Burnaby, B.C. V5G 4J6

Dear Mr. Robson:

Please consider this an official request from our union for you to inspect the following rooms in the Faculty of Law building at the University of British Columbia:

- Room 130 is an inside room where two of our members work. They work on two word processing machines in a small room with only a fan for ventilation. They work on this machinery all day. The room is very hot.
- Room 147 and 151 are inside rooms. Room 147 is very hot; Room 151 is very cold.

We would appreciate a report upon completion of your investigation.

Yours truly,

Carole Cameron
Union Organiser
