Avenging Gordon's Death

Account of the great struggle in the Soudan.

After a fearful battle in the open, in which thousands of Dervishes were slain, the Anglo-Egyptain forces march on to Omdurman and Khartoum.

From Omdurman, which is situated on the banks of the Nile opposite Khartoum, a dispatch was sent on Sept. 2, giving a detailed account of the fearful struggle which took place that day between the Anglo-Egyptain forces and the Dervishes under the Khalifa. The despatch says:

The sirdar, General Herbert Kitchener, with the khalifa black standard captured during the battle, entered Omdurman, the capital of Mahdiam, at 4 o'clock this afternoon at the head of the Anglo-Egyptian column, after completely rouitng the Dervishes and dealing a death blow to Mahdiam.

Roughly, our losses were 200, while thousands of the Dervishes were killed and wounded. Last night the Anglo-Egyptain army encamped at Agaiza, eight miles from Omdurman. The Dervishes was three miles distant At dawn the cavalry patrolling toward Omdurman discovered the enemy advancing to the attack in battle array, chanting war songs. Their front consisted of infantry and cavalry, stretched out for three or four miles. Countless banners fluttered over their masses and their copper and brass drums resounded through the ranks of the savage warriors who advanced unswervingly with all their old time ardor. Our infantry formed outside the camp. On the left were the First battalion of Northumberland fusileers, the Second battalion Lancashire fusileers and the First battalion grenadier guards with the Maxim battery, manned by the Royal Irish fusileers. In the center were the First battalion Warwickshire. First battalion Cameron Highlanders and the First battalion Lincolnshire regiment, with Maxims worked by a detachment of the royal artillery under Major Williams. On our right were the Soudanese brigades, commanded by general Maxwell and General McDonald. The Egyptian brigades held the reserves and both flanks were supported by Maxim-Nordenfeld batteries.

At 7:20 a. m. the enemy crowded the ridges above the camp and advanced steadily in enveloping formation.

At 7:40 our artillery opened fire which was answered by the Dervish riflemen. Their attack developed on our left and in accordance with their traditional tactics they swept down the hillside with the design of rushing our flank. But the withering fire maintained for 15 minutes by all our lines frustrated the attempt and the Dervishes, balked, swept toward our center, upon which they concentrated a fierce attack.

A large force of horsemen, trying to face a continuous hail of bullets from the Cameron Highlanders, the Lincolnshire regiment and the Soudanese; was literally swept away, leading to the withdrawal of the entire body, whose dead strewed the field.

The bravery of the Dervishes can hardly be overstated. Those who carried the flags struggled within a hundred yards of our fighting line. When the Dervishes withdrew behind the ridge in front of their camp the whole force marched in echelon battalions toward Omdurman.

When our troops surmounted the crests, the Soudanese on the right came to attack those who had reformed under the rocky eminence and had massed around the black standard of the khalifa in order to make a supreme effort to retrieve the fortunes of the day. A mass 15,000 strong bore down on the Soudanese. General Kitchener swung round the centre and left the Soudanese and seized the rocky eminence and the Egyptains, hitherto in reserve, joining the firing line, in 10 minutes and before the Dervishes could drive their attack home, the flower of the khalifa's army was caught in a depression and within a zone of withering crossfire from three brigades, with the attendant artillery. The devoted mahdists strove heroically to make headway, but every rush was stopped, while their main body was literally mown down by a sustained deadly cross-fire.

Defiantly the Dervishes planted their standards and died beside them. Their dense masses gradually melted to companies and the companies to driblets beneath the leaden hail. Finally they broke and fled, leaving the field white with the jibbah-clad corpses, which like a snowdrift dotted the spot.

At 11:15 the sirdar ordered an advance and our whole force in line drove the scattered remnant of the foe into the desert, our cavalry cutting off their retreat to Omdurman.

