Dear Brother or Sister:

Re: April 28 Walk For Peace

The enclosed promotional material is sent to you on behalf of the Trade Union Peace Committee, an anti-nuclear organization made up of representatives of a variety of trade unions in the Lower Mainland.

The Trade Union Peace Committee works in conjunction with the End the Arms Race Committee to help plan and organize Vancouver's annual Walk for Peace. Last year, more than 65,000 people attended the walk and organizers are hoping for an equally impressive turnout this year.

The Trade Union Peace Committee believes that peace is union business. The arms race has a direct impact on working people. The vast amounts of money that go into defense spending fuel inflation and create staggering budget deficits. If the money spent on the arms race was directed to job creation, Canada's record-breaking unemployment could be eliminated.

By displaying the enclosed material, the committee hopes that each union can promote the idea of peace as union business. The committee would urge you to call on your union brothers and sisters to take part in the Walk for Peace, April 28. The trade union movement must do all it can to bring an end to the arms race before the arms race ends us all.

Thank you.

Fraternally yours

J.D. Gerow
(on behalf of) Trade Union Peace Committee
