Tennis Semi-Finals for Men Played in Anyox

The Tennis Tournament for the Men's open singles has now got down to the Final round, with H. Ballion & D. Cole jr. as finalists. On Sunday morning last, Townshend played Brown in the 3rd. round winning by the score of 6-2; 6-4, this game bringing him into the semi-finals against Cole.

On Sunday afternoon both semi-final games were played, and although neither of the games brought forth any high standard of tennis, yet they were hotly contested, five sets in each having to be played before either could claim victory.

We were fortunate in having fine weather, almost too fine, as old Sol outshone himself, and seemed to throw out more heat than usual much to the discomfort of the players.

In the Ballion-Lee game, Lee started out very strongly, taking the first set at 6-0, but in the second set Ballion came back and won 6-1. The third set was closely contested Ballion winning by 7-5. The 4th. set was won by Lee, 6-2, who was at this time playing a very strong game, so much so, that his supporters were hopeful that he might pull "the chestnut out of the fire" and win the fifth and deciding set, but Ballion seemed to gain strength in this set, Lee weakened, and finally had to knuckle down to his more youthful opponent.

The Tennis was brilliant in spots and caused a lot of applause from the very interested, and if I may say so, very sportsmanlike little crowd, but outside of these "spots" both of the players seemed to play too carefully, being more intent on simply getting the ball into the court, than they were of making good placements and hitting the ball harder. This is a fault so very common among most players in Tournament games and undoubtedly shows a two great tendency to win at any price, even at the sacrifice of the tennis one is capable of, and more important still, of true sportsmanship.

The game between Cole and Townshend developed into another ding dong battle, going the full length of five sets, Cole eventually winning by the score of 7-5; 4-6; 6-4; 4-6; 6-4.

This game was like the other brilliant in spots, especially some of Cole's returns from seemingly impossible positions. The failing of being too careful is not a fault of this player. He plays to win his point, but at the same time he does not alter his style of play in order to make this certain. His service was very good, as it always is and in the last set he put into it a "do and die" sort of attitude that worked well, so well that it won the deciding set for him.

The final match in this tournament will be played, weather permitting, on Sunday the 16th. September at 1 p. m.

The game should be the best of the season, and it is hoped that as many people as possible will try and make a point of being there, and by so doing, show their interest in tennis in Anyox and also add an incentive for either of the players to win.

These Cup games have, to a certain extent, overshadowed the Ladder games, but now it is to be hoped that all will make a special effort to, play as many games as they can while the fine weather lasts, and in this way make it possible for them to become eligible for the prizes in the Ladder events.

Development Work on Silver Lead

James Nick is now busy developing the Silver Lead property on Copper Creek, and will drive a tunnel under the surface showings in the bed of the creek. Recent assays of samples taken from the property have given returns of 50 ozs. silver per ton and 60 cents in gold. These are the first assays ever taken on the property and are very encouraging. The surface showings extend for a long distance up the hill, and development work will undoubtedly prove up a considerable tonnage of ore.

The Alice Arm Freighting Co. packed in half a ton of supplies during the week. A new cabin has been built on the property, a good trail has also been built from the Illiance River trail, and everything is in readiness for development work.

Alice Arm Having Prosperous Summer

Despite the fact that the purveyors of blue ruin were busy during the early spring, Alice Arm camp is having a very prosperous summer, thank you. Labor has been at a premium for several months and it has been necessary to send outside in order to procure men for government road work, a state of affairs which has not existed for many years.

Logging has been very active during the summer, employing a large number of men in various camps chief of which is the camp of the Abbotsford Logging Co. employing about sixty men.

While mining has been rather quiet, headway has been made. The Homestake Mining Co. are now employing sixteen men on their property at the Kitsault Glacier. The Esperanza has been steadily working throughout the summer, and the Keystone Mining Co. recently commenced operations on the Sunset property on Roundy Creek. Work on this property has been suspended, however, until the arrival of Mr. Thornly, Mining engineer for the company, and also until a trail fit to use pack horses on is built.

A large amount of development work has been done during the summer by property owners, and some wonderful strikes of high grade ore have been made on different properties. These strikes are not prospectors dreams or hot air peddled for the sake of turning a property to a hot air company but good honest strikes with ore in place for anyone to see.

Several mining engineers and men connected with mining have visited the district during the past few months, and instead of acting like a clam as is generally the case when they receive a bad impression, they admit that the camp has the earmarks of a good mining camp, and that in the near future a large number of these properties will be developed.

BIRTH AT ANYOX

Born to Mr. and Mrs. J. Ferguson, at Anyox Hospital, on Friday, September 7th, a daughter.

