Empress of Austria Assassinated.

Stabbed by an assassin while walk-
ing in the streets of Geneva,
Switzerland.

Geneva, Switzerland, Sept. 10.—The
empress of Austria was assassinated at
the Hotel Beau Rivage this evening by
an anarchist who was arrested. He
stabbed her majesty with a stiletto.

It appears that her majesty was
walking from her hotel to the landing
place of the steamer at about 1 o'clock
when an Italian anarchist suddenly
appeared and stabbed her to the heart.
The empress fell and was carried to the
Hotel Beau Rivage, where she ex-
pired.

The stretcher upon which the em-
press was carried to the hotel was
hastily improvised with oars and sail
cloth. Doctors and priests were im-
mediately summoned and a telegram
was sent to Emperor Francis Joseph.
All efforts to revive her majesty were
unavailing and she expired at 3 o'clock.

The medical examination shows that
the assassin must have used a small
triangular file. After striking the
blow he ran along the Rue des Alps
with the evident intention of entering
the square Les Alps, but before reach-
ing it he was seized by two cannon
who had witnessed the crime. They
handed him over to the boatmen and
a gen d'arme, who conveyed him to
the police station.

The prisoner made no resistance. He
even sang as he walked along, saying:
"I did it" and "She must be dead."

At the police station he declared that
he was a "starving anarchist, with no
hatred for the poor but only for the
rich."

Later, when taken to the courthouse
and interrogated by the magistrate, he
said that he came to Geneva with the
intention of killing the Duc d'Orleans,
but the latter had already left. Lucetti,
as the assassin is sometimes called,
followed the due to Evian, about 25
miles north of Geneva, on the lake,
where he was again unsuccessful. He
then returned to Geneva and learned
from the papers of the presence of the
Austrian empress. Yesterday he dog-
ged her footsteps, but found no oppor-
tunity to carry out his purpose, though
he watched the Hotel Beau Rivage all
day. This morning, he said, he saw
the valet of the empress leave the
hotel and go towards the landing.
He inferred that the empress was
going to take the steamboat, and he
hid himself behind a tree on the quay,
with the file concealed in his right
sleeve. In a few minutes the empress,
accompanied by her lady of honor,
appeared and the assassin struck the
file home.

Lucetti confessed that he had been
an anarchist since he was 13 years old.
"If all anarchists did their duty as I
have done mine," he said, "bourgeois
society would soon disappear."

He admitted that he knew the crime
was useless, but said he committed it
for "the sake of example."

After searching for some time the
weapon used by the assassin of the
empress was found in the lake. It was
a three-sided file, slender and sharp.
The post mortem examination showed
one almost imperceptible wound, the
file having penetrated the heart and
not causing exterior bleeding. The
empress, it seems, only supposed that
she had received a violent blow. At
first she maintained great coolness.
When asked if she wished to return to
the hotel she replied:

"No, he only struck me on the breast,
and doubtless wished to steal my
watch."

Receipt of the news in Vienna.

Vienna, Sept. 10.—The news of the
assassination of the queen reached
here shortly before 6 o'clock. It spread
like lightning. The streets were
suddenly filled with multitudes of
people, many of them becoming im-
passable for vehicles. Extra editions
were issued by all the papers. Many
Viennese considered the report incred-
ible until the semi-official Wiener
Abend Post appeared confirming the
statements of other papers. All the
papers accompanied the announce-
ment with warm tributes to the em-
press. They were eagerly snatched
from the hands of the sellers and were
read aloud to groups of citizens.

An indescribable grief overpowers
the people. The performances at the
court theater and the jubilee exhibi-
tions have been cancelled.

Emperor Was Stunned
London, Sept. 11.—The Vienna cor-

respondent of the Observer says:

When Count Goluchowski, the
Austro-Hungarian foreign minister,
communicated the news to the emper-
or, the latter sank speechless into a
chair and remained for a long time
motionless. The remains of the em-
press will be brought to Vienna at
once for a state funeral.

