WAIT ON GOVERNMENT BEFORE STARTING WORK

VICTORIA—City Engineer Rust, in response to the suggestion that work on the Rock Bay bridge be proceeded with despite the fact that no definite intimation has as yet been received from the Government as to whether the City's request that the swing span be reduced from 70 feet to 60 feet, reported to the streets committee of the city council at the last meeting that until an answer is received it would be unwise to start work on the two trestles. He stated that it would cost about $2,000 for this latter work, of which about $700 would be spent for wages and about $1,300 for materials. He has written to the Government relative to the reduction in the length of the span, but so far has received no reply, though there was a promise of an immediate answer. In view of this promise the matter was tabled by the committee for a week, though some of the members of the committee expressed the view that there has been undue delay in having the bridge proceeded with.

BOARD OF PUBLIC WORKS HOLDS REGULAR MEETING

There was no new work of any importance discussed at the meeting of the Board of Public Works held yesterday afternoon. City Engineer Fellowes reported on the cost of planking the lane south of Fourteenth Avenue from Sophia St. for one block east and for laying three-plank walks for short distances on Eighth Avenue, McDonald St. and Slocan St. The cost would be about $230.

NEW WESTMINSTER—The C.N.R. is not yet in a position to submit plans of its terminals in this city, and as arrangements have been made to run into Vancouver on the Great Northern in the meantime it is not probable that any terminal work will be undertaken here in the near future. This was the information given out yesterday by M. H. MacLeod, general manager of the Company, who accompanied by T. H. White, chief engineer, and other officials met Mayor Gray and went over the situation with him.

TENDERS FOR CONSTRUCTION OF C. N. R. SEAWALL ARE IN

The time for submitting figures for the construction of the seawall in False Creek for the Canadian Northern Railway, expired yesterday. TO PROCEED WITH PAVING OPERATIONS

VICTORIA—The City will proceed at once with the paving of the intersections at the City boundary of Gorge and Harriett Roads, Douglas Street and Mount Tolmie Avenue, and Quadra st., and Tolmie Ave. At these points the Saanich paving work will be laid, but will cover only one half of the intersections. On the city side, paving has been done up to the intersections, and the idea is to complete the half on the City side to make the paving works of both municipalities continuous.

CONGOLEUM
Floor Coverings
If you have Congoleum on your floors, you can run a mop over them and they will be cleaner than any swept floor. Congoleum is waterproof right through—water cannot injure it. Compared with printed linoleum, Congoleum is more durable, more attractive, more waterproof, yet the price is less. Congoleum requires no fastening—any one can lay it—it won't curl up.
Congoleum Rug Borders, laid next to a rug or carpet, give the actual appearance of polished oak.

GETTING ON THE MAP.

In an address to the members of the Chicago Garment Manufacturers' association—representing an annual business of $20,000,000—President Joseph L. Eisendrath recently heralded 1915 as the most prosperous period that the industry had ever faced. He urged his fellow manufacturers to advertise, Advertise, and then ADVERTISE some more.

"Don't forget that it is your advertising man who puts you on the map. Unless you want to fail, don't listen to any backwoodsman who tells you that it doesn't pay to advertise. It DOES pay to advertise, and the men who are successful today are the men who realize this fact and practice it.

"Your advertising man is a great factor in putting you on the map.

"It's a good system to keep telling people about your goods, whether they are buying them at the time or not. It is even true that they may not buy them tomorrow, but they are going to buy them ULTIMATELY.

"Cease to advertise and you'll be forgotten."

"Keep up your advertising constantly and consistently. Do not give a big splash, followed by a whole lot of silence.

"Advertising is salesmanship. You send out salesmen in a new territory and you find that they have to do a deal of missionary work before the territory becomes profitable. It's something like that in starting advertising. But use of advertising as an advance agent breaks the ground for the salesman in these days of successful and profitable business.

"Make the public want your goods."