Alice Arm Wing Dam Will Soon Start

It is understood that work on the wing dam above the town will commence as soon as the upper Kitsault bridge is completed, which will be only a short time. Mr. McMasters, who is in charge of constructing the bridge, will then proceed to Stewart, and complete the big Bear river bridge, which will take about two months. At its completion, if present plans mature, he will return to Alice Arm, and commence the construction of the lower Kitsault River bridge.

Mr. J. Steven, district engineer, has completed his work in the Atlin and Dease Lake country, and has returned to Stewart. He will later visit Alice Arm and outline the work on the Kitsault bridge.

Dance Held at Alice Arm Hotel

The dance held last Saturday evening at the Alice Arm Hotel, proved to be another of those delightful dances which are a specialty of pioneer mining camps. Everyone was there to join in the merriment and everyone had a good time. The orchestra, composed of Mrs. T. W. Falconer, Messrs. C. E. Hutchinson, E. R. Oatman, and J. D. Cameron were in their usual form. Mr. Geo. Bruggy acted as master of ceremonies. A large crowd, including a number of Anyox visitors, were present, and everyone admitted it to be one of the jolliest hops held this season.

Smelter Football Team Wins Championship

On Monday evening the Smelter met and defeated the Mine team, thus winning the gold medals.

There was a fairly good attendance of football enthusiasts, and the weather conditions were perfect. Westwood and Greenwell scored for the Smelter, off passes from Elder, whilst Barnes scored for the Mine.

The teams were: Smelter, goal, P. McDougall; Ross and J. Kirkland; half backs, A. Kirkland, Mair, Rowan; forwards, Elder, Matthews, Westwood, Greenwell, J. Kirkland. Mine, goal, Chapman; backs, Stewart and Lange; half backs; Cane, Pymm, Currie; forwards, Twaddle, Barnes, McKeown, Darlove, Ingram.

Northern Polytechnic Institute Officials

The organization work of the Northern Polytechnic Institute for the coming term, is nearly complete, and it now remains for students to come forward and enroll themselves. Any subject will be taught, providing enough pupils can be obtained to form a class.

The following are the representatives for the towns conducting classes: Robert Armour, Anyox; C. E. Hutchinson, Alice Arm; G. C. Andrew, Stewart; Thomas McGuigan, Swanson Bay; James Stewart, Surf Inlet; J. H. Young, Terrace; Wm. Grant, New Hazelton; C. P. Bussinger, Telkwa; F. Ockleshaw, Smithers; M. H. Harper, Prince George.

Sensational Ball Game Between Elks and Mine On Saturday

Three all was the score when darkness shut out all hopes of the game going to a decision on Saturday night last Sept. 8th. when the Elks and Mine teams met in the second game of the Post Season Series. In the full seven innings both teams fought to win, but neither side could shake the other for the odd run, and it now looks as if the remaining games would have to be staged on convenient afternoons. The batteries for the game were: Elks, Draudson and Downs; Mine, Mealey, J. Ferguson and Greenwell. Olsen umpired balls and strikes and Cole the bases. Line-up: Downs, c; Campbell, o. f.; Greenwell s. s.; McIntyre, 1. f.; Fitzpatrick, r. f.; Draudson, P; Sloan, 3. b.; Brentzen, 2. b.; Thorley, 1. b. Mine, Greenwell, c.; Mealey, p; J. Ferguson, 1. b.; C. Ferguson s. s.; Anderson, 1. f.; Pynne, 2. b. Allan, c. f.; Halverson, 3. b.; Ployart, r. f. The game by innings.

1st. Elks. Downs hit to pitcher, out at first. Campbell struck out. Greenwell hit through second, safe at first, stole second; McIntyre hit between second and third, safe at first, sending Greenwell to third. Fitzpatrick hit to third, out at first. Two hits, no runs, no errors.

1st. Mine. Greenwell hit to short out at first. Mealey hit through between first and second, safe at first, stole second, stole third. J. Ferguson flew out to right field. Mealey home on wild throw from catcher to third, 1 hit, 1 run, 1 error.

2nd. Elks. Draudson walked. Sloan struck out. Brentzen struck out. Draudson stole second, out stealing third. No hits, no runs, no errors.

2nd. Mine. Anderson hit to third safe at first, went to second on ball passed by catcher. Pynne struck out. Anderson stole third, and home on an overthrow by the catcher to third. Allan struck out. Halverson struck out. 1 hit, 1 run, 1 error.

