MACNEILL CHOSEN.

The Conservative Nominee of the Revelstoke Convention.

At the Conservative convention, which was held at Revelstoke on Sept. 15th, great enthusiasm prevailed. Seventy delegates were present, all classes being represented. A. H. MacNeill was the unanimous choice.

Two hundred and nine delegates were represented in person or by proxy. C. A. Semlin was chosen chairman. Among others there were present John Houston, R. F. Green, T. Taylor, Price Ellison, M.P.P.'s, and J. A. Mara and F. L. Carter-Cotton. A. H. McNeill, of Rossland, after receiving the unanimous nomination, asked for two hours to consider his decision. The convention assembled at 8 o'clock to receive MacNeill's decision. On his acceptance rousing speeches were made by F. L. Carter-Cotton, A. W. Ross, J. A. McKelvie, editor of the Vernon News, J. M. Robinson, of Peachland, formerly of Rossland, C. A. Semlin and others. An association was formed with honorary president A. W. Ross, president R. F. Green, M.P.P. for Kaslo, vice-president F. J. Fulton, M.P.P. for Kamloops, secretary John McKane, treasurer Dr. Osborne Morris, of Vernon. There was passed a resolution expressing confidence in Sir Charles Tupper.

BRANDON AND GOLDEN CROWN.

A Report of Their Fourth Annual Meeting.

The fourth annual meeting of shareholders in the Brandon & Golden Crown Mining company, Ltd., was held last Tuesday afternoon. Hon. T. Mayne Daly, Q.C., president of the company, presided and there were 1 358,979 out of the 1,500,000 in the company represented either in person or by proxy.

The balance sheet and auditor's report for the year ending August 31st, ult., were submitted and adopted. These were ordered printed and a copy sent to each shareholder. The report stated among other things that to date about 2,500 feet of work had been done underground in development of the mine and that the total quantity of ore shipped was 1,875 tons.

A resolution was passed providing for the pooling, for a further period of six months, dating from the time the present pool shall expire, on January 1st, 1901, of the 1,000,000 shares held by the promoters of the company. This will make the duration of the pool to have extended over a total period of four years and six months.

The election of directors and officers resulted as follows: Hon. T. Mayne Daly, Q.C., Rossland; Mr. W. A. McDonald, Q.C., Nelson; Hon. J. N. Kirchhoffer and Mr. A. Kelley, Brandon, Man.; Mr. C. E. L. Jarvis, St. Johns, N. B.; Mr. W. A. Fuller, Spokane: Mr. W. J. Porter, Phoenix, and Messrs. G. H. Collins and Jas. Russell, Greenwood. The officers are: President, Hon. T. Mayne Daly; vice-president, Mr. W. J. Porter; managing director, Mr. G. H. Collins; secretary-treasurer, Mr. W. L. Orde.

The other business transacted was of a routine character, of little public interest. It may be worthy of mention that Mr. R. L. Johnston, of St. John, N. B., attended the meeting as the representative of shareholders resident in that province, and expressed himself as well satisfied with the position and prospects of the company as submitted to the shareholders.

BEAVER CREEK.

A Number of Properties Being Worked on the East Fork.

Much attention is at present being devoted to the East Fork of Beaver creek. Heretofore little work has been done in developing the properties in that vicinity, but recent assessments have disclosed ledges of such a promising nature as to cause considerable activity in the camp.

On the Broken Hill, owned by A. Piper, H. McKay and W. A. Logan, considerable work has been done, and a rich lead of galena ore has been encountered, and the owners are so encouraged by the showing that they have decided to resume work at an early date.

Tom Curry and partner, who have been running a large open cut on the Maple Leaf No. 2, last week ran into a ledge of rich copper ore. They will now sink on the ledge and it is thought it will widen as depth is attained, and should such be the case the Maple Leaf No. 2 will ere long be counted among the leading properties of that district.

There are also a number of other properties close to those already mentioned that work will be commenced upon as soon as the wagon road to Beaverton is completed.

DOMINION NOTES.

Dr. Ryerson on South Africa---Fire at Morden.

Liabilities of the Montreal Cold Storage and Freezing Co.—Irrigation for Lethbridge—Guelph Riot.

Canada had 48,000 immigrants last year.

Thomas McCaffery, manager of the Union Bank, Winnipeg, has resigned.

The G. T. R. has revised the schedule of tolls for the Victoria Jubilee bridge.

Capt. Hewitt, R.A., will be the new professor of artillery at the Kingston college.

Harry Adams, of Wiarton, has been found dead under a railway bridge at Neustadt.