The Emperor is reported to have
said, sobbing: "Shall I not be freed
from grief and pain in this world?"

May Mean Trouble.

News comes from London, under
date of Sept. 10th to the effect that a
white force has occupied Fashoda a
town on the White Nile about 400
miles south of Khartoum. The tidings
when they reached London caused in-
tense excitement.

As there seems little room to doubt
that the troops occupying that place
are French, this will prove a distinctive
setback to British victories in the Nile
and at once disposes of the question of
a British waterway to the Upper Nile.
Of course it is possible the forces at
Fashoda may be British troops under
Major MacDonald, but this is most
unlikely, as the latest news received
from Uganda announced that Mac-
Donald had not left there at the end of
May and it is extremely improbable
that MacDonald's force could have
covered 600 miles over a difficult course
from Uganda to Fashoda in this time,
more especially as so far as is known he
had only one small boat with which to
navigate the Nile.

The news that British gunboats have
started for Fashoda opens the question
whether a conflict is likely to occur
between them and the forces occupy-
ing Fashoda. The great danger is the
headstrong young French officer may
open fire on the gunboats. The
strategic value of Fashoda has always
been insisted upon as being great.
Scientists and geographers have re-
peatedly pointed out the possibility of
damming up the Nile there and divert-
ing the course of the river so as to
make lower Egypt, whose very exist-
ence depends on the Nile, a waterless
desert.

Additional evidence that Sir General
Kitchener expects serious and impor-
tant events to grow out of the new
feature in the African situation is
apprehended with the news that the
newspaper correspondents with the
expedition were not allowed to proceed
to Fashoda, but have been ordered to
return immediately to Cairo. If the
French should claim sovereignty over
Fashoda, either Great Britain or
France must back down in order to
avoid war. Successive British cabinets
under Lord Baconfield, the late Wil-
liam Gladstone, Lord Rosebery and
the Marquis of Salisbury have warned
France that Great Britain will consider
interference in the Nile valley a cause
for war.

The Dervish Slaughter.

An idea can be gained of the effec-
tiveness of modern arms when the re-
sult of one day's fighting in the Sudan
is considered, for at the battle fought
near Khartoum no less than 10,800
dervishes were slain, and 16,000 wound-
ed. That it was possible to slaughter
such a number of human beings in so
short a time, seems to establish the
superiority of smokeless powder, which
being used at this battle gave no doubt
the British troops a great advantage
over their adversaries. Then again
the "dum-dum" bullet which was
used for the first time at this engage-
ment seems to have been particularly
effective in disabling the enemy, a
state of affairs altogether different to
that which prevailed at a former en-
gagement with the dervishes, who
although wounded by the then bullet in
use, were known to charge home not
being thoroughly disabled.

Why Girls Don't Marry.

A ladies' paper dealing with the ques-
tion, "Why girls don't marry," sums
up the reasons under three heads.
Girls with hobbies don't want "hul-
bies," because the "hobbies" would
spoil the hobbies; girls who are addic-
ted to grumbling don't marry because
nobody wants them; girls who flirt
don't marry because men regard them
as moral epileptics.

As to the remark that men don't
marry grumblers, it seems to need a
little revising. No man would con-
sciously commit his happiness to the
keeping of a grumbler, but there are
deceptions in the world. As a deluded
husband said to his wife, "Before I
married you I thought you one in a
thousand, now I believe you are a
thousand in one." Factors that are of
some importance now-a-days in mar-
riage are faces, fortunes, social position
and a want of love, but these seem to
have been overlooked by the writer.

EDITORIAL NOTES.

In the near future Midway will possess a large and thriving population. In the past and up to the present the number has not reached the thousand mark, and owing to this fact, and also that the town is so situated that it is an extremely healthy place, very few in fact only two residents have so far died. The necessity therefore for the possession of a regular burying ground has not been keenly felt. With an influx of population, it is only reasonable to suppose that the ratio of deaths will increase, and should such be the case soon the residents of this place will find themselves confronted with a problem which will require perhaps some day, a speedy solution. Under these circumstances we would suggest that the citizens should take the matter up, and if possible get the townsite company to donate a suitable plot of ground in a convenient spot, and failing in this cast around for some other solution to the problem of how to furnish a resting place for the dead.