3rd. Elks. Thorley hit to third safe at first, stole second. Downs flew out to third. Campbell hit between second and third, safe at first, scoring Thorley. Greenwell hit to deep right, safe at third, scoring Campbell. McIntyre hit to short left, safe at first, scoring Greenwell. C. Ferguson relieved Mealey. Fitzpatrick hit by pitched ball went to first. Draudson flew out to centre field. Sloan struck out. 4 hits, 3 runs, no errors.

3rd. Mine. Ployart popped out to short. Greenwell flew out to left field. Mealey hit along first base line, out at first. No hits, no runs, no errors.

4th. Elks. Brentzen struck out, Thorley flew out to second. Downs struck out.

4th. Mine. J. Ferguson hit to short, out at first. C. Ferguson, hit to pitcher out at first. Anderson hit to short left, safe at first, stole second, went to third on ball passed by catcher and stole home on pitched ball. Pynne struck out. One hit, one run, one error.

5th. Elks. Campbell hit to pitcher out at first. Greenwell hit to left field, safe at first. McIntyre flew out to left field. Fitzpatrick hit to pitcher, out at first. One hit, no runs, no errors.

5th. Mine. Allan hit to second, out at first. Halverson hit short to third, safe at first, out at second. Ployart struck out. One hit, no runs, no errors.

ALICE ARM NOTES

Mr. E. Ashton, left on Saturday, for Anyox, after spending a few weeks in the camp inspecting mining properties.

Mr. J. Stenbraten, "Stampede John," left last week for a short visit to Smithers.

Mr. M. D. Ross, manager of the Royal Bank, left on Monday on a business trip to Vancouver. Mr. S. R. Harper, of Prince Rupert, is taking his place during his absence.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Mr. T. Scott left on Monday for his ranch in the Naas Valley, after spending five months here logging.

Miss B. Crawford left on Monday and will spend a week's vacation in Prince Rupert.

See Al. Falconer for Wood or Coal

Mrs. J. Laidlaw left on Monday for Prince Rupert to take part in the Exhibition festivities, during which she will give exhibitions of Highland dancing.

Mr. and Mrs. J. O. Tretthewey, left on Monday, for Vancouver.

Mr. Wm. Bunting left for his home at Hyder, Alaska on Monday, after inspecting mining properties in the Kitsault valley.

Mr. and Mrs. Norman Fraser arrived from Anyox on Tuesday, and will spend two months at the Esperanza Mine, in which property Mr. Fraser holds an interest.

Mrs. N. Sutlovich and daughter Zorka, left on Monday for Prince Rupert. Miss Zorka will probably attend school there.

A dance will be held at the Alice Arm Hotel, this evening. An Anyox orchestra will be in attendance. Supper will be served. A good time for all.

See Al. Falconer for Freight and Pack Horses.

After September 30th. postage stamps can not be used on notes, cheques, etc. Excise stamps only can be used, and are purchasable at all banks.

Miles Donald and Jim Calvin left yesterday morning for Haystack mountain, where they will do development work on the claims adjoining the La Rose on the north. Some fine silver showings are located on the property.

6th. Elks. Draudson hit to pitcher, out at first. Sloan walked. Brentzen hit to deep centre, safe at first, Sloan going to third. Thorley struck out. Downs hit to pitcher, out at first. One hit, no runs, no errors.

6th. Mine. Greenwell struck out. Mealey hit to short, out at first. J. Ferguson flew out to centre field. No hits, no runs, no errors.

7th. Elks. Campbell struck out. Greenwell hit between second and third, safe at second and third, safe at second. McIntyre hit to pitcher, out at first. Fitzpatrick struck out. One hit, no runs, no errors.

7th. Mine. C. Ferguson hit to second, out at first. Anderson flew out to short. Pynne struck out. No hits, no runs, no errors.

Industries Needed

Good roads and lots of them are essential to the prosperity of any country and this is particularly true of the province of British Columbia, where conditions are such, that in many districts it is impossible to make connections one place with another unless a good road is built. A programme of road building is being outlined so that settlers can be brought to the land in many of the agricultural districts, but the fact should not be overlooked that without the local markets, the farmer can not exist. The fostering of industries and the development of mines are as essential to the prosperity of the farmer as anyone else. Develop the mines of this rich northern country and so provide markets for farm produce, and the agricultural lands will soon be all under cultivation.