James Caldwell, of Port Rowan, is dead from poison, and an inquest is being held.

Fire at Morden, Manitoba, destroyed a large warehouse adjoining the Morden Woollen Mills. The loss is $2,500.

A small riot took place at Guelph, Ont., while the return of Private Barber from South Africa was being celebrated. The police arrested one of the crowd and a mob smashed most of the glass in the police station.

The liabilities of the Montreal Cold Storage and Freezing Co., which came to grief through dealing in bogus warehouse receipts, reach the enormous total of $550,000, of which $390,000 is secured ordinary liabilities.

Toronto street railway motormen and conductors have agreed to accept the offer of President McKenzie to pay employees in the service two years, 17 cents per hour; employees of five years service and over will receive 18 cents per hour.

A proposition is again before the people of Juneau to build a submarine cable from that place to Skagway, the head of Lynn canal. This time the proposition of a cable is conditional on the people paying $10,000, to be paid back in telegraphing.

The first frost of the season occurred in Manitoba on Wednesday night of last week. Canadian Pacific Railway weather reports indicate a light frost at Estevan and Saltcoats. Other reports show the weather to be clear and fine from Laggan to Fort William.

A man named Cook, of Carman, Manitoba, was arrested on the street at Winnipeg with a big canvas bag, containing a brick of lead, two pounds in weight, and labelled "Gold bullion, value $4,789.30, assay No. 77,604, city; paid charge to New York." His actions were suspicious, hence the arrest. The man is supposed to be demented. It is reported that he has made frequent shipments of similar bricks to New York.

A Lethbridge, N. W. T., despatch says: "At three p.m. on Wednesday, September 5th, the water in the Lethbridge branch of the irrigation canal reached the town limits, after having travelled ninety-three miles. A number of prominent citizens went out to witness its passage into the town, when they heartily cheered and congratulated Mr. Anderson, the chief engineer, upon the satisfactory conclusion of the great undertaking."

At the annual meeting of the Canadian Medical Association at Ottawa recently, Dr. Ryerson, Red Cross commissioner to South Africa, read a lengthy paper on his experiences from a surgical standpoint in that country. He again reiterated his statement that the wounded were well treated in the hospitals. Regarding the alleged use of poisoned bullets, Dr. Ryerson said he had seen many of these so-called poisoned bullets, but he stated that they were simply green with verdigris, which in all probability is burned off in the rifle while the bullet is in transit through the barrel. He had heard of no case where poisoning by a bullet could fairly be said to have occurred. He also doubted the charge that explosive bullets had been used.

It is estimated by those who have access to general reports that the grain crop in Manitoba will be more than 1,000,000 bushels short this season, owing chiefly to the drought that has prevailed most of the year, just as it has in Minnesota and North Dakota. The one product that is saving many of the Manitoba farmers from ruin is that fortunately they put in a greater amount of winter wheat than ever before. This is far ahead of the spring wheat, which in the greater part of the province is reported as absolutely worthless. In Alberta and Assiniboia, the weather, though dry throughout the summer, was not so warm and consequently the yield is better. The farmer has one source of relief. It is predicted that the price for the new crop of wheat will be the best ever obtained.

PROVINCIAL NEWS.

A Vancouver Man Awarded Silver Medal at Toronto.

Death of an Ashcroft Rancher—Kettle River Railway Now Being Surveyed—British Columbia Salmon Pack Not so Large.

The salmon pack on the Pacific coast is a thousand cases less this year than last year.

George A. Stewart Potts, of Nelson, has been appointed official stenographer for the Kootenay judicial district.

Mr. Frank Richards, of Vancouver, who, at the recent Toronto Exposition, exhibited a fine collection of oil paintings by European artists, and a large exhibit of gold and silver fancy goods, silver hollow ware, etc., has won the handsome silver medal.

While lying asleep and intoxicated across the track near Ashcroft, George Knappit, a rancher and resident of that place, was run over by a freight train, crushing his limbs in such a manner as to necessitate amputation of one leg and an arm. Knappit has been taken to the Kamloops hospital.

Twenty officers, 22 non-commissioned officers and 378 men of the Royal navy have left Liverpool for Esquimalt, to replace the crew of the Leander and the invalided marines who left the Pacific station a short time ago. The men of the new commission will arrive at Esquimalt about October 4.

At the coroner's inquest held in Victoria last Tuesday Paul Duggan, operator at Ladysmith, admitted that the wreck on the Esquimalt & Nanaimo railway, in which four persons were killed, was due to his carelessness. He reported No. 1 engine in the yard before she arrived, and sent No. 10 out.

