...Copper and Gold...

The Similkameen district is noted for its ledges of Copper-Gold ores.

Quality and Price.

While W. T. Shatford & Co. are noted for the quality and price of the goods sold by them. PROSPECTORS and MINERS operating in the Similkameen and surrounding mining camps, would do well to outfit at one of our stores, where everything is kept that is needed in the mining business.

Instead of buying outside, buy right at home, and so save money, and this more particularly refers to prospectors going into the district above referred to.

Silvery Slocan.

Many have heard of the richness of the silver ores of the Slocan country, but few have an idea of how rich these ores are. By a careful computation it was recently shown that the average assay value of several thousand tons of ore from different mines in the Slocan, which ore was treated at the several smelting plants in and out of Canada, ran about 125 ounces of silver and 45 per cent. lead to the ton, which would represent, taking the price of the metals at their present values, some $113 to the ton. Truly this is a wonderful showing, and one which any mineral section of the province might well be proud of.

The Eight-hour Question.

The Victoria Colonist takes a sensible view of the eight hour question when it says:—The Columbian says the eight-hour law is correct in principle. This is a debatable proposition. In nine cases out of ten eight hours are as much as any man ought to be asked to work underground, and we might go further and say that a universal eight-hour day for working men would in the very great majority of cases be beneficial. The open question is if this matter ought not to be left to employers and employed to settle between them, subject to government supervision as to sanitary and other conditions. We do not say that we are opposed to the restriction of hours of labor by law in any case, but, we are disinclined to accept anything which interferes with the liberty of the individual unless good cause is shown for it, and no other remedy for the evil complained of is within reach. A statue ought to be the last resort in the regulations of economic problems, because they are too complicated to be disposed of by general rules.

Otherwise Engaged.

I'd like to stop an' tell them folks in
France jes' what to do;
To put 'em on the proper track an' see
'em safely through.
I hate to seem so selfish when an hour
or two of talk
Would show 'em beyond question jes'
the path they ought to walk.
But that colt of mine needs breakin',
An' there's fences to be made,
An' the mercury is takin'
Trips to ninety in the shade.
So, Loubet, I've got to leave you;
You must lay your plans alone;
I am sorry if I grieve you,
But I've troubles of my own.

I'd like to speak an' so prevent all
points from bein' vague
When they sum up their conclusions
in the meetin' at The Hague.
I'd like to show what must be done—
some time perhaps I shall—
In Europe an' in Asia an' likewise in
in the 'Vaal.
But the wiltin leaves are limber;
In the field there's work to do,
And I've got to cut some timber,
So's to build a shed or two.
You'll excuse me for desertin'
All the worries of a throne;
I could fix things right for certain,
But I've troubles of my own.

—Washington Star.

The Granite and Banner.

As noted recently the 5-stamp mill on the Granite and Banner claims in Camp McKinney, was started during the latter part of the month just closed, and as a result of a nine days run it is said by parties arriving from Camp McKinney, that a brick of gold of the value of $900 was sent to the head office of the Granite and Banner Gold Mining Company. Such a result is certainly encouraging, as it shows that the ore milled well, and that with plenty of ore, good fat dividends will be the portion of those holding stock in this company.

Molly Gibson and Juno.

Mr. F. B. Brazil, of Nelson, in the Kootenay, has just returned from a prospecting trip in the Cedar Creek district, and as a result of a couple of months hard work he reports his ability to locate two promising looking properties, the Molly Gibson and the Juno. Upon each of these claims are fair size ledges, and although little work has been done yet, on the Molly Gibson a two-foot vein, carrying quartz, arsenical iron and a little copper has been broken into. The ledge out crops for a considerable distance as it runs nearly the whole length of the claim, and then enters the ground of the British Pride an adjoining claim. The Molly Gibson also adjoins the Ruth a fine property belonging to Messrs. Sullivan and Wardell, who at present are working on their holding. Brazil is enthusiastic in his praise of the whole of the country lying adjacent to the Kettle river to the west and north of Midway, and predicts that the near future will see some good camps established in different localities.

