...Copper and Gold...
The Similkameen district is noted for its ledges of Copper-Gold ores.

Quality and Price.
While W. T. Shatford & Co. are noted for the quality and price of the goods sold by them. PROSPECTORS and MINERS operating in the Similkameen and surrounding mining camps, would do well to outfit at one of our stores, where everything is kept that is needed in the mining business.
Instead of buying outside, buy right at home, and so save money, and this more particularly refers to prospectors going into the district above referred to.

More "Feeders" for Midway.

Some Promising Gold Mining Properties that will be Tributary to Midway.

WHAT EASTERN INVESTORS WANT.

Mr. Percy F. Godenrath of the "Spokesman-Review" staff was in Midway recently on his way to Republic. He had been spending a vacation in Okanogan county, Washing. Said he "Most of my time I spent around Chesaw. I visited Loomis and saw the work in the big Palmer Mountain tunnel, which was in 2,100 feet and had cut 13 distinct veins. At Oroville I visited the properties of the Okanogan Free Gold Mines Ltd, a Canadian comhaving at its head the Hon. T. Mayne Daly, Q C., of Rossland. The 10-stamp mill here was about completed and should now be in full running order. There is plenty of rich ore to work on and manager Edgecombe is placing the mine on a good working basis.

"I enjoyed my visit to Chesaw and had some good fishing and shooting. I found time however to visit a number of the claims of the Meyers Creek camp. The showings are good and, what is better, they 'stand up' when assayed.

"I believe the coming fall will witness as big a boom in this camp as Republic had The Review mine, recently purchased by McEntire, McDonnell & Co., of Greenwood, for themselves and eastern Canadian associates, is turning out well. From the end of a 250-foot tunnel on the ledge they crosscut the vein from the footwall to the hanging wall and found it 46 feet in width. The ore in places is rich with free gold showing. A conservative average value is given at $15 per ton. The new owners are continuing the tunnel. The War Eagle is also promising. Its shaft was sunk through a broken up quartz formation 55 feet before encountering the hanging wall and the sinking has since been in the vein for 15 feet. The average of this ore body is $16.50 per ton.

"Chesaw has been surveyed for patent and the lots are now on the market. It promises to be a lively town and is well situated. Midway will be the nearest railway point to this coming district and will derive benefit from both much of the travel to and from it and its freighting business."

Influential Visitors.

On Tuesday last Messrs. Robert Jaffray, A. A. Cox and Major Pellatt, of Toronto, Ont., were visitors to Midway. They were met at the Lancashire House by Mr. John Douglas and the Townsite Agent, who conversed with them for a couple of hours, giving them information relative to the town and district. They mentioned that they had come in from the coast via Penticton and after spending a day or two at Camp McKinney had gone on to Republic, whence they had that evening returned. With both camps, particularly the latter, they were favorably impressed. They made reference to the extensive mineral resources of Boundary Creek, of which they had already heard much, and expressed the opinion that after railway communication shall have been opened a few weeks hence a period of more active development will follow. They were much interested in the information Mr. Douglas imparted concerning the mineral showings of James creek, West Fork, Canyon creek and other tributaries of Kettle river and too, in the Meyers creek camp south of Rock creek. It was explained to them that Midway will be the nearest railway points to these several camps as well as to Camp McKinney, so that for this reason as well as others its growing importance is becoming generally recognized. Before "good night" was said Mr. Jaffray who holds, among other important commercial appointments those of vice-president and managing director of the Crow's Nest Pass Coal Company, Ltd., and president of the Toronto "Globe"—mentioned that Mr. J. S. Willison, chief editor of that influential journal, will probably pay the Boundary Creek district a visit during the coming fall. The visitors went on to Greenwood on Wednesday morning.

Vernon Mounted Rifles Removed.

In the militia orders issued in Ottawa on the 28th of July the Vernon mounted rifles were removed from the strength of the Canadian militia. No caused is assigned for the removal. It is probable that it was thought mounted riflemen would not be found useful in this mountainous and wooded country. This leaves only three companies in the Kootenay Rifles—Nelson, Kaslo and Rossland.—Rossland "Miner."

