## Value Output of B. C. Mines For 1933 Shows Increase

### Preliminary Report Minister of Mines, Shows Gold and Other Metals Up, Coal & Building Materials Slightly Down.

Honorable Geo. S. Pearson, Minister of Mines, has announced the issue of his preliminary report on the mineral industry of British Columbia for the year 1933—Bulletin No. 3. This publication gives an estimate of the mineral production for the year; and interesting reports by the Resident Engineers on their respective districts. These reports briefly chronicle the developments taking place at nearly all mineral properties throughout the province, and are of decided value to all those interested in the mining industry. The bulletin is compiled by John D. Galloway, Provincial Mineralogist.

The gross value of the mineral production of the province for 1933 is estimated at \$29,080,489, an increase of \$838,871 as compared with the output in 1932, or 2.9 per cent. Slightly higher metal prices assisted in achieving a higher output value than in the preceding year. Quantity production in the aggregate was about the same as in 1932.

The metallic production—gold, silver, lead, zinc and copper—amounted to \$21,999,489, an increase of \$2,460,500 as compared with 1932. Coal shows a decline in quantity and prices and there was a heavy falling off in the value of structural materials produced. Miscellaneous metals and materials registered a considerable increase.

Mineral production in the first half of 1933 recorded a decline of 13.4 per cent. so that the increase for the full year is very satisfactory and shows that a regular uptrend—the first since 1929—has now commenced. The metallic production has been responsible for the upturn, and when general business improves, similar progress may be hoped for in the coal and structural materials branches.

The tonnage of ore mined was approximately 4,300,000 or almost the same as in 1932. The average grade at \$5.00 per ton compares with \$4.32 per ton in 1932; the increase being mainly due to a relatively larger proportion of gold ore mined.

As expected, gold production showed an increase both in placer and lode, the combined gold out-

## Pirates, Mechanics and Bon. Cons. Won Games Mon.

Mechanics B turned the tables on their old rivals the Vandals on Monday last, with a score of 19-12. Another Senior B and one Senior A game made up a good card for the hoop enthusiasts present.

Rovers were snowed under in their fixture with the Pirates, the latter winning 29-8. Though willing and aggressive, the Rovers lacked somewhat in finesse and experience, while the Pirates appeared to have the ability of turning every opportunity to good account. The teams: Rovers: M. Flye 5, L. McCarthy, B. Loudon, W. Pinckney 1, L. Kirby 1, Kergin 1. Pirates: McDonald, Ferguson 6, Hardy 2, Scott 10, K. Falconer 10, J. Dodsworth 1, Parsons.

By the close score of 19 to 15 the Mechanics nosed out their old rivals Vandals B. in the second game on the evening's card. The result was a little surprising, as the miners have been putting over some nice wins within recent weeks. The points for the shopmen were spread over the whole team, while White was the star shooter for the miners. The teams: Vandals B: Heinekey 4, White 8, Reed, Simonds, Gourlay 2, Windle 1. Mechanics B: Yelland 6, Carter 4, Patrick 4, D. O'Neill, Hamilton 2, J. O'Neill 3.

Combining nicely and playing with care and confidence, the Bon Cons scored a decisive win over Mechanics A in the third game of the evening, the final count being 38-24. This was a fast and brilliant game, in which both sides fought hard for a win right to the final whistle. Davies and Dresser did good work for the losers, while Arney and Steele starred for the winners with fourteen points each. The teams: Mechanics: Watson 2, Murray 4, Davies 8, Dresser 7, Hamilton 2, L. Gillies 1. Bon Cons: Jack 2, Morrison 3, Steele 14, Arney 14, Currie 5.

### BIRTH AT ANYOX

Born, to Mr. and Mrs. Ed. Ozberg, at the Anyox General Hospital, on Wednesday, January 24th, a daughter.

put totalling \$4,857,780 (gold at \$20.67 per fine ounce.) To this figure the mines obtained an additional estimated premium of \$1,860,110, or a total gold return in Canadian funds of \$6,702,890. The average price of gold in Canada for

## Well Known Local Girls Honored on Birthday

On Monday evening, January 22nd, a gay party of young people met at the Oddfellows' Hall to do honor to the twin sisters, Misses Lilian and Mildred Dresser, it being their twenty-first birthday.

