New Pusine Judge.

Mr. Archer Martin of Victoria was selected by the Federal Government to fill the vacancy recently made in the ranks of Supreme Court Judges by the elevation of Mr. Justice McColl to the Chief Justiceship.

It seems generally to be conceeded that the appointment is a good one, although in some quarters this is questioned.

Mr. Justice Martin is the second son of Edward Martin, Q. C., of Hamilton, Ontario. He was born in 1805 and was educated at Trinity College school, Port Hope, and at Ghent, Belgium. He went to Winnipeg in 1882 and was called to the bar of Manitoba in 1887. In the end of 1893 he left Winnipeg, going to Victoria, which he had visited in 1897. In 1896 he was appointed council for the Dominion Government and agent for the Minster of Justice at Victoria, and formed his late partnership with W. H. Langley in the beginning of 1897. Mr. Martin is a great-grandson of Richard Martin, M. P., of Ballinahinch Castle, County Galway, Ireland, who represented that county for many years and achieved celebrity in obtaining the passage of Martin's Act, for the prevention of cruelty to animals, and also introduced measures for the abolition of the death punishment for forgery, and for the allowance of council to prisoners. The new judge has written a book "The Land Tenures of the Hudson Bay Company." Hon. Justice Irving and the Hon. Justice Martin are fellow-townsmen and "old boys" of the same school.

The Light of Love.

The clouds have deepened o'er the night.
Till, through the dark profound,
The moon is but a strain of light,
And all the stars are drowned;
And all the stars are drowned, my love
And all the skies are drear;
But what care we for light above,
If light of love is here?

The wind is like a wounded thing
That beats about the gloom
With baffled breast and drooping wing,
And wail of deepest doom;
And wail of deepest doom, my love,
But what have we to fear
From night, or rain, or winds above,
With love and laughter here?

—James Whitcomb Riley.

Individual Odors.

Every human being has a specific odor of his own, according to A. Bethe in the Archive der Gesammten Physiologie, by which he can be recognized not merely by dogs but by persons with sensative organs of smell. The case is mentioned of a man who blindfolded could pick out each individual in a company of 20 by his odor.

The smell is not born with us, but develops gradually till the age of puberty, after which it remains unchanged. Members of a family have a kind of common odor, which presists even when they have lived apart for a long time.

Worth Remembering.

Prospectors and others always need to remember that, in opening up a new camp, absolute honesty in regard to values is essential. A well-defined lead may not have values at the surface and yet be a good property, while all possible efforts at deception will not make a mine out of a barren lead; and such effort being certain of detection, results in a serious setback to a district which may have real merit. A case is in mind where a clumsy effort to deceive resulted in a withdrawl of all proffers or notice from intending investors, when a straight statement of facts and an honest showing would have secured what most prospectors want—a good price for an undeveloped claim. It is not well to bank too much on the possible ignorance of the man sent to examine the property, but vastly safer and fairer to give him credit for a little knowledge; and, purely as a matter of business policy, more satisfactory all round not to attempt any cheap little tricks that are sure to be found out and are as sure to hurt the whole district. One such transaction often gives a deserving locality a setback that will take years of genuine merit and proved value to overcome.—Mining and Scientific Press.

Rates to New Westminster Exhibition

Mr. E. J. Coyle, District Passenger Agent, Canadian Pacific Railway Co., has issued a circular giving effect to the following rates in connection with the New Westminster Exhibition:—

Westminster Jct	.45
Port Moody	.55
Hammond	.80
Haney	.90
Wharnock	1 20
Mission Jct	1 70
Huntingdon	2 20
Harrison	2 70
Agassiz	3 15
Hope	4 05
Yale	4 70
North Bend	6 05
Lytton	6 90
Spences Bridge	7 35
Ashcroft	8 30
Savonas	9 00
Kamloops	9 75
Shuswap	10 70
Salmon Arm	11 70
Sicamous Jct	12 25
Clan William	13 30
Revelstoke	13 55
Illecillewaet	14 40
Glacier	14 90
Beavermouth	15 60
Doland	15 95
Golden	16 45
Pactiser	16 85
Field	17 45
Hector	17 70
Laggan	18 00
Banff	19 00
Anthracite	19 15
Canmore	19 45
Morley	20 20
Cochane	20 75
Calgary	21 45
Enderby	12 95
Armstrong	13 20
Vernon	13 65
Okanagan Landing	13 80
Kelowna	14 80
Penticton	16 05

