Getting Near The Truth.

A good deal of comment has been indulged in on the question as to whether Mr. Joseph Martin favored annexation. The Toronto Telegram referring to the question puts the matter in this light:

At a time when Manitoba was groaning under Sir John A. Macdonald's attempt to maintain the C. P. R. monopoly in that province, Joseph Martin, then Attorney-General in the Greenway Government, declared in private conversation that if his people did not get justice they would all become annexationists.

These rash words were not part of a public utterance. Such words might have better been left unsaid, but so might lots of words that embellish private conversations. The tyranny which inspired the angry exclamation was abandoned, and Mr. Martin's words might well have been forgotton.

In private Mr. Martin prophesied that a certain cause would produce a certain effect, and in public Sir John Abbott and other Conservate leaders signed an annexation manifesto. There is no great wealth of party capital to be gained by the continual and diligent misuse of Joseph Martin's private suggestions that tyranny and monopoly might make annexationists of the loyal citizens of Manitoba.

Terms of Capitulation.

The terms upon which Spain surrendered the province of Santiago in Cuba to the United States are as follows, the articles nine in number having been agreed to by the six commissioners appointed, three on each side, to represent the two countries. Before General Toral, however, would consent to abide by the terms of capitulation the necessary sanction was received by him direct from Madrid.

The articles declare:

"First—That all hostilities shall cease pending the agreement of final capitulation.

"Second—That the capitulation includes all the Spanish forces and the surrender of all war material within the prescribed limits.

"Third—The transportation of troops to Spain at the earliest possible moment, each force to be embarked at the nearest port.

"Fourth—That the Spanish officers shall retain their side arms, and the enlisted men their personal property.

"Fifth—That after the final capitulation the Spanish forces shall assist in the removal of all obstructions to navigation in Santiago harbor.

"Sixth—That after the final capitulation the commanding officer shall furnish a complete inventory of all arms and munitions of war, and a roster of all the soldiers in the district.

"Seventh—That the Spanish general shall be permitted to take the military archives and the records with him.

"Eighth—That all guerillas and Spanish irregulars shall be permitted to remain in Cuba, if they so elect, giving a parole that they will not take up arms against the United States unless properly released from parole.

"Ninth—That the Spanish forces shall be permitted to march out with all the honor of war, depositing their arms to be disposed of by the United States in the future, the American commissioners to recommend to their government that the arms of the soldiers be returned to those who bravely defended them."

Colors And How Produced.

For the benefit of those who at sometime may be called upon to select a color for the painting of a house or something else, and who have no knowledge of how the different shades may be produced by the blending of colors, the following is given. To produce

Brown—Blend Red and Black together
Bright Brown—Carmine, Yellow and Black
Rose—Lake and White
Chestnut—White and Brown
Purple—Carmine and Blue
Lead Color—White and Black
Pearl—Blue and Lead Color
Pink—White and Carmine
French White—Purple and White
Green—Blue and Yellow
Pea Green—Green and White
Dark Green—Green and Black
Bronze Green—Bronze Blue and Yellow
Orange—Red and Yellow
Flesh Color—White Lake and Vermillion
Olive—Red, Blue, Black and Yellow
Buff—Yellow, White and Red
Vermillion—Carmine and Yellow
Lavender—Carmine, Ultramarine and White
Sky Blue—White and Ultramarine
Umber—White, Yellow, Red and Black
Use White to produce Light Tints and Black to produce Dark.

It is Confirmed.

The report that the Spokane Falls and Northern railway has passed under other control, has been confirmed, the authority being none other than President Mellon of the Northern Pacific who said that the road had not been purchased by his company but by the Great Northern, and that J. Pierpont Morgan & Co., acted as agents for Mr. J. J. Hill, in the matter of the purchase.

EDITORIAL NOTES.

With the Hawaiian islands, the Phillipine islands, Cuba and Porto Rico the United States will have so much to look after that she will abandon her old time recreation of twisting the lion's tail.

Germany is very much inclined to thrust her fingers into the Phillipine pie, but evidently she is playing a chary game for she does not feel at all certain how England would regard her interference with the United States plans and operations.

With England favorable to the policy of the United States the power of Germany would be very much more than neutralized, should she endeavour to prevent the Phillipines being taken possession of by the former power. That England will favor the United States holding the islands cannot be doubted, for such a course would be entirely in accord with Englands desire to see the United States in possession of colonial dependencies, for with such the Republic would become more vulnerable, and therefore more in need of a powerful ally, whose interests are becoming daily more and more indentified with her own.