The Sailor Consolidated.

The first general meeting of the shareholders of the Sailor Consolidated Mining and Milling Company, Ltd., of Camp McKinney, was held in the Temple building, Toronto, on the 27th of the past month, and over 1,000,000, shares were represented in person or by proxy.

Referring to the proceedings the Toronto Star said: The financial statement was read, and was unanimously endorsed and approved by the shareholders. This statement shows that the company received some $30,104 net, and that, after having purchased the Rover and the Alice Fraction, together with all office and other expenses up to date, the company have nearly $30,000 in the treasury, besides a reserve of 200,000 shares of treasury stock.

Every motion was enthusiastically received and unanimously carried by the directors present, and the retiring Board of Directors were re-elected by acclamation, with the addition of Mr. William Chaplin, St. Catharines, president of the Welland Vale Manufacturing Company, who succeeds Mr. J. B. McArthur, who, owing to pressure of business and to ill health, was compelled to resign.

The new Board of Directors are, therefore, as follows: William Chaplin, St. Catharines; Sir George A. Kirkpatrick, Toronto; Charles B. Watts, Toronto; F. Diver, Toronto; T. A. Crane, Toronto and Montreal; A. L. Davis, Mayor of Peterboro'; Dr. J. A. Stevenson, Trenton; Thomas Milburn, Toronto; William C. Fox, Toronto.

Recommendations were read from the manager of the mine to instal hoisting plant and engines at once, and intimating that several parties were anxious to locate on the town-site.

A meeting of the directors will be held later, and they will decide at once upon the best course to be pursued, and it is likely that one of them, with a well-known mining engineer, will leave for the mine within the next few days.

Price, $2.00 per annum, payable in advance, either yearly or half-yearly at the option of the subscriber.

Advertising Rates sent on application.

Though the columns of THE ADVANCE are always open for the discussion of matters of public interest and importance, we do not necessarily endorse any of the opinions expressed. Correspondence of a personal nature will not be published.

MONDAY, JULY 10, 1899.

WE are able this week to make the announcement that THE ADVANCE has found a new proprietor, Mr. W. H. Norris having disposed of his entire interest in the publication to Mr. John Withell, of Montreal. Although Mr. Norris has disposed of the publication, he will remain in charge of the same for a short time, therefore in the near future when he severs his connection with the paper, the subject will again be referred to.

No Exhibit Yet.

Although many appeals have been made through the press, no action has as yet been taken locally, or by the authorities having the matter in hand, to collect a representative exhibit of the minerals of Boundary Creek, for the Paris exhibition. In different parts of the province the work of collecting specimens is being pushed forward, therefore considering the great importance of this section from a mining point of view, it seems strange that some effort is not being made to gather together a suitable collection of specimens. From the Boundary Creek section, no ore is at present being shipped, this is owing to the want of transportation facilities (which will soon be supplied) and yet the district stands or will soon stand, pre-eminently at the head of all the mining sections of British Columbia. Such being the case no exhibit from the province should go to Paris without having included in it a liberal sprinkling of specimens of the copper-gold ores of Boundary Creek. Without these the exhibit would not only be non-representative of the province, it would not be representative of the Dominion, for in no part of Canada are to be found ores carrying such a high percentage of copper combined with the high gold values met with here.

Under these circumstances it is to be hoped those interested will at once draw the attention of the authorities to the matter, so that no more time be lost before the work of collecting a suitable exhibit is taken in hand.

MINING NOTES.

It is claimed that at the 275 foot level, the Jewel mine in Long Lake camp, has eight feet of solid ore, which will run $80 to the ton, and the pay schute has been proven to extend to a considerable length. The property is being opened by a second shaft, which will determine just how extensive the pay schute is. The Jewel is fast becoming one of the banner mines of the Boundary Creek district.