A section of the provincial press seems to be labouring under the idea that the introduction of party lines in provincial politics would have the effect of re-instating in power ex-premier Turner and his colleagues. For our part we do not hold such views, for verily Turner, Eberts, Pooley, Baker, Martin and in fact, the whole combination is as politically dead so to speak as the proverbial door nail. The people of the province will never again allow the reins of power in their hands, so if the leaders of this movement desire success, they will be obliged to choose as their standard bearers men more acceptable to the people than any of the above. The majority of the people of the province are not in sympathy with the party line movement, and at the first opportunity that offers they will make this plain to everyone.

In the development of the resources of this district the people of Boundary creek have laboured under tremendous disadvantages, owing to the neglect of the past government to render them adequate assistance. Therefore when a sad calamity overtakes a community in another portion of the province, the people of this district are not able to render such ample succor to the distressed as their generous nature undoubtedly suggests. Under these circumstances it is to be hoped the people of New Westminster will not judge their sympathy by the size of the pecuniary donations they may receive, but rather rest assured that in no part of the Dominion is a more profound feeling of sorrow entertained, than that which has held possession of the people of Boundary Creek, since they were made acquainted with the sad misfortune which befel the people of New Westminster on the 12th instant.

Not unexpected.

The following is published in the Rossland Miner of the 15th.

Victoria, Sept. 10.—[Special.]—A political sensation, compared with which the recent disclosures contained in the published correspondence re the dismissal of the Turner government dwindles into insignificance, is about to startle the gossip loving folk in British Columbia. Your correspondent learned today from a most authoritative source that the condition disclosed by an investigation by the new administration into the affairs of the lands and works department are such that the government has decided to ask for the appointment of a royal commission of inquiry into the affairs of that department.

The announcement to this effect will probably be made on Monday. It was common report on the streets this afternoon that prominent officials in the land and works department had confessed that were an investigation held the gravest irregularities would be unearthed. A wara time is expected.

FAIRVIEW NOTES.
(From our own correspondent.)

The Smuggler Gold Mining Company is getting everything ready preparatory to starting up their new mill. They have just completed a road over which the ore will be hauled from the mine to the mill, and a contract has been let for the hauling of the first one thousand tons. Water for the mill will be taken from Reed's creek by an extensive pipe system. Work in the mine is steadily progressing with very satisfactory results.

Two hundred tons of Stenwinder ore has just been run through the Tin Horn mill with the result that \$7 per ton in gold was obtained on the plates, and this with the gold in the concentrates will give the ore a fair average value. The mine has a splendid showing in shafts, tunnels and drifts, and a few months more development, and the necessity for the erection of a large plant to treat the ore at the mine will be made apparent. There is even now an immense body of ore in sight.

The Morning star is being developed by its owners, who are so well pleased with their property that they do not hesitate to refuse offers which would make a modest man rich.

The Oro Fino Mines Company is also very actively opening up their properties.

The town is rather quiet generally.

W. T. Shatford Co's new store will soon be complete, also other buildings.

Sheriff Pemberton has a little business here.

Father Palmer has been visiting the members of his church.

LOCAL AND DISTRICT.

Mr. Henry White, of Central camp, was a visitor in Midway on Tuesday last. Mr. White reports splendid progress being made with the work of development on the Lincoln and City of Paris properties.

Mr. F. S. Barnard, passed north on Tuesday stage. Mr. Barnard has for some time past been attending to building operations at Greenwood, where he purchased lots and has put up a fine block or two.

A few days ago a man by the name of McCallum was arrested and put in gaol at Greenwood on a charge of theft. Evidently he did not appreciate the kind attention of the city authorities for on Saturday night or early on Sunday morning he broke out of the lock-up and has not so far been heard of.

