ALICE ARM, B. C., SATURDAY, APRIL 9, 1927

5 cents each.

Wedding Present, Cards and Dancing, Mark Enjoyable Party

"It's always fair weather when good fellows get together," was borne out on Tuesday evening when over thirty friends of Mr. and Mrs. J. A. Anderson, who were recently married in Vancouver, gave a party in their honor at the Alice Arm Hotel, and presented them with two handsome upholstered chairs.

The evening's entertainment was varied. Cards were played, a supper partaken of followed by dancing until the small hours.

Bridge games commenced at 8.30 and terminated at 11 o'clock. The winners were, ladies' first prize, Mrs. G. Anderson; men's first prize, Mr. Neil Forbes; consolation prize, Mr. W. Stevens.

Following cards, a guessing competition was held, and Miss Alma Evidson was awarded first prize, a creditable performance for one so young.

Supper was then announced in the dining room. The spread was elaborately furnished. A long table was placed diagonally across the room, and the exquisite decorations were the cause of much favorable comment. Bouquets of daffodils and tulips, lent an air of spring time, and added to them were artistically colored paper decorations, and at each diner's plate was a small doll, while in front of the guests of honor chair, Mr. and Mrs. Anderson, was a miniature bridal couple. The eatables were appetizing and varied, and the tables groaned beneath an abundance of epicurean dishes to tempt the appetite. The dining room was attractively decorated with paper streamers suspended from the centre of the ceiling.

At the commencement of the repast, Mr. J. Trinder, chairman of the evening, gave a short address. A toast was proposed to the guests of the evening by Mr. O. Evidson, and in proposing the toast he made a few humorous remarks regarding the recipients. The toast was drank with great enthusiasm.

At the conclusion, Mr. Al. Falconer said that a pleasing ceremony had been wished on him, and that was the presentation of two upholstered chairs, to the evening's guests, and on behalf of those present he was pleased to perform this ceremony.

Mr. J. Anderson replied, in a short address, thanking everyone for their kindness, and hoped he would live long enough in Alice Arm to wear them out.

Mr. Neil Forbes was called upon to say a few words. After dinner speeches is one of Neil's many accomplishments, and he obliged by a few witty brief remarks.

Following the supper the orchestra broke into a lively fox trot and immediately everyone was dancing, which was continued until away into the following morning. The

Ten Feet of Copper Ore Crosscut on Red Point by Development Tunnel

The development tunnel being driven on the Red Point property has crosscut through 10 feet of good copper ore, and latest reports are that the tunnel is still being driven in ore, although it is not of such a high grade as the 10 feet. This is the best mining news published for a long time and the early encountering of ore awakens an increased interest in the development of the Upper Kitsault copper properties.

This striking of ore was unex-

pected. It is known as a blind lead, not showing on the surface. The strike was made a distance of 200 feet from the portal of the tunnel, and the depth from the surface is approximately 300 feet.

It has been classed as a stringer from the main body, which is expected to be encountered at about 100 additional feet. The topography of the ground is steep and great depth will be attained as the tunnel progresses.

Samples of ore brought down

during the week, shows it to be a chalcopryite ore, heavily mineralized, and in addition to copper values will also probably carry good gold values, as does nearly all copper ore in the Kitsault valley.

The encountering of ore is a source of great satisfaction and again proves, as was previously done on the Toric, and La Rose, that the only thing necessary for Alice Arm to become a big producer is capital wisely spent in driving tunnels on the most promising showings.

Educational Talk Given by H. C. Fraser, School Inspector

At a special meeting of the Parent Teacher Association held in the Public School, Monday April 4th. the speaker for the occasion was Mr. H. C. Fraser, inspector of schools for the district.

Splendid musical numbers were offered by Mr. J. E. Kania, violinist and Mr. J. L. Anderson whose vocal selections were well received. Mrs. J. Pynn played the piano accompaniments for both artists.

In his very entertaining address, Mr. Fraser covered a diversity of topics with ready grace. Dealing with the curriculum of the Public School the speaker pointed out the progressive steps from Grade I to Grade VIII in various subjects, but stressed the steps in number work. Much to his hearer's delight old time methods were compared with modern systems and schemes of pedagogy.

The effectiveness of examinations and tests were commented upon. Not only was the child's knowledge measured, but the teacher could estimate the reception of the subject by his pupils.