Sixty guests sat down to supper. At the special table for the guests of honor there were in addition Mr. and Mrs. Frank Dresser, Mr. William Cavers and Mr. Ralph Stevens. When the candles on the birthday cakes were lighted the scene was one of animation and beauty. The toast of "the twins" was proposed by Mr. Lawrence McCarthy as follows: "A little more health, a lot more wealth, and a whole lot of happiness for the rest of their lives." To this apt toast both the young ladies suitably responded.

Mr. Frank Dresser, in a happy vein, reminded the guests that this was really the twenty-second birthday of the twins, but that the first birthday was not recognized, he being the only one who had celebrated it. He eulogized the virtues of his daughters and on glancing round the assembly was prompted to remark that the boys in Anyox were particularly fortunate in having such a fine looking lot of young ladies to associate with. He also thought that the young ladies were equally as fortunate in regard to the young men of the town.

## The Elks' Lodge Install New Officers

On Monday evening the 22nd. the Anyox Lodge, B. P. O. E., held their annual Installation of Officers. The Installing Officer was Bro. T. J. Kirkwood, Past Exalted Ruler, who was assisted by Bro. S. M. Armstrong, P. E. R. The following officers were duly installed:

Exalted Ruler—H. Hallcro.  
Leading Knight—M. W. Webber  
Loyal Knight—K. A. Hunter.  
Lecturing Knight—D. M. Campbell.  
Secretary—E. R. Oatman.  
Treasurer—B. M. Buck.  
Chaplain—P. Powell.  
Tyler—R. Dunwoodie.  
Outer Guard—R. Buttery.  
Esquire—J. Buntain.  
Organist—H. Selte.  
Historian—T. Stretton.

Seven new members were initiated at this meeting, which was concluded with a social evening.

Mrs. E. M. Ore and daughter Betty Jean, who has spent some time at Alice Arm left on Wednesday for Anyox.

## The United Church Will Celebrate Tenth Anniversary

Tomorrow and Monday—January 28th. and 29th.—the tenth anniversary of the United Church of Anyox will be celebrated. The occasion marks the tenth year of the existence of the present building, the old Church and parsonage on the Mine Road having been destroyed by fire. This disaster did not in any way dampen the ardor of the church people, who immediately set about to procure a new site and start another building.

This year the anniversary will be celebrated in greater style than formerly. The service on Sunday evening will be marked by a special musical programme. At six o'clock on Monday evening a banquet will be held in the Church Hall, and those who know the capabilities and thoroughness of the ladies of this Church, will not miss this splendid event. After the banquet a most delightful evening's entertainment will be presented. Do not fail to participate in this big event in the Church life of our town.

## Actual Snowfall At Anyox In Recent Years

As showing how widely read is this journal of the North we have been deluged with criticisms on our figures for the snowfall of 1931-32. These were admittedly in error.

Below we give the official readings of the snowfall in recent years.

1929-30.....	26 ft.
1930-31.....	10 ft.
1931-32.....	28 ft. 4 in.
1932-33.....	23 ft. 11 in.

Up to the afternoon of January 22nd. the snowfall for the present winter was 19 ft. 9in.

## Engagement Of Popular Anyox Couple

At the birthday party held on Monday last in honor of Miss Lilian and Miss Mildred Dresser, the engagement of the latter to Mr. Ralph Stevens was announced by Mr. Dresser. Mr. Stevens is the son of Mr. and Mrs. R. Stevens of Stanley Park Manor Vancouver. He has resided at Anyox since August 1932. The young couple received the congratulations of everyone present.

S. Jabour, Northern representative of the Sun Life Assurance Co. arrived on Wednesday from Prince Rupert.

## How Big South African Co. Views Copper Situation

At the recent General Meeting of Roan Antelope Copper Mines the Chairman, Mr. A. Chester Beatty, stated the production policy followed by the directors since the termination of the copper restriction agreement has been dictated primarily by the market demand for Roan blister copper. There has been an increasing demand for the particularly high quality blister the Company produced, and in consequence there was no difficulty in disposing of the entire output. They intended to continue producing such amounts as are readily saleable and not to accumulate stocks. In July, 1932, copper reached the lowest price on record, when standard copper was quoted on the London Metal Exchange at £24 10s per ton. Since that date there has been a slow but steady improvement. Large stocks of copper still exist in the United States, but there has been a gradual reduction in these during the past eight months because of the increased consumption in that country. Outside the United States the consumption of copper has shown a steady increase during the past fourteen months and the stocks are no more than sufficient to meet the present requirements of the trade. He added "It is gratifying to report that there is a widespread and growing interest in the utilization of copper. With the expansion that is going on in the electrical industry, together with increasing use of metal in the building trades and in other industries, the future of copper consumption is distinctly good. In the past, when substantial increases in consumption of copper have taken place, there has been a rapid upturn in price, due to the fact that the source of supply of low-cost copper was relatively limited. Today the large ore reserves and modern plants of the copper mines which are supplying the demands of Europe are a big factor making for stability in the copper trade, as they can ensure a steady and continuous supply of the metal to consumers. The present price of copper does not yield an adequate return on the capital invested in these huge enterprises, but as trade improves, copper prices should, undoubtedly, move to higher levels, which will yield handsome profits to low cost producers like ourselves.

