**Marathon Race -- Canadians at
 Bloemfontein--Grand Amer-
 ican Handicap Shoot.**

**Great Britain's Praise of Canadian
 Soldiers -- Rev. Dr. Robbins
 Elected Moderator of the
 Church of Scotland in England.**

Rev. Dr. John Robbins, a Canadian,
 now of London, formerly of Glencoe,
 Ontario, and Truro, Nova Scotia,
 was recently elected Moderator of the
 Church of Scotland in England.

A Toronto lady received a curious
 souvenir from the Boer trenches on the
 Tugela. It came from an officer of an
 Irish regiment, and consisted of a cigar
 case bearing the printed label,
 W. J. Mitchell, Toronto.

In the Marathon Race, recently held
 at Boston, Mass., Mr. J. Caffery of
 Hamilton, Ont., was the winner. The
 distance was 24-4-5 miles, which was
 covered by Caffery in the remarkably
 short time of 2 hrs., 30 minutes, 44-2-5
 seconds.

The "Morning Standard's" correspond-
 ent, describing the capture of
 Bloemfontein, refers to the entrance
 of the Canadians as follows:

"They are fine strapping fellows,
 broad shouldered, clean limbed and
 blue-eyed. They swing past with an
 easy stride and a free gait, conscious
 of strength and pride brought with
 them from the lakes and mountains of
 Canada. Their boots were out at the
 toes, stockings undarned, breeches
 torn, then mended and torn again, but
 every tatter and every stain was an
 honor to these sons from over the seas,
 who have marched shoulder to shoulder
 with regiments of long tradition."

The Bloemfontein correspondent of
 The London Daily News, describing
 "Greater Britain" at the front, says:—
 "To Canada we take off our hats. She
 has sent us, beside other worthy repre-
 sentatives, a regiment of infantry that
 wins admiration from every soldier for
 marching, endurance or fighting. It
 can challenge comparison with any
 battalion in Lord Roberts' army, and
 that is saying a good deal."

Rudyard Kipling, in the London
 Eng. Mail, of May 2nd, referring to the
 desirability of Colonials settling in
 South Africa, and the lack of induc-
 ements offered by the home govern-
 ment, says: "Among the various hospi-
 tals lie three hundred Canadians of
 the very stamp and breed we require;
 young, sound, clean, intelligent, well-
 educated. Three hundred heads of
 sane and soaped families. Shall we
 let all the beautiful men go back to
 their own place and never lift a finger
 to stay them?"

Mr. J. F. Langton, of Parkhill, Ont.,
 has written to the editor of the Tor-
 onto "Globe" as follows: Your readers
 may not be aware of the reason of Gen-
 eral Roberts' grand rush to Pretoria.
 You will see by circular enclosed that
 we (the people of Parkhill) are going
 to celebrate the occasion on May 24th.
 We wrote to him six weeks ago, in-
 forming him of our intentions, and
 asked him to either relieve Baden-
 Powell or make his State entry into
 Pretoria on that date. You might
 inform the world of the fact. Our day
 will be one that will be educational on
 patriotic lines, as well as pleasing.
 Parkhill, Ont., May 9. J. H. Laugh-
 ton, Sec. Com.

Mr. Howard D. Bates, winner of
 the Grand American Handicap Shoot,
 and the championship of America, at
 Interstate Park, Long Island, was
 born at Hamilton Beach, Ontario. At
 Hamilton four years ago he divided
 first money in a straight score with
 J. A. R. Elliott of Kansas City, in a
 guaranteed \$700 shot. Three years
 ago he tied at St. Thomas in the In-
 ternational Handicap with Lane of
 New York, but lost in the shoot off.
 Last fall, however, in the same shoot
 he won the trophy, having as competi-
 tors Heikes, Fanning and Fred. Gil-
 bert. Recently he has had a series
 of matches with J. Stroud of Hamil-
 ton for the Canadian championship,
 winning two out of the three. It
 now required only to win the Grand
 American Handicap, which carried
 with it a \$250 trophy and upwards
 of \$1,000 in cash, to give him the un-
 disputed championship of America,
 which he did in such magnificent
 style against 211 competitors, with a
 score of 50 straight, establishing a
 new record in that important event,
 in a miss out of 34. Canadians will
 be glad to learn of his success, more
 particularly as it is the first time the
 coveted trophy has come across the
 line. Mr. Bates is a member of that
 well-known organization, the Ridge-
 town Gun Club, others members of
 which have in the past won impor-
 tant championship events in Canada.

Mining Camps of the Northwest.

