NEW FEMALE UNIT.

REPORT OF THE MEDICAL SUPERINTENDENT

For the Twelve Months ended March 31st, 1930.

PART I.—MEDICAL.

PROVINCIAL MENTAL HOSPITAL,
ESSONDALE, B.C., April 1st, 1930.

The Honourable the Provincial Secretary,
Parliament Buildings, Victoria, B.C.

SIR,—I have the honour to submit herewith for your consideration the Fifty-eighth Annual Report of the Provincial Mental Hospitals at Essondale, New Westminster, and Saanich.

The following table shows briefly but comprehensively the movements of the Hospital population during the period April 1st, 1929, to March 31st, 1930:—

Movement of Population.	Male.	Female.	Total.
In residence, April 1st, 1929	1,599	748	2,347
On probation but remaining on registers	57	54	111
On escape but remaining on registers	3	.....	3
New admissions	392	210	602
Total under treatment	2,051	1,012	3,063
Discharged in full during year	204	120	324
Continuing on probation at end of year	59	46	105
Died during the year	164	59	223
Total discharged and died during year	427	225	652
In residence, March 31st, 1930	1,624	787	2,411

Studying the above table, the following points come to notice:—

(1.) Increase in the number of admissions this year as compared to last	59
(2.) Net increase in population in residence at end of year	64
(3.) Rate of deaths to total treated (per cent.)	7.28
(4.) Rate of discharges to admissions (exclusive of deaths) (per cent.)	71.26

ADMISSIONS.

It is always interesting to note the birthplace of those admitted to the Mental Hospitals, and our analysis shows that 206 (or 34.21 per cent.) were Canadian born, 225 (or 37.36 per cent.) were born in different parts of the British Empire, and 167 (or 27.74 per cent.) were of foreign birth; 4 were of unknown birth.

The different types of mental conditions do not vary a great deal from previous years. Those suffering from general paresis are about the same, but there is an increase in admissions of those of lower mentality. The relative proportions and general classifications show little change.

DISCHARGES.

It is now a generally accepted fact that those mental cases who are admitted in their early stages have an infinitely better opportunity of recovering from their mental trouble than those admitted at a later date. This is indicated in the following table:—

TABLE SHOWING THE ALLEGED DURATION OF INSANITY, PRIOR TO ADMISSION, IN THOSE DISCHARGED FROM THE THREE INSTITUTIONS DURING THE YEAR APRIL 1ST, 1929, TO MARCH 31ST, 1930.

Less than six months	150
Over six months	63
Duration not known	108
Not insane	3
Total	324

During the year 324 were discharged. Of these, 112 were discharged as recovered, 155 as improved, 54 as unimproved, and 3 had no psychosis. Of the number discharged in full, 53 were deported, an increase of 6 over those of last year, and 12 were repatriated through the courtesy of friends or relatives.

In noting the increase in our deportations, I would like to take this opportunity of thanking the Canadian Immigration Department for the very valuable assistance rendered the Hospital. At all times their courtesy and efforts have been outstanding, and their work is of untold benefit both to the Province and the Mental Hospital. As may be imagined, some of the cases present many difficulties, chiefly on account of lack of reliable information, but the Immigration Department is most co-operative and leaves no stone unturned to obtain the necessary details to effect the deportation of the various cases.

It is stated that there are 30,000 mental cases in the different institutions in Canada. The population of Canada is rated at 9,000,000, which gives a proportion of 1 to 300 who are insane. Through the activities of the Canadian National Committee of Mental Hygiene feeble-minded schools and psychopathic hospitals are being advocated, and this will enable the mental cases to be treated at an earlier date in life than has been possible heretofore. By so doing it is hoped that the number admitted to the mental hospitals in Canada will gradually lessen.

In British Columbia we have 400 feeble-minded in our mental institutions, and if this number is deducted from the total population of mental cases our average is the same—namely, 1 to 300 who are insane.

TREATMENT.

All patients when admitted are received into the Psychopathic Ward, from whence, after a period of treatment and observation, they are transferred to other wards to which they would appear most suited. It is, however, greatly to be deplored that, on account of severe overcrowding and increased admissions, patients are unable to spend as long a time as they should on the Psychopathic Wards, but have to be moved to make room for new arrivals. Longer periods of observation would be most beneficial in a great number of cases.

Treatment by malaria and tryparsamide of general paresis cases is still being continued and the results are quite up to the average. The percentage is as follows: One-third, apparent cures; one-third, improved; and one-third, unimproved. If the patient's physical condition demands it, the tryparsamide treatment is given first, then the malaria, then follows special treatment.