Standardized tests for Canadian schools were anticipated soon. The use of the "Normal Curve" as a measuring rod for awarding letter values was explained and the speaker showed that it could be applied to many conditions.

Following the programme a very hearty vote of thanks was tendered to Mr. Fraser. Mr. Kania and Mr. Anderson for providing an entertainment which had proved one of the best during the year. Nearly fifty members and visitors were present. Routine business was conducted at the opening with Mrs. R. Cutler presiding and Mr. J. R. Mitchell acting secretary. Mrs. J. Cloke and Mrs. W. Barclay were responsible for providing excellent refreshments at a social half hour spent at the close of the meeting.

Dance Tax Aimed at City Dance Halls

It is understood that the recent law passed by the Provincial Legislature in regard to taxing proceeds from dances, was aimed at the Dance Halls of Vancouver and other cities, where halls are open continuously, and in direct competition with moving picture shows. These places of amusement have never paid an amusement tax, although moving pictures were paying taxes. The tax on proceeds from picture shows has been reduced by \$75,000. Where the proceeds of any dance are donated to a worthy cause, the tax will not be applied.

Mr. and Mrs. C. I. Cook left on Monday for Kimberly, Nevada, where they will reside. A large number of friends were at the boat to bid them farewell.

First Dance of I. O. D. E. Very Successful

The ladies of the Imperial Daughters of the Empire of Kincolith Chapter made their initial bow to the public in putting on their first dance on Friday April 1st. in the Beach Gymnasium. The hall was beautifully decorated for the occasion in the colors of the order, which are red white and blue. The floor was ideal for dancing for which credit is due Mr. E. Ashton. The refreshments were all that could be desired, and the music which was supplied by the Mine Melodians met with everybody's approval.

A very pleasing incident took place during the proceedings of the evening, a short intermission was declared during which the president, Dr. D. R. Learoyd, on behalf of the Anyox Canadian Legion presented a standard to the Chapter. This standard was duly received by Mrs. Murdoch, the Standard Bearer elect, and acknowledged in very fitting terms by the Regent, Mrs. Laing. This part of the programme was appropriately concluded by the singing of the National Anthem.

The dancing was enjoyed until the wee small hours of the morning when everybody returned to their homes with contentment of having spent a very pleasant evening, which proved more than ample repayment to those who were responsible for putting on this dance. The Regent and officers of the Chapter wish to thank all the members, the Ex-Service men and many others who helped to make this dance one of the most successful events of the year.

BIRTHS AT ANYOX

Born to Mr. and Mrs. H. Medos, at the Anyox Hospital, on Friday April 1st. a son.

Born to Mr. and Mrs. W. Lambertson, at the Anyox Hospital, on Sunday, April 3rd. a son.

ALICE ARM NOTES

Hand Laundry Work done at reasonable prices.—Miss B. Crawford, near Meat Market.

Mr. H. C. Fraser, school inspector, arrived on Thursday from Anyox.

Miles Donald, who has spent nearly two months in the south in connection with business of the LaRose Mining Co. arrived home on Monday.

Marshall Smith and Gus Pearson, contractors at the Red Point, arrived down on Monday and left again on Wednesday. On the trip down they were accompanied by Gus Anderson, and made the trip in nine hours, snowshoeing the entire distance over freshly fallen snow.

A. Fox, who was cook at the Toric Mine last year, arrived on Monday from Vancouver.

More Alice Arm buildings will be moved around next week to conform with the new street system. G. W. Bruggy will turn his big store and Miles Donald will turn the office building of the Alice Arm Freighting Co. and the old Post Office Building.

The Club Cafe building, situated on First Street is being remodeled inside by Roy McKinley, who will open it for business with a full line of tobaccos, cigars, candy etc. buttermilk etc. will be added later.

Orders were issued to householders by Constable Smith to clean up all rubbish around buildings.

Dumping of refuse in the creek bed at the upper part of the town is a filthy habit of some lazy people around town.

How much longer the people of Alice Arm will tolerate the low moral conditions at present prevailing in the vicinity of the school is a question that has occupied the minds of a number of parents whose children are forced to attend school.

WANTED—Boy for farm work. No experience required. No objection to a sickly or weak boy. Parents or guardian please reply to J. Sauer, Alice Arm, B. C.

Keystone Co. Will Start Development Work

Word has been received from authentic sources that the Keystone Mining Co. will commence development on the Keystone property as soon as weather conditions permit. The tunnel commenced last year will be driven to the ore body, and plans for other work are being considered.