Among the chief incidents of the battle was a brillant charge by the Twenty-first lancers, under Lieutenant Colonel Martin. Galloping down on a detached body of the enemy they found the Dervish swordsmen massed behind and were forced to charge home against great odds. The lancers charged through and kept the Dervish horde at bay. Lieutenant Grenfelt, nephew of Sir Francis Grenfelt, was killed, four other officers were wounded, 21 men were killed and 20 wounded.

The Egyptian cavalry were in close fighting throughout with the Baggara horsemen. For a short period the enemy captured and held the gun but it was brilliantly retaken.

The heroic bravery of the Dervishes evoked universal admiration. Time after time their dispersed and broken forces reformed and hurled themselves upon the Anglo-Egyptains, their emirs conspicuously leading and spurning death. Even when wounded and in death agonies they raised themselves to fire a last shot.

A Nice State of Affairs.

It is about time the city council began doing business on business principles. At present the city clerk seems to be the whole show and is apparently running things to suit himself. He writes up the minutes of the meetings and the council approves them without question, while as a matter of fact it is no uncommon thing to see, either through the clerk's carelessness or some other reason, these records of the proceedings so twisted that an outsider would not recognize them. The MINER is in a position to show that things have been recorded as having passed the council which, although discussed and very favorably considered were never even brought before the council, while in other cases matters which were legally passed have been entirly omitted from the records. This is the council's fault just as much as the clerk's for it is an actual fact that less than one-half the business transacted by the council is legal. Many motions are passed without being seconded, more are made, seconded and declared passed without being voted upon; the favorite method of all is to discuss a matter about three times as long as necessary, and then the mayor will say, "Yes, I guess we'd better do that," and down it goes in the minutes as having passed the council. There is no excuse for such slip-shod methods. The municipal act sets fourth rules for the legal transaction of council business. Until these rules are followed and every motion reduced to writing before being brought before the council the city will never be able to have a reliable record of its proceedings. The $4,000 signment matter which made so much trouble for the city recently should have been a severe enough lesson to make the council more careful in the future.—Grand Forks Miner.

Boundry Creek Exhibit.

The specimens of Boundary Creek ore, taken to Spokane last year and there placed on exhibition at the Fruit Fair, have been removed to Omaha and are now in position in the mineral section of the great Trans-Mississippi and International Exposition. The exhibit is under the care of Mr. L. K. Armstrong one of the Washington State Mineral Commissioners, and Secretary of the same, and he in a recent communication which is given hereundee says as follows:

Omaha, Neb., August 31st, 1898.
To the Editor of the ADVANCE,
Midway, B. C.

Kindly announce through the columns of your valuable paper that space has been secured and we have on exhibit here, next to the Washington exhibit, such ores as were on exhibit at the Spokane Fruit Fair last autumn and beg that you urge the property owners to keep me advised of new strikes and development that I may more intelligently explain to visitors the latest mineral development of your region.

Yours very respectfully,
L. K. ARMSTRONG,
Mining Building Exposition, Omaha, Neb.

EDITORIAL NOTES.

Mine owners and managers would do well to act on the suggestion contained within a letter published in another column of this issue, and send to Mr. Armstrong who is in charge of the mineral exhibit at Omaha, all the information possible.

At the last meeting of the provincial Legislature provision was made for the creation of a separate government agency for the southern portion of the Yale district, the agency to be known as the Osoyoos—Kettle River agency. Although as stated provision was made for this, yet as far as we are aware, nothing further has been done in the matter, and the business of the district is being transacted through the Vernon office. As the revenue of the Osoyoos—Kettle River district is almost equal to that of the Okanogan district, even without taking into consideration the sums of money derived from the sale of land, it will be seen that a necessity exists for the equipment of the Osoyoos—Kettle River agency, so that the public may be convenienced, by being brought more closely into touch with local government officials.

