Ore Body Struck On Tiger At 400 Feet Depth

The tunnel being driven at the Tiger to tap the ore body at depth is entering an interesting stage. Reports from the property on Thursday evening were that for the past 35 feet the tunnel had been driven through a heavy mineralization. The ore carrying considerable iron, with which gold values are expected to be associated, in addition to silver values. Samples of this ore were sent out for assaying, but returns are not yet available. This ore body does not show on the surface, and is of a different character than any yet located in the upper workings.

Following the cutting of this ore body, some high grade silver was broken into, but was not persistent. The foot wall of the ore ledge that has been cut in No. 1 tunnel was then encountered, and is now being driven into. The driving of a cross-cut on the ore was expected to be commenced yesterday.

The face of the tunnel has a depth of 400 feet on the ore, and the future shows great promise. Samples of the ore ledge just encountered were sent out for assaying on Wednesday.

New League Council Commences Business

The Council has asked the Secretary to advertise the Red Parrot as being for rent or for sale and to invite offers. A recommendation was made to proceed with the redecoration of Recreation Hall and to provide a new picture screen. Permission was given the Pioneer Mess to paint an advertisement on the stage curtain which is let down at least semi-annually.

Cheques for basketball referees were authorized and the use of the gymnasium for dancing was granted to the I. O. O. F. for May 24th. and the I. O. D. E. for July 1st. A debate arose over the rental of the gymnasium, the contention being raised that the rental should be limited to the actual cost.

Anyox Outdoor Sports Receiving Attention

The new council has voted to support both baseball and football this season. Chairman of Sports, L. H. McKay was authorized to call meetings at an early date. He will also investigate the possibilities for sports on May 24th. and report to a special meeting of the Council on Monday, 29th. at 7 p.m.

Mr. Gourlay has also been empowered to enquire into the possibilities for more frequent visits to Larcomb Island.

ALICE ARM NOTES

Sid Miller arrived home last Saturday from Anyox Hospital, where he has been receiving treatment.

S. Briggs arrived on Monday from Vancouver where he has spent the past few months.

Harry Owen left on Wednesday for Vancouver and expects to be absent for about two months.

J. Strombeck arrived home on Monday from Vancouver, where he has spent the winter months on a vacation.

Ted Skoglund arrived home on Saturday from Anyox Hospital, where he has been receiving treatment for some time.

The big dance at the Alice Arm Hotel this evening is something you can't afford to miss. Gentlemen \$1.00, Ladies free. Supper will be served by the Hotel management at 50c. each.

Spading over the garden and clearing up rubbish piles around town has been the favorite recreation of householders during the past week. Judging from the enthusiasm being shown at present the town should be a veritable Garden of Eden a few months hence.

Good headway is being made with the surfacing of the wharf road, and the improvement is greatly appreciated by both motorists and pedestrians.

No word has been received locally regarding the date when lots on the present Indian Reserve will be offered for sale.

Also no information is available to when the Britannia Co. expect to commence operations at the Toric mine.

The warm weather and the lure of the north is calling back our residents who spent the winter months in the wet and foggy southern cities. New arrivals are also gradually drifting in, in order to be on the ground floor for the big coming operations.

Cups To Be Presented At Social Evening

The Badminton Club will close the season with a social evening in the gymnasium at which the cups recently won will be presented.

May Hold League of Nations Meeting

Plans are going forward for the holding of a Mass meeting to organize local support for the League of Nations Society. Those who are interested are requested to inform Mrs. J. W. Lang, Regent of the local chapter I. O. D. E.

New Community League Council Holds First Meeting

The newly-elected councillors held their first meeting on Wednesday, the retiring president, O. G. Macintyre presiding. R. J. A. Manning and C. A. F. Clark were proposed for the presidency, the honor going to Mr. Manning who thereupon took the chair, voicing a graceful tribute to his predecessor and to his fellow-councillors. F. Dresser was chosen vice-chairman, with H. Gourlay as second vice-chairman.