**Value Output of B. C. Mines For 1933 Shows Increase**

**Preliminary Report Minister of Mines, Shows Gold and Other Metals Up, Coal & Building Materials Slightly Down.**

Continued from page 1

the year was \$28.61.

Silver production, estimated at 6,900,000 ounces shows a slight decrease in quantity from that of 1932, but owing to a higher average price for the metal the output had a value of approximately \$335,000 greater. The Sullivan and Premier mines are the principal producers, but an increased output was made from the Beaverdell camp, where there are half a dozen small silver mines. With the improved price and outlook for silver it is expected that certain silver operations will be resumed in 1934.

Copper production for the year is estimated at 43,000,000 pounds, a decline of nearly 7,000,000 from the 1932 figure. The copper valuation, however, was slightly higher at \$3,197,910, owing to a higher average price for the metal. The principal production was made by the Hidden Creek mine of the Granby Company, Britannia mine output being curtailed very considerably. Not much interest will be shown in new copper mining enterprises until the price of copper and marketing outlook improve materially.

Lead production shows an increase in quantity and nearly a million dollars in value as compared with 1932. The bulk of the output comes from the Sullivan mine of the Consolidated Company, but this was supplemented this year by the re-opening of the Monarch mine of the Base Metals Company at Field.

Zinc output shows a considerable decline as compared with 1932, but a higher average price for the metal gave a production value of \$5,011,659 as compared with \$4,621,641 in 1932. The main production is from the Sullivan mine, supplemented by four months' output from the Monarch mine.

Coal production declined from 1,534,975 long tons in 1932 to 1,252,000 long tons in 1933. The output is valued at \$4.25 per ton as compared with \$4.50 in the preceding year. The value therefore shows a decrease of \$1,202,644 or 22.6 per cent. The generally depressed state of industry throughout

1933 and economy measures by householders were responsible for this serious decline.

Production of zinc concentrates was started during the year at the Britannia mine, the output in pounds being about the same as that of copper. This operation can now be classed as a copper-zinc mine, making also by-products of gold, silver and pyrite.

It is estimated that 12,000 men were directly engaged in the mining industry as compared with 10,524 in 1932. This does not include the thousands that were prospecting and engaged in small scale individual placer mining.

Dividends for the year are estimated at approximately \$3,000,000 as compared with \$3,042,213 in 1932.

The interest by the public in gold mining is shown by the incorporation of 155 new mining companies, of which 145 were for gold mining.

It is interesting to know that a new high record was made in 1933 for the issuance by the Department of Mines of Free Miners' Certificates approximately 16,00 being issued, including Provisional Free Miners' Certificates. The latter are issued free of charge and confer the right to locate a placer claim, as well as the ordinary right-of-way privileges of the regular Free Miners' Certificates.

During 1933 more interest was taken by the people of the province in all forms of mining than for some years past, and the continuance of this healthy state of affairs is expected. For 1934 a larger mineral production seems assured and what is more important, greater employment will probably be provided for the people of the province through the medium of the mining industry and its allied operations.

The Dominion Government reports revenue on ordinary account for the month of December of \$18,760,847, as against \$14,572,206 in December 1932. Total exports of Canadian goods for the nine months of the fiscal year amounted to \$436,936,004, as compared with 379,261,780 for the nine months of the previous fiscal year.

Of the total world production of 147,744,009 ounces of silver in the first eleven months of 1933, Mexico produced 62,577,000 ounces.

Production of the other principal silver mining countries was fixed as follows: United States, 19,300,000; Canada, 13,721,000 and Peru 5,839,000.

Canadian Mining companies in 1933 paid \$27,155,804 in dividends as compared with \$23,829,232 in 1932, and brought the grand total of dividends paid by Canadian mines up to \$532,175,632 since dividends were first declared.

