Big Crowd Enjoys High Class Boxing and Wrestling Bouts

Dick Stubbs, Local Wrestler, Defeats Vancouver Champion

The Sports event staged by the local B. P. O. E. on Friday night last was a huge success. One of the largest crowds ever present in the history of the town was there to enjoy the six high class events that composed the programme.

The first item on the programme was a three round bout between Sid Peters of the Beach and M. Camadina of the Mine. The boys put up a nice exhibition of the manly art, the decision being a draw.

The next number was in the paper-weight class, when Sonny Morgan of Prince Rupert and Sid Brown of Anyox went three fast rounds to a draw. Both boys were willing mixers and consequently the fans were given action from start to finish. Morgan was forced to give away about ten pounds, but put up a game and clever battle against his equally clever opponent.

The feature boxing match of the evening, or what was to be, turned out to be more or less of a tame affair. No blows of any consequence were struck during the fracas which was brought to a close half way in the fifth round when Gurvich of Prince Rupert landed what appeared to be a foul blow. Kirk's handlers claimed a foul and after the judges and the doctors held a consultation it was decided upon to call the bout a draw.

There were two preliminary wrestling matches to the main event, the first brought together Gus Make and Gus Mikeli, both of the Mine. These boys put up a fine exhibition of the Greco-Roman style of wrestling, the former winning after four minutes in the second round with the only fall of the match.

In the second preliminary, J. Salmich of the Beach, won from E. Bjorking of the Mine in two straight falls. The first in four minutes and the second in one minute and ten seconds.

Dick. Stubbs, local aspirant for wrestling honors in the forthcoming Amateur Tournament at New Westminster, demonstrated his right to enter when he defeated Allan Kelton of Vancouver (present holder of the B. C. 135 pound championship) gaining one fall after thirty-eight minutes of fast and clever mat work. Stubb's superior weight was a big factor in his win as Kelton was forced to concede eighteen pounds.

The latter is no doubt the cleverest exponent of the mat game ever before an Anyox audience, fast as a streak and always wearing a smile, which made a big hit with the local fans. Both boys were in fine shape and gave the fans an exhibition of wrestling that will long be remembered and was well worth the price of admission.

The only fall of the match came in the last round immediately before the finish with a half nelson and wrist lock.

In between the different numbers of the programme the Anyox Band enlivened proceedings with several snappy selections, which were greatly appreciated by those present. Mr. T. J. Kirkwood was the chairman, F. S. McNicholas and W. Reynolds were the judges, and Dr. D. R. Learoyd was timekeeper. Charlie Docherty was the third man in the ring for the main wrestling event. Allan Kelton handled the boxing bouts and Dick Stubbs refereed the wrestling preliminaries.

Congratulations are due to the Elks for undertaking an enterprise of this nature, and also to be able to show an account on the right side of the ledger.

Presentation Made to Departing Anyox People

On Saturday March 26th. a very pleasant evening was put in at the home of Mr and Mrs. John Swanson by the many friends of Mr. C. I. Cook and Dr. H. A. Simmons, who had the pleasure of congregating together previous to their departure from Anyox. They were both presented with very handsome club bags by those present.

Mr. Cook has been with the Granby Co. at Anyox for the past three years. holding the position of Assistant Mine Superintendent. He has taken a position with the Consolidated Copper Mines at Kimberly, Nevada. Dr. Simmons who has been in practice at Anyox as dentist intends to locate in Vancouver B. C.

Dr. G. S. Macdonald Will Succeed Dr. Simmons

Dr. H. A. Simmons, who has practiced as a dentist in Anyox for the past five years, has decided to leave Anyox, and will open offices in Vancouver. During his stay in the north he made a large number of friends who regret his departure.

He is being succeeded by Dr. G. S. Macdonald, who is an expert in the dental profession, and Anyox is fortunate in procuring such a worthy successor.

Dr. Macdonald is a graduate of Dalhousie University of Halifax, N. S. graduating with highest honors. He is a member of the College of Dental Surgeons of British Columbia, and a member of the Dominion Dental Council of Canada. He has had several years practical experience, and has full knowledge of his profession.