LABORATORY.

Work in this department has progressed very satisfactorily this year under the direction of Dr. U. P. Byrne. All routine tests have been carried out on each patient and additional tests done when occasion demanded. We are, however, lacking in more up-to-date equipment, but are hoping to gradually obtain more, as it is greatly needed if we are to progress and keep up with the standard set.

Very excellent work has been accomplished by Dr. A. M. Gee in the X-ray Department. This is a most valuable adjunct to our Hospital and materially helps the staff in treatment and diagnosis. Separate reports of the two above departments will be found elsewhere in the report.

ACTIVITIES.

I am very glad to be able to report that the new Female Unit is under construction and going ahead well. It is to house the female patients from New Westminster and will also take an extra ward of women who now occupy one of the male wards in the centre block. Ample provision is being made in this new building to allow for occupational therapy and physical training. It is our endeavour to give all patients employment and supervised recreation, as it is felt that not only does it make Hospital life more interesting, but there is a great curative value attached as well as excellent training.

Construction on the Apartment Block and the Nurses' Home has shown marked progress, and it was with great pleasure that the latter was formally opened in November. The Nurses' Home fulfils a long-felt want and is a splendid addition to our Essondale unit. The Farm Cottage has been enlarged and this has helped to relieve the overcrowding.

All outside activities have been carried on very thoroughly and carefully. The new orchard is showing splendid growth and more fruit-trees will be planted. With our ever-increasing population this is a necessity and land-clearing is continually going on. The grounds are

gradually being laid out to conform with the general plan and present a very handsome appearance.

The usual maintenance, repairs, and painting have been done and all buildings have received careful attention.

FINANCES.

Tables showing full statements of finances during the past fiscal year will be found in the letter and report of the Bursar.

COLONY FARM.

The report of the Farm Superintendent is attached and shows clearly the operations of this branch of the Hospital service.

RECOMMENDATIONS.

I would again strongly draw to your attention the urgent necessity of the segregation of the feeble-minded. We are only able to accommodate about one-third of our feeble-minded population in the Feeble-minded Building, and even this construction has been condemned as a fire-hazard.

I would also strongly recommend the importance of a Psychopathic Hospital in this Province; its need cannot be stressed too greatly.

There is also a growing need of a Social Service Department in connection with the Hospital. Its benefits would be manifold and of inestimable value to patients, relatives, as well as the Hospital staff.

OBITUARIES.

It is with great regret that I have to record the deaths of two of our very valued employees.

Mr. Stinchcombe, overseer of grounds, passed away during the year after an illness of several months. He was many, many years in the Hospital service, first in New Westminster and later at Essondale. He was largely responsible for the planning of the Essondale grounds and his splendid work will be a monument to him for years to come.

Later, we lost Mr. Fitzgerald, one of our oldest employees. He came to the institution in New Westminster in the very early days and worked for the Hospital practically up to the time of his demise. He did the brick-laying and cement-work first at New Westminster and then at Essondale.

The loss of these two very valued employees is keenly felt, as their loyal and devoted service to the Hospital was an inspiration and worthy of the highest commendation.

ACKNOWLEDGMENTS.

I would like to make certain acknowledgments before closing my report to those who have helped in the work of the Hospital during the past fiscal year. First, I wish to mention Mrs. Ellis, Convener of the Red Cross Visiting Committee, who has been untiring in her efforts to provide extra comforts for the returned soldier patients. She has also been the means of several splendid concerts being held, which have been thoroughly appreciated by all who were privileged to hear them.

I also desire to extend our thanks to the loyal co-operation of the British Columbia Provincial Police. They are always most willing to assist us in every way and their work is invaluable to us.

I wish to acknowledge with grateful thanks my sincere appreciation of the loyal support and co-operation tendered me at all times by the medical officers and staff of the Mental Hospitals; I would especially mention Dr. E. J. Ryan, Assistant Medical Superintendent, and Mr. Farrant, Supervisor, Mental Home, Saanich, in this connection.

Finally, to you, Sir, and to the Deputy Minister and the officers of the Public Works Department, I wish to express my gratitude for your thoughtfulness and keen sympathy in dealing with the various problems and needs of the Mental Hospital. Your kindly consideration has been much appreciated and is greatly instrumental in aiding and forwarding the progress of the Mental Hospitals in this Province.

