Follow Advice of Health Officer During The Present Epedemic

"When the fever arising from a cold is present, go to bed, keep warm and call the doctor."

"In epedemics of this kind the best thing to do is to stay at home rather than go visiting or attend public gatherings."

In these few plain words, the local Health Officer, Dr. D. R. Learoyd, tells what is to be done by those who become sick with the prevailing epedemic, and by those who are in good health. Co-operation with the wishes of the medical authorities will bring the trouble to an end in the shortest possible time. The local doctors and the staffs of the hospitals are coping with the trouble in a most thorough and conscientious manner and it is up to everyone to co-operate with them by observing their wishes. Needless visiting means taking unnecessary risks, and attending public gatherings is also unwise.

The Mine Hall has been converted into a temporary hospital, and a number of cases are being dealt with in that building. Mr. Ed. Ashton is in charge of the nursing staff and is tireless in his efforts. The members of the staff at the General Hospital are working at high pressure.

The Gymnasium is closed, there are no shows and both the schools are closed. A silver lining however shows through the cloud, in the fact that the contagion does not appear to be spreading so rapidly and that most people are realizing their personal responsibility and are responding willingly to the wishes of the Health Officer.

Badminton and Basketball Fixtures At Standstill

Due to the prevalence of sickness in the district, and the possibility of contagion, the Gymnasium was closed on Wednesday the 16th. and all indoor sports have necessarily been suspended. Although this puts a crimp into the basketball schedule it will most likely be straightened out very shortly and the delay will only serve to make the players keen to get on the floor once more.

The same may be said of the Badminton situation, as the season had got away to a very nice start when the "Closed" notice was posted. Co-operation with the wishes of the Health Officer will speed along the day when the ban will be lifted.

Rev. J. S. Brayfield Retires From Ministry After 45 Years

At the end of the present month the Rev. J. S. Brayfield, of Christ Church Anyox, retires from active service in the ministry after a total length of service in the United States and Canada of 45 years.

His record is noteworthy. After leaving England he was for nineteen years in Manitoba, following which he spent 14 years in the United States, chiefly in North Dakota, in the Episcopal Church. British Columbia next called him, his period in this province being 12½ years, nearly half of which has been spent in Anyox. Although over seventy years of age Mr. Brayfield is hale and hearty and possesses a clearness of thought and vigor of speech which many younger men might envy. He retires on a pension provided by the American Church to which he belonged, and to which he has continued to contribute.

He will with Mrs. Brayfield make his home on a ranch at Telkwa. They will both be greatly missed in the community and the best wishes of their many friends will go with them to their new home.

Mrs. G. E. Goodeve Passes Away At Victoria

The death of Mrs. Grace Effie Goodeve occurred at the Royal Jubilee Hospital, Victoria on Sunday November 13th. The late Mrs. Goodeve was a former resident of Anyox residing here for several years and leaving about eight years ago, and later lived at Copper Mountain where her husband was employed as electrician by the Granby Co. The late Mr. Goodeve returned to Anyox and on October 30th. of last year he met with an accident at the Hidden Creek mine that resulted in his death on November 5th. following. The late Mrs. Goodeve had arrived in Anyox to join her husband only two days previous to his accident.

Deceased was 43 years of age and leaves to mourn her loss, two daughters, Helen Muriel and Elizabeth Joyce Goodeve, of 1605 Monterey Avenue, Oak Bay, Victoria; also brothers and sisters in the east. She was born at Chatham, Quebec and came to British Columbia sixteen years ago.

Anyox Notes

Chas. Graham, District Inspector of Mines, arrived on Wednesday.

Mrs. R. Carrick and children left on Wednesday for a visit to Vancouver.

Killed 2 Timber Wolves When They Advance Within 40 Feet

Two timber wolves, members of the bands that infest the Alice Arm district, met a sudden death recently when Gus. Pearson killed them with two well directed shots after they had advanced within forty feet of him.

Gus encountered a band of wolves about six miles south of Bowman Lakes. They circled him for some time and two, more bold than the rest, either mistook him for an animal they were hunting, or were extremely venturesome, ran at him to within forty feet. They stopped undecided, and their indecision spelled their doom for they both dropped in their tracks, each pierced by a bullet. What would have happened if Gus. had not taken quick action is hard to foretell. Both were grey wolves, one being of tremendous size. A fine specimen of the northern timber wolf. Both skins were in prime condition.

During the past few years the wolves have greatly increased in the district, and the cariboo, goats rabbits etc. are being fast exterminated by them.

Alice Arm Notes

Ted Kergin, who is recuperating from an attack of influenza arrived home on Thursday from Anyox and expects to return today.

