Granby Co. Made Profit Of Over \$2,000,000 Last Year

The financial report of the Granby Consolidated Mining, Smelting & Power Co. Ltd. for the year ended December 31st. 1929, shows a profit of \$2,806,496 after taxes, interest and depreciation, but before depletion, equivalent to \$6.23 a share on 450,000 shares (par \$100) of capital stock. This compares with \$1,552,194, or \$3.45 a share, in 1928. After setting up a reserve for depletion, surplus for the year amounted to \$2,021,412, against \$775,936 in the previous year. Dividend payments at the rate of \$8 per share amounted to \$3,149,787.

Charles Hayden, chairman of the board, says in part: "Refined marketable metals produced during 1929 amounted to 60,854,591 pounds of copper, 428,496 ounces of silver and 10,558 ounces of gold.

"Total income for the year exclusive of depreciation and depletion, for which there was no cash outlay, amounted to \$4,179,095, equivalent to \$9.29 per share on outstanding stock, compared with \$2,971,071, or \$6.60 a share in the previous year, increase being principally due to higher average copper prices received during the year.

"Net quick assets at the end of the year amounted to \$5,854,820, of which \$3,969,308 was in cash.

"Capital expenditures made during the year amounted to \$284,224. No new construction is contemplated at Anyox, but a limited amount of new equipment and improvements will be necessary during the year at Allenby."

Charles Bocking, president, says in part: "Average cost a pound of refined marketable copper, after allowing credits for precious metals and miscellaneous income, but exclusive of depreciation, depletion and income taxes, was 10.614 cents compared with 9.188 cents in 1928.

"Increased cost a pound of copper was due to higher wage scale paid during the year, and also on account of treatment of lower grade ore, made possible by reason of higher price received for copper over that of previous year.

"Production from the Bonanza mine started in February and continued throughout the year.

"Ore reserves at the end of the year were 14,341,970 tons compared with 14,713,132 tons at beginning.

Anyox Basketball Team Leaves For Rupert

The Celts basketball team left for Prince Rupert on Wednesday, April 23 and will return today, April 26. Mr. Norton Youngs accompanied the team as coach and chaperone.

The team played games in Prince Rupert on Thursday and Friday nights and will play return games at Anyox on Monday and Tuesday, April 28 and 29.

Tickets can be obtained from any of the members of the team and during their absence from their parents.

Stuart Steele accompanied the team and will relieve Sydney Armstrong who accidentally cut his knee. Those who took advantage of the excursion fare were: Sydney Armstrong, Charles Hill, Frank Dodsworth, Arthur Dodsworth, Maxwell Patrick, Tony Calderoni, Ivor Davis, Norton Youngs coach, Stuart Steele and Mr. Joe Graves.

Ernest Barclay left on Wednesday for a holiday in the East.

ing of the year.

"During 1929 a more extensive exploration and scouting programme was carried on than heretofore, but nothing of interest was encountered. Options were taken on several small prospects but the work did not disclose anything to justify a continuation of options and they were therefore relinquished.

"Anyox mill treated 1,562,400 tons of ore averaging 1.19 per cent copper in 1929 with recovery of 91.65 per cent copper. This compares with 1,219,700 tons in 1928 averaging 1.35 per cent copper and a recovery of 86.54 per cent. Allenby mill treated 927,873 tons of ore in 1929, averaging 1.46 per cent copper with recovery 84.73 per cent. This compares with 889,020 tons in 1928 averaging 1.48 per cent copper and recovery 83.37 per cent.

"Tonnage of ore, concentrates and primary material smelted at Anyox amounted to 310,716 tons. Coke ovens at Anyox were operated to meet requirements of the smelter. Production amounted to 33,340 tons of coke, together with usual by-products of the ovens.

"Production of commercial coal at the Cassidy mine amounted to 141,115 tons, part of which was used in coking operations at Anyox and the balance sold."

The annual meeting will be held in New York, May 6.