Vicious Practice Resorted to In Destroying Dogs

Five dogs were poisoned in Alice Arm during the week. This brings the total number already killed to fourteen. The poisonings have been spread over the past year, and during that time some valuable dogs have been destroyed. Numerous cats have also passed to their happy hunting grounds.

The nefarious practice of dropping poisoned meat around the town is disgusting, for its continuity clearly shows that it is done simply to gratify a lust to kill something. It is possible that any small child would pick up a piece of poisoned meat, or bread and butter that is used. It is strictly against the law and the perpetrator will undoubtedly get a maximum sentence when he is discovered.

Columbia Group Developed by New Tunnel

The Columbia group will be further developed this year by P. Anderson, who left yesterday morning for the property.

Present work will consist of driving a new tunnel 50 feet in length. This tunnel will be driven at a lower elevation than the one already driven.

The Columbia is situated on Clearwater creek in the Upper Kitsault Country, and contains some good surface showings of silver ore.

ALICE ARM NOTES

J. Dumas who has spent the past 18 months on his ranch in the Peace River country, arrived in town on Monday on a visit to his brother S. Dumas, and Mrs. Cornier. He left again on Thursday.

Art. Beaudin, who has been receiving medical treatment at the Anyox Hospital for a week, returned home on Tuesday greatly improved in health.

J. Wells arrived home on Thursday from a short visit to Prince Rupert. He attended the annual meeting of the LaRose Mining Co. while in the terminal city.

C. H. Homer, provincial assessor arrived in town on Thursday.

Constable W. Smith of Anyox arrived on Thursday and left again this morning.

J. M. Morrison left on Monday for Prince Rupert in order to attend the annual meeting of the LaRose Mining Co. He left later for Vancouver.

S. Smith, who has spent the winter in Seattle arrived in town on Thursday.

Al. Clary arrived home on Thursday from a trip to Vancouver.

The roads of Alice Arm are almost clear of snow, and autos were much in evidence again during the week, after an absence of four months.

Option Ratified at The LaRose Annual Meeting Officers Elected

The annual meeting of the shareholders of the Alice Arm LaRose Mining Co. was held in Prince Rupert on Wednesday March 30th. A large number of shareholders were present, and important business was disposed of.

The annual election of officers was also held, which follows:

President, Miles Donald of Alice Arm.

Vice-President, Dr. W. T. Kergin, Prince Rupert.

Directors, J. Wells, N. Forbes and F. Brown of Alice Arm and J. Thompson and H. Rochester of Prince Rupert.

Secretary, E. H. Mortimer of Prince Rupert.

With the exception of Messrs. Brown and Rochester all the others filled the same office last year. The two former are additions to the Board of Directors.

The option taken on the LaRose was ratified by the meeting. The terms of the agreement were explained, and which were entirely satisfactory to all those present.

Gymnasium Boys and Girls Presented With Sweaters

The children's classes which have been carrying on at the Beach Athletic Club during the winter months have shown remarkable progress both in attendance and interest.

The boys are getting exceptionally handy with their mits, to which their instructors will testify, and if they keep up the good work Anyox will soon be able to witness some worth-while fights from amongst them.

The girls under the tuition of Mr. George Lace are also able to keep their ends up, and if anybody cares to go down to the Gymnasium on Monday or Thursday nights they would certainly be convinced.

Last week five sweaters were given to boys and girls who were considered the best in their class.

The boys were: Hugh Johnson, 12 years and over; Harold Dresser, 12 years and under.

Girls: Bubbles Eve, 12 years and over; Winnie Cameron, 12 years and over; May Barclay, 12 years and under.

The sweaters were donated by the Athletic Club, and the presentation was made by Mr. Geo. Lace.

Proceeds of Dances Taxed Ten Per Cent.

On and after April 1st. all dances where admission is charged will be subject to a tax of 10 per cent. Section No. 14 of the Amusement Act sets out headings for exemption All claims for exemption must be made and signed by responsible persons, stating reasons for exemption, this must be presented to the Government Agent at least ten days before the dance is held.