We are given to understand that the Superintendent of Roads for this district has at his command several thousand dollars, which was voted to defray the cost of any work necessary to be done, other than that for which special appropriations were made as shown by the estimates passed by the legislature. If such is case we would suggest that some of the money could be spent to advantage upon the improvement of the road which runs up the main Kettle river above Rock Creek, and furnishes only a very rough and imperfect communication to the several mining camps which, the more the properties in them are prospected, show themselves worthy of the enchanced attention now being given them by the great number of prospectors and investors who are constantly and in increasing numbers pushing their way, over many obstacles, into that very promising region which surrounds and is tributary to the west fork of Kettle river. For just such work as this and the improvement of the road between Rock Creek and the Anarchist mountain settlement, we suppose the money was appropriated, and as these roads are badly in need of improvement it is to be hoped some attention will be paid to them as soon as possible.

Klondike Gold.

It is estimated that as much as $6,000,000 was brought down on the steamer St. Paul which a few days ago arrived at San Francisco from St. Michael in Alaska. Among the passengers on the St. Paul were many returning miners and the consensus of opinion among them was to the effect that is is useless for men to go to the Klondyke region now expecting to stake out claims, for the simple reason that all the ground has been located. The only way to secure a claim now on any of the principal streams in the immediate Klondyke region is by purchase.

In Conference.

In accordance with an invitation from Mr. C. A. Semlin, the Leader of the party, the newly elected members, the defeated candidates and delegations from the election committees in both the Island and Mainland constituences met in Vancouver on the 20th, to confer on matters connected with the interests of the party. All the members elected by the Opposition to the Legislature were present except Messrs. Green, Macpherson and Kinchant, who were unavoidably absent.

The gathering was one of the most harmonius ever held by members of the Opposition party, and useless is it to say that much business of great moment to the party was transacted.

OUR OTTAWA LETTER.

Ottawa, July 15th, 1898.

THE MAN FROM PILE O'BONES.—I notice that Mr. Nicholas Flood Davin is home again from the east and has been favoring the Maple Leaf Conservative Club of Winnipeg with his views on the political situation. According to the press reports he made the usual reckless charges of corruption and extravagance but failed to tell of the long weary sessions of the Public Accounts Committee when every possible item was scrutinized by the Opposition, witnesses brought from far and near, and investigation had into the expenditure of every department, but without discovering the slightest evidence of corruption or miss-use of public money. There was nothing particularly new in his rehash of the history of the Yukon Railway Bill, not even the mis-statement that an attempt was made to bribe the Members (by the offer of a double sessional indemnity), into passing a Relief measure. This lie originated in the local Conservative paper here but it remained for Mr. Davin to give it a semblance of respectability by making it his own.

His cheap challenge to the Government to appeal to the country against the Senate will be taken for what it is worth by the intelligent politicans of Manitoba.

AN UNWORTHY REFERENCE.—The choice epithets applied by Mr. Davin to the Members of the Government may be passed over, for they carry no weight with intelligent electors.

Proceeding, without his ability to produce proof, Mr. Davin sought to take advantage of the popular sentiment and very proper indignation aroused by the Crow's Nest Railway scandal to misrepresent the facts in that lamentable affair. He talks about the failure of the Government to bring the guilty parties to justice, declaring that "the Departments are steeped in inefficiency," though he knew full well that from the moment the allegations of wrong doing on the part of the Contractors reached the Government steps were taken to investigate, that one Commission had already reported fully thereon and no exception has been taken to the throughness of its work, and that as a result, one of the most eminent criminal lawyers in Canada has been charged to complete the investigation on the spot. The Premier himself, the Minister of Interior, the Minister of Justice, and the Government as a body are publicly pledged, individually and collectively to sift this matter to the bottom and bring the offenders, be they whom they may to justice. Mr. Davin knew all this, and it is therefore not easy to find words with which to characterize the deliberate attempt of a public man to play upon the sympathies and credulity of his audience in the matter, the very nature of which should have removed it from the questionable influence of the political arena.

Perchance some apology is due for occupying so much space with the utterance of this gentleman, possibly his thetorical effusions carry no more weight in his adopted Province than they do down here but as there is, unfortunately, considerable likelihood that this is not the last time he will offend, it may be that a useful purpose will be served by giving this much attention to his observations.

