5 cents each.

## Alice Arm Branch of Chamber of Mines Formed

A public meeting was held at the Pioneer Hotel, on Monday evening for the purpose of forming a branch of the B. C. Chamber of Mines. The meeting was well attended and considerable important business was disposed of during the evening.

E. Moss was elected chairman and stated why the meeting had been called. He outlined the proposals made by President Frank E. Woodside, during his brief visit to Alice Arm the previous week. A vote was then taken as to whether a branch should be formed, which was carried unanimously.

The Chairman stated that the future outlook of the Alice Arm branch was exceedingly bright, as twenty-nine had already paid their admission fees and six had promised to pay in the near future, making a total of thirty-five, and that a considerable number had yet to be interviewed.

Election of officers was then held, and G. W. Bruggy was elected President, T. W. Falconer, vice-president, and A. D. Yorke, secretary.

The gathering of an ore display representative of the camp was the first business under discussion. President Woodside during his visit here had stressed on the importance of a mineral display, and hoped that such a display would reach Vancouver in time for the Vancouver Exhibition. After the exhibition it would be transferred to the Chamber of Mines. S. Morrison stated that if samples from any property were left on the trail, he would pick them up with the pack horses and bring them to town. In order to have this mineral display shown at the exhibition it will be necessary to leave here by August 1st. If the majority of samples arrive later they will be shipped direct to the Chamber of Mines.

It was resolved to hold a monthly meeting on the third Monday in each month.

A vote of thanks was tendered A. Surbich for the free use of the hall, and the meeting adjourned with everyone feeling that they had, in forming an organization, accomplished something worth while.

## Good Progress Made on LaRose Tunnel

The development tunnel being driven on the LaRose property is now in over one hundred feet. All equipment is now at the mine, including an ore car, rails, etc., also a 2-h.p. gasoline engine which will be used for blowing gas from the tunnel, 400 feet of galvanized pipe to be used for this purpose will shortly be shipped in. The contractors who have this work in hand are among the finest hard rock men in the district, and it is expected that the tunnel, which will be 400 feet in length will be driven in record time.

Fred Stork, federal member for this district, who has recently returned from his duties at Ottawa, was a week-end visitor to Anyox and Alice Arm. Regarding early election, Fred said that when he left Ottawa, no information was obtainable as to when an election would be held.

## Influential Copper Men Inspect Anyox Plant

Col. D. C. Jackling, president of the Utah Copper Co. and associated companies, including the Kenecott Copper Co. of Alaska, arrived in Anyox on Friday and spent a few days looking over the plant. He was accompanied by Col. J. T. Crabbs, president of the Granby Co. and Chas. Bocking, general manager of the Granby Co., also R. Nowland, field engineer for the Jackling interests, A. C. Nickson, secretary to Col. Jackling, and J. T. Bowie, general council for the Western Pacific Railway.

Col. Crabbs is paying Anyox his annual visit, and he has already inspected the companies operations at Copper Mountain in company with Mr. Bocking.

After inspecting the Anyox plant Col. Jackling and party will proceed to Kenecott, Alaska, where they will inspect the big copper mines being operated there.

Col. Jackling is one of the outstanding men in the copper world, and controls some of the biggest producing plants on the continent.

## Anyox Baseball and Football Games

The Smelter and Mine, football eleven played to a three all draw on Monday evening; the game was the second-round match of the Anyox Cup tie, the winners were slated to play the Beach in the final.

The Miners were leading, three to two, up until a minute of the final whistle, but Buntain brought the teams on even terms with a nice shot which gave the goalie no chance to save.

## Mine Wins From Smelter 6-3

The Mine took the measure of the Smelter nine in Tuesday evening's encounter, the score being six to three.

Ferguson started on the mound for the winners, but was wild and ineffective, retiring in the first inning in favor of Les Lane. The latter had the opposition completely baffled with his spitter, two hits being all they could gather off his slants during the performance, returning eight via the strike-out route. Ross pitched nice ball for the losers, but was accorded poor support by his team mates. Ross was touched for three hits and fanned seven.