These rates are exceptionally low, in fact the Canadian Pacific Railway has been more liberal in its endeavor to foster and make successful the Provincial Exhibition to be held at New Westminster than the railway companies make for similar exhibitions held in eastern Canada. It is expected that the attendance from the interor will be very large. The rate is made as an experiment, and heavy ticket sales will no doubt cause the Canadian Pacific Railway Company to treat future Provincial exhibitions in a like liberal manner.

In addition, the Railway Company has arranged for the free transportation of exhibits. Shippers of exhibits will pay regular rates to New Westminster, and providing same do not change hands they will be returned free to starting point and the exhibitors refunded charges paid into New Westminster.

EDITORIAL NOTES.

Few people are there in the province, who will not commend the Government for its action with regard to the dismissal of Mr. Vernon as Agent-General. There are many however who will not agree that the closing of the office is the best course to pursue. For our part we would like to see the office kept open, and a good live man selected to represent the province in London. We believe much benefit would accrue to British Columbia, should this course be taken. It is a mistake to abolish the office and we hope the Government will reconsider the matter.

When the other day the Cabinet Ministers went back to their constituencs, seeking to be confirmed in their position, they were elected by acclamation. And when the next meeting of the provincial legislature takes place, if the present signs do not fail, it will be found that Mr. Semlin will have a very respectable majority at his back. This will not be owing so much to the result of the last elections, but rather because some of the members on the opposition side will hardly dare to show themselves in the house. From present appearances it would seem that the Turner party is doomed to complete disintegration, and if such befalls it the country will not mourn.

His Lordship, Chief Justice McColl has been appointed a Royal Commissioner to inquire into several doubtful transactions which are alleged to have taken place in the Lands and Works department, under the administration of the Turner government. Referring to the necessity of the Commission the Kamloops Sentinel says:

"The Lands and Works Department will provide material for several investigations. It is very desirable that at an early date careful inquiry be made into the past administration of public lands. We fancy such an investigation would show that the late Government parted with hundreds of acres of arable and grazing lands to friends for no other consideration than a promise of political support."

For our part, we think if the whole circumstances could be known which led the past government to virtually throw at the head of F. August Heinze the enormous land bonus of 3,400,000 acres as an inducement to build the Columbia & Western railway, it would furnish the most startling sensation in the political history of British Columbia. Perhaps if we have patience, the future may be productive of strange and vaired revelations.

Coming to Light.

The Hon. Mr. Hume, Minister of Mines and Provincial Secretary, when in Nelson the other day, referred to the necessity of a commission to enquire into the working of the Lands and Works department of the past government, and he said that one transaction which would be very carefully inquired into is what is known as the Jevons contract. Mr. Jevon had a contract with the late government in connection with the parliament buildings, and he received from the late government, just before the elections, the sum of $30,000, which, it is contended, he had no right to receive, and for which no value was received in the shape of work done. It is claimed by the present government that this was a sop given for political purposes.

On paying out this sum, the Turner government received a full receipt for all work done in connection with the contract, but, nevertheless, another bill was soon received amounting to $16,000. The Turner government actually referred this claim to arbitration. Needless to say, the present government have cancelled the arbitration agreement.

OUR OTTAWA LETTER.

Ottawa, Sept. 17th, 1898.

The new franchise law promised before the last election is now in existence and in addition to saving the country $200,000 a year in revision expenses it may be relied upon to give a fair opportunity to the electorate to pronounce their unbiased opinion, which is all that any Liberal Government has ever desired.

