Death of Theodore Gunderson.

It is our painful duty to this week chronicle the death of Theodore Gunderson, which sad event occurred last Wednesday evening, after a long and painful illness.

Last winter Mr. Gunderson went east and while there contracted a cold, which although not considered serious at first, afterwards developed into lung trouble of so serious a nature as to render an operation necessary. The operation, which was for the purpose of removing pus that had gathered about the lungs, was most successfully performed and in a comparatively short time the patient was around and feeling quite well. So near was recovery complete that he was able to engage in out-of-door pleasures such as riding and driving, without experiencing any ill effects.

During the time of his first sickness, his mother, who had but a short time before gone to California to spend the summer, with another son, was sent for; she arrived a few days after the operation, and so soon was he in apparent good health that her return was thought unnecessary.

But all this time disease had gradually entwined its tendrils around the ever weakening form of the patient. Even more sudden than he temporarily recovered, he was again taken worse. Again medical attendance was sought and a trained nurse remained constantly in attendance; everything that was possible for human aid to accomplish was performed, but all to no purpose, death had marked him for a victim and at a little after seven o'clock on Wednesday evening he passed away in the presence of his father and mother, news not having reached his brother, at Oakland, California, in time to admit of his being present, even for the burial.

Theodore Gunderson was a valued resident of Midway, and his death at the early age of twenty seven was deeply felt by all who had the pleasure of his acquaintance. His quiet manner and exemplary habits won for him the respect and esteem of all. He was possessed of an irreproachable character that had a good influence upon those whom he came in contact with, so that in his demise the community loses one of its most valued citizens, and the parents a dutiful son.

The deceased came to Midway about four years ago and has been a resident of this place ever since, save for a time last year when he was absent for a few months employed on the International boundary line survey in the neighborhood of Sheep Creek, and his services in this connection were so valued that he would have been similarly engaged this year had not Providence ordained otherwise.

The funeral was held from the family residence on Friday morning at 10 o'clock, and was very largely attended. Rev. A. S. Thompson ably conducted impressive services both at the house and the grave. The casket was hidden beneath the profusion of floral offerings contributed by the many friends of the deceased. The pall-bearers were: C. J. Lundy, J. H. Bush, D. G. Mills, H. H. Pannell, F. Kroupa and C. M. Crouse.

The bereaved relatives have the heartfelt sympathy of the entire community in their sad bereavement.

The Granby Mines.

George L. Walker recently wrote the following about the Granby mines in the Boston Commercial:

Granby Consolidated is described by those who have recently inspected it as a mining proposition of tremendous possibilities. Its ore body is fully proved for 2500 feet in length by 400 feet wide and 300 feet deep, making a total of fully 20,000,000 tons in sight. This ore is not broken by dikes or other rock intrusions, and carries just enough iron, sulphur, silica, etc., to make it a perfect smelting proposition. It is figured out that it can be mined at a cost of \$1 per ton, and it is believed that it can ultimately be smelted for another dollar per ton, though this is yet to be demonstrated.

The ore has a value of \$4.50 to \$5 per ton, yielding from 25 to 27 pounds of fine copper and \$1.75 in gold and silver. It costs from 11-2 to 13-4 cents per pound for refining and freight on the bullion from the time it leaves the smelter until it is ready for sale in the market at New York. If the ore can be handled and all costs met with a total expenditure of \$3.50 for each ton, therefore, it will represent only a 7 cents per pound cost for copper.

The company now has four furnaces and is installing two more. The six will be capable of treating 2000 to 2500 tons of ore per day. With copper selling at 24 1-2 cents per pound there should be a net profit of \$1.80 per ton on the ore treated, or at the rate of \$1,296,000 to \$1,620,000 annually, equivalent to better than a dollar per share on the company's outstanding stock.

At present smelting operations are curtailed by inability to get an adequate supply of coke. This trouble will be remedied shortly. Coke costs \$3.50 per ton at the smelter. Miners are paid \$3.50 per day and surface men \$3. It is the plan of the management to continue smelter operations as at present until the matter of costs has been fully demonstrated, after which the question of doubling the number of furnaces will receive attention. In the meantime additional exploratory work is being done.

It is declared that the estimate of 20,000,000 tons of ore in sight is very conservative. It is based on a measurement of 2500 feet in length and a depth of 300 feet, while a shaft is already down 100 feet deeper, and in ore all the way.

John Stanton believes the Granby will make its copper at a cost of 7 cents per pound.

Away on a Pleasure Trip.

