## High Grade Ore at Alice Arm

### Strike Made in Rock Quarry

A small vein of high grade ruby and brittle silver was encountered this week at the rock quarry a short distance from the town of Alice Arm. The rock quarry is being operated by the government to supply rock for the wing dam that is being lengthened. The strike was made on the Wolf mineral claim and is owned by Mr. J. Stark. Another vein has been located a short distance from the quarry, and it is the intention of Mr. Stark as soon as operations cease at the quarry to develop the veins, which are from 4 to 7 inches wide, with a view to shipping the ore, which is practically on the Dolly Varden Railway.

## Another Dickens' Evening at Anyox

### Entertainment is again an Immense Success

The second entertainment given under the auspices of the Anyox Parent-Teacher Association, as a sequel to a former Dickens' evening, secured unstinted praise from appreciative audience, on Friday, April 28.

With an entirely new set of inimitable sketches, the players, one and all of whom exhibited careful preparation and delineation, provided a more adequate insight into the quaint characterizations of one of our immortal novelists. Each scene was so faithfully presented, and each part so well sustained, that very many, we feel, have had their interest in this particular author quickened, and if so, the prime aim of the association has been accomplished.

Although it is wished that we could mention the particular credit deserved by each player, space permits only a passing word of reference to the outstanding effort and ease of those few whose portrayal was delightfully characteristic. In the manner of enunciation, pose, and general performance, Mesdames Herrin, Hoffman and Selfe, the Misses Champion, and McColl, and Messrs. Pamplin and Yard gave thoroughly typical and spirited interpretations which lent gusto to their respective scenes.

To Glen Hayden and his melodic

## BIRTH AT ANYOX

Born to Mr. and Mrs. P. McDougal at the Anyox Hospital, on Thursday, May 4th, a daughter.

## Annual Report of Min- ister of Mines for 1921 is Published

### More Development Work Done in Alice Arm District Than Elsewhere

#### Transportation Needed

The Annual Report of the Minister of Mines, for 1921, has just come to hand, and the report of Mr. Geo. Clothier, resident mining engineer for this district, makes some very interesting reading. During last year Mr. Clothier covered the whole district of Alice Arm and reports very favorably on numerous properties in the Kitsault Valley, Illiance Valley, Roundy and Lime Creeks, especially those properties on which extensive development work was done last year.

He reports that there was more actual development work done in Alice Arm district than anywhere else in the North-western District.

Such a favorable report coming from such a conservative source cannot but help being of great benefit to the camp, especially when transportation is available in the Kitsault Valley.

In regard to transportation up the Kitsault Valley, he says:

"The plight of the Dolly Varden mine has had a rather depressing effect on the town of Alice Arm from a business standpoint, and of course, has not been much of a 'boost' for the mining end of the section. However, the most serious phase of the situation is the question of transportation, due to the non-operation of the Dolly Varden Railway, and later, made worse by the washing out of a portion of the railway grade and seriously damaging two or three bridges. It is vital to the development of the Kitsault Valley, and consequently to the town of Alice Arm, that the railway be kept in repair, if only for the use of hand cars for a time. This will practically eliminate any deleterious results from the inactivity of the Dolly Varden itself."

## Homestake Mine to Operate Next Month

No news has yet reached Alice Arm as to when the Homestake Mining Co. will resume operations. A report, however, published in the Victoria Daily Colonist says: that Major Crichton expects the Homestake Co. to commence operations next month and to reach a steady producing stage before the end of next year.

## Weekly Meeting of the Community League Council

At the meeting of the Anyox Community League Council, held on Wednesday, May 3, the following members were present: Messrs. G. Willisroft, president; J. Conway, vice-president; C. J. Lowry, Secretary-Treasurer; Councillors Armour, Buzzelle, Murdoch and Simpson.

There was some discussion in connection with the announcement that recently appeared in the Prince Rupert Daily News, to the effect that the citizens of Stewart had secured a reduction in fares between Vancouver and Stewart of \$2.50 and the secretary was instructed to write the officials of the Grand Trunk Railway and Steamship lines and ask for the same reduction to Anyox.

It was decided to hold a dance in the Mine Hall, on the night of May 10.

Mr. Murdoch enquired as to how employees were on the pay roll of the League and what the total amount of their wages were. The secretary was asked to supply this information at the next meeting on May 10.