MR. OGLIVIE'S APPOINTMENT.—The appointment of William Ogilvie in succession to Major Walsh as head of the Yukon administration has been received with an unbroken chorus of approval throughout the country. Some there are who endeavor to minimize the effect of so excellent a selection by impugning the motives of the Government and declaring that the appointment was forced by the alleged wrong-doings of subordinate officials. As it happens, Mr. Oglivie was chosen some time before any of these stories were put into circulation, and how much or how little weight they have had with the Government may be judged from the fact that prominent among the new administrator's advisors is one man at least who was signalled out for attack by the inventors of the aforesaid stories. This reorganization has evidently been conducted on exactly the same principles as all previous acts of the Government in the same connection, namely, the selection of the best available men for the work to be entrusted to them.

BRITISH COLUMBIA IN LINE.—The result of the local elections in British Columbia has made it unanimous; for the first time since Confederation, the entire country from ocean to ocean is in the hands of the followers of sound, economic, progressive government. While old line politics are not closely followed in the Pacific Province, still the men who will now be entrusted with the guidance of its affairs may be relied upon to follow more closely than did their predecessors the inherent principles of present day Liberalism. The future looks very bright for British Columbia and in the hands of her new governors she may be relied upon to make even greater advances in the next five years than she has in the past.

The official announcement by the Duke of Norfolk, the Imperial Postmaster General, that the proposal of the Dominion Government to reduce Imperial postage to a penny re one half ounce has been adopted will be hailed with satisfaction by all Canadians irrespective of party. It will now be in order for Mr. Foster and his followers to apologize to Postmaster General Mulock for their unseemingly ridicule, and to admit after all he knew what he was about when he undertook to obtain this boon for the Empire.

NOTES.—The action of the Government in notifying the C. P. R., that they will be held responsible for the payment of all just claims for wages by workmen on the Crow's Nest Railway, and that the amount of such claims will be withheld out of the subsidy until the claimants are satisfied is further evidence that justice will be done, and the wrongs of the injured men redressed.

Once again has nature been prodigal in her benefits, and unless exceptionally unfavorable conditions arise durthe next few weeks, the crops, not only, through the great prairie stretches, but in the older Provinces of Ontario and Quebec, will equal, if they do not exceed, the harvest of any former year. No wonder that Canadians believe in their country with such present conditions and future prospects.

Pushing The Work Along.

The Trail Creek News says the construction of the Columbian & Western railway from Robson to Midway is well under way. The completion of the tote road to Cascade City, over which supplies will be hauled, is the only hindrance. When that is finished the force of men will be increased until it numbers 3,000 or more. At present the principal operations center around Brooklyn and on the right of way between Brooklyn and Robson. Camps innumerable have been erected, and the grade is plainly discerned along the banks of the winding Columbia.

Chinese no Likee.

Before the Full Court, with Justice Walkem, McColl and Irving present, a few days ago the appeal in the case of Bryden v the Union Colliery Company was presented. The appeal was taken from the judgement of Mr. Justice Drake, but was not sustained, the Full Court concurring in Justice Drakes decision and thereby establishing the constitutionality of the Coal Mines Regulation Act., or that portion of it which prohibits the employment of Chinese underground. The company is given leave to appeal to the privy council, and it is quite likely this will be done, as the case is really a test one.

Imperial Penny Postage.

A timely illustration of the present English feeling towards America is to be found in the suggestion that the Imperial penny postage just secured should be extended to include the States, so that a half-ounce letter might pass from any one part of Anglo-Saxony to any other for 2 cents. Though so quietly accomplished this Imperial penny postage scheme will probably live in history as one of Mr. Chamberlain's great achievements in Imperial politics. For a dozen or more years this scheme of common postage with the Empire has been agitated in vain, both here and in the colonies. Permanent officialdom, the treasury and post office, opposed the change and permanent officialdom is generally powerful enough to kill anything in England. There is indeed only one living man who can coerce permanent officialdom and that man is Mr. Chamberlain, and Canada, having given the necessary lead in this postage matter recently in the matter of the German and Belgian treaties, he has accomplished this aim. The officials carried their opposition to incredible lengths. One day their attitude in the Imperial conference which has been in session was almost mutinous but he stood his ground and in a few weeks the Queen's penny will take the place of the present two pence half-penny, and carry a half-ounce to or from any part of the Union, Canada, Newfoundland, Cape Colony, Nata and the Crown colonies. The Australasian colonies pleaded the financial reason against a penny rate to England but on the first of January a penny outward rate to Australasia will be established, leaving each colony to take its own course regarding the homeward rate.