One of the first actions of the incoming council was to confirm the appointment of V. S. McRae as Secretary and to ratify the work done by him during the last two months in which the Council has not functioned regularly.

Chairmen of the various departments of the League were appointed as follows:

- Membership Mr. Shields.
- House Mr. MacDougall.
- Home and School Mr. Dunwoodie.
- Entertainment Mr. Gourlay.
- Sports Mr. McKay.
- Library Mr. Clark.

The Council asked for the cooperation of members in transacting the business of the League. This, they point out, will be facilitated if members will approach the chairman of whatever department their business is concerned with. In this way members can avoid the necessity of attending council meetings.

Character Training Will Be Undertaken in Schools

Judging from a circular sent out by the Education Department character training is at last to receive something like adequate emphasis in the schools. The Minister has asked all principals to report "what definite efforts (if any) are being made to meet the requirements of section 157 of the 'Public Schools Act', which provides that in every school the highest morality shall be inculcated."

Thrift among the pupils and a saving to the public is to be encouraged by the payment of half the value of the book to each pupil who provides himself with a copy of each free text-book required.

Shower Given To Miss Julia Calderoni

Miss Julia Calderoni whose marriage takes place early next month was honoured at a shower at the mine on Monday evening.

Arrivals from the south on Wednesday, included: J. Cazich, G. Ternan, O. Kellogg, R. G. Holmes, Mr. McCowie, D. Thoren, D. McVicker, P. D. Hentick, J. Nyman, A. Cuzzon, M. McCards, H. Blackwood.

ANYOX NOTES

Mrs. H. T. James was a south-bound passenger on Wednesday.

Among the departures on Wednesday, were: B. Zuckoff, N. Flatoff, O. R. Ellis, Mr. Walstedt, S. M. Salla.

Miss Bishop arrived on Wednesday from the south.

Fred Bell, an old resident of the camp, was a visitor in town this week.

Mrs. W. Pamplin arrived from the south on Wednesday.

D. J. McVicar left on Saturday on a visit to Prince Rupert.

W. Montgomery was a south bound passenger on Saturday.

Departures on Saturday for the south were: Chas. R. Cox, R. C. Hawks, H. Loake, R. A. Back, S. J. Jabour, J. A. McLeod.

Wm. Corran arrived in town on Monday.

Rev. Father Champagne returned on Saturday from a visit south.

Mrs. Busutill and child arrived from the south on Saturday.

Mr. Gainor, representing Gainors Ltd. of Edmonton arrived in town on Saturday.

J. L. Manley arrived from the south on Saturday.

H. A. Smith was an arrival from the south on Saturday.

A farewell stag party was held at the home of R. J. Manning on Saturday night in compliment to Charlie Cox.

Arrivals on Saturday included: Mr. Stevens, Bryant, J. M. Hockin, J. G. Millichamp, T. P. Fisher, W. H. Trotter, Mr. Douglas, Mr. Lindhe, R. Cavalier, H. Wilders, Nichol Thompson.

Mr. and Mrs. J. A. Swanson arrived home on Wednesday from Seattle. They were recently called south owing to the serious illness of their daughter Edna, who passed away on April 6th. Miss Edna Swanson was well known in the north and the news of her death was a shock to her many friends.

Badminton Mixed Doubles Tournament Concluded

In the mixed doubles handicap which concluded the Badminton season Miss Greenwood and Mr. Bartman went through their games undefeated. Ten couples took part, both courts being in use over four hours.

Drinking synthetic gin is said to drive Americans temporarily mad. They would be a whole lot madder however, if they couldn't get it.—London Opinion.