Mr. Buzzelle did not think the League was functioning properly, was not getting the results that should be had, and suggested that the secretary address a meeting giving his views of the situation, and that a committee, together with the secretary, should interview the Granby Co. and ascertain what could be done along the lines of community betterment. In this connection the chairman of the Council told the meeting that the secretary had prepared a survey of the situation, which had been handed to him a few days ago, and that this would be submitted to the members of the Council in regular order, to be acted upon by them as they saw fit.

The chairman of the Council also told of a meeting to organize the tennis players at the mine, and that a further meeting to perfect organization was to be held there on Monday, May 8, for the election of officers for a Mine Tennis Club, for 1922.

An application on behalf of the International Bible Students for use of the Recreation Hall on some Sunday afternoon to be decided on, was favorably received, and the request granted.

Mr. and Mrs. W. Ballentine and family left on Thursday, for Vancouver, where they will reside.

The first league Baseball game will take place on Monday, the 15th. The contending teams will be Elks and Smelter.

## Football Season Starts in Anyox

### Large Crowd at Game

The football season started in Anyox on Tuesday evening, May 2, when the Elk's team defeated an aggregation of all-comers by 2 goals to 1. There were over 100 spectators on the field, although the game was merely in the nature of a get-together meeting for the purpose of ascertaining the number of men who would don football jerseys for the season of 1922. Many of the boys on the field were in excellent form, and some fine talent was discovered, which promises some good sport for the coming season. The ball burst ten minutes before time was up. Ted Simpson was the referee and handled the whistle to the satisfaction of the crowd.

The line-up of the teams were: Elks: goal, Grey; backs, D. McKenzie and A. Roberts; half-backs, W. Robertson, J. Sherman, W. Crerar; forwards, A. Ritchie, Cy. Greenwell, P. McDougall H. Baillion, A. Seaton.

All-comers: goal, Farrell; backs, J. Kirkel, F. Brown; half-backs, J. Wilson, R. Stewart, and Gilmour; forwards, Mahoney, Robertson, Richmond, Boyd, Hay, Twaddle.

## Annual Meeting and Social at Union Church

The Annual Congregational Meeting and Social was held in Union Church on Monday evening. The reports of the year's work, ending April 30th, were read, showing that the Church has been alive during the past twelve months. The Sunday School shows a decided increase in attendance. The Trail Rangers were organized a few months ago, each week the boys meet for club work, games, etc., and now that the fine weather is here, every Saturday the class holds a proper chase or hike. Both the Trail Rangers and the Maple Leaf Class (girls) will hold their summer camps this year, probably at Alice Arm.

The report of the Ladies Aid was read by Mrs. McAllister and showed that the ladies under the leadership of Mrs. G. P. McColl, had done good work for the Church.

The officers for the ensuing year were elected as follows: Messrs. G. P. McColl, F. Morrow, T. Kirkwood, R. Wellwood, W. Corbett, T. Wilby, R. Owens, Dr. Whelan, and Mrs. McAllister. Solos were sung by Miss B. Clay, Mrs. Galloway, Mrs. Tankin, Mr. G. McColl, Miss A. Rowlings, Master J. Gillis, and Rev. J. Herdman.

Refreshments were served by the Ladies Aid.

## Forclosure on Dolly Varden Mine

### Action Taken by Mr. Geo. Wingfield

Foreclosure of the Dolly Varden Silver Mine and Wolf claims and the Dolly Varden Railroad by the Consolidated Gold Interests of Cripple Creek, Colorado, is threatened by proceedings started in the Supreme Court, says the Vancouver Daily World, of April 28th. George Wingfield, of the Consolidated, who loaned \$200,000 to the Dolly Varden a few years ago has taken steps to foreclose on his security.

This morning, Paul C. Chiene, receiver for the creditors of the Dolly Varden Mines Company and the Dolly Varden Company were added as parties to the suit brought against the Taylor Engineering Company.

The above two paragraphs are a sure sign that developments are beginning to take place, and if the foreclosure is proceeded with immediately there is no doubt but that the new owners will make arrangements to commence operations this summer, as there is nothing to be gained, but a whole lot to be lost by letting the properties lie idle. The railroad is rapidly deteriorating, as is also the power plant at the Wolf and numerous buildings, rolling stock, etc. The recommencing of operations may not be as specular as when the Taylor Co. took over the property, but operations will probably be more permanent.