I have the honour to be,
Sir,
Your obedient servant,

A. L. CREASE,
Medical Superintendent.

LABORATORY REPORT.

PROVINCIAL MENTAL HOSPITAL,
ESSONDALE, B.C., March 31st, 1930.

A. L. Crease, Esq., M.D., C.M.,
Medical Superintendent, Provincial Mental Hospital, Essondale, B.C.

SIR,—Following is a report of the work performed in the Laboratory at Essondale from April 1st, 1929, to March 31st, 1930:—

Urinalysis routine	767
Quantitative sugar	6
Quantitative albumin	28
Two-hour test	1
Blood—	
Kahn positive	65
Kahn negative	540
Blood-counts—	
Red	22
White	7
Hæmoglobin	31
Differential	17
Blood sugar	4
Spinal fluid—	
Kahn positive	25
Kahn negative	30
Globulin	55
Cell-count	4
Sputa for tuberculosis	234
Smears for malaria	14
Autopsies	5
Cultures	13
Widal	3
Gastric analysis	1
Smears—	
Nose	10
Throat	16
Urethral	3
Vincent's angina	6
Intravenous tryparsamide	234
Manganese chloride	39
Bismuth	179
Sedimentation test	105
Gum mastic	14
Hair for fungus	1

I have, etc.,

ULTAN P. BRYNE,
Pathologist.

ENTRANCE TO NEW FEMALE UNIT.

X-RAY REPORT.

PROVINCIAL MENTAL HOSPITAL,
ESSONDALE, B.C., March 31st, 1930.

A. L. Crease, Esq., M.D., C.M.,
Medical Superintendent, Provincial Mental Hospital, Essondale, B.C.

SIR,—Following is a report of the work performed in the X-ray Department of the Hospital from April 1st, 1929, to March 31st, 1930:—

Head and sinuses	48
Vertebræ	18
Teeth	24
Extremities	90
Chest	38
Gastro-intestinal	11
Pelvis	24
Total exposures	253

I have, etc.,

ARTHUR M. GEE,
Physician and Roentgenologist.

DENTAL REPORT.

PROVINCIAL MENTAL HOSPITALS,
ESSONDALE AND NEW WESTMINSTER, B.C., March 31st, 1930.

A. L. Crease, Esq., M.D., C.M.,
Medical Superintendent, Provincial Mental Hospital, Essondale, B.C.

SIR,—I beg to submit herewith report of dental work performed during the year ended March 31st, 1930:—

Abcesses treated	1
Bridges repaired	5
Bridges reset	....
Denture adjustments	19
Denture repairs	35
Dentures	5
Extractions	425
Fillings, amalgam	37
Fillings, synthetic porcelain	38
General anæsthetics	3
Other treatments	16
Pyorrhœa treatment	5
Scaling and cleaning	24

I have, etc.,

EMERY JONES,
Dental Surgeon.

PART II.—FINANCIAL.

BURSAR'S REPORT.

ESSONDALE, B.C., March 11th, 1931.

A. L. Crease, Esq., M.D., C.M.,
General Medical Superintendent of Mental Hospitals,
Essondale, B.C.

SIR,—I beg to submit herewith balance-sheets, profit and loss sheets, and various other statements covering the financial operations of the Provincial Mental Hospitals of British Columbia for the fiscal year ended March 31st, 1930.

Revenue.—The total revenue received from all sources on account of maintenance of patients for our three institutions totalled $135,146.97 for the year under view, as against $132,239.32 last year, an increase of $2,907.65. This increase was reasonably satisfactory when taking into consideration the tightening-up of money, which necessarily reflected in our collections.

Expenditures.—Our total gross expenditures for the three mental institutions as shown on Table D amounted to the sum of $938,901.42, as against an expenditure of last year of $882,229.96, or an increase in the three institutions of $56,671.46. Included in this gross increase were several large sums charged against the institution from Colony Farm for produce, which, while charged at the local market wholesale price, represented a big increase over cost of production at the expense of our *per capita* cost, but to the benefit of our institution farm. I am therefore recommending that a change in our system be made, wherein we will pay the cost of running the farm and take our products at the cost of production.

Our daily average population for all institutions was 2,228.03, as compared to last year of 2,293.61. Our net *per capita* cost in the year under review was $330 or 90.41 cents per day, as compared with last year of $318.70 or 87.33 cents per day, an increase of 3.08 cents per day. For your information, below find the net *per capita* costs of the three institutions, as follows:—

Net *per capita* cost, Public Hospital for Insane, New Westminster, $263.76, or 72 cents per day.