The improved trade relations with the Old Country, resulting from the fulfilment of another pre-election promise to reform the tariff, has done more than any other human act to bring about the present prosperous era, with its accompanying increases in the business of the railways, and the banks, the manufacturer and the merchant. The securing of the benefits of Imperial penny postage, which will be followed as quickly as possible by a similar reduction in domestic mail charges, will afford improved conditions for commercial intercourse at home and abroad; while the deficit in Post Office Department is rapidly disappearing. The deepening of the St. Lawrence Canal, now so near completion, will provide valuable facilities for the carrying of Canada's products to the seaboard which have never been before enjoyed.

EFFICIENCY AND ECONOMY.—The radical reforms in Canada's civil service superannuation scheme is saving large sums to the public exchequer. The careful administration of the public funds, while providing for all necessary public works, and giving an impetus to trade and commerce, has resulted in a surplus of a million and a half, a surplus which has not been equalled in very many years. Every department of government is being prudently, honestly and effiiciently managed, and in spite of the most searching investigations and assiduous following up of every rumor and suspicion, however slight, the Opposition has failed to discover even the suggestion of wrong doing or malfeasance of office or betrayal of the public trust.

Looking over such a record there might appear to be some ground for the idea that the Government may be contemplating an appeal to the country, for it is difficult to imagine conditions that would be more favorable to victory. But the government cannot afford to disregard the public welfare simply to gratify a personal desire for endorsation, and unless some momentous question of public policy demands an expression of popular opinion, it is not probable that the people will be put to the expense and turmoil of a general election two or three years before it is required by law.

FIRST BLOOD IN THE LOCALS.—The first of the long list of election trials has come off, and the Conservative candidate who was declared elected in South Ontario over Hon. John Dryden, Minister of Agriculture, has been unseated upon evidence showing the most extensive and open bribery, while the cross petition, against the Minster was dismissed without even calling for evidence. It looks as if the Local Opposition will soon have one of their great grievances removed, and "the Ministers without seats" once more take their rightful places in the Legislative halls—for their never was any question of the outcome of an honest contest in South Ontario.

MINING NOTES.

A meeting of the shareholders of the old Cariboo Mining, Milling & Smelting Company will be held to-morrow at Camp McKinney, to ratify the transfer of the property to the new Cariboo Consolidated Gold Mining Company.

Some nice samples of ore are being brought down from the Hecla claim which is situated at Rock Creek. Work is progressing steadily upon this property, a tunnel being driven in on the ledge, with it is said very satisfactory results. The claim is owned by Messrs. Douglass, Atwood and others.

Some work is soon to be done on the Cordick mineral claim, which is situated in Summit camp, and is owned by the Adams British Columbia Mining Company. A shaft was sunk to a depth of about 50 feet on this property some time ago, but the result not being satisfactory, later development took the form of open surface crosscuts. This was resorted to in an endeavor to find the ledge in place. Could this be found no doubt the ore would carry better values than those obtained from samples so far taken from the badly shaken up outcroppings. The Cordick has good neighbors, and if developed under an able management might turn out to be a valuable claim.

It is said that a deal is pending in which the Calumet claim in Wellington camp will pass into the hands of eastern capitalists. The claim is at present owned by Messrs D. R. Johnson and R. McCarren and is one of the old time locations in Wellington camp. The claim is situated near the now famous Winnipeg mine, and therefore should be very desirable property.

It is currently reported that in a few days the Jewell will be started up again. The Jewel is owned by the Prospecting Syndicate of British Columbia and is situated in Long Lake camp. Upon this property much work has been done, as besides a deep shaft much drifting and crosscutting was carried out under the supervision of Mr. Leslie Hill, the then representative of the company. In fact the Jewell may be said to be a fairly well developed mine. Upon resumption of work in the mine, no doubt the company will also make provisions for the reduction of ore, which is of such a character that it can be readily treated near the mine. There is a strong probability that a cyanide plant will be installed, should the company decide to do this, and for the accommodation of such a plant, or some other, suitable ground was recently secured from parties owning property close to the Jewell.