Rev. W. B. Jennings, accompanied by Mrs. Jennings arrived in town on Thursday from Prince Rupert. Rev. Jennings will hold services at St. Michael's Church on Sunday, as follows: Holy Communion 10 a.m., Sunday School 11 a.m., Evening Service at 7.30.

Dr. L. W. Kergin, arrived on Monday from Prince Rupert and spent the day visiting his brother H. F. Kergin. He left later for Anyox where he joined a number of Prince Rupert friends who were visiting the smelter town.

A card party will be held at the Club House this evening under the auspices of the Alice Arm Athletic Association. Card playing will commence at 8.30 sharp. Refreshments provided. Everyone welcome.

J. Canale Has Leg Crushed In Mining Accident

While following their occupation as miners at the Hidden Creek Mine on Wednesday last, J. Canale and Nick Saban were injured through an accident. Canale had his leg severely crushed, but Saban was unhurt except that his hearing was temporarily affected. Canale is being cared for at the Anyox Hospital.

Basketball Teams Anxiously Await Resumption of Schedule

Full of vim and vigor and impatiently scenting the battle from afar, members of the various basketball squads await the unlocking of the Gym door. The commissioners met some time ago, and one of their decisions was the adoption of the "ten second rule", which was not in force at the beginning of the season.

The suspension of the schedule through the local epedemic has in no way dampened the ardor of the hoopsters, but has rather increased it. Naturally enough, all the devotees of indoor sports are chaffing at the enforced inaction and will welcome the day when normal conditions justify the re-opening of their Gymnasium.

Mine Branch A. C. L. Forms Athletic Club

The Mine Branch of the A. C. L. with its customary thoroughness in meeting the wishes of the people for new sources of recreation, have organized an Athletic Club. The object is to provide diversified indoor athletics for the many men at the Mine who desire recreation, and the idea has proved very popular, as already over sixty members are enrolled. R. Shewan is the president, Oswald Minto is secretary and R. S. Stubbs is the instructor.

Arrangements are being made to instal various equipment and regular physical culture classes, open to anyone, will be held twice a week in the Mine Hall. Later on, a Smoker will be held, at which it is proposed to have boxing and wrestling bouts and physical culture displays.

Identification of Body Has Been Proved

The body recently found on Brook's Island by two Indians and brought to Anyox for possible identification and burial, has now been proved to be that of James Smith, who was drowned in Granby Bay on September 12th. Identification was established from information received from the south and also locally.

As already reported in these columns, Smith was a veteran of the Great War, and was a past president of the Prince Rupert Branch of the Canadian Legion. It is quite probable that the local branch of the Legion will give his place of burial due honor and recognition.

Get Your T. B. Christmas Seals Early This Year

These bright cheery little Seals, which the ladies of the I. O. D. E. are actively selling, show a Star of Hope. And it is an absolute fact that the star of hope is shining a little brighter; that mankind is feeling a little better; and that fear is being pushed into the background. Even cautious men tell us that the signs of prosperous days are now plain and that difficult times will soon be left behind.

No people respond better to the magic of that word Optimism than those who are battling with tuberculosis. This is simply because they are being given a chance. The Canadian T. B. Association and the Tranquille T. B. Society are doing wonderful work in giving expert medical attention to sufferers from tuberculosis and in the prevention of the disease.

Everyone buying Christmas Seals helps not only the sick people, but the whole community. Help was never more urgently needed than now. The seals are one dollar a sheet or one cent each. They are being used freely on letters and parcels. By buying these seals you are helping a splendid work.

An active committee of the I. O. D. E., with Mrs. D. C. Roy as convener, is looking after sales. You may obtain the seals from the ladies of the I. O. D. E. or at the Drug Department of the Granby Stores. Buy them today.

Surprises Sprung In A. C. L. Snooker Tournament

Local dope as to the probable semi-finalists in the Snooker tourney now being held at the Beach Pool Room, received a jolt when two hot favorites; viz, C. Elgood and J. Ion, received his coupe degrace, the former at the hands of J. Pinckney and the latter by W. Cavalier, in the third round.

In the concluding games of the second round, most of which we have already reported, S. Armstrong won from J. Buntain and R. Dunwoodie was defeated by S. Elliott. In the third round, beside the two victories mentioned above, R. Elliott won from A. Cavers. In the game between W. Cavalier and J. Pinckney in the fourth round, the former won after a very close and well played match. Cavalier now awaits with his usual sangfroid, the outcome of the fourth round games, and is all set to play the final, which promises to be interesting.