## Five Men Charged with being Drunk at Anyox

During the last two weeks five men appeared before Stipendary Magistrate J. Conway, charged with being drunk in a public place, they were: Joseph Scopinich, M. A. McDonald, Charles Johnson, Donald McKenzie, John Prodanuk.

Each man was fined \$50 and \$2 Court Costs, or thirty days hard labor in default of payment, for infractions of the Government Liquor Act.

The wild and woolly days of the northern mining camps are about over now that the government control the liquor. The liquor store is for the purpose of supplying the wants of the man to know how to handle drink, but drunkenness will not be tolerated.

**Prosperity for Alice Arm**

The fact of the likelihood of an early resumption of activities on the Dolly Varden and Wolf mining properties, due to the pending court proceedings; the possibility of trail connections being made with the Naas Valley this summer, and the favorable report of Mr. Geo. Clothier on the mining properties in this section, is having a very encouraging effect in the Alice Arm district. With the Dolly Varden and Wolf properties again in operation, and transportation provided in the Kitsault Valley, for the benefit of other properties, coupled with trail connections to the Naas Valley, Alice Arm would rest on a solid foundation, from which a permanent town could be built up, and like the flowing river, we could go on and on forever. The future of the camp never looked brighter than it does at the present time. The operation of the Dolly Varden and Wolf will automatically end the present deplorable transportation difficulty in the Kitsault valley. The fact that transportation is again available will encourage other companies to enter the field, to develop the big ore showings, which probably are without parallel in the whole of B. C. A large amount

of development work was done last year by property owners, and the camp is in a better position to attract capital than it ever was before.

**Naas Valley Trail**

To date, no word has been received as to whether trail connections are to be made between Alice Arm and the Naas valley, this year or not. If the government intends to build the few miles of trail necessary to open up the valley it is time some sort of programme was outlined. The government in spite of the financial condition of the province is finding money to build road and trail systems throughout every other part of the province, and if the Naas valley trail is not completed this year the people of the valley and Alice Arm should know the reason why. Only six miles of trail is needed to give transportation to the Naas valley. Is this district to be crucified on the cross of government cheese-paring parsimony in order that other districts in the immediate neighbourhood may grow fat on money expended from the public purse? It is time concerted action was taken by the people of the Naas valley and Alice Arm, and if the government do not intend to make connections this year, we should, as citizens of the country know the reason why.

**"Radio in the Arctic"**

A bunch of the boys were whooping it up in a Malamute saloon,  
And the kid who tickled the music box was pounding his usual tune;  
When out of the night which was fifty below and into the din and glare,  
There rumbled a voice down the chimney pipe, that seemed to come from the air:  
"Hello, hello, all ships and stations; hello, all malamute saloons—  
It's KFC transmitting; stand by for a few jazz tunes!"  
"Well, this beats me," swore Sam McGee, as he looked at Dan McGrew,  
Who'd turned as pale as his white mule ale and the woman that's known as Lou;  
"Hello, hello," said the voice again, "We'll now broadcast to you, a hot fox-trot by Harold Weeks, and boys, the piece is new!"  
"Who in hell is Harold Weeks?" yelled Dangerous Dan McGrew,  
"I'm off this bootleg booze," he said, and aimed a kick at Lou.  
But the music swelled like a pent-up flood and it filled the old saloon.  
It played *The Sheik*, *Down Bimini Bay*, and *'Neath a Tropic Moon*.  
The kid on the stool banged away like a fool, but the barkeep said, "Pipe down!"  
A husky howled, but a bullet plowed the brain of the luckless houn'.  
The music stopped. "That's all tonight," said the voice down the chimney flue—  
Tomorrow night is Arctic Night, and, boys, we'll give to you  
The low-down stuff that Service wrote of the woman that's known as Lou."  
Well, Lou turned white as a Klu Klux kite, and wept a Klondyke cry;  
"I'll burn my letters, Dan" sobbed she—"I know that bird will lie!"  
"Now witness you me," shrieked Sam McGee, and he broke his glass on the floor—  
And he signed this pledge on the window ledge—"I'll drink no "moon" no more."