Last Friday night, as the result of an executive meeting, Charles Wilson, K. C., president of the council, and R. F. Green, minister of mines left for Ottawa, where they will lay before the Dominion government some matter affecting the province.

The new government is apparently to follow in the lead of former ministries of the province. It has dispatched its delegation to the federal capital preparatory to getting out an election platform. The delegates will have among the principal features of their business the immigration question. Fearing that the Dominion may have in view the disallowance of acts passed at the last sitting of the legis-

lature dealing with the subject of oriental immigration, the ministers will press upon the government the necessity for strict laws dealing with this question. The delegates, it is said, will urge upon the Dominion government that the Japanese government is apparently not carrying out the agreement to restrain immigration of Japanese to Canada, which was used as an argument against allowing legislation aimed at Japanese immigrants. The delegates claim to be around with information on this point and will make vigorous protest against any proposed disallowance.

The Westminster bridge will, as usual, be a question for conference, and the silver-lead question will also be brought up. The special mission of the minister of mines is undoubtedly in connection with the industry and in this way it is hoped that a mining policy may be evolved which will materially assist that minister in the upper country.

Bill No. 16 will also be dealt with, and an effort will be made to insure the bill being allowed and the action of the House in connection with blocks 4593 and 4594 endorsed by the Dominion government so that these tracts may be kept out of the hands of the C. P. R.

An Ottawa despatch states that a Liberal representative from British Columbia, when asked about the mission of Messrs. Wilson and Green to Ottawa, said they were no doubt taking a holiday trip at the expense of the province. Incidentally they would try and find a cry to use at the election. The representatives from British Columbia in the Dominion parliament are fully informed on all questions relating to their province, and at the present moment have them well in hand. The pretence hands of Messrs. Wilson and Green will only injure the matter, but probably the visit to Ottawa is only a blind to cover up negotiations to be carried on in another city for funds to run the election. In any case they are not travelling for their health.

The Bounty on Lead.

OTTAWA, July 6.—Finance Minister Fielding to-day gave notice of regulations authorizing the payment of \$500,000 a year for 5 years by way of bounties to the lead producers of British Columbia. The terms of the resolutions are as follows:

(1)—The governor in council may authorize the payment of a bounty of 75 cents per hundred pounds of lead contained in lead bearing ores mined in Canada, such bounty to be paid to the producer or vendor of such ores upon evidence that such ores have been smelted in Canada, provided that the sum to be paid as such bounty shall not exceed five hundred thousand dollars in any fiscal year. Provided also that when it appears to the satisfaction of the minister charged with the administration of this act that the standard price of pig lead in London, England, exceeds twelve pounds ten shillings sterling per ton of two thousand two hundred and forty pounds, such bounty shall be reduced proportionately by the amount of such excess.

(2)—The payment of the said bounty may be made from time to time to the extent of sixty per cent of the full bounty authorized, subject to adjust-

Continued on page 4.

SATURDAY, JULY 11, 1903.

Register your vote now. After August 14th no applications will be received. On August 31st the several courts of revision will be held to finally settle and determine the list.

All the voters' list have been cancelled, and everyone who wishes to vote at the approaching provincial election must re-register his vote. This should be attended to at once. The qualifications for voters: Applicant must be male sex, 21 years of age and a British subject; resident six months in the province and one month immediately prior to date of application in the electoral district where registration is desired. Applications for registration must be made on the proper forms and must be sworn to before one of the following officers: Justice of the peace, mayor, reeve, alderman, councillor, notary public, collector of votes, provincial constable, government agent, government assessor, mining recorder, deputy mining recorder, judge of any court, stipendiary magistrate, municipal clerk, municipal assessor, postmaster, postmistress, Indian agent, commissioner for taking affidavits in the supreme court, registrar of titles, deputy registrar of titles. After being subscribed and sworn to the applications must be sent or handed to the collector of votes—for Greenwood riding, W. G. McMynn, mining recorder.

THE LIBERALS AND CONSERVATIVES.

Now that it has been decided to conduct provincial affairs on dominion party lines, it might be profitable to consider what principles the two leading parties advocate, and what have been their leading policies in the past, and what they are at the present time. A conservative in politics is defined as one who desires to maintain existing institutions and customs one who is opposed to change, and has the disposition and tendency to preserve what is established.