A. Goldstein, for whom the Vancouver police have been looking for some time, has been arrested in Denver, Colorado. Detective Wylie visited Seattle a short time ago trying to locate Goldstein, without success. He has now gone to Denver upon the information that the absconding second hand dealer is in custody there. When arrested in Denver, Goldstein was registering under the name of D. Diamond.

The case of Mrs. Sibbald, accused of having stolen goods from her employer, Citron, of the B. C. Instalment concern, Vancouver, was disposed of by Magistrate Russell last Tuesday. Her evidence showed that she had taken the goods, with Citron's knowledge and consent, in lieu of wages. Citron said that he had given her certain money, but the magistrate told him that he did not believe him, and dismissed the charge altogether.

The New Westminster Columbian has heard a good story from Vancouver, where, it remarks, the Japs are becoming British subjects by wholesale. Three years' residence is required, and as that is the only subject of inquiry, every Jap is able to answer, although it may exhaust his English vocabulary. A stranger at the railway station asked an intelligent looking Jap how long it would be till the train would leave, and was surprised and annoyed at the prompt reply, "Three years." The Jap had learned his naturalization lesson.

A press despatch from Grand Forks states that the survey party for the proposed railway from Grand Forks to Republic is now in the field and rushing the work ahead as fast as possible. John A. Manly, the chief engineer, says the route being laid out is a most satisfactory one and presents no especial engineering difficulties. It has not yet been definitely decided which side of the river the road will follow, but within a couple of weeks the selection will be made and then the grade stakes will be set, after which the work of construction will be commenced and rushed to completion. The promoters expect to have dirt flying on the road within a few weeks and the line laid from Grand Forks to its Republic terminus inside the next six months.

The first of the new type of locomotives recently built for the C. P. R. arrived in Rossland a few days ago, says the Record, and attracted large crowds of curious spectators. The huge monster was drawing behind it nine cars heavily loaded with coal and freight. The engine is a study in itself. It weighs 96 tons, or 107 when loaded, and was built at Lima, O., expressly for this division. Its tractile or drawing power is estimated to be at least three times as great as that of any other type of locomotive. It is propelled by three large cylinders attached to a crank shaft and the power is applied to the wheels by means of gears. The assertion is confidently made that it is the strongest type of locomotive in the world, and the fact that it was built expressly for the Rossland trade gives it added local interest.

MONDAY, SEPTEMBER 24, 1900.

The Postmaster-General of New Zealand has sent a message to Hon. Wm. Mulock announcing that the colony will adopt penny postage on the first of January next.

Of all the calamities that have befallen the United States during the past four years, there is but one that the Democratic party has not accused President McKinley of being the direct cause of, and that is the recent destruction of Galveston, Texas.

The Provincial Government has at last realized the necessity of repairing the bridges in the vicinity of Midway and have accordingly put a gang of men at work. It is sincerely hoped that they will be allowed to continue until every bridge in the district will have been put in good repair.

The amendments to the Mineral Act which have become law this year: A crown grant may be issued to the administrator of the estate of a deceased owner; a fine of $25 and costs to be imposed for mining without a licence; advertising out a delinquent co-owner; counting of a survey as assessment work, and raising the fees for a crown grant to $25.

The great cigarettemaker's strike in New York is at last at an end, after a lock-out of twenty-six weeks, and the operatives have returned to their work. Apropos of this an exchange remarks: The strikers made a lamentable mistake. What they should have done was to have formed an international union, enrolled all the cigarettemakers in North America in one vast federation, and then marched boldly out, and got jobs on farms.

The result of the Canadian exhibits at the Paris Exposition has proved most gratifying. The Dominion received 13 grand prizes, as follows: Primary, secondary and superior education; plans of public works, experimental farms, cereals, dairy produce, fruits, minerals, furs, fisheries, metallurgy and forestry. The province of Quebec exhibits received four grand prizes, as follows: Primary education, cereals, dairy produce and minerals. The province of Nova Scotia received two prizes, as follows: Minerals and cereals. Manitoba received one grand prize for cereals and British Columbia one for minerals.

AGAINST THE C. P. R.

Arbitrators Decide in Favor of Machinists—Shorter Time for Apprentices.