As disclosed by the remarks of the Grand Forks Miner which may be seen in another column, municipal affairs are being administered in an execerable manner by the Grand Forks city council, in fact it would seem that matters have reached such a stage that it is unquestionably the duty of the government to look into the matter. There is all the more reason for the government to do so, seeing that in the first instance the incorporation of the place was brought about largely by the interest some of the members of the late government had in the townsite company, who it is hardly too much to say deliberately misled the house when the question of granting a municipal franchize was under discussion. So far astray were members of the legislature led, that although the town was incorporated under a special act, and not under the regular act governing the formation of municipalities within the province, it was soon seen that conditions of the special act could not be complied with, and fresh legislation had to be enacted to give to the franchize a new lease of life. This having been done, it was only reasonable to suppose that the citizens would endeavour to carry on municipal affairs in an orderly and business like manner, but even this they do not seem able to do, and such being the case, as we have said before, the government should give the matter their earnest attention.

The Nelson Tribune Says:

The Colonist suggests that a royal commission be appointed for the purpose of ascertaining what the sons of lieutenant governor McInnes said to ex-premier Turner and what the ex-premier said to the sons."

We would suggest that the people of British Columbia are not so much interested in what the sons said, as what the father did. He removed from his position a man who stood in the way of the progress and prosperity of the province, and the people are glad of it. That should be sufficent to satisfy anyone, and no doubt does, with the exception of those who feathered their nest at the expense of the balance of the people of British Columbia.

Li Hung Chang.

The great Chinese statesman Li Hung Chang has been dismissed from power. It was done in accordance with the demand which the British minister Sir Claud McDonald made on account of the partiality of the great Chinaman in Russia, culminating in Great Britain being deprived of the contract for the Peking-Hankow railroad by giving the Russo-Chinese bank financial control of the road.

OUR OTTAWA LETTER.

Ottawa, Sept. 3rd, 1898.

JOURNALISTIC IMAGINATION.-The deliberate attempts in certain quarters to prejudice the people towards the proceedings of the Quebec Conference, which were briefly referred to in these letters last week, have continued unabated, and every variety of foolish rumor that the ingenuity of man can devise, have been scattered over the face of the earth. Of course the journals that have sent their representatives to the Ancient Capital, and are keeping them there at some expense, expect a return for the outlay, in the form of a good readable copy, but this introduction of a species of "yellow" journalism into Canada should not be encouraged. As a matter of fact the Commissioners have very properly decided to maintain the most absolute secrecy, at least in these initial stages: and it may safely be taken for granted, therefore, that all statements as to decisions arrived at, and views expressed, at the Conference board are guess work on the part of imaginative correspondents and as such are worth much or little according to the reader's fancy.

THE CANADIAN BISLEY.—The inaugural shoot on the new Dominion ranges at Rockcliffe has been the event of the week in military and social circles here, and it is satisfactory to learn that, from Lt. Col. Hutton the new general officer Commanding, down to the youngest competitor, everyone has expressed unqualified approval of the site and all the details of arrangements. The selection of a suitable spot for the "Canadian Bisley" was no easy matter but the universal verdict of approval which has resulted from the experience of the first annual meeting on the new grounds, is a complete endorsation of the decision of the Minister of Militia, Hon. Lt. Col. Borden, who is making it interesting for those who ridiculed the idea of placing a physician at the head of the department of Militia and Defense.

CHEAP AT THE PRICE.—If the estimate of the Postmaster General proves at all accurate there will not be even an appreciable deficit in his department as a result of the reduced Imperial postage rate. In an interview upon his arrival home from England, Mr. Mulock is reported to have said that even should the reduction not be followed by any compensating increase in the volume of correspondence, the loss, he thought, would not amount to more than $50,000 a year; adding, that such a loss would in no way embarrass the Department, for the reforms and the economies that had been lately introduced had greatly increased the revenue of the Department.