Messrs. H. R. Elliot, of Armstrong, and J. E. Crawford of Greenwood, purchased recently the Soppho claim, situated on the outskirts of Central camp, from Messrs. R. Stuart and G. C. Rose. As soon as the transfer was made Messrs. Crawford and Stuart started to work on the property. Discarding the old shaft which had been sunk between 40 and 50 feet in depth, they prospected around and soon found between two ledges or bands of white quartz a fine mineral outcrop, which upon being broken into disclosed some nice looking copper ore. At this point work is now being prosecuted and it is said with very satisfactory results. Surface indications on this claim would tend to show that a fine body of copper reposes somewhere in the neighborhood, and it is quite likely that the present work will lead to its detection.

On Friday last Mr. F. Keffer of Anaconda lost on the road to Deadwood camp, his pay-list and a number of cheques drawn by him for the B. C. Copper Co., on The Exchange National Bank of Spokane, dated the 23rd inst. Payment of all the lost cheques issued by him on that date have been stopped at the bank and cheques marked duplicate issued instead.

Notice.

Dissolution of Partnership.

The partnership between Geo. J. Sheehan and F. Gwatkins hotel keepers, Fairwiew, is dissolved by mutual consent. G. J. Sheehan will pay all bills and will receive all moneys due the above named firm.

Sheehan & Gwatkins.

Fairview, B. C., July 26, 1898.

Notice.

Cariboo Mining, Milling and Smelting Co.
Notice of stockholders' meeting.

The stockholders of the Cariboo Mining, Milling & Smelting Company are hereby requested to meet at the office of the said Company at Camp McKinney, in the Province of British Columbia, Canada, on the 27th day of September, A. D., 1898, at the hour of 1 o'clock p. m., of that day for the purpose of voting on the proposition to sell and dispose of all, or any portion, of the assets, rights, powers, privileges and franchises of said Company.

G. B. McAULAY,
Secretary.

Notice of Assignment.

Pursuant to the "Creditor's Trust Deeds Act."

NOTICE is hereby given that Thomas Elliot, of Fairview, in the Province of British Columbia, Merchant, has, by deed bearing date the 29th day of August, 1898, assigned all his real and personal property except as therein mentioned, to John Piercy of No. 169 Menzies Street in the City of Victoria in the said Province, Merchant, and Frederick Arthur Pauline of No. 40 King's Road in the said City, Merchant, in trust for the purpose of paying and satisfying rateably or proportionately, and without preference or priority, the creditors of the said Thomas Elliot, their just debts.

The said deed was executed by the said Thomas Elliot (the assignor) and the said John Piercy and Frederick Arthur Pauline (the trustees) on the 29th day of August, 1898, and the said trustees have undertaken the trusts created by the said deed.

All persons having claims against the said Thomas Elliot must forward and deliver to the said trustees at number 25 Yates street, Victoria, B. C., full particulars of their claims, duly verified, on or before the 5th day of October, 1898. All persons indebted to the said Thomas Elliot are required to pay the amounts due by them, to the said trustees forthwith. After the said 5th day of October, 1898, the trustees will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they shall then have had notice.

Dated the 29th day of August, 1898.

MARTIN & LANGLEY,
59 Government St., Victoria, B. C.,
Solicitors for the Trustees.

City of Paris and Lincoln.