The following are excerpts from an
 article under the above heading con-
 tributed by Prof. Arthur Lakes to
 "Mines and Minerals," published at
 Scranton, Pennsylvania:

Reservation Camps—The Flat Creek
 district in the Colville reservation is
 reached by the Spokane Falls & Nor-
 thern Railway. There are here well-
 defined veins of copper and gold.

Fifteen miles north of Republic is
 Toroda camp, intersected by very
 large veins carrying small values on
 the surface. Camp Sheridan claims
 to have veins rich in argentite and
 polybasite. Some claims are said to
 yield ore running as high as \$200 per
 ton.

Myers' Creek camp, in Okanogan
 county, is the scene of active mining.
 It is a gold camp; its ores are free
 milling and concentrating carrying
 high values in well-defined veins. In
 the Crystal Butte mine a small fissure
 vein has been opened 200 feet deep,
 showing good values averaging \$30 per
 ton and ranging up to a \$100 a ton in
 gold.

Lake Chelan is a promising young
 camp; its ores are principally copper,
 lead and silver. Some fine bodies of
 molybdenum occur. It awaits greater
 development and better facilities for
 transportation to smelters.

Republic Camp.—The history of the
 discovery of Republic camp has the
 usual prospecting romance. Two pros-
 pectors, who were grub-staked by
 Spokane men, located the Iron Mask
 and Copper Bell claims, and later the
 Republic ledge. An open cut was run
 on the last named eight feet by 20 feet.
 The first six feet gave a value of \$100
 gold; the whole 20 feet \$180. The men
 who first staked this now noted mine
 had not a high idea of its wealth. It
 looked hungry quartz. Since then
 it has paid \$200,000 dividends, and it
 is to be opened to 1,000 feet in depth.

Republic camp is a hundred miles
 northwest of Spokane, on the Colville
 reservation. It is at present reached
 by stages from Marcus and Bossburg,
 on the Spokane Falls & Northern Rail-
 way. The spring of 1898 was the in-
 ception of its boom. The ore of the
 district is peculiar, sometimes re-
 sembling ordinary house plaster, at
 other times it is beautifully veined like
 ribbon jasper. It is very free from
 base metals and its ore may be ex-
 tracted by smelters or the cyanide
 process.

Okanogan County.—It is a moun-
 tainous granitic region in the north of
 Washington, covering 8,000 square
 miles, two-thirds of which are said to
 be mineralized. Here is Palmer moun-
 tain with its properties being opened
 by the longest tunnel in the state,
 which is to be 7,000 feet long, cutting
 50 veins. The ores of Okanogan are
 many of them of free gold at present.
 The county is divided into four zones
 running east and west. Beginning on
 the south high grade silver ores pre-
 dominate. North of this a copper belt
 is found, including the Methow coun-
 try. Further north is the free gold
 belt, in which Loomis and Oro camps
 are situated. A copper belt laps over
 into British Columbia. These belts
 carry gold, iron and coal are also
 found.

The Golden Zone has 1,800 feet of
 tunnel with 5,000 tons of ore in sight,
 averaging \$5. The Okanogan Free
 Gold Mines Company owns a group
 whose large bodies can be readily de-
 veloped and milled. The ore is free
 milling, carrying \$20 to \$120 in gold.
 On the Methow River, a tributary of
 the Columbia, gold occurs in the Lily
 and Peoria mines, so also at the head
 of Twisp River.

Boundary Creek.—Some very large
 copper bearing veins are found in
 Boundary Creek district in Southern
 British Columbia. The Boundary
 district includes all the section between
 the North Fork of Kettle River on the
 east and the main Kettle River on the
 west, an area of 400 square miles. Up
 the North Fork of Kettle River there
 is a mineral belt of importance and
 promise. Boundary Creek owes its
 beginning to placer mining, which
 later led to quartz mining. The dis-
 trict is one of low, rounded hills, 5,000
 feet above the sea.

Greenwood camp is well known. In
 it is the famous Knob Hill mine, with
 its huge vein of chalcopryite, and near
 it is the Old Ironsides. The ores are
 chalcopryite, hematite and quartz.
 Veins are fissures in green eruptive
 rocks; values \$1 to \$10 gold and one to
 six ounces of silver. On the Knob
 Hill mine a cross-cut has been run
 diagonally for 500 feet across the vein,
 almost every foot of which is solid ore.
 The ores are smelting usual huge
 bodies of low grade.

Long Lake camp near by has siliceous
 ores, the ledges varying from a few
 inches to eight feet, mineralized with
 copper, iron pyrites, pyrrhotite, galena,
 telluride and free gold. In Deadwood
 camp is the Mother Lode ledge, 150
 feet wide; values \$1.50 to \$18.50 gold
 and some copper and silver.