Granby Co. Have Done Much Towards The Province's Prosperity

One of the major mining companies of British Columbia, the Granby Consolidated Mining, Smelting & Power Co. Ltd., contributes a large share to the wealth of the province. More than 2,300,000 tons of metalliferous ore were mined and treated by the company during 1928. From these 11,080 ounces of gold were recovered, 430,660 ounces of silver and 57,522,000 pounds of copper. In addition, the company mined 146,000 tons of commercial coal at its Cassidy property on Vancouver Island.

This is a considerable increase over the 1927 production of gold and copper, and a slight decrease in the silver output. In that year 9,775 ounces of gold were produced, 55,411,711 pounds of copper, and 435,440 ounces of silver.

Since 1900 the company has mined between 27,000,000 and 28,000,000 tons of ore. From this have been recovered approximately 800,000,000 pounds of copper, 11,000,000 ounces of silver, 1,000,000 ounces of gold, in addition to 2,000,000 tons of coal. Since that time the company has expended between \$45,000,000 and \$50,000,000 for labor, about \$35,000,000 for material, supplies and power, \$35,000,000 have been invested, and \$11,666,247 have been distributed to shareholders.

The company gives employment to 2000 men at all its operations. Among its current expenditures are approximately \$7,000,000 for labor and materials, practically all of which is expended in British Columbia.

New Council Elected Community League

After two months of uncertainty the Community League has again settled down to business. The vote taken on the 15th, inst. showed only thirty-three members definitely opposed to continuing the league. On the mandate afforded by ninety-eight affirmative votes a meeting was held on Friday, 19th. which was attended by about twenty. Nine nominees for the council were obtained and on Monday 22nd. ninety-eight members again registered their votes with the following result:

- R. J. Manning 95
- D. McDougall 93
- F. Dresser 92
- J. Shields 91
- L. H. McKay 86
- C. F. Clark 84
- H. A. Gourlay 76
- E. H. Dunwoodie 74
- O. G. Macintyre (defeated) . 62

On page two of this issue is an advertisement issued by the Department of Mines. It alludes to three items of the "Mineral Survey and Development Act," governing the activities of mining companies. Under this Act any mining company publishing advertisements, or issuing any printed matter in regard to their operations are obliged to submit copies to the Resident Mining Engineer, and also file copies of the same in the office of the Department of Mines at Victoria. It is the intention of the Department to keep check on the statements for public consumption of mining companies who wilfully misrepresent their ore tonnage and values, so that the investing public are at least protected in some degree from unscrupulous companies who "mine the public" and pocket the proceeds. This strengthening of the Mineral Act should not work any hardship on the industry. If the ore is not in the ground all the statements to the contrary will not place it there, and the quicker the developing company and the public realize it, the better for all concerned. Hot air can not make a producing mine or a prosperous mining camp except in the latter case for a short period. It takes ore tonnage.

Official recognition of the value of geophysical methods of locating ore deposits has recently been accorded by the Provincial Government, who by order-in-council have decreed that the prospecting of mineral claims by this method may apply as "assessment work" under prescribed conditions. A similar provision was made in the Province of Quebec a short time ago, but with the stipulation that the prospecting must be conducted by certain specialist companies, which were specifically named. Like precautions are to be taken in

Predicts Exhaustion Of Metals and Oil In 100 Years

One hundred years will see exhaustion of every oil, copper, lead, zinc, silver and gold deposit now known to the world, in the opinion of Dr. Benjamin L. Miller, head of the department of geology at Lehigh University.

Miller admits, however, that other fields probably will be discovered before the known supply is exhausted, but adds: "there is a limit to the number, and it is probable that the decline in production before many years will become noticeable."

"We can only speculate as to what effect this will have upon the civilization of a few hundred years hence," Miller says.

He declares that despite the often repeated assertion that the world, when all other natural sources are exhausted, will be able to meet its power requirements from water power, that such is not the case.

"Although many people believe that future generations will be able to depend on water power almost entirely, when the supply of fuel, which is converted into power is exhausted, this is true only to a very small degree," Miller said. "A survey of the entire available water supply in North America shows that even when this is developed to its fullest extent it will only be able to supply between ten and twelve per cent of the demand, after allowing for a very conservative increase in the rate of consumption."