As noted in the last issue of this paper, a fine ledge of ore was cut through recently by the tunnel which is being driven to tap the ledges on the City of Paris and Lincoln claims, which are situated in what is now known as Central camp, but which was formerly called Whites camp, after the owner and discoverer of the above two claims. Just what ledge this is there would seem to be some room for controversary, for as the ledge does not outcrop on the ground above the tunnel, connecting it with ledges which outcrop on surrounding claims, is much a matter of conjecture. From its dip and trend it may be the Lexington ledge, for this claim lies to the west and south of the Lincoln and to the south and partly to the west of the City of Paris. Should it prove to be then it should be a good one indeed. It is not the intention however to enter into a discussion with regard to this ledge, but rather to give an idea of what the City of Paris Gold Mining Company are doing to develop their property. In this respect it may be said that the company some time ago, selected Mr. Henry White the former owner of the claims to superintend the work, and he upon taking charge, provided as quickly as possible very comfortable quarters for the miners, in fact so comfortable that no better buildings are to be found in any mining camp in the district. Having done this, work was started on the No. 1 tunnel, which has its opening on the No. 4 claim lying to the south of the Lincoln. To tap the Citp of Paris and Lincoln ledges, it is estimated that this tunnel will have to be driven a distance of about 600 feet, and this being the case the veins of ore should be met with at a depth of about 250 feet from their outcrop. Over a half of this distance has now been attained, with the result as above discribed. After completing the No. 1 tunnel it is the purpose of the company to start a second one of much greater length, the length from its mouth to the ore bodies being estimated at 1600 feet. This tunnel which will be known as No. 2 will attain a depth of fully 600 feet, and its point of commencement will be upon the Oregon Fraction mineral claim, which in its turn is situated to the south of the "No. 4". To drive this tunnel a large compressor plant and machine drills will be installed, and for the accommodation of this plant, the ground has already been cleared on the Oregon Fraction, near to where the mouth of the big tunnel will be.

From this an idea may be gleamed of the very substantial manner in which the company is carrying on operations and that the venture will be carried to a successful issue none can doubt who are acquainted with the splendid display of mineral wealth that exists on the City of Paris and Lincoln mineral claim, even before the advent of operations by the present company.

Waking Up.

United States Minster Conger the other day informed his government that the Emperor of China has taken a large stride in advance in civilization by encouraging the newspapers of his empire to publish a truthful account of the daily events and to be both bold and fearless in the discussion of current affairs. He has by public proclamation made the "Chinese Daily Progress" an official organ and declared that articles which appear in Chinese newspapers, though apparently displeasing to him shall not on that account be suppressed. He has directed that important articles of current events in the leading papers shall be marked and presented to him promptly. He assigns, in his proclamation, *the reason for this that he desires to* extend his knowledge of affairs both Chinese and foreign.

He has also addressed to the people a long explanation of his new policy, declaring that in many respects Western civilization is superior to the existing order in his domain, and he intends to adopt its good features and discard the bad ones.

His most radical edict however establishes a postal system throughout the empire, and the emperor asks the people to co-operate with him in making the newly established system a success, assuring them that they will thus aid in strengthening the resources of the empire.

By another order the emperor extends practically to everybody the right to memorialize the throne, a privilege heretofore restricted to certain classes.

He also commands that monthly accounts be rendered of the government receipts and expenditures everywhere, and that these accounts be published.

F. GRAFF, - - - Curlew, Wash.

Canada's Trade.

The trade of Canada is increasing by leaps and bounds. In 1898 the value of Canadian manufactures was $4,-127,755. in 1888. ten years later, the increase was $33,550 or a total of $4,161,282, in 1898, after another decade, the figures had risen to $10 639,227. an increase of $6,500,000, or more than 150 per cent. Of this increase more than $1,000,000 is credited to the last twelve months, and as the increase of business in this department with Great Britain has increased from $83,617,128 in 1897 to $4,900,484 in 1898, the entire increase, and more too, has been in the trade within the Empire. Nothing could be more satisfactory than the fact that Canadian goods were finding a great market in Britain.

Fruit For Great Britian.

After a somewhat extended stay in Great Britain, with the Minister of Agriculture, for the purpose of making personal investigation into the condition of the Fruit Market, Professor Robertson of the Experimental Farm, has returned to Ottawa full of enthusiasm for the future of the Canadian fruit trade with the old Country. He declares that there is a big market for pears, peaches, apples, tomatoes, plums and grapes and for the first time it is now possible, owing to the Cold Storage facilities which have been created through the Department of Agriculture, to ship these extremely perishable goods to London and to place them before the consumer in perfect condition. The trial shipments, which have been already made, hav proved an unqualified success, when the suggestions offered by the Government as to sorting and packing have been carefully followed. The commissioner is satisfied that there is an unlimited market for Canadian fruits which will find ready sale at prices that will handsomely remunerate the Canadian producer. The details of transportation have been very carefully worked out, and the only chance of any want of success will arise from negligence and carelessness on the part of the shipper.