Free Miners' Certificate Fees.

The following scale will show the fees to be charged for free miners' certificates covering only a portion of the year: Certificates issued between June 1st and 18th, $5; between June 19th and July 6th, $4.75; between July 7th and 24th, $4.50; between July 25th and August 11th, $4.25; between August 12th and 30th, $4; between August 31st and September 18th, $3.75; between September 19th and October 7th, $3.50; between October 8th and 26th, $3.25; between October 27th and November 14th, $3.00; between November 15th and December 2nd, $2.75; between December 3rd and 20th, $2.50; between December 21st and January 7th, $2.25; between January 8th and 25th, $2; between January 26th and February 12th, $1.75; between February 13th and March 2nd, $1.50; between March 3rd and 20th, $1.25; between March 21st and April 7th, $1; between April 8th and 25th, 75 cent; between April 26th and May 13th, 50 cents; between May 14th and 31st, 25 cents.

An Experienced View.

Mr. E. J. Rykert, of McCuaig and Rykert, stockbrokers, Montreal, P.Q., is reported to have recently said to a representative of the Rossland "Miner"

"The people of Eastern Canada must have their own mining companies which must be managed by those in whom they have implicit confidence. The time has passed for building up mining properties on other people's money. The people of the east have learned something about the mining business in the last few years and are consequently wiser than they used to be and show much more business foresight than formerly in making investments of this character. They are now embarking in mining ventures in a systematic and business-like manner. What they particularly desire to invest in are dividend paying mines which have been reported upon favorably by mining experts of known reputation, and which are managed by men in whose ability and integrity they have the utmost confidence.

"A word of advice to those who have mining properties for sale. During a period like the present it is unwise to offer mining properties for sale, as it is impossible to dispose of them, no matter how low they are offered. When the conditions are different, when money is plenty and the market is lively, is the time to offer such properties for sale. Then, if the property be meritorious it will not be particularly hard to find a purchaser."

MONDAY, AUGUST 14, 1899.

WELL CHOSEN.

MR. ALEX. HENDERSON, M. P. P. for New Westminster, is now Attorney General for British Columbia, in place of Hon. Joseph Martin, resigned under compulsion. The government and province are to be congratulated upon this change. Mr. Henderson was elected last year as an Independent member, but has since seen his way clear to give a general support to the Semlin government. He has a clean record both in public and private life, is in the full vigour of manhood with capacity and disposition for work, is a forcible speaker, courteous and reasonable in his demeanour towards friends and opponents alike, and is deservedly popular among all who know him well. In federal politics he is a Liberal and he did yeoman and successful service in Mr. A. Morrison's cause at the last Dominion election. He has the ability and the industry to make a good Attorney General and it is not probable he will disappoint his friends and supporters in this respect. His re-election at New Westminster is pretty well assured for not only is he strongly supported in that constituency upon his merits, but the opportunity to have their member in the provincial cabinet will influence in his favor many who did not vote for him at the last election. We wish him a long and useful official life.

THE BOARD OF TRADE CONFERENCE.

The special committee appointed by the Boards of Trade of Kootenay and the Boundary country, which met recently in conference at Rossland, drew up a series of resolutions that were afterwards endorsed by the delegates as a whole. These resolutions recommend that the Provincial Government make special effort to provide such government offices and sittings of the Supreme and County courts as are required to facilitate the legal and mining business of the chief centres of population in the mineral regions named; the establishment of at least one High School at the point that can show the most qualified pupils; the opening and maintenance of common schools commensurate with the increasing school population; the exhibition of maps, kept up to date, at the several district government offices, to show the location of lands taken up; the application of two per cent of the royalty on output received from mines situate within corporate limits to the construction and maintenance of roads within such limits; the establishment of a school of mines in Kootenay or Yale; the abolition of the royalty now charged mineral claim holders on timber cut on their claims for mining purposes; the granting to holders of crown grants the first right to purchase the surface rights of their respective mineral claims and that before any changes be made by the Provincial Legislature in the mining laws, that residents in mining districts be given opportunity to express opinion thereon. Other recommendations were in favor of legislation in reference to location of stations along railway lines, to prevent established towns being passed by in favor of new towns which may have subsidised those constructing railways to adopt this course, and the appropriation of $25,000.00 annually for the salary of an Agent-General and the more adequate representation of British Columbia in London, England.