What an Aggregation.

During the past month we have found out by carefully reading the papers that this Province was full of pirates, thieves, sand-baggers, road agents, horse thieves and liars. Most of them were running for the legislature, and their desperate character was now known until the campaign commenced.—The Ledger.

Contract Let.

The contract for the widening of the Columbia and Western to a standard gauge between Rossland and Trail was secured by the firm of Winters, Parsons & Boomer, the figure being $70,000. Together with the cost of furnishing and laying new rails the sum to be expended by the C. P. R. on this improvement to their railway system will approximate $125,000. The contract just let calls for the completion of the work by the middle of October, so there is not much time to lose.

Election Comments.

The Province says it is in a position to announce definitely that the election of Messrs. Turner, Helmcken, Hall and McPhillips in Victoria; Dunsmuir in Comox; Eberts in North Victoria; Pooley and Bullen in Esquimalt (providing a recount before the judge does not result in the return of the opposition candidates); and Booth in North Victoria is to be protested. In all these constituencies the most scandalous bribery was practiced and there is little doubt that the protests that have been decided upon will result in the unseating and perhaps the disqualification of more than one of the government supporters.

THE ISLAND WORK.

If the Island had only done its duty half as well as the Mainland did, it would have been all right. But perhaps it was too much to expect the Island to help turn the government out, seeing that money was simply poured all over it and every influence of the government brought to bear on the people. But the Island vote will never again be a dominating factor in British Columbia elections. When the new Redistribution Bill is passed the Island will find that one vote on the Island is no better than one on the Mainland.

HOW IT WILL BE.

When the smoke of battle clears away the government forces will consist of a corporal's guard and a reputation for dishonesty that stinks in the nostrils of mankind.

There need be no misunderstanding about the situation. J. H. Turner will never again be premier of British Columbia. He had his chance and he threw it away by allowing himself to be made the tool and plaything of almost every corrupt influence known to practical politics. He and his supporters were not elected in Victoria because they are model men or have given the people good government, but because of purely local interests including the selfish fear of loss on the part of those who gather up the crumbs which fall from the government's table.—Province.

Midway to Central Camp.

Several attemps have recently been made by the miners, ranchers and others interested, to organize and unite upon a plan for the construction of a good wagon road between Midway and Central Camp, but so far no active steps have been taken to carry the project into execution. That a road between the two points indicated is badly needed everyone can easily realize, for at present much of the trade that would find its way to Midway were there an easy means of communication between the camp and the town now goes across to the other side of the line, to the detriment of the trades people to whom it should come. Not only would the miners of Central camp be glad to have such a road built and would no doubt contribute liberally toward its construction, but as well the several ranchers that would be benefited would gladly lend support for to them it would mean an easy access to two markets. Then again the road if built to Central camp would undoubtedly be pushed on to Fourth of July creek, sooner or later, and if so an alternative route over Boundary mountain would be furnished, a route too that would commend itself to the travelling public desirious of making quick connection between points on the Kettle river to the east and west of Boundary mountain. In a direct line it is understood the distance between Carson and Midway is only eleven miles, but whereas the road would of necessity be somewhat circuitous, that distance would be extended, but not so much but that several miles would still be left to the credit of the new route. As this work is really one of necessity, those more directly interested should take hold of the project of bringing the matter to the attention of the authorities, and by rendering what assistance they can themselves, ensure its early initiation and completion.

MINERAL ACT, 1896.

Certificate of Improvements.

NOTICE.

BROOKLYN MINERAL CLAIM.

Situate in Kettle River Mining Division of Yale District, located in Greenwood Camp.

TAKE NOTICE that I, John P. McLeod as agent for W. T. Smith, free miner's certificate No. 89812, J. M. Taylor, free miner's certificate No. 89918, and E. J. Roberts, free miner's certificate No. 76573, intend, sixty days from date hereof, to apply to the Mining Recorder for a certificate of improvement, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 4th day of March 1898.

J. W. NELSON - - - PROPRIETOR

LOCAL AND DISTRICT.