**Dickens' Evening in Anyox**

Continued from page 1.

confreres, great credit is due for the swing added to the whole entertainment by their exceedingly pleasing music. Those who contributed vocal numbers also enhanced the evening's pleasure with old time songs. Last, but not least we would mention the graceful and pretty dances put on by the boys and girls, under the very able direction of Miss Margaret McColl. These were a treat indeed and evidenced painstaking training.

There were many who in numerous ways contributed to the success of this pleasing affair, and we believe that our thanks has been acknowledged for their generous efforts. To one, however, especially—Mrs. Sam Herrin—who willingly and very ably shouldered the major part of the responsibility as official organizer and directress, we must tender the heartiest congratulations for her noteworthy achievement.

### Operations of the Granby Co. for 1921

The following is from the report of the Minister of Mines for 1921, and is part of the report of Mr. Geo. Clothier, district mining engineer.

"The Granby Consolidated Mining, Smelting & Power Co., Ltd. has fortunately been able to operate its entire plant, with the exception of the "pilot" mill, continuously throughout the year, and from a quantity-production standpoint has had its most successful year since the smelter was "blown in" in March, 1914. During that time the company has produced from its Hidden Creek mines, at Anyox approximately 200,000,000 lb. of copper."

"Up to September, the average number of men employed was 1,163; for the last four months, 926; or an average for the year of 1,084 against 1,277 for 1920."

"Notwithstanding the reduction of labor, the tonnage mined was 896,802 tons, an increase of about 95,000 tons over last year, swelling the copper output to 34,067,185 lb., an increase of nearly 9,000,000 lb., or about 35 per cent. over last year. The gold and silver yields were 7,652 oz. and 314,204 oz. respectively, each less per ton than last year, due to the fact that the quartz mined for flux from the Rambler carried no metal contents. Although there was a marked increase in the copper output, the total value of the year's production will be considerably less than 1920,

on account of the shrinkage in market prices of silver and copper."

"No quartz was mined from the Granby Point quarries this year, but 22,500 tons was taken by the company from the Rambler claim just above the smelter."

"The company's lime rock quarries at Swamp Point were not operated until April, the requirements for the first three months being drawn from storage. A total of 12,000 tons was mined during the balance of the year."

The greater portion of the 900,000 tons of ore mined and smelted was produced from the glory-hole and underground stopes, above the 385-foot level, which is the main haulage level to the crushers, which are on the 230-level—No. 1 underground, and No. 2 crusher on the surface, both discharging to storage bins above the 150-foot level, the main haulage to the smelter. Also considerable heavy sulphide ore from No. 1 and No. 5 ore bodies was hoisted from stopes above the 150-foot and below the 385-foot levels, the tonnage hoisted gradually increasing as the stopes became larger."

The large shrinkage stope in the No. 2 ore-body, which was started in 1916, was finished in the early part of September, making available such a large tonnage of ore that mining was discontinued in other parts of that ore-body. About 15,000 tons monthly was drawn from this stope during the last three months of the year. In the five or six years that this stope has been in operation there has been about 75,000 tons of what is considered high grade ore broken, and it is worthy of note that during the mining of this large tonnage there was only one accident that resulted fatally and no others of any consequence."

### SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 res. before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

#### PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

#### SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

#### GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

TOBACCO DEPARTMENT

### The Scent of a Good Smoke

lies in a good Pipe. There is as much difference between an ordinary Pipe and a genuine Briar, as there is between Laundry Soap and a can of Pears.

We have just received a Complete Stock of the following well known Pipes:

"Peterson Patent." "B. B. B."

"G. B. D." "Lowe's," and the

famous "Dunhills"

CALL AND LOOK THEM OVER.

## BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, \$75,944,203; Lode Gold, \$102,753,823; Silver, \$53,668,284; Lead, \$46,637,221; Copper, \$161,513,864; Zinc, \$19,896,466; Coal and Coke, \$212,573,492; Building Stone, Brick, Cement, etc., \$32,168,217; Miscellaneous Minerals, \$1,037,408; making its mineral production to the end of 1920 show an

**Aggregate Value of \$706,192,978**

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241 for five years, 1896-1900, \$57,605,967; for five years, 1901-1905, \$96,509,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for the five years, 1916-1920, \$189,922,725.

**Production During last ten years, \$331,995,328**

Lode-mining has only been in progress for about 25 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

**THE HON. THE MINISTER OF MINES,  
VICTORIA, British Columbia**