The Crown Point, James Creek, owned by Messrs. Douglas and Atwood of Midway, is looking well now, there being 10 feet of solid ore showing in the crosscut from the shaft at the 40 foot level. The shaft was sunk about the centre of the 60 foot ledge, and the crosscut is being run west towards the hanging wall. The ore is galena and iron in a lime gangue, with values in both gold and silver. The owners have all along maintained that the Crown Point would prove a valuable property, and recent developments are proving their confidence to have been fully warranted.

The small hoist which was used for some time at the Cariboo mine at Camp McKinney, is being moved to the Maple Leaf claim, one of the Cariboo company's group of claims, and as soon as it is set up, the development of this claim will be proceed with. The Maple Leaf lies to the west of the Alice and Emma claims which are also owned by the company, and to the east of the Eureka claim, which is owned by a New York company, organized several years ago. The Maple Leaf originally belonged to Mr. James Lynch, of Camp McKinney, who parted with it to the company some two years ago. The ore on the claim is very similar to that found in the Cariboo, and no doubt the development of the property will be attended with good results.

Apart from the installation of a fine hoisting plant, the Waterloo company, of Camp McKinney, have decided to equip the mine with a fine stamp mill. The mill will be put in position as soon as it can be brought upon the ground, and as the order for the mill has been placed and there is no impediment in the way of its being brought quickly into the country, it should not be long before it is in running order. The mill will be erected under the direction of Mr. Thos. Graham, and the Superintendent everything is well done. As big stock holders in the company, Messrs. Graham and Murphy have an interest in seeing the Waterloo a dividend payer in the near future. It is estimated that the ore taken from the mine as development progresses will be sufficient to keep the mill running, and if such is the case then will the Waterloo soon become a very valuable property, for it would allow of the blocking out of a large quantity of ore.

White—Palmerston.

The many friends of Mr. Henry White and Mrs. Palmerston, both extremely well known throughout this district, will be glad to learn that on the 29th of the past month, they were joined in the holy bonds of matrimony at Spokane, in the State of Washington. As soon as the wedding ceremony was performed Mr. and Mrs. White left Spokane on a trip to Yellowstone park, where the honey-moon will be spent. Upon their return which will be about the end of August, Mr. and Mrs. White will take up their residence at Spokane, in which city Mr. White has recently built himself a beautiful home. As before stated the now happy couple are extremely well and favorably known in this district, as for years Mr. White has been a prominent figure among Boundary Creek mining men, and possessor of very valuable mining interests, while the kindness and hospitality of the bride, while a resident of Midway for two or three years, in the olden times, is gratefully remembered by a host of friends who will now tender hearty congratulations and best wishes for a life full of happiness to herself and husband, in which THE ADVANCE begs leave to join.

Charged with Murder.

A man who has for some time made his home on the Colville reservation, and who has been known locally as one arm Frank, and whose name is written in the charge as Frank Draper alias Davine, alias Reed, and who was recently arrested at Republic for horse stealing, is now undergoing trial at Republic on a charge of having about two years ago murdered a half-breed near Midway, named Johnny Huff. The chief witness against him is said to be an Indian who says he witnessed the murder, but was afraid until Draper was arrested for horse stealing to disclose that he knew anything about how Huff came to his death, for fear that Draper hearing that he knew of it would harm him before he could be arrested.

It will be remembered that when Huff met his death it was supposed that he got drowned while endeavoring to ford the Kettle river on a horse, but it will also be remembered that there was some talk of there being marks on the body when taken from the Kettle river that suggested that he had met with foul play before reaching the water. The outcome of the present trial will probably be known in a few days.

A Narrow Escape.