Steel Industry Held Up

The establishment of a steel industry on the coast, is one of the soundest propositions that has been proposed, and it is a pity that some plan can not be worked out. The establishment of a steel industry would mean direct employment for thousands of men and indirectly more thousands would benefit by supplying material, etc. for the

works and the employees. It would mean that British Columbia would take her place among the manufacturing provinces of the Dominion, and having direct water communication with the teeming millions of the Orient would find a ready market for her goods. Up to the present, the establishment of a steel industry has been killed, and it is claimed that the American Steel Trust, and the C. P. R. are responsible for the killing, the former, so that they can control prices in the west and Orient, and the latter, are not going to lose the profitable business of hauling steel from the east without a struggle. The slogan is, throttle big industries in British Columbia, so that we have to haul it from the east. With such a narrow-minded policy being played by the C. P. R. is it any wonder our young men are forced to seek employment under a foreign flag, or that our farm lands are vacant for lack of home markets, and that instead of our population increasing by leaps and bounds---as it should do---it is still in the creeping stage.

Probably no question relating to public affairs has stirred up so much interest in recent years in this province as that of freight rates reductions. The matter vitally affects the very life of British Columbia and the success of the government's fight would be reflected immediately in the industrial and commercial development of the province. Following Premier Oliver's return from Ottawa, where he attended before the Privy Council, he stated that the outlook was most promising but even if the Federal Government did not settle the matter fairly the provincial government had another card to play, a direct appeal to the throne.

Subscribe to your Local Paper NOW.

Government Printing Office Re-organized

Reorganization of the government printing office here has been completed by Hon. Dr. McLean, provincial secretary. Under the new system it will be possible to tell to the cent the cost of every piece of printing undertaken. The government printing office is the largest in the province and is considered one of the most modern on the continent. The service costs approximately \$240,000 per year. Among other work handled is the printing of the B. C. Gazette, the largest publication in the province outside the daily papers.

Why Fire Insurance Rates are High

The average annual per capita cost from fires in United States, is \$2.26, while Canada loses \$2.73 per capita by fire; Spain, \$1.86; France, 97 cents; England, 64 cents; Germany, 28 cents, and the Netherlands only 11 cents.

The key to success is hard work, but use your head as well as your hands.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, \$76,542,203; Lode Gold, \$109,647,661; Silver \$59,814,266; Lead, \$51,810,891; Copper, \$170,723,242; Zinc, \$24,625,853; Coal and Coke, \$238,289,565; Building Stone, Brick, Cement, \$36,605,942; Miscellaneous Minerals, \$1,358,839; making its mineral production to the end of 1922 show

An Aggregate Value of \$769,418,462

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1922, \$35,158,843.

Production During last ten years, \$339,280,940

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

FORGET IT

If you see a tall fellow ahead of the crowd,
A leader of men marching fearless and proud,
And you know of a tale whose telling aloud,
Would cause his proud head to be suddenly bowed—
It's a mighty good thing to forget it.

If you know of a skeleton hidden away,
In a closet and guarded and kept from the day
In the dark, and whose showing, and sudden display
Would cause grief, sorrow and life-long dismay—
It's a pretty good thing to forget it.

If you know of a thing that will darken the joy
Of a man or a woman, a girl or a boy,
That will tend to disturb, or molest or annoy,
A fellow, just take this suggestion my boy,
It's a pretty good thing to forget it.

Minister Takes Exception

Hon. T. D. Patullo, minister of lands takes objection to the wording of a report of statements made at the Empire Forestry Conference that logging was a wasteful operation in British Columbia. He said that the leaving of a large amount of timber in the woods was due to the fact that a certain percentage of timber was not suitable for the markets open to B. C. lumber, but on the whole lumbering in this province was being carried on most economically.

The Copper Market

Burdick, Logan & Company, Limited
737, Granville Street,
Vancouver, B. C.
Special to the Herald

Copper sales for export by both Copper Export Association and independents during the current week have been the largest for any week in several months. Buying is not confined to any particular country, but has been well distributed among England, France, Germany, Italy, Sweden and Australia. Orient also has been taking small tonnage Foreign inquiries are active, indicating that buying will continue. Sales by copper export association during last 24 hours have been largest for any similar period of the week.

Domestic demand continues good, particularly in the brass industry. Manufacturers are getting in new orders which has resulted in activity in copper market. Much of the buying is for last quarter.

While some copper has been sold at 14 cents a pound delivered, producers are quoting at 14 1-8 cents. Attractive business might result in large sales at 14 cents, but no copper, except probably a few small lots, is being offered at this figure.

Producers are taking an optimistic view of the situation. They feel that the buying, which has been so long postponed both here and abroad, is under way. Another week of buying on the scale that has taken place this week will give the market strength and effect the price.

Electrolytic for domestic delivery is 14 to 14 1-4 cents a pound delivered to the end of October. Price aside ship New York is 14 1-8 to 14 1-4 delivered. Price c. i. f. European ports is 14.35 cents.