The world's coal supply will be exhausted in 400 years, Miller estimates.

Dr. Miller declares that during the last 25 years more of the natural resources of the world have been exhausted than during all the other 500,000 years of existence of the human race.

"Husbands should share the housework with their wives," says a woman's paper. "We despise those selfish husbands who want to do it all themselves."

British Columbia to ensure that the work before it can be officially recorded shall be done under competent direction, but instead of the limitations imposed by the Quebec regulation, the responsibility of this determination will be placed on the Resident District Engineers, which is preferable.--B. C. Miner.

Members at Ottawa Must Carry Own Liquor

The order which was recently issued by Speaker Lemieux for policing the upper floors of the house of commons and prohibiting government messengers from carrying liquor for members from the liquor stores, it is understood, was approved at a session of the house held in camera.

NOTICE

Mining Company officials are asked to note the provisions of Section 16, "Mineral Survey and Development Act," which are quoted herewith, and to govern themselves accordingly.

"(1). Where a corporation, other than a private company under the 'Companies Act,' acquires an interest in, or title to, or engages in work on any mining property situate in a mineral survey district, it shall forthwith notify the Resident Engineer of that district and the Provincial Mineralogist, and file with them full particulars thereof, and shall also file with them, as soon as it is issued, a copy of every prospectus or statement in lieu of prospectus which is required by the 'Companies Act' to be filed with the Registrar of Companies.

"(2). Where a corporation, other than a private company under the 'Companies Act,' issues, publishes, or distributes, or causes to be issued, published, or distributed, any pamphlet, bulletin, circular, advertisement, or publication relating to any mining property situate in the Province in which the corporation has any interest or on which the corporation is engaged in work, the corporation shall forthwith file a copy of the pamphlet, bulletin, circular, advertisement, or publication in the office of the Resident Engineer of the mineral survey district in which the mining property is situate, and shall also forthwith file three copies of the same in the office of the Department of Mines at Victoria.

"(3). If a corporation makes default in complying with any requirement of this section, it shall be liable, on summary conviction, to a fine not exceeding twenty-five dollars for every day during which the default continues, and every director and every manager of the corporation who knowingly and wilfully authorizes or permits the default shall be liable to the like penalty.

B. C. Copper Mining New Steamer Will Run Has Made Great Strides From Prince Rupert

The first official record of the production of copper in British Columbia was in 1894, when 324,680 pounds was produced, valued at \$16,234. Since then a fairly steady increase in output has been maintained, with a production for 1928 amounting to nearly 100,000,000 pounds and valued at approximately \$14,500,000. This output of copper was a high record for the Province, being about 50 per cent. more than the greatest production in the War years, when 65,379,364 pounds was produced in 1916.

After 1916 a decline in output commenced, which culminated in 1922 with a production of only 32,359,896 pounds. This was the year when the full effect of the post-war depression in the copper industry was most pronounced. Since then, the record has been one of steady progress.

The total production of copper for the Province to the end of 1928 has been 1,469,304,652 pounds (recovered content), valued at \$236,027,359 (1928 production estimated).

Copper easily leads all other metals in total recorded value of output, being not far short of the combined production value of silver, lead and zinc. It is, however exceeded by the total recorded output of coal and coke, which has been valued at \$309,519,768.

Until now, British Columbia has been the leading copper producing Province of the Dominion, the output generally amounting to about two-thirds of the Dominion total. Recent developments in Quebec, Ontario, and Manitoba indicate that British Columbia will have to still further increase her production in order to maintain first place.

George Enterprise at Stewart To Be Developed

Work is to be commenced very shortly on the George Enterprise property at the head of Bear River.

Equipment, including a portable compressor, tool sharpener and other fixtures, arrived the latter part of last week and are now on their way up the hill.