These recommendations, together with a proposal that the Boundary country be officially recognised as the "Boundary district," may well receive the careful attention of the Provincial Government with a view to the adoption of such of them as can be shown to be necessary to the advancement of Kootenay and Eastern Yale. They are undoubtly prompted by a sense of their need, so that it is not too much to hope that eventually this will be fully realized by the government and action be taken accordingly.

Opinions Differ.

The newspapers that oppose the Semlin government are becoming hysterical. The appointment to and acceptance of the Attorney-Generalship by Mr. Alexander Henderson, M. P. P., of New Westminster, and his certain re-election are not in accordance with the predictions of the howling dervishes that These howlers have had an accession to their ranks in the person of the editor of the Greenwood "Miner." He claims to know all about how governments should be run. He says that the men now in office are a lot of incapables. This may be a statement of fact, but we have a contrary statement from a man whose opinion we prefer to take, for no other man in the province is in a better position to actually know how the business of the province is conducted. His statement is that it is well conducted—much better than when Messrs. Turner, Martin, Baker and Eberts had the direction of affairs. Other testimony comes from Victoria, and it is that the Lands and Works department is in better shape to day than at any time since the department was created. None of this testimony comes from active politicians.—Nelson "Tribune."

MINING NOTES.

Some specimens of very nice looking peacock copper ore were brought down from the Lygia mineral claim, near Midway, last week. The indications that this claim will turn out well are increasingly favorable so that there is much encouragement to continue the work of opening it up.

The Sandon "Paystreak" mentions Mr. F. Robins of Phoenix, Greenwood camp, as one of three experts who recently examined the Slocan Star mine, for Messrs. Jaffray, Cox & Co., of Toronto, who are reported to be negotiating for the purchase of the mine.

Mr. Chas. M. McMichael, a student of the University of Toronto School of Science, mining department, paid Midway a visit last Tuesday. He is spending the summer vacation in the Kootenay and Boundary country with the object of gaining a little practical knowledge of mines and mining. He is a son of Customs Inspector McMichael who was here last September.

Some nice ore has lately been met with on the Hecla one of the Oro Fino group of mineral claims situate opposite the mouth of Rock creek. Samples assayed have returned $2 to $8 in gold and 10 to 20 per cent copper. These were taken from near the surface in an open cut on the ledge. A tunnel to cut the ledge below ground is now in about 30 feet. It is thought that 20 feet more will have to be run before the ore will be cut. The Oro Fino group consists of the Oro Fino, Hecla, Apache Chief and Treasure. The principal owners are Messrs. John Douglas and Jas. Atwood, of Midway, who regard the group as one that will yet come into prominence.

Death of a Pioneer.

On Saturday 5th inst. the death occurred at Osoyoos of Mr. Theodore Kruger whose name has long been as familiar as a household word in central southern British Columbia. His decease was not unexpected the old pioneer having long since passed the allotted three score years and ten and having latterly been feeble and plainly drawing near the close of his life. The late Mr. Kruger was born under the British flag, but his family connections were in Hanover, Germany, where a brother held a government appointment for 40 years. Mr. Kruger came to British Columbia from Hanover in the late fifties and in 1858 or 1859 was a clerk at the Hudson's Bay post, at Kamloops. In 1860 he was transferred to the Similkameen post, then under Chief Factor Tait, and now the property of Mr. Coulthard, Keremeos creek. Afterwards he bought the wayside stopping place at Osoyoos which the late Judge Haynes assisted Mr. C. Clifford in establishing, and since then, for more than 35 years, he has been a land mark at Osoyoos, known far and wide. He added to his holding by preempting 320 acres at Osoyoos lake. For years he did a large trade on his own account with the Indians from Penticton almost down to the Columbia river, and the annual fall races at Osoyoos used to attract a very numerous assemblage of Indians from all the surrounding country. His experiences on the Hope trail, over which all his "trade" came and went were varied and interesting. Of late years his business operations were small, but his cordial welcome to callers was none the less characteristic of the man than in his most prosperous days. He passed to his rest sincerely regretted by many more than the numbers who attended his funeral. His body was buried at the head of Osoyoos lake, about midway between Osoyoos and Fairview at a spot chosen by himself some time since, Rev. Mr. Campbell conducting the burial rites.