A very sad death was that of Mrs. Alex Currie at Greenwood on last Friday afternoon. The deceased, who was quite young and much esteemed by her numerous acquaintances was enjoying good health a few days before her death, and therefore her demise coming so suddenly quite shocked her many friends. Typhoid fever, aggravated by inflammation of the bowels, was the cause of death. While conscious and just before her life ebbed away, the deceased expressed a strong desire to be buried at Midway, and looking upon this request as a sacred one, the relatives carried it into effect, the funeral which was largely attended taking place on Saturday afternoon.

Captain Adams, President of the Midway Company, arrived here yesterday, having come over from the Slokan. Among the Captain's baggage was noticed two cameras and a very powerful magnifying glass. A curious observer wondered what he was going to do with these, and was answered by a wag who happened to be standing by, that the two cameras would photograph the many improvements made to Midway by her citizens since the genial Captain's last visit, and the magnifying glass would be used to discover, if possible, what the townsite company had done during the same period, to advance the welfare of the town.

Dr. Jakes of Greenwood and lawyer McLeod of Midway had an exciting time all to themselves for a while on Friday evening last. As they were driving along the road from Midway to Greenwood and were descending the steep hill near Powers sawmill, something went wrong, and the result was a runaway. For a few moments the two enjoyed or otherwise a meteoric ride, and then the buggy striking some earthly obstacle their career was suddenly arrested, and the stillness of the night was only disturbed by the footfalls echoing of the fleet steeds as they bounded on toward home, after having freed themselves from all impediments to their progress. A careful assay of the entertainment disclosed the fact that Dr. Jakes got off with a shaking up, lawyer McLeod with a slightly fractured rib and some bad bruises, and the buggy in need of repairs.

MINING NOTES.

The Boundary Creek Times says that about 1200 specimens have been collected here for the mineral exhibit at New Westminster next month. Mr. Crouse who collected the ore is more modest—he claims to have obtained about 1200 pounds of ore in all from about twenty claims, individual samples ranging in weight from a few pounds up to 150 pounds.

The hoisting machinery at the Mother Lode mine, in Deadwood camp, is now in running order. The compressor plant will be ready for work as soon as a few fittings arrive from Spokane and are put in place. The work of sinking the main working shaft will be resumed as soon as power is available to drive the machine drills.

Mr. David Bryant last week brought down specimens of ore from the Aberdeen, Golden Treasure and Prince of Wales claims in West Copper camp. Messrs. J. T. Bell and Alex. Wallace sent in some nice samples from the West Fork of Kettle River. Mr. J. Douglass contributed a nice chunk of ore from the Crown Point, James creek. Mr. Jas. Lynch added another from the Aztec, Meyers creek. A large and very fine sample of Winnipeg ore was also received. These several contributions were a welcome addition to the ores previously collected for the Provincial Exhibition at New Westminster.

Word is received that a 5 foot ledge of ore was cut through a day or two ago in the City of Paris tunnel in Central camp. This was altogether an unexpected strike, as the ledge does not show on the surface, and several hundred feet will have to be driven before the ledge in the City of Paris will be reached. The new find is said to assay well.

A recent assay made on ore taken from the bottom of the shaft which is being sunk on the Lake View claim in Long Lake camp, gave the gratifying result of \$68.00 in gold and 20 ounces of silver to the ton. The shaft is now down about 55 feet and the ledge is gradually widening out as depth is attained. The ore which is principally quartz, derives its values from the fact that it contains allatite, a combination of gold and silver, which is noticed as a dark stain in the ore. Mr. C. L. Thomet one of the owners is much pleased with the appearance of the claim.

Mr. J. Stevens came over from Fairview yesterday, and to-day proceeded to Spokane by way of Marcus.

Notice.

Dissolution of Partnership.

The partnership between Geo. J. Sheehan and F. Gwatkins hotel keepers, Fairview, is dissolved by mutual consent. G. J. Sheehan will pay all bills and will receive all moneys due the above named firm.