Alice Arm Bean Supper Nets Nice Sum For Church Fund

Beans, and yet more beans, brown luscious juicy ones, cooked in the best Bostonian style; potato salads, pickles, Boston brown bread, white bread, cakes, pies and fruit salads featured the bean supper at Alice Arm on Monday evening.

All of this was obtainable for the modest sum of 50 cents, and there was no stinting. Nifty waitresses were ever on the alert to see that everybody's hunger was satisfied, and, "Won't you have some more beans," "Do try this fruit salad," or "You must have a piece of this pie," was heard on all sides. While coming or going your attention was drawn to the fact that a cake, resplendent in white icing was pleading for you to guess its weight. It did not plead in vain either, for it was the means of realizing \$11.50. Proceeds from the supper were \$44.85, making a total of \$56.35.

It takes the ladies' smiles, plus good service and a lot of hard work to get the money. They were jubilant over the results, and everyone who attended the supper was equally happy.

The Alice Arm Women's Auxiliary of the Anglican Church deserve great credit for the excellent results attained. Preparations entailed an unusual amount of hard work. Those taking an active part on Monday, were: Mrs. L. O'Connor, Mrs. J. Wheatly, Mrs. O. Evindsen, Mrs. J. Wier, Mrs. H. F. Kergin, Miss Alice Kergin, Mrs. J. Trinder, Mrs. M. Smith, Mrs. W. M. Cummings, Mrs. E. Moss.

Proceeds will be devoted to the Anglican Church Building Fund.

The Women's Auxiliary wish to take this opportunity of thanking everyone who contributed toward making the supper so successful.

Kennedy Traps Four Large Wolverines

Tom Kennedy, the big game hunter of Alice Arm, Stewart and the north coast, and who arrived at Alice Arm early last fall, spent most of the winter trapping. He was successful in trapping four wolverines six miles up the Kitsault Valley, one of which he brought to town before skinning. It was on exhibition for some time and caused much comment. He also trapped some small game, but found the Kitsault Valley rather denuded. The killing of the wolverines has probably saved the lives of many goat.

The Parent Teachers' Association will hold a meeting on Monday, April 28 at 8 p.m. in the United Church Basement. Visitors welcome.

Boy Scouts Were Hosts To Large Crowd At Dance

The Anyox Boy Scouts were hosts at an enjoyable dance held on Easter Monday. Dancing commenced at 9 p.m. and terminated at 2 a.m.

Novelty dances of various kinds were held and caused much amusement. Music was supplied by Messrs. J. Peel, S. Peel, A. Stenton, C. Shea, J. Pinckney and J. Donald. Much credit is due Bill Cavers for his excellent plans in carrying out the evening's entertainment. The printed programs proved very efficient for such a large number.

The three novelty dances created a great deal of excitement when the winners were finally called upon to receive prizes. Miss Doris Carter and Mr. Jack McColl were the couple who stood nearest the troop flag at the end of the dance. The couple who were standing under the Union Jack was Mrs. Gregg and Mr. A. Stewart. Mr. and Mrs. Sid Peters carried off the prize for the married couple nearest the centre of the hall. Mrs. F. Dresser was the holder of the ladies' lucky ticket, and Mr. M. Cranley carried off the men's prize.

The proceeds of the evening will be devoted to the Scout Camp Fund, in order that the boys may enjoy a real summer outing.

The Scouts and Rovers would like to take this opportunity of thanking all those who so willingly contributed towards the excellent supper, and also everyone who helped make the evening such a success.

Lack of Fuel Oil Closes Toric Mine

Owing to the bad condition of the road on the upper end, which made it impossible to get fuel oil through for the power plant, operations were suspended at the Toric mine early in the week. It is understood that as soon as the railway is clear of snow, and minor repairs made if necessary, that oil will be transported and operations again commence. Owing to heavy snow on the upper end it may be 4 to 6 weeks before transportation is open.

In a recent issue of the Herald, the account of the results of the Anyox Night Schools omitted the fact that these figures were only for attendance and not for the proficiency of the students.

Dalhousie Co. Rushing Development Work On Tidewater

Development work at the Tidewater Molybdenum mine is being pushed vigorously ahead by the Dalhousie Mining Co.