THE MINERAL WORLD.

**Coal Discovery in Abyssinia.--
 A Corea Mining Concession.
 --U. S. Imports of Tin.**

**A Profitable Grub-Stake.-- Sixteen
 Millions from the Klondike.--
 Montana's Large Mineral
 Production.**

The output of ore from Rossland
 Mines from January 1st to April 25th,
 inclusive, amounted to 37,000 tons.

It is reported that an important dis-
 covery of coal has been made in the Em-
 peror Nevelik's dominions, Abyssinia.
 The coal is said to be of fine quality.

A new mining district is reported
 north of Nome and east of Cape Prince
 of Wales—the Knowgok mining dis-
 trict—the rivers and streams flowing
 into Bering Sea.

The gold entered at the Mines De-
 partment, British Guiana, in March,
 on which royalty was paid, totalled
 0.305 ozs. as against 0.679 ozs. for the
 corresponding month of 1899.

Australia supplies most of the coal
 used in the Hawaiian Islands. The
 receipts of Australian coal at Honolulu
 in 1899 were 100,041 tons as against
 64,776 tons in 1898 and 43,275 tons in
 1897.

The Mines Department of Western
 Australia reports the mineral pro-
 duction of that colony outside of gold, in
 1899 at 596 tons tin; 12,852 tons iron
 and 17,503 tons of limestone, both used
 as flux in the smelting works; and
 57,844 tons of coal.

An American named J. Sevan Fas-
 sett holds a mining concession of 400
 square miles in Corea. His lease has
 25 years to run. He has the right to
 mine any mineral but has confined his
 attention to gold. He employs 75
 white men and 3,000 coolies.

The Mount Lyell Mining Company,
 Tasmania, reports for the four weeks
 ended April 4 a total of 22,791 tons of
 ore smelted, which returned 847 tons
 of copper, 58,864 ozs. silver and 2183
 ozs. gold. The average yield was 3.72
 per cent. copper, 2.59 silver and 0.10
 ozs. gold to the ton.

In February, 1898, L. Patuand re-
 signed his position as postmaster at
 Everett, Wash., to go to the Klondike.
 Three of his friends made up \$400 as a
 grubstake. No word came from him
 until he returned to Everett quite
 recently, when he divided \$10,000
 among those who had staked him.

Imports of tin into the United States
 for the three months ended March 31st
 were: From East Indies, 7,390,113 lbs.;
 Australia, 313,656 lbs.; Great Britain
 and Holland, 19,399,984 lbs.; other
 countries, 193,613 lbs.; total, 18,182,366
 as against 18,665,475 lbs. for the first
 quarter of 1899. There was therefore
 a decrease this year of 483,109 lbs.

Montana's metal production for 1899
 is given as follows by the Anaconda
 "Standard":—

	Quality	Value
Gold, fine ozs.	238,000	\$ 4,919,896.64
Silver, fine ozs.	15,500,000	20,049,404.04
Copper, fine lbs.	223,000,000	39,471,000
Lead, fine lbs.	22,000,000	979,000
		\$65,410,300.68

Statistics collected by Mr. Charles
 G. Yale, of the United States Mint at
 San Francisco, show that the receipts
 at mints, assay offices, private refin-
 eries and smelters for the year 1899
 from the North-west Territory (Klon-
 dike) were \$15,980,627 gold and \$267,390
 silver, a total of \$16,248,017. These
 figures show a marked advance in the
 output of the Klondike field, the in-
 crease over the previous year being
 \$5,028,198.

The Hall Mines smelter at Nelson,
 B. C., has a capacity of 300 tons daily.
 The matte-smelting blast furnace of
 this smelter is of the largest kind, 44in.
 x 114 in at the tuyeres. The Canadian
 Pacific Railway Company's smelter at
 Trail has a capacity of 700 tons per day,
 exclusive of its lead smelting plant.
 The essential features of the Trail
 smelter are two O'Hara furnaces, two
 reverberatory furnaces, circular fur-
 naces, designed for these works, and
 one water-jacket stack. The smelter
 at Everett, Puget Sound, has three
 furnaces in operation, admitting of a
 daily total of 250 tons being treated.