Sheehan & Gwatkins.

Fairview, B. C., July 26, 1898.

Notice.

Cariboo Mining, Milling and Smelting Co.
Notice of stockholders' meeting.

The stockholders of the Cariboo Mining, Milling & Smelting Company are hereby requested to meet at the office of the said Company at Camp McKinney, in the Province of British Columbia, Canada, on the 27th day of September, A. D., 1898, at the hour of 1 o'clock p. m., of that day for the purpose of voting on the proposition to sell and dispose of all, or any portion, of the assets, rights, powers, privileges and franchises of said Company.

G. B. McAULAY,
Secretary.

Notice of Assignment.

Pursuant to the "Creditor's Trust Deeds Act."

NOTICE is hereby given that Thomas Elliot, of Fairview, in the Province of British Columbia, Merchant, has, by deed bearing date the 29th day of August, 1898, assigned all his real and personal property except as therein mentioned, to John Pierey, of No. 169 Menzies Street in the City of Victoria in the said Province, Merchant, and Frederick Arthur Pauline of No. 40 King's Road in the said City, Merchant, in trust for the purpose of paying and satisfying rateably or proportionately, and without preference or priority, the creditors of the said Thomas Elliot, their just debts.

All persons having claims against the said Thomas Elliot must forward and deliver to the said trustees at number 25 Yates street, Victoria, B. C., full particulars of their claims, duly verified, on or before the 5th day of October, 1898. All persons indebted to the said Thomas Elliot are required to pay the amounts due by them, to the said trustees forthwith. After the said 5th day of October, 1898, the trustees will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they shall then have had notice.

Dated the 29th day of August, 1898.
MARTIN & LANGLEY,
50 Government St., Victoria, B. C.

New Westminster De- stroyed by Fire.

All the business portion of the city
swept away.

Loss estimated at \$2,500,000. Half of
which was covered by insurance.
Some loss of life.

Word comes from the coast that
New Westminster was nearly totally
destroyed by fire on the morning of
the 11 inst.

The fire started about midnight on
the river front and was caused by a
spark from a steamer. Fanned by a
fierce gale the flames spread with such
rapidity that within three hours 10
streets were ablaze. The fire was first
noticed at Brackman & Kerr's wharf,
on Front street. From there it spread
down to the C. P. R. depot. It crossed
the street at that point. From there
it went up the street taking in the
other side of Front street and Colum-
bia street, the chief business thorough-
fare of the city. Block after block
caught fire and in a few minutes there
was nothing left of what had been the
business portion of New Westminster.

From Columbia street it spread up
the hill to a huge building upon piles
on the gully bridged by Carmanon
street. There was a great space un-
der this building filled with dry season-
ed lumber. The air got in with the
fire and gave it great play. There was
a whirlwind of flames which belched
forth destruction. From this point
the fire spread. The English cathedral
was quickly attacked. The Baptist
church followed, and the Central
Methodist church also. All were de-
stroyed together with a large
number of residences. Their inhabi-
tants had to flee for their lives.

The fire swept down Carmanon
street and quickly enveloped the big
court house and the wooden city hall.
Fortunately there was a big open space
here and the flames were unable to
lean far enough to take in the big
central school. Agnes street, how-
ever, had got alight and one side of
Royal avenue. All the houses on that
street were completely burned. The
wind was blowing furiously down
Fraser river towards the mouth. If it
had been blowing the other way the
whole of the Catholic church buildings,
convent and hospital and other
structures would have been burned.

The loss is roughly estimated at
\$2,500,000; insurance, \$1,500,000. The
bank vaults withstood the fire. One
insurance company's vault was blown
up by gun-powder.

It is not known how many people
lost their lives, but it is feared several
have been burned to death.

Campbell, a fireman, fell off the roof
of a burning building and was killed.

A woman dropped dead from fright.
One woman, who had been confined
two weeks ago, died while they were
moving her from a burning house,
while another suffering from typhoid
fever, who had been twice removed
from residences which were in the
burning zone, did not survive the
shock.