Mr. W. Keightley, of Midway, met with a painful experience about a week ago, and has much cause to be thankful that he is now alive. He was out prospecting on the cliffs around Lost Creek canyon, a few miles south of Chesaw, on the Colville reservation, when as he was passing around a ledge of rock, a boulder came rolling down from the cliff above, which striking him, knocked him off the ledge of rock, giving him a fall of 50 or 60 feet. That the fall did not cost him his life, can only be explained by the circumstances that he fell into a thick clump of bushes which were growing at the top of a steep rock slide, and that as soon as his body came in contact with the earth or rather fine rock it gave way and precipitated him some 75 or 100 feet further down the hill, where among heavy boulders his progress was arrested. Fortunately for him too he had a partner with him who witnessed the fall, and who proceeded to him as quickly as possible, thereby offering assistance which was much needed in his bruised and bleeding state. With other assistance Mr. Keightley was moved to Chesaw and thence to Midway, where under the care of Dr. Jakes he is doing well. The accident offers a miraculous escape from death.

NOTICE.

THE attention of all persons picketing horses on or driving across this Company's lands, thereby sometimes removing or damaging the Lot stakes, is hereby called to the following excerpt from the Act respecting Survey of Land:—

Any person defacing altering or removing a landmark placed by an authorized surveyor to mark any lot or parcel of land shall upon conviction be punished by imprisonment, or fine, or both, such fine not to exceed $100.

C. G. DIXON,
G. P. & T. A.

The Cellar.

Sinks, Garbage Boxes and Cesspools need attention now. Sometimes sickness in the summer months is due to lack of disinfectants. Be on the safe side—use CREOLIN now.

CREOLIN is a prompt, reliable and safe disinfectant. It is not poisonous, and that is one of the reasons why it is in such demand. Death through carbolic acid is frequent,

In addition to its use as a general disinfectant, CREOLIN is an agreeable deodorizer for the sick room, an effective home remedy for burns, cuts and other hurts; and a useful application in treating skin blemishes and parasitic diseases of animals.

Three table spoonfulls of CREOLIN mixed with a gallon of water makes a good disinfectant.

ADDRESS :—

The Advance,

MIDWAY, B. C.

A Great Bank.

According to a London dispatch the Prince of Wales on the 28th of the past month laid the foundation stone of the new post office savings bank building, which is to be built in Kensington a suburb of London. Referring to the importance of the post office saving bank, the dispatch says it has become a huge national institution, and this can readily be understood when it is stated that the new building will stand on five acres of ground and will accommodate 7000 clerks. The 8,000,000 depositors of this "poor man's bank," four-fifths of whom belong to the working classes, have balances amounting to £123,000,000, which exceeds the whole capital of all the joint or "rich men's banks," in the united kingdom. Although the present high price of consols makes the postoffice saving bank cost the nation a trifle yearly, yet if its funds could be invested in other stock than consols the loss would be converted into a profit. It is hoped parliament will allow this, so as not to discourage thrift by the threatened reduction in the interest on the savings of small depositors.

The Wren.

Keough Brothers, who were at one time the owners of the now famous B. C. mine in Summit camp, are now paying attention to the Wren, a very promising property in the same camp, and situated not far from their old location. Development on the claim takes at present the form of surface crosscutting and the work so far done shows up a fine ledge. The ore is a quartz carrying gold, copper and silver, and is similar to that taken from the R Bell claim. Keough Brothers are also interested in some fine properties on Torodo creek, as they hold an interest in the Mountain Rose and Violet. These have some strong ledges of free milling ore, and as depth is attained the quality of the ore is rapidly enhanced. On the surface average samples gave from $2 to $10 in gold, while at a depth of 30ft., from samples taken from the shaft on one of the ledges, no assay was made that did not exceed $15 to the ton. As with others so with Keough Brothers, they believe that work will establish the Torodo creek properties among some of the finest free milling propositions to be found in the region round about, not excepting even Camp McKinney.

THE MIDWAY CO., Ltd.

E. JACOBS,
Agent for British Columbia,
Midway, B.C.

At last the Blockade seems to be broken and freight is rolling in, not as fast as we would like, but something is better than nothing, and we are prepared to show our friends some seasonable goods, for LADIES, CHILDREN and GENTLEMEN.