**SUMMARY:** Runs Hits Errors  
Mine 6 6 5  
Smelter 3 3 6

Batteries: J. Ferguson, Cane and Deane; Ross and Colas, McKeown.

Umpires, Cody and Smith.

## Vandalism at Bowman Lakes

Billy Adams and party of Anyox who have spent the past fortnight fishing at Bowman Lakes reports that the last party that visited there left the camp in a very dirty and destructive condition. Cooked food was left in the pots, and dirty dishes and bedding was left strewn about the floor. What was particularly regrettable from a sentimental point of view, was that the log book of visitors names and incidents connected with their visits for the past ten years, was very badly mutilated and pitched out of doors in the weeds. Work of this sort is of the lowest degree of destruction.

## Surprise Picnic Given to Dr. and Mrs. Whelan

A very pleasant surprise was given Dr. and Mrs. P. Whelan on Monday evening, when a surprise picnic was given in their honor at the ranch of Barney Buck on Larcom Island. Three boats, the Effie, Edna and Wildcat conveyed the 33 people who took part in the celebration. Coffee served hot from camp fires and piles of eatables were on hand. Yarns were swapped and songs sang around the fire, and a thoroughly good time was spent by all.

## ALICE ARM NOTES

See Al. Falconer for Freight and Pack Horses

J. A. Stephen, government district engineer, arrived in town on Wednesday to inspect work being carried on by Public Works Department.

W. Smith, provincial constable of Anyox, spent a few days in town last week, in order to see how everybody were behaving themselves.

Roy King, who has been booming logs for the Granby Co. at Larcom Island, returned on Tuesday.

Messrs. F. Kendall, S. Williams, and P. Elliot of the concentrator mill, Anyox, arrived on Tuesday on a fishing trip which will extend as far as Bowman Lakes.

Hand Laundry Work. Moderate prices—Miss B. Crawford, Alice Arm.

Ed. Conway, mining engineer for the Granby Co., spent a few days in town last week looking over different properties.

Tom McRostie arrived from Anyox on Tuesday and left on Thursday for the upper Kitsault country, where he will develop his mineral claims at the summit.

Chas. Gray, with his two eldest sons Tom and Earle arrived from Anyox on Tuesday. They left the following morning for the Eureka property, situated near Granite Creek, Charlie will do considerable development work on the Eureka, in which he holds an interest.

See Al. Falconer for Wood, Coal and Lumber.

To date the Alice Arm Branch of B. C. Chamber of Mines has a paid up membership of 34. Six others have signified their willingness to pay, making a total of 40 members.

Mrs. Gregg Thompson and child are spending a two week's holiday at Alice Arm.

J. Stark was down from the Dolly Varden for the day on Friday

Mrs. J. S. Brown, a sister of Mrs. H. F. Kergin, arrived from Prince Rupert on Monday and will visit here until the return of Mrs. Kergin from Victoria.

Antone Nucich and Joseph Skri brother and nephew of Mrs. Helen Nucich, arrived from Jugoslavia yesterday. Both were residents of Canada previous to the war.

The Annual picnic of the Anglican Church was held on Saturday, at Campers Point under ideal weather conditions. A full report will be published in next week's issue.

## New Ore Discovery on McGrath Mountain

Since the Granby Co. commenced development work on the Standard, McGrath Mountain has received considerable attention from prospectors, and that close prospecting is often well rewarded was again proven when a large ledge of good ore was discovered on the Billy Mac recently. This property is adjacent to the Standard and is owned by Roy McKinley, who brought down some fine samples of ore containing galena, zinc and lead. Surface stripping the ledge disclosed the footwall. Stripping across the ledge was then undertaken for a distance of thirty feet, and the hanging wall not in sight.

Three men are employed in stripping, and it is planned by the owner to keep this force at work for a considerable time.