A new dock is being constructed so that freight of all kinds can be landed right on the property. The new crosscut tunnel, which will give an additional depth of 100 feet on all the ore ledges is now well under way. Surface stripping of the ore ledges is also being carried out, and has disclosed some of the best ore ever found on the surface. Pack horses for freighting supplies up the hill are expected to arrive next week.

It is the intention of the Dalhousie Co. to push development work as rapidly as possible so that a tonnage of ore sufficient to operate a concentrating mill can be blocked out. When this has been done no time will be lost in the construction of the mill.

G. W. Bruggy, who holds a half interest in the property, visited the mine during the week. He returned with some fine samples of ore, which were procured from the open cuts on the surface and also from the bottom of the shaft.

Anyox Loses First Two Basketball Games

Prince Rupert, April 25—Prince Rupert won the first two games for the northern basketball championship against Anyox, by the score of 30 to 21.

ALICE ARM NOTES

J. Nick returned on Monday from a trip to Vancouver.

J. Sleeman, superintendent at the Toric mine left on Monday on a visit south.

J. C. Rivers arrived in town on Monday from Victoria.

Constable W. Smith was a visitor in town from Anyox during the week, returning on Wednesday.

W. J. Robertson, who has operated the Kitsault House for the past few months left on Wednesday for Prince Rupert. He plans to go into the Taku country this summer.

J. Peacock, formerly foreman at Anyox mine and mining property owner of Alice Arm, recently left the latter town for the Taku country. He will spend the summer there prospecting with Mat Storey who left Alice Arm a short time ago.

For real bargains in boys' shirts and other clothing, read the Granby Stores advertisement on page four.

The reduction of the price of copper was not unexpected. For several months the supply has exceeded the demand, and a cut in price was bound to take place if this unsatisfactory condition of affairs did not improve. It was not expected, however, that a cut of four cents per pound would be made at one sweep. It is a drastic measure, but will undoubtedly quickly clean up all surplus stocks. The drop in price is to be deplored. It means that many thousands of dollars will be lost to British Columbia through wages. It also means that less interest will be taken this year in the development of new properties. Copper at 18 cents was the one bright feature of the mining industry. The price of all metals are now at low levels. It is predicted, however, by the well-informed, that with the expected general improvement of business the price of all metals will rise, due to an increased demand.

Following is an editorial published in the Vancouver Financial Times, dealing with the recent cut of copper prices:

"On April 15, the price of copper was cut, not by one or two cents per pound, but by no less than four cents per pound. This would signify well considered and concerted action among the large producers, which was precipitated by the non-observance of the Copper Export Association's program of curtailment by the smaller producers and customs smelters.

However, in view of the industrial depression throughout the world which has been responsible for a slump in commodity prices, it seemed ridiculous to visualize the price of copper being maintained on the high pinnacle created during exceptionally prosperous times.

A drop in the price of copper has been anticipated for some time and the uncertainty so produced has naturally retarded purchases by consumers which in turn has adversely affected industrial activity.

Now that the price has been placed on what would appear to

Production of Canadian Copper Is Increasing Each Year

Copper, while only produced in the proportion of about one pound to every 50 tons of pig iron, has attained an importance in the world's commerce which rivals that of iron and steel. To the extent that this is an electrical age, it is a copper era. One concrete result which has come from development of the new mining areas in Northern Quebec, Ontario and Manitoba, is the importance which the production of copper has assumed in Canadian mining. Output has more than doubled within the past four years, and continued growth is expected.

Production in Canada amounted to 121,000 tons in 1929, an increase of 20 per cent. over 1928. Owing to the higher prices prevailing, total value was more than 80 per cent. greater. In a recent survey, the Canadian Department of Mines stated that Canada should be producing copper at the rate of 160,000 tons a year by the end of 1930.

Canadian production represents at present only 5 per cent. of the world output, and in spite of prospective developments, it is unlikely that her contribution will be of sufficient volume, for some years, to have any great influence on market conditions. The price received by Canadian producers will therefore continue to be governed by world conditions of supply and demand.