It is easy to understand that conservatives desire to preserve intact much that was advocated and carried into execution by Sir John A. MacDonald and other leaders, who controlled the dominion for about 25 years since confederation. They will find many liberals to agree with them in this, and it is said, that Sir Wilfred Laurier has more than once expressed his appreciation of the statesmanlike manner that Sir John A. MacDonald met and solved the many difficulties that confronted him as leader of the government in the earlier years of the dominion. But these difficulties are not before us for solution to-day. They are at rest, and many of the leading statesmen who had the settlement of these questions have passed away; and others, like Sir Charles Tupper and Hon. Geo. E. Foster, have fallen by the wayside, because they were unable to grasp the new situation, to keep up with the procession. It should not be forgotten that the primary object of our decision to run affairs on dominion lines is not to preserve the principles of liberalism or conservatism or the liberal or conservative party. The liberals in the dominion are safely entrenched in power for the present, and the conservatives under Mr. R. L. Borden make a very respectable opposition

THE EMPIRE TOBACCO CO., LTD.

The true reason for the introduction of party lines into provincial affairs is that we are tired of coalition governments, and need party lines for better organization. Party lines, or not, we must preserve our autonomy. It must be the province first and the dominion second, where their interests clash. The conservatives, as we have said, desire to maintain existing institutions and customs. What portion of Turnerism, Semlin-Cottonism, Dunsmuirism or Priorism does premier McBride and his government desire to preserve and keep intact?

We cannot imagine anything except themselves and the old Tory gang, that will certainly sink or swim with the McBride government. On the other hand, the Liberal party favor change and reform in administration. They have played a most important part in the governments of the older provinces, and still continue to do so. Let every elector ask himself, which party is likely to give us what we need so much, reform in the administration of provincial affairs.

THE LIBERAL PLATFORM.

The liberal platform, as adopted at the provincial liberal convention held at Vancouver on February 7th, 1902, is as follows:

1. The immediate redistribution of the constituencies of the province on the basis of population but allowing a smaller unit of population per seat for the outlying districts.
2. Government ownership, Dominion, provincial and municipal, of public services of utilities is sound and should be carried out in British Columbia.
3. Should it be advisable at any time to grant aid to a railway company such shall be in cash and not in land and no bonus of any kind shall be given without definite and effective means being taken to safeguard the interests of the province in the management of the road, control of the freight and passenger rates, and provision made against such railway having any liability against it except for actual cost.
4. Immediate construction of the Coast-Kootenay railway; the Cariboo railway; a railway from Alberni to a point on the east coast of the island; a road in the northern part of the province from the coast to the eastern boundary with an extension to the northern boundary; the railway from Vernon to Midway by north fork of Kettle river; with necessary branch lines, ferries and connections.
5. The enforcement of the act now in force compelling the scaling of logs by government scalers.
6. That such legislation should be enacted as will result in making the lands included in the various dyking areas available for cultivation as quickly as possible and secure prompt payments of assessments when due.
7. That the government should keep in touch with con-

build and operate smelters and refineries. No reasonable change should be made in the mining laws without full notice to all parties interested, giving full opportunity for discussion and criticism.

8. As the province can only advance by the settlement with in its borders of thrifty and prosperous citizens, and as Orientals never become citizens in any proper sense of the word, we declare it to be the duty of the government to discourage Oriental immigration and employment by every means within its power, and we appeal to our fellow liberals throughout the Dominion to aid us in our efforts to protect ourselves against the ruinous competition of men having a standard of decency and comfort immensely below that of civilized peoples, and who shirk every duty and obligation of citizenship which the law will allow them to escape.

9. The government ought to prevent the waste and suffering caused by strikes and lock-outs, and an earnest effort ought to be made to provide some means of preventing such strikes and lock-outs, and to approve the adoption of compulsory arbitration.

10. The fiscal system of the province stands in need of revision. Taxation should bear upon privilege rather than upon industry, and no addition should be made to the debt of the province except for public works properly chargeable to capital.

11. The retaining of the resources of the province as an asset for the benefit of the people and taking effective measures to prevent the alienation of the public domain except for actual bona fide business or industrial purposes, putting an end to the practice of speculating in connection with the same.

12. The construction and maintenance of roads throughout the province to aid in the development of the mining and agricultural districts.

S. A. CROWELL, PROPRIETOR

O. Thompson is away on a trip up the west fork of Kettle river.

M. Melville and son, Will, working at carpenter work Grand Forks.

Josephine Leveque of Greenwood, spent a few days in Midway this week.

Mr. and Mrs. Jas. H. Bush ended the celebration at Midway on 4th inst.

There has been struck in the lead on the Ruby, which is about 100 feet.

Shallenberger is putting a lot of men at work on the recent in Skylark camp.