We very often do not fully appreciate anything useful or valuable until it is gone and there is not anything else to take its place. Such is the case of the B. C. copper industry and the people of the province today, now that there is a likelihood of the closing down of the Britannia mine and mill. Very few, except those living in the immediate neighborhood of a big copper mine do not realize the important part the industry plays towards the stable prosperity of the province. If it was closed down entirely everyone in the province would feel the ill effects. Millions of dollars a year would be withdrawn from circulation. Manufacturers, wholesale houses, retail stores, transportation companies all would suffer. It would mean less business for them and less employees. Farmers, fruitgrowers etc. would lose a big market and the government, in addition to losing a big revenue in taxes would have a larger number of unemployed to care for.

Everything possible should be done by the government in an endeavor to keep the Britannia plant in operation. Even if they subsidized the smelting of Britannia concentrates in the province, or subsidized the erection of a smelter, it would be cheaper than a complete shutdown for an indefinite period.

The Britannia Company are not above criticism in making themselves dependent upon a foreign country for the smelting of their concentrates. They court disaster when they are the victims of the whims and experiments of a foreign political party. But criticism does not change facts. The problem of smelting of Britannia concentrates in B. C. must be solved, not only for the benefit of the people of Britannia, but the whole province.

Canada as a whole has shipped too many of her raw products to the United States to be transformed into manufactured goods. These are shipped back and sold to Canadians at fancy prices. The heavy duties placed on many commodities by the United States has restricted this flow. Hardships will inevitably result until we adapt ourselves to the new conditions, and convert our raw materials into the finished article. When this has been done the heavy duties that are at present a hardship, will be a blessing.

Mine Branch A. C. L. Plan Christmas Tree

Good news children. All the depression in the world will not stop the Mine Branch of the A. C. L. from planning a grand Christmas Tree and Children's Party somewhere around December 25th. And what a time there'll be. It is intended that this event will surpass even the jolly time held last year. A dance for the adults is also among the Christmas plans, and it is intended to make this an event of real enjoyment. Details will be published as soon as definite arrangments are made.

Hollinger Mine Has Paid Out $62,000,000 In Dividends

By the end of 1932 Hollinger Consolidated Gold Mines will have paid a total of $62,000,000 in dividends to shareholders. While no longer Canada's largest gold producer having yielded this position last year to Lake Shore, Hollinger holds first place for aggregate dividend distribution.

Announcement was made this week of an extra dividend of one per cent in December bringing the total for the year to 15% on the par value of $5 a share and bringing the 1932 payments to a total of $3,690,000. The stock is currently selling around $4.40 per share to yield slightly less than 15%.

France Gives Preference To Belgian Copper

The placing of a 4 per cent. duty on all metals, including copper, imported into France, effective August 1st. was an important development of the month. Copper from Belgium will be subjected, however, to a duty of only 2 per cent. The metal and mineral markets report indicates that this will give the Katanga (Belgian Congo) a slight advantage in dealing with French consumers.

Big Wheat Shipment From Vancouver

For the week ending 8 a.m. Wednesday, November 16th. the port of Vancouver shipped 2,414-484 bushels of wheat, bringing the total for the crop year, August 1st. to date, to 26,968,799 bushels.

You see, Oswald, my boy, it's this way—in Russia the government takes all you make over bare living expenses, and they call it Communism. In this country the government does the same thing, but they call it taxation.

MINING IN BRITISH COLUMBIA

Among the Canadian Provinces, British Columbia is the leading producer of Silver, Lead and Zinc
In this Province, about 45 per cent. of Canada's Silver, 97 per cent. of the Lead and 93 per cent. of the Zinc are produced.
British Columbia has produced approximately $1,300,000,000 worth of minerals.
About 200,000 square miles of unexplored mineral-bearing lands are open for prospecting.
Practically every mineral known to be found on the Continent occurs to some extent in British Columbia

Chemical Industry Absorbs Huge Quantities Silver

According to a recent report of the United States Bureau of Mines silver used in the chemical industries, exceeds that used in any other industry. Only a small part of this silver reaches the ultimate consumer in the chemical form, a much larger portion being absorbed in the manufacture of photographic supplies, in electroplating and in mirror making. Silver nitrate continues to be the chief product of the industry, and the photographic group is second only to the sterling silver industry as a consumer. Thus, last year the photographic industry in the United States consumed 8,573,781 ozs.

Copper Prices During July And August

Electrolytic copper for consumption in the United States averaged 5.219 cents per pound in August; during the preceding month the average price was 5.053 cents per pound. United States quotations for copper for export averaged 5.069 cents per pound as against 4.453 cents per pound in July. On the London market electrolytic copper was quoted at 6.1725 cents per pound (in Canadian funds): based on this valuation the Canadian output in August was worth $1,086,656.

World output of refined copper decreased 13.5 per cent. to 64,000 tons in August, from the July production of 74,000 tons. Stocks of refined copper at the end of August were estimated at 796,800 tons: on July 31st. approximately 799,000 were on hand.

