The British Columbia & Vancouver Island
Spar Lumber & Saw Mill Company Limited.

Victoria B.C.
19 Novem. 1868

H. H. Nagle Esqr.

Dear Sir

Enclosed is a specification of lumber for the Government, copy of which hand to Mr. Smith.

I have sent you by the "Isabel" stove piping for the office also a stove and piping for yourself the cost of which is $9.50.

Captain Devereux will hand you $150 to settle with Lynn, in all cases such as this or in settling with men arrange to do so by drafts on Victoria as we wish to have as little cash to send to the Mill as possible, in the case of Indians of course it is indispensable.

I particularly told Capt. Devereux to hand you a note of the quantity of hay he got at Westminster and at Saanich also the quantity he delivered to each at Camp.

The quantity from Westminster was 23½ tons at $20 p ton
do " Saanich I do not know (ask Devereux) at $17
unless you have any fixed scale of per centage to add to this I suppose you had better charge it to the camps at the usual rates of $26

I am Dear Sir
Yours Truly
For Edward Stamp