## Ore Samples Wanted For Exhibition

It is the wish of the Alice Arm branch of the B. C. Chamber of Mines that an ore display be sent to the Vancouver Exhibition, this display to be later exhibited at the B. C. Chamber of mines, Vancouver. Messrs. Steve Morrison and Al. Falconer have both signified their willingness to bring any samples to town left on the trail. Samples may be left at T. W. Falconer's or Bruggy's stores. If enough samples can be procured before August 1st, they will be shipped to the Vancouver Exhibition, if not the display will be shipped to the B. C. Chamber of Mines at a later date. Bring in your samples. It does not cost you anything.

It is hoped to send out a display that will be a credit to the camp. Every sample is needed for this purpose.

## Miscellaneous Shower Given in Honor of Miss Winter

A miscellaneous shower was held at the home of Mrs. Archie Morton on Wednesday evening, in honor of Miss Grace Winter, the popular matron of Anyox Hospital. Bridge was played from 9 to 11, when supper was served, after which the hostess asked Miss Winter to light the fire, and when the curtain was drawn there stood revealed a camp fire scene, with the branches of the trees loaded with packages.

Solos were rendered by Miss Walsh of Vancouver and Mrs. Ed. Morning, and all joined in singing "She's a jolly good fellow."

The guests included Mrs. B. M. Buck, Mrs. H. Chapman, Mrs. L. F. Champion, Mrs. R. O. Cutler, Mrs. W. F. Eve, Mrs. A. W. Gigot, Mrs. J. B. Haffner, Mrs. H. O. Jones, Mrs. R. Lamborne, Mrs. G. M. Lee, Mrs. D. R. Learoyd, Mrs. C. Leslie, Mrs. W. B. Maxwell, Mrs. C. McLachlan, Mrs. F. McLeod, Mrs. E. Morning, Mrs. D. C. Roy, Mrs. H. A. Simmons, Mrs. H. Speight, Mrs. J. A. Stewart, Mrs. J. S. Stewart, Mrs. J. Wier, Mrs. P. Whelan, Mrs. Cornell, Mrs. T. Evans, Mrs. Ruckarbar, Mrs. R. Pedvin, Mrs. Yorke, Miss G. Winter, Miss M. J. Stewart, Miss Walsh, Miss Duncan, Miss R. Champion. Shower gifts were also received from Mrs. C. Cundin, Mrs. C. W. Bagwill, Miss W. Cameron and Miss Nicholson.

FOUND—A Good Smoke in the El Dora Cigar.

## General Store Team are Victors over Tar Boys

The Counter Hoppers of the General Store were successful in their second baseball encounter when they defeated the Coke Plant Tar Babies, ten runs to seven, on Wednesday evening. Carr, with his famous ice ball went the entire route on the mound for the winners, Don Cleal was on the receiving end. It is rumored around town that this battery has been purchased by a John McGraw, for a sum somewhere in the neighborhood of four bits or a dollar. "Iodine" Hill was the star with the stick, poling out a three bagger with all the cushions occupied. "Benzol" Jones started on the mound for the losers, but retired in the fifth in favor of "Shifty" Thompson, Tom MacIntosh done his stuff behind the log, picking four men off at the key-stone sack, Kominsky pulled the prize play of the evening in the sixth inning. He smacked the ball down the first base line to Lace, who picked it up about ten feet in front of first base, Kominsky not knowing what the rule was for this play repaired to the Dugout, thumbed over the rule book and then went to first. Archie Smith called the balls and strikes and George Bailey officiated on the baths. The latter wishes to take this opportunity to apologize to the Store team for the bad decision he made during the game.

It was some game, however, and was a kick to the large crowd present. The next game will be on Sunday evening, between the Coke Plant and Club House.

The line ups:  
Store: Cleal c., Carr p., Lace 1b., Baillon 2b., Hill s.s., Landry c.f.