From the General Report and Statis-
 tics for 1899, issued by the Home office,
 England, it is gathered that in connec-
 tion with the mineral industry the
 number of employes below ground was
 583,000; above ground, 148,000. These
 figures show an increase over the pre-
 vious year of 22,115. The mineral out-
 put for the year included coal, 220,085,-
 303 long tons; ironstone, 7,775,878 tons;
 iron ore, 1,956,796 tons; iron pyrites,
 12,763 tons; lead ore, 30,900 tons; zinc
 ore, 23,135 tons; copper ore and copper
 precipitate, 7,780 tons; tin ore (dressed)
 5,002 tons, and gold ore 3,047 tons.
 The figures for salt, gypsum, lime-
 stone, fireclay, shale and other products
 represent an important addition to the
 value of the mining industry of Great
 Britain.

JOHN WITHELL, PROPRIETOR.

MONDAY, MAY 21, 1900.

Reports from Camp McKinney, Eholt, Phoenix and Greenwood all tell of returning confidence and the consequent employment of more men and improvement in general business. The outlook for the summer is now more encouraging than it has been, and the prevailing feeling is accordingly one of increasing hopefulness and confidence.

Mr. Mackintosh last Monday night publicly asked "what right has Mr. Smith Curtis in the Provincial Government, his position being unconstitutional?" He is Minister of Mines and too, a mining company promoter. Will it not be well for the miners of the Boundary district to enquire whether the mining companies Mr. Curtis has been connected with have not done more mining on paper than under ground; more stock-selling than development? And if so is it in the best interests of the mining industry that he be permitted to direct the mines department of the Province?

The sustaining of the jury's verdict awarding damages \$8,500 and costs to Messrs Reddell & Co. in their civil action against the Corporation of the City of Greenwood should be a lesson to over-zealous municipal councils to respect the rights of individuals, rather than to exercise unnecessarily the arbitrary powers which although conferred by legislation, should be used only with discretion and good judgment. Messrs. Rendell & Co. are to be congratulated on the results of their efforts to obtain redress after having been made, in spite of their protests, the victims of what many of their fellow citizens agree with the Rossland jury in regarding as an act of positive injustice.

It is gratifying to find an effort being made to encourage the cultivation in the Okanagan country of the sugar beet, with the object of ultimately making it a marketable product on a sufficiently large scale to induce both growers and the sugar-manufacturers to derive profit from the industry. It has been amply demonstrated that tobacco growing is both successful and profitable in the Mission Valley and now an effort is to be made to ascertain the suitability or otherwise of that locality and other parts of the Okanagan for the growth of the sugar beet. It is to be hoped that farmers will take a genuine interest in the experiment, as if practicable to add another profit-producing crop to the several already proved paying in the fertile valleys of the Okanagan country.

Lord Salisbury, who presided at the annual Grand Habitation of the Primrose League held in London on 9th inst., in the course of his address gave utterance to sentiments relating to the strengthening of the reserve defences of Great Britain, which views should be taken into serious consideration all over the Empire, even in its outlying parts. As an exchange puts it, he "significantly admonished those present to do all in their power, through the influence of their association, which now numbers more than a million members, to encourage Britons at home either to join volunteer corps, or rifle clubs, with a view to strengthen to the utmost the reserve defences of the United Kingdom." That there is need of an awakening to a sense of individual responsibility is evident when, for instance, the marked contrast between the general efficiency in this direction of such anti-British people as the Boers and Free Staters and the almost equal general inefficiency of such a community as to day in the Boundary pursues its ordinary avocations in happy indifference of the possibility of foreign combination that might seriously endanger the peace and security that have become a second nature to it. There are between two and three thousand able-bodied men resident in the Boundary district and yet there is not a single local organization to encourage proficiency in drill or rifle shooting. Is it not quite time for our comparative helplessness gave place to a state of general preparedness?

At Rossland Hon. C. H. Mackintosh last week met his opponent for the representation of this riding Hon. Smith Curtis on the public platform and then and there effectually disposed of the latter's repeated reflections upon his views and intentions regarding the Eight-hour law and the Japanese question. There can not fairly be placed two meanings upon the emphatic declarations of Mr. Mackintosh, who said at a very largely attended public meeting: "I have said it before and I say it again, that I am an eight hour man. I believe in the eight-hour law and I will not vote for its repeal. I will oppose Japanese immigration." Mr. Mackintosh showed further that when he was managing editor of the "Daily Citizen" twenty five years ago he was an active opponent to the unrestricted immigration of

Orientals. Nor did he lack energy in support of his contention that for years he had been a friend to labor. He read two telegrams received lately from Ottawa from which we extract the following sentences: "There is not a union man in Ottawa, worthy of the name, who will not gladly say you were always a staunch friend of labor when Mayor of Ottawa. You also proved a friend of the Union cause. (Signed) C. S. O. Boudreault, Labor Advocate." Another extract is from an address presented to Mr. Mackintosh in December, 1898, a number of working men being among the signers: "We are truly grateful for the manner in which you in and out of season have responded to the call of the working men of Ottawa, always espousing their cause, and at all times endeavoring to eschew the policy of an agitator. We recognized in you one of the leaders in the advocacy of the great public issues affecting the working classes." Mr. Curtis will have to exercise his ingenuity in trying to discover some other means of discrediting an opponent who has so long, honorable and distinctly useful a public record to recommend his candidature to the electors of this riding.