Mr. J. W. Reed, who has been visiting her parents here, returned to her home at Eholt yesterday.

A. McPhail left on Saturday for his home at Carman, Manitoba, where he will spend his holidays.

Benjamin Benerman left on Wednesday to do assessment work on a mineral claim on the west side of Mount.

D. Cunningham and J. J. D. of Leduc, Alta., are spending a few days in Midway. They have taken back several carloads of horses with them.

Mr. and Mrs. J. W. Winters returned to their home at the Defiance mine where Winters has been working since being temporarily closed.

The funeral of Mrs. Mose, who died at Ananda, on Saturday, 4th inst., took place Tuesday afternoon. Her body was buried in the Greenwood cemetery.

J. Hardy, of Greenwood, returned to Midway on Wednesday. Hardy had just returned from a ten-days' trip through the Edmonton district and speaks very favorably of that country.

Mrs. McKaracher and family arrived in Midway on Saturday. Mr. McKaracher, who is engineer on the Columbia and northern railway, and whose family is out of Midway. They will in future reside here.

Miss M. Jackson arrived in Midway last week from Ontario and is spending a few weeks with her brother, J. R. Jackson, who came by way of Nicola and accompanied on the journey by Mr. Jackson's sister-in-law.

Miss Tannahill, of that city, who will spend her vacation here.

The voters' list for the Greenwood electoral district is having the names added to it daily. Yesterday the total number enrolled on it had exceeded 400. Regarding the applications to the government office in Greenwood for the requisite forms, there will be quite a number of people who apply for naturalization at the next sitting of the registry court, to be held in Greenwood on the 14th inst.

Development work on the Copper Mines company, a large corporation, was started this week. The properties are situated on Hardy mountain, four miles from Grand Forks, and owing to the large bodies that have been opened up promise to be big shipments in the near future. The property is self-fluxing. The president of the company is Charles Magee, of Chicago. Mr. Magee is the property directing the operations. A glory hole has been opened up. Shipments will be made at an early date.

The recent rains appear to have been general throughout the Boundary and the districts eastward to the lower Okanagan. The driver of the weekly stage from Westbridge to Beverdell found that the water

Anyone wishing to purchase horses will find it to their interest to inquire of J. A. COULSON one and a half miles from Midway, or Dispatch office.

CARD OF THANKS

Mr. Mrs. and Gunderson wish to thank their many friends, who so kindly lent their assistance at the time of the sickness and death of their son.

er, already high when he went up, had risen two feet between his going up stream and returning the following day. As the west fork of Kettle river has to be forded four times between the two places named, the traveling was somewhat risky, for the horses had to swim across the stream, the water having been over their backs. News advices from Camp McKinney tells of much rain in that neighborhood, whilst in the farming sections of Anarchist Mountain and eastward to Rock creek the rains have been timely and helpful to the growing crops. The area under cultivation from Rock creek westward to Sidley is larger than in any previous year and the prospects are favorable for good crops of grain, hay and roots, Between Rock creek and

IMMENSE OPPORTUNITY.

For Getting a Beautiful Watch and Chain Free.—No Money Required—Every Man, Woman, Boy, or Girl has the same Opportunity under our System.

In order to have Dr. Arnold's English Toxin Pills placed in the hands of all persons suffering from bad health we make the following most liberal offer:—

If you will send us your name and address and agree to sell for us twelve boxes of Dr. Arnold's English Toxin Pills at 25c. per box, we will give you absolutely Free a beautiful Watch and Chain in either Ladies or Gents size, or your choice of twenty other premiums such as fine sets of Jewelry, Rings, Violins, Mandolins, Tea Sets, Sateen Skirts, Cameras, etc. Remember we don't want any money until after you sell the Pills and you don't have to sell any more than 12 boxes to get the premiums. This is a bona fide offer from a reliable concern that has given thousands of dollars worth of premiums to agents all over the country. Remember also that Dr. Arnold's English Toxin Pills are a well known remedy for all diseases of the kidneys and bladder, Bright's disease, diabetes, rheumatism, nervous troubles, and female complaints, and are for sale by all first class druggists and dealers in all parts of the world. You have only to show them to sell them. You are not offering something that the people don't know. NOTICE OF FORFEITURE.
To Thomas Murray, of Ymir, and M. J. Moriarty, late of Ymir, B. C.
Sirs: You are hereby notified that I have expended One Hundred Dollars (\$100.00) in assessment work on the "Lucky Jim" Mineral Claim, situate near Myers Creek in the Greenwood Mining Division of Yale District in British Columbia, to hold said claim for the year ending October, 10th, 1901, and a further sum of One Hundred Dollars (\$100.00) in assessment work to hold said claim for the year ending October 10th, 1902, and have further expended the sum of Five Dollars (\$5.00) in recording said assessments in order to hold said claim under the provisions of Section 24 of the Mineral Act. And if within ninety days after the publication of this notice, you, or either of you fail or refuse to pay or contribute your portion of the expenditure required under said section 24, that is to say, the said Thomas Murray in the sum of \$34.16 and the said M. J. Moriarty in the sum of \$28.33, together with your portion of all costs of advertising, the interest of such of you as fail or refuse to contribute your portion of said expenditure and costs of advertising, shall become vested in the subscriber (your co-owner) under section 4 of the "Mineral Act Amendment Act, 1900. Dated at Camp McKinney, B. C., this 27th day of June, 1903. Last issue Sept. 27th, 1903. J. A. DALANDER, Henry Nicholson, Notary Public.