Coke Plant: McIntosh c., Jones p. and 3b., Phippen 1b., Leslie 2b., Asimus s.s., Thomson 3b. and p., Hogben l.f., Harman r.f., Kominsky r.f., Miller r.f.,

## Mrs. H. F. Kergin's Father Passes Away at Prince Rupert

Mrs. H. F. Kergin received the sad news on Monday morning that her father, Capt. E. C. McCroskie, had passed away at Prince Rupert. She left by the Cardena on Monday for Prince Rupert, and will accompany the remains south to Victoria where deceased will be buried. Deceased had been sick for the past few weeks, and the end was not unexpected.

The late Capt. McCroskie was born at Birkenhead, England in 1850, and at the age of 14 started his sea career. At the time of his death he held the position of Harbor Master at Prince Rupert.

Capt. McCroskie leaves to mourn his loss, a wife and one son, William of Galiano Island, and four daughters, Mrs. H. F. Kergin of Alice Arm, Mrs. J. S. Brown of Vernon, Mrs. Annie Robertson of Vancouver, and Miss Emma McCroskie of Alert Bay.

## BIRTHS AT ANYOX

Born to Mr. and Mrs. Bosnich, at the Anyox Hospital, on Wednesday, July 22nd. a son.

Born to Mr. and Mrs. Wm. O'Neill at the Anyox Hospital, on Thursday, July 23rd. a daughter.

Mrs. A. W. McTaggart won the gold button last week for the highest score of 184 on the rifle range of the Anyox Miniature Rifle As.

In organizing a branch of the B. C. Chamber of Mines, Alice Arm is now in a position to make known her mineral wealth and also the development of this wealth to the outside public. Such an organization has been needed for a long time, and now that the wheels have been set in motion it is the duty of all good citizens to keep them turning. The officers elected are men who have splendid opportunities of keeping in touch with mining operators and others, through their business dealings with them. Although the future success of the organization depends a great deal upon the officers, it must be borne in mind that the attitude of the public spells the ultimate success or failure of the organization. Give your whole hearted support to the officers at all times and the dollar you have invested, or contemplate investing will pay you huge dividends. If you don't boost, don't knock. Any fool can find fault, but it takes brains to build up.

A man who takes a gloomy view of the future of the copper mining industry is in our opinion merely looking for trouble. He sees any hole in the doughnut, but never sees the appetizing morsel that always rings it around.

Reliable statistics covering operations of 1924 are now available and make most interesting reading. Certainly nothing can be found in them to justify the pessimism that exists in some quarters. For instance, the United States came into 1924 with a surplus of 140,706 tons of refined metal and passed out of it with that stock reduced to 124,250 tons. Production from virgin and blister, reached 1,133,473 tons, recovery of scrap totalled 32,522 tons, and imports accounted for 72,955 tons, making total supply 1,379,656 tons. Of that amount, 498,931 tons was exported; 756,575 went into domestic delivery, leaving, as mentioned before, surplus of 124,250 tons, equal to less than nine per cent of the whole available supply—about one-tenth of a year's supply—say five weeks. If that were not enough to make the heart of the producer glad, he can take further courage from the fact that statisticians agree that world consumption will soon be running ahead of production, with Europe still to be heard from as a buyer at normal levels.—South Western Mining Service.

### Trail Copper Smelter to Commence Operations

The copper plant of the Consolidated Mining and Smelting Company will be started by the last of July or the first of August, according to authentic information received by the Trail News.

For some time the Granby company at Allenby have been making improvements in their concentrator and trackage and about everything is in readiness for operations.

It is understood that the Consolidated already has a large stock of copper ore on hand—so much in fact, that it is desirable that it be treated, and the copper plant will soon be pouring forth its golden colored stream.

The resumption of this plant after a long shut down will be a source of gratification to Trail and the several copper districts of the Kootenays.

### Stewart Man Blows Head and Hands Off

In a cabin at Mile 13 on the Stewart-Premier road, Peter Fite, blacksmith's helper, blew his head and both hands off with a stick of dynamite on Monday. He was found sitting in a chair in this condition by an employee of the Premier mine. Fite had been employed at the Premier for several years himself. He was an American and came here from Minnesota.

The authorities are investigating the circumstances of his death.

An inquest was held by the coroner, Dr. Whillans, and a verdict of suicide was returned. Interment will take place here.