The sum of $50,000 is not a big price to pay for the tremendous advantages that will result to the social and commercial life of the Empire, as the direct outcome of Mr. Mulock's successful efforts. It does seem curious that our ultra loyal Conservative friends have found so much to object to in this splendid practical demonstration of true loyalty.

A VALUABLE TEXT BOOK.—In no part of the Empire is more thorough and intelligent attention being given to the scientific development of farming and the teaching and practical demonstration of every branch of agriculture. From the rudiments to the most advanced methods the field is covered and the expenditure of public money for this purpose is an investment bringing splendid return, as shown in the way in which the various departments of agriculture are progressing and improving. The most recent addition to the list of excellent text books in use in the schools and colleges is one on "Agriculture" from the pen of Mr. C. C. James, M. A., Deputy Minister of Agriculture for the Province of Ontario. The little brochure is wonderfully comprehensive, its 200 pages covering the following among other subjects, viz.—"The Plant", "The Soil", "The Crops of the Field", "The Garden, Orchard and Vineyard", "Live Stock and Darying", "Bees", "Birds", "Forestry", "Roads", "The Rural Home" etc. The text is prepared in a simple intelligible style, possessing the essentials of clearness and accuracy. The placing of such books in the Provincial schools is a step in the right direction, and with the price at 25 cents, thousands of copies will doubtless find their way into the hands of the general public.

THE INTRICACIES OF FINANCE.—The Government's financial critics are still badly tangled up in their figures. A few days ago they had the public debt increasing at the rate of $5,000,000 a month, now it is $7,102,000 in thirteen months and in the next column of the same paper $120,000, a week. It would almost appear the part of wisdom for Opposition financiers to take a few lessons in elementary arithmetic before tackling such big figures.

MINING NOTES.

Mr. Cameron has men at work on his Fontenay claim in Camp McKinney, prospecting the ground for the new famous Waterloo ledge, which has recently been shown to be so rich in visible gold, and which ledge can be traced within a few feet of the Fontenay side line. Even without this ledge the Fontenay is a fine property, but with it of course its value would be enhanced, and therefore Mr. Cameron's endeavour to find it is certainly to be commended.

Messrs. R Stuart and John Meyers are at work on the Bullion claim, situated in Greenwood camp. They intend doing three years assessment on the claim and then if the ledge shows up well work will probably be continued.

Messrs. John Douglas and James Atwood have put some men to work at Rock Creek, on their claim the Hecla. There is a fine showing on the Hecla, of copper pyritic ore carrying gold, and the work to be done will be in the nature of driving a tunnel on the vein.

Messrs. J. C. Haas and G. R. Naden have some men at work on their claim the Red Rock, which they recently purchased from Mr. M. H. Kane. The Red Rock is situated in Greenwood camp.

It is said that the assay returns from the ore taken from the ledge which was recently cut through by the tunnel on the Golconda claim in Smith's camp, and which is one of a group of six owned by the Hon. G. E. Foster of Ottawa and Mr J. C. Haas of Greenwood, gave over $40 a ton in gold.

The tunnel on the Paymaster claim which is situated in Grahams camp near Midway, is now in about 35 feet. The paymaster is owned by Mr. E. S. Graham of Spokane, who also owns 5 or 6 other properties in the same camp. Work will be continued on the tunnel until it strikes the ledge, which it is intended to crosscut.

It is reported in a Spokane journal that Mr. James Monogham will dispose of his entire interest in the Cariboo mine to the new company which has been formed to acquire the Cariboo and other adjoining properties. So far this report has not been confirmed but there is every possibility that it is true.

After allowing his properties which are situated in Copper camp to lie idle for several years, Mr. D. C. Corbin has at last decided to develop them, and with this end in view has placed some men to work on one of the group, the King oleman.

Notice.

Dissolution of Partnership.

The partnership between Geo. J. Sheehan and F. Gwatkins hotel keepers, Fairview, is dissolved by mutual consent. G. J. Sheehan will pay all bills and will receive all moneys due the above named firm.

