The Honourable Leslie Raymond Peterson, LL.B., Minister of Education.

Report of the Superintendent of Education, 1958/59

EDUCATION OFFICE,
VICTORIA, B.C., January, 1960

To the Honourable Leslie Raymond Peterson,
Minister of Education.

SIR,—I beg to submit herewith the Eighty-eighth Annual Report of the Public Schools of British Columbia for the school-year ended June 30th, 1959.

ENROLMENT

The enrolment in the schools of the Province increased during the year from 277,070 to 291,223, and the average daily attendance increased from 252,490 to 267,052. The percentage of the regular attendance was 91.70.

The number of pupils enrolled in the various classes of schools is shown hereunder:—

Type of School	Number of Pupils Enrolled		
	Municipal	Rural	Total
Senior high schools	24,174	.....	24,174
Junior-senior high schools	45,450	1,209	46,659
Junior high schools	26,283	.....	26,283
Superior schools	2,437	135	2,572
Elementary-senior high schools	10,350	2,492	12,842
Elementary-junior high schools	7,219	120	7,339
Elementary schools	166,989	4,365	171,354
Totals	282,902	8,321	291,223

In addition to the number given above, there were enrolled:—	
In the High School Correspondence classes, regular students (exclusive of the 6,850 officially registered in other schools)	3,782
In the Elementary School Correspondence classes, regular students	1,304
Under section 20 of the *Public Schools Act,* pupils receiving instruction	45
	5,131
Adult education—	
Canadian Vocational Training Programme	3,633
Night-schools	40,846
Vancouver School of Art	222[1]
Vancouver Vocational Institute	6,766[2]
High School Correspondence (adults only)	7,255
Elementary School Correspondence (adults only)	296
Carried forward	64,149

[1] This figure includes 60 part-time students.
[2] Day, 2,143; night, 4,623.

Brought forward		64,149
Adult education—*Continued*		
Recreational and Physical Education classes		204,000[3]
Industrial and vocational teachers-in-training		106
Victoria College, regular credit courses—		
Arts, Science, Commerce	469	
College of Education	400	
Evening	217	
		1,086[4]
University of British Columbia		5,232[5]
		274,573

[3] This figure is a total course enrolment rather than a total of the adults in this category.
[4] This figure does not include an enrolment of 580 in the special evening classes.
[5] This figure does not include the following enrolments: 1958 summer session, 3,947; 1958/59 extra sessional classes, 1,247; correspondence courses, 853.

DISTRIBUTION OF PUPILS BY GRADE AND SEX

The following table shows the number of boys and girls enrolled in each grade for the school-year 1958/59:—

Grade	Boys	Girls	Total
Kindergarten	1,964	1,925	3,889
Grade I	17,411	15,485	32,896
Grade II	15,652	14,191	29,843
Grade III	15,165	14,012	29,177
Grade IV	14,808	13,740	28,548
Grade V	14,361	13,459	27,820
Grade VI	14,336	13,791	28,127
Grade VII	13,094	12,293	25,387
Grade VIII	11,332	10,434	21,766
Grade IX	10,672	10,036	20,708
Grade X	8,967	9,039	18,006
Grade XI	7,042	6,955	13,997
Grade XII	5,155	4,901	10,056
Grade XIII	660	343	1,003
Totals	150,619	140,604	291,223

DISTRIBUTION OF TEACHERS AND PUPILS ACCORDING TO THE DIFFERENT CLASSES OF SCHOOLS

The number of teachers employed in the different classes of schools, the number of pupils enrolled in each class of school, and also the average number of pupils per teacher are shown in the following table:—

Type of School	Number of Teachers			Total Enrolment	Percentage of Total Enrolment	Average Enrolment per Grade Teacher
	Grade Teacher	Special Instructor	Total			
Senior high schools	777	288	1,065	24,174	8.40	31.11
Junior-senior high schools	1,516	558	2,074	46,659	16.14	30.77
Junior high schools	814	321	1,135	26,283	9.15	32.28
Superior schools	95	3	98	2,572	.89	27.07
Elementary-senior high schools	450	65	515	12,842	4.41	28.53
Elementary-junior high schools	227	35	262	7,339	2.52	31.89
Elementary schools	5,192	343	5,535	171,354	58.49	33.00
Unclassified		155	155			
Totals	9,071	1,768	10,839	291,223	100.00	32.10

TEACHERS' CERTIFICATES

The following table shows the number of teachers employed and also the number with or without university degrees:—

Type of School	Number of Teachers		
	With Degrees	Without Degrees	Total
Senior high schools	839	226	1,065
Junior-senior high schools	1,419	655	2,074
Junior high schools	644	491	1,135
Superior schools	14	84	98
Elementary-senior high schools	140	375	515
Elementary-junior high schools	81	181	262
Elementary schools	489	5,046	5,535
Unclassified	65	90	155
Totals	3,691	7,148	10,839

COMPARISON OF ENROLMENT AND EXPENDITURE FOR PUBLIC EDUCATION

The enrolment in the schools of the Province for the various years since 1877/78 and also the cost of maintaining them are shown in the following exhibit:—

School-year	Number of Teachers Employed	Number of School Districts	Aggregate Enrolment	Average Daily Attendance	Percentage of Attendance	Government Expenditure for Education	Total Expenditure for Public Schools
1877/78	56	45	2,198	1,395	63.49	$48,411.14[1]	.....
1882/83	69	59	2,693	1,383	51.36	60,758.75[1]	.....
1887/88	128	104	6,372	3,093	48.54	113,679.36[1]	.....
1892/93	267	169	11,496	7,111	61.85	174,775.43	$215,056.22[2]
1897/98	429	213	17,648	11,055	62.64	290,255.26	425,555.10
1902/03	607	268	24,499	16,357	66.76	473,802.29	604,357.86
1907/08	816	189	33,314	23,195	69.62	544,671.60	1,220,509.85
1912/13	1,597	359	57,608	43,274	75.12	1,663,003.34	4,658,894.97
1913/14	1,859	374	62,263	49,377	79.30	1,885,654.11	4,634,877.56
1917/18	2,246	575	67,516	54,746	81.09	1,653,796.60	3,519,014.61
1922/23	3,118	744	94,888	77,752	81.94	3,176,686.28[3]	7,630,009.54[3]
1927/28	3,668	788	108,179	91,760	84.82	3,532,518.95[3]	9,261,094.98[3]
1928/29	3,784	792	109,588	94,410	86.17	3,765,920.69[3]	11,149,996.27[3]
1929/30	3,854	803	111,017	96,196	86.65	3,743,317.08[3]	10,008,255.66[3]
1930/31	3,948	811	113,914	99,375	87.23	3,834,727.19[3]	10,061,387.99[3]
1931/32	3,959	830	115,919	103,510	89.29	4,015,074.37[3]	9,719,333.81[3]

[1] The total expenditure for public schools borne by the Government.

[2] This amount does not include the expenditure (not available) made for incidental expenses in city school districts.

[3] This amount includes the annual grant from the Government to the Provincial University.

[4] This amount on calendar year 1955, exclusive of capital expenditure from by-law funds.

[5] This amount on calendar year 1956, exclusive of capital expenditure from by-law funds.

[6] This amount on calendar year 1957, exclusive of capital expenditure from by-law funds.

[7] This amount on calendar year 1958, exclusive of capital expenditure from by-law funds.

NUMBER OF SCHOOL DISTRICTS

The following table shows the number and classes of school districts in which expenditure for school purposes was made during the school-year 1958/59:—

Municipal school districts	73
Rural school districts	28
Total number of districts	101

SENIOR HIGH SCHOOLS

The enrolment in senior high schools during the school-year was 24,174; of this number, 12,262 were boys and 11,912 were girls. The number of schools, number of divisions, number of teachers, and the enrolment for the school-year 1958/59 in each district are shown in the following table:—

District Number and Name	Number of Schools	Number of Divisions	Number of Teachers	Number of Pupils
3. Kimberley	1	13	20	390
7. Nelson	1	18	24	510
11. Trail	1	32	41	822
22. Vernon	1	20	29	656
23. Kelowna	1	22	28	641
33. Chilliwack	1	31	39	921
34. Abbotsford	1	20	28	700
36. Surrey	5	81	113	2,717
38. Richmond	1	24	33	857
39. Vancouver	4	105	145	3,529
40. New Westminster	1	40	52	1,199
41. Burnaby	3	97	126	2,817

TEACHERS' SALARIES BY TYPE OF SCHOOL

The following table shows the highest, lowest, and average salary (in dollars only) paid to teachers in each type of school, grouped into grade teachers, supervising principals, and special instructors. Teachers earning less than $1,100 are excluded.

Grade Teachers

Type of School	Teachers	Low Salary	High Salary	Average Salary
Senior high schools	777	$1,320	$8,642	$6,171
Junior-senior high schools	1,516	1,100	8,950	5,741
Junior high schools	814	1,200	9,268	5,157
Superior schools	95	1,940	8,166	4,213
Elementary-senior high schools	450	1,100	9,205	4,664
Elementary-junior high schools	227	1,166	8,838	4,616
Elementary schools	5,192	1,100	9,310	4,320

Supervising Principals

Senior high schools	33	$8,275	$11,502	$9,795
Junior-senior high schools	64	7,842	11,860	9,475
Junior high schools	36	5,977	10,700	9,313
Superior schools	1	5,987	5,987	5,987
Elementary-senior high schools	21	4,790	10,240	8,403
Elementary-junior high schools	11	8,288	10,802	9,078
Elementary schools	12	5,977	10,028	8,646

Special Instructors

Senior high schools	255	$1,680	$9,923	$6,530
Junior-senior high schools	494	1,458	9,958	6,138
Junior high schools	285	2,430	9,486	5,672
Superior schools	2	1,100	5,470	3,015
Elementary-senior high schools	44	1,100	8,600	5,159
Elementary-junior high schools	24	2,922	9,470	5,524
Elementary schools	214	1,100	8,953	3,798
Unclassified	155	1,122	15,528	6,863

SALARY CLASSIFICATION

Distribution of teachers by $100 salary-groups, excluding teachers earning less than $2,100 per annum:—

Salary Range	Number of Teachers	Salary Range	Number of Teachers
$2,100–$2,199	16	$5,700–$5,799	185
2,200– 2,299	20	5,800– 5,899	158
2,300– 2,399	25	5,900– 5,999	138
2,400– 2,499	35	6,000– 6,099	122
2,500– 2,599	38	6,100– 6,199	121
2,600– 2,699	42	6,200– 6,299	87
2,700– 2,799	106	6,300– 6,399	161
2,800– 2,899	144	6,400– 6,499	114
2,900– 2,999	132	6,500– 6,599	115
3,000– 3,099	143	6,600– 6,699	137
3,100– 3,199	159	6,700– 6,799	124
3,200– 3,299	242	6,800– 6,899	106
3,300– 3,399	211	6,900– 6,999	113
3,400– 3,499	242	7,000– 7,099	100
3,500– 3,599	260	7,100– 7,199	157
3,600– 3,699	259	7,200– 7,299	208
3,700– 3,799	281	7,300– 7,399	168
3,800– 3,899	235	7,400– 7,499	119
3,900– 3,999	236	7,500– 7,599	183
4,000– 4,099	214	7,600– 7,699	81
4,100– 4,199	256	7,700– 7,799	32
4,200– 4,299	279	7,800– 7,899	84
4,300– 4,399	272	7,900– 7,999	28
4,400– 4,499	261	8,000– 8,099	27
4,500– 4,599	248	8,100– 8,199	28
4,600– 4,699	274	8,200– 8,299	23
4,700– 4,799	207	8,300– 8,399	24
4,800– 4,899	294	8,400– 8,499	28
4,900– 4,999	295	8,500– 8,599	11
5,000– 5,099	285	8,600– 8,699	22
5,100– 5,199	433	8,700– 8,799	30
5,200– 5,299	278	8,800– 8,899	29
5,300– 5,399	215	8,900– 8,999	18
5,400– 5,499	172	9,000– 9,099	25
5,500– 5,599	318	9,100– 9,199	15
5,600– 5,699	163	9,200 and over	201