Wrought iron resists rust because the iron silicate or the "slag" which the iron contains is really a form of glass which protects the metal shreds from corrosion.

be the rock bottom level, industries dependent on the utilization of large quantities of copper may be expected to respond and the wheels of commerce to revolve more smoothly.

What effect did the drop have on the leading New York copper stocks. On the first shock they dropped a few points and then gradually regained strength towards the close of the exchange, signifying that there was strong buying support and that confidence had not been destroyed.

There is no reason for alarm. On the contrary, the atmosphere is now clear and favorable reactions may be expected. At present conditions are subnormal but we now appear to be over the hump and can look forward to the future with greatest confidence."

A single fact will often spoil an interesting argument.

Guest: Gosh, but I'm thirsty.
 Hostess: Just a minute and I'll get you some water.
 Guest: I said thirsty, not dirty.

PROVINCIAL ELECTIONS ACT

Atlin Electoral District

NOTICE is hereby given that I shall, on Monday, the 19th. day of May, 1930, at the hour of ten o'clock in the forenoon, at the Court House, Anyox, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the said electoral district, and of hearing and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for the other purposes set forth in the "Provincial Elections Act."

Dated at Anyox, B. C., this 17th. day of April, 1930.
 H. B. CAMPBELL,
 Registrar of Voters,
 Atlin Electoral District.

AND FURTHER TAKE NOTICE that adjourned sittings of the above Court will be held at the following places:-

ATLIN—on Tuesday, the 20th. day of May, 1930, at the hour of ten o'clock in the forenoon, at the Court House, Atlin.

TELEGRAPH CREEK—On Wednesday, the 21st. day of May, 1930, at the hour of ten o'clock in the forenoon, at the Government Agent's Office, Telegraph Creek.

STEWART—On Thursday, the 22nd. day of May, 1930, at the hour of ten o'clock in the forenoon, at the Court House, Stewart.

Dated at Anyox, B. C. this 17th. day of April, 1930.
 H. B. CAMPBELL,
 Registrar of Voters,
 Atlin Electoral District.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that the Granby Consolidated Mining, Smelting & Power Co. Ltd., whose address is Anyox, B. C. will apply for a licence to take and use 160 c. f. s. of water out of Anyox Creek, also known as Falls Creek, which flows South-Easterly and drains into Granby Bay, about Lot 308 Cassiar.

The water will be diverted from the stream at a point about one and a quarter miles from mouth and will be used for power purpose upon the land described as Lots 308, 479, and 808, Group 1, Cassiar District. This notice was posted on the ground on the 27th. day of March, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

THE GRANBY CONS. M. S. & P. Co., Ltd. Applicant.
 By W. R. Lindsay, Agent.
 The date of the first publication of this notice is April 5th, 1930.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that the Britannia Mining & Smelting Company Ltd., whose address is Alice Arm, B. C. will apply for a licence to take and use fifty cubic feet per second and to store 200 Acre Feet of water out of Trout Creek, which flows South-West and drains into the Kitsault River, about three miles north of the Toric Mine.

The storage dam will be located at one half mile from Kitsault River. The capacity of the reservoir to be created is about 200 Acre Feet, and will flood about eight acres of land. The water will be diverted from the stream at a point about half mile North East from junction of the Kitsault River, and will be used for Power purposes upon the Toric Mine, described as Toric Lot 935, Cassiar District.

This notice was posted on the ground on the 24th. day of March, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. within thirty days after the first appearance of this notice in a local newspaper.

King's "Five Cent" Declaration Still Causing Comment

Ottawa, April 19th.—The Easter recess finds Parliament with little actually accomplished in the matter of legislation. Fair progress has been made with estimates and a number of resolutions and motions have been talked over, but the bill to stop export of liquor to the United States is the only piece of legislation of public interest which is within striking distance of becoming law. It awaits third reading in the Senate where its adoption is practically pledged. It is held up as a formality to permit progress with reciprocal treaty negotiations with the United States under which that country will help keep prohibited goods reaching Canada from the south.

There is a crystalizing of opinion to the effect that if any election is coming this year it will take place during the last week in August or the first in September. The budget will pretty well settle the point.