Three river steamers were destroyed,
the Edgar, Gladys and Bonaccord.

Every industry save the big Royal
City planing mills and Cleve Canning
Company was wiped out. The Cana-
dian Pacific railroad station and bridge
across the Fraser river was burned.

The burned out citizens were minus
a water supply and all provisions, but
just as soon as word was received in
Vancouver and Victoria and other
towns along the coast, immediate
action was taken to provide relief.
The Provincial Government was
prompt in offering shelter to the dis-
tressed.

Picturesque Description of Arizona.

We live in a land of high mountains,
high collars and high taxes, low val-
leys, low neck dresses and low wages,
big crooked rivers and big, crooked
statesmen, big lakes, big drinks, big
pumpkins, big men with pumpkin
heads, silver streams that gambol in
the mountains and pious politicians
who gambol in the night, roaring
cateracts and roaring oxen, fast
trains, fast horses, fast young men,
roses that bloom the year round and
beautiful girls with rosy mouths,
sharp lawyers, sharp financiers and
sharp toe shoes, noisy children, fertile
plains that lie like a sheet of water
and thousands of newspapers that lie
like thunder.—Yuma Sentinel.

The Cretan Trouble.

Trouble in the island of Crete continues, and it is likely another bombardment of Candia will take place, and certainly will if the Musselmans refuse to lay down their arms. The admirals representing the powers there have requested their respective governments to send reinforcements and as soon as these arrive a very determined effort will be made which will no doubt have the effect of restoring order quickly. On the request of the admirals, the Cretan Executive Committee has succeeded in inducing the Christian Insurgents in Candia to retire outside the coedon. Djavadlik Djavad Pasha, the Turkish military commandant, says that he has given the Turkish military authorities at Candia strict instructions to assist in maintaining order. He declares that the Bashi Bazuks were responsible for the recent outbreaks. Twenty-one additional bodies of Christians were discovered under the smouldering ruins at Candia up to the 19 inst., and the daughter and her child of the British Vice-Council have disappeared and no doubt have been massacred.

COUNTY COURT NOTICE.

A sitting of the County Court of Yale will be holden

At Midway on Monday the 10th day of October 1898.

J. W. NELSON PROPRIETOR

LOCAL AND DISTRICT.

Mr. Thos. Wake, of Boundary Falls, has been on the sick list for a few days.

Two Calgary men were among the number who bought lots in Midway last week.

Mrs. C. J. Eales, of Greenwood, is enjoying a change of air at the Jackson ranch.

Mrs. Jas. McNeil returned to Midway last week after a pleasant visit to her parents at Carson.

Mr. G. T. Hodgson of Greenwood, left on Saturdays stage to Penticton, for his home in England, where he will spend some time, before returning to Boundary creek.

Messrs. E. E. Barchard and A. H. Harrison of the B. C. mine, Summit camp, and L. S. Moulton-Barrett of Greenwood, went over to Osoyoos Lake last week on a shooting and hunting trip.

Mr. A. R. Tillman came over from Camp McCuddy on Friday last, and before returning home will no doubt investigate the possibility of establishing his saw mill at some point in this neighborhood.

Mr. W. Powers is making preparations to again try his hand at the sawmill business and as soon as a new plant can be got on the ground the buzz and whir of the saw will be heard in the land, and Midway given what it is so badly in need of, viz., lumber.

Mr. Adolph Drucker, who is a member of the British House of Commons, has sailed from England to Mr. L. S. Moulton-Barrett, of Greenwood, to expect him about the 25th inst. Mr. Drucker owns the Gold Bug and Hidden treasure mineral claims in Deadwood camp.

Mrs. McMynn intends to return to her home in Midway by the middle of next month. She has had an enjoyable holiday, but lately has been inconvenienced by extremes of weather. When she left Toronto recently the heat was trying, but upon her arrival in Manitoba she had the uncommon experience of a snowstorm in the harvest season.

