# Bargins in Merchandise

We have purchased at a substantial reduction, the entire stock of Messrs Cosens Bros. General merchants of Camp McKinney, consisting of GROCERIES, DRY GOODS, FURNISHINGS, BOOTS and SHOES, etc.

The larger portion of this stock is new and fresh having been bought for this year's trade, and some of the goods have not been hauled away from Midway. As we have not sufficient room to store all this stock, we have decided to offer substantial REDUCTION TO CASH BUYERS.

### Fisheries of Canada.

Ottawa, June 20.—Hon. Mr. Prefontaine, minister of marine, has replied to the members on the fisheries questions submitted by Messrs. Fulton and Babcock. It is understood that the minister stated that the expenditure on the British Columbia fisheries during the last three years had been $100,000 in excess of the revenue. That province is not entitled to a share in the Halifax award, and that the policy of the dominion is to secure by agreement with the provinces, absolute control and management of the fisheries. All of the provinces on the Atlantic saboard are favorable to this being done. The dominion is ready to expend in developing the fisheries much more than it receives in revenue, although for a number of years prior to 1900 the British Columbia fisheries returned a surplus over expenditure. In any event the federal authorities will not relinquish their rights to control and negotiate. The resolution by Logan, confining preferential tariff to the goods imported into Canadian seaports was carried in commons today.

### Licenses granted.

Chief License Inspector I. A. Dinsmore and Commissioners M. R. Feeney, Hugh Cannon and John Harverty met at the court house in Grand Forks on Wednesday, the 15th inst., and acted on the following applications for renewals and new licenses:

Licenses were granted the following parties in Midway.

John Albi, Commercial hotel, Midway; conditionally.

Philip McDonald, Oakland hotel, Midway; conditionally.

S. T. Larsen, Riverside hotel, Rock Creek.

S. Dahl, Central hotel, Midway.

L E. Salter, Spokane hotel, Midway.

S. A. Crowell, Crowell hotel, Midway.

C. M. Crouse, Lancashire hotel, Midway.

### Boundary Mining Notes.

A. M. Whiteside, attorney for Wm. Price in the suit of Price vs. the Western Copper Company, last Tuesday bought the Greyhound mineral claim, situated in Deadwood camp, for $7000. The sale was made under judgement out of the supreme court in the above case.

Placer mining is again the order of the day on Boundary creek, about two miles above Midway. Messrs. Sansom, Buchanan and Anderson are working the property at the month of Norwegian creek with very flattering results.

The latest reported high-grade strikes are those on the Gallao, just east of Greenwood, and adjoining the Defiance, and on the Maple Leaf, south of Lynn creek.

The Providence mine is averaging a car of very fine ore weekly for the last few months.

Work is being vigorously prosecuted on the Denoro claim in Summit camp. The Canadian Pacific railway runs across the property, and the right of way for the Great Northern road into Phoenix camp is now cleared across the claim. The Great Northern will cross about 50 feet lower down the hill than the Canadian Pacific, and passes mouth of the tunnel being run to tap the ore at a lower level.

Just across the gulch from the Denoro is the Emma claim This property, served now by the Canadian Pacific, will also have shipping facilities over the Great Northern. About 25 men are taking out good ore.

The B. C. Copper company, which has a bond on the Roderick D'hu, in Long Lake camp, has put on a pack train of nine animals for carrying out this property's high grade ore to the Canadian Pacific railway.

Duncan McIntosh, manager of the Providence, leaves in a few days for the east. The management intends puting in electric driven fans and a skip at a cost of about $7000.

The silica mill machinery at the B. C. Copper company's plant was tested a few days ago and runs smoothly.

On or about the first of July two of the six furnaces at the Granby smelter will be allowed to go cold for the purpose of putting on a new roof. New ore bins will be built at the smelter this year, to accommodate the ore shipments that will be made over the V., V. and E., branch of the Great Northern, now in course of construction.

At the Mother Lode mine, Deadwood camp, operations are being carried on underground, where it is said the ore is of a better grade than in the open cuts that have been so sucessfully worked for the past three years.

The diamond drill which is being operated on the Bruce claim near Midway, has now penetrated nearly 100 feet. This property is now under bond to Frederic Keefer and J. E. McAllister, and has some excellent showings of copper ore.

Work is progressing on the Iron Clad, in Welington camp, where an immense ledge of good ore was recently uncovered, and the property is attracting no little attention. The owners, Messrs. Porter, Rumberger and Farrell, are said to have refused a good sum for the property this week.

President S. H. C. Miner of the Granby Co., is expected to arrive in a few days in the Boundary, on his annual tour of inspection to the mines and smelter of the company. A. B. W. Hodges smelter superintendent, who is about to take up also charge of the mines of the company, is spending about four days each week at the properties.

The prospecting work in progress on the Mavis, recently bonded by local parties, has resulted in the finding of a body of splendid galena ore carrying high values, the mine being in the high grade belt, and only having been located a few months.

## BRITISH COLUMBIA PROSPEROUS

British Columbia's industries continue to flourish in spite of the incubus of a weak and instable government. During 1903 the output of metalliferous mines amounted to 1,276,000 tons, and coal 1,608,000 tons. The value of the mining output was $19,200,000, an increase of nearly two millions over 1902. With the exception of salmon packing, which was greatly below the average all industries and trades were prosperous and show large increases. The timber trade increased 15 per cent; dairying output, one third; fruit marketed, 35 per cent; halibut and other fisheries, including seals, 40 per cent. The value of the total productions was about thirty million dollars. The exports reached a total of $21,000,000 being an increase of five millions. Present conditions are generally very satisfactory and the out look is good.

## THE LUMBER INDUSTRY.

American lumber merchants continue to increase their shipments of lumber to the Canadian Northwest. It is reported that mill men in East Kootenay will will close their plants in August on September, unless the Ottawa government take steps to give the industry a measure of protection.

Horse breeders have lately received increased protection for their industry, and the woollen manufactures have been afforded some relief though not until some 20 mills were closed and many operatives sought employment in the United States. The government's supporters from British Columbia have frequently called attention to the lumber industry but without avail. It looks as though the government do not intend to grant any relief, if they do, why delay until the American merchants have fully established themselves in the Canadian market, and the British Columbia plants are closed?