"It is pitiful to see a 15-year-old girl with cigarette-stained fingers," says a writer. She should wait until she gets a little holder. — Punch

## 10,000 MILES IN 13 DAYS

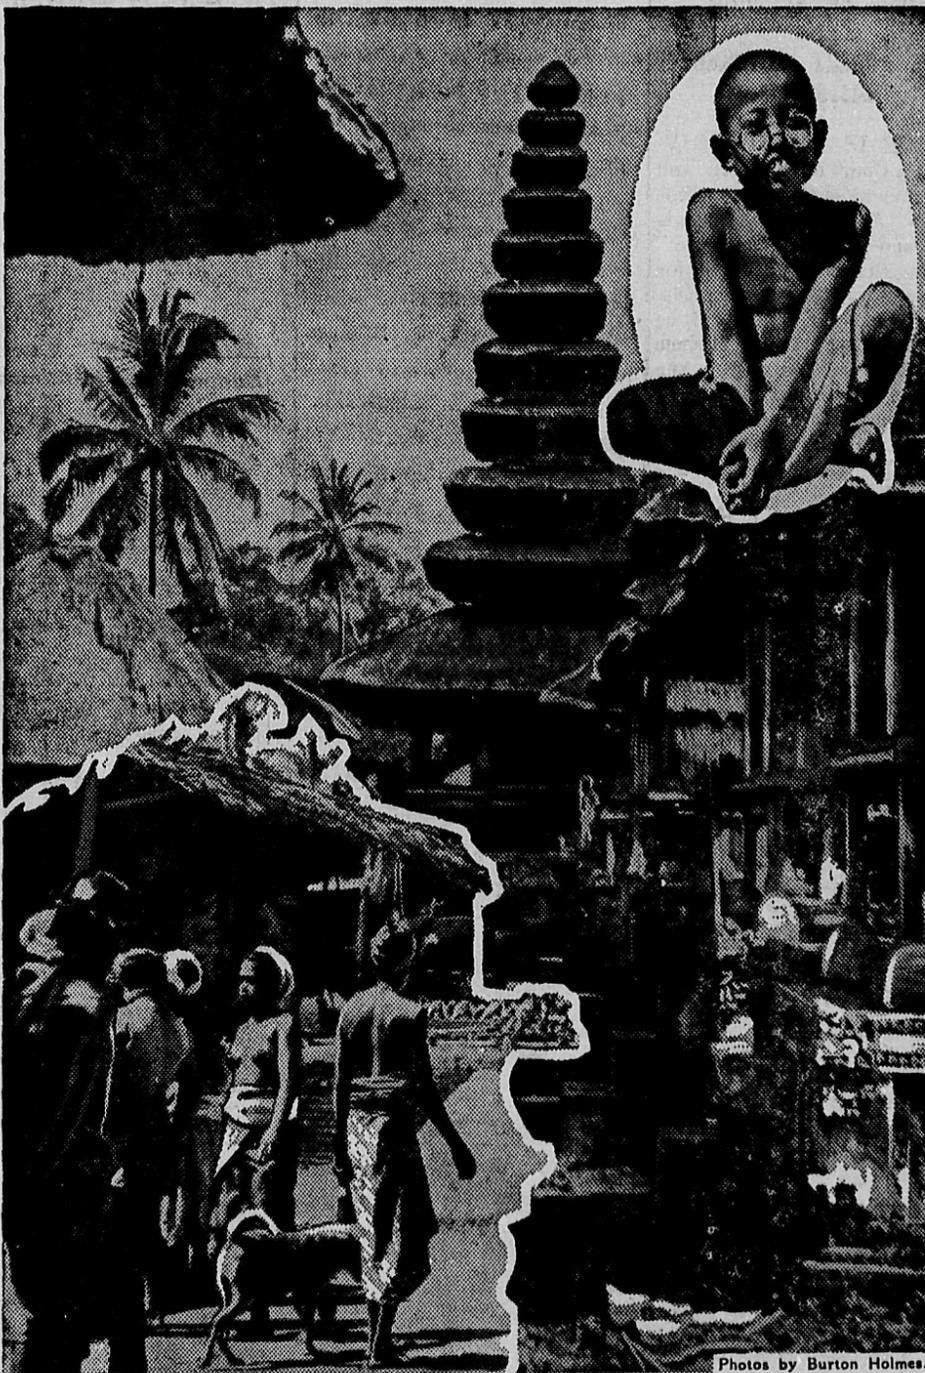

MILE after mile, over a route which ran from Winnipeg north by west across the farming districts of Manitoba and Saskatchewan to Yorkton, then down to the Southern border and north by east back to Winnipeg —thirteen times travelled this test car. How monotonous would have been this thirteen day grind for the driver and the observer of the Manitoba Motor League, had it

not been for the Automobile Radio Set with which the car was equipped.