Mr. C. M. Melville our local contractor and builder, tried to perform a ticklish surgical operation the other day with a band axe, with the result that the forefinger of his left hand was nearly severed. For a few days the wounded member did nicely, and then became very troublesome, but is now mending rapidly. The patient declares that he won't meddle with surgery but will stick to his own trade for the future.

Mr. E. A. Bielenberg returned to Boundary Creek a few days ago after paying a visit to Seattle, Portland, Spokane and towns in the Kootenay. Mr. Bielenberg reports much comment being indulged in by outsiders relative to the resources and prospects of Boundary Creek, which district he says is held in very high esteem. The coming winter and next spring will be thick with much capital and a great influx of people into this district.

Two cases of glanders have developed at Greenwood. The horses have been quarantined by District Veterinary Surgeon Christie, and will no doubt be destroyed as soon as word is received from the authorities. Every precaution is being taken to prevent the spread of the disease, which undoubtedly was brought into the country last summer among stock from the other side of the line, and before Dr. Christie was regularly appointed Veterinary Surgeon for the southern portion of Yale district.

Two or three very fierce bush fires are raging in the neighborhood of Camp McKinney, and as a result the atmosphere is pregnant with smoke. Undoubtedly these fires have been started by parties desirous of burning off the timber and underbrush, so that prospecting may the more readily be prosecuted. The recent rich strike in the camp may in a measure be accountable for the heedlessness of the depredators to the interests of others. The authorities should make a searching enquiry into the matter and if possible punish the offenders.

Messrs. P. Burns and W. J. Wilson, who control the West Kootenay district meat supply, arrived from Nelson last Friday night. It is understood that they are negotiating with the Kettle River Dressed Meat and Provision Co., with a view to buying out that company and extending their business to the Boundary country. It is significant that Mr. Burns who is interested with Messrs. McKenzie, Mann & Co. in the railway charter, under which the Penticton-Midway railway is to be built, purchased some real estate in Midway during his brief visit.

It is reported that Mr. S. Moulton-Barrett has sold his business block in Greenwood City to Mr. F. S. Barnard. The consideration it is said was somewhere in the neighborhood of \$10,000.

It is stated that Messrs. G. E. Seymour & Co., proprietors of the Windsor hotel in Greenwood have disposed of their premises to Mr. F. S. Barnard, who has it is said acquired them for a syndicate which is investing heavily in Boundary creek.

Mr. W. J. Armstrong, the Tin and Stove Man is at present a visitor in the district, and if reports can be relied upon, it is more than likely he will open up a hardware store at this point. There is a good opening in such a line, and no doubt a good trade could be built up by anyone as pushing as Mr. Armstrong.

Mr. A. K. Stuart of Vancouver passed through Midway on Wednesday stage bound for Greenwood, there to join his brothers, and remain with them on a short visit. During his sojourn in the district Mr. Stuart, my take a spin over to Christina Lake, and will endeavour while there to enjoy some fishing and hunting for which sport, judging by the reports of the residents of the neighborhood, the place is justly famous.

Mr. Sharp the manager of the Hudson Bay Company's store at Vernon, passed through the district during the past week, going north to Penticton on Tuesday stage. It was Mr. Sharp's first visit to Boundary creek, and he was agreeably surprised at the many evidences of prosperity which confronted him at every turn as it were. The Hudson Bay Company has many patrons throughout the district, and these Mr. Sharp was pleased to become personally acquainted with.

Messrs. J. R. Ferguson, of Trail, and J. E. Mills, of Rossland, were visitors to Midway last Tuesday. Both were very favorably impressed with the excellent natural advantages and the good prospects of the town. Mr. Ferguson purchased a 5-acre lot on the Murray Addition and a 50x140 lot in the town. He purposes bringing in his wife and family this fall and making his home here. The visitors left on their return journey on Wednesday morning, going out by the Kettle River road to Grand Prairie and thence by the Dewdney trail to Rossland.