The arbitrators to settle the question of wages for the machinists of the Canadian Pacific railroad have given the following decision:

"The men from Fort William to Laggan to receive an increase in pay of 2 cents per hour. Men from Laggan to Kamloops, both points exclusive, and the West Kootenay to receive 1 cent increase. Men from Kamloops to Vancouver to receive 2 cents advance. Rates for young men who have just completed their apprenticeship in the company's shops and all new men engaged will be on rates of the schedule hitherto prevailing, but the term of probation will hereafter be six months instead of a year for new men, one year instead of two for young men who have just completed their apprenticeship.

Mining as a Business.

Mining is a legitimate business. It is not more speculative than other lines of business. It requires skill and good judgement, and some capital, to win success, with these success is almost a certainty. The man who constructs a pyritic smelter where the ores carry an average value of less than 12 per cent. sulphur will be very certain to make a failure of his enterprise. The man who builds a large milling plant on a prospect and then goes gunning for ore with which to keep it in operation is likely to make a failure. The man who puts his money in a secret process guaranteed to save more values than is shown by a fire assay ought to, and always does, lose his cash. It is said that 98 per cent. of the men who embark in business make failures. It may be said that every man fails who attempts to conduct a business which he does not understand. The greatest successes in the business world are obtained by those who are able to choose first-class assistants. If you do not understand the business of mining and are not able to select a man who does to handle your enterprise, don't invest in mining. If you do, you are safer in mining than in any other business. The great majority of men who mine with intelligence and good judgement succeed. The percentage of those who succeed is greater than in any other line of business.

The Sanford Manufacturing Company, of Hamilton, has shipped 11,000 overcoats for the Indian troops now in China, via Vancouver.

The "Cross" for a Canadian.

There is jubilation in Canada over the award, officially gazetted, of the Victoria Cross to Sergeant A. H. L. Richardson, of Strathcona's Horse. Richardson gained the Cross at Wolfe Sprut, near Standerton, on July 5th, when a small party of Strathcona's engaged a double number of Boers. After the order to retire had been given, Richardson, who was on a wounded horse, rode back under a heavy crossfire, to within 300 yards of the enemy, rescuing a wounded trooper, whose horse had been shot.

A. H. L. Richardson joined Strathcona's Horse in the North-West, as a private in A Squadron.

WAR

Life-Motion Pictures
OF THE
British-Boer War

Taken by MR. BENNETT SANFORD, of the Warwick Trading Company War Staff, now with the British forces in South Africa.

Every Picture

Is absolutely genuine. We will on no condition exhibit pre-arranged or fake war subjects.

Don't forget to see the moving pictures of the First Canadian Contingent. It is 250 feet long and contains nearly 10,000 photos.

PROF. B. C. HARRIS

The great composer and song illustrator, will sing a number of popular and patriotic songs, with beautifully illustrated slides, projected on the canvas while the songs are being sung.

Will exhibit in
Noble's Hall, Midway,
ON
MONDAY, SEPT. 24

Admission 50c., Children 25c.
Reserved Chairs, 75c.

THE GAME LAWS.

The open seasons for game are, respectively, as follows, both days being inclusive:

September 1st to February 28th—Bittern, ducks of all kinds, heron, meadow lark, plover.

September 1st to December 31st—Caribou, elk, wapiti (bull), grouse of all kinds, including prairie chickens, hare, moose (bull).

September 1st to December 14th—Deer (buck), deer (doe), mountain goat, mountain sheep (ram).

November 2nd to March 31st—Beaver, land otter, marten.

Unless specially provided, it is unlawful to shoot or destroy the following: Insectivorous birds, English blackbird, caribou (cow or calf), chaffinch, deer (fawn under 12 months), elk, wapiti (cow), elk, wapiti (calf under two years), gull, linnet, moose (cow or calf under 12 months), mountain sheep (ewe or lamb), English partridge, cock pheasant, quail of all kinds, skylark, thrush, and eggs of protected birds.

It is unlawful to buy, sell or expose for sale, show or advertisement: Insectivorous birds, bittern, English blackbird, caribou (cow or calf), chaffinch, deer (fawn under 12 months or doe), elk or wapiti of any sex or age, grouse of all kinds, except blue grouse, which may be sold during the open season; gull, linnet, meadow lark, moose (cow or calf), mountain sheep (ewe or lamb), English partridge, cock pheasant, hen pheasant, quail, robin, skylark, thrush, at any time.

It is unlawful to buy, sell or expose for sale, show or advertisement: Caribou, hare, bull moose, mountain goat, mountain ram, before October 1st; buck deer, blue grouse, plover, during the close season.

Farmers only may shoot robins in gardens, between June 1st and September 1st.