American Brass Cuts Prices

Boston—American Brass Co. reduced brass and copper in rolls, which was reduced 1 cent. Low brass rods were reduced 1-2 cent. All nickel silver sheets, which are reduced 1-2 cent a pound.

Howe Sound at Capacity In Copper Production Handling 2,500 Tons of Ore a Day

Howe Sound Co. has at last brought its copper mining operation in British Columbia up to full capacity. According to a working report, the Britannia Mining and Smelting subsidiary handled 75,000 tons of ore in June, the complete rating of the 2,500 tons a day plant which started to run only in February last. No statement of metal production has as yet been given out.

Copper production costs are understood to be very low, as labor efficiency is exceptionally high. Only 500 men underground are required to maintain the present tonnage basis, an average of about five tons per man.

Business Flourishing in B. C.

There was a decided improvement in industry throughout British Columbia last year, according to the fourth annual report of the department of industries, just published by the government. There was also a marked renewal of interest in the vast wealth of raw materials of the province.

Included in the report is an elaborate directory of products manufactured in British Columbia, a work which required a great deal of research and time on the part of the department. There are 482 different articles manufactured, with 2718 establishments operating in the province. During the year the department of industries distributed 15,000 copies of the directory.

The report points out that the average B. C. product is equal to, if not better than, the article imported, or brought here from eastern Canada a point often unappreciated by local consumers, who would save money and encourage home industry by selecting B. C. products where possible. The minister of industries points out that copper, zinc, lumber, lead, silver, fish and particularly agricultural products. At the same time canned soups, vegetables and fruits are imported in large quantities.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to \$5 an acre; second-class to \$3.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm; without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

ATLIN DISTRICT—ALICE ARM

Notice re discontinuing and closing of road through Lot 1074 and Lot 1074A Cassiar District

NOTICE is hereby given that, under the authority conferred by section 10A of the "Highway Act" as enacted by Section 3, of Chapter 28 of the Statutes of British Columbia 1917, it is the intention of the undersigned, after thirty (30) days from date, to discontinue and close the road between Lots one (1) to fourteen (14) inclusive and Lots fifteen (15) to twenty-six (26) inclusive through portion of Lot 1074, and portion of Lot 1074A, Cassiar District as shown on subdivision plan prepared by Fred Nash, B.C.L.S., 28th. day of May 1920.

It is the intention to substitute another forty (40) foot road therefore.

W. H. Sutherland,
Minister of Public Works.

Department of Public Works,
Parliament Buildings,
Victoria, B. C.
August 15, 1923.

MINERAL ACT
(FORM F.)

LEGAL NOTICE

In the Matter of the MINERAL ACT and FORFEITURE of INTEREST of Co-Owners who have failed to Contribute.

To W. J. VanHouten of Hollywood, in the state of California, U. S. A. and W. G. H. Campbell of Port Haney, in the Province of British Columbia.

WHEREAS you the said W. J. VanHouten and W. G. H. Campbell are each a holder of an undivided one-quarter interest in the "Big Strike" Mineral Claim situated in the Portland Canal District, Alice Arm, B. C. located the 8th day of June 1919 and recorded at Anyox, B.C. upon the 19th. day of June 1919.

AND WHEREAS Douglas R. Shewan and Robert T. Colquhoun are each a holder of an undivided one-quarter interest in the said Mineral Claim.

NOW you the said W. J. VanHouten and W. G. H. Campbell are hereby given notice that the said Douglas R. Shewan and Robert T. Colquhoun have made the whole expenditure upon the said Mineral Claim for the year ending the 10th day of June 1923 as required by Sections 48 and 51 of the Mineral Act.

AND that if you the said W. J. VanHouten and W. G. H. Campbell shall fail or refuse to contribute your proportion of the said expenditure required by the said Sections 48 and 51 of the Mineral Act together with all costs of advertising on or before the tenth day of December 1923 your respective interests in the said Mineral Claim shall become vested in your Co-owners to wit; Douglas R. Shewan and Robert T. Colquhoun (who have made the required expenditure, pro rata) on filing with the Mining Recorder of the Division in which the said claim is situated, this Notice in full and on fulfillment of the requirements of Sections 28 of the Mineral Act; and do you the said W. J. VanHouten and W. G. H. Campbell govern yourselves accordingly.

FRANK C. SAUNDERS, Solicitor for Douglas R. Shewan and Robert T. Colquhoun, whose address for service and place of business is 402, Dominion Building, Vancouver, B. C.