Sheehan & Gwatkins.

Fairview, B. C., July 26, 1898.

Notice.

Cariboo Mining, Milling and Smelting Co. Notice of stockholders' meeting.

The stockholders of the Cariboo Mining, Milling & Smelting Company are hereby requested to meet at the office of the said Company at Camp McKinney, in the Province of British Columbia, Canada, on the 27th day of September, A. D., 1898, at the hour of 1 o'clock p. m., of that day for the purpose of voting on the proposition to sell and dispose of all, or any portion, of the assets, rights, powers, privileges and franchises of said Company.

G. B. McAULAY,
Secretary.

Notice of Assignment.

Pursuant to the "Creditor's Trust Deeds Act."

NOTICE is hereby given that Thomas Elliot, of Fairview, in the Province of British Columbia, Merchant, has, by deed bearing date the 29th day of August, 1898, assigned all his real and personal property except as therein mentioned, to John Piercy of No. 169 Menzies Street in the City of Victoria in the said Province, Merchant, and Frederick Arthur Pauline of No. 40 King's Road in the said City, Merchant, in trust for the purpose of paying and satisfying rateably or proportionately, and without preference or priority, the creditors of the said Thomas Elliot, their just debts.

The said deed was executed by the said Thomas Elliot (the assignor) and the said John Piercy and Frederick Arthur Pauline (the trustees) on the 29th day of August, 1898, and the said trustees have undertaken the trusts created by the said deed.

All persons having claims against the said Thomas Elliot must forward and deliver to the said trustees at number 25 Yates street, Victoria, B. C., full particulars of their claims, duly verified, on or before the 5th day of October, 1898. All persons indebted to the said Thomas Elliot are required to pay the amounts due by them, to the said trustees forthwith. After the said 5th day of October, 1898, the trustees will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they shall then have had notice.

Dated the 29th day of August, 1898.

Favors Reciprocity.

At a special meeting of the Boston chamber of commerce for the purpose of considering ways and means to *bring about closer trade relations* with Canada, resolutions were adopted to the effect that the chamber reaffirm its position as set fourth in resolutions adopted January 1, 1898, in favor of *reciprocal trade relations* between the United States and Canada and the colony of Newfoundland, and asserting that, in the opinion of its members, the commercial, manufacturing and productive prosperity of this country will be promoted by the nearest practical approach that can be obtained to the establishment of complete reciprocal trade relations between the United States, Canada and Newfoundland.

Humid New York.

On the 3rd inst., no less than 50 deaths occurred in New York in one day, owing to the terrific heat and the humidity of the atmosphere. The thermometer registered 92 degrees in the shade. Beside those who died a very large number were prostrated.

In contemplating the suffering of the people of this city, the conclusion must be arrived at that those who live in a fine dry atmosphere like the one enjoyed in this neighborhood, where the theromometer can register over 100 degrees without causing any amount of inconvenience to anyone, are greatly favoured and have much to be thankful for.

For over a week the thermometer ranged between 94 and 101 at Midway during the month just passed and yet not a single prostration was noted.

England and Germany.

A report is in circulation to the effect that a treaty of alliance has been signed between England and Germany, or at least an agreement looking to the establishment of a treaty.

It would seem that the basis of the alliance is the recognition of England to Germany's claim on Syria, a division of Asiatic Turkey which includes Palestine, and which covers about 146,000 square miles of territory and contains a population of about 2,750,000 people, while on the other hand Germany will place no impediment in the way of Great Britain's acquisition by purchase of Delagoa Bay from Portugal, and will also support Great Britain's claim for the abolition of tribunals in Egypt. It is also said that the treaty will provide for an offensive and defensive alliance in certain eventualities.

Good Strike on the Golconda.