It is unlawful to kill and take in one season more than five caribou, ten deer, two elk, 250 duck, two moose, five mountain goats, three mountain rams, and to hunt deer with dogs, or to kill deer for hides alone.

Applications for Certificates of Improvements.

Important news has been received at Camp McKinney confirming the report that the Minnehaha Gold Mining company, of Toronto, has been absorbed by the Sailor Consolidated Mining and Milling company, of the same city, and that work will be resumed on the Sailor at an early date. The capital stock of the Sailor company is to be increased from $1,250,000 to $2,000,000, and the shareholders in the Minnehaha will receive one share in the Sailor for two held in the Minnehaha, which is capitalized at $1,000,000. As only 50,000 shares out of the 250 000 shares in the treasury of the Sailor company have been sold, with the increased capitalization the company will have 450,000 shares in its treasury. A portion of this stock is to be sold to provide an ample working fund for the consolidated mines, as well as to pay off all old debts owned by the Minnehaha company. W. C. Fox, of the mining firm of Fox & Ross, of Toronto, a director in the Sailor company, as also the promoter, is shortly expected in camp to arrange for the resumption of work. This deal means much for the camp and if, as is confidently expected, the Sailor company also acquires the property of the Kamloops-McKinney Gold Mining company, lying between the Sailor and the Minnehaha claims—a deal for which is on the tapis—it will give the Sailor company ground covering nearly a mile in extent on the main lode of the camp, besides other adjoining properties owned by the original three companies on which more or less development has been done.

Andrew Laidlaw, who recently bonded the Evening Star and Sibley claims in Wellington camp, is pushing the development. After stripping the big copper-gold ledge on the Evening Star he has now started sinking. The shaft is 8 by 4 feet in size, and is down 15 feet in splendid ore. It will be continued to a depth of 100 feet, when the ore body will be crosscut.

The recent splendid mill returns from the Cariboo have determined the management to at once start a new and thoroughly equipped working shaft on the Okanogan claim, where clearing is now going on preparatory to commencing a triple compartment shaft, 16 feet by 7 feet, to be sunk 600 feet as quickly as practicable. A winze will be sunk from the 400 foot level and then an upraise made from that level to the surface. As this shaft will be a considerable distance east of the present working shaft, a new covered tramway will be built about 1,000 feet in length, to connect with the mill where new 50 horse power engine is about to be installed to meet the increased capacity which will be required as development progresses. On the west end of the company's properties development will be vigorously pushed underground, and an upraise made on what is known as the Alice claim. A very large increase to the present working force of the company will be necessary, and already steps have been taken to bring men in from the outside, and it may be here mentioned that the wages of carmen and muckers have been raised to $3 per day.

Night on a Cattle Range.

There's a weird-like charm in the starlit night on the breast of the Western plains,
Where a stillness falls like a veil of peace as the day in its glory wanes.
Where the night breeze kisses the fevered earth and the gems of the star world gleam
With their twinkling sparkles of every light till the heavens with beauty team.
The heart beats soft with a soothing sense of freedom and calm delight
As we lie and gaze at the whip poor wills o'erhead in their playful flight.
Where the grasses rustle a lullaby by the breath of the night wind stirred,
And the dog-wolf howls in the sandy rills and the cowboy sings to the herd.
Off there on the breast of the rising slope the cattle in quiet lie,
Nor raise their heads when the shadowy form of the rider passes by.
But close their eyes when the soothing song of the tireless watcher they hear—
The song that tells them to lie in peace, no danger is lurking near.
The weary man from the city's noise on the grass in his blanket lies
And reads a story of peaceful rest on the scroll of the starlit skies,
And dreamily watches the fitful flight of the restless nocturnal bird,
Where the dog-wolf howls in the sandy hills and the cowboy sings to his herd.
How near the presence of God we feel; how sacred the stillness seems,
How the wearied soul in its new-found rest with the joy of existence teems!
How we almost think we can see the face of the Father of all up there
In a twinkling frame of the silent stars that jewel the midnight air!
What fancies fill the delighted brain as we float on a dreamy sea
To the mystic shadows of Slumberland from the cares of the earth set free—
Float on till the last dim vision of earth by the finger of sleep is blurred,
Where the dog-wolf howls in the sandy hills and the cowboy sings to his herd.

—From the Denver Evening Post.

ATTENTION!

There is no better investment at the present time than Midway property. Those who bought in Spokane a few years ago have since made fortunes. Midway is the Spokane of the Boundary Country. It is the coming metropolis of the interior. Trains will be running into Midway in a short time and the prices of lots will go up. Invest now and make money.

For prices and terms apply to