EXPENDITURE FOR EDUCATION FOR CALENDAR YEAR 1958

(Exclusive of Capital Expenditures from By-law Funds)

Total expenditure by school districts		$91,279,662.00
Add Department of Education expenditures for—		
Administration, grants to University of British Columbia, services, etc.	$6,693,323.99	
Teachers, Pension Fund 6%	2,827,238.99

EXAMINATION SCHOLARSHIP AWARDS, 1959

University Entrance

The fifteen General Proficiency Scholarships, each of $500, awarded jointly by the University of British Columbia and the Chris Spencer Foundation, were won by the following:—

Place	Name	School	Per Cent
1st in B.C.	Donald Murry Duggan	J. L. Jackson Junior-Senior High	94.25
2nd in B.C.	Muriel Joyce Watney	University Hill Junior-Senior High	93.75
Area 1	Carol Dawn Beattie	L. V. Rogers Junior-Senior High	88.25
Area 2	Miriam Ann Roberts	J. Lloyd Crowe High	88.50
Area 3	Julie Anne Helene Lapeyre	Rutland Junior-Senior High	88.375
Area 4	Dennis Charles Healey	Abbotsford Senior High	93.625
Area 5	Sidney Sylvester Medley	Richmond Junior-Senior High	88.50
Area 6	Stephen Peter Beaton	John Oliver Junior-Senior High	92.25
Area 7	Marlene Rose Austrup	St. Patrick's Private School	91.25
Area 8	Diane Harlow	University Hill Junior-Senior High	91.75
Area 9	Muriel Kathleen Croker	Lester Pearson Senior High	90.375
Area 10	Louise Alice Compton	Delbrook Senior High	92.25
Area 11	Verna Beatrice Langan	High School Correspondence	86.625
Area 12	Carol Anita Harold	Mount View Senior High	92.625
Area 13	Linda Diane Clouston	Alberni District Junior-Senior High	91.375

The Governor-General's Silver Medal for the highest standing in the University Entrance Examinations was won by Donald Murry Duggan. The Governor-General's Bronze Meadal for the second highest standing in the University Entrance Examinations was won by Muriel Joyce Watney.

Grade XIII

The six Royal Institution Scholarships, each of $200, awarded by the University of British Columbia for general proficiency, were won by the following:—

Name	School	Per Cent
Kurt Frederic Gerhard Paulus	Como Lake High	93.6
Eileen Lois Goresky	Stanley Humphries Junior-Senior High	91.4
Patricia Anne Wilkinson	J. Lloyd Crowe High	88.0
Garry Ronald Jenkins	J. Lloyd Crowe High	87.4
Gerald Duane Palsson	Stanley Humphries Junior-Senior High	86.1
Sonja Edith Hansen	J. L. Jackson Junior-Senior High	84.4

GENERAL REVIEW

Many attempts have been made over the years to define what education really is, but most authorities agree that education does not lend itself to any precise definition. This is largely so because educational theory and practice are constantly changing and being adapted to meet new demands and new circumstances. "Education is never finite." It changes with the years and from place to place in any country. The schools reflect these changes through revised curricula and by a periodic restatement of aims.

In this country the school is looked upon as a unit of society where boys and girls learn the art of living in the fellowship of the school. In addition to acquiring certain basic skills, they have experience in leadership and service which will be carried over to adulthood. The purpose of the school is training for citizenship and all our educational resources are directed to this end.

Amendments to the Public Schools Act

At the 1959 Session of the Legislature about a dozen amendments to the *Public Schools Act* were made. These changes had become necessary in the light of experience by the School Boards and by the Department of Education during the relatively short period since the Act had been rewritten *in toto*. On the whole, however, the new Act has functioned smoothly and effectively. Time and events will again determine whether or not further amendments are necessary.

The Culmination of Centennial Activities

During the summer and autumn of 1958 the concluding celebrations of the Centennial Year took place, and Douglas Day, November 19th, was suitably commemorated by all the schools. British Columbia's centenary undoubtedly left a lasting impression upon the present generation of students, resulting in deep appreciation for the history and resources of their native province.

Canadian Education Association Convention

The Thirty-fifth Convention of the Canadian Education Association was held in Victoria, September 16th to 18th, 1958. Approximately 700 delegates from all Provinces were present and six Ministers of Education were in attendance. During the convention the Government of British Columbia was host at a dinner in honour of the visitors, at which time the Honourable the Premier delivered an address on "British Columbia—To-day and To-morrow."

The staff of the Department of Education and their wives were in charge of convention arrangements, while the Greater Victoria School Board, the Naval establishments at Esquimalt, and a local Army unit in a sunset and retreat ceremony generously contributed to the entertainment of our guests from other parts of Canada.

OBITUARY

The Department of Education and the Burnaby School District suffered a severe loss on July 10th in the death of Mr. Ray C. Grant, District Superintendent of Schools for Burnaby. Before his appointment to Burnaby in July, 1954, Mr. Grant had served as Administrative Assistant for eight years in the Department following his discharge from the Army in 1946. Mr. Grant was well and favourably known by educators and by School Boards throughout the Province. His friendliness and interest in people won him a host of friends during his career. We shall miss him greatly.

RETIREMENTS

At the close of the school-year Mr. Claude L. Campbell and Mr. Grove Carter, District Superintendents of Schools, along with Miss Bertha Rogers, Director of Home Economics, retired from active service in the Department of Education.

Both Mr. Campbell and Mr. Carter had been with the Department for many years in various parts of the Province and had given outstanding service first as Inspectors of Schools and latterly as District Superintendents. Miss Rogers, during a period of great expansion, provided fine leadership in Home Economics as an Inspector of Home Economics classes and as Director of the Branch. To these three persons the Department extends best wishes for a long and happy period of retirement.

APPOINTMENTS

The following school principals have been appointed as District Superintendents of Schools as from August 1st: Mr. W. H. Gurney, Kamloops Junior-Senior High School; Mr. P. B. Pullinger, Fort St. John Junior-Senior High School; Mr. C. C. Wright, Armstrong Junior-Senior High School; and, Dr. J. I. MacDougall, Cambie Junior High School.

A number of other appointments to staff, as replacements, were made during the year, as follows: Mr. J. Panton, formerly District Consultant, Community Programmes, Kelowna, succeeded Mr. L. J. Wallace in January as Provincial Director of Community Programmes; Mr. Philip Kitley, Director of School Broadcasts since 1945, was appointed to the position of Co-ordinator of Teacher Recruitment as of April 1st; Miss Margaret Musselman was promoted to the position of Director of School Broadcasts, while Mr. Ian Hay, a teacher from North Vancouver, was appointed Assistant Director; Miss Mildred Orr, Inspector of Home Economics classes, was promoted to be Director of the Branch as from August 1st, while Miss Jean Campbell, formerly of Lansdowne Junior High School, Victoria, was appointed an Inspector of Home Economics classes; Mr. V. E. Rickard, formerly in charge of the Industrial Arts teacher-training programme and more recently Director of the Vocational Training Development Division, Vancouver, was appointed Inspector of Industrial Arts classes.

A TRIBUTE

Mr. L. J. Wallace, who since 1954 had been Director of the Community Programmes Branch in this Department, was appointed on January 1st of this year as Deputy Provincial Secretary. It was he who laid the foundation of the Community Programmes Branch and organized the general pattern of the programme. His work in the Department and the inspiration he gave to his staff throughout the Province will long be remembered.

Mr. Wallace while Director of Community Programmes was also Chairman of the British Columbia Centennial Committee since its inception in 1956. British Columbia's centenary is now history. Under the guidance of Mr. Wallace the Centennial Year was an outstanding success in every respect. Two other members of the Department who served on the executive committee were Mr. Willard Ireland (honorary secretary) and Mr. Edwin Espley (honorary treasurer), both of whom made very significant contributions to the Provincial centennial celebrations.

ACKNOWLEDGMENTS

In concluding this report may I take this opportunity to thank all members of the Department of Education, including the District Superintendents of Schools in the field, for their unfailing assistance during my first year as Deputy Minister and Superintendent of Education.

I have the honour to be,

Sir,

Your obedient servant,

J. F. K. ENGLISH,
Superintendent of Education.

ADMINISTRATION BRANCH

REPORT OF G. W. GRAHAM, B.A., ASSISTANT SUPERINTENDENT OF EDUCATION (ADMINISTRATION AND SCHOOL BOARD RELATIONS).

School Districts

During the year a new rural school district was created at Good Hope Lake, located about 20 miles north of McDame. The boundaries of School Districts No. 60 (Peace River North), No. 79 (Ucluelet-Tofino), and No. 81 (Fort Nelson) were extended. The rural school districts of Sydney Inlet, Tofino Airport, and Camp Mile 163, Camp Mile 201, Camp Mile 392, and Camp Mile 456 along the Alaska Highway were abolished. Under the present *Public Schools Act* the villages of the Province are classed as municipalities, and representation was assigned to them, and the election of trustees has been carried out in the regular manner. There are 549 school trustees in the school districts of the Province, while eleven districts are served by official trustees.

Assistance to Isolated Areas

Pupils in isolated areas have been served by nine classes authorized under section 20 of the *Public Schools Act*. The enrolment was forty-five pupils.

Boarding allowance payments have been made to pupils in fifty-three school districts to an amount of $80,000, while transportation assistance payments approached $192,000.

Transportation

Transportation costs continue to rise in direct relation to the number of pupils being carried. Approximately 60 per cent of the pupils being carried are secondary pupils; five years ago more elementary than secondary pupils were being transported. The construction of smaller elementary schools in local areas is decreasing elementary transportation. Seventy-five of the eighty-two large school districts and two of the nineteen small districts provide transportation service. This involves the operation of 392 district-owned vehicles, 132 contract vehicles, and 10 water taxis. These vehicles travel 29,000 miles on 1,200 trips, carrying 46,000 pupils daily, at an annual cost of approximately $1,800,000. The average number of pupils carried per vehicle operating is 39.7, and the average cost per pupil-mile is 6 cents.

School Construction

One hundred and fifteen school-construction projects have been let to tender this school-year. These projects represent an expenditure of approximately $15,200,000. While these vary greatly in size, in total they produce over 600 classrooms with the auxiliary areas for administration offices and activity-gymnasium space.

Over this same period the demand for accommodation continues, and referenda amounting to $18,850,000 were passed by the electors of twenty-two school districts.

A survey submission of May, 1959, shows that approximately 90 per cent of the schools of the Province have the accommodation required under Provincial standards to meet enrolment needs of that date. Less than 100 schools showed need for additional accommodation at Provincial standards.

The Department's School Planning Division has provided plans and specifications to twenty-one school districts. Eight per cent of the expenditure for new buildings has been for Department-planned schools. One hundred and twenty-nine

sketch-plans and ninety sets of working drawings and specifications submitted by the architects for School Boards have been checked by the Division this year.

There has been a trend toward assigning a larger proportion of referenda funds to school-site purchase and development. The percentage amount has trebled in the past six years. No doubt much of this may be accounted for by the rapid increase in property value, but the trend toward larger sites and greater grounds development has had its impact.