Wm. J. Kyle of Anyox Passes Away

The death occurred on Sunday evening, of Mr. William John Kyle who passed away suddenly at his room at the advanced age of 70 years.

Deceased was born in County Tyrone, Ireland, and his parents left there when he was quite young. They settled in the Ottawa Valley, where he received his education under private tutors.

He followed the profession of school teacher during his early life, and also spent a number of years in the Yukon during the early stages of the gold rush.

The late Mr. Kyle was a scholar of many accomplishments, a gentleman, and a man well loved by his friends, who mourn his loss.

The remains were shipped to Vancouver on Thursday by the Canadian National Steamship, S.S. Prince George for interment.

Anyox P. T. A. Raise \$100 Home Economics Chair

As a result of the local campaign the Anyox Parent Teacher Association forwarded the sum of \$100.00 to the Home Economics Fund to assist in providing a chair in the Department at the University of British Columbia. Those who worked so faithfully deserve a great deal of credit and the thanks of the community and association are due to the President, Mrs. R. O. Cutler, who was in charge; also Mrs. H. Patrick, Mrs. B. Scott, Mrs. W. A. McTaggart, Mrs. J. Cody, Mrs. J. Wynne, Miss Fetterly, Messrs. H. Selve, F. M. Kelley, and the teachers of the Public and High Schools.

 E. MOSS, Editor and Publisher.

If the Ladysmith Smelter is again put in operation, and business conducted as published by the southern press, it will unquestionably be a great boon to the mining operators of silver-lead and zinc ores on the coast. Alice Arm possesses a vast potential tonnage of these ores, and the most serious handicap to their development has been the high cost of transportation to a smelter treating this class of ore. A large amount of the deposits of silver-lead and zinc ores in this district lie near tide-water and the cost of transporting them to a smelter, also on tide-water can be done at a small cost. The operation of the Ladysmith should result in increased activity of our mining properties, for nowhere in the world can ores be shipped as cheaply as can the water-borne ores from Alice Arm and the north coast. The Ladysmith smelter has had a checkered career but now that the whole coast district is being developed on a much larger scale than heretofore, no anxiety should be felt as to shortage of tonnage.

Although the fresh fall of snow during the week will impede Alice Arm gardening operations, it will not be very long before the ground will be fit for the planting of seeds, and the caring of the hardy perennials. There is not anything that gives a better appearance to a town than a profusion of flowers in a well kept garden. Alice Arm will receive a large influx of Anyox visitors during the summer months and a number of them will repeat their visit if the town appeals to them. Flowers are one of the most appealing agents we can use. Their planting will change a piece of ground from an eye-sore to a thing of beauty at a cost of a few cents. Plant lots of flowers, both for the benefit you will derive from them yourself and also the admirers of nature who pass by.

As the sun gets brighter each day, so does the future of Alice Arm. Each week some news item is published in the Herald that verifies this statement. In recent issues we have published

Plans Made for Opening of Ladysmith Smelter

Authentic information has been received from London that the Ladysmith smelter has been fully financed there and is to be reopened, says E. A. Haggen, writing in the Vancouver Daily Province.

Mr. Herbert Carmichael, general manager of the company, has returned to Canada, and will immediately take steps to rehabilitate the smelter, and equip it up-to-date for the treatment of silver-lead-zinc ores.

It is probable a custom mill will be operating in conjunction therewith to handle shipments of low grade complex ores.

Ladysmith smelter was formerly operated by the Tye Copper Company for the smelting of the ores of the Tye mine, on Vancouver Island. That company's operations were a great success, financially, until the mine became exhausted. The smelter was then continued for some years as a copper custom plant, but as such failed to pay. It drew ores from British Columbia coast, Alaska and South America.

Carmichael, who was for many years provincial assayer for the Government of British Columbia, recognizing the development of the mineral industry, and the advance in metallurgy, conceived the idea of adapting it to treatment of silver-lead and silver-zinc ores. He secured it, and with the assistance of H. B. Thompson, formerly of Victoria, and food controller of Canada during the war, succeeded in financing it in London.

Mr. Carmichael is accompanied on his return to Canada by Mr. Coulls, representing the British investors in the enterprise.