MINING NOTES.

It is reported that a rich strike has been made on the Washington and Idaho claims near Beaverton.

It is stated that work is to be resumed on the Morrison and Great Hopes, both in Deadwood camp, and on the Dominion Copper Company's mines in Phoenix and Summit camps.

Some nice ore was last week encountered in both faces of the north and south drift at the 300 foot level of the Mother Lode mine, Deadwood Camp. It is more silicious than that met with at the 200-foot level, and carries higher gold values.

The Managing Director of the Cariboo-McKinney Mining Company, Mr. Geo. B. McAnlay, and Mr. Peter Cunningham, who is to succeed Mr. J. P. Keane as mine manager, passed through Midway on their way to Camp McKinney last week.

Work is being resumed on the Winnipeg mine, in Wellington camp, with Mr. David Oxley, a practical miner who has had 30 years' practical experience under ground, in charge. He has instructions to put on all the men he can employ in the mine to advantage.

The lumber for the Mother Lode mine ore-bins is now being cut at the saw mill. The bins should be completed by the end of June, after which shipments of ore taken out in the course of development will be made regularly to the Trail smelter until such time as the ore can be treated at the mine smelter now being built.

There are now some 50 men on the payroll at the British Columbia Copper Co.'s smelter near Greenwood. Construction work is making steady progress under the direction of Mr. Rudolph Liden, assistant manager, who is supervising matters in the absence of the manager, Mr. Paul Johnson.

"The London correspondent of the 'B. C. Mining Record' states that among the new companies recently formed in England is the Adams Investment Syndicate, which with a capital of £10,000 in 88,701 ordinary shares of two shillings each and 32,508 deferred shares of one shilling each, proposes to acquire the business of the Adams British Columbia Company, Ltd., and to carry on a mining, exploration and financial business. The Adams B. C. Co. owned mineral claims in the Slokan, Boundary and Kruger Mountain districts.

Mr. J. Johnstone, General Agent of the Crow's Nest Pass Coal Company, who last week visited Boundary Creek as the guest of the General Manager of the C. P. R. Company, managed during the few hours he was in the district to visit both the Greenwood Electric Company's powerhouse and the British Columbia Copper Company's Mother Lode mine, at both of which places Crow's Nest Pass coal is being used in the furnaces and is giving satisfaction. Mr. Johnstone was manager of the Ponahontas coal mine, West Virginia, before entering the service of the Crow's Nest Coal Company. He was much gratified in being warranted in stating that at a recent test of Crow's Nest and Pennsylvania coal respectively the former gave 15 per cent. better results than its southern competitor. Having coal that is hard to beat, his company enjoys a decided advantage over nearly all of those who seek business in the same market with it.

Greenwood City Loses.

Mr. I. H. Hallett, of the legal firm of Hallett & Shaw, Greenwood, last Wednesday received telegraphic advice from Mr. Shaw, who lately went to Victoria to submit arguments in favor of his clients, Rendell & Co., in their suit against the Corporation of the City of Greenwood, to the effect that the reserved law points had been decided in favor of the plaintiffs and that consequently the verdict given at Rossland against the City, awarding damages \$8,500 and costs, had been sustained. The city will now have to satisfy other claimants for damages arising out of the lowering of the street grades.

Records for the Week Ending
May 16th, 1900.

MINERAL LOCATIONS.

MAY 10.

Octagon, fraction, Camp creek, A. F. Thomas.
Little Boles, China creek, James Barton.
Jo Jo, near Beaverton, Frank Chadler.