The late Mr. Kruger was married in Victoria about 1878. He left a widow and four children—two sons (still living at Osoyoos) and two daughters (Mrs. Chas. Pittendrigh of Rock Creek and Mrs. Carmichael of Fairview.

C. Keffer, of Cleveland, Ohio, who with his daughter, is at present spending a part of the summer vacation with his son Mr. F. Keffer, of Anaconda, superintendent for the British Columbia Copper Company, Ltd., of New York, owning the Mother Lode group in Deadwood camp. Mr. Keffer senior is a veteran journalist having had 50 years connection with the press. At one time he edited one of the large daily newspapers published in Cleveland and later he was proprietor of a smaller newspaper, issued in the same city. With Miss Keffer who is teacher of mathematics in the High school, Cleveland, he lately attended the National Educational convention held at Los Angeles, Cal. After spending a week or two longer at Boundary Creek, the visitors will return to Cleveland, stopping over en route at Yellowstone Park for a few days. Miss Keffer enjoys the local distinction of being one of the very few ladies who have ventured to descend the Mother Lode mine to see the ore in situ at the 200-foot level. What she saw at that depth well recompensed her for the physical exertion of clambering down and up more than 200 feet of ladders.

The Cellar.

Sinks, Garbage Boxes and Cesspools need attention now. Sometimes sickness in the summer months is due to lack of disinfectants. Be on the safe side—use CREOLIN now.

CREOLIN is a prompt, reliable and safe disinfectant. It is not poisonous and that is one of the reasons why it is in such demand. Death through carbolic acid is frequent.

In addition to its use as a general disinfectant, CREOLIN is an agreeable deodorizer for the sick room, an effective home remedy for burns, cuts and other hurts; and a useful application in treating skin blemishes and parasitic diseases of animals.

Three table spoonfuls of CREOLIN mixed with a gallon of water makes a good disinfectant.

The Falls Water Power.

The work of preparing to utilize the Boundary Falls water power for electric purposes has been resumed. Last Fall a substantial dam was constructed above the falls, which in raising the water about 30 feet added to the head available. Now a tunnel is being driven through the rock which rises sheer above the top of the falls, to connect the dam with the flume which is to be built to convey the water to the machinery site. The tunnel when completed will be 130 feet in length and the flume 1800 feet, with about 1100 feet of the latter on trestles. There are seven or eight men employed on the work now in hand. Mr. Francis McLean is foreman in charge.

Boundary Falls are equidistant from Midway and Greenwood, about four miles from each town. It is intended to use the electric power to be generated for lighting and power purposes and it is probable that connection will be made with several of the mining camps in the district so as to supply electricity for mine purposes. At the present time the Mother Lode in Deadwood camp is the only mine in the district using electricity for lighting and hoisting. No doubt owners of other mining properties will be glad to use it when they can get it.

Keep your eye on BEAVERTON,

The acknowledged centre of the great

WEST FORK MINING BELT.

Lots will soon be on the market. - Easy payments.

not as fast as we would like, but something is better than nothing, and we are prepared to show our friends some seasonable goods, for LADIES, CHILDREN and GENTLEMEN.

Have you seen the beautiful dinner sets we received direct from the importer? if not, don't fail to look at them soon, as we do not know how long they will be in stock. Chamberpets of 12 pieces also cheaper ones of 6 pieces. Anything in the Crockery line from plain white stoneware to the costliest china ware.

Our Dress Goods Department is not quite complete, as most of the seasonable goods have been sold, but we still think that we are able to satisfy almost any taste. Silks, satins and velvets in all colors for trimmings, and shirt waists. A new consignment of shirt waists has just arrived.