GENERAL EDUCATIONAL SERVICES

INSTRUCTIONAL SERVICES

REPORT OF F. P. LEVIRS, M.A., M.S.(ED.), ASSISTANT SUPERINTENDENT OF EDUCATION (INSTRUCTIONAL SERVICES)

Under the general heading of " Instructional Services " appear the following divisions: High School Correspondence; Tests, Standards, and Research; Curriculum; Text-book Branch; Elementary Correspondence; Visual Education; School Radio Broadcasts; Home Economics. The director of each of these divisions submits his own report, but there are a number of activities lying outside the scope of any special division which should receive attention.

DEPARTMENTAL CONFERENCE

For the first time in over two years a conference of all officials of the Department was held under the general chairmanship of the Deputy Minister in the week of March 31st to April 4th. The business of the conference was largely the discussion of changes in policies and procedures necessitated by the revised *Public Schools Act* of 1958. The Department was honoured by having as its guests throughout the conference Dean Chant and Mr. Walrod, Chairman and member of the Royal Commission on Education, as well as representatives of the College of Education from both Vancouver and Victoria.

ACCREDITING OF SCHOOLS OFFERING GRADE XII

The Accrediting Committee welcomed a new member in the person of Mr. E. E. Hyndman, Chief Inspector of Schools, thereby raising its complement to three. During the year, 113 applications for accrediting were considered, and sixty-four of them accepted for accreditation. Of these, twenty-eight were accredited for three years, eleven for two years, and twenty-five for one year. Three schools were accredited for the first time. One was returned and two were removed from the accredited list. Schools previously accredited for 1958/59 numbered thirty-one.

ORGANIZATION OF SECONDARY SCHOOLS

The number of secondary schools increases each year, now being 14 per cent greater than in 1955. More significant perhaps is the tendency for high schools to become larger. In 1955/56, 31 per cent of the secondary schools enrolled 100 pupils or less. In 1958/59 this percentage had dropped to 25 per cent.

The most common secondary school is still the junior-senior high school, although the number of separate junior and senior high schools is increasing. A comparison by percentages of schools of various types and enrolment categories in the last four years is given on next page:—

Type	1955	1958	Secondary Enrolment	1955	1958
	Per Cent	Per Cent		Per Cent	Per Cent
Senior	14	14	Over 2,000	2	2
Junior	14	15	1,001 to 2,000	6	7
Junior-senior	30	32	501 to 1,000	23	29
Elementary-senior	25	22	251 to 500	21	19
Elementary-junior	3	7	101 to 250	17	18
Superior	14	10	Under 51	20	16

Electives Most Frequently Chosen

Advanced electives most frequently chosen by pupils have changed very little since 1953. In order of choice, the first ten are Chemistry 91, Biology 91, Mathematics 91, English 91, Physics 91, Geography 91, History 91, Home Economics 91, English 93, and Industrial Arts 91. About three out of five Grade XII students take a fourth year of mathematics and a third or fourth year of science in the form of chemistry or biology. Better than one out of three takes four years of science, including physics. Of the non-scientific courses, English 91, an advanced course in literature given in addition to the compulsory four years of English, is the most popular and is taken by almost two students out of five. The so-called " practical " courses lag in popularity, with Home Economics most in demand but ranking only eighth. The most marked increases in percentage enrolments have been in Art 91, Industrial Arts 92, Physics 91, and Geography 91, while enrolments in History 91, the foreign languages, and commercial subjects, although increasing, have not kept pace with the general growth.

Special Classes in Public Schools

The total number of teachers under entitlement engaged in special-class work remained the same as in the previous year. Fall-off in immigration decreased the number of special classes for New Canadians. There was also a drop in the number of " remedial " classes. The number of classes for slow learners increased proportionally. Statistics follow:—

Type of Class	Number of Teachers	Number of Pupils
Slow learners	114	1,753
Remedial training	13	219
Home instruction	4	(1)
New Canadians	19	252
Rehabilitation centres	4	39
Hospitals	12	240
Sight-saving	2	21
Preventorium	2	11
Detention home	2	18
Totals, 1958/59	172	2,553
Totals, 1957/58	172	2,664

[1] Varied.

Schools for Retarded Children

Legislation passed at the 1959 Session marked a great advance in the provisions for training of retarded children. Grants payable on behalf of eligible children in schools operated by local chapters of the Association for Retarded Children were increased by 50 per cent. School Boards were empowered to provide accom-

modation for association schools. Under certain conditions, Boards were permitted to operate special classes for mentally retarded children.

The number of children of school age in schools for the retarded has increased steadily since the first legislation was passed in 1956. In December, 1958, there were 402 eligible children in thirty-six schools, as compared with 309 in thirty-four schools the previous year.

Local Supervisory Personnel

As at December, 1958, the following teachers were employed in a supervisory capacity by local school districts: Three directors of instruction, forty-four supervisors of instruction, and thirty-six teacher consultants. During the year, certain other supervisors became, with the approval of the Council of Public Instruction, directors of instruction with power to report on classroom situations.

Qualifications of Teaching Staff

The proportion of secondary-school teachers in the total teaching force continued to increase, to 44.0 per cent in 1958 from 43.3 per cent in 1957.

The supply of elementary teachers showed further improvement, with a drop from 3.1 to 2.9 per cent in the percentage of unqualified teachers and an increase to 23.6 from 19.0 per cent of teachers with superior qualifications.

The supply of secondary teachers with full qualifications still fell short of the increased demand. Teachers with less than full qualifications made up 23.9 per cent of secondary-school staffs in 1958, even although the number of fully qualified secondary teachers had significantly increased and the number of those with at least six years of university training or its equivalent had reached 29.8 per cent of the total secondary-school staff.

The over-all quality and training of the teaching force showed steady improvement. The number of trained teachers with university degrees or equivalent training had increased to 39.3 per cent of all teachers employed. Even more remarkable, the number of those whose certification showed training of at least one more year than what was required for the position held increased to 26.4 per cent of the total teaching-body. The highest grade of valid teaching certificate, requiring six years of training, was held by 14.7 per cent of the total staff; the lowest grade, requiring only one year, by 10.6 per cent. This last type of certificate is conditional and interim, so that it should disappear from the scene almost entirely within the next few years.

Departmental Circulars

A routine function of this office is the preparation and distribution of all Departmental circulars except that of the Chief Inspector. These include the Administrative Circular, the Announcements Circular, the Curriculum Circular, and the Teaching Aids Circular.

The importance of these circulars lies in the fact that they are the only means of direct communication between the Department and individual Boards, schools, and field officers on matters of general policy. As their names imply, they offer information on such varied matters as legislation, regulations, curriculum changes, scholarships, and instructional aids.

The work involved in collecting, preparing, mimeographing, and distributing these materials to a mailing-list of approximately 1,800 persons and institutions occupies the complete time of all available office staff for approximately a week each quarter of the school-year.

Last year the approximate distribution was: Administrative Circulars, 11,202; Announcement Circulars, 11,834; Curriculum Circulars, 8,690; Teaching Aids Circulars, 8,460, for a total of 40,186 circulars. This involved 97,359 sheets of mimeographed material.

Other Regular Duties

1. Each October the actual teaching staff of each school district in the Province must be checked against the provisions of the *Public Schools Act* and of the rules of the Council of Public Instruction in order to ensure that it is within entitlement. The local districts may, of course, employ additional teachers at district expense should they so wish.

2. Early in the fall term each principal of a school enrolling pupils in Grade VII or above submits a sheet showing the organization of the school. The detailed information is essential to such divisions as Curriculum, the Text-book Branch, and Tests, Standards, and Research. In addition, studies of the returns offer data which have been useful in improving both general school organization and that of individual schools.

3. Throughout the year, information on many aspects of instruction and instructional administration are sent to schools through the District Superintendents. These cover such recurring items as retention, qualifications of teachers, placement of pupils, and analysis of examination results, as well as non-recurring items of importance as they may be significant.

4. The Instructional Services may and do carry out special studies for the Deputy Minister at his request. These generally involve the co-operation of several divisions and of personnel or school staffs.

INSPECTOR OF SCHOOLS AND SCHOOL SERVICES

REPORT OF E. E. HYNDMAN, B.A., B.PÆD., CHIEF INSPECTOR OF SCHOOLS

In reporting for the year 1958/59, it should be noted that the reorganization within the Department has made possible a different emphasis from this office. My predecessor, Mr. Levirs, has taken with him to his new position, as Assistant Superintendent (Instruction), the responsibilities for teacher entitlement, secondary-school organization, accreditation, and instructional surveys. As a result, it has been possible to maintain closer relationships with Superintendents, principals, and instruction procedures within the classroom.

As one method of maintaining this closer relationship with Superintendents, zone meetings were organized to meet twice yearly in six parts of the Province. These meetings provide for in-service training as well as opportunities for the group study of instructional problems. They are also an answer to the often-heard request for closer liaison with Department officials. As a product of these zone conferences, papers were prepared on " Dormitories " and the " Secondary Schools Acceleration Programme." In addition, there was a conference of Superintendents in Victoria during the month of April. Meetings of administrators, fall conventions, staff meetings, and the British Columbia Teachers' Federation workshop were attended for the purpose of co-ordinating instructional and supervisory practices.

During this year there were forty-seven Provincial Superintendents with seven others of this rank in School District No. 39 (Vancouver). They were responsible for the supervision of 10,920 teachers in public and Indian day-schools. The total number of written reports outside the City of Vancouver was 3,304, with more than 7,000 visits to classrooms for supervision purposes. Follow-up procedures were instituted for the supervision of teachers who were not considered satisfactory in the previous school-year.

In advancing the liaison duties of this Branch, a total of sixty-one school districts were visited during the year. Whenever it was feasible, School Board offices as well as the schools were visited for the purpose of discussing instructional matters. On occasion, staff meetings or meetings of district principals were held. In some instances, joint inspections were made with the local District Superintendent in both elementary and secondary schools. In every visit the opportunities to explain the purpose of Provincial regulations were utilized to advantage and, on the other hand, the district problems were described to Branch heads on the headquarters staff. Monthly reports from Superintendents on district affairs provided another means of maintaining contacts between field and headquarters staff.

Among the duties undertaken during the year 1958/59 are included membership on the Accreditation Committee, the Board of Examiners, the Curriculum Advisory Board, Promotional Policy Committee, Kindergarten Committee, the Advisory Board for the Retarded Children's Association, and the Planning Committee for the British Columbia Conference on Education. Bulletins were distributed among the District Superintendents on subjects of supervision and administrative importance. Special investgiations were made by request in School Districts No. 4 (Windermere), No. 1 (Cranbrook), No. 9 (Castlegar), No. 23 (Kelowna), No. 26 (Birch Island), No. 27 (Williams Lake), No. 47 (Powell River), and No. 76 (Agassiz). In addition, kindergarten classes in Vancouver and Victoria were visited and reported upon. As in previous years, this Branch inspected and wrote reports on teachers in the Jericho Hill School.

DIVISION OF CURRICULUM

REPORT OF J. R. MEREDITH, B.A., B.ED., DIRECTOR

Curriculum development during the past year has been concerned with three types of work. The first of these is the appraisal or evaluative studies begun last year in the fields of arithmetic, secondary mathematics, and reading. The results or findings from these studies have established both the need and the direction of a major revision in the arithmetic-mathematics curriculum and have indicated specific aspects of reading in which curriculum improvement can be made. It may be noted that in all three cases these programmes have certain excellent features. The need for change results largely from developments which have occurred since they were last revised some ten or more years ago.