The capital is still buzzing with comment upon Premier King's declaration of April 3 to the effect that his government would not "give a single cent to any Tory Government," a declaration made with reference to Federal help to the provinces for unemployment and other purposes. Protests have poured in from five of the Provinces of Canada which provide much more than half the revenues of the coun-

try. Later on Mr. King raised the amount to "a five cent piece" but even this has failed to soften the blow.

Conservatives applaud what they term his indiscretion and see in it a solidification of their ranks in provinces where heretofore the federal and provincial organizations have not been notably co-operative. It is quite possible that Mr. King will modify, or explain the declaration which is being exploited as "the formal excommunication of five provinces from all direct benefits from the federal treasury." This actual fact is, however, that Mr. King cannot help any one province through the treasury without proportionate help to the others so that if the "Tory Provinces" are shut off the same fate awaits the others.

Pensions legislation is still in the hands of a special committee of the House, with Senate members sitting informally upon it. When the bill comes back it will be much more comprehensive than "the dole" for unemployable veterans which was first proposed.

Post Office Will Be Opened In Taku District

It is announced from Ottawa that a Post Office has been opened in the Taku district. The name of the new post office is Tulsequah, and is near the junction of the Tulsequah and Taku rivers. William Strong has been appointed postmaster and it will be open as long as navigation on the river is open.

Security Frauds Prevention Act In Force May 5th.

Arrangements are being made at Victoria to bring the Security Frauds Prevention Act into force May 7 with as little inconvenience as possible to brokers and to the

trading public. It is learned that the government department in charge of enforcement of the act is prepared to allow brokerage firms to carry on under an interim registration plan. Later after investigation of the qualifications and the circumstances in each case as re-

quired by the act the registration may be confirmed or rejected as the attorney general may decide.

The act provides for temporary registrations which shall be subject to cancellation at any time upon the order of the attorney general.

CONQUERED BY A SONG

Lands have been annexed by fire and sword, but the west coast of Vancouver Island has the unique distinction of being won by a song. The Spanish admiral who led an expedition against it in 1790, so charmed the heart of the warlike Maquinna, Lord of the Nootkas, with a theme song which he caused his merry men to sing over and over until the chief was placated, that the Indian made him welcome and gave him jurisdiction over the Sound and the Islands. Since that date the coast of Vancouver Island has become the rendezvous of tourists from all over the world. Within easy reach of Vancouver,

Victoria and Seattle, it yet offers the attraction of territory quite unspoiled by industrialism and a paradise of beautiful scenery and fruitful sport. As it was when the Spaniards first sighted it, so it virtually is today. Canadian Pacific steamships of the British Columbia Coast Service travel up and down this coast, and make it easily and comfortably accessible to visitors. Lay-out shows Canadian Pacific coastal vessel "Princess Norah" sailing among the islands off the Vancouver Island coast; lower left, Indian parade in village and totem pole with Lord and Lady Willingdon and Captain Jack, Indian Nootka Chief.

Advertising Does Get Results

If you wish to dispose of anything, or to broadcast any message to the public, advertise it in the Herald. The paper that is read by everyone in The District

Alice Arm Is Presenting Weir Appearance

Alice Arm at the present time somewhat resembles a cyclone stricken town. Houses are to be seen standing at all angles, on lots, streets and lanes, while Al. Falconer's tractor, Charlie Ripley's horses, and hand winches snort and strain to get them into their new positions. Piles of logs, timbers and discarded lumber are scattered far and wide, in the haste to get everyone moved as soon as possible.

The whole cause of the commotion is that everyone is anxious to move their buildings from the streets and lanes of the new town-site and locate on their new lots.

For a few days this week darkness alone put an end to operations and stilled the vociferations of the ardent workers.

As buildings are being moved into place, the town is gradually taking on a better appearance. Within a few weeks it is expected that all buildings will be located on their rightful lots, and then it will be up to the Public Works Department to grade the streets and construct sidewalks. When this has been done we shall have an orderly, well laid out town instead of a conglomeration of houses, shacks and woodsheds as formerly prevailed.