Captain Adams, President of the Midway Company, is at present in the Slocan country, having arrived a few days ago at Sandon.

Mr. L. Bosstell passed through town on Saturday, bound to the west fork of Kettle rive county, where he will spend some time prospecting.

Constable Elkins of Fairview was a visitor in town during the past week, and after attending some officials duties returned home on Saturday.

Mr. J. H. W. Wood, of Armstrong, came down on Tuesday last and on Saturday proceeded up the main Kettle river in company with Mr. C. L. Thomet of this place.

Mr. Barnard Lequime of Kelowna, together with his wife and family is paying a visit to this part of the district. Mr. Lequime is interested in the saw milling business here.

The first peaches of the season made their appearance in town the past week the same having been brought in by Mr. Nash from the Okanogan, on the south side of the boundary line.

Miss Irene Haynes, returned from Montreal a few days ago, after having spent a collegiate term of many months there. For some time to come Miss Haynes will reside with her sister Mrs. Lumbly, at Osoyoos.

On lots 10 and 11 Sixth street, the foundation for a new building is being laid which will be of good size and two storeys. The party making this latest improvement to Midway is Mr. Harry Noble, who intends to start business here.

Under the supervision of Constable Gardom a nice fence is being built, which when finished will enclose the grounds upon which the Government buildings stand here, and which was donated to the government by the Midway Company.

A two storey building is in course of erection on Fifth street to the east of McNicol's store. Mr. J. A. Unsworth will move into the basement with his stock of drugs, etc., and the balance of the building will be fitted up for office purposes, which Mr. Forbes M. Kerby will occupy.

Mr. Glaze one of our local contractors, returned a day or two ago from the Kootenay. During his visit to Kootenay Mr. Glaze visited Ymir, with the object of looking over the ground, preperatory to making a bid upon an important piece of work which is to be constructed in the neighborhood. It is understood he has since secured the contract.

Mr. Austin Hammers an old time Boundary Creek miner and prospector and part owner of the Big Copper in Copper camp, paid a visit to Midway on Friday last. Mr. Hammer came in from Curlew on the Colville reservation, at which point he has for some time past, been developing some properties in which he is interested. Referring to the possibility of early railway construction on the Colville reservation, Mr. Hammer said he believed that the near future would see a road built up the San Poil, from the Washington Central, which road would not only give railway facilities to Republic camp but as well would in all probability be continued as far as the boundary line at Midway and there brought into touch with Boundary Creek. Trial surveys for this road are now being made by parties of surveyors who are in the field, and actively engaged thereon.

MINING NOTES.

Messrs. Meyer, Stuart, McLean and Bergman are buisy at work on the Hecla claim in Wellington Camp They are sinking a prospecting shaft, expecting to strike a big vein of ore which runs through the claim, heading from the famous Winnipeg property. At present the shaft is down about 20 feet.

A splendid body of ore was recently uncovered in the Crown Point claim, in Crown Point camp which is just west of Rock Creek on the main Kettle river. The Crown Point is owned by Mr. John Douglas and associates, and is looked upon as one of the most promising properties in the district.

Some rich strikes are being made up the main Kettle river, as evidenced by the fine samples of outcroppings, exhibited by some of the prospectors who have been fortunate enough to locate claims in that region.

Mr. A. Sanderson recently struck the main ledge of the Athelstan, in his claim the Jack Pot, which is situated in Wellington Camp.

The tunnel which is designed to crosscut the vein on the City of Paris in Central Camp, at a depth of 275 feet, is now in about 200 feet. About a dozen men are working on the property, which number will be increased as soon as the 10 drill compressor plant, which is to be purchased at once; is installed.

Committed Suicide.

On Saturday morning last Martin Tonasket, an Indian Chief, who resided on the Colville Reservation, committed suicide by placing a rifle under his chin and by discharging it, literally blowing his head to pieces.

An Inquest Held.

With Dr. Jakes, Corner for this district, presiding, an inquest was held on Monday last, on the body of Hugh Thomas, who was killed a few days previously while working in the Snowshow mine, in Greenwood Camp. All the evidence having been submitted the jury returned a verdict of accidental death.

Truth Condensed.

The Toronto Telegram discussing the political outlook in the province at the present time, squeezes into a nut shell a pyramid of truth when it says:

British Columbia is to be congratulated on its heroic effort to defeat the Turner Government.

The returns so far show that the Opposition is ahead, and the chances are that later figures will increase its advantage.