Recent work done on the Golconda one of the group of six claims in Smith's camp, owned by Hon. George E. Foster of Ottawa, and J. C. Haas, M. E., of Greenwood, has given very satisfactory results, as the tunnel which was being run into the hill with the object of crosscutting the ledge at a point north east of the old shaft, struck the vein after going a distance of about 50 feet. At this point the vein was found to be about 4½ feet wide, but nothing can now be said as to the quality of the ore as assays have not yet been completed. Samples taken from the wall just before the vein was reached gave $10 to the ton in gold, so by this an indication may be had of the richness of the ore itself, which in this claim is of a variety known as arsenical pyrites, with quartz and copper pyrites.

The Dolphin Claim.

Arrangements are being perfected it is said, for the instillation of a 5 stamp mill on the Dolphin claim which is situated in Camp McKinny and is owned by Mr. C. A. R. Lambly of Osoyoos and Mr. William Edwards of the above named camp. The Dolphin is one of the old locations of the camp, and is situated to the west of the Eureca. Upon it has been done a considerable amount of work in the form of a shaft which was sunk on the ore body, and also a tunnel which is being driven into the hill with the object of cross-cutting the ledge at a considerable depth. This tunnel it is estimated will have to be driven about another 40 feet before the object for which it was started is attained. Assays from samples of ore taken at times from the shaft as it was being sunk gave returns which never fell below $12 in gold to the ton, and as the ore is principally free milling, the instillation of machinery for the working of the ore should prove a profitable undertaking.

Fortifications For Halifax.

Halifax, N. S., Sept. 5.—Guarding the approaches to this harbor are eight fortifications. The most powerful of these is York redoubt. The military authorities have decided to add one more to the number, and are negotiating for the purchase of property on McNab's island, where a fortification equipped with large guns of the most modern type will be erected.

J W. NELSON - - - PROPRIETOR

LOCAL AND DISTRICT.

Mr. Edwin Green of Oroville paid Midway a business visit last week.

We have to thank the *Province* for a copy of its Electoral map recently published.

It is said that Mr. McKay Ingram has leased his fine ranching property which is situated just west of this place to Mr. H. Johnson for a term of years.

Mr. L. A. Hamilton, C. P. R. Land Commissioner, was in the district two or three days recently, attending to right-of-way and other railway matters.

It is significant that two or three officials supposed to be "in the know" are reported to have been making inquiries with a view to investment in real estate at Midway.

Mr. W. J. Francis formerly of Greenwood but who is now in business at Cascade City was in town during the past week, and before leaving for home invested in some Midway real-estate.

It is held but not genrally understood that the bars in all the hotels of the province will have to be closed on the 29th inst. the day upon which voting will take place on the question of prohibition.

Mr. E. D. Reddie, of Spokane passed out on Wednesdays stage, after having spent a few days at Camp McKinney. It is said that Mr. Reddie is negotiating for the Waterloo and other properties in that camp.

Mr. Geo. Guess, and Mr. E. J. Harris of Greenwood passed through town on Thursday last bound for Fairview at which point Mr. Harris will inspect some of the mining property interests belonging to Mr. Guess, and others.

People are beginning to appreciate the opportunity that offers for profitable investment in real-estate here, as recently the townsite company has disposed of quite a number of lots, and in fact there is now a steady demand.

Among last week's visitors to Midway for the purpose of buying town lots were Messrs. W. L. C. Gordon, of Greenwood, and J. L. Magney, of Brooklyn, B. C. The last named came on behalf of two intending buyers now resident in Minnesota, U. S. A.

The recent rich strike on the Waterloo in Camp McKinney has had the effect of drawing the attention of the speculator and prospector to the camp, and as a result the camp is more lively than it has been for some time. Prospectors are paying very close attention to vacant ground.

Post Office Inspector Fletcher passed through town on his way to the coast, on Tuesdays stage going to Penticton Having come into the district by way of Marcus no doubt Mr. Fletcher would give some attention to the grievences which have been complained of by the people of Greenwood with reference to mail connection between their town and Grand Forks and Marcus.

