and with gratifying results. The foldone is principally open cuts. looning descrip to of the property is

and Canada Syndicate represented in have been crown granted. British Columbia by Mr. Hector Mc-Rae, has the controlling interest. It is over three years ago that the D. A., one of the group, made its first ship ment of four and a haif tons. This shipment was sent to the Everett smelter under great difficulty, having to be packed on horseback to Boundary Falls and from there to Marcus by wagon. At the smelter the ore netted the owners \$103 in gold and 74 ounces of silver per ton. R-cently a shipment of ore was made to the Trail smelter. This ore came from the Gold Bug claim, that is now being energenerally exploited by a force of ten men under Superintendent N. Leise. The correct returns have just been received by Consulting Engineer J. E. Leckie from the smelter, and show the net weight of the ore shipped to be 28,897 pounds, with a value of \$111.55 per too, or a total for the shipment of to \$12 per ton. The values contained ounces, and lead 14.40 per cent,

Gold Bug Development.

ly be drained by the upper of the two promoter." tunnels now being driven. The upper tunnel is in 25 feet, following the course of the vein. The lower tunnel, some 80 feet below the upper, is in 20 feet. The Gold Bug claim is admirably Reviews Progress Made and Foresituated for nucl work, and as the main track of the Columbia and Western Rulway passes at the foot of the mountain immediately beneath the dumps, it will be an easy matter to send one down to a spin by a cable of the C. P. R. Co., was recently interviewed in Toronto by a representative viewed in Toronto by a representative of the Toronto "World" which says in feart the mills transway, not to exceed 400 feet in of the Toronto "World" which says in from the mills length. The resent supment was sent part. The statement is hazarded that lake craft and  $\equiv$ down to steen with a book and pulley on a rope came direct to the cars.

Native Silver in the Ore.

Hay destined for the British army in during Mr. Lover's absence toseek aid. South Africa is now being compressed their sad vigil until the doctor arrived. lyn, and is being put up in a novel a skilled resident physician, a thoroughform. The baling is done by a newly ly well-qualified schoolmaster and a invented machine. The hay is put up resident clergyman. in bales, cylindrical in form, 18 inches The Christmas examinations at the high and of the same diameter. When town of the Kettle River Mi ing Di-Midway Public School were completed haled in this shape the hay is as hard last Friday afternoon in the presence as a board. The bales weigh about 145 long been located the district offices of of a number of parents and friends of pounds each. When the hay is taken the Provincial Government, so that the presence as a noard. The taken the Provincial Government, so that the Provincial Government of the Provincial Government, so that the Provincial Government, so that the Provincial Government of the Provincial the progress made, as evinced in about three fourths of an inch thick. the County Court Registrar and the the course of the examinations conducted by the teacher, Mr. A. A. Mc by the old style required about 160 sacted here. The District Coroner and Phall. The total number of pupils on cubic feet space per ton, as compared the Provincial Chief Constable both

#### A Picturesque Townsite Affording Special Inducements for **Business and Residence** Purposes.

It is very generally admitted that Midway is the best natural site for a on liberal deferred-payment terms, town in the Boundary district. It was Some of these are already in cultivaformerly known as Eholt's, after the tion and enjoy the advantage of having original pre-emptor of the land. It was purchased from Mr. L. Eholt in purchased from The Midway Company, 1892 by Capt. R. C. Adams, of Mon- Ltd., which also sells town lots-both

been similarly named a new name purposes whilst to investors it offers had to be found for this town before special inducements, lot prices being registration could be secured. Capt. still low and the town having a bright Adams eventually decided upon the name of Midway for the reason that the town is situate about midway in British Columbia between the Rocky Mountains and the Pacific Ocean. The Among recent press despatches are first Townsite Agent was the late Mr. H. P. Palmerston and the first sale of lots was made in 1893 to Mr. John

#### A Picturesque Townsite.

Midway certainly is a most picturesque and beautiful site for a town. Occupying a broad, level plain at the CUSTOMS OFFICEconfluence of Boundary Creek with Kettle River and at the meeting place of three valleys, with the intervening mountains rising around it, it commands general admiration advantages that attach to favorable location are not for, lying in the only I through the mountains ex for a long distance, it appe to become an important chief highway through Here meet three main which come in from th country and Camp McKi west, the mining camps of Indian Reservation on 11 the extensive area of mi

country comprising th Creek district lying immediately to the north. Here, too, for some time will he the terminus of the Columbia and Western railway now nearly completed and which will give rail connection with the Kootenay and thence northwards to the C. P. R. main line or eastwards via the Crow's Nest railroad. And when competing railways shall come in it will be here that a road from REGISTRY OF MARRIAGES --Spokane via Republic and another from the Columbia River up the American Okanogau via the Palmer Mountain and Meyers Creek mining districts. will junction, These important natural advantages therefore appear to warrant the expectation that when trade and population shall have