ANYOX NOTES

Mr. Clarence Dennis of the Canadian Bank of Commerce staff left on Wednesday for Vancouver where he will spend his holidays with his parents. He will then be transferred to another locality.

Archie McDougall and Ernest Brown returned from the University of B. C. on Wednesday.

J. Bow, G. Tallamy, Mr. Collier, Mr. Donnelly, G. Allendorf, Mr. McNaughton, Mr. Jabot, D. J. Foss, L. Rawka, Mr. Slaka, were arrivals from the south on Wednesday.

Mr. and Mrs. H. McDonald arrived from the south on Wednesday's boat.

Be sure and see the basketball games on Monday and Tuesday next. A 50c. ticket admits you both nights with 3 games each night.

Mr. Coningsburg and Mr. Goulich arrived on Monday from the south.

D. Evans left for the south on Saturday in order to take up a special study course.

Wm. Ring left on Monday for the south, and will take a vacation for the next two months.

"He was considered the most expert parachute jumper in the country," remarked one of the friends at the funeral.

"Yes," said the other, "he was good till the last drop."

Situation In India Is Becoming Worse

Bombay, India, April 25—British military forces are being spread all over the land to eliminate disorders. Martial law has been enforced in the frontier areas and the guard has been increased at Calcutta, Bombay and Kakachi. Outbreaks are increasing throughout the country.

Maitland Urged To Run In Federal Election

Vancouver, April 25—Hon. R. T. Maitland is being urged to run as the conservative candidate in the Burrard riding at the forthcoming Federal election.

U. S. Freighter Crashes Narrows Bridge

Vancouver, April 25—The United States freighter, Losmar, crashed into the Second Narrows bridge early this morning, carrying away the second span. The ship then stranded on the south shore. Men working on the bridge had narrow escape with their lives from splintering timbers, rending steel and crumbling cement.

Copper Price Cut To 14c. Per Pound

The year-long fight by producers of copper to maintain the 18 cents a pound price for the metal came to an end last week when the steadily mounting supplies and the disinclination on the part of consumers to buy metal at that figure forced a cut to 14 cents a pound. The new price for domestic metal is for delivery to the end of July.

The cut which brings copper to lowest level since 1928 and is expected to result in buying by the building industry and public utility companies, clearing up the present large stocks, came on the first anniversary of the stabilization of the 18-cent price. During the past few months Wall Street has heard on several occasions that the producers were having difficulty in keeping the price at 18 cents a pound, although leaders in the industry expressed confidence that this could be accomplished.

Will Settle Families on Farms In British Columbia

It is expected that 75 families will be settled this year on fruit and other farm lands in British Columbia through the medium of the Canada Colonization Association. Settlers are now moving on to selected acreage in the B. C. Fruit lands block at Kamloops, and present indications are that 25 families will be placed there and also that about 20 families will settle on farm lands at Creston and 26 others in the Okanagan Valley.

There doesn't seem to be much trouble meeting expenses—one meets them everywhere.

BOYS' DEPARTMENT

Boys may be overlooked in many instances, but it is impossible to disregard their Clothing. The fact that they wear it out so quickly keeps this subject ever before the parent. We have many clothes suitable for the growing youth, and from which they will derive the Maximum Wear. Here are a few suggestions:

- A wide range of Sweaters, priced.....\$1.45, \$1.85, \$2.25 up.
- Golf Hose.....65c. to \$1.00
- Underwear Combs.....75c. up
- Belts.....35c.
- Shirts and Waists.....\$1.00 and \$1.50
- Blue Cheviot, Long Pant Suits, Ages 10, 12, 14 years.....\$12.50
- Tweed Long Pant Suits, Ages 8 and 10 years.....10.00
- Caps.....\$1.25 to \$1.50
- Braces.....45c.
- Ties.....40c. and 65c.

Extraordinary Value

Only 53 Boys' Knock-a-bout Shirts, in Khaki and Black, Sizes 12 to 13 1 2
REDUCED FROM \$1.00 TO 65c.
