons of water and bars of soap required for these operations, the results might be even more astounding.

The hotel, department owns 789,821 pieces of linen; the dining and sleeping car, service some 1,500,000 and the British Columbia steamships another, 247,000, making a grand total of, 2,536,821 pieces. These include all "flat-pieces", such as table-cloths, sheets, napkins, towels, pillow-cases, etc; the white coats worn by the company's servants in

the various departments, and, in the hotels, a certain amount of laundry, done for guests. In the hotels, too, blankets, bed-spreads, rugs, and so forth must be considered. Every piece of laundry handled becomes a laundry-piece each time it appears in the wash. Thus a single table-napkin may be a laundry-piece over and over again, according to the supply of linen needed and available.

The picture shows a battery of washing machines in the laundry of the Royal York Hotel, Toronto, the largest hotel in the British Empire. Similar equipment in the great chain of Canadian Pacific Railway hotels throughout Canada handles the great laundry list in various centres, with the assistance, in certain districts, of laundries outside the company's service. But the Standard maintained is the same everywhere, immaculate cleanliness being the motto from coast to coast, both ashore and afloat.