It is said that the C. P. R. has taken an option on 90 acres of the pre-emption owned by Mr. W. Powers here. The portion of his land the C. P. R. is after is that to the west of Boundary Creek, which affords a magnificent sight for the erection of a smelter. Evidence is accumulating that the great corporation has selected Midway as the point at which reduction works will be established, and no wonder, as it offers superior advantages to any other point in the district.

Mr. Roderick Robertson, of Nelson, Manager of The London and British Columbia Goldfields Co., and Mr. E. C. Holden assistant consulting engineer to the company, passed out to Nelson on Friday, after having spent a couple or three weeks looking over properties, situated on the main and west fork of Kettle river, in which properties Messrs. Douglas and Thompson of Midway are interested. The London and British Columbia Goldfields Co., is one of the most successful corporations doing business in British Columbia, and this no doubt can be attributed to the efficient staff of officers the company upon its formation was successful in securing, Mr. S. S. Fowler who is well known in this district being among them, and holding the position of Consulting Engineer to the company. The fact that Mr. Robertson spent so long a time in this district means no doubt that he has, under the guidance of Mr. W. T. Thompson been able to see much that was interesting, and it is truly to be hoped so, for it would be very beneficial to the district should the London and British Columbia Goldfields Company decide to take hold of some properties here. Up to the present the company has confined its operations principally to the Kootenay, but that it is looking to this district is significant of the fact that it desires to extend its sphere of operations.

A meeting of shareholders in the Cariboo Mining, Milling & Smelting Company, will be held at Camp McKinney on the 27th inst. At this meeting the action of the directors of the said company, who recently disposed of all the interests of the company to a new organization, will be ratified.

Mr. Forbes M. Kerby, P. L. S., has got out a very useful detail map or plan showing all the surveyed claims in Wellington camp. Mr. S. M. Johnson, P. L. S., purposes getting out a similar map of Greenwood camp. Mr. C. A. Shaw, P. L. S., some time since prepared a map of Deadwood camp giving like particulars. These several gentlemen would do the district a service were they to co-operate to produce a map showing the surveyed mineral claims in the three camps above mentioned.

Mr. C. M. Crouse has been engaged for four or five days past in collecting ore for the new Westminister Exhibition. Finding that Townsite matters prevented him from personally visiting the mining camps, Mr. E. Jacobs arranged with Mr. Crouse to take a team and get in the ore. The result is that a quantity of ore, about 1200 lbs., in weight is now at the Townsite office. This will be carefully packed and shipped to Penticton during the current week. The following claims are represented—Old Ironsides, Knob Hill, Victoria, Brooklyn, Stemwinder and Snowshoe, in Greenwood camp; Golden Crown and Athelston in Wellington camp; B. C. and Emma, in Summit camp; Mother Lode, Primrose, Sunset, Buckhorn and Morrison, in Deadwood camp; Jewel and North Star in Long Lake camp; King Solomon in Copper camp, and Bruce in Graham's camp. Some of the samples weigh nearly 100 lbs each. More are expected within the next few days and should they come they will increase the Boundary creek contribution to the mineral exhibit to about a ton in weight.

FAIRVIEW NOTES.

(From our own correspondent.)

Mr. Frank Oliver, assistant general manager of the British American Corporation has just visited this district and has bonded some 12 properties at Loomis. He was much pleased with his trip and anticipates this will eventually prove a good camp.

Work is going on at the Stemwinder, Smuggler, Morning Star, Western Hill, Gold Dust, Oro Fino mines and other properties.

The Tin Horn mill is running and crushing Stemwinder ore.

Smuggler mill is well on toward completion.

Some few town lots have been sold and new buildings are springing up.

Float Over Khartoum.

