

Canadian Facisti

They Are Out for the New Deal!

1. The Canadian Facisti form one Nationalist organization, pledged to loyal service of King and Country, but not to partizan politicians or to the profiteers and money-changers who are now strangling the industrial life of Canada by their power of manipulating national credit for private profit; thus making life hard for all but a privileged few.

2. The Canadian Facisti will be directed by a Council of Twelve, chosen from among its most able members. The personnel of the Council is subject to change at any time by a majority vote of the Council whenever considered in the interest of the National Cause. All Facisti affairs will be administered along disciplined lines, having an eye first of all to efficiency.

3. The Canadian Facisti will work in the spirit of **ALL FOR ALL**, and will base their activities on the principle that **PUBLIC WELFARE IS THE SUPREME LAW**.

4. The Canadian Facisti stand for **NATIONALIZATION OF BANKING** and the **HANDLING OF NATIONAL CREDIT**; and also for the **NATIONALIZATION OF INSURANCE**.

5. The Canadian Facisti advocate reducing interest to three per cent. on all public bonds, and also advocate a moratorium on payment of principal sums due on such bonds, whether held by domestic or foreign money-lenders, until better economic conditions have been firmly established in Canada, and after that, the taking of such action as regards deferred payment on such bonds as may be considered just.

6. The Canadian Facisti aim to gain power in both Dominion and Provincial Parliaments, and their first objective will be to so utilize national credit that all unemployed may be put to work in developing the Natural Resources of Canada. One concrete plan for doing this by issue of Provincial Promissory Notes, based on Crown Lands and redeemable without interest in Canadian currency or improved lands, is being submitted for public consideration in the shape of specimen notes now being circulated.

7. The Canadian Facisti declare their **ALLEGIANCE TO THE SPIRIT OF DEMOCRACY**. They would only tolerate a dictator in an emergency such as confronted the United States when President Roosevelt assumed dictatorial powers for a new deal and an honest deal for all the people, **regardless of class or calling or race or religion**. But the Canadian Facisti are prepared to take strong measures to prevent the establishment or the continuance of a **BANKERS' DICTATORSHIP OVER CANADA**. The Canadian Facisti have plans for the complete reconstruction of the economic and political conditions at present prevailing in Canada.

KEEP THIS STATEMENT AND LOOK FOR MORE TO FOLLOW.

All who put national welfare before party welfare are invited to join in the work. The Canadian Facisti want no mere opportunists or weaklings in their ranks, but will welcome all who join to do their bit **FOR THE NEW DEAL**.