Have you seen the beautiful dinner sets we received direct from the importer? if not, don't fail to look at them soon, as we do not know how long they will be in stock. Chamber sets of 12 pieces, also cheaper ones of 6 pieces. Anything in the Crockery line from plain white stoneware to the costliest chinaware.

Our Dress Goods Department is not quite complete, as most of the seasonable goods have been sold, but we still think that we are able to satisfy almost any taste. Silks, satins and velvets in all colors for trimmings, and shirt waists. A new consignment of shirt waists has just arrived.

Our fine lot of Groceries are coming in daily, including fine Government Creamery butter, also fresh made ranch butter.

Miners' Supplies at most reasonable prices. A new consignment of the celebrated Armstrong XXXX Flour just received.

made in the Mining Recorders office for the Kettle River Mining division, for the first half of the present year, shows that the mining industry is forging ahead. The records, especially the number of certificates of work, are greatly in excess of the number for the first half of last year, and this is encouraging, as it shows that the resources of the district are being steadily developed.

Of records of mineral claims, some 433 were made, of certificates of work some 329, while the number of free miners' certificates of all denominations totals in excess of one thousand one hundred, thereby showing that the mining population is on the increase. A very considerable amount of mining property has changed hands during the six months just passed, and altogether the year promises to be a phenominal one as far as the Kettle river division is concerned.

What it Costs.

The American people are beginning to realize what territorial expansion costs, judging by some compilations made by a contributor to the New York World. Reference is only made to the operations in the Phillipines, yet the article states that $63,000,000, and the lives of 664 men is the price paid thus far for the advantage gained in Luzon, besides 6,500 wounded and many times that number made invalids.

It is declared that the army in the Philippines is costing $280,000 a day now, and that the sum will exceed $300,000 when the whole of the 35,000 troops arrive. These figures do not include the naval expenses which are estimated at $10,000 a day, or $1,370,000 for the 137 days that the war with Aguinaldo has lasted, over and above the regular cost of maintaining a fleet in Asiastic waters. The Word declares that the United States controls considerably less territory in the Philippines than Spain did when the Americans took possession, and that the expence of subduing the islands, including the $20,000,000 indemnity to Spain, will be at least $200,000,000.

A Big Strike Indeed.

A very rich strike of copper ore was reported on the Washington and Lone Star claims, on the Colville reservation, recently, but the importance of the strike is only just now being realized. These two claims are situated to the south of and adjoining properties in Central camp, only they are just across the line. The claims are owned by the Reservation Mining & Smelting Company, and the manager for the company is Mr. Henry White. Much work has been done on the properties but only recently new ground was opened up, with the result that an enormously fine body of ore has been penetrated by a crosscut tunnel. The tunnel cut through 25 feet of ore, which in many places showed regular streaks of solid native copper. As a consequence of the strike the shareholders in the company are greatly elated, and the company's stock is raising as a consequence of the strike.

C. P. R. and Great Northern.

It would seem that the C. P. R. and Great Northern are gradually assuming closer business relations, and this may account for the presumed understanding which is said to exist between the two companies with regard to the extension of lines in the Republic and Boundary Creek sections. Referring to the matter a special dispatch from Montreal says:—Perhaps the world never heard that Sir William Van Horne broke with Lord Mountstephen some time ago, and that there has been a decided coolness between the first and the second presidents of the Canadian Pacific Railway for a good many months past. This, it appears, has had a good deal to do with the strained relations that have existed between the Canadian Pacific and the Great Northern for some time, as it is well known that Lord Mountstephen has stuck to Jim Hill for a good many years closer than a brother. It was, in fact, in connection with a deal in which Mr. Hill and Lord Mountstephen were interested that the noble Canadian Lord made the handsome sum of money which he turned over to his relatives a little while since. It appears, however, that the advent of Mr. T. G. Shaughnessy to the presidency of the C. P. R. will change all this, and that the former cordial relations between the Great Northern and the C. P. R. may be resumed. It is said, in fact that Lord Mountstephen looks with the greatest pleasure at the change in question, and that he wished the new president godspeed during the latter's quite recent visit to London. All is well that ends well!