Messrs. Portmann and Hardinger of Portmann Bros. & Hardinger of Greenwood were in town on Wednesday last. Messrs. Portmann Bros. & Hardinger are building a fine brewery on premises which are situated just north of Greenwood on the old Elkhorn mineral claim. This brewery when completed will it is said be one of the if not the largest on the mainland, and as all parties interested in the undertaking are men of experience, they will be sure to turn out an article which will successfully compete with the goods now derived from other sources.

BOUNDARY CREEK MINING AND MILLING COMPANY, LTD. LY.

Incorporated October 21st, 1896.

HEAD OFFICE, GREENWOOD CITY, B. C.

Capitalization \$1,500,000, in \$1 Shares, Treasury Stock 700,000 Shares.

COMPANY'S PROPERTIES.

The Company's mining properties now consist of fourteen claims, viz, the D. A., G. A. R., Big Ledge, O B, S. H. B., Fred D., S. F., J. A. C., P. H., C. S. & H., E. C. B, Prospective, Spokane and Granite Falls.

SIX OF THESE HAVING BEEN ACQUIRED SINCE INCORPORATION

OFFICERS OF COMPANY:

----- PRESIDENT

D. A. HOLBROOK ----- MANAGER

E. JACOBS ----- SECRETARY-TREASURER

BANKERS

BANK OF MONTREAL - VERNON, B. C.

DESCRIPTION.

On the "D. A." is a vein about 20 inches wide, with a pay-streak of 4 to 12 inches; from this 8,553 lbs. of ore was shipped to the smelter, giving \$103.15 gold per ton, silver 74.7-10 ozs., and 2 per cent. lead. A tunnel is being driven on this vein from which ore is being taken. On the same property is a larger vein (quartz) carrying galena and pyrites.

The "G. A. R." has a 30-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silverglance. The finest pieces of wire-silver found on Boundary Creek were taken from this shaft. Average assays from different places across the vein gave \$8.00 gold, 50 ozs. silver; also \$8.00 gold and 150 ozs. silver and one, the latest return—\$15.05 gold and 190.45 ozs. silver per ton.

On the "Big Ledge" is a 10-foot quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and runs into the main ledge as a spur, on which a tunnel of 40 feet has been driven. Average assays gave \$33 gold and 11-10 ozs. silver, and \$49.35 gold 17½ ozs. silver, 2 per cent. copper.

The "S. F." lies between the G. A. R. and D. A., in the direction of the strike on the G. A. R. vein. This location has been made on a vein of pyrrhotite.

The "O. B." has two distinct veins one 25 feet wide which, from its strike and general character would seem to be the same vein as that on the Big Ledge, although sufficient has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from \$1.00 to \$170.53, while a conservative sampling by Mr. S. S. Fowler, M. E. gave \$29.00 in gold.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay gave, gold \$1.50, silver 16½ ozs., copper 11.00 per cent., or \$40.44 for all values.

The "Fred D." was located in December, 1895, more as ground for a basis for mining operations for the other claims than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet. The ore carries a considerable percent age of copper and \$10 in gold.

The remaining six claims are all good prospects, but as yet very little development work has been done on them.

This company is registered under the Companies Act, 1890, and amending acts, in the office of the Registrar in Victoria, B. C., for 1,500,000 shares at \$1.00, non-assessable, of which a portion of the Treasury stock is now offered at 10 cents a share on application to the company.

MINERAL ACT 1896.

Certificate of Improvements.

NOTICE.

THE AUGUST MINERAL CLAIM.
Situate in Osoyoos Mining Division, of Yale District. Where Located: Camp Fairview.

TAKE NOTICE that W. H. Rose, free miner's certificate No. 70,111, John Stevens, free miner's certificate No. 234, John A. Coryell, free miner's certificate No. 112, J. P. Barnyard free miner's certificate No. 38,573, in and sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim by their agent John Stevens.

And further take notice that action under section 37 must be commenced before the issuance of such Certificate of Improvements. Dated this 1st day of August, 1898.