The second type of study is the actual course revisions carried on in the fields of English, history, health and personal development, and physical education. The first two of these, which were primarily designed to increase the scope and significance of the senior elective courses, were completed for September, 1959. The last two present more complex problems, and it is expected that the revisions will take some time to complete.

The third type of study concerns experimental work. The Division of Curriculum has continued the experimental project in beginning the teaching of French at the elementary-school level in selected schools. This is now in its third year. A programme has been developed which, for the majority of pupils, has proved satisfactory for the purposes of teaching an elementary knowledge of speaking, reading, and writing the French language. The question of whether or not it is desirable to provide this teaching for all pupils in all schools has not yet been decided.

The Division has also been concerned with developing an experimental course in advanced mathematics for senior high-school students. In recent years, major developments have been taking place in the field of mathematics, and it is felt that some immediate steps should be taken to incorporate certain modern mathematical theories and concepts into a course specifically for those intending to proceed to further work in mathematics and the sciences.

Finally, mention should be made of the experimental work in curriculum being initiated by local schools and school districts. Reports of many of these projects indicate that local education authorities are pioneering significant developments in curriculum improvement. There are reports of special courses for gifted pupils, such as those in Burnaby, Vancouver, Trail, Penticton, and West Vancouver; courses to meet community needs, such as those at Alberni and Prince George; modified courses and special programmes in reading, handwriting, and science, such as those in Dawson Creek, the Fraser Valley, and Victoria. These are but a few examples of local initiative in action. They serve to show that curriculum is not so rigidly centralized as some have assumed it to be.

Reports of these developments also serve to emphasize that curriculum improvement is a complex and technical process. It cannot be accomplished merely through changing text-books, courses, and regulations by a central authority. Such procedures may have the appeal to those who attach great importance to standardization, to uniformity and ease of administration, but they lead to stereotyped teaching and learning and they place significant limitations on future progress. On the other hand, curriculum improvement cannot be entirely decentralized to become a " spare time " activity of local groups. This may have the appeal to those who feel that the individual teacher should be completely free to determine his own curricu-

lum, but it can lead to serious inefficiency, inequalities, and confusion of standards, all of which have unfortunate consequences for the public and pupil alike. Fundamentally, curriculum improvement is a continuing process of determining educational values and devising ways and means of securing these for all pupils in every classroom. As such, it needs the best advice obtainable, both centrally and locally, and it requires the people, the facilities, and the resources necessary to put this advice into practice. Thus conceived, curriculum development becomes increasingly important as a shared responsibility, the concern of everyone interested in the improvement of education throughout the Province.

Acknowledgment

As has been noted, curriculum development work in this Province could be regarded as a shared responsibility. During the year under review there were fourteen Curriculum Committees actively engaged in specific curriculum development work. They had a combined total membership of 126 people. These included lay members, University and College of Education personnel, principals, supervisors, and classroom teachers. Curriculum Division staff work with these Committees, attending as many meetings as possible. Travelling expenses and a token honorarium are paid by the Department. A typical Committee works through a series of two- or three-hour meetings held at least once a month or more frequently if the work requires it. It is common practice for these Committees to invite opinions and suggestions from other groups and individuals throughout the Province. Results of their work are prepared in the Department for approval and distribution to all schools. Rarely has this approval been withheld.

Grateful acknowledgment is given herewith to all those who have contributed their time and professional advice to the improvement of the curriculum.

Provincial Curriculum Advisory Board

This Board held four regular meetings during the year to consider reports on curriculum developments and advise on curriculum policy. Acknowledgment is made herewith of the very helpful advice and significant recommendations given by the members of this Board during the year.

Curriculum Development

Specific curriculum development work was undertaken throughout the year as follows:—

A. *Elementary Schools*

1. *Arithmetic.*—An appraisal of the programme and text-books for Grades III to VI was completed.

2. *Reading.*—An appraisal of the reading programme for elementary schools was completed.

3. *Science.*—A total of ten text-books were studied and a new text was selected and prescribed for Grade VI.

4. *Social Studies.*—A study of suitable texts for Grades IV to VI was begun.

5. *Elementary French.*—This experimental project was continued for the third year and expanded to include classes in Grades V to VII in selected schools. A course for Grade VII was developed, tried out, and revised.

6. *Library.*—A total of 269 books submitted during the year were reviewed, and 185 were recommended, classified, and included in the quarterly lists of approved books for school libraries.

B. *Secondary Schools*

1. *English.*—Revision of the Grade XIII literature course was completed. A total of thirty-nine books were studied, and four were selected as prescribed texts for this course.

2. *Social Studies.*—The senior elective course in modern world history was revised. A total of over fifteen books were reviewed, and two were selected as prescribed texts for this course. A study of suitable atlases was begun for the senior elective geography course.

3. *Mathematics.*—An appraisal of the courses and texts in mathematics for Grades IX to XII was completed. Plans were made for undertaking some experimental work in the senior elective course with selected classes of students.

4. *Health and Personal Development.*—Revisions in these programmes were continued.

5. *Home Economics.*—A total of twenty-eight books were studied, and two were selected as prescribed texts for the basic Grade XI–XII course.

6. *Library.*—A total of 229 books were reviewed, and 162 were recommended, classified, and included in the quarterly lists of approved library books for secondary-school libraries.

7. *Commerce.*—A study of basic equipment facilities required for commerce courses was begun.

8. *Bible Readings and Bible Literature.*—A revision of the prescribed Bible readings and Bible literature courses was begun.

C. *Selection of New Text-books*

The following new text-books were authorized for use in the public schools:—

1. Science, Grade VI: *Experimenting in Science* (Ginn).
2. Commerce 33, 43: *Retail Marketing and Merchandising* (Gage).
3. English 100:
   Antigone (Nelson).
   St. Joan (Longmans).
   A Little Treasury of Modern Poetry (Scribners).
   Masters of the Modern Short Story (Gage).
4. Home Economics 30:
   Nutrition for Today (McClelland & Stewart).
   Experiences with Foods (Ginn).
5. History 91:
   The Later Modern World (Clarke, Irwin).
   The Twentieth Century and the Contemporary World (Clarke, Irwin).

INDUSTRIAL EDUCATION

REPORT OF J. S. WHITE, DIRECTOR OF TECHNICAL AND VOCATIONAL EDUCATION, AND REGIONAL DIRECTOR FOR CANADIAN VOCATIONAL TRAINING.

Due to the constantly and rapidly increasing need for the many types of vocational training, this Branch experienced its busiest year to date.

The growth in this field of education has necessitated the appointment of an Assistant Director, Mr. T. A. Quayle, and all offices, office procedures, and related work have now been integrated under the direction of a chief clerk.

During the year the Provincial Government authorized a survey over the whole of the Province to " determine the needs of vocational and advanced technological training in British Columbia." This was arranged in conjunction with the Federal Government, which appointed Mr. D. E. Bridge to undertake such a survey in co-operation with Mr. J. S. White, the Provincial Director. The results are now being prepared prior to being submitted to the Royal Commission on Education.

For the first time since Provincial vocational schools were established, a system of payment of fees was introduced for those trainees able to meet such costs. During the period April 1st, 1958, to June 30th, 1959, a total of $28,441 was received from this source.

Almost all of our training is provided under the Vocational Technical Training Agreement No. 2, together with a new agreement entitled " Special Vocational Training Projects Agreement," effective for a period commencing April 1st, 1959, to March 31st, 1964, and which replaces the Vocational Training Agreement previously in effect from April 1st, 1954. The following details briefly outline the type of training provided under this new agreement with the Federal participation shown as percentages:—

	Per Cent
Schedule C—Vocational Correspondence Courses	50
Schedule G—Training for Federal Government Departments	100
Schedule H—Assistance to Students	50
Schedule K—Training of Service Tradesmen	100
Schedule M—Training of Unemployed	50
Schedule P—Training in Primary Industries	50
Schedule Q—Training of Foremen and Supervisors	50
Schedule R—Training of Disabled Persons	50

Schedule H refers to students at universities, institutes of technology, and nurses-in-training, whilst Schedule P embraces agriculture, forestry, fishing, mining, and homemaking.

This year under the Vocational Technical Training Agreement No. 2, the Federal Government shared 50 per cent of operational costs up to a total Federal contribution of $190,600 plus an amount of approximately $360,000 as its share of capital costs. Contracts were awarded for the completion of the first eight buildings of the new Trades and Technical Institute at Burnaby, and it is expected that the school will be operational by the end of 1959. On completion of the first stage, this school will have cost some $1,400,000, with $500,000 additional for equipment, financed equally by both Governments. In spite of these facilities and even before they are completed, it will be necessary to rent space to meet present needs. During the current year all classes continued to operate in temporary quarters in

the Pacific National Exhibition grounds at Hastings Park, and considerable improvization was necessary to avoid loss of training time, and it is hoped that such arrangements will not have to be repeated.

Both the Dominion-Provincial Vocational Training School at Nanaimo and the Vancouver Vocational Institute continued to operate at full capacity, and details of training at these two schools, together with the Federal-Provincial Trades and Technical Institute, and various other courses are provided later in this report. The bulldozer operators' course at Nanaimo completed eleven different community projects and deservedly earned the appreciation of the severally interested groups within that area.

The Vancouver Vocational Institute, operated by the Vancouver School Board and strongly supported financially by the Provincial Government, works in close co-operation with the Technical Branch, and many students undergoing training are sponsored through Schedules M and R. In addition to this, courses in practical nursing and power sewing are provided by the institute on behalf of the Department.

Vocational Curriculum Development

This section of the Branch has had an unusually busy year and has produced much-needed and excellent courses of study.

Apprentice programmes have been prepared for courses in bricklaying, electricity, painting and decorating, plastering, plumbing, and steel erection, whilst revisions were made in carpentry, metal lathing, and sheet metal. For pre-apprenticeship and pre-employment training, courses of study in boat-building, electronics, electricity, and plastering were set up, in addition to tentative courses in welding, industrial refrigeration, and aeronautics mechanics.

This division has produced many thousands of copies of prospectuses for the three vocational schools and a series of examination papers in automotive mechanics which, with the exception of the Province of Quebec, were accepted across Canada. The purchase of books for all our vocational training has been centralized within the Curriculum Development Division, and libraries are in the process of being established.

Private Schools (Vocational)

An important feature of vocational training is the use made of private schools throughout the Province. There is a constant demand for entry into varying types of vocational training offered in certain approved schools, and the Selection Committee on Training directs suitable applicants for different periods of training up to a maximum of one year and provides financial assistance for such trainees.

Advisory Committees

The provision of the correct type of training necessitates advisory committee work on a wide scale so as to ensure that all interested and closely connected sources are given an opportunity to contribute toward efficient programmes by the use of their specialized knowledge.

Vocational Training in Senior High Schools

This aspect of vocational training for Grades X, XI, and XII students is included in the Federal-Provincial Training Agreement, and during this year no less than fifty high schools were involved in such training.

Supervisory Training

This division was widely used by public and private companies, associations, institutions, and government departments. Training is conducted at the Department's Vancouver premises and in some instances in the establishments of private concerns. Enrolment data are included later in this report.

Vocational Night-schools

Some sixty separate schools were approved as centres of night-school vocational training throughout the Province (*see* student enrolments for further details).

Vocational-teacher Training

The training of vocational industrial teachers is the responsibility of the Technical Branch of the Department of Education, with the Federal and Provincial Governments sharing the costs equally.