The North German Lloyd Line has just placed with the Vulcan Shipbuilding Co., of Stettin, an order for a vessel, which is to maintain an average of 2 1/2 knots an hour, and shall have a length of 752 feet and an engine power of 45,000 horse power. Thus in speed, horse power and size, this new levian than will exceed all others now afloat or building. The ship will, if her builders fulfil their contract, steam into port in the near future with all sorts of broken records trailing behind her—that for greatest speed in an ocean liner and that for greater length and beam and depth being among them. It's a merry war and one which the other lines regard with interest not unmingled with apprehension. The Capart line, whose Lucania holds the New York Queenstown record, may be forced to greater exertions. The best time made by the Lucania to the westward is five days, seven hours and 23 minutes. If the new German racer goes over the same route and lives up to her contract in the way of speed, she will accomplish the run in four days and 21 hours.

of our local race horses, not with the training it was re- by its owner, has skipped the with a saddle on and is said be doing excellent work on one ranges.
C. Scott Galloway has been President of the Greenwood succession to Mr. Olive Pringle signed on the eve of his leaving Midway trip to Europe.
Wm. St. Quintin, our enterpris- er, is this week getting in a ment of fresh strawberries and. He is also preparing to sup- public with soft drinks.
Keffler after several anxious ent in nursing her son Robert- apply recovered, last week fell n to la gripe and had to take ed, but is now recovering.
rs. G. C. Johnson, of Montreal, ating the James Goresing Co., ts and furs, and R. H. Bryce, eg, manufacturers' agent, are el at the Boundary Hotel.
uncan McEachran, of Montreal, ide of a week purchased all the for Strathcona's Horse, stopped Midway yesterday on his way ublic. He was accompanied by Leckie.
F. McGuigan, City Clerk at nce, was another coast visitor district last week. Like many s from the Coast he was surprised d numerous old friends in the dary towns.
F. B. Boone, of Midway, to-day ht to this office a pan showing thirty colors of gold taken from am near Midway. These colors all of good size and were obtained one pan.
to it that your place of business orated on May 24th. Don't e about your neighbor's. If all eople of Midway will act upon suggestion every place in town resent a pretty appearance on y.
Perey Goodenwrath until re- city editor of the Greenwood "Times" passed through Midway orning on his way to Camp Mc- y. He will visit the various g camps and prepare reports for al newspapers.
rs. A. Fisher, of the Yale-Colum- umber Company, and A. Till- have organized the Okanagan er company and will start a saw- Loomis. The plant, which has city of 80,000 feet daily and was ly located near Phoenix, was through Midway last Saturday is the intention of the company mence sawing as soon as possible.
and Mrs. G. D. Brymner, New Westminster, were among week's visitors to Boun- Creek. Mr. Brymner has for years manager of the Royal City branch Bank of Montreal. Mrs. Brym- d he had enjoyed very much rip through the Kootenays and to Spokane and just made a fly- p to the Boundary country be- returning to New Westminster.
Greenwood "Times" apparently much pleased with itself at be- in the 17th inst. "the first paper ically make the announcement e Imperial Limited service will from Vancouver on June 10th." THE ADVANCE unofficially an- d on April 9th—five weeks ear- at the Imperial Limited would on again early in June,
comes from Fairview that Mr. aynes is at present confined to at the home of Mr. C. A. R. y, suffering from paralysis of oulders and arms, which is d to have resulted from a shaking up he received last y from a bucking cayuse. Little n was paid to it at the time, ntly Mr. Haynes had an attack ppe which put him in a weak n and brought out the effects jury.