The picture shows the car outside the Parliament Buildings in Winnipeg, where it stopped just long enough to be photographed and greeted by Officials of the Contest Board of the Manitoba Motor League.

## Canadians to Visit Mysterious Bali

Photos by Burton Holmes.

Bali, that mysterious tropical island off the coast of Java where Eve would have been almost over-dressed and native boys — although they have never heard of him — look like Gandhi, will be more than a name but no less a mystery to a number of lucky Canadians by this time next year.

For Bali, literally unknown until a motion picture director took his cameras and microphones there a year or so ago, has been added to the itinerary of the Canadian Pacific liner Empress of Britain's 1934 world cruise sailing from New York January fourth.

Balinese, simple and unaffected, acted a charming love story for the screen. But they had to be taught what a kiss was. They live in a land of temples. Although education is not a strong point they can still count the few white people who have ever visited the island. They cannot count the number

of dogs they own. They save the bodies of their dead until the last member of a family dies and cremate them all together. They worship bats and have 500,000 in one sacred cave. When priests send word that devils are abroad every man, woman, child and dog must stay within doors so nothing will impede the demons' quick departure. They love to dance, and on March 9 and 10, 1934 are specially performing traditional dances for the Empress of Britain's world cruise passengers.

In addition to Bali, new world cruise calls will be made by the big, white liner at Semarang, Java, and Zamboanga in the Sulu Archipelago. The cruise will visit 33 ports in 24 countries covering 30,000 miles in 130 days.

The pictures show a temple in Boeleleng, a youthful humorist (top right) and a typical scene outside a native house where a cremation is about to be held.

Judge of the Court of Revision and Appeal.

**Fans Witnessed Three Good Games Last Friday**

Basketball fans could desire no better fare than was dished up to them on Friday the 19th. when three interesting fixtures took place. Each game was close, the teams well matched and the play fast and clever. A pleasing feature was the promptitude with which the tilts were despatched, no time being lost between games.

Mechanics B defeated Warriors 18-13 in a keen tussle that was full of vim and go and might have ended either way. The Warriors worried the shopmen considerably, and it was only in the closing minutes that the latter notched the winning tallies. The teams: Warriors: Dominato 6, O'Neill 1, Obechini 4, Arney 2, Dan McDonald, Nelson. Mechanics B: Carter 6, Patrick 4, Church 3, Yelland 5, J. O'Neill, Hamilton.

The best ladies' game witnessed this season was that between the newly organized Aces and Spooks. At the close of a tussle that was speedy and clever throughout, the score stood 16 all, no overtime being played.

The new arrangement of the teams has made all the difference in the play and has benefited the beginners considerably. For the Aces, M. Dresser starred with 12 points, while K. Eve and N. Salmon shone brightly for the Spooks. The teams: Aces: M. Philip, H. Simpson 1, M. Dresser 12, P. Loudon 3, D. Rogers. Spooks: T. Gordon 3,

K. Eve 7, N. Salmon 5, L. Dresser, J. Pinckney 1.

Exciting from start to finish was the clash between the Trojans and Vandals the latter winning 24-21.

Both teams were in the pink of condition and brilliant play was seen on both sides. A noticeable feature was the large number of shots that did not tell, and this applied to both teams. Ten minutes before the final whistle, the Mine team was reduced to four, Heinekey being sent to the showers. The brothers Calderoni got in some nice combined play for the miners, but splendid checking prevented a large score. Swanson played with coolness and nice judgement. For the Trojans Shields got in some fast and accurate work, and scored a beautiful field shot. Their star shooter Bud Gillies was closely checked but worked untiringly, while Dodsworth was brilliant at guard. The

teams: Trojans: Dodsworth 3, Gillies 6, T. Cloke 4, F. Gordon, Shields 6, H. Dresser 2. Vandals: A: T. Calderoni 7, Swanson 4, F. Calderoni 11, Heinekey 2, Reid.

"Oh, yes," said the pilot of the river steamboat. "I've been on this river so long I know where every stump is."

Just then the boat struck a stump which shook it from stem to stern.

"There," he continued, "that's one of them now."