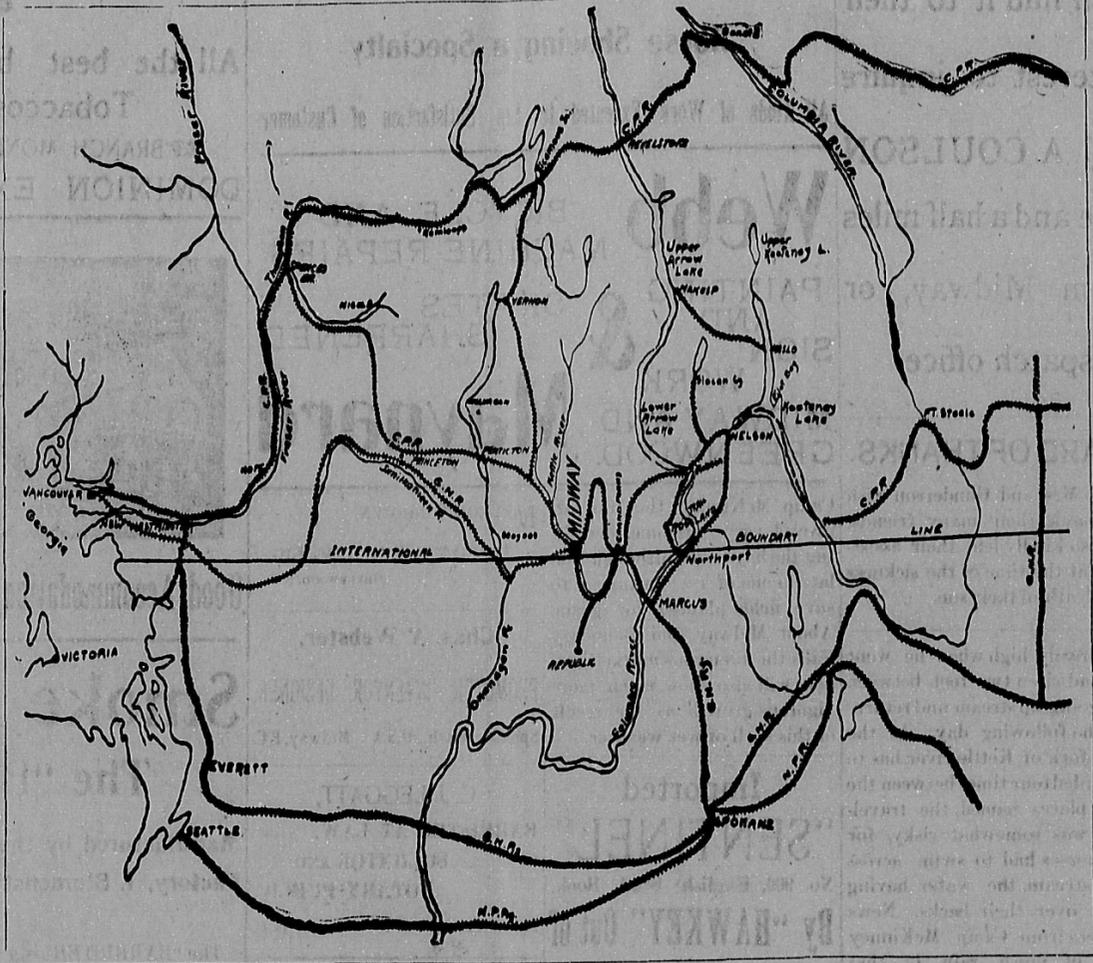

TENDERS.
Estate of William Edwards, late of Camp McKinney, B. C., Deceased Intestate.
TENDERS will be received by the undersigned up to noon on the 22nd July, 1903, for the purchase of the following mineral claims and mining interests situate near Camp McKinney, in the Greenwood Mining Division of Yale:
North Star Mineral Claim, Crown Granted.
Nest Egg Mineral Claim.
Trapper Mineral Claim.
Highland Chief Mineral Claim 1/2 interest.
Sunset Mineral Claim 1/2 interest.
Slamath Mineral Claim 1/2 interest.
All persons having claims against the said estate are requested to file them with the undersigned before the 22nd day of July, 1903 and all persons indebted to the said estate are required to make payment forthwith.
HENRY NICHOLSON, Administrator.
Camp McKinney, June, 24th, 1903.

TAKE NOTICE
That 60 days from the date hereof, I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of land being the south west 1/4 of Section 33, Township 49. Dated this 16th day of May, 1903. H. W. YATES, C. de B. GREEN, Agent.

MIDWAY IS ON THE MAP TO STAY...

It will be the most important Railway Centre in the Interior of British Columbia. It is in the centre of a rich Mining, Stock-Raising, Ranching, Gardening, Manufacturing, Coal Producing, and Railway District.

Midway property will make you rich. It is not a speculation, it is an investment.

Midway, the coming railway, commercial, wholesale and manufacturing centre of the Kettle River and Boundary Creek Districts, is situated at the confluence of Boundary Creek and Kettle River. The leading aside new town in the country, with an excellent climate, pure water supply, and surrounded by rich agricultural land.

Business, residence and garden lots at low prices and on easy terms. Send for maps, prices, and full particulars to

ment at the close of each fiscal year. If at the close of any year it shall appear that during the year the quantity of lead produced on which bounty is authorized exceeds 33,330 tons of 2,000 pounds each, the rate of bounty shall be reduced to such sum as will bring the payments for the year within the limits mentioned in section one.

(3)—If at any time it shall appear to the satisfaction of the governor in council that the charges for the transportation and treatment of lead ores in Canada are excessive, or that there is any discrimination which prevents the smelting of such ores in Canada on fair and reasonable terms, the governor in council may authorize the payment of the bounty at such a reduced rate as may be deemed just on lead contained in such ores mined in Canada and exported for treatment abroad.