Alhambra and theatre, at Green- wood, will hereafter run it him- self. He will have the building thoroughly renovated, the auditorium fixed up and new scenery added to the stage. The third floor will be re- arranged for a first class hotel.
There is trouble in Grand Forks be- tween the ministers of the several churches and the local baseball team. The boys want to practice on Sundays and their Reverences don't want it that way. It is reported that base- ball is a drawing card in Grand Forks and the ministers, fearing too strong competition wish to suppress it. A des- patch to THE ADVANCE to-day states that the boys had a little practice yesterday without being disturbed, the Divines thinking it best not to put their threats into execution.
Mr. J. L. Widdicombe, formerly of Grimsby, Ont., has pre-empted 520 acres of land adjoining J. A. Coulson's ranch near Midway. Mr. Widdicombe owns a fruit farm near Grimsby and was only on a visit to this district, but after seeing Midway he decided to secure a home and take up his perma- nent residence here. Mr. Widdi- combe's former good judgment in securing land in districts that have afterwards proved prosperous has been the means of his making considerable money, and we trust that his venture here may prove to be no exception.
Mr. Edward Brown, a miner, of Phoenix and Mrs. Mary Bell, wife of a Hartford Junction hotel keeper, with her two children, are said to have eloped from the junction on Thursday last. Brown had been staying for some time at Mr. Bell's hotel and borrowed money from him pretending that he wanted to do assessment work on his claims. This furnished him with funds to decamp with the latter's wife. It is thought they are in Ross- land and Chief of Police Ingram of that place has been wired to arrest the two and secure the children.
Considerable interest is being mani- fested in the boxing bout of 15 rounds for the feather-weight championship of British Columbia that is to take place in Midway on the afternoon of the 24th of May, between Danny Dean, the present champion of British Co- lumbia, and Andy King, champion of the Northwest. Dean is well known throughout the Province and although a successful fighter he will find a diffi- cult opponent in the person of King, who has an enviable reputation in Anaconda, Montana, where he is well known.
Mr. F. W. Peters, C. P. R. General Freight Agent for the Kootenay and Boundary lines, recently met Col. Chance, of the U. S. Customs Depart- ment, Washington, D. C., and with him went into the question of freight for the Reservation towns and camps coming into the C. P. R. in bond. The understanding arrived at in respect of such freight coming to Midway was that whenever there was sufficient to warrant it an U. S. officer will be sent to Midway to act with the local Cana- dian officer in arranging for its proper transport to its marked destination.
C. P. R. Officials Visit Midway.
A number of Canadian Pacific Rail- way officials visited the Boundary dis- trict last week. They travelled in Vice-President McNicoll's private car, which reached Greenwood on Wednes- day afternoon. The party included Mr. D. McNicoll, Vice-president and General Manager, Montreal, Mr. Robt. Kerr, Passenger Traffic Manager, Montreal; Mr. G. M. Bosworth, Freight Traffic Manager, Montreal; Mr. R. Marpole, General Superintendent Pacific Division, Vancouver; Mr. David E. Brown, General Agent for China and Japan, Hong Kong; Mr. W. R. MacInnes, General Freight Agent, Winnipeg; Mr. F. W. Peters, General Freight Agent, Nelson; Capt. J. W. Troup, Superintendent Kootenay and Boundary lines; Mr. E. J. Coyle, As- sistant General Passenger Agent, Van- couver; Mr. F. P. Gutelius, Engineer Kootenay and Boundary lines, Nelson; Mr. J. G. Sullivan, Assistant Engineer of Construction, Trail; Mr. H. T. Wil- gress, Land Commissioner for British Columbia, Nelson; Mr. F. E. Hobbs, Master Mechanic, Vancouver; Mr. J. S. Lawrence, Trainmaster, Trail; Mr. C. Burnett, Secretary to Mr. McNicoll; and Mr. Allan Purvis, secretary to Mr. Marpole. They were ac- companied by the following guests: Mr. J. Hammond, artist, of Sussex, New Brunswick; Mr. F. Galt, of G. F. & J. Galt, wholesale grocers, Winni- peg, and Mr. J. Johnstone, General Agent for the Crow's Nest Pass Coal Company, Fernie. Most of the party left the passenger train at Eholt and travelled in a caboose over the spur line via Hartford Junction to Phoenix, where buggies were in waiting to take them down to Greenwood. On Thurs- day morning a visit was paid to Mid- way, where Mr. McNicoll was waited upon by some of the leading residents of the town, who were informed that as this end of the railway had not yet been accepted by the Government, an excursion train could not be run to Midway on 24th inst. to bring people to the Queen's Birthday celebration. The ballasting of the line will be pro- ceeded with immediately after the completion of the spur lines now having attention and passenger trains will be