With the exception of a six-week summer session for the training of vocational teachers at the University of Toronto, all vocational-teacher training is in-service training. During the past year thirteen instructors attended the University of Toronto, and thirteen in-service courses were offered in the Lower Mainland area. A total of fifty-six vocational instructors participated in one or more of the in-service courses.

Excluding those teachers engaged in vocational work in the senior high schools of the Province, approximately 100 vocational teachers were engaged on a temporary basis to accommodate short-term day classes for apprentices.

INDUSTRIAL ARTS

During the year new accommodation and expanded facilities to teach Industrial Arts were provided in Burnaby, Cowichan, Mission, Prince George, Peace River North, Powell River, Penticton, Quesnel, Revelstoke, Richmond, Surrey, Vancouver, and West Vancouver.

Forty-five new Industrial Arts teachers were required to staff the new accommodation and to replace teachers leaving the profession. Since the Industrial Arts teacher training programme was not able to train sufficient teachers to meet the need, six untrained teachers were employed during the year. Indications are that this trend will continue unless expanded accommodation and facilities are provided to train more Industrial Arts teachers.

The total number of Industrial Arts teachers, now 417, continues to show a steady growth. The total number of pupils participating in the Industrial Arts programme in the schools of British Columbia is as follows: Junior high schools, 29,199; senior high schools, 14,043.

INDUSTRAL ARTS TEACHER TRAINING

The Technical Branch of the Department of Education continues to operate a day emergency Industrial Arts teacher training programme for the College of Education of the University of British Columbia. The technical portion of this programme is conducted at the Vancouver Vocational Institute, while the professional courses are given on the University campus in the evenings. Students admitted to the emergency programme September 1st, 1958, numbered thirty-seven, and students completing the emergency programme June 30th, 1959, thirty-two.

Those students completing the emergency programme attend subsequent summer sessions to complete Bachelor of Education degree requirements.

The Technical Branch also continues to supervise the operation of the summer sessions for the technical training of Industrial Arts teachers for the College of Education.

A total of 167 Industrial Arts teachers participated in the 1958 summer session conducted at the Vancouver Technical School through the kind co-operation of the Vancouver Board of School Trustees. In addition to those Industrial Arts teachers attending the Vancouver Technical School, many participated in the professional and academic courses on the University campus.

HIGH SCHOOL CORRESPONDENCE

(Report prepared by Edith E. Lucas, B.A., D. ès L., Director.)

The total enrolment in the High School Correspondence Division during the year 1958/59 was 17,887. This figure shows an increase of 3,460 or 24.0 per cent over 1957/58. Of this enrolment, 10,632 were of school age (under 19 years) and 7,255 were adults. Thus 40.5 per cent of our students can be classified as

adults. (This figure is lower than that of 1957/58 because at that time 18-year-olds were classed as adults, whereas they are now classed as school age.)

Of the adult students, approximately 80 per cent or 5,800 were employed. Those not employed were mainly in correctional institutions, in hospitals or ill at home, on social assistance, or registered in schools.

Many adult students were completing their University Entrance requirements on the interrupted programme (928 students) or on the ex-service programme (165 students).

COMMUNITY PROGRAMMES BRANCH

REPORT OF J. H. PANTON, B.A., M.Sc., DIRECTOR

The Community Programmes Branch has gone through a period of continued expansion during the past year. Increased requests for services, new staff appointments, and a Province-wide increase in community recreation interest have presented the Branch with a greater challenge than ever before.

Although the intense interest in Centennial activities resulted in many communities devoting most of their time to this work, the number of Commissions continued to rise, and numbered 266 at the end of March, 1959. The steady increase in Commissions is indicated as follows: 1954, 86; 1955, 140; 1956, 183; 1957, 216; 1958, 250; 1959, 266.

The termination of Centennial activities has opened the door to increased development of community recreation; this is due to some extent because of the large number of recreation facilities built in British Columbia as Centennial projects. The use of these facilities will ensure future expansion of recreation programmes in British Columbia.

Services extended to Recreation Commissions by the Community Programmes Branch are:—

(1) Advice to public agencies and individuals on recreational matters by a staff of regional Recreation Consultants.
(2) Aid in recreation to the blind through White Cane Clubs organized by staff member Mr. Joseph Lewis.
(3) Large and comprehensive library of books, booklets, films, and filmstrips on innumerable recreation topics.
(4) Drama library and materials.
(5) Leadership training through workshops, conferences, clinics, regional schools, and an annual recreation summer school.
(6) Night-school grants for regularly organized night-school classes.
(7) Regular grants to Recreation Commissions to assist communities with paid recreation help and expenses.
(8) Special grants to those Recreation Commissions who conduct summer swimming and playground programmes.

The following is a list of the Recreation Commissions in British Columbia with the amount each one is receiving as a grant-in-aid:—

* Receiving grants for *directors'* salaries.
† Receiving grants for recreation *expenses.*

Recreation Commission	Annual Grant	Recreation Commission	Annual Grant

Three hundred and forty-four projects were completed to commemorate the British Columbia Centennial in 1958. It is most significant to note that 249 of these projects were undertaken to provide better facilities for recreation. This is indicative of the growing interest in community recreation in British Columbia to-day.

Recreation facilities built as Centennial projects were:—

Type	Number
Community halls	94
Park development	57
Sports grounds	23
Playground equipment	9
Swimming and wading pools	13
Bleachers and grandstands	7
Improvements to arenas	8
Senior citizens' homes	5
Curling-rinks	5

Type	Number
Ice and roller rinks	5
Tennis-courts	3
Ski lift	1
Bowling-green	1
Purchase of land for playgrounds	18
Total	249

Many of these projects were built as the result of advice and suggestions by the Community Programmes Branch staff of Recreation Consultants.

Staff

In August, reorganization in the Department of Education placed the Community Programmes Branch under the jurisdiction of Mr. Wallace with a new Director in charge of the Branch work. The appointment of Mr. Wallace to the post of Deputy Provincial Secretary resulted in the Community Programmes Branch becoming directly responsible to the Deputy Minister of Education and Night-schools became part of Community Programmes. The death of Mr. J. Mathisen, the resignation of Mr. R. Stangroom, and the appointment of Mr. J. H. Panton to the position of Director necessitated three appointments to the Consultant staff. Mr. D. M. McCooey, Mr. J. R. McKeen, and Mr. W. C. Patrick were placed in the North, West Kootenay, and Vancouver regions respectively. Mr. K. K. Maltman transferred to the Okanagan. The Victoria office staff underwent a complete change of personnel through the year.

Mr. G. Pynn was granted leave of absence from January 1st, 1959, to June 15th, 1959. During this time he completed his Bachelor of Science degree in education at Oregon State College.

The consultative staff and their regions are as follows:—

Consultant	Headquarters	Region
G. J. Pynn	Victoria	Vancouver Island.
J. B. Ostrom	Cranbrook	East Kootenay.
W. C. Patrick	Vancouver	Greater Vancouver and District.
D. M. McCooey	Quesnel	Northern British Columbia.
K. K. Maltman	Kelowna	Okanagan.
W. Mayers	Kamloops	Central British Columbia.
T. Ruben	Abbotsford	Fraser Valley.
J. R. McKeen	Nelson	West Kootenay.
J. Lewis	Vancouver	Instructor of Handicapped.
Miss Anne Adamson	Victoria	Drama Adviser.

Leadership

The Summer Leadership Training School was discontinued because of Centennial work.

Nine regional conferences were held during the past year; total attendance was 260. These conferences are for community leaders in recreation and are organized on an annual basis throughout the Province.

Two annual playground clinics in the Okanagan and Kootenays serve all the Kootenays and the Okanagan-Central British Columbia area. A total of sixty-five playground leaders attended.

Forty-one regional clinics, workshops, and institutes held throughout the Province were attended by 2,420 people. The clinics are on the request basis and touch all phases of recreation work.

One annual leadership school was held at Kitimat, with an attendance of thirty. Regional leadership schools are a new development, designed to make training programmes available to more people without loss of time from work. Three of these are scheduled for 1959/60, and indications are that they will become very important in the future.

Special aid for swimming and playground activities was as follows: Number of communities, 53; total cost, $3,285; number attending, 529,001. (One individual is marked for attendance several times; for instance, total attendances in Nanaimo programme were 40,548.)

The demands for leadership aids are increasing faster than the Community Programmes Branch is able to meet them. This is an extremely important phase of recreation service to communities.

British Columbia Recreation Association

The second annual convention of the British Columbia Recreation Association was held on May 8th and 9th, 1959, in Vancouver. The sessions discussed many aspects of recreation and provided invaluable information for the 110 delegates in attendance.

A feature of this convention was the interest evidenced in recreation by many communities; this resulted in the submission of many resolutions designed to improve public recreation in British Columbia.

Mr. R. Gould, of Trail, was elected new president, and the third annual convention will be held in Trail in 1960.

Requests for Library Services

Films sent to communities amounted to 701, and books and booklets, 11,000.

Communities received free pamphlets and mimeographed material, for which no record is kept. Besides the above there are innumerable requests for information concerning many aspects of recreation.

Trail Survey

Under the direction of Mr. J. B. Ostrom, Recreation Consultant for East Kootenay, Mr. R. McKeen, West Kootenay Consultant, and Mr. Ostrom conducted a recreation survey of the City of Trail. This project took some four months of work and was undertaken by the Community Programmes Branch as an experiment in cost and procedure. When completed, the City of Trail will study the recommendations and be guided by them in the organization of the future recreation structure in the community.

The experience of the survey will provide the Community Programmes Branch with a knowledge of procedure and costs, which will be invaluable as a guide for future work in this field.

Regional Changes

The Central British Columbia region has been extended northward to Williams Lake and west from Williams Lake to Bella Coola, which includes all the Chilcotin area. This has been done to make it easier for the Northern Consultant to provide service to the communities in that area.

Drama

This division of Community Programmes, under the direction of Miss Anne Adamson, continues at an almost unprecedented growth. Excluding school drama

clubs, there were 250 active community drama groups, comprising approximately 7,500 individuals. Twenty-eight drama festivals were held throughout the Province.

The British Columbia one-act drama festival finals, held in Trail, terminated a series of festivals throughout the Province which were of better than average standard, and in most communities where the festivals were held they played to capacity houses.

The finals in Trail were very successful. Top honours were won by the Lake Cowichan Drama Club with " The Disguises of Arlecchino."

At the annual meeting of the British Columbia Drama Association, held in Trail, May 30th, Mr. Franklin Johnson, of White Rock, was installed as president for 1959/60. Mr. Johnson is an outstanding personality in this work in British Columbia and will bring great understanding and enthusiasm to this office.

The Community Programmes Branch is fortunate in having highly qualified and enthusiastic persons co-operating with it to further dramatic activities in the Province. These individuals act as adjudicators at the many festivals and conduct clinics, classes, and workshops throughout the Province to further drama. The Extension Department of the University of British Columbia co-operates with this Branch in this most important aspect of drama development.

Drama services available from the Community Programmes Branch include:—

(1) Advisory services are made available to communities on all aspects of drama development.
(2) Assistance is provided in training local leaders in the skills and techniques of the theatre.
(3) A drama library service is maintained to lend technical books or plays to persons or community drama groups. These materials are listed in the drama catalogue, which is available to all groups.
(4) A limited supply of stage equipment is available for loan.
(5) Grants are provided to assist local and school groups in the staging of various festivals.

NIGHT-SCHOOLS

REPORT OF J. H. PANTON, B.A., M.Sc., DIRECTOR

The night-school programme operated by local School Boards continued to grow in course content and participation. The programme now reaches into many communities in British Columbia and offers such an interesting and varied list of activities that it appeals to a very representative cross-section of society.