Members of the Canadian Legion of the British Empire Service League will hold a smoker in the Elks' Dugout on the evening of April 9th Business affairs of the organization will also be discussed,

Increase in Alice Arm Operating Mining Properties

According to present indications the present year will mark a new epoch in the history of Alice Arm. It will be the commencement of an earnest endeavor to develop our latent mineral resources, and from the results attained this year there will be no turning back. Alice Arm is better known on the outside at the present time than at any time since it came into existence. Our wonderful resources are known, and a splendid future is predicted for the camp. From now on, the importance of the camp will grow each year. If development work is continued, no power can retard its growth. The district has an abundance of the most needed world's metals, and these will be extracted. More properties will be developed this year than has been the case for a decade. The properties will be developed on a bigger scale than heretofore, and the first concentrating mill will be operating in the district before the year ends.

Some big mining deals, involving large sums, are already being planned, which, if successful necessitates the expenditure of vast sums of money.

For the past three years the mining industry of Alice Arm has shown an improvement each year, and each year the improvement is much greater.

Marmot Metals Mining Co. Issues Folder

An attractive folder, published by the Marmot Metals Mining Co. of Stewart has been received at the Herald office.

It gives a history of the property, organization of the company, report of last year's operations, transportation facilities, and future development.

It is written without any effort being made regarding over-estimation of the company's holdings, and the excellent results attained last year should be a source of satisfaction to the shareholders.

The Marmot Metals Co. has been organized with considerable care. It has an excellent Board of Directors. The best supervision obtainable is employed at the mine, and the property has the earnmarks of becoming a big tonnage producer.

Alice Arm Gets Publicity

A fund of information was contained in an article dealing with the mining industry of Alice Arm, which appeared in a recent Sunday edition of the Vancouver Province.

The article was well written without over-exaggeration, and was the product of the pen of W. G. McMorris. A large photograph showing the lower part of the town accompanied the article.

Born at San Francisco March 16th. to Mr. and Mrs. W. G. Clarke (Nee Margaret D. McColl) a daughter. Both were former residents of Anyox.

If the dance tax had been instituted last fall. the government would have made a clean-up in Anyox during the winter.

The following paragraph, relating to the over-production of copper, which materially effects everyone in the district, are extracts from the editorial columns of the Engineering and Mining Journal;

"From the mixture of official statements and "reports---more or less substantiated---that are circulating currently in New York regarding the curtailment of copper production, a reasonable conclusion may be drawn that in the aggregate the rate of production in March will be somewhat lower than it has been in recent months. Mine production in November was at the highest rate in history. The same may be said of refined production in January. Stocks have increased steadily during the last five months for which fact that some new production, notably from the Andes property in South America, must inevitably be added to the supply, have given the customer of copper a distinct advantage in the market. Producers all knew that curtailment would be a splendid thing, particularly if someone else would do the curtailing. When, in February, the price slumped to twelve and-a-half cents it is likely that some producers awoke to the realization that they had better not continue to wait for the other fellow to reduce his rate of production.

"Possibly the hesitancy of responsible officials of most of the companies to make a frank declaration regarding the current rate of production is caused by the feeling that some color might be given to the notion that curtailment had been instituted by mutual agreement. However, enough information is at hand from reliable sources to warrant the prediction that, barring increases from unforseen quarters, world production in March will be at a rate about 10 per cent below that of January."

AT ANYOX

Men and women come and go,
Like summer's sun and winter's snow;
But the Granby Co., a sure safe bet,
Like the little bubbling rivulet;
Goes on and on for ever.

