

TASK FORCE ON TECHNOLOGICAL CHANGE

517 East Broadway, Vancouver, B.C. V5T 1X4 • 879-4601

Thursday, March 15, 1984.

RECEIVED
MAR 20 1984
A. U. C. E.

Dear Friends:

The NDP has established a Task Force on Technological Change, sponsored by the Women's Rights Committee. In the fall, the Task Force will hold community forums throughout the province, seeking public input which will assist us in formulating policy in the area of technological change.

Presently we are holding information sessions with groups such as yours to stimulate interest in technological change, its direction and control, and the resulting social, political, economic and educational implications. We must address such questions as: How does the growth and implementation of technology affect the lives of people in various communities? How can unionized and non-unionized workers handle technological change and technological unemployment?

We would welcome the opportunity to meet with your group to discuss these issues. Please contact Heather Morris at Provincial Office, 879-4601, for further information or to arrange a meeting.

In solidarity,

Fran Moffatt
Judy Shipper

Fran Moffatt,
Judy Shipper,
Chairpersons,
TASK FORCE ON TECHNOLOGICAL CHANGE.