JAMES COOPER, Montreal, General Agent for Railway Fencing.

LOCAL AND DISTRICT.

Mr. James Lynch, of Camp McKinney, was a visitor in town during the week.

Mr. W. T. Smith, recently returned from Montreal, was the guest of Dr. Lakes and family yesterday.

Mr. H. Nicholson, of Camp McKinney, was a visitor in town for a day or two during the week, having come down to attend to some mining business.

Mr. B. Lowe, of Kelowna, and traveling representative of the Kelowna Shippers Union, passed through the district last week, having come in by way of Penticton.

Mr. [illegible] LaPlant is erecting a residence house on his 5 acre lot in the Midway sub-division, adjoining Midway, and Mr. J. R. Ferguson is building a two-story residence on the adjoining lot.

Mr. J. L. Terry, of the Last Chance store, Bossburg, Wash., has signified his intention to shortly erect a store building on the two Fifth Street lots recently purchased a few weeks ago from the Midway Company.

J. Love & Co. intend at once to erect a building at Camp McKinney, which when completed will be stocked with drugs and stationery. The business will be in charge of Mr. Scott a member of the firm.

Rev. W. F. Gover, M. A., who lately assigned charge of the Church of England mission at Grand Forks, is at present in Rossland taking duty for Rev. R. Irwin, during the latter's visit to the Boundary country.

Mr. Thomas Graham, of Colville, passed through town on Wednesday last on his way to Camp McKinney. Mr. Graham is one of the heavy stock holders in the Waterloo Company, of Camp McKinney.

Messrs. W. H. Wood and W. [illegible] Armstrong, passed through town on Thursday on their way home, after having spent several days looking over the Boundary Creek camps.

Mr. [illegible] Cameron, of Camp McKinney, was a visitor in town during the week, and before returning home he paid a visit to Greenwood. Mr. Cameron reports everything moving along nicely in the latter free milling camp of the province.

It is expected that the C. P. R. tracklaying gang will reach Cascade City by the 15th of August. From Cascade City to Midway the completion of the road will be rapid, as few impediments will be met in the way of continuous tracklaying.

Mrs. Flannigan and her two daughters, of Camp McKinney, were visitors at Midway during the week. They were on their way home after having attended the funeral of Ensign J. R. Monaghan which took place at Spokane recently.

Mr. and Mrs. Walker, of Cascade City, were visitors to Midway on Saturday, having come in via, Penticton and Greenwood. Whilst in town they purchased a lot on Seventh Street with the object of locating here for the year.

Messrs. R. J. Bealey, G. R. Naden and C. Haas, all of Greenwood, passed through town on Friday last, having just returned from a trip to the Similkameen country, at which point Mr. Naden owns some valuable mining properties.

Mr. Guess, who has come west from Ontario near Kingston, Ont., to visit his son, Mr. G. A. Guess, was in Midway yesterday. Mrs. Guess came in from Penticton and was met at Rock Creek by her son, who drove her the balance to Greenwood.

Mr. Ben. Miller, for some time accountant for the Greenwood and Midway Lumber Company, and latterly clerk and storekeeper for railway subcontractor P. Hughes, intends to shortly open a real estate, insurance and general agency office in Midway. The Midway Company calls attention in another column to the penalties that may be incurred by the removal or destruction of lot stakes. As the townsite has quite recently been re-staked at considerable expense and already a number of the new stakes have been damaged, it is found necessary to warn all responsible for similar interference with the stakes of the risk they run in this connection.

Rev. H. Irwin (Father Pat) last week paid a visit to Mr. Thos. Kruger at Boundary Falls, in response to the latter's call that the reverend gentleman would go over to see him. The services of Father Pat were also availed by several residents in the intervening country, who had been awaiting the ministrations of the clergyman. Father Pat left Midway on Saturday for Greenwood and Grand Forks, enroute for Rossland.