The Waterloo Deal.

It is practically settled that the Waterloo claim in Camp McKinney, upon which the recent remarkable rich strike of free gold was made, is to pass into the hands of a Spokane company to be called the Waterloo Mining & Milling Company. The property lies with only the Wairton claim intervening between it and the Cariboo group, upon which the Cariboo company is working and paying regular dividends from ore extracted. It is said that the Cariboo vein runs directly through the Waterloo and the recent strike of rich quartz is made upon the Cariboo lead where it crosses the property.

Among the gentlemen who will be interested are James Monaghan, M. M. Cowley, Edward O'Shea, John Porteors, William O'Brien, P. Cunningham, J. A. Rockwell and A. C. Jameson. The original owners of the property, Mrs. Finnegan, Thomas Graham and Joe Murphy, will retain a three-tenths interest in the company. The capitalization will be 1,000,000 shares of a par value of 10 cents. Dr. J. F. Reddy, who has a bond on the property, is engineering the organization of the company.

Dr. Reddy returned from a visit to the property the other day, bringing with him a sack of samples of the blue quarts encrusted with masses of gold visible to the eye. He has a large quantity of the specimens in his office, where they are the center of attraction for mining men. He has to keep them under lock and key, so valuable are they and so much coveted. One piece has a patch on one side about an inch and a half long and an inch wide which is one yellow crust of the bright metal. It is estimated that there is over $20 worth of gold in sight. Other specimens are much broken, with the pieces of quartz held together by little wires of gold.—Spokesmen Review.

COUNTY COURT NOTICE.

A sitting of the County Court of Yale will be holden

At Midway on Monday the 10th day of October 1898.

At the hour of 11 o'clock in the forenoon.

J W. NELSON - - - PROPRIETOR

LOCAL AND DISTRICT.

Mr. G. B. McAulay passed through town on Saturday on his way to Camp McKinney.

Mr. J. E. Boss was a visitor in town Saturday having recently came in from Spokane.

The many friends of Mrs. W. Davis of Midway will be pleased to hear that she is gradually recovering from her recent severe sickness.

Mr. Keene, formerly manager of the Caribou mine at Camp McKinney, passed through town on Saturdays stage bound for the scene of his former labours.

Mrs. W. J. Armstrong and son of Vernon, came in on Fridays stage. Mrs. Armstrong joined her husband at Anaconda, and for the future may reside there.

On Thursday next the electors will be given an opportunity to express their opinions by voting on the prohibition question. In this district polling booths will be open at Midway, Greenwood, Upper and Lower Grand Forks Cascade City, Brooklyn, Trail and Rossland.

It is said that Mr. A. R. Tillman will at once bring the sawmill outfit belonging to the British Columbia Lumber Company from Camp McCuddy, and set it up on Boundary Creek. This is no doubt the outcome of an agreement reached by Mr. W. Powers and the British Columbia Lumber Company.

All exhibits to the New Westminster exhibition will be carried free by the C. P. R. providing after they have been on exhibition they are not disposed of, but are returned to the point from which they were shipped. This no doubt does not apply to mineral exhibits, that is that they must be returned.

Mr. R. Kerr and family moved down to Midway during the past week and for the future will reside here. The C. P. R. right-of-way was not only located through Mr. Kerr's ranch property on Boundary creek, the line came so close to his residence, it necessitated his moving away, as in the near future the house will be destroyed or at least taken from its present position.

By orders recently issued a new time schedule has come into force at the Government offices throughout the province, and for the future all offices will be opened for business at 9 o'clock a.m., and closed at 4 o'clock p. m., except on Saturdays when the time for closing is set at 1 o'clock p. m. The public will do well to note this fact especially that no business is transacted on Saturday afternoons.