The position of the Government is worse than it looks, because its slight inferiority to the Opposition in the number of supporters in the Legislature is representative of a still greater inferiority in the number of supporters in the province.

The Turner Government arranged the constituencies to suit itself, and if the Opposition has even a slight lead in the Legislature it must have a large majority of the popular vote. Unless the later returns are all against the Opposition, the Turner Government is doomed. At best, it is a Ministry of mediocrities. The Opposition has a half-dozen men who are easily the peers of Hon. J. H. Turner or any of his colleagues, and in the Hon. Joseph Martin, Mr. Turner has to deal with an able strategist whose experience has taught him skill in the art of smashing hostile goverament.

FAIRVIEW NOTES.

(From our own correspondent.)

Mr G. H. Maurer, managing director of the Smuggler Gold Mining Co., is expected in on the next stage, he will be accompanied by the mill contractor and it is hoped that the long delays in mill construction will find an end in a few days and that a new policy of vigorous developement and construction will supplant the old system of promises. The mine looks well and seems only to need developement to prove a first class divide d payer.

Work on the Stemwinder progresses steadily and the ore seems to be improving in value as the work goes on.

The Morning Star is being worked again and the ore is hauled to the Joe Dandy mill. The cost of milling and hauling is $4.50 so that the work should pay even if it does not go more than $6 50 per ton and the ore is supposed to double that amount in value.

The new Government buildings are going ahead in good style.

BOUNDARY CREEK MINING AND MILLING COMPANY, LTD. LY.

Incorporated October 21st, 1896.

HEAD OFFICE, GREENWOOD CITY, B. C.

Capitalization $1,500,000, in $1 Shares, Treasury Stock 700,000 Shares.

COMPANY'S PROPERTIES.

The Company's mining properties now consist of fourteen claims, viz, the D. A., G. A. R., Big Ledge, O B, S. H. B., Fred D., S. F., J. A. C., P. H., C. S. & H., E. C. B, Prospective, Spokane and Granite Falls.

SIX OF THESE HAVING BEEN ACQUIRED SINCE INCORPORATION

OFFICERS OF COMPANY:

- - - - PRESIDENT
D. A. HOLBROOK - - - - - - MANAGER
E. JACOBS - - - - SECRETARY-TREASURER

BANKERS:

BANK OF MONTREAL - - VERNON, B. C.

DESCRIPTION.

On the "D. A." is a vein about 20 inches wide, with a pay-streak of 4 to 12 inches; from this 8,653 lbs. of ore was shipped to the smelter, giving $103.15 gold per ton, silver 74 7-10 ozs., and 2 per cent. lead. A tunnel is being driven on this vein from which ore is being taken. On the same property is a larger vein (quartz) carrying galena and pyrites.

The "G. A. R." has a 30-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silvergiance. The finest pieces of wire silver found on Boundary Creek were taken from this shaft. Average assays from different places across the vein gave $8.00 gold, 50 ozs. silver; also $8.00 gold and 150 ozs. silver and one, the latest return—$15.05 gold and 196 4-5 ozs. silver per ton.

On the "Big Ledge" is a 10-foot quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and runs into the main ledge as a spur, on which a tunnel of 40 feet has been driven. Average assays gave $33 gold and 11-10 ozs. silver, and $49.55 gold 17½ ozs. silver, 2 per cent. copper

The "S. F." lies between the G. A. R and D. A., in the direction of the strike on the G. A. R. vein. This location has been made on a vein of pyrrhotite.

The "O. B." has two distinct veins; one 25 feet wide which, from its strike and general character would seem to be the same vein as that on the Big Ledge, although sufficient has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from $4.00 to $170.53, while a conservative sampling by Mr. S. S. Fowler, M. E. gave $20.00 in gold.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay gave, gold $1.50, silver 16½ ozs., copper 11.96 per cent., or $40.44 for all values.

The "Fred D." was located in December, 1895, more as ground for a basis for mining operations for the other claims than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet. The ore carries a considerable percentage of of copper and $10 in gold.

The remaining six claims are all good prospects, but as yet very little development work has been done on them.

This company is registered under the Companies Act, 1890, and amending acts, in the office of the Registrar in Victoria, B. C., for 1,500,000 shares at $1.00, non- assessable, of which a portion of the Treasury stock is now offered at 10 cents a share on application to the company.