Although clerks are needed and have been needed in the Government offices at Fairview, Midway and Grand Forks for some time past, yet does the government take no action in the matter. People in the district are beginning to look upon Mr. James Martin the representative of the Rossland riding, as very much of a figure-head. It is obviously his duty to see that the existing state of affairs is remedied without delay.

Mr. W. J. Snodgrass, of Okanagan Falls, and proprieton of the Penticton-Grand Forks stage line, passed over the route during the week. There is no truth in the statement that Mr. Snodgrass had invented a stage robber proof mail bag.

Although there is much freight coming in by way of the Penticton route, yet have the freight teams no difficulty in transporting it to its destination as fast as it arrives. This is a much better state of affairs than existed a short time ago.

Mrs. F. Davis, of Midway, left yesterday for Fletcher, Idaho, U.S.A. Mrs. Davis was called away to attend her father who is at present lying very ill at the old home at the above named place. Mrs. Davis' departure was doubly to be regretted as recently she has not been enjoying the best of health, and therefore was not in the best condition to stand the fatigue of such a journey.

Mr. Chas. Tisdall, M. P. P., of Vancouver, was a visitor to Boundary Creek during the past week. Mr. Tisdall came in by way of the Kootenay, and was taking a business trip through new, and as he said, interesting territory. While here he endeavoured to become conversant with the many questions affecting the district from a political point of view, and also to learn something of the geography of the country. If it were possible for other members of the provincial legislature to travel abroad a little more than they do, then would the province receive more intelligent legislation. Mr. Tisdall left Midway on Thursday last bound for home.

After giving a very successful entertainment at Greenwood on the evening of the 4th, Miss Marietta La Dell paid Midway a visit, and on the evening of the 5th gave an entertainment in McNicol's hall, to although a small, yet a very appreciative audience. That the audience was small, can be attributed to no other reason than that Miss LaDell's intention to appear at Midway was not heralded until just as she arrived, an unfortunate incident, as many who were not present at the entertainment regret having missed the opportunity of listening to such a versatile entertainer. Without doubt Miss LaDell is worthy of a position in the foremost rank of Canadian elocutionists.

Mr. H. Mortimer Lamb, the editor and part proprietor of the British Columbia Mining Record, is at present visiting Midway. Mr. Lamb after an absence of two or three years is again visiting the Boundary Creek district, and it is needless to say, he notices and comments favorably on the great change the district has experienced since he last saw it. Before becoming interested in the British Columbia Mining Record, Mr. Lamb was part owner at one time of the Boundary Creek Times, and also the ADVANCE, therefore, he is familiar with the district, and its requirements, and since removing to the coast has lost no opportunity to voice the sentiments of this community on many important questions. After remaining here a day or two Mr. Lamb will proceed to Camp McKinney, Fairview and then home.

Mr. E. James one of the pioneer prospectors and miners of this section, and who has for years resided at Rock Creek, visited Greenwood and Midway during the week, leaving for home on Saturday last. During recent years Mr. James has acquired some valuable mining interests at Rock Creek, Camp McKinney and Fairview, and it was business in connection with these interests which brought him to Midway. Referring to olden times Mr. James related the fact that when he first came to the district there were no towns and only about a dozen men throughout the whole section of southern Yale, therefore after visiting Greenwood, Midway and other points he is able to appreciate the great changes which are taking place.

Genn—Bell.

The many friends and numerous acquaintences of Mr. Anthony (Tony) Genn, recently of Fairview, and Miss Mary Bell, of Vernon, and recently public school teacher at Keremeos, will be pleased to hear that they, on Monday the 3rd inst. at Vernon, the Revd. G. A. Wilson officiating, were joined in holy matrimony. The ceremony was performed at the residence of the bride's parents, and was witnessed by a select circle of friends, who, with many others will wish the newly wedded couple every possible happiness as they journey together along the path of life.