Mr. Rickards, who is the representative here of the Phoenix Assurance Company of London, England, received word a few days ago, that although the Phoenix company lost some $80,000 by the recent New Westminster fire, yet did they as soon as word was received of the disaster, instruct their general agents in British Columbia, Messrs. Ceperty, Mackenzie and Rounsefell, to contribute $500 to the relief fund. This is the kind of generosity which generally gets its reward.

During the past week an opportunity was offered to inspect one of the single camp maps in the office of F. M. Kerby, P. L. S. and it must be said that it is more than likely that the future will witness a great demand for these maps. The map shows the correct location of all surveyed claims and the approximate location of those not surveyed, and as the map is drawn on a large scale it readily conveys to the observer a correct idea of the relative position of the several claims in the camp. A folder containing a series of these maps, representing the different camps of the Boundary creek district, would be a valuable acquisition to those engaged in the mining industry in this section.

Minton is to be the name of the new townsite which is being platted on the property of Mr. W. G. McMynn at the foot of Christina Lake near Cascade City. Mr. F. Wollaston, P. L. S., of Grand Forks, is now engaged upon the survey, and as soon as this is completed lots will be offered to the public. From its splendid situation, lying as it does at the foot of one of the most beautiful of British Columbia lakes, it will no doubt be much patronized by investors and those desirous of building summer residences in a healthy and charming locality, and therefore the success of the place should even now be assured. Lest some may imagine that the place has been christened after the owner of the land, it would be well to say that such is not the case, as by adopting the word Minton, it has been sought to honor the new Governor General of Canada.

Mr. Lundy, one of our esteemed local merchants is around about again after a few days of illness, which judging from his appearance must have been very severe.

Mr. D. D. Mann of the firm of Mann and McKenzie came to town on Saturday and left again yesterday. Mr. Mann came to the district to take a look at his mining properties and also to look over the route over which his firm will soon be grading a railway.

Gold Amalgam Stolen.

Vancouver, B. C., Sept. 19.—The biggest robbery in mines for a long time is reported from Lillooet today. A telegram from Superintendent Rives, of the Golden Cache mine, states that 800 ounces of gold amalgam were stolen on Sunday night. This is the result of three weeks' clean-up at the mines, and represents nearly $10,000, which the shareholders will lose.

Troops to Manilla.

The United States government has decided to send four more regiments of troops to Manila, with as little delay as possible. The regiments, will consist of the First Iowa, Twentieth Kansas, First Tennessee and First Washington. By such action it is plainly demonstrated that the United States government expects to have some trouble in the far east, before all things are arranged to the satisfaction of all parties concerned in the Philippine question.

A Silver Wedding.

During the past 25 years, hundreds and perhaps thousands of people have found themselves at some time at that charming little spot known as Osoyoos, which is situated on the shore of the lake bearing the same name, and being there, it is safe to conjecture that they failed not to become acquainted with those who embody all that is lofty, true, and kind in the noble German character, Mr. and Mrs. Theodore Kruger. For the long number of years before indicated, these good people have held the proud position of host and hostess at Osoyoos, and thousands are there who would no doubt readily testify to the pleasure they have experienced when with a hearty hand shake, and a solicituous, How do you do? and a cheerful, I am glad to see you! they have been invited to accept hospitality at the hands of those who gave them welcome.

To such then the news that this happy home was the scene of a large gathering of friends on the 18th inst., will come with pleasure, and doubtly so when it is stated that the occasion marked the celebration of the silver wedding anniversary of Mr. and Mrs Kruger.

Being assembled, and with hearts overflowing with kindly sentiment, the guests one and all, as little souvenirs of the occasion were exchanged, wished their entertainers yet many years of connubial bliss, and in these good wishes the ADVANCE desires to join, and being granted such request, would add the hope, that the space of time which must span the period between a silver and golden wedding anniversary will be for Mr. and Mrs. Kruger, filled with every happiness experienced by those who, hand-in-hand, travel the path of life.