Courses offered are of two types, namely:—

(1) Vocational, technical, or industrial courses operating under Dominion-Provincial agreements. These courses include such subjects as Typing, Book-keeping, Engineering, Mechanics, Commercial Art, Carpentry, or any subject an individual takes to increase his ability in this vocation.

(2) Cultural, recreational, or academic courses which fall into the general field of adult education. Courses in this category include almost all academic subjects, and all sports, hobbies, crafts, arts, and other leisure-time pursuits.

All night-school classes which are approved by the Department of Education receive grants on behalf of instructors' salaries. Grants are also provided for the salaries of night-school directors or principals. Under the Dominion-Provincial agreement additional grants are provided for instructors' salaries and equipment for vocational courses only.

The following local School Boards conducted night-school programmes, either vocational or non-vocational, during the academic year 1958/59:—

Alberni.
Abbotsford.
Agassiz.
Alert Bay.
Arrow Lake.
Burnaby.
Belmont Park.
Campbell River.
Castlegar.
Chilliwack.
Coquitlam.
Courtenay.
Cowichan.
Cranbrook.
Creston.
Delta.
Fernie.
Fraser Canyon.
Grand Forks.
Greenwood.
Howe Sound.
Kamloops.
Kelowna.
Keremeos.
Kimberley.
Kitimat.
Kootenay Lake.
Kettle Valley.
Lake Cowichan.
Langley.
Lillooet.
Maple Ridge.
Mission.
Nanaimo.
Nelson.
New Westminster.
North Vancouver.
Ocean Falls.
Peace River North.
Peace River South.
Penticton.
Powell River.
Prince George.
Prince Rupert.
Princeton.
Qualicum.
Quesnel.
Revelstoke.
Richmond.
Salmon Arm.
Saanich.
Sechelt.
Southern Okanagan.
Smithers.
South Cariboo.
Summerland.
Surrey.
Tahsis.
Trail.
Vancouver.
Vanderhoof.
Vernon.
Victoria.
West Vancouver.
Windermere.

Growth in Night-school Programme

Year	Number of School Districts	Number of Enrollees	Number of Instructors
1953/54	49	19,969	842
1954/55	55	22,280	948
1955/56	57	29,335	1,186
1956/57	60	33,565	1,328
1957/58	62	36,611	1,401
1958/59	64	39,188	2,259

Vocational

Year	Number of Instructors	Number of Enrollees
1955/56	357	9,040
1956/57	440	11,582
1957/58	477	11,118
1958/59	454	12,419

Non-vocational

Year	Number of Instructors	Number of Enrollees
1955/56	829	20,291
1956/57	888	21,983
1957/58	924	25,493
1958/59	1,805	28,427

Approximately 140 different subjects were offered in the night-school programme in British Columbia. Most popular classes—that is, those which attract the largest enrolment—are:—

Vocational—

1. Typing.
2. Carpentry.

Non-vocational—

1. Physical and Social Recreation.
2. Craft courses.
3. Homemaking.
4. Academic courses.

English for New Canadians had the highest attendance of all night-school classes. Approximately 2,708 students attended classes in English for New Canadians.

During the year a questionnaire was forwarded to all night-school directors asking for opinions concerning conferences of night-school directors. The replies indicated a keen interest in both Provincial and regional meetings of this nature, with a large majority favouring regional meetings. It was felt a Provincial conference would be helpful every three or four years.

In April of 1959 a regional conference of night-school directors was held in Kelowna and proved very helpful to those in attendance.

Seventeen people attended the Kelowna conference, as follows: Directors, 8; School Boards, 3; and School Superintendents, 2.

Dr. B. E. Wales, Director of Vancouver Night School, and Mr. J. S. White, Director of Technical and Vocational Education, were guest speakers. The Community Programmes Branch was represented by Mr. J. H. Panton, Director, and Mr. K. K. Maltman, Recreation Consultant for the Okanagan.

As a result of the Kelowna meeting, suggestions were mailed to all night-school directors and plans are being formulated to establish more regional meetings and to consider a Provincial meeting for the spring of 1960.

The night-school programme conducted by the various School Boards is an ever-expanding one, intending to meet the needs and wishes of the general adult population. The growth that is evident is a reflection on the desire of the general adult population to either advance themselves academically and vocationally or an awareness of the value in leisure-time and recreational pursuits. Night-school classes serve all these functions, and the popularity of the night-school programme is because it continues to offer and expand training in vocational, academic, and recreational activities, which are essential aspects of our modern society.

HOME ECONOMICS

REPORT OF MISS BERTHA ROGERS, B.Sc. (H.Ec.), M.A., DIRECTOR

Total number of students taking Home Economics:—			
Elementary schools		1,944	
Junior high schools		23,481	
			25,425
In Grade VII	11,288		
In Grade VIII	9,645		
In Grade IX	4,480		
Boys	12		
	25,425		
Jericho Hill School			31
Senior high schools			12,025
Technical students			36
High-school boys		173	
Indian schools			49
In elementary grades (Grades VII and VIII)		26	
In senior grades		23	
		49	
Correspondence courses, taken under supervision of teacher who is not qualified to teach senior Home Economics			329
Total, public schools			37,895
Private schools—			
In elementary grades		213	
In senior grades		452	
			665
Grand total			38,560

In the public schools of the Province there are 172 Home Economics centres, 10 in private schools, and 2 in Indian schools, making a total of 184 centres. This shows an increase of 8 centres over the total of last year.

	Centres	Rooms
One-room centre	71	71
Two-room centre	72	144
Three-room centre	29	87
Four-room centre	6	24
Five-room centre	3	15
Six-room centre	1	6
Seven-room centre	2	14
	184	361

During the 1958/59 session, a new Home Economics centre was opened at Vananda, in the Texada Elementary-Senior High School.

New schools including Home Economics centres were opened as follows:—

Burnaby—Central Senior High School (two rooms).
Coquitlam—Winslow Junior High School (two rooms).
Penticton—Princess Margaret Junior High School (one room).
Prince George—Connaught Junior High School (two rooms).
Surrey—
Johnston Heights Junior High School (one room).
Shannon Junior High School (one room).
West Whalley Junior High School (two rooms).
Vancouver—Thompson Junior-Senior High School (four rooms).
Victoria—Oak Bay Senior High School (two rooms).
West Vancouver—Hillside Junior High School (two rooms).

Additional Home Economics rooms were included in the following schools: Chemainus (one), Fort St. John (one), Richmond (one), Surrey—Queen Elizabeth Senior High School (one), and Semiahmoo Junior-Senior High School (one).

At Williams Lake, the Williams Lake Junior-Senior High School was moved to a new building.

During the 1958/59 session there were 350 teachers of Home Economics in the schools of British Columbia, showing an increase of eleven over the total for last year.

Again this year, an extra-sessional course in Home Economics was offered by the University of British Columbia, and was conducted by Mrs. Doris Johnson at New Westminster. Mrs. Johnson was formerly an instructor on the Home Economics staff of the University of British Columbia.

Miss Mildred C. Orr, B.A. (Brit.Col.), B.S. (Oregon State), has been appointed as Director of Home Economics, to succeed Miss Bertha Rogers, who retired at the end of July, 1959. Miss Jean Campbell, B.Sc. (H.Ec.) (Man.), M.A. (Columbia), has been appointed as Inspector of Home Economics. She has had twelve years of teaching experience in the public schools of British Columbia.

JERICHO HILL SCHOOL

(A Special School for Aurally or Visually Handicapped Children)

REPORT OF C. E. MACDONALD, LL.B., B.S., LL.D., SUPERINTENDENT

The enrolment for the year 1958/59 was divided as follows:—

	Day	Resident	Total
Blind or partial sighted	29	39	68
Deaf or hard of hearing	75	99	174
Totals	104	138	242

As in previous years, three deaf classes at the intermediate level were held in regular city schools—Lord Kitchener, Model, and Sir William Dawson. A small group of pre-school deaf children received part-time instruction on the campus, while valuable assistance was provided by the Canadian National Institute for the Blind in the training of pre-school blind children. Some assistance was provided for three blind pupils enrolled in regular public schools, and magna-type texts were loaned to a dozen partial-sighted children of elementary grades in various parts of the Province.

The general health of the resident pupils was particularly good during the past year, except, of course, for the usual incidence of communicable diseases. The Metropolitan Health Services provided excellent co-operation in the medical and dental areas for both day and resident pupils, under the direction of Dr. Reba Willits. The Health Centre for Children, too, rendered valuable assistance to the School in the screening of acoustically or visually handicapped children applying for enrolment.

General Remarks

During the summer of 1958 twenty-three students of special education at Western Washington Teachers' College visited our school. During the summer session of 1959 over a hundred students in special education classes at the University of British Columbia made a similar tour.

Four resident instructors and four teachers attended summer school in 1958 at San Francisco State Teachers' College for courses in special education, while a few more were enrolled at other centres. This year, again, ten teachers and instructors have enrolled in special courses at the University of British Columbia and elsewhere to advance their professional standings.

It had been deemed desirable for some time past to provide opportunity for training of eligible blind students in piano-tuning. Through the co-operation of the Canadian National Institute for the Blind and the Dominion-Provincial training programme, such an opportunity was made available for one of our seniors, Peter Schackwidt. During this past year he has successfully completed the first of a two-year course in piano-tuning at the Piano Hospital in Vancouver, Wash., operated by Mr. Fries.

A brief on the needs of handicapped children was prepared by a committee under the chairmanship of Dean Neville Scarfe for presentation to the Royal Commission on Education. Dr. MacDonald completed a questionnaire with regard to deaf and blind children, which was endorsed by the Advisory Committee.

Completion of Grade IX was established as the minimum requirement for a deaf department graduation academic diploma. A vocational certificate may be awarded on completion of the elementary programme of studies plus satisfactory completion of an approved vocational course at Vocational Institute or the like.

For the past eighteen years or so the School has remained in session during the Easter holidays and closed a week earlier in June than other schools to compensate. This year, however, for numerous reasons, our School observed the holiday period and closing-date prescribed by the Department of Education for all public schools of the Province.

On the recommendation of the Superintendent, the Advisory Committee decided to again provide pre-school instruction for severely hard of hearing and deaf 4-year-olds at Jericho Hill School. For the past several years this instruction had been provided at the Children's Health Centre. Following the Easter vacation, a group of seven children were given instruction two days weekly by Mrs. Hodson, a qualified teacher of the deaf.

In concluding my report, I wish to express sincere appreciation to the Department of Education, the Advisory Committee, staff, and volunteer workers for their sympathetic understanding and support throughout the past year.

CORRESPONDENCE SCHOOLS

High School and Vocational Courses

REPORT OF EDITH E. LUCAS, B.A., D. ès L., DIRECTOR

The total enrolment in the High School Correspondence Branch during the year 1958/59 was 17,887. This shows an increase of 3,460 students or 24 per cent over 1957/58. The following figures regarding our enrolment are of interest.

1. Age of Students

	Number	Per Cent
School age (under 19 years)	10,632	59.5
Adult (19 years and over)	7,255	40.5
Totals	17,887	100.0

2. Residence

Of the 17,887 students enrolled, 17,413 resided in British Columbia or the Yukon Territory. The remaining 474 resided outside British Columbia and the Yukon Territory. Of these 474 students, 302 were enrolled in courses covered by the Federal-Provincial Agreement on Vocational Correspondence Courses and were thus able to receive their courses at the rate charged to British Columbia students.