certainly by July 1st and probably earlier. After Messrs. McNicoll, Kerr, and Brown had been driven round the town, the train returned to Green- wood, whence the party accompanied by Mr. F. Keffler, General Manager for the British Columbia Copper Com- pany, went up by rail to the Mother Lode mine. Greenwood was reached once more by 12 o'clock noon and shortly afterwards a special left with the party for Grand Forks and Ross- land.
Sugar Beet Growing.
Mr. B. T. Rogers, managing director of the B. C. Sugar Refinery, Vanco- ver, and Mr. Geo. Coleman, of the firm of Evans, Coleman and Evans, import- ers and shipping agents, Vancouver, were in Midway last Wednesday on their way from the Okanagan through the Boundary district to the Kootenay and thence back to the coast. They were accompanied by Mrs. Coleman and Miss Rogers. Mr. Rogers had been distributing sugar beet seed among such of the farmers of Kenderby, Arm- strong and Mission Valley as he had succeeded in inducing to take an inter- est in testing the suitability of the Okanagan climate and soil to the growth of the sugar beet. Among some he met he found indifference on the subject, but others showed more interest, and of these about thirty agreed to sow the seed and to forward the beets, when full grown, to Vanco- ver for Mr. Rogers to ascertain by chemical analysis their sugar contents. The beets will be grown in soils of different natures and the results care- fully noted, so as to admit of a conclu- sion being arrived at as to the most suitable kind for the growth on an extensive scale of these useful roots.
Canadian Grapes for English Market.
The splendid work of the Dominion Agricultural Department in making Canadian products known in the Old Country and in improving the facilities by which the Canadian producer is en- abled to reach the British market, have always been ably and intelligently supplemented by the Ontario Legis- lature, and now an effort is to be made to develop a demand for Canadian grapes in England. This is a line of agriculture in which Hon. Mr. Dryden has considerable faith. Last year a small balance of another vote in the estimates was expended in this way with encouraging results. Canadian grapes ripen at a season which will not conflict with the European article. Canada has hundreds of tons of the best to dispose of, and as Canadian goods have a sympathetic ear in Eng- land now, it is felt that the experi- ment is worth trying. An effort will doubtless be made to secure good ar- rangements with the leading English firms, a feature to which Hon. Mr. Dryden promises to give his personal attention.
New Ontario.
Very much has been done during the past year to develop the resources of New Ontario, and to open for settle- ment vast tracts of country in that Province north and west of the portion now occupied. The progress made in this direction is primarily the result of the private enterprise, aided to a reason- able degree by Governmental assist- ance. The result of such assistance thus far has been so satisfactory that it is the intention of the Provincial Government to do yet more during the present season. The sum of \$40,000 has been placed in the estimates for the exploration of that portion of On- tario lying north of the Canadian Pacific Railway. It is intended to send out ten or eleven exploring parties, be- ginning at the Quebec boundary on the east and extending as far as Rat Port- age and the Manitoba boundary. Each party will have a certain territory to cover. Operations will begin early in June and continue until about the middle of October. Each party will be placed in charge of a thoroughly qual- ified provincial land surveyor and will include a geologist and a practical ag- riculturalist. Careful investigation will be made of every portion of the terri- tory, with reference to its agricultur- al, mineral and forest wealth, and of the location of all heights of land, rivers, lakes, etc. A special report of the results of these expeditions will be compiled and submitted to the legis- lature next session.
Profitable Forestry.
The profits of timber growing are shown by the following figures recent- ly published in an United States ex- change: Fifteen years ago the Atchi- son, Topeka and Santa Fe Railway began to experiment in the production of timber for railway uses. The com- pany at that time planted two sections, 1,280 acres, with Catalpa Speciosa, a tree of very rapid growth, and, com- pared with other timber, almost in- destructible in and above ground. The total cost of land, trees, planting, cultivating, and overseeing, interest on capital invested, etc., was about \$100 per acre, or \$128,000; from which the company will realize during the next ten years 1,000 trees per acre, or a total of 1,280,000 trees of from 12 to 18 inches in diameter, and 30 to 40 feet high. The trees, being straight and clear of limbs up to a small crown, are excellent material for poles, and estimated worth \$2 each standing, or \$2,560,000; deducting from this the original total cost, \$128,000, leaves the respectable net profit of \$2,432,000.

MINERAL ACT 1896.

Certificate of Improvements.

NOTICE

EXCELSIOR, GOLDEN CROWN AND HOMESTEAK
MINERAL CLAIMS.

Situate in the Osoyoos Mining Division of
Yale District, Where located: On McCall
Mountain.

TAKE NOTICE that I, Chas. deBlais Green,
as agent for the National
Mining and Development Company, free miner's
certificate No. 12011, intend, sixty days from
the date hereof, to apply to the Mining Recorder
for a Certificate of Improvements, for the purpose
of obtaining a Crown Grant of the above claims.

And further take notice that action, under
section 37, must be commenced before the
issuance of such Certificate of Improvements.
Dated this 22nd day of March, 1900.
CHAS. DEB. GREEN.

NOTICE TO CREDITORS.

In the matter of the estate of Malcolm
McCaig, late of Rock Creek, in the
County of Yale, British Columbia, de-
ceased, Intestate.

NOTICE is hereby given pursuant to the
"Revised Statutes of British Columbia,
1897, Chapter 157," that all creditors and others
having claims against the estate of the said
Malcolm McCaig who died on or about the
4th day of May, 1899, are required on or before
the 15th day of April, 1900, to send to the under-
signed, solicitor for Donald McLennan, the ad-
ministrator of said deceased, their names, ad-
dresses and descriptions and the full particu-
lars of their respective claims duly verified by
statutory declaration.

AND further take notice that after said last
mentioned date, the said administrator will
proceed to distribute the assets of the deceased
among the parties entitled thereto, having re-
gard only to the claims of which he shall then
have notice, and that the said administrator
will not be liable for the said assets or any part
thereof to any person or persons of whose
claims notice shall not have been received by
him at the time of such distribution.

Dated at Greenwood this 3th day of March,
1900,
J. P. McLeod,
Solicitor for the Administrator.