The George Enterprise is in condition to resume operations without much difficulty. A good camp was established last fall and will be put into permanent condition this summer. Meanwhile the necessary lumber will be moved up to house new plant.

Some particulars have been received in regard to the new steamer recently purchased by the Canadian National Steamship Co. to ply out of Prince Rupert in the coasting business. She is a Greek vessel built by the Germans for mine laying in the North sea. Captain Edgecombe, skipper of the Canadian Coaster, has gone to the east coast to bring her through the Panama Canal and she is expected to arrive in June for the summer business.

The new vessel, which has an unpronounceable Greek name, is 150 feet long, draws eight feet forward and 10 feet aft, has twin screws which will drive her at a speed of 17 knots. She carries 150 tons of freight and has eight passenger cabins.

Plant and equipment investments in B. C. lumber industry are approximately \$200,000,000.

Here and There

(259)

Although Canadians have been styled strong "silent" men there seems little to support the reputation in the recent announcement that they are the world's greatest telephone conversationists. There are 1,259,987 telephones in Canada, recently published statistics disclose, allowing for a phone for every eight persons. If all the conversations that took place during the past year were placed end to end they would be heard in Mars, for every citizen held on an average of 221 conversations during 1928. Presumably this does not include wrong numbers.

One of Montreal's first big buildings that was demolished to make room for one of the latest skyscrapers downtown has appeared on an entirely new site, to the amazement of the citizens. So carefully was the building taken down that scarce a score of new stones were required to complete its reconstruction on its new lot.

Up to December 31, 1928 the Canadian Pacific had spent in colonization and Canadian development work, land settlement, etc., nearly \$85,000,000 of its own money.

Sir Charles Gordon, G.B.E., president of the Bank of Montreal, has been appointed to the board of directors of the Canadian Pacific Railway to fill the vacancy caused by the resignation of Mr. J. K. L. Ross. Senator the Hon. F. L. Beique, also, has been appointed a member of the executive committee of the board.

A shipment of animals that will resemble the cargo of livestock on Noah's Ark will take place shortly from Moose Jaw Wild Animal Park, when a number of buffalo, mule deer, elk and other animals will be sent to the Rocky Mountain National Park at Banff, Alberta.

Everyone in Canada is worth \$2,700! That at any rate, is what government figures show, the aggregate national wealth for 1928—\$26,691,482,000—working out at that amount per person. Agriculture is the largest single item, and the western provinces come first in the highest per capita wealth of any part of the Dominion.

The Canadian Pacific Railway, in co-operation with the Manitoba Department of Agriculture, Seed Branch, Dominion Department of Agriculture and the Manitoba Agricultural College, has provided two good seed cars and a poultry car, which is travelling through that province. There are demonstrations of grasses, clover and corn, and poultry displays, while accompanying lecturers talk on the importance of good seed and forage crops, and lecture on the rearing of chickens, turkeys, etc.

She—"A survey shows that women live longer than men, though men are healthy."

He—"And here's another fact. Men live longer than draught horses, though the horses are healthier. It depends on who is doing the driving."

Many a man has acquired a huge vocabulary by marrying it.

WATER NOTICE

(DIVERSION AND USE.)

TAKE NOTICE that The Granby Consolidated Mining, Smelting and Power Co. Ltd. whose address is Anyox, B. C. will apply for a licence to take and use 40,000 gallons daily of water out of Bonanza Creek which flows South-easterly and drains into Granby Bay about two miles South-westerly from Anyox. The water will be diverted from the stream at a point about 150 feet N. 8° E. from the No. 1 post of the Bonanza Mineral Claim Lot 1667 and will be used for Mining and Domestic purpose upon the Bonanza Mine described as Crown Granted Mineral Claims Bonanza Lot 1667, Bonanza Fraction Lot 3348. This notice was posted on the ground on the Eighth day of April, 1929. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is April 13th, 1929.

"GIMME, GIMME, GIMME!"