3. Attendance at School

Many students were in attendance at a school and were at the same time taking one or more courses by correspondence.

Number of Students Registered

Superior schools (no fee)	391
Small high schools ($5 per student)	1,665
Large high schools ($8 per course)	4,501
Private schools ($8 per course)	293
Totals	6,850

4. Reason for Taking Courses

The principal reasons for taking courses by correspondence and the number of students stating each reason are listed below.

Remoteness from a classroom	495
Services needed at home	31
Illness	416
Social assistance recipient	67
Incarceration in a correctional institution	876
Lack of the desired course in the school attended	3,692
Time-table difficulties	1,566
Failure in school	1,751
Employed	6,978

There were 534 school-age students who took a full grade of six subjects by correspondence. These students were mainly those who lived too far from a high or superior school to be able to attend, those too ill to attend school, and those in correctional institutions.

Of the adult students, 928 were completing their University Entrance requirements under the interrupted programme and 165 were completing under the ex-service programme.

5. Enrolment by Grade

Those students who could be called school students were classified as to grade, as follows:—

	Number	Per Cent
Grade IX	1,413	17.0
Grade X	1,984	23.9
Grade XI	1,909	22.9
Grade XII	1,897	22.8
Grade XIII	1,122	13.4
Totals	8,325	100.0

6. Fees

Students in superior schools and hospitals, inmates of correctional institutions, students living too far from a school to be able to attend, students needed at home, and those in receipt of social assistance were not required to pay fees. Students of small high schools (high schools with fewer than six teachers) were required to pay an annual fee of $5 each. Other students paying fees were those who have the privilege of attending a high school having six or more teachers, gainfully employed students, students enrolled for Senior Matriculation courses, and students living outside this Province.

7. Completion of Papers

A total of 178,246 papers were marked during the year, which is an increase of 20,010 (12.7 per cent) over the number of papers marked in the preceding year. We have five-, ten-, twelve-, eighteen-, and twenty-paper courses.

8. Instructional Staff

An inside staff of four course-writers and an outside staff of seventy-six instructors were employed during the year.

9. New and Revised Courses

The following new and revised courses were offered during the year: Auto Mechanics 20, German 90, Homemaking 30A, Homemaking 91A, History 101, Elementary Geology and Mineralogy 29, Mathematics 10, Shorthand 31.

10. Courses

The number of students who enrolled in each of the high-school subjects during the year was as follows:—

English Literature 10, 20, 30, 40, 100	2,615
English Language 10, 20, 30, 31, 40, 101	2,699
Social Studies 10, 20, 30, 32, 33	1,797
Health and Personal Development 10, 20, 30	812
Mathematics 10, 12, 20, 30, 91, 100, 101	4,716

Science 10, 20	1,036
French 10, 20, 91, 92, 110, 120	1,137
German 10, 20, 90, 91, 92, 110	554
Latin 10, 20, 91, 92, 110, 120	566
Spanish 10, 20, 91, 92, 110	373
Agriculture 10, 20, 38, 39	321
Art 10, 20, 39	646
Homemaking 10, 20, 30, 91	978
Record-keeping 11	788
Typewriting 10, 20	1,691
Mechanical Drawing 10, 20	119
Bible Literature 10, 20, 30, 40	89
Extramural Music 11	28
English and Citizenship 19, 29	608
Business Fundamentals 24	274
Electricity 20	227
Elementary Geology 29	107
Frame-house Construction 29	80
Sheet-metal Work 20	2
Auto Mechanics 91, 92	641
Shorthand 21, 31	309
Book-keeping 34, 91, 95	633
Economics 92	73
History 91, 101, 102	558
Geography 91	175
English 32, 91, 93, 99	134
Radio and Wireless 30	255
Metal-mining 30	9
Forestry 30	205
Biology 91	289
Chemistry 91, 101	277
Physics 91, 101	350
Home Furnishing 23	69
Secretarial Practice 92	28
Diesel Engines 91	83
Law 93	122

Vocational Courses

Accountancy for Credit Unions	11
Air Navigation I, II	24
Aviation	16
Dressmaking	24
Electricity for the Buiding Trades	67
Glove-making	2
House Painting and Decorating	18
Industrial Mathematics	133
Mathematics for Steam Engineering Second Class	14
Spherical Trigonometry	15
Steam Engineering Fourth, Third, and Second Class	413
Steam Heating for Plant Operators	342
Preparation for Citizenship	23

English for New Canadians

During the year this division supplied 5,368 students with material from our course in English I for New Canadians, 1,433 students were supplied with material from the English II for New Canadians, 380 students took the course in English 19, and 106 students took the course in English 29 by correspondence. In addition, 365 students were enrolled in the course " Preparation for Citizenship." Classes in English were held in fifty-three night-school centres, and material was supplied for other classes and individuals in about 100 small isolated places throughout the Province.

Elementary Correspondence School

REPORT OF ARTHUR H. PLOWS, DIRECTOR

During the school-year 1958/59 there were 1,304 pupils enrolled in Elementary Correspondence School. Of these, 1,210 were enrolled at Victoria and the remainder, 94, at Pouce Coupe in the Peace River District. The tables below show the enrolment by month and grade for each centre.

ENROLLED AT VICTORIA

	Grade I	Grade II	Grade III	Grade IV	Grade V	Grade VI	Grade VII	Grade VIII	Total
September	127	95	94	99	78	78	63	60	694
October	163	116	114	125	90	95	80	90	873
November	177	125	117	135	100	104	80	103	941
December	186	125	122	142	102	108	83	118	986
January	200	136	122	153	105	120	95	131	1,062
February	208	138	126	156	107	129	102	139	1,105
March	218	140	134	163	110	130	103	149	1,147
April	215	145	141	162	115	130	108	152	1,168
May	214	153	143	168	117	134	108	157	1,194
June	208	152	148	173	120	137	110	162	1,210

ENROLLED AT POUCE COUPE (PEACE RIVER BRANCH)

September	13	9	6	7	6	2	5	4	52
October	15	9	6	8	6	2	5	4	55
November	19	10	7	8	6	2	5	4	61
December	22	12	8	9	8	2	5	7	73
January	23	13	11	9	9	5	6	8	84
February	23	13	11	9	9	5	6	8	84
March	23	14	11	9	9	5	7	9	87
April	22	15	11	9	9	7	7	9	89
May	23	15	11	9	9	9	8	9	93
June	22	16	11	9	9	10	8	9	94

The number of papers marked in the two centres were as follows: Victoria, 138,924; Pouce Coupe, 8,849; total, 147,773.

In addition to the number of pupils and papers shown above, 296 students were enrolled in the Adult Section and 7,011 papers marked.

Thus the services of the School were used by 1,600 individuals and 154,784 papers were marked.

As an additional service, kindergarten courses and kits were sent to seventy-seven pre-school age children.

During the year a study was made of format of lesson material, and appropriate attractive title sheets were designed by Mr. George Sinclair, staff art instructor.

The Victoria staff consisted of the Director, thirteen instructors, and a clerical staff of five; at Pouce Coupe, one instructor in charge and one assistant.

The School suffered a great loss in the passing of Miss Mildred U. Barker, a dedicated teacher, who had served the children of the Province for over thirty-five years, the last thirteen of which were spent in correspondence instruction. She was greatly loved and respected by her colleagues and her pupils.

TEXT-BOOK BRANCH

REPORT OF P. G. BARR, DIRECTOR

In presenting my last, the twenty-ninth, annual report and the tenth covering the Text-book Rental Plan, it is pleasant to look back over such an extended period of successful growth. Well-laid plans were properly carried out, the net result of which has been so beneficial to the parents, teachers, and students of the Province. While I expect to be in my present position for most of the next school-year, I will not write the report for that year, so I hope the following simple comparative statements will be of interest.

In 1931 the Text-book Branch was completely reorganized and became the wholesale school-book dealer for the Province. While continuing to supply public schools with free text-books, etc., we took over control of the purchase and fixed the resale price of all B.C.-prescribed text-books. By arranging for consolidated shipments, water transportation, and by other devious means, costs were cut and text-books were sold throughout the Province at a common reasonable price. Prior to reorganization, a $1 book in Victoria or Vancouver might sell for $1.50 in Atlin or Michel, and pupils had difficulty in obtaining the proper books at the right times.

In 1932 there were 116,800 pupils in our public schools, and it cost $52,000 to supply the elementary grades with free text-books. Books to the value of $115,000 were purchased by the Branch that year, and the total revenue was $182,300.

This year, 1959, there were 309,000 pupils in our public and private schools registered with us, and it cost $571,000 to supply the elementary grades with the free text-books. Books to the value of $1,455,000 were purchased by the Branch, and our total revenue was $1,496,000. A comparison of the above figures will illustrate the growth of our Province and highlights the added responsibility this growth imposes on offices whose duty it is to anticipate and cater to such conditions.

In 1949 the British Columbia Text-book Rental Plan was introduced as a Government-subsidized scheme to enable students in a Province which maintained a free, non-sectarian educational system to participate fully in the system without penalty through the purchase of expensive text-books. All British Columbia students since 1949 have, in Grades VII to XIII, been able to obtain the prescribed text-books for a small annual rental fee, and the average subsidy over the ten-year period has amounted to little more than the salary and wages paid to the office staff. The average subsidy over that period, $97,000, is in fact less than half the amount to which the Government agreed when the plan was introduced.

While the Text-book Rental Plan is not a compulsory one, all pupils are participating voluntarily. The following figures from our Rental Plan statistics should be of interest. In 1949, 59,600 pupils in Grades VII to XIII were issued Rental Plan books valued at $440,000. That year we collected $190,000 in rental fees, including $9.32 for lost and wilfully damaged texts.

In 1959, 120,000 pupils in public and private schools, in Grades VII to XIII, were issued Rental Plan books valued at $695,000 and we collected $578,000 in rental fees, including $28,700 for lost and damaged books.

Over the ten-year period many books have been prescribed for use for the first time in our schools; the cost of this new issue has had an average annual value of $131,000. The average value of all books issued under the Rental Plan amounts to $469,000 per year.

The overhead costs, which include salaries, outgoing transportation, etc., apportioned to the Rental Plan in 1949 were $42,000, and in 1959 they were $50,600. This is an increase of but 20 per cent, which is almost incredible when during that same period the pupil enrolment, with its attendant expense, work, and responsibility on this office, increased some 200 per cent.

It is hoped that the above summary of our statistics will completely justify the statements made in the opening paragraph of this report.

Although our building is too small, antiquated, and unsuitable, we have during the school-year supplied the free and Rental Plan text-books, various forms, programmes of study, etc., to the schools and School Boards as and when required. Orders for books from the various dealers throughout the Province were completed promptly.

To purchase and distribute the free supplies during the school-year 1958/59 to public and private schools, and to corespondence students, required an expenditure of $570,643.96; 4,655 free requisitions were received and filled. This is an increase over the previous year of $22,192.26, although the actual number of requisitions shows a decrease of 109. The combined orders, free and saleable, reached a total of 20,906. From these orders a total of $956,908.62 was collected and deposited in the Treasury, an increase from the previous year of $71,474.34 and 483 orders. A total of 2,639 Rental Plan requisitions was received, checked, and completed, and $586,412.49 in rental fees and remittances for lost and damaged books was collected and deposited in the Treasury. This was an increase of $152,335.90 over last year. During the year $6,607.35 was refunded to the pupils who left the school system prior to March 31st. This represents an increase of $1,703.15 for the year.