Deceased is survived by a sister, Miss Nellie Fite, who lives in Nooksack, Washington.

### Several Stewart Mines Shipping Ore

Aside from the regular shipments by Premier, the following properties are moving ore: The Indian mine sent out 37 tons on the Prince Charles Tuesday night; seven tons were also shipped by Victoria mines on the same boat.

More than 15 tons of high grade from Porter Idaho is now at the beach and the pack train is bringing down two tons daily. Ore will shortly commence to move down from the United Empire. Between six and seven tons from the Terminus is enroute to the wharf.

## SYNOPSIS OF LAND ACT AMENDMENTS

**PRE-EMPTIONS**

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and, which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

## Granby Co. Will Soon be Operating Copper Mountain

Indications are that operations at the mine at Copper Mountain and at the mill at Allenby will be commenced before the end of the present month, as announced some time ago by Chas. Bocking, general manager of the Granby Company, at a luncheon tendered by the board of trade in the Hotel Princeton. Mr. Bocking announced that it was expected to have the wheels turning in July, and that while operations at the start would be on a limited scale, owing to experimental work that would have to be done, the plant would be running full capacity before the end of the year.

Repair and reconstruction work at the big mill is well advanced and Mr. Smith, the general manager of the Allenby Copper Company, stated that it will be in shape for operation by the time the railroad spur to the Mountain is ready for use. That this will be effected within the time mentioned there is little room to doubt. The work of restoring the tracks into condition for use has been effected as far as the tunnel. Between the tunnel and the Honeysuckle Cut—a distance of about a half a mile—there is a small slide that will require possibly not more than a day to remove, and by the first of next week the shovel will be tackling the "Honeysuckle," the last real obstruction that blocks the road to the mine.

At Allenby there is now close to 150 men on the payroll and the place is beginning to assume much of the life and activity that was manifest on previous occasions when things were moving. The citizens there are reorganizing their community club and baseball club and a dance, under the auspices of the latter, is being held in the dining room, with its ample accommodation, tomorrow (Friday) evening. The people of Princeton and vicinity may be counted on to turn out in force and assist their friends on the hill in making the event a lively and enjoyable one. Though the season for baseball is pretty far advanced, it is aimed to arrange for an exchange of games with Princeton yet this year.

At Copper Mountain, superintendent Jack McLaughlin has some 30 or 40 men employed under him, and has the work of putting the mine in shape for production well in hand. There are now a half dozen families residing at the mountain and this number will increase rapidly in the near future. Arrangements for the renewal of postal service to the mountain will be completed shortly. "Peg" White has his pool room running—Princeton Star.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

**THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia**

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

# Prevent Forest Fires--It Pays

## ANYOX NOTES

For a good smoke, try an El Dora cigar.

Mr. and Mrs. Loftus and family are spending holidays at Alice Arm.

Mrs. A. Cameron and two children left on Monday for Tacoma, where they will spend a vacation.

Miss L. Anderson was a passenger on the Cardena for the north. She will spend a few days at Maple Bay, then from there will go to Stewart for a short visit.

Mrs. P. McMillan, accompanied by her daughter, Mrs. M. J. Bryden and Master Murray Roberts, were southbound passengers on Saturday, enroute to Vancouver Fernie, and Lewiston, Idaho, for a summer vacation.

Mrs. A. W. McTaggart was a passenger on the Prince Charles on Wednesday, enroute to Terrace on a vacation.

Mrs. Gibb, accompanied by her son William, was a passenger on the Prince Charles on Wednesday, enroute to Burns Lake on a vacation.

Capt. J. Griffiths and Mrs. Griffiths arrived in port on Friday evening on board their palatial yacht, "Sueja," Capt. Griffiths is head of the Coastwise Steamship & Towing Co.

Frank Gigot of Stewart, is spending a few days in town on business.

Mr. and Mrs. N. Bloom and daughter were passengers for the south on a vacation on Monday.

The Anyox fishermen had good fishing at Bear Creek last Sunday.