How can any man possibly look as pleasant as this Gymnasium Instructor, with seven charming ladies crying "Gimme" at once? The answer is that the photograph was taken on the Canadian Pacific liner "Duchess of Richmond" during a cruise of West Africa, the Isles of the Blest and the Mediterranean. This was the last photograph taken by the late "Toppie" Edwards, father of the modern illustrated newspaper.

Consolidated Makes Big Profit From Dump

A striking example of the change in mining situation brought about by improved metallurgical processes is found in the announcement from Trail that when the remainder of the St. Eugene tailings at Moyie have been pumped out of lake and concentrated the Consolidated Mining & Smelting Co. of Canada will have paid the total expenses of mill construction and operation and made a net profit of half a million dollars.

These tailing were waste matter after all the metal that could formerly be taken from the ore had extracted. From this refuse the company is cleaning up half a million in profits.

Britannia Co. Makes Good Profit

Net profit of the Howe Sound Company, operating the Britannia property, in British Columbia, and the El Potosi and Calera mines, in Mexico, amounted to \$2,649,068 in 1928, compared with \$2,142,115 in 1927. Howe Sound's metal production in 1928 amounted to 15,366 oz. gold, 3,338,527 oz. silver, 42,201,548 lb. copper, 77,399,285 lb. lead, and 59,378,637 lb. zinc.

Anaconda Has Huge Pay Roll

Anaconda now has a payroll throughout Montana of more than \$40,000,000 a year. In Butte alone, the mining companies have a payroll of about \$3,000,000 a month. During several days in March, Anaconda reached a peak production of 1,000,000 lb. of copper a day.

British Columbia's population is 606,000.

PROVINCIAL ELECTIONS ACT

ATLIN ELECTORAL DISTRICT

NOTICE is hereby given that I shall, on Monday, the 20th. day of May, 1929, at the hour of 10 o'clock in the forenoon, at the Court House, Anyox, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the said electoral district, and of hearing and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for the other purposes set forth in the "Provincial Elections Act."

Dated at Anyox, B. C., this 18th. day of April, 1929.

R. M. McGUSTY,
Registrar of Voters,
Atlin Electoral District.

AND FURTHER TAKE NOTICE that adjourned sittings of the above Court will be held at the following places:—

ATLIN—on Tuesday, the 21st. day of May, 1929, at the hour of 10 o'clock in the forenoon, at the Court House, Atlin.

TELEGRAPH CREEK—on Wednesday, the 22nd. day of May, 1929, at the hour of 10 o'clock in the forenoon, at the Government Agent's Office, Telegraph Creek.

STEWART—on Thursday, the 23rd. day of May, 1929, at the hour of 10 o'clock in the forenoon, at the Court House, Stewart.

Dated at Anyox, B. C., this 18th. day of April, 1929.

R. M. McGUSTY,
Registrar of Voters,
Atlin Electoral District.

Cause of Break in Copper Prices

The necessity for the custom smelters to sell a reasonable proportion of their daily intake of copper was directly responsible for the drastic break in copper prices recorded during the last week. Though this condition is entitled to the direct responsibility, it was the continued absence of demand occasioned by the unsettled credit condition in Wall Street, and a general feeling that the copper price structure had become top-heavy, that made this situation necessary.

Airplane Cuts Time On Northern Mail

Superiority of the airplane over dog teams in carrying northern British Columbia mail is illustrated in the receipt by the Province of two letters mailed on March 1 at Telegraph Creek.

The air mail letter reached the Daily Province more than ten days ahead of the one which went by the ordinary post.

Well, now, what time do I have to get to work mornings?" asked the new hired man.

"Any time you like," responded the farmer, "so's it ain't later than half-past four."

A Scotch salesman, held up in the Orkney Islands by a bad storm, telegraphed to his firm in Aberdeen: "Marooned here by storm—wire instructions."

The reply came; "Start summer vacation as from yesterday."

H. M. SELFE