Net *per capita* cost, Mental Hospital, Essondale, $360.83, or 98 cents per day.

Net *per capita* cost, Mental Home, Saanich, $353.03, or 96 cents per day.

In an analysis of our gross *per capita* cost shown in Table B 1 we find an increase in salaries, office expenses, and fuel at Essondale and Saanich, but a decrease in travelling expenses and a general decrease at New Westminster. We have an increase in our repairs and renewals at the Public Hospital for Insane, New Westminster, but a decrease under the same heading at the Mental Hospitals, Essondale and Saanich. Provisions and furniture and fixtures were increased at practically all institutions, while we had a decrease in clothing for Public Hospital for Insane, New Westminster, and Mental Home, Saanich, but an increase at Essondale.

I am enclosing the various tables, to which you can refer for detailed information, which will be of interest to you.

All of which is respectfully submitted.

GOWAN MACGOWAN,
Bursar.

PUBLIC HOSPITAL FOR INSANE, NEW WESTMINSTER.

PART III.—COLONY FARM.

FARM SUPERINTENDENT'S REPORT.

ESSONDALE, B.C., January 12th, 1931.

A. L. Crease, Esq., M.D., C.M.,
Medical Superintendent, Mental Hospitals, Essondale, B.C.

SIR,—I beg to submit for your approval the annual statement of the operations of Colony Farm for the year ended March 31st, 1930.

Speaking in a general way, all the major activities have been reasonably successful. Conditions during the year have been favourable for farm operations. The weather was an average Fraser Valley year, and although prices for feedstuffs were average, the price for produce was always good.

In order to keep pace with the growth of the institution, production in every line has been increased. In the case of the Poultry Department, never a profitable one under our methods of handling, it was decided to close it out and transfer all our stock and worth-while equipment to the Boys' Industrial School.

Our force of work-horses has been maintained and five Clyde colts were raised.

The cow herd has been increased by the raising of heifers. The average production increased a little, and the type is steadily improving and the herd much more uniform than at any other time in its history.

The sheep flock is gradually being crowded out and it will not be long before this section will have to be discontinued.

Although we are not any more than fulfilling the institution needs with pork products, we had to curtail the hog herd on account of lack of accommodation, and until we acquire a curing-house and breeding-house we cannot report increase in this most important department.

I wish to again report to you that the spirit of co-operation and loyalty which I have enjoyed from the staff on the farm is largely responsible for the report which I have been able to hand you herewith.

Respectfully submitted.

P. H. MOORE, B.S.A.,
Farm Superintendent.

BURSAR'S REPORT ON COLONY FARM.

ESSONDALE, B.C., March 11th, 1931.

A. L. Crease, Esq., M.D., C.M.,
General Medical Superintendent of Mental Hospitals, Essondale, B.C.

SIR,—I have the honour to submit herewith balance-sheet and profit and loss statement, together with the various cost sheets covering departments of Colony Farm, for the fiscal year ended March 31st, 1930.

The profit and loss statement of the year under review shows a very handsome profit of $44,582.15, less allowed to the institution for patient-labour, $19,000, leaving a net profit of $25,582.15, as against a decrease in last year of $760. This large profit was made principally from the Dairy Department, cannery, potato-crop, and hogs. The Dairy Department showed a profit of $25,272.73, as against last year's $19,712.92, an increase of $5,559.81; while cannery showed $11,126.69, as against $8,558.47 last year. The potato-crop this year made a profit of $28,985.33, as compared with last year's $7,611.22, or an increase of $21,374.11. Last year the cost per ton was $8.03 and was put in at the market rate of $18 per ton, whereas the year under review the cost of production was $6.78, but charged to the institution at the market rate of about $47 per ton. The Hog Department, which is always a profitable one, increased its profits by $10,000 and is still unable to supply the full demand of the institution.

Against these various profits as outlined we have a heavy administrative expense, which this year totalled $43,899.18, against last year's $34,255.88, an increase of $9,643.30, made up principally of the following: Increase in salaries, $1,589.47; increase in the Public Works Department repairs and renewals, $2,966.69; and a loss in our inventories of equipment written off, $5,388.28; the difference being offset by a few decreases.

Attached you will find cost sheets of each department, which will furnish detailed information pertaining to every department at the farm.

All of which is respectfully submitted.

GOWAN MACGOWAN,
Bursar.