Attractive She: "Yes every time I come to Canada I have to change to my heavy undies. I'm from Georgia, y'know."

Explodes Dynamite Under House at Stewart

Joe Mazzarabba was arrested at Stewart in the early hours of Monday November 14th. on a charge of putting dynamite under the residence of Mrs. Molly Michealezza and causing an explosion. The house was not badly damaged. Accused appeared before Magistrate H. W. Dodd and was committed for trial by a higher court. He was taken to Prince Rupert.

The explosion occurred shortly after midnight on Sunday November 13th. while Mrs. Michealezza was holding a birthday party. It is thought that jealousy was the reason for placing the explosives. Accused was arrested shortly after the explosion, footprints in the snow leading to his cabin.

"If there were four flies on a table, and I killed one, how many would be left?" enquired the teacher.

"One," answered the bright little girl. The dead one."

THE PICTURES

"POSSESSED"

TUESDAY, NOV. 29th.

Should conditions warrant the following picture will be shown on Tuesday the 29th.

Joan Crawford and Clark Gable, with Wallace Ford and Skeets Gallagher

In this Metro-Goldwyn-Mayer production Joan Crawford out-thrills her greatest hits, from "Dancing Daughters" to "Paid". This beautiful star, whom everyone adores, plays opposite the screen's handsome idol, Clark Gable. They were both exposed to the pitiless white light of scandal, yet their only crime was love. While he weighed their love in the balance, she joyously made the confession that would save him and ruin herself. Picture goers return to see this picture a second time, and gasp at the production.

"South of Santa Fe"

THURSDAY, DEC. 1st.

Bob Steele is in this smashing story of the roaring west. This time he is a gun-toting knight who goes hunting for trouble and finds plenty.

A fast horse—a quick draw—a nimble brain were all needed South of Santa Fe. Thursday is "Gift Night."

Owing to the local epedemic there will be no shows on Saturday, 26th.

The Anyox Masonic Lodge received a visit from District Deputy Grand Master T. H. Johnson of Prince Rupert on Monday. Accompanying him from Prince Rupert, were: R. Blanche, Dr. L. W. Kergin, Geo. Woodland, W. Cummings, H. Tattersall.

They arrived on board the fishing launch, Chief Tapeet, reaching here at 6.30 p.m. on Sunday and left again at 8.30 a.m. on Tuesday. The trip up was undertaken in 9½ hours.

Britannia Co. Should Have Built Smelter Says Hon. H. H. Stevens

Two channels are open whereby the Howe Sound Mining Company of British Columbia may secure the benefit of the four-cents-a-pound preference on copper imported by the United Kingdom from Canada, Hon. H. H. Stevens, minister of trade and commerce, told the House of Commons a few days ago. It might build a smelter in Canada, or ship its copper concentrate to the smelter at Anyox. At present the company sends its concentrates to Tacoma, Wash., for smelting.

The Anyox mine, Mr. Stevens said, smelted its product into "blister," which could be sent to the United States for refining, under the agreement, and still secure the preference on the British market, provided it retained its identity.

He had always believed the Howe Sound Company should have erected its own smelter in Canada, Mr. Stevens added.

The question was raised by A. E. Munn (Lib., Vancouver North), who said the copper industry would be ruined unless there was a way made to enable the producers to secure the preference even though their products were refined in the United States.

Mr. Stevens said it was a tribute to the agreement if it could be said an industry would be ruined because it could not take advantage of the preference secured.

It's Better— and You can Prove it—

TRY THESE THREE TESTS
and Prove for Yourself that ST. CHARLES is better!

1—Open a can of Borden's St. Charles Evaporated Milk. Note the creamy color—the smooth consistency, the pure, fresh flavor.

2—Make cream sauce with Borden's St. Charles. That pure, fresh St. Charles flavor gives greater deliciousness.

3—Have a cup of tea or coffee with Borden's St. Charles Evaporated Milk to "cream it." St. Charles blends in smoothly, tastes fresh and rich.

ST. CHARLES Evaporated Milk is pure whole country milk, with nothing added and 60% of the natural water removed. Then it is sterilized, after being sealed in the tin, to assure perfect, sweet flavor and absolute purity.

Back of this Borden quality, a staff of milk experts are working day after day—inspecting the farms which supply the milk—seeing that the dairies are always shining and spotless—that the pastures are good and the cows in the finest condition.

That is why St. Charles tastes so fresh and sweet. Why it is better for coffee, tea and for all cooking purposes, where you would normally use milk. St. Charles is better—ask for it.

Send for this FREE cook book. Mail us the attached coupon and we will send "The Good Provider" by return—it contains nearly 200 wonderful tested recipes that you and your family will delight in.