New Sources of Lead Supply Found

Lead still commands world-wide attention, though prices are down, and new sources of supply have appeared. Anaconda isdeveloping an immense deposit at Tintic, Utah; and the Livingstone Mine in Idaho has developed large reserves. The Electrolytic Zinc Co. is developing a new mine in Tasmania to replace Broken Hill. United States was unable to fill its own demands for the metal and had to import 60,000 tons last year Mexico increased production from 196,000 tons in 1925 to 227,000 tons for last year. The Morning Mine is working to 3,050 ft. and Bunker Hill and Sullivan to 2,000 ft. below the Kellogg Adit. Cerro de Pasco is shipping from Peru 1,000 tons of concentrates a month to Selby Smelter, the values in which amount to 200 oz. silver per ton and 45 per cent lead. Broken Hill production for last year was the largest in ten years. Burma Corporation has, in the Chinaman ore body on the 8th. level, an ore shoot 62½ ft. wide, averaging 23.8 oz. silver per ton, 34.4% lead, and 16.4% zinc. In Great Britain, old lead mines are being reopened in Derbyshire and a silver-lead mine in South Wales. The Mt. Isa discovery in Queensland is hampered from going into production for want of transportation.—Mining and Industrial Record.

Premier Co. Will Distribute Another Dividend

Premier will distribute another 8 cent dividend covering the first quarter of 1927, thereby maintaining its regular dividend rate. Reports had for a time circulated that the dividend rate was to be increased.

The dividends will be paid to shareholders of record March 15 and shares go ex dividend on April 4. The distribution is $400,000.

1927 European Educational Tours

Personally Conducted Tours have been arranged this Summer, under the joint supervision of the Canadian National Railways and the Cunard Steamship Company to Great Britain and Europe and return. All transportation, hotel and sight-seeing expenses included in fares. See any Canadian National Railway Agent or write District Passenger Agent, Prince Rupert, for particulars and descriptive literature.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA
The Mineral Province of Western Canada
Has produced Minerals as follows: Placer Gold, $77,663,045; Lode Gold, $122,808,459; Silver, $74,111,397; Lead, $89,218,907; Copper, $197,642,647; Zinc, $39,925,947; Miscellaneous Minerals, $1,594,387 Coal and Coke, $273,048,953; Building Stone, Brick, Cement, etc., $44,905,886; making its mineral production to the end of 1925, show an
Aggregate Value of $920,919,628
The sudstantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96.507,968; for five years-1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; 1921, $28,066,641; for the year 1922, $35,158,843; for 1923, $41,304,320; for 1924, $48,704,604, and for 1925, $61,492,242.
Production Last Ten Years, $404,649,375
Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.
The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.
Mineral locations are granted to discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.
Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.
Full information, together with Mining Reports and Maps, may be obtained gratis by addressing
THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

Coking Industry Will Be Subsidized

A government measure by means of which substantial aid will be afforded the industry of coking Canadian coal is in course of preparation, and formal notice may be expected immediately.

After consideration, the cabinet has decided on a policy of subsidizing plants to be established in different parts of the country or already in operation.

It is planned to distinguish between private-owned coking plants and those which are owned and operated by municipalities. In the case of the former, subsidy will be 4 per cent. on the invested capital, while in the case of municipalities, it will be 5 per cent. A limit, however, is to be placed on the capital in respect of which the subsidy will be paid, but where the line will be drawn is not yet decided.

The assistance will be available only for such plants as use Canadian coal, and intimation received suggests that some very large concerns, municipal or others, will go into the business with expenditures as high as $66,000,000.

Automobiles Absorb a Large Tonnge Copper

Outside of the electrical industry automotive manufacturers represent one of the largest consumers of copper in its native form, as well as in brass, bronze and other alloys.

Copper consumption in automobile manufacture is largely accounted for by such items as starting, lighting and ignition systems, radiator cores and shell: bushings and bearings, gas and oil piping, headlights, hup caps, hardware and metal trim.

Copper consumption in the automobile industry has increased very rapidly since 1921. Since that time better construction and design with added refinement of mechanism and style has contributed largely to ever-mounting car sales and car registration. All this has been reflected in the amount of copper consumed by the automobile industry.

In 1925 the automobile industry consumed 245,000,000 pounds of copper, while in 1921 only 70,000,000 pounds were used.