(4)—Said bounties shall cease and determine on the 30th day of June, 1908.

Busy Times in Boundary District

The Boundary Falls smelter blew in its second furnace last Tuesday morning, the coke supply being practically assured. The main difficulty in the district at present is a shortage of men. Every mine in the district is running full blast and the three smelters are running at full capacity. The third furnace for the Boundary Falls smelter left Spokane on Friday, 3rd inst. and will be installed immediately upon arrival.

Thos. McDonnell and H. S. Simmons, of Greenwood, have obtained a lease and bond on the Roderick Dhu in Long Lake camp, and will start work in a few days.

NOTICE OF FORFEITURE.

To A. W. Boyd or any person or persons to whom you may have transferred your interest in the "Morning" Fractional Mineral claim, situate in Camp McKinney, in the Greenwood Mining Division of Yale District.

You are hereby notified that I have expended \$102.50 in order to hold the said mineral claim under the provisions of the Mineral Act, that you should contribute \$34.16 as your portion of the said sum for your undivided one third interest in said claim and if within 90 days of the first insertion of the date of this notice you fail or refuse to contribute the sum of \$34.16 which is now due by you, together with all costs of advertising, your interest in said mineral claim will become the property of the subscriber under section four of an Act entitled the "Mineral Act Amendment Act," 1900.

Dated this 2nd day of June, 1903.
GEORGE M. BENNETT

THE NORTHWESTERN BUSINESS COLLEGE

809 Second Ave., Spokane, Wash.

The school where thorough work is done; where the respect is always given; where confidence is developed; where BOOKKEEPING is taught exactly as books are being kept in business; where SHORTHAND is scientific; where penmanship is at the best; where merit is the standard; where the training in CIVIL SERVICE, TELEGRAPHY, ENGLISH and CARTOONING wakes students, develops their powers and teaches them how to be successful. No argument is so eloquent as the record of things well done. No mortgage can corrupt, no thief can break through and steal the knowledge of How to Do. Why do you know what a school can do for you by what it has done for others is it better to trust to luck? Is it wiser to guess?