Our fine lot of Groceries are coming in daily, including fine Government Creamery butter, also fresh made ranch butter.

Miners' Supplies at most reasonable prices. A new consignment of the celebrated Armstrong XXXX Flour just received.

...evening Mrs. Leggatt, Mrs Thompson and Messrs. W. B. Rickards and R. Gardom were appointed a committee to endeavor to arrange for holding regular services of the Church of England and to provide a stipend for a resident clergyman. Rev. W. F. Gower held the first service last evening.

Mrs. C. H. Shaw, her sisters the Misses Fleshe? (2) of Minnedosa, Man., Mrs. J. R. Porter, Miss Miller, Mr. H. M. Arnold, and Mr. Cunningham, came down from Greenwood one afternoon recently. After enjoying a drive about the Midway flat, where they found much to admire, they dined at the Lancashire House and in the evening returned to Greenwood delighted with their outing.

Mrs. I. M. Macdonald, of Ladner, last week closed a very enjoyable visit to Midway, where she was the cordially welcomed guest of Mrs. Wm. G. McMynn. Mrs. Macdonald saw a considerable improvement in the size and population of the town since she was last in it. She was driven to Penticton in a private conveyance sharing with numerous appreciative Midway friends sincere regret that her pleasant summer vacation had come to an end.

Four energetic young lady residents of Midway a few days ago ascended to the summit of the mountain immediately south of the town. They rode part of the way, but in places had to dismount and lead their horses, so steep was the climbing. The ascent was made from near Jackson's ranch and the descent on the south-eastern side of the mountain. The fair excursionists were hardly "as lively as a cricket" next day, yet they did not regret their venturousness.

Mr. Gaspard Le Moine, of the firm of Messrs. J. B. Renaud & Co., doing a large commission business in the City of Quebec, visited Midway last Wednesday to look over the position and prospects of the town, his firm being shareholders in the Midway Company, Ltd. He was agreeably surprised with the unusually favorable location of the town and well satisfied with its prospects of which he heard much to gratify him during the past week or two spent in Spokane and the towns of the Kootenay and Boundary country.

Fatal Accident.

A fatal accident occurred at the Mother Lode mine about midnight of Monday 7th inst. which resulted in the violent death of an Italian miner named Benedict Mantello. It appears that deceased and two other men employed on the night shift left off work at 12 o'clock to go up to the mine boarding house for their midnight meal. Deceased was seen by his two companions to go to the lever and, as they supposed, to give the three rings that are customary should there be a man in the bucket when hoisted. Shortly afterwards deceased with Edward Rowe and Archibald McDonald got into the bucket, which was at the 200-foot level of the mine, and all being ready Chas. Magner, who remained below, gave the engineer the usual one-ring signal to hoist. The engineer, John C. Elliott, a young man with a reputation for carefulness and attentiveness to duty, is very confident that the signal he received was the customary one when hoisting rock, so he ran the bucket up above the platform at the mouth of the shaft, but seeing men in it stopped it before it reached the automatic dump. It is supposed that McDonald and deceased became frightened for both jumped, Rowe remaining in the bucket until it was lowered to the platform. McDonald landed safely outside of the railing around the mouth of the shaft but deceased struck it inside and then fell headlong down the 200 feet vertical distance to the station at that depth. It is believed that his head struck against some of the shaft timbers at 125 feet down causing such injuries as to produce instant death. Chief Provincial Constable McMynn went up from Midway next day to make enquiries, but as the evidence elicited made the cause of death appear so plainly accidental no Coroner's inquest was deemed necessary. Deceased had been employed at the mine about six weeks. He is stated to have had a cousin named P. Mantello employed at McLean Bros. camp No. 2, Oro Fino, Idaho, and a brother or other relative at one of Welsh's railway camps in the Boundary country. The Superintendent, Mr. F. Keffer, made all arrangements to have deceased's body decently interred at the expense of the company owning the mine. This is the first serious accident that has happened at the Mother Lode mine, and its occurrence is all the more deplorable since the management has done everything reasonably within its power for the protection and convenience of men when at work, and too for their comfort in the mine boarding and bunk houses.