Granby Co. Secures Coal Contracts

Residents of Cassidy are jubilant over the announcement that the Granby Consolidated Mining Co. at Cassidy has secured several large contracts, which will ensure steady work in the mines for the next two years. As a result bunkers will be erected at Blainey by the company to cater to its increasing domestic trade recently secured.

Doc.—"You cough easier this morning!"

Very Patient—"I ought to. I've been practicing all night."

What's the most difficult thing you ever did?"

"It was the making of ten easy payments."

Okanagan By-Election to be Held in June

The Vancouver Star publishes an Ottawa despatch crediting Premier Oliver, with the statement that a by-election to fill the vacancy in North Okanagan seat caused by the death of Arthur Cochrane will be held early in June.

W. F. Kennedy of Vernon has already been named the Conservative candidate and it is expected that Hon. Dr. K. C. McDonald, former member, who was defeated by the late Mr. Cochrane when he aspired to the cabinet after the last general election, will represent the Liberals in the contest.

The government's Old Age Pension Act was given its third reading in the Senate without amendment. It now awaits Royal Assent before coming into effect on the statute books.

Careful Employees' Reward

The sum of $2,880 in the form of $10 gold pieces was given to the employees of the Homestake Mining Co., Lead, S. D., recently as awards for the men who have lost no time because of accidents, experts say, are usually caused by carelessness, and so for the Homestake employees who are careful in avoiding them the company makes this reward each year.

Temporary Writ Against Engineers Mine Co.

Engineers Gold Mines, Ltd., Atlin, which has had a particularly stormy career in the last two or three years, appeared in the financial news again when a temporary writ of mandamus was issued in the Superior Court in Wilmington, Del., ordering the books of the company to be produced on March 18. I. H. Issacs and Frances Klausner applied to the court for the examination in order to ascertain the value of stock which they hold.

When a married man has no mind of his own his wife is likely to give him a piece of hers.

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

IMPORTANT NOTICE

ALL TRADES, BUSINESSES & PROFESSIONS MUST BE REGISTERED BEFORE APRIL 30th.

Notice is hereby given that, pursuant to subsection (3) of Section 52B of the Taxation Act, every person who engages in, carries on or practices any Trade, Business or Profession within the Province is required to obtain from the Commissioner of Income Tax a Certificate of Registration before April 30th, 1927. Application should be made to any Provincial Assessor, from whom full information may be obtained. Certificates will be issued without the payment of any fee therefor.

Default in complying with the provisions of this section renders the person liable, upon summary conviction, to a fine of $10.00 for each day during which his default continues.

Application forms may be obtained from any Provincial Assessor, Government Agent, Provincial Police Officer, or from the Commissioner of Income Tax, Victoria, B. C.

Alice Arm Lots

Now is the Time to Buy

Alice Arm will very soon become a mining town of considerable importance. The mining industry is undoubtedly on the eve of big developments, which means a big payroll and a much larger town. Increased activity will result in placing good residential and business lots at a premium. At the present lots can be secured at attractive prices and on easy terms

BUSINESS LOTS FROM $200 TO $500
RESIDENTIAL LOTS FROM $200 TO $300

Terms made to suit buyers. See Stephen Dumas, our agent, and build where you don't have to move.

S. DUMAS
Agent for the Alice Arm Mining & Development Co

Spring Haberdashery
FOR MEN AND YOUNG MEN

A very fine assortment of spring Merchandise for Men's wear comprising SHIRTS, TIES, SOCKS, SWEATERS, HATS, CAPS AND UNDERWEAR
These popular lines represent the principal items in the average man's warbrobe, and each line is complete in every detail.

DRUG DEPARTMENT
P. D. &. CO. Liquid Petrolatum
THE NATURAL INTERNAL LUBRICANT

A heavy mineral oil of exceptional purity, neutral taste, non-digestive, not absorbed, and is effective in the most severe cases of constipation

It is not a purgative and does not stimulate the bowels by local irritation, but simply a very efficient mechanical lubricant.
Recommended for children as well as adults. Per Bottle $1.00

SHOE DEPARTMENT
See Our Display and Note Our Prices