London, Sept. 5.—The war office received this evening the following dispatch, dated at Omdurman yesterday, from General Sir Herbert Kitchener:

"This morning the British and Egyptain flags were hoisted with due ceremony upon the walls of the palace in Khartoum. All the British wounded have left for Abadia in barges towed by steamers. I saw them before leaving. They were all doing well and were comfortable.

"The cavalry sent in pursuit of the khalifa were compelled to abandon the attempt, owing to the exhaustion of the horses, but I have ordered camel squads to continue the pursuit."

BOUNDARY CREEK MINING AND MILLING COMPANY, LTD.

Incorporated October 21st, 1896.

HEAD OFFICE, GREENWOOD CITY, B.C.

Capitalization $1,500,000, in $1 Shares, Treasury Stock 700,000 Shares.

COMPANY'S PROPERTIES.

The Company's mining properties now consist of fourteen claims, viz, the D. A., G. A. R., Big Ledge, O B, S. H. B., Fred D., S. F., J. A. C., P. H., C. S. & H., E. C. B, Prospective, Spokane and Granite Falls.

SIX OF THESE HAVING BEEN ACQUIRED SINCE INCORPORATION

OFFICERS OF COMPANY:

D. A. HOLBROOK - - - - PRESIDENT
E. JACOBS - - - - MANAGER
SECRETARY-TREASURER

BANKERS

BANK OF MONTREAL - - VERNON, B.C.

DESCRIPTION.

On the "D. A" is a vein about 20 inches wide. with a pay-streak of 4 to 12 inches; from this 8,653 lbs. of ore was shipped to the smelter, giving $103.15 gold per ton, silver 74 7-10 ozs., and 2 per cent. lead. A tunnel is being driven on this vein from which ore is being taken. On the same property is a larger vein (quartz) carrying galena and pyrites.

The "G. A. R." has a 30-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silverglance. The finest pieces of wire silver found on Boundary Creek were taken from this shaft. Average assays from different places across the vein gave $8.00 gold, 50 ozs. silver; also $8.00 gold and 150 ozs. silver and one, the latest return—$15.05 gold and 196 4-5 ozs. silver per ton.

On the "Big Ledge" is a 10-foot quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and runs into the main ledge as a spur, on which a tunnel of 40 feet has been driven. Average assays gave $33 gold and 1 1-10 ozs. silver, and $49.35 gold 17½ ozs. silver, 2 per cent. copper

The "S. F." lies between the G. A. R. and D. A., in the direction of the strike on the G. A. R. vein. This location has been made on a vein of pyrrhotite.

The "O. B." has two distinct veins one 25 feet wide which, from its strike and general character would seem to be the same vein as that on the Big Ledge, although sufficient has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from $4.00 to $170.53, while a conservative sampling by Mr. S. S. Fowler, M. E. gave $20.00 in gold.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay gave, gold $1.50, silver 16¾ ozs., copper 11.96 per cent., or $40.44 for all values.

The "Fred D." was located in December, 1895, more as ground for a basis for mining operations for the other claims than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet. The ore carries a considerable percentage of of copper and $10 in gold.

The remaining six claims are all good prospects, but as yet very little development work has been done on them.

This company is registered under the Companies Act, 1890, and amending acts, in the office of the Registrar in Victoria, B. C., for 1,500,000 shares at $1.00, non- assessable, of which a portion of the Treasury stock is now offered at 10 cents a share on application to the company.

MINERAL ACT 1896.

Certificate of Improvements.

NOTICE.

THE AUGUST MINERAL CLAIM.

Situate in Osoyoos Mining Division, of Yale District. Where Located:—Camp Fairview.

TAKE NOTICE that we, H. Rose, free miner's certificate No. 70,111, John Stevens, free miner's certificate No. 259a, John A. Coryell, free miner certificate No. 1412A, J. P. Burnyeat free miner's certificate No. 98,975, intend sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim by their agent John Stevens.

And further take notice that action under section 37 must be commenced before the issuance of such Certificate of Improvements.

Dated this 1st day of August, 1898.