In connection with the Ladysmith Smelting Company an exploration company is being organized in London to take up and develop mineral properties as a source of supply of ore for the smelter. This company will also be prepared to assist prospectors and owners of promising properties to develop their mines to the point of production, in consideration of receiving the ores.

that the Victor Spencer interests have decided to carry out their elaborate programme; that an option has been taken on the LaRose; of the development of several properties; while this week we publish an account of the encountering of ore at the Red Point. Alice Arm is steadily moving ahead. Steadily, but none the less, we are progressing. Sufficient money for the development of our mineral riches has been our plea. This has now commenced to flow this way, and it is reasonable to expect, in view of past results attained, that this flow will ultimately reach flood proportions.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, \$77,663,045; Lode Gold, \$122,808,459; Silver, \$74,111,397; Lead, \$89,218,907; Copper, \$197,642,647; Zinc, \$39,925,947; Miscellaneous Minerals, \$1,594,387 Coal and Coke, \$273,048,953; Building Stone, Brick, Cement, etc., \$44,905,886; making its mineral production to the end of 1925, show an

Aggregate Value of \$920,919,628

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; 1921, \$28,066,641; for the year 1922, \$35,158,843; for 1923, \$41,304,320; for 1924, \$48,704,604, and for 1925, \$61,492,242.

Production Last Ten Years, \$404,649,375

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

R. K. Neill Being Sued Much Gold Still in Fraser River by Partner

Echos of the early days of the celebrated Premier Mine, one of the greatest gold producers in the history of mining in British Columbia was heard at the courthouse in Vancouver when R. W. Wood, formerly of Fernie, one of the four men who brought the property into production after many others had failed, issued a writ against R. K. Neill, Spokane mining engineer, one of his partners.

Mr. Wood alleges that under agreement with his partners he paid Pat Daly, who formerly had a stake in the property, the sum of \$15,000 in 1921, and that he also paid E. Hambleton \$1,500 for his services in settling the Daly claim. It was agreed, he claims, that each of the partners including Neill, should pay one fourth of this sum.

The action which Mr. Wood, through his solicitor, R. L. Maitland, began against Mr. Neill, is to recover one-fourth of these two sums with interest since 1921, the total to date amounting to \$5,267.

George A. Clothier is Transferred Nanaimo

Geo. A. Clothier, mining engineer for the Northwestern district, which includes Alice Arm, Stewart, Atlin, Terrace and distant points down the coast has been appointed to the Nanaimo district by Hon. William Sloan, Minister of Mines.

He is succeeding W. A. Brewer, who is one of the outstanding figures in provincial mining circles. Application will probably be called for the post vacated by Mr. Clothier.

Geo. Clothier, who is a well known figure in every mining camp in the north is a pioneer of the district, and was a resident of Stewart when that camp was placed on the map during the boom of 1908-12.

A city and a chorus girl
Are much alike, 'tis true;
A city's built with outskirts,
A chorus girl is, too!

Since gold was recovered from the bars in the Fraser river sixty or seventy years ago, many attempts, successful and otherwise, have been made to recover additional gold from this waterway. The Fraser River according to Dr. G. M. Dawson, one of Canada's greatest geologists, has flowed in its present channel for millions of years. Mountains have slid into it and been washed downstream, erosions have taken place, and all through time gold has been deposited into the bottom of the river. Boulders have prevented dredging, but these same boulders act as natural riffles, and it is natural to imagine that among the boulders is much platinum and gold.

Russia is Third Largest Nation

The Soviet Union has become the third most populous nation in the world, being exceeded only by China and India. The latest census shows that it has a population of about 165,000,000.

Within 30 years the population of Russia has increased 30 per cent.

The population of the old Russian empire was 182,000,000; but 25 per cent. of that population was separated from Russia when Poland and the Baltic countries became independent after the world war.

After being given away at the altar, many a bride discovers that she has been sold.

1927 European Educational Tours

Personally Conducted Tours have been arranged this Summer, under the joint supervision of the Canadian National Railways and the Cunard Steamship Company to Great Britain and Europe and return. All transportation, hotel and sight-seeing expenses included in fares. See any Canadian National Railway Agent or write District Passenger Agent, Prince Rupert, for particulars and descriptive literature.

IMPORTANT NOTICE

ALL TRADES, BUSINESSES & PROFESSIONS MUST BE REGISTERED BEFORE APRIL 30th.

Notice is hereby given that, pursuant to subsection (3) of Section 52B of the Taxation Act, every person who engages in, carries on or practices any Trade, Business or Profession within the Province is required to obtain from the Commissioner of Income Tax a Certificate of Registration before April 30th, 1927. Application should be made to any Provincial Assessor, from whom full information may be obtained. Certificates will be issued without the payment of any fee therefor.