HEAD OFFICE, GREENWOOD CITY, B. C.

Capitalization $1,500,000, in $1 Shares, Treasury Stock 700,000 Shares.

COMPANY'S PROPERTIES.

The Company's mining properties now consist of fourteen claims, viz, the D. A., G. A. R., Big Ledge, O B, S. H. B., Fred D., S. F., J. A. C., P. H., C. S. & H., E. C. B, Prospective, Spokane and Granite Falls.

SIX OF THESE HAVING BEEN ACQUIRED SINCE INCORPORATION

OFFICERS OF COMPANY:

- - - - PRESIDENT
D. A. HOLBROOK - - - - MANAGER
E. JACOBS - - - - SECRETARY-TREASURER

BANKERS

BANK OF MONTREAL, VERNON, B. C.

DESCRIPTION.

On the "D. A." is a vein about 20 inches wide, with a pay-streak of 4 to 12 inches; from this 8,653 lbs. of ore was shipped to the smelter, giving $103.15 gold per ton, silver 74 7-10 ozs., and 2 per cent. lead. A tunnel is being driven on this vein from which ore is being taken. On the same property is a larger vein (quartz) carrying galena and pyrites.

The "G. A. R." has a 30-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silverglance. The finest pieces of wire silver found on Boundary Creek were taken from this shaft. Average assays from different places across the vein gave $8.00 gold, 50 ozs. silver; also $8.00 gold and 150 ozs. silver and one, the latest return—$15.05 gold and 196 4-5 ozs. silver per ton.

On the "Big Ledge" is a 10-foot quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and *runs into the main ledge as a spur, on* which a tunnel of 40 feet has been driven. Average assays gave $33 gold and 1 1-10 ozs. silver, and $49.35 gold 17½ ozs. silver, 2 per cent. copper

The "S. F." lies between the G. A. R. and D. A., in the direction of the strike on the G. A. R. vein. This location has been made on a vein of pyrrhotite.

The "O. B." has two distinct veins one 25 feet wide which, from its strike and general character would seem to be the same vein as that on the Big Ledge, although sufficient has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from $4.00 to $170.53, while a conservative sampling by Mr. S. S. Fowler, M. E. gave $20.00 in gold.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay gave, gold $1.50, silver 16⅔ ozs., copper 11.96 per cent., or $40.44 for all values.

The "Fred D." was located in December, 1895, more as ground for a basis for mining operations for the *other claims* than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet. The ore carries a considerable percentage of of copper and $10 in gold.

The remaining six claims are all good prospects, but as yet very little development work has been done on them.

This company is registered under the Companies Act, 1890, and amending acts, in the office of the Registrar in Victoria, B. C., for 1,500,000 shares at $1.00, non- assessable, of which a portion of the Treasury stock is now offered at 10 cents a share on application to the company.

MINERAL ACT 1896.

Certificate of Improvements.

NOTICE

THE AUGUST MINERAL CLAIM.

Situate in Osoyoos Mining Division, of Yale District. Where Located:—Camp Fairview.

TAKE NOTICE that we, *H. Rose, free miner's certificate No. 70,111, John Stevens, free miner's certificate No. 59a, John A. Coryell, free miner certificate No. 1412a, J. P. Burnyeat free miner's certificate No. 96,975, intend sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim by their agent John Stevens.*

And further take notice that action under section 37 must be commenced before the issuance of such Certificate of Improvements.

Dated this 1st day of August, 1898.

(ALL OTHER VARIETIES CHEAP.)

McMullen's are the only good nettings sold in Canada. They are unequalled for poultry yards, trellises, and lawn fences.

Ask your hardware merchant for McMullen's goods. If you cannot buy of him write to { The Manufacturers at Picton, Ont., or to The B. Greening Wire Co., Ltd., Hamilton and Montreal, General Agents.

JAMES COOPER, Montreal, General Agent for Railway Fencing.