The proper carrying-out of all of the detail involved in the above required the willing co-operation of an efficient staff, school officials, and particularly secretary-treasurers of the various School Boards. For this splendid co-operation, we are happy to officially record our thanks.

For the many courtesies we have received from dealers throughout the Province, from my friends in the Yukon, and from " all sorts and conditions of men " in and connected with our schools, public and private, over the last thirty years, many thanks. I ask, and feel sure, this happy condition will be extended to my successor.

The accompanying financial statements are for the fiscal year 1958/59 and are presented in the form required by the Audit Branch and include the tenth covering the Text-book Rental Plan.

Stock

The stock on hand in our warehouse, $495,453.93, is valued at the publisher's price plus incoming freight. The rental stock in the various schools, $660,973.59, is valued on the same basis, less depreciation. No allowance is made for the costs involved in moving the stock from the text-book warehouse to the various schools.

Sales

The sales amounted to $1,137,134.51, less a discount of $219,453.20. Our revenue over expenditure for the fiscal year is $64,893.59 after deducting salaries and other overhead expenses.

Rentals

We received $577,885.90 in rental fees, which is an increase of $154,953.30 or 36.64 per cent over the previous year. The increase in fee revenue is due to the increase in rental fees charged to the students. This is the first increase to students

since the plan was started ten years ago. It will be noted that the combined operations of the Branch, sales and rentals, were carried out at a total cost to the Government of only $35,403.78.

STATEMENT OF REVENUE AND EXPENDITURE, MARCH 31ST, 1959

Sales

Revenue—			
Sales			$1,137,134.51
Less discount			219,453.20
Net sales			$917,681.31
Deduct cost of sales—			
Inventory, March 31st, 1958	$527,698.92		
Purchases for year (cost, freight, duty)	759,909.39		
		$1,287,608.31	
Inventory, March 31st, 1959		495,453.93	
Cost of sales			792,154.38
Gross profit			$125,526.93
Expenditure—			
Salaries and wages		$45,060.84	
Packing and general expenses		3,863.01	
Freight and delivery		11,204.97	
Sundry expenses		504.52	
			60,633.34
Excess of revenue over expenditure for the fiscal year ended March 31st, 1959			$64,893.59

Text-book Rental Plan Operations

Rental fees collected			$577,885.90
Opening rental inventory, March 31st, 1958		$583,537.48	
Plus purchases for year (cost, freight, duty, and S.S. tax)		694,998.48	
		$1,278,535.96	
		1958/59 Depreciation[1]	
Inventory, March 31st, 1957	$564,764.78		
Less three years' depreciation at 33⅓ per cent per annum	564,764.78	$188,254.92	
Inventory, March 31st, 1958	$592,923.85		
Less two years' depreciation at 33⅓ per cent per annum	395,282.58	197,641.29	
	$197,641.27

DIVISION OF SCHOOL RADIO BROADCASTS

REPORT OF MARGARET A. MUSSELMAN, DIRECTOR OF SCHOOL RADIO BROADCASTS

School radio broadcasts are extensively used both in the schools where specialist teachers are on staff and in schools where teachers feel the lack of special training. The aim in planning the programmes is to supplement the work of the teacher through resources of this Department and the Canadian Broadcasting Corporation. Live and recorded music, world actuality, research, the work of experts—beyond the resources of individual schools—are made available to all schools and to correspondence students.

The Work of the Radio Broadcasts Branch of the Department of Education

1. *The planning of the year's programmes.* Two hundred and forty-eight programmes were aired, of which 160 were prepared by British Columbia. The remaining eighty-eight were prepared by the other three Western Provinces or the National School Broadcasts Department of the Canadian Broadcasting Corporation. The Director for British Columbia served in an advisory capacity for these eighty-eight.

2. *The preparation of scripts.* The script-writers were commissioned to write scripts after discussion on purpose and course content. The scripts when submitted required varying amounts of editing, revision, and rewriting in this office.

3. *The providing of programme guides and supplements.* (*a*) This included the preparation of a Teachers' Bulletin outlining the year's broadcasts and of supplementary booklets for music, art, and French.

(*b*) The packaging and mailing of the publications, as follows: Teachers' Bulletins, 9,500; Pictures in the Air, 4,000; Junior Music, 16,000; Intermediate Music (Manitoba), 40,000; Ecoutez, 9,500. (The quantities ordered were insufficient to meet requests by schools.)

4. *The auditioning and rehearsing of students and choirs used on broadcasts.*

5. *The supervision of actual studio production.* The Canadian Broadcasting Corporation undertakes the production after the script is in its final form. Either the Director or the Assistant Director is present at all production rehearsals, being responsible for relations with schools and for educational points which might arise.

6. *The maintaining of contact with schools for suggestions, daily and annual evaluations, and for pupil participation.* School visiting throughout the Province was unfortunately drastically curtailed by reason of pressure of work.

7. *Teacher-training.* Illustrated discussions of the use of school broadcasts were conducted with classes of the College of Education, both in Victoria and Vancouver, during the regular and summer sessions.

Response to School Broadcasts

The following figures are based on the reports on Use of School Broadcasts, 1958/59, submitted by 77.68 per cent of British Columbia schools.

1. Sixty-eight per cent of schools participated in school broadcasts. (This is about 2 per cent lower than in 1957/58, partially accounted for by CJAT (Trail) discontinuing carrying the broadcasts to many schools in the surrounding districts.) While this is a good percentage, more schools could participate with (*a*) better

radio reception; (*b*) a tape-recording service; (*c*) appropriate stations, for example CJAT (Trail), CHWK (Chilliwack), CJVI (Victoria), carrying the broadcasts. A little under 92,000 pupils heard school broadcasts.

2. The consistently most popular series rated by numbers was Song Time (primary music), with 1,100 classes participating. As valuable, with a more restricted audience, was Ecoutez (French), with 307 classes participating.

Ratings and numbers participating in other series, including art, social studies, science, creative writing, literature, intermediate music, govern our planning for other years.

Television

No educational television programmes were released to schools in British Columbia this year. Reports of E.T.V. in other Provinces and countries were checked. The Director acted in an advisory capacity for a Canadian Broadcasting Corporation national series to be aired in early 1960. Initial planning was done for a proposed western regional series for fall of 1960. This would be a co-operative project of the Departments of Education of the four Western Provinces and the Canadian Broadcasting Corporation.

Relations with Other Organizations

The success of school broadcasts is dependent upon the continued co-operation of the schools, School Boards, District Superintendents and Supervisors, Parent-Teacher Associations, the Canadian Broadcasting Corporation, private radio stations, and the Department of Education. We are most appreciative of the interest and help given us by all these groups. It is a large factor in making the work of this department interesting and rewarding.

DIVISION OF TESTS, STANDARDS, AND RESEARCH

REPORT OF C. B. CONWAY, B.Sc., M.S., D.PÆD., DIRECTOR

The appointment of a Royal Commission on Education with broad terms of reference to investigate the British Columbia educational system was announced on January 17th, 1958, and many of the activities of the Division have been directed toward the provision of information for the Commission since that date. Mr. P. W. Easton was assigned to the Division office to bring previous studies of enrolment, immigration, high-school graduation, pupil achievement, teacher certification, etc., up to date and to initiate new studies, for example, of beginning teachers and reasons for withdrawals from the profession. In addition to its present value to the Commission, his conscientiously collected data will be of great value for comparative studies.

Intermediate Form T of the Metropolitan Achievement Test and Form B of the Pintner General Ability Test had been administered to 5,485 Grade VII pupils in 1948. Financial assistance received from the Commission enabled the study to be repeated in 1959 in half the British Columbia schools. The other half was given the same intelligence test and a special British Columbia edition of the new Metropolitan, Advanced Form A, which will make it possible to provide norms based on pupils in equivalent mental-age groups and also to add data in several fields not covered by Form T. Eight achievement scores were reported for each pupil to whom the older edition was administered and fourteen for each Form A pupil. Including intelligence data, the number of items of information obtained by hand scoring in this survey exceeded 450,000, and the number of pupil subtest scores reported exceeded 335,000. In addition to twenty-four sets of norms, various classifications of pupils according to sex, age, mental age, geographical location, and type of school are being investigated.

A continuation of the study of standards in high-school French produced norms based on the administration of the British Columbia High School French Test to 897 French 92 pupils. The test previously had been administered to French II and French III students in 1950 and French 20 students in 1958. Students at the University Entrance level who have taken French 92 as an advanced elective course have a much better knowledge of French than that held by the old French III group in 1950. It must be noted, however, that the French 92 students have had four years of instruction instead of three. In addition, they make up a much more highly selected group, being only one-fifth as large in proportion to the original population, and having mean I.Q.'s of 119 instead of 113. Those who continue with the study of languages at the university level will be much better prepared than those who took the former three-year programme, but it is regrettable that only 5.5 per cent of our elementary-school population complete the four-year high-school programme in French.

Repetition of the study of scholastic aptitude of public-school Senior Matriculation students that was done in 1954 showed a slightly greater range of ability, but the same average, in 1959. Of the 880 for whom information was obtained, 687 had continued directly from Grade XII while 193 were new-comers or students with interrupted programmes. The reliability of the test over a one-year interval was .874, and changes in selectivity of the Senior Matriculation subjects since 1954 were slight. The distributions obtained in 1959 have been used to adjust and extend the standards for Senior Matriculation examinations. Students' I.Q.,'s obtained a year

earlier at the University Entrance level indicate that the Senior Matriculation students were a normal University Entrance group, most selection having taken place at previous grade levels.

What is probably one of the most extensive independent studies of kindergarten, private kindergarten, and non-kindergarten pupils has been completed to the end of the Grade III level and will be reported later. A forced-selection technique was used to rate adaptation to school, and report-card grades for health habits, general behaviour, and work habits were analysed for 22,298 S.D. 39 and 61 pupils. Interesting side results of the investigation are the differences in range of report-card grades issued by certain teachers, the high relationship between adaptation to school and subsequent achievement as measured by standardized tests, the excess of retardation over acceleration, and the tremendous sex differences that were found. About 70 per cent of the poorly adapted pupils were boys, and twice as many boys were poorly adapted as well adapted. In thirty-four out of thirty-six comparisons that were made, the achievement of girls was higher than that of boys of similar mental age. This study emphasizes the importance of the development of "readiness," particularly among boys, and may lead to the rather radical suggestion that boys need to be admitted to school for about five months of additional adaptation or readiness training.

DIVISION OF VISUAL EDUCATION

REPORT OF J. R. POLLOCK, B.A.Sc., DIRECTOR

Submitted herewith is the circulation report of the Division of Visual Education covering the period September 1st, 1958, to August 31st, 1959:—

There were 897 schools registered with the Division for regular loan service.

There are 3,051 motion pictures, 5,048 filmstrips, 645 picture sets, 95 dioramas, and approximately 700 stereographs being circulated from this Division.

EDUCATION OF SOLDIERS' DEPENDENT CHILDREN ACT

REPORT OF MRS. FREDA KINSMAN, SECRETARY TO THE COMMISSION

During the school-year 1958/59 a total of 217 applications were considered by the Commission. Of these, twenty-six were turned down, the chief reasons being that family income was higher than that set by the Commission for grant purposes.

One hundred and ninety-one applications were approved for grants, an increase of fifteen over the previous year. Students were distributed by grades as follows: Grade IX, 51; Grade X, 49; Grade XI, 49; Grade XII, 42. During the year eleven students dropped out and grants were discontinued.

The students in the greatest financial need received $113.80 for the year; the balance received $98.80. In addition, thirteen students who showed outstanding ability were granted a bonus of $25.

STATISTICAL RETURNS