Default in complying with the provisions of this section renders the person liable, upon summary conviction, to a fine of \$10.00 for each day during which his default continues.

Application forms may be obtained from any Provincial Assessor, Government Agent, Provincial Police Officer, or from the Commissioner of Income Tax, Victoria, B. C.

ANYOX NOTES

The S. S. Los Angeles, of Los Angeles, arrived in port on Sunday, April 3rd. with fuel oil for the Granby Co. She discharged 25,000 barrels at Anyox, and left for Vancouver Sunday evening with 50,000 barrels for that port.

Mr. H. C. Frazer, inspector of schools arrived in town on Monday.

Absolutely the latest in Men's Suit patterns and models on display by Stan Ballard, Anyox Tailor Shop.

A very enjoyable evening was spent at the home of Mr. and Mrs. Galy, the pioneer tailors on April 1st. It being the occasion of the anniversary of their silver wedding. A number of the friends of the couple attended and a substantial supper was served. An enjoyable evening was spent to the great enjoyment of those present. Mr. and Mrs Galy received many beautiful presents from friends both far and near.

T. Green arrived on Thursday from Prince Rupert.

C. M. McDonald was an arrival from Prince Rupert on Thursday.

Mr. and Mrs. Swartberg arrived on Thursday from Vancouver.

M. Montgomery arrived on Thursday from Vancouver.

C. Lawson left on Thursday, for Vancouver.

T. J. Shenton, mines inspector, left on Thursday for Prince Rupert.

Geo. Gillespie was a passenger to Vancouver on Thursday.

The Ladies of the Hospital Auxiliary will meet at the Anyox General Hospital on Monday April 11th. at 3 p.m.

Logging Down the Bay

Chas. Ripley is down the bay about three miles taking out logs with a team of horses. The logs are for use at Al. Falconer's saw-mill. Mr. Ripley left last Sunday, accompanied by R. Wilson.

The rust of idleness destroys life, while the friction of activity strengthens and enlarges it.

Wedding Present, Cards and Dancing, Mark Enjoyable Party

Continued from Page 1
orchestra was composed of Messrs. Wm. Stevens, piano; C. Hutchison, clarinet, E. Aubusson traps and drums.

It was a happy evening from the commencement until the last strains of the home waltz ushered everyone to bye-bye.

The success of the evening was due chiefly to the untiring efforts of Mr. J. Trinder, organizer; also to Mrs. G. W. Bruggy and Mrs. Al. Falconer, who had charge of all refreshments and decoration arrangements, and whose artistic taste added immeasurably to the evening's success. The above mentioned wish to thank everyone who helped, and assure them that their services were appreciated.

Cornwall Was World's Big Copper Producer

Cornwall from earliest times has held a leading position among the tin fields of the world, ranking until almost the middle of the last century as the world's greatest producer of this metal, says a correspondent of The Economist, of London. What is not now so fully realized is that down to the 60's three-quarters of the world's supply of copper also was drawn from this single county, whose mineral resources have ever been the wonder of miners and scientific men alike.

What strange liberties our story writers take with their characters' eyes! Here are a few examples:

"His eyes roamed carelessly around the room."

"With her eyes she riveted him to the spot."

"He tore his eyes from her face and they fell on the letter at her feet."

"He drank her in with drowning eyes."

"Their eyes met for a long breathless moment and swam together."

"Marjory would often take her eyes from the deck and cast them far out to sea."

"He opened the door and cast his eyes about the room."

Canada has more than 900 legislators in the House of Commons and Senate and the nine provincial legislatures.

If your luck isn't what it should be, write a "p" in front of it and try again.

Strange how happy a little appreciation will make a dog and a woman.

Alice Arm Lots

Now is the Time to Buy

Alice Arm will very soon become a mining town of considerable importance. The mining industry is undoubtedly on the eve of big developments, which means a big payroll and a much larger town. Increased activity will result in placing good residential and business lots at a premium. At the present lots can be secured at attractive prices and on easy terms

BUSINESS LOTS FROM \$200 TO \$500

RESIDENTIAL LOTS FROM \$200 TO \$300

Terms made to suit buyers. See Stephen Dumas, our agent, and build where you don't have to move.

S. DUMAS

Agent for the Alice Arm Mining & Development Co
